Chapter 115 - Part 2: Killed

After having another look at the Monster. She vanished from the scene and reappeared next to her teammates. Everyone is relieved to see this. It's the same old routine. The Wind sword attack was seen by Ms. Arlene. She hasn't quite gotten there yet.

Time and time again, She has witnessed the attack. It had a positive impact on her. 'Captain,' she said as she turned to face her captain. That Monster was slain in less than a minute. "Having you alone is still an overkill for that Monster," She commented.

Everyone nodded when they heard that. With a little smile on her face, Ms. Norma responded. However, it quickly vanished. She took a few steps back and looked around. It's total annihilation. She sighed when she realized this.

"It's fortunate that the level 4 Monster didn't go on a rampage sooner." She pondered in her head. She was well aware that level 4 and higher monsters existed. Their mere presence alone is capable of wreaking havoc.

However, the Monster has now been defeated. It's time to look for any more Monsters that might be lurking around here. She looks at the faces of Ms. Arlene and others. "I've already explained it to you. It's simple to defeat the level 4 Monster. The main job, though, is to locate Monsters that are similar." Everyone nodded in agreement.

"Ms. Shannon assigned this assignment to us because of our bloodline," she said. We were born with the ability to fly. We can traverse more ground with Elite level Power."

Everyone was listening intently. "This area of the Black Forests is used for training purposes. To combat Level 2 Monsters. There are various weird level 2 Monsters in this Black Forest.

The majority of them had something to do with Earth Elements. This Worm species is also an earth element Monster, as you can see. As a result, we must look for more level 4 Monsters. Also, get rid of the Peak level 3 Monster." Ms. Norma calmly conveyed the situation to her teammates.

Everyone smiled and nodded. Following that, the Eagle team began looking for other prospective locations.

...

Mr. James, on the other hand, had already reached the edge of the precipice. He felt earthquakes from the ground the entire way. However, after a few minutes, it came to a halt.

When the shaking stopped, he realized the battle was done. However, getting to the cliff took him more than half a day. He looked up from time to time to see Eagle Squad. "Looks like they've got some other tasks," He reasoned. Because this is the only way to reach Station town.

After that, you'll get to the cliff. He was perfectly relaxed. Before continuing on his quest, He intends to relax. This area is still under a weak signal zone. He still has a long way to go before he can find a suitable location.

...

When Mr. James arrived at the edge of the cliff. The Eagle team had previously looked several potential places. Maps of the black forest were supplied to them. All of the red and blue specks were recorded. Their quest will be a lot easier now that they have this knowledge. However, they will still need a few days to accomplish all of the Black Forest zones.

...

Meanwhile, after a few hours. Mr. James made contact with the administration office as well as Mr. Dawson. They were relieved to discover that Mr. James was unharmed. Mr. Alvin sends Mr. Dawson to fetch him up right away.

Mr. James had been waiting for a long time. He got word that Mr. Dawson was on his way. As time passed, Mr. James heard a noise. He pushed himself up from the dirt. When he saw the vehicle, his lips curled slightly.

When the vehicle came to a complete stop. Mr. Dawson took a step out of the car. When he saw Mr. James, he raced up to him and hugged him tightly. "You took a great risk this time. Mr. Dawson smiled as He continued, "I'm pleased you're okay." Mr. James reciprocated with a hug and a light pat on the shoulder before saying, "Let's go."

A few hours later, Mr. Dawson began driving. Mr. Dawson recalls something on the way. "I know you're psychologically fatigued," He murmured, leaning in close. "Did you respond to Zack?" "It's fantastic that you prepared the stuff in time," Mr. James stated with a smile after hearing that.

"If Zack stayed back during this commotion," He added. It's difficult to keep a few things hidden. Because it's a confidential matter. He could be a target."

Mr. Dawson became aware of the problem when he heard that. On the surface, it appears to be a level 4 Monster problem. However, it is the soil that is causing the problem. The monster was able to reach the mid-level as a result of it. If the soil has any secrets.

Any information relating to it becomes top secret as a result. The study team is still a few days away from arriving. They have been told not to come here until the situation has stabilized.

Mr. Dawson has a fresh gleam in his eyes now. He thought, Mr. James, considered the major issue and made a swift choice. To return Zack to the home. Mr. James is merely thought to be observing the Monster.

He doesn't want Zack to know. As a result, no one is pursuing Zack and Mr. James. He also sent us back earlier. Which also saves us.

"Thank you, Mr. James," He said, looking at Mr. James. Your rapid decision saved not only Zack's life, but also the lives of our teams.

A shiver ran down his spine as he realized. That, if they found anything in the soil, they would silence us. When he considers the prospect. "Now we don't have to think about anything else," Mr. James stated after hearing that. Because we need to inform them as it is. Not adding anything further on this topic"

Mr. Dawson's anxiety calmed when he heard that. He consoled himself by thinking, "Yes, we can tell them, We are survivors of this attack.. And they won't do anything to us."
