

BloodLine 1171

Chapter 1171: Part 1: Ancestor Dylan Ball's Inheritance

From MC's Perspective:

Soon, I returned to the Thunderflame Faction. Then I went back to my residence. I have a serious problem right now.

I need some time to figure things out. It didn't take long for me to get back to my residence. I ignored all the glares of the members.

After getting inside the room, I locked the door. Then I went to my room and lay on the bed.

"What am I going to do with the elements?" I asked myself.

Dean Jerome told me to lie to everyone. But I don't know how to use the variant water element. For that, I need the bloodline method of the Ball Family.

In the end, she was right. I won't be able to survive in the Inner Hall without using the elements. Sooner or later, there would be a situation where I had to use elements.

"Damn," I uttered in a low tone.

If I have to be serious, then I should be happy. Like Dean Jerome said, the more inheritance, the more powerful the warrior will become.

But the Dean and the Faction Leader Francesca didn't know that I have one more inheritance already. After giving it some deep thought, I decided to accept the bloodline method.

The ancient voice had also said that the bloodline method would be a good cover. No one would doubt my abnormal strength then.

Meanwhile,

Dean Jerome learned about Zack Lockwood's activities from the Purple Mark Guard. The Purple Mark Guard has been appointed as the secret protector of Zack Lockwood.

Oldman Jerome made the decision before the opening of the old secret land.

Now that Zack Lockwood has become a Black Mark Rank Warrior, he has been assigned an official position to the Purple Mark Guard. Zack Lockwood's importance has risen compared to before.

The Purple Mark Guard knows about the Dean's plan as well. The Dean had told him everything so that he wouldn't get confused.

The Purple Mark Guard was shocked after learning the truth. He didn't expect Zack Lockwood to come from the Ball Family.

In order to keep it a secret, they have made Zack Lockwood lie. The Purple Mark Guard already started to feel pressure.

Warriors with ancient inheritance are prime targets for foreign creatures. If they knew, they would send an army of foreign creatures to eliminate the target on the battlefield.

But here, Zack Lockwood has not one but two ancient inheritances. One of them is the Bloodline Inheritance.

Dean Jerome turned toward the Purple Mark Guard.

He said, "Bring Francesca here. I want her to give the bloodline method to Zack Lockwood."

"If that kid doesn't practice soon, he will be exposed," he added.

The Purple Mark Guard nodded before disappearing from the spot.

Oldman Jerome was serious. He thinks that warriors in the Inner Hall might continue to challenge Zack Lockwood.

Even if Zack Lockwood doesn't want the duel, he might be forced to fight back.

Swoosh!

Shortly afterward, the Purple Mark Guard brought Francesca Ball here.

Upon seeing her, Oldman Jerome said, "Francesca, give the bloodline method to Zack Lockwood. Once he gets started, I'll send the kid for the task of destroying foreign creatures."

Francesca nodded her head before leaving. She had already brought the family treasure with her.

It didn't take her long to reach the Thunderflame Faction. She went inside the territory easily. Only the Faction Leader Clifford could catch her.

But he was busy with some other matter.

She came to Zack Lockwood's residence in the blink of an eye.

Knock!

Inside the room, I felt someone knocking at the door. Hearing that, I frowned. I knew the other warriors wouldn't dare to joke around.

Since I'm a Black Mark Warrior right now, they least wanted to offend me. Then I got out of bed to open the door.

I came to the door and opened it. The next second, I saw Faction Leader Francesca Ball.

"Faction Leader?" I uttered in surprise.

I was just thinking about her, but I didn't expect her to arrive so soon.

Francesca smiled before walking into the house.

Seeing her walk casually into the house, I was dumbfounded. Then I closed the door before following her.

When I came to the living area, she sat on the sofa before looking toward me.

"I have brought the bloodline method with me. Are you ready?" she asked.

I raised my eyebrows in surprise. The worries in my heart swept away. Then I thought of something important before asking, "Faction Leader, I have one doubt."

Francesca was surprised, but she nodded to me.

"I want to know the strength of Ancestor Dylan," I asked her.

Francesca was taken aback. Then she realized she had the same doubt in her prime days.

She said, "Ancestor Dylan was a Titled God."

Hearing that, I felt like a thunderclap struck my head. My other two inheritances were the same. Even the Guardian God was a Titled God.

I never expected she belonged to such a family.

Francesca said, "It was a long time ago. Now it has become difficult for us to become Purple Mark and Red Mark Warriors."

I asked, "Why?"

"Our power comes from the bloodline. If the bloodline is pure, then we will be more in tune with the bloodline method."

"We can break through faster. But after successive generations, not everyone has a high bloodline."

"So we have created several bloodline methods from the original method. Now everyone can practice according to their bloodline purity."

"But you are different; you can practice the original method," Francesca said.

Hearing that, I was shocked to the core. I underestimated the power of ancient inheritance. Not everyone gets ancient inheritance.

So people are practicing with their suitable methods. But the Ancient Inheritance has the upper ceiling. No wonder Dean Jerome was so serious.

I could really make a difference on the battlefield.

"What happened?"

"Are you ready?" she asked.

Hearing that, I nodded to her.

Francesca then took out a black box from her storage ring. The black box emanated an ancient vibe right away. My gaze was fixed on the box.

Chapter 1172: Part 2: Ancestor Dylan Ball's Inheritance

From MC's Perspective:

Looking at the ancient black box, my heart started to beat faster. I'm hoping that the Bloodline Inheritance would go well with the other two inheritances.

Faction Leader Francesca opened the black box. The next second, a blue crystal came into view.

Seeing that, I was stunned. I had never seen such a pure crystal before, especially one of that blue color.

"Do you know how to use your mental power?" she asked.

Hearing that, I was dumbfounded, but I nodded to her.

"Inject your mental power into it; the information will appear in your mind," she said.

Hearing that, I tried to use my mental power on the crystal ball. When my mental power touched the crystal ball, the next second, new information appeared in my mind.

The information was too vast, and a splitting headache was causing me pain.

Francesca nodded her head in approval before closing the black box. Then she stored the box in her storage ring.

“When it comes to the Bloodline Inheritance method, it’s easy. As long as you comprehend it, you will understand what to do,” After saying that, she stood up to leave.

I touched my forehead. Seeing that she was leaving, I followed her.

Francesca exited the place and saw Zack Lockwood having trouble.

“Take a good rest first.” After saying that, she disappeared from the spot.

“That’s it,” I uttered in shock.

I thought she would provide a few hours of explanation, but there was nothing like that. Then I closed the door and went back to bed to lie down.

Like she said to me, I’m going to comprehend the Bloodline Inheritance after taking a rest.

Meanwhile,

Francesca reported to Dean Jerome after coming back to her faction.

...

The Dark Variant Faction:

Faction Leader Vince was having a meeting today. The meeting was about the foreign creatures destruction task.

The faction members had asked for additional warriors, and they were discussing how many members to send.

During the conversation, someone reported about Ronnie Seth joining the Inner Hall.

Faction Leader Vince and the others couldn't help but think about the kid, Zack Lockwood.

Old Man Vince asked, "Did anyone see that kid entering the Inner Hall?"

"Faction Leader, which kid?" one of the main elders asked.

Hearing that, Old Man Vince's stern gaze fell on him. The main elder broke out into a cold sweat. He didn't know why the faction leader was looking at him with anger.

Then someone beside him spoke. After learning that it was about the Thunderflame Faction kid, Zack Lockwood, his eyes showed some understanding.

Vince shifted his gaze before looking at the others.

"Order a few Black Mark Warriors to test the kid's strength in the Inner Hall. I want to know about his ancient Inheritance," Vince said.

One of the senior main elders couldn't help but ask, "Faction Leader, you have told us that Dean Jerome is behind that kid. Is it necessary to target him again?"

Hearing that, the other main elders nodded their heads. They had the same question.

Old Man Vince's eyes flickered.

He said, "Who is targeting the kid?"

"I'm just curious about his ancient Inheritance," Vince replied in a cold tone.

The main elder shut his mouth.

....

Inner Hall:

An hour later,

Ronnie Seth had joined the Inner Hall. After getting his ID and other stuff, he couldn't help but think about Zack Lockwood.

He felt glad that Zack Lockwood had also joined the Inner Hall. It's a pity that there is a conflict between the two factions.

He couldn't openly talk to him. Just as he was about to leave, he saw a group of people wearing his faction badge coming toward him.

Since they were faction seniors, he couldn't ignore them.

Ronnie Seth saw six middle-aged men. All of them were Black Mark Warriors. The aura coming from them was stronger than his.

One of the middle-aged men stepped forward. He had a sharp nose and a few cut marks on his face. He seemed to be the leader of the group.

"So you are Ronnie Seth. We heard from one of the main elders. It's good that one of our own made it to the Inner Hall," he said with a smile.

"Thank you, senior," Ronnie Seth replied.

"I heard you can talk to Zack Lockwood. Did you see him here?" he asked.

Ronnie Seth was stunned. He had been thinking about Zack Lockwood earlier, but he didn't expect someone from the faction to ask the same question.

"Senior, I didn't see him here. But why are you asking that?" Ronnie asked.

The middle-aged man smiled and replied, "Since we are from the same faction, there is no harm in telling you."

"We are curious about his Inheritance power. We want to know whether it's an ancient one or not," he added.

Hearing that, Ronnie Seth's expression changed drastically. He sensed another conflict. He didn't know why the higher-ups were targeting Zack Lockwood.

He had also heard about the rumors that Dean Jerome was supporting Zack Lockwood, so they should be careful of him. Instead, the higher-ups were against him.

"Are you confused?"

"Since you are new here, you should mind your own business," the middle-aged man warned him before leaving with the group.

Ronnie Seth felt bad. He thought people who became Black Mark Warriors were important assets of Star University.

Normally, life or death duels wouldn't happen, but with Zack Lockwood, he couldn't say anything.

Right now, he wanted to convey this information to Zack. If Zack came unprepared, then he could be pummeled by the seniors.

Then he turned around to leave. He knew Old Man Daniel from the Virtual Training Lab. He thought that Old Man Daniel would definitely share the news with Zack Lockwood.

Soon, he reached the Virtual Training Lab. His arrival there caused a commotion because he was familiar with the staff. They all knew him.

“Kid, what are you doing here?” Daniel asked in surprise.

He had heard about the news as well, but he didn’t expect anyone to visit the Virtual Training Lab.

The staff were excited to see Ronnie Seth; they wanted to hear about the old secret land.

Chapter 1173: Blue water force!

Virtual Training Lab:

Ronnie Seth greeted others before turning towards Oldman Daniel.

He said, “Elder, I want you to share information with Zack Lockwood. It’s urgent.”

Hearing that, the faces of everyone changed drastically. Oldman Daniel’s eyes flickered.

“What is it?” Daniel asked.

“Seniors from my faction are looking for him. They want to test his inheritance power,” Ronnie Seth replied.

Gasp!

The staff gasped in surprise and shock. It’s only been a couple of days since the end of the secret land journey. Yet Zack Lockwood is facing a crisis again.

Oldman Daniel's eyes flickered. He could understand why the Dark Variant Faction is like that.

He said, "I guess everyone is quite worried. They already know about Dean Jerome's support for Zack Lockwood. If he truly has an ancient inheritance, then Dean Jerome would support him even more."

Ronnie Seth was dumbfounded. He only mentioned inheritance, not ancient inheritance.

Daniel saw through his thoughts and said, "Kid, it's easy to tell. If it was ordinary inheritance, others wouldn't bother."

"But if it's an ancient inheritance, then it would strengthen the Thunderflame Faction. So don't worry. I'll get the Thunderflame Faction's warriors to transfer the news," Daniel said to him.

"Thanks," Ronnie Seth uttered in relief.

"Kid, don't lose hope. Your inheritance seems to be not ordinary either," Daniel said in a serious tone.

Ronnie Seth was shocked. But he was not willing to expose anything at this moment. He had just come here to deliver the message.

Then he nodded to everyone before leaving. When he was gone, Daniel smiled.

He said, "It will be a matter of time before everyone gets some information about the inheritances."

He knew it's impossible to keep it a secret forever because the Inner Hall Warriors have to participate in the foreign creature destruction task.

So info about their fighting styles would be exposed.

Now he was more interested to know what happened with Zack Lockwood. If Zack Lockwood really does have ancient inheritance, then it's big news.

He would become an asset to Star University. His status would change as well. Compared to the ordinary black mark warriors, he would receive more protection.

...

From MC's Perspective:

The following day,

I woke up earlier. After completing the morning routine, I decided to comprehend the bloodline method. I sat cross-legged on the ground.

Then I closed my eyes. I noticed there was something in my mind. There was a golden shield rune that belonged to the inheritance of the ancient guardian god.

Then there was another rune, a dull silver-gold circle, which had a star lightning rune, a healing tree, and blood element ring runes inside. It belonged to the Shock Force Integration Inheritance.

In between them, I noticed a bright blue dot. Compared to the blood element ring, it was bright. Seeing that the blue dot rune was there, I realized that yesterday's inheritance transfer was successful.

Then I started to comprehend the first chapter of the bloodline method in my mind. As I guessed, the second chapter information was not visible.

Only after the breakthrough would the next chapter appear. So I focused on the first chapter and started to comprehend it.

Time passed.

The successful body transformation and acceptance of the two ancient inheritances had improved my aptitude manifold.

It didn't take long for me to understand what was going on. After memorizing the inheritance, I understood that the bloodline method is different from the other two inheritances.

In order to activate and mobilize the power of the bloodline, I had to visualize boiling water. Once the water force entered my body, I could circulate it according to the routes mentioned in the inheritance.

I could even store the boiling water force inside the dantian. Earlier, I was so worried. Now, after understanding the inheritance, it didn't seem to be difficult.

I had to see whether I could store it inside the dantian. If I were able to do it, then Dean Jerome's plan would be successful. I could integrate the shock force with the boiling water as a new variant of water force.

No one would suspect that it's Ancient Dylan Ball's Inheritance. I have to say Dean Jerome was able to think this far. It was truly shocking. I don't know whether he had noticed another golden force in my body.

I guess he didn't investigate further. Otherwise, the ancient voice would have warned me. Then I pushed down these thoughts before focusing on visualization.

I started to visualize the boiling water in my mind. I'm imagining the exact picture of the scene where Faction Leader Francesca brought me to her family fountain.

During the awakening process, the red pond water turned into blue boiling water. That scene was still fresh in my mind.

Time passed.

I don't know how long it was before I felt something moving in my body. The sensation was totally different from the blood element method.

Inside my body, the special blood cells were getting activated. The number of special blood cells in the blood defines the purity of the blood.

As the seconds passed, more and more special blood cells gets activated. Suddenly, from the surroundings, I felt a blue color force entering my body.

Upon entering, I felt hot water running through my body. It made me uncomfortable. But I gritted my teeth and continued to guide the blue water force according to the route mentioned in the first chapter.

The bright blue force entered the dantian after circulation. I thought something would happen. But fortunately, the bright blue force quietly found its place inside the dantian.

The dantian already had dark purple force with shades of silver and gold. There was also green force with shades of silver and gold.

There is also sealing dull golden force on the right side.

In the middle, the purple lightning seed with shades of silver and gold was rooted as well. Seeing that the addition of blue water force didn't cause any problems, I sighed in relief.

Hereafter, I could walk freely outside. Then I removed the unnecessary thoughts before continuing the process. As time passed, the quantity of the blue water force in the dantian increased.

But I stopped it two hours later. It was time for me to go outside and meet my two masters. They must be waiting for me.

Chapter 1174: Surprise for two!

From MC's Perspective:

After taking a shower, I changed into fresh clothes before leaving the residence. It took me exactly half an hour.

On the way, I came across other members. Suddenly, I found something interesting: I saw a black aura surrounding a few warriors. They are Black Mark Warriors.

One of them had a silver aura. The person must be the Silver Mark Warrior. It was the first time I had noticed the changes.

“Don’t tell me it’s some kind of special ability of bloodline warriors,” I said in my heart.

Soon, I reached the Golden Lightning Palace. Upon my entry, I noticed a few junior brothers and sisters were startled to see me.

But they were hesitant to speak to me. I nodded to them before going towards the master’s residence.

“He is Senior Brother Zack now!” one of the warriors said.

“Don’t you find it dangerous? His presence is suffocating right now.”

“It could be an ancient inheritance. There are rumors going around saying that Zack has accepted ancient inheritance,” one of the female warriors said.

Gasps!

The warriors gasped in surprise. They knew it wasn’t the right place to discuss this. They looked around before heading towards their training area.

Meanwhile, I arrived at Master Austin’s residence. Before I could open the door, I found that it was already half open.

I stepped inside and noticed Master Austin in the living area reading a book.

“Master,” I called out.

Austin, who was reading the book, turned toward me. He had actually noticed earlier when Zack opened the main gate to come inside.

His eyes flashed with complicated emotions. He didn’t know whether to console or praise his disciple.

“Come and sit,” he said.

Hearing that, I walked over and sat opposite him in the chair.

“The faction leader has already said many things, but I want to hear from your mouth. Tell me what happened out there,” Austin asked in a serious tone as he continued to read.

“I knew it,” I said in my heart.

For this, I had already thought of a story, one that included Dean Jerome’s instructions. Then I started to speak. I told him about the monsters I had faced inside the secret land.

Then I told him about the attacks from other university warriors.

Austin’s face remained neutral. Zack Lockwood’s words didn’t surprise him so far. He knew the conflict between the university students was bound to happen, and the loss of lives was part of the exploration.

It was a tactical understanding between the different universities. That’s why everyone left right after getting their warriors.

Otherwise, any verbal spat would have caused conflict.

As time passed, I came to the final part and told him about the forbidden area where the ancient inheritance trial was held.

I just changed the inheritance name to the Ancient Variant Water Source.

When Austin heard this, he let out a sigh. It was the one thing he didn't want to be true. But the faction leader, Clifford himself, had said it. Now his disciple had revealed it.

He should accept the truth.

When I finished explaining, I started to expect his response.

Austin had stopped turning the pages and placed the book on the table.

He then looked at his disciple and said, "It's good that you have selected ancient inheritance over normal lightning inheritance."

"Ancient inheritance can help you become a Red Mark Warrior without problems," he added.

"It's regrettable that it's not lightning or healing inheritance. But the Dean has said that he would find some solution."

"There are some powerhouses who had two inheritances: one ordinary and the other ancient. I guess it's going to happen in your case as well."

"But your primary will be Variant Water Force," Austin revealed.

Hearing that, I remained silent. But my heart was not calm. Nobody knows that I'm carrying three inheritances with me, and all of them are ancient. All lead to the Titled God.

Such news could trigger storms in this world. People are already jealous of ancient inheritance. The news of three ancient inheritances could drive them mad.

Austin thought of something before asking, "Can you show me your Variant Water Force?"

Hearing that, I was stunned. Fortunately, I had stored some Blue Water Force in my dantian. But it would be dangerous to show him like that; he could figure out that it was boiling water.

So, I nodded to him before slowly circulating the silver and gold force in my body. It's the shock force. Then I tried to integrate the shock force into the bright blue water force.

Austin was watching patiently. He knew it hadn't been several days since Zack had accepted the inheritance. If he could mobilize the force outside his body, it would be amazing.

On the other hand, a small part of the bright blue water force integrated with the shock force. Now, a new energy force was formed.

A bright blue water force with silver and gold shades. It's the shock force power. Then I began to mobilize the power out of my body.

I extended my palm outside. A small drop of blue water force mixed with silver and gold appeared.

Austin was stunned. His gaze completely fell on the special water force. He felt it was special because he hadn't heard or seen this type of different Variant Water Source before.

He could even feel an ancient vibe from it. Now he realized that Dean Jerome's words were right. The Ancient Variant Water Source inheritance had awakened the Variant Water Element in Zack Lockwood.

"Use it on the window," Austin said casually.

Hearing that, I casually flicked the water drop at the glass window. In the blink of an eye, the special water force traveled fast before striking the glass window.

Boom!

The next second, a deafening noise sounded. The glass window shattered into pieces.

Gasp!

Both of us stood up from our seats. I sucked in a cold breath of air. I thought the boiling water would stick to the glass wall, producing heat. To my surprise, a simple water drop made the glass window explode.

Chapter 1175: Seeing Master Ann!

From MC's Perspective:

I started to calm my heart. On the other hand, Austin's heart was in turmoil. At first, he thought it was a water element with a different attribute power.

But he never expected to see such a rare new attribute. He hadn't heard of the explosion attribute before.

The next second, he recovered from his thoughts and turned toward his disciple.

A hint of relief flashed in his eyes.

"It was indeed a new type of Ancient Inheritance. I haven't heard or seen the explosion-type power. It's going to help you greatly in the upcoming missions," Austin said in a serious tone.

He thought the destruction caused by the explosion was comparable to the purple lightning. So, his disciple had accepted a real Ancient powerful Inheritance.

"Thanks, Master," I replied with a smile.

It's a bit sad to hide the truth from him. But I can't disobey Dean Jerome. He seems to be quite serious about my future.

“Don’t thank me. I still haven’t done anything. Since the dean is looking for lightning inheritance, I’m hopeful that you could use your purple lightning power soon.”

“Until then, the variant water element will help you greatly,” Austin said.

On the other hand, I kind of think that Dean Jerome is bluffing. In the future, he could release a statement that he has given me lightning inheritance.

So that I can use my actual inheritance without worry.

“You can go and visit Main Elder Ann. I think she must be waiting for you as well,” Austin said.

Then, I thanked the Master before standing up to leave.

Austin watched me leave. When Zack was gone from the place, he sighed in relief.

“I’m guessing the Dew Water Faction people are going to have a sleepless night,” he let out a chuckle, thinking.

Meanwhile, I exited the Golden Lightning Palace and started heading towards the Healing Palace. On the way, I came across other members.

They nodded to me. I nodded back with a smile.

Swoosh!

Suddenly, one of them appeared. He is a young man a few years older than me.

“Senior brother, I have brought information for you,” he said.

Hearing that, I was stunned and asked, "What is it?"

"The Elder from the Virtual Training Lab wanted me to convey this information to you. The Black Mark Warriors of the Dark Variant Faction were planning to fight against you."

"Their reason was to check whether your Inheritance was ancient or not," he added.

A look of understanding dawned on me. To be honest, I was expecting some trouble. That's why I was so serious about the bloodline practice.

I need this power to disguise myself. Then I thanked the young man before giving him some fire affinity stones.

The young man and his companions were shocked. They looked at me with envy.

"I'm leaving," I uttered before continuing on my way.

The group was stunned. Then they immediately left the place before anyone saw them.

Healing Palace:

Soon, I arrived at the Healing Palace. The door was already open. The female warriors were taking care of the garden.

As I walked inside, everyone's gaze turned toward me.

"Senior brother Zack!"

Gasp!

They exclaimed in surprise.

I smiled and said, "How are you all? I came here to see the Master."

Master Ann's other disciples showed me the way. Then I went to the back side of the building, where I saw someone reading a book under a tree.

The person was none other than Master Ann.

The next second, I quickly walked up to her.

Ann raised her head and looked at me. Austin had already informed her.

"Sit," she said.

Hearing that, I smiled and sat in the chair opposite her.

"How is your practice of the ancient healing technique going?" Ann asked.

Hearing that, I wasn't surprised.

"My veins have some changes, but it's not complete yet," I replied.

Ann raised her eyebrows in surprise.

She said, "Do you know one of the reasons why everyone wants to accept Ancient Inheritance?"

I looked at her. Before I could answer, she added, “Ancient Inheritance can improve your aptitude and comprehension.”

“You will learn and practice techniques faster. I’m happy that you have accepted Ancient Inheritance. Now your speed of practicing the ancient healing technique will increase.”

Hearing that, I was dumbfounded. I never took the ancient healing technique seriously because it was an incomplete technique.

But I understood something after the trial: Anything that attaches with the name “Ancient” is not simple.

“So technically, I’m the holder of four ancient practices,” I said in my heart.

One can cause a bloody storm. What about the four? I don’t want to think about it. So I removed the unnecessary thoughts from my mind.

“What are you thinking?” Ann asked.

Hearing that, I looked at her and said, “I’m wondering how long it would take to get the special healing power.”

Ann smiled and replied, “Since your talent has improved, you will see the results soon.”

Hearing that, I nodded to her.

Then Ann thought of something before asking, “Can you show me your inheritance power?”

“What?” I blurted out in shock.

Ann said, “I’m curious about your inheritance power.”

“Did Master Austin speak to you earlier?” I asked.

“Yes,” Ann replied.

“I’m curious to see the power of the rare variant water force,” she added.

Hearing that, I confirmed that Master Austin told her everything.

I said, “I need a target.”

“Okay,” Ann nodded before summoning one of her disciples.

Shortly afterward,

A female warrior arrived in a green uniform.

“Get me the metal puppet,” Ann said.

The female warrior nodded before going back.

Ann said, “Apart from healing, I teach them self-defense techniques, including weapons.”

I nodded to her. Technically, the young female warrior is my junior sister, but I hardly had any interaction with Master Ann’s other disciples.

Then it didn’t take long for the female warrior to bring the humanoid metal puppet. It had many cut marks on it.

It's a sign of their weapon practice.

"Place it under the tree," Ann said as she stood up from the chair.

Seeing that, I stood up as well. There was a huge tree a few metres away from here. The female warrior placed the puppet under the tree.

Your gift is the motivation for my creation. Give me more motivation!

Chapter 1176: Master Ann was shocked!

From MC's Perspective:

"Are you ready?" Ann asked.

Hearing that, I nodded my head. Then I turned towards the humanoid metallic puppet. I extended my hand and pointed my right finger at the puppet.

Main Elder Ann and the female warrior were surprised. Especially the female warrior, who understood something; her heart started to beat with excitement.

She was confused earlier, but now she understood that Master wanted senior brother Zack to attack the humanoid puppet. There was a possibility that she wanted to see senior brother's Inheritance power.

Not only her master, but she was also interested.

On the other hand, I started to mobilize the inheritance power. The blue water force mixed with shock force power appeared at the tip of my finger.

Seeing a blue-colored force with a shade of silver and golden color, Ann raised her eyebrows in surprise.

"What's this power?" the female warrior asked herself.

She knew her senior brother was a lightning warrior. His lightning element was purple in color. So what was the blue-colored power with a silver and golden shade?

She didn't know about it.

At the same time, I shot the golden mixed water force at the target.

Boom!

In a flash, the water drop traveled in a straight line before striking the metallic humanoid puppet in the chest.

The next second, the water drop melted through the metallic puppet before piercing through it and coming out the backside before hitting the wall.

Boom!

The water drop didn't stop; it still pierced through the wall before coming outside. Then it struck the metallic wall of the neighboring palace's practice room.

Boom!

There was a huge dent on the outside wall. It immediately alarmed others.

Meanwhile,

Everyone was petrified on the spot. "Did I add too much force?" I uttered, looking at the tip of my finger.

Gulp!

The female warrior gulped her saliva in fear because the humanoid metallic puppet was comparable to an average General Rank Warrior.

Yet the simple water drop had pierced through it like it was nothing. She didn't notice what happened next.

But Master Ann had seen it. Her heart was in turmoil. She had thought the water Inheritance was weak, even if it was an Ancient Inheritance. For the first time, she felt fear from this variant water element.

She then noticed her disciple was there.

"Gwen, don't tell anyone about this," Ann said in a serious tone.

Hearing that, Gwen's face changed drastically. She immediately replied, "I won't, master."

"Good, you can go now," Ann said.

Gwen nodded to her before leaving. But she couldn't help but take a glance at senior brother. She thought that like the Outer Hall, the Inner Hall wouldn't be peaceful.

"You are right to choose this Ancient Inheritance. It has such destructive power. Initially, I was worried about what you would do without purple lightning."

"The purple lightning had been a symbol for you. It had its power supported by the lightning seed, but now it seems the worry was unnecessary."

"This single water drop can kill average General Rank Warriors. It could even injure Black Mark Warriors if you target their eyes and injured parts," Ann said with a smile.

I calmed my heart, but it still felt overpowered for a few seconds. Then I dropped those thoughts. There were more dangerous people in the Inner Hall.

Especially those who had accepted Ancient Inheritance and other special Inheritances, who were going to be enemies.

Then I turned around and looked at her.

I said, "Don't worry, master. I will never stop practicing the ancient healing technique."

"Good," Ann uttered in relief.

Then we spoke about a few other topics before I exited the healing palace.

Soon, I returned to my residence. Then I spent time alone to sort out my thoughts. Since I had started practicing ancient inheritances, I thought it was important to gain control over my strength.

Otherwise, I could unintentionally harm others. Then I went to the bathroom again to take a cold shower. It would calm my heart again.

About 20 minutes later,

I walked out and put on fresh Inner Hall clothes. Then I left the residence and headed towards the Inner Hall. On the way, I couldn't help but think about the message given by the member not long ago.

There were people wanting to harm me inside the Inner Hall. According to his words, they wanted to test me to learn about my inheritance.

My mouth curved into an arc. I didn't want to fight before getting control over my strength. Otherwise, it would lead to bloodshed.

A cold glint flashed in my eyes. Soon, I exited the Thunderflame Faction and continued to head towards the Inner Hall.

Meanwhile,

Main Elder Ann spoke to Austin. She couldn't contain her shock. She told him what happened. This time, Austin was dumbfounded.

After hearing the words of Main Elder Ann, he thought Zack didn't try his best. Once again, he couldn't help but think about the Dew Water Faction.

If Zack Lockwood was their member, others would have sleepless nights. Then both of them decided to inform Faction Leader Clifford.

It was necessary for them to find a lightning inheritance for Zack Lockwood. They knew Dean Jerome was trying on his side. But they were too shocked by the Ancient Water Variant Inheritance.

If Zack Lockwood relied on the Ancient Water Variant Inheritance too much, then it was possible for the Dew Water Faction to snatch him because they had control over water element resources.

But if Zack had both the Ancient Water Variant Inheritance and the lightning Inheritance, then they could argue back against them.

A few minutes later,

I arrived at the Inner Hall. The process was smooth. No one came to bother me. But things would change once I got inside. I took the badge out and scanned it.

Creak!

The next second, the door opened. Seeing that, I walked inside. The operation was smoother than before. Then I saw there were 2 Black Mark Warriors guarding inside.

Seeing that, I felt it was strange. Why was there a need for guards here? Was anyone going to cause problems? I shook my head before continuing walking towards the training facility.

Chapter 1177: Entering the Inner Hall's training facility

From MC's Perspective:

After glancing at the guards, I started walking towards the training facility. I don't know who will come to intercept me, but that person will be bedridden for sure.

On the way, I hadn't come across anyone so far. The Inner Hall looks deserted. Most of the warriors are not here; they are out on a mission.

Soon, I came to the training facility. I saw that only a few people were training hard. They were minding their own business and didn't know someone had entered.

Then I looked around before finding the practice room. I entered the available room and closed the door. The practice training room was built with special materials.

It could withstand the power levels of the Gold Mark Warriors, so the Warriors with Ancient Inheritance can practice here freely.

After making sure the place was fine, I decided to practice all the lightning techniques first.

Outside,

The Black Mark Warriors stopped exercising. They looked at each other.

"Hey, is he a newcomer?"

"His face does look familiar."

"I remember him!"

"He is that purple lightning warrior from the Thunderflame Faction."

"He embarrassed other top 10 factions not long ago. He seems to have accepted Ancient Inheritance."

The warriors discussed among themselves, but the matter of Ancient Inheritance shocked everyone.

"Ancient Inheritance is not easy to get. I think these are just rumors," one of them said.

"Don't worry, someone will soon test that kid."

They continued their discussion.

Time passed,

It didn't take long for the Dark Variant Faction to know about Zack Lockwood's whereabouts. They got confirmation from the Inner Hall Elder.

Zack Lockwood had logged in to one of the training rooms. After getting the confirmation, the Black Mark Warriors of the Dark Variant Faction appeared in front of the facility.

There are four people, all of whom have a strong black aura around them. It shows that they are at the Peak Stage.

They didn't enter the facility; rather, they were waiting outside. The others were coming and going out of the training facility, unaware of these people.

The Black Mark Warriors won't leave until they verify whether Zack Lockwood's Inheritance is Ancient or not.

Meanwhile,

Ronnie Seth has entered the Inner Hall Warrior. He is thinking about Zack Lockwood in the back of his mind. But he knows it's impossible for him to directly help Zack Lockwood.

Since he had already arranged for someone to pass the information to him, he believes Zack Lockwood would be fine.

...

Thunderflame Faction:

Faction Leader Clifford again called for a meeting. Main Elder Austin and Ann spoke to him. He suddenly felt a sense of urgency.

He can't wait for Dean Jerome to do everything. They have to use their connections to get the Lightning Inheritance faster.

Soon, one after another, the main elders all appeared.

Austin and Ann knew about the topic of discussion and showed relaxed expressions. Others were confused.

When everyone sat in their seats, Faction Leader Clifford spoke to them. He told them what happened today. They had underestimated the power of the Ancient Inheritance of the water variant element.

Gasp!

Even the main elders exclaimed in surprise.

"There is such power," Leola uttered in shock.

"No element is weaker. It has been proven true with Zack Lockwood's case," Cathy said from the side.

Main Elder Rosie had a stunned expression on her face because she had found so many shocking things happening with the kid, Zack Lockwood.

If one of the news items leaked outside, it could cause shockwaves.

"We were wrong in blaming that kid. No wonder he was tempted. Ancient Inheritance with such power can turn the tides on the battlefield," Austin said in a serious tone.

"We had to be worried because we don't control water element resources. I still don't know what Dean Jerome is planning."

"Is he going to get resources from the Dew Water Faction, or will he give private resources to Zack Lockwood?" Clifford expressed his concern.

Hearing that, everyone understood their difficulties as well. That's why there are different factions in the university, each having a hold over the natural resources.

"Okay, let's come back to the topic. I order you to find Lightning Inheritance through any means. Use your connections to find out about a secret land or use auction houses," Clifford said in a serious tone.

"Any kind of lightning is fine?" Leola asked.

Hearing that, others showed doubts and turned toward Austin.

"It has to be Purple Lightning Inheritance. He is carrying the purple lightning seed as well. If they are the same, he won't feel rejection. Otherwise, it could lead to unnecessary difficulties," Austin replied.

"Good, then we can look for Purple Lightning Inheritance. In the meantime, I'll ask the Dean to send that kid away on a mission."

"If he stays here and gets into a fight with others, it won't be long before the entire university knows about him," Clifford said in a serious tone.

Then they spoke about a few other things before leaving.

...

Inner Hall:

As dusk fell, I exited the training room exhausted. Inside the room, the surrounding walls were dented. If they are not repaired, the practice room will be damaged forever.

Then I entered the bathroom to wash my face.

A few minutes later, I walked out and started walking towards the entrance. On the way, I couldn't help but think about the training.

I had used purple lightning with shock force. The result was shocking. A small thunderbolt caused a dent in the walls. If it had been at full power, the walls would have been further damaged.

I had made a good decision by coming here; otherwise, I would be clueless about the output damage. Just as I walked out, my perception picked up four people standing outside.

Even without using my perception ability, my normal perception had become much stronger because of the Inheritance Transformation.

The four warriors got alerted as well. Upon seeing Zack Lockwood, they cracked wide grins on their faces. They had been waiting for several hours. Now their target had appeared outside.

All four of them had been instructed by the main elders. If they failed, it would be embarrassing. So they had decided not to give Zack Lockwood a chance to react.

Chapter 1178: Opening the account!

From MC's Perspective:

Just as I tried to walk past them, the four of them immediately blocked the path. I raised my eyebrows. Clearly, they came to test me.

"What are you guys doing?" I asked.

"Zack Lockwood, I heard you have an ancient inheritance. We want to test your strength," one of them said straightforwardly.

"But I'm not interested in fighting you guys," I replied before walking away.

Four of their eyes turned sinister. One of them turned around to sneak attack. But just as his attack was about to hit, I turned around and blocked his fist.

"Now I have changed my mind." After saying that, I twisted his right hand before kicking at his stomach.

Pfff!

The pure brute force sent the middle-aged man flying backward. He then crashed into the ground. Seeing that, three of their faces changed. They immediately attacked at the same time.

I activated my perception ability for the first time after becoming the Black Mark Warrior during a fight. The next moment, the area around me became clear in my mind.

I could perfectly predict the trajectory of the attacks from the three people.

Swoosh!

I stepped forward and punched towards the nearest person. My fist smacked his face. The middle-aged man felt dizzy before falling to the ground.

Crack!

Then I struck the bodies of the next two people in the blink of an eye. Their eyes filled with terror and disbelief. Their forearm bones cracked under the attack.

"Harumph," I snorted before sending them flying back. Then they smashed onto the ground.

From beginning to end, I used only brute force. After glancing at them, I started walking back to the exit.

Soon, someone from the training facility saw the terrible state of the four warriors from the Dark Variant Faction. They were immediately taken to the infirmary.

It didn't take long for the news to spread. Zack Lockwood opened his account in the Inner Hall. He started by beating down the warriors of the Dark Variant Faction.

This news caused quite a stir, especially among those warriors who wanted to deal with Zack Lockwood.

Inside the Dark Variant Faction, the main elders confirmed that Black Mark Warriors suffered injuries from brute force. Zack Lockwood didn't use his inheritance power to beat them down.

This news left them with red faces. Their faction leader didn't like failures, especially when it came to Zack Lockwood; he would become someone else.

Meanwhile,

Dean Jerome learned the news as well. He immediately sent a special mission to Zack Lockwood. After sending that, he turned towards the Purple Guard Warrior.

"Take him there tomorrow. Let's see how long he can survive," Jerome said.

"Dean, isn't it too early for the Foreign Creature Destruction Task?" the Purple Mark Guard asked.

Jerome shook his head before saying, "If he stays here, then there will be more problems."

"I had already assigned you as his protector. You can start your role," he added.

"Okay," the Purple Mark Guard replied before leaving.

Meanwhile,

Inside the Thunderflame Faction, I was staying in my residence. I received a message from Dean Jerome.

Seeing that, I knew it was important. I opened the message to read it.

A few seconds later,

A sharp glint flashed in my eyes.

"He is sending me to the battlefield tomorrow. It's my first foreign creature destruction task," I said to myself.

But it came so soon. It was mentioned that I should be waiting at the transportation area tomorrow morning. Then I pushed down these thoughts.

Instead of staying here, it's better to go there and fight. Then I reported to my two masters about the mission. They were shocked. They didn't expect the Dean to give me the mission so soon.

After talking to them, I sat on the sofa and started to recollect some things. I found out something interesting: my lightning, blood, and soul techniques should have touched their limits.

The Inheritance Transformation has improved my aptitude and comprehension. Now I could raise their limits, but it would take some time.

So I decided to learn a new technique. Most of the Inheritance Techniques come with a set of combat skills, but mine is totally different. One is integration, the other one is sealing. The rest are healing and bloodline.

Talking about bloodlines, I should ask Faction Leader Francesca about the combat techniques. I have her contact number, so I immediately called her.

A few seconds later,

The call was connected. It immediately surprised me.

"Zack Lockwood, it's surprising to get your call. What do you want?" Francesca Ball asked.

Hearing that, my mouth twitched. But I told her about my situation.

"You have an ancient bloodline method. If you comprehend it, you can gain a set of combat techniques directly," Francesca said on the call.

"Since you are going for the mission, I'll give you an attack technique later," she added.

Hearing that, I sighed in relief.

Time passed,

As midnight fell, I was having trouble sleeping because I wanted to practice the new technique before going for the mission tomorrow.

Knock!

Suddenly, I heard a knock on the door.

Hearing that, I immediately got out of bed and darted towards the door.

Creak!

I arrived in front of the door and opened it. Then I saw the faction leader Francesca standing in front of me.

"Faction Leader," I immediately greeted her.

"Didn't you have any techniques?" she asked, looking into my eyes.

Hearing that, I replied, "I have just started visualizing it."

She raised her eyebrows in surprise.

"Continue to visualize. You will get the combat skills as well. It appears you had stopped visualizing after refining the blue water force," she said.

Hearing that, I was shocked to the core. I did stop it because I thought it was just a practice method. But I never thought there would be follow-up combat techniques.

"I have come here to give you the technique. Since you are close to getting it by yourself, you should not waste energy on another technique." After saying that, she left.

I stood there dumbfounded. If this was the case, then she should have told me on the call. Then I went inside and closed the door.

After coming into the room, I lay down on the bed.

Chapter 1179: Protector is back!

From MC's Perspective:

The following day,

After getting ready, I spoke to the two masters before leaving the Thunderflame Faction. Then I came to the transport area.

On the way, I came across many people, including the Silver Mark Warriors who were scrutinizing me. But I ignored all of them and continued to wait.

Already, the word had spread that Dean Jerome supports me, especially after the old secret land trip. It gained more support. Now no one bothers me.

Except for the Dark Variant Faction people. I thought they had learned their lesson, but they are still continuing with their plans in the Inner Hall as well.

What does it change whether I got the Ancient Inheritance or not?

"You are here," I heard a familiar voice the next second.

Hearing that, I turned and saw a black-clothed masked figure. Why does it feel like the Purple Mark Guard who protected me during the fight against Dark Shadow University?

"You have become strong, but it's not enough. You will continue to face hurdles," the Purple Mark Guard said.

"Protector," I uttered.

The Purple Mark Guard said, "It's good that you recognized me. I'm your protector from now on. I won't appear outside unless someone tries to kill you outside the battlefield zones."

A look of understanding dawned on him. Then I immediately thanked him.

"Let's go; I'll take you to your battle zone." After saying that, he grabbed Zack Lockwood's shoulder and disappeared from the spot.

Those who saw them disappearing were stunned.

"Hey, who is the masked person?"

"It could be the Purple Mark Elder. I guess he is taking Zack Lockwood somewhere."

"Where could it be?"

"I guess it's the battlefield. Because the Black Mark Warriors and above do a lot of fighting in battle zones rather than other stuff."

The warriors who were discussing began to share the news as well. There are hundreds of warriors in Star University.

The famous warriors have always been the topic of discussion. Zack Lockwood's name was added to the list long ago.

Soon, everyone will know that Zack Lockwood left Star University for a mission.

Meanwhile,

Dean Jerome was smiling in his office. He didn't know how the kid would react in the battle zone.

"That kid wants to practice a new attack technique. Didn't he get anything from the Shock Force Integration?" he asked himself.

He learned about the Shock Force Integration from Zack Lockwood. But he knows every Ancient Inheritance comes with a practice method and a set of techniques as well.

He thinks that Zack Lockwood has yet to dig properly. Given a few more days, he thinks Zack can figure it out. But he doesn't want the peace of Star University to be disturbed.

The Dark Variant Faction Leader acted against him despite his warning. The others might be curious to check that kid's Inheritance power.

His eyes turned cold. He has been patient for so many years. Suddenly, he doesn't want to kill the Faction Leader who is a Half-Step Red Mark Warrior.

If someone wants to die, they should die on the battlefield. Otherwise, he wouldn't have tolerated some of the Faction leaders.

...

Thunderflame Faction:

Inside the Golden Lightning Palace, Austin is drinking tea in his residence. He couldn't help but think of Zack Lockwood.

Buzz!

He received a message from someone. After reading the message, his eyes flickered.

"Gone," he uttered.

But what he was surprised about was the masked man.

"It must be the protector," Austin said in his heart.

Meanwhile,

Inside the Healing Palace, Ann got news from her connections as well. After knowing that Zack Lockwood got a protector for his safety, she sighed in relief.

The Faction Leader, Clifford, received the news as well. He knows Dean Jerome won't let Zack leave just like that. It's good to know that a protector is guarding him.

He thinks the small ideas in other faction leaders' minds would have disappeared right now.

He had been keeping an eye on Zack Lockwood. He knew what happened in the Inner Hall yesterday. Four Black Mark Warriors fought Zack Lockwood outside the Training Facility.

But they were beaten back miserably. He knows that it must be the plan of Old Man Vince.

Clifford sneered inwardly. He thinks that every action of Old Man Vince is going to provoke Dean Jerome. No one can tell when Dean Jerome would lose patience.

It didn't take long for the other main elders to know about Zack Lockwood's departure. They were all relieved after hearing about the protector.

...

Dark Variant Faction:

"Purple Mark Level Protector," Faction Leader Vince said with anger.

Someone told him about the kid leaving the university and the masked man. He knows Dean Jerome won't send a Gold Mark Warrior.

Considering the importance of Zack Lockwood, he thinks it's a Purple Mark Warrior. Hereafter, no one dares to go after the kid.

The Purple Mark Guards are exceptional warriors. Even he doesn't dare to send people after Zack Lockwood.

He wanted to know about that kid's Inheritance. From yesterday's information, he got a clue. That kid defeated the Black Mark Warriors with brute force.

Only the Ancient Inheritance can transform a warrior's body to such a level. He believes it won't be long before everyone knows about Zack Lockwood's Inheritance.

He doesn't show it on his face, but there are a lot of people who want to kill warriors with Ancient Inheritance.

Whether it's foreign creatures or internal forces, no one wants hostile forces to have warriors with Ancient Inheritance because they could become pillars of any force.

...

Human Bloodline Faction:

Faction Leader Francesca got the message as well. She smiled after knowing about the protector.

If Zack Lockwood's identity were made public, then the Purple Mark Warrior from the Ball Family would act as protector as well.

But she doesn't want to break Dean Jerome's plan. She thinks Dean Jerome is doing right; Zack Lockwood has two Ancient Inheritances.

Other forces are united on the outside against common threats, but there are hidden conflicts inside as well.

So it's hard to avoid hidden arrows. She believes Dean Jerome knows this as well.

Chapter 1180: Weird creatures!

From MC's Perspective:

A few hours later,

The Purple Mark Guard brought me to a secret land. He opened the formation in front of my eyes. From beginning to end, I don't have any clue where I am.

I tried to figure it out, but my head ended up dizzy.

Boom!

The next second, a small rift opens up. A wilderness aura is coming from the rift.

"What's going on?" I asked myself.

"Take this badge. It's the key to the formation. After 3 days, you can enter the teleport platform."

"Once you activate the key, the platform will teleport you out. I will be waiting outside until then," the Purple Mark Guard said.

My eyes flickered with understanding. I nodded to him before entering the rift. The next second, I found myself descending downwards.

"I don't know what he will do. If he can get fear out of his heart, then this kid can become an asset for us," the Purple Mark Guard said to himself.

He knew most of the talented warriors fainted upon seeing the foreign creatures for the first time. Not many can adapt on their first contact.

Except for a few exceptional ones who were now faction leaders of various factions. There were also a couple of legacy hall elders who did well during their first contact.

But what he doesn't know is that Zack Lockwood had already faced a powerful foreign creature during his trial.

...

Inside the secret land battlefield,

Tud!

I landed on the ground. I raised my head and looked at the scene in front of me. The scene was terrifying. The ground was charred, and smoke was coming out from many places.

There was no sign of green vegetation except for the half-burnt trees.

Suddenly, I thought of the teleportation platform. I turned around and saw a secretly hidden teleportation platform.

Seeing that, I was about to walk up to the place. The next second, I felt a sense of crisis coming from the ground.

I activated my perceptual ability. The next second, every blade of grass became clear in my mind. I could see something buried in the ground.

It was buried everywhere around the teleportation platform. If you want to enter the teleportation platform, you could only use a flight ability. What was the reason for this?

Then I thought of something important. Only the warriors could use the flight ability, not the aliens.

My eyes gleamed with a twinkle.

Swoosh!

The next second, I retreated backwards. I didn't want to expose the teleportation platform.

Weird cry!

When I returned to my previous position, I heard a weird cry. My perception was active.

Tud! Tud!

The next second, I heard loud footsteps as if something was running towards me. Soon, I found something approaching in my perception.

Seeing that, I circulated the dark purple force with shock force integration.

A mix of golden and silver shades covered the dark purple lightning bolts appearing out of my body.

A few seconds later,

I saw the appearance of the creature. It was a few hundred meters away from me. A huge storm set off in my heart.

It's a sand-colored creature with eight legs. But it's not a spider monster. The body of the creature is flat except for the small head with wide, razor-sharp teeth.

If there is a worse word than ugly, then it would be this creature.

Weird cry!

The creature continues to let out a weird cry before closing the gap. When the creature got closer,

I raised my hand and pointed my forefinger, targeting the head.

"Lightning Finger Technique!"

I executed the technique. The next second, a dark purple lightning bolt shot from my finger. It had shades of gold and silver.

Weird cry!

The creature wanted to taste the flesh of the enemy. In a flash, the lightning bolt reached the creature's head before striking it hard.

Boom!

The lightning bolt pierced through the creature's head before frying the whole head. The shock force combined with lightning force had toasted the head.

Weird cry!

The creature gave a final cry before dropping dead on the ground. Sighing inwardly, I found the creature's weird body gave me a creepy feeling.

I'm not going to inspect its corpse.

But I'm impressed with the lightning attack. A single finger bolt had toasted the head. Before figuring out what's going on here, I'm not going to engage in close combat.

Who knows? If the creatures have weird abilities, it would be troublesome. More importantly, no one told me about the strengths and weaknesses of the foreign creatures.

"It must be some kind of test. Otherwise, I wouldn't be alone here," I said in my heart.

At first, I thought I would be joining others. But it turns out some kind of training is required before a warrior joins the actual battlefield.

But I like this idea. I want to gain control of my inherited forces. This place is a good opportunity to hone my skills.

Weird cry!

Not long after, I heard multiple weird cries coming from all directions. I guess the previous creature's cry must have attracted others.

My perception was active. I could spot creatures a few hundred meters away.

It didn't take long for me to see more than one creature. Instead of using the technique, I decided to use normal lightning bolts.

There is no need to waste purple lightning force since I'm going to fight for three days.

Boom! Boom!

I shot the lightning bolts at the rushing creatures one after another.

The weird creatures tried to avoid the attacks, but the lightning bolts struck their bodies. The shock force added extra destructive power to the lightning bolts.

Boom!

Upon contact, the lightning rampaged through their flesh, creating more destruction. Both creatures stopped moving, the lightning power electrocuting them.

Seeing the weird creatures, my instincts urged me to roast them more. So I shot a couple more lightning bolts at them.

The shock force power was tearing them apart from the inside. The creatures continued to struggle, giving out weird cries.

Shortly afterward,

Both the creatures were more than dead. Their corpses were charred.
