Chapter 1181: Colossal foreign creature!

From MC's Perspective:

After killing the eight-legged creature, I returned to the previous spot close to the teleportation platform. I didn't want to go deeper into this charred land.

If I got trapped or swarmed by these foreign creatures, it would be troublesome. After arriving at the spot, I waited for the next wave of creatures to appear.

Suddenly, I thought of a good idea before taking out the black sword. Looking at the black sword, my eyes gleamed with a twinkle.

I didn't know whether the black sword could withstand the inheritance force, but I didn't want to take a risk here. So I put the sword back and continued to wait.

About 10 minutes later,

I started to feel uneasy. At first, I thought the foreign creatures were aware of the intruder and were coming towards me.

But more than 10 minutes had passed. Yet there was no sign of these creatures.

"Should I go forward to explore?" I muttered.

The next second, I shook my head. I had missed an important point. These foreign creatures are different from the monsters here.

They may have different skeletal structures, but their brains must not be ordinary. These foreign creatures are intelligent beings.

Otherwise, how could they obey commands and invade our world? When I got this clarity, I felt goosebumps all over my body. I was about to make a blunder.

Fortunately, I got the clarity at the last moment. Then I continued to wait. I noticed that the surroundings had become unusually quiet.

There was no wind movement whatsoever. If any person stayed here for a long time, they would go insane. I guessed this was part of the test as well.

Not long after, I heard a faint tremor coming from the ground. My eyes turned solemn because it was one sound, but multiple tremors could be heard.

"It's coming," I muttered.

Then I raised my head and saw what appeared to be a giant hilltop moving. But its appearance became clearer a few seconds later.

It was a visual horror to me. It wasn't the giant hilltop that was moving; it was the body of the foreign creature. This foreign creature was different from the previous one.

It was over 150 feet tall. Yet the creature's six legs alone were 100 feet tall. Above them was the size of its body. What's more, this new foreign creature had the same facial features with a visible sharpened mouth.

I thought it was multiple creatures, but this foreign creature's movement had caused such noise. I took a deep breath. I had already thought of which lightning technique to use.

It was difficult to kill this creature with finger techniques alone. When the colossal foreign creature was a few meters away from me,

I took the sword out and started to charge the blade with lightning force.

Crack!

A few cracks started to appear on the blade. Yet I didn't stop.

When the colossal foreign creature lowered its body to try to eat me, I called out, "Sword Divide."

I executed the lightning technique. The next second, a powerful dark purple beam mixed with golden and silver shades released from the sword.

Boom!

The powerful purple lightning sword beam traveled in a straight line before hitting the disgusting creature's head.

Boom!

An explosion occurred. The shockwave spread across the area. The tall legs of the creature began to sway, showing that the foreign creature had been hit hard.

I didn't have time, so I didn't use the shock force in this attack, but I thought this attack had taken its life.

The dark lightning was so powerful that it destroyed the foreign creature's face, including the mouth. Its vitality was slipping away slowly.

Weird cry!

Yet the creature was unwilling to die. It knew that its enemy prey was alive, so it was desperate for a final attack.

Boom!

The powerful tall legs were hitting the ground, creating a deep pit.

On the other hand, my expression turned ugly. I was so close to getting stomped by those tall legs.

"What's going on?" I asked myself.

The foreign creature was moving here and there. Now the aftermath was clear: half of the creature's head was gone.

Seeing that, goosebumps appeared again. I didn't want to waste my energy. Since the creature had been hit hard, it was going to die in a matter of minutes.

Not long after, the colossal body fell to the ground, creating a booming sound. Dust clouds appeared in the sky.

Gasp!

I gasped for breath. I was getting visual horrors one after another. Definitely, the foreign creatures are not weak.

Maybe I was facing the weakest one. I had yet to see any of them displaying abilities. But I didn't want to take risks. I was going to strike them fast so that they could die faster.

Who knows what weird abilities the foreign creatures might have?

Time passed.

At regular intervals, I continued to kill the foreign creatures. My plan of staying in one spot was working well.

I'm sure if I moved ahead, it wouldn't be the same. I could come across a large number of foreign creatures.

Eventually, nighttime came. I kept my perception active. The foreign creatures were hard to deal with. Some of them had colossal bodies that required multiple hits to kill.

I hoped nothing would happen at night. That was again my naïve thought; I guessed there would be more waves of attack during the night.

Boom!

A sense of crisis rose in my heart. I saw something darting towards me. The next second, I stepped away from the spot and moved a few meters sideways.

Boom!

Something struck the ground. The next second, the ground exploded. The shockwaves spread, causing dust and sand to rise.

On the other hand, my heart was not calm. I was facing a projectile, and that too at night. What cunning creatures!

Don't tell me it was their plan all along, to take me down at night. As I had guessed, the foreign creatures were more capable of thinking and strategizing.

Chapter 1182: The power of golden sealing!

From MC's Perspective:

Battlefield:

I covered both of my fists with the red blood energy. It was my first time using the blood energy power. What could be a better opportunity than this?

Boom!

When the projectile darted towards him the next second, he punched forward. His right fist was covered with red blood energy.

Blast!

An explosion occurred. The impact force pushed me backward. At the same time, I felt the foreign creature completely smashed under my fist.

When the aftermath settled, I saw a pool of blood mixed with organs. I didn't know what type of foreign creature it was, but its projectile speed was fast.

The next second, I moved closer to the Teleportation platform. At the same time, I kept an eye on the surroundings.

Boom!

Not long after, the sense of crisis rose again. This time, it was the same projectile. I dealt with it in the same manner.

As time passed, I continued to deal with the projectile-type attacks.

The next morning,

My whole right arm was sore. I had been dealing with foreign creatures all night. There was no break at all.

Now this was the second day. I had one more day to go. Was it really a kind of test? Many questions came to mind.

But I could only get answers after the 3rd day. Then I took a deep breath before looking at my reserve. I had used blood energy the whole night.

The dark purple lightning force was still there. I could also use the bright blue water force. There was also the sealing force.

Now, I felt good having three types of Ancient Inheritance. Then I thought of using the golden sealing force today.

It was kind of risky, but I had decided to do it, especially after last night's close combat fight. I could engage the foreign creatures without fear right now.

As time passed, a bright day appeared, but the ground was still charred. Unexplainable, non-stop smoke was coming from some places.

But I didn't care. I had stopped being curious about certain things.

Boom!

Not long after, an 8-foot, six-legged creature came from the distance. In my perception, I saw that the six-legged creature was different from something else.

But I wasn't going to underestimate it. I continued to use my perception to look for other foreign creatures.

Shortly afterwards, I saw a few more six-legged creatures with weird bodies following it.

Seeing that, I started to circulate the sealing energy. The golden sealing energy could freeze the foreign creatures.

He wanted to see how effective the foreign creature was.

Boom!

The six-legged foreign creature with a weird body got closer to him. He circulated the golden energy in his body. In the blink of an eye, the golden energy covered his right fist.

Swoosh!

He started dashing towards the incoming foreign creature at high speed. The weird body of the foreign creature stood over 8 feet tall.

He could easily reach its height to kill the creature. After getting closer, he avoided the frontal attack.

He punched the side of the body with the golden sealing force. When the dull golden sealing force made contact with the body,

the whole body of the foreign creature froze in mid-air. Seeing that, my eyes flashed with disbelief.

Without waiting further, I shot a couple of dark purple lightning bolts at the creature.

Boom!

The dark lightning bolts exploded right after touching the sealed creature. The body of the creature cracked open.

The purple lightning started rampaging through its inner organs. This was happening under the sealing effect. The foreign creature didn't know what happened.

When the sealing effect ended, only the dead corpse dropped onto the ground.

Seeing that effect, I felt a lot more confident and safe.

Then my gaze set on the next incoming foreign creature. Before it could reach me, I started rushing toward the next creature.

In a flash, I got closer to the creature and touched its body. This time, I used a small amount of the sealing golden force.

The foreign creature wide-opened its mouth to attack. A sense of crisis gripped my heart, but the sealing effect took place the next moment.

The foreign creature stood like a statue with its mouth widened. Seeing that, I covered my right arm with a purple lightning bolt.

Smash!

Then I punched the creature's side. My fist tore through flesh before going inside the creature's organs.

The next second, I felt the hot liquid substance. I withdrew my punch and looked at the sealed state of the creature.

It felt like time had frozen. The foreign creature remained in the same spot. Seeing that, I continued to land a few more punches on its body.

I didn't know whether the creature knew that its body was riddled with holes.

Pfff!

When the sealing effect ended, a torrent of blood gushed from all the injured parts at the same time.

The foreign creature felt a loss of vitality before falling dead to the ground.

"This is incredible," I said to myself.

With the sealing force in my hand, I felt overpowered and secure. In the sealed state, the enemy couldn't do anything to me.

But I could inflict multiple injuries on its body.

Time passed,

I continued to use the golden force to kill the foreign creatures faster.

...

Outside:

The Purple Mark Guard was still standing outside. Unfortunately, no one knew what was going on inside the battlefield.

"I hope the kid survives the 2nd and 3rd day as well," the Purple Mark Guard said to himself.

Because this place was an actual trial. The real battlefield was completely different. If this kid survived here, then he would survive the main battlefield as well.

...

Inside the battlefield:

Time passed, and night fell. I had completely used the sealing dull golden force. If I wanted to recover the sealing force, then I had to practice as well.

But this was not the place for practice. I couldn't even get a proper break. The foreign creatures here were killable.

It's just their numbers were tiring me out. Last night, I used blood energy. Today, I didn't know which type of foreign creatures were going to appear.

If they were some fast-moving projectile types, then I had no choice but to use the blood energy. If they were ordinary foreign creatures, I could use the shock force for experimentation.

Rush!

It didn't take long for me to hear the rustling sound. In my perception, I saw a mountain-type foreign creature moving towards me.

But its movement was not fast. It was taking one step at a time. If not for my perception, I would have missed the creature.

"What type of creature is it?" I asked myself.

Because I thought this type of foreign creature would become the target of anyone on the battlefield. Then again, for some reason, I thought things were not that easy.

So far, I have killed many foreign creatures since yesterday. I could tell that different types of foreign creatures had their own pros and cons.

If I was right, then it was the same case with the mountain-type foreign creature as well. Seeing that it would take time for the mountain foreign creature to get closer,

I started practicing the lightning method. Fortunately, the purple lightning force from the surroundings entered my body.

After circulating, it gathered inside my dantian.

About a few minutes later,

When the mountain-type foreign creature got closer, I started to feel like a small hill was moving toward me.

The next second, I decided to use the lightning finger technique.

"Lightning Finger Technique!"

I raised my hand, pointing my finger at the incoming mountain creature.

Boom!

A dark purple beam shot from my finger. The beam traveled fast in the air before striking the mountain-type foreign creature's body.

Boom!

A small spark appeared in the foreign creature's body. But it was actually an explosion. Seeing that, I was stunned in disbelief.

Because nothing happened to the creature. It was still moving towards me. My expression changed drastically.

"Don't tell me the ability of the creature is its body," I said to myself.

This time, I really met a challenge. The mountain-like body was nothing but a meat shield. You needed an extremely powerful attack to break through the huge meat shield.

I immediately thought of the sword attack. But the blade had several cracks in it. If there was no other option, then I could only engage in close combat against the gigantic mountain foreign creature.

Then I started to circulate the shock force energy with the purple lightning force. When the dark purple, golden, and silver forces covered my fist,

Swoosh!

I dashed toward the creature to attack. In the blink of an eye, I got closer to the creature. But it felt like I was standing at the foot of some mountain.

Boom!

I punched forward to attack. My fist touched the skin of the creature. The next second, the skin of the creature cracked under pressure.

Chapter 1183: Third day: Final battle

From MC's Perspective:

Seeing that there was a crack appearing under the attack, I continued to launch a few more punches without realizing that the foreign creature had set its gaze on me.

The mountain foreign creature found the little pest and wanted to squash it completely. It used its ability to suddenly turn around.

The next second, a sense of crisis rose in my heart. The weird head of the creature turned towards me, as if someone was looking at me from the mountain top.

Swoosh!

"Lightning Phantom Technique!"

I used the movement technique to retreat backward. Purple lightning arcs covered both of my legs. In a flash, my body retreated in a zig-zag manner.

Boom!

At the same time, the mountain foreign creature's huge body pressed down on the previous spot. A loud booming sound occurred.

A shock wave spread across the area. The heavily weighted mountain creature moved in a split second to the adjacent spot.

On the other hand, my eyes flashed with disbelief. I saw the creature was now standing at my previous spot. If I had been one step late, my entire body would have been under the mountain.

"What the f@ck?" I asked myself.

None of the foreign creatures were simple to begin with. Last night, I encountered projectile-type foreign creatures. Now I was facing a mountain-type creature.

So far, it has shown the ability to move across the adjacent side in split seconds. I guessed whoever got closer to the mountain-type foreign creature would be squashed to death.

Boom!

The mountain-type creature walked out of the deep pit. It realized that it had missed the target, then saw the target in front and started moving towards it.

On the other hand, I calmed my heart. It was time to attack the foreign creature from a distance.

About 20 minutes later,

When the foreign creature got closer, I raised my hand and prepared to launch the lightning technique.

"Lightning Cage!"

A purple lightning and shock force mixed attack beam shot from my right palm. The powerful attack struck the target in the blink of an eye.

Boom!

Several lightning bolts trapped the mountain creature like a cage. Then the lightning bolts started destroying the mountain creature's body.

One after another, new cracks appeared on its body surface. The shock force power caused even more damage by wreaking further destruction. It was tearing apart the skin and flesh.

Boom!

The mountain foreign creature again tried to use its fast agility, but under the continuous attacks, it couldn't move its body. The purple lightning force was destroying its body.

In a blink of an eye, most of its body was left charred, with flesh and skin torn apart. It was left half dead. One more attack and the creature would definitely die.

On the other hand, my attack had ended. But fortunately, it worked out well. It was not an instant kill, as this foreign creature had incredible defense and was gigantic.

Boom!

Once again, I launched the "Lightning Cage" attack.

As time passed, the mountain creature's vitality began to fade rapidly. It didn't take long for the huge mountain creature to become completely charred and die.

Seeing that, my eyes flashed with relief. It took a great deal of effort to kill this one foreign creature. I didn't know whether others would arrive.

Soon, I dismissed the thoughts and returned to the position close to the teleportation platform.

Time passed,

A new day arrived; it was the third and last day of the trial. I was fortunate that no other foreign creatures appeared last night.

Now, I have entered the third day. I didn't know what new type of foreign creature would appear.

Tud! Tud!

I felt a tremor underneath my feet, as if a large number of creatures were moving at the same time. When this thought occurred to me, my expression changed.

I couldn't help but think of the Ancient Inheritance's Trial that I had undergone.

Soon, a horde of foreign creatures appeared before my eyes. Among the horde, there were different types of foreign creatures with six legs and eight legs.

I also saw one with over 100 ft tall legs. Then my gaze settled on the rear, where I saw the mountain creature moving slowly.

"It's going to be the final battle," I said to myself.

"Don't tell me someone has prearranged the trial so that the third day trial would be the last and most difficult one," I thought.

Fortunately, I didn't waste free time last night. I had practiced the methods of blood elements, lightning, and healing elements as well, because the mountain-type creature could hurt me.

Not only that, but I had also recovered the golden sealing force and shock force. I was ready to confront the horde.

As time passed, when the foreign creature horde got closer to me, I raised my hand to launch the lightning attack.

"Lightning Drop!"

Purple lightning force shot from my hands. In the blink of an eye, the dark purple beam with golden and silver shades struck near the incoming horde.

Boom!

The next second, a mushroom cloud appeared. The charred land was already filled with dust and smoke. Now, one more dust cloud appeared.

The shock wave swept away the surroundings.

On the other hand, the single lightning attack had caused more than 50 deaths in an instant. A single lightning bolt took the life of a foreign creature.

The lightning drop caused more than 100 lightning bolts to spread out. Right now, some of the foreign creatures were injured as well.

But their movement was not stopped. They continued to march forward toward their target. Seeing that, I was not surprised. I was happy that a single lightning attack had killed so many foreign creatures.

It was only possible because of the shock force power, which had added more destructive power to the purple lightning that was already powerful to begin with.

As time passed, I continued to launch the "Lightning Drop" attack. The foreign creatures in front were almost wiped out.

Time passed.

After the front line was cleared, my attacks fell on their second line of attackers. But the horde continued to move forward.

Whatever killing and explosions were happening, it was slowing down the creatures' movements for a couple of minutes.

Yet the foreign creature's horde was coming towards me. It took me back down memory lane, where I had fought against a number of foreign creatures in the trial.

But that was a trial. The foreign creatures were almost at the same level of strength. Here, the foreign creatures had different abilities.

Some of them were not dying even after taking multiple attacks. My gaze never left the mountain-type creature.

If not for that particular creature, I wouldn't have minded entering close combat earlier. Right now, considering the situation, I had no choice but to enter close combat.

Because the purple lightning force was draining out faster. Before it ran out completely, I had to eliminate half of the horde. Otherwise, I would be swarmed by the foreign creatures.

As time passed, my lightning attacks continued to kill the foreign creatures in the horde. It slowed down their speed as well.

Yet the purple lightning force ran out two hours later. At that point in time, as I said earlier, half of the horde was wiped out.

As long as I eliminated the mountain foreign creature, I could take down the rest of the foreign creatures easily. So I decided to engage in close combat.

For this, I was going to use the bloodline energy.

I started to circulate the bright blue water force in my body and covered both fists with the blue water force.

Swoosh!

The next second, I disappeared from the spot and started dashing towards the horde. Both of my fists were burning hot. I couldn't wait to punch the mountain foreign creature.

In the blink of an eye, a six-legged foreign creature blocked my path. While moving, I sidestepped and threw a casual punch with my left hand.

Boom!

The blue water force-covered fist made contact with the side of the creature's body. The next second, the brute force sent the foreign creature flying backwards.

The blue bright force left a hole in its body. The hot water element boiled the skin before breaking it.

On the other hand, I realized what I was missing. I started to circulate the shock force as well. The golden and silver forces mixed with the blue water force.

I covered both of my fists with the new force. Then I struck the body of the next foreign creature.

Boom!

An explosion occurred. The foreign creature was blasted away the next second. Blood and inner organs splattered everywhere.

Compared to the bright blue water force attack, this attack gave a quick death to the foreign creature. Seeing that, I started charging towards the mountain-type foreign creature.

Boom!

Those creatures that came to hinder my way were blasted off one after another. Then they crashed in different directions.

Chapter 1184: Humanoid foreign creature!

From MC'S Perspective:

Boom!

I continued to use the blue water force with shock force. The combined inheritance power was destroying the bodies of mountain-type foreign creatures.

As time passed, I continued to take down the remaining mountain-type foreign creatures. The other foreign creatures with weird bodies tried to stop me.

But they were all slapped to death in return. I came to realize that those foreign creatures with fewer numbers were particularly strong, while those with higher numbers were weaker.

Noon fell; I wiped out the remaining horde by relying on the bloodline power. The foreign creatures were no match.

Just as I thought everything was over, I saw something that sent a cold shiver down my spine.

I saw something looking over at me from a distance. It appeared to be a human warrior. But my instincts warned me that it was not human at all.

Alarm bells started ringing in my body. I immediately began to circulate the red blood energy.

When the red blood energy covered both of my fists, then I covered both of my fists with shock force energy as well. This was the new combination I was going to use right now.

Swoosh!

In a flash, the humanoid foreign creature appeared a few meters away from me. My back went cold. It moved faster than I thought.

Then I saw its face. It made me shiver once again.

"F@ck," I cursed under my breath.

Don't tell me it's the real deal. The foreign creature was humanoid, with a height similar to a human warrior. But it didn't have eyes, nose, or ears.

There was only a creepy wide mouth filled with razor-sharp teeth and a bald head. Both of its hands and feet were like claw fingers.

Boom!

The humanoid creature bolted out to attack me the next moment.

Seeing that, I didn't hold back. I continued to run red blood energy. A thick red aura began to cover my fists once again.

Swoosh!

In a flash, the humanoid creature appeared above me. My perception was in a heightened state. I immediately noticed it wanted to attack me with its claws.

Claw!

I retreated backward. The black claw cleaved through the empty air.

Swoosh!

The next second, the foreign creature appeared right before my face. Its movement ability was greater than mine.

Smack!

The next second, I smacked its face. The humanoid creature didn't expect it.

Boom!

The punch sent its body flying backward. The body flew over a hundred meters before crashing into the ground. Seeing that, I thought I could survive this.

My right hand was hurting. I found out that the humanoid creature's body was different. I felt like I was hitting a wall.

Swoosh!

The next second, like a fast projectile, the foreign creature came towards me. Even under my perception, I found its speed to be rather faster.

Smack!

Without holding back, I tried to strike again. The dangerous claws once again reached for my face.

"Lightning Wheel!"

The next second, I executed the lightning technique mixed with the shock force power. A dark purple wheel appeared around me with golden and silver shades.

Boom!

Upon materializing, the lightning wheel collided with the humanoid creature. The lightning wheel exploded the next moment.

The humanoid foreign creature took the full brunt of the attack. Its body flew backward before crashing into the ground.

On the other hand, I began to feel uneasy. The humanoid foreign creature didn't seem to suffer any damage. But I could tell that its combat strength was that of a Black Mark Warrior.

If it were a Silver Mark Warrior, I wouldn't be standing here.

"What's going on?" I asked myself.

When the dust settled, I noticed that the humanoid creature stood up as if nothing had happened. Except there was a thick dark mark at the point of impact.

Since its whole body was black, the little wound was not visible. On the other hand, I found out the reason for the alarm bell.

I came across the foreign creature; it seemed unkillable with my current strength. But fortunately, I could evade the attacks due to my perception.

Tud!

The humanoid creature stood up again as if nothing had happened. Once again, it charged towards me. Seeing that, my face changed. It seemed to have an unlimited supply of energy.

On the other hand, my force power was running out. Then I thought of using the sealing force. The golden dull force covered both of my fists.

Boom!

The humanoid creature appeared once again before me. Seeing that, I wasn't surprised. If not for its lifelike body and mouth, I would have doubted whether it was a puppet.

The humanoid creature raised its claw fingers to attack me. Under my perception, its trajectory was clear to me. In order to use the sealing force, I had to touch the creature.

Just as the claw fingers were about to reach my neck, I moved from the spot. Then I hit the side of its body with the sealing force.

Upon contact, the humanoid creature was sealed on the spot. Seeing that it was not moving, my mouth curved into a smile.

"Blood Fist!"

I executed the blood method technique. My fist was covered with red blood energy in the blink of an eye. Then I used the shock force to cover my fist again.

Smack!

The next second, I hit the head of the creature very hard.

Boom!

An explosion occurred again. The shock force spread across the area. But the foreign creature didn't move; it was in a sealed state.

However, the head was fractured. A few more attacks, and the head would burst like a watermelon. Fortunately, the sealing force worked.

Boom!

Then I continued to strike its head, one after another. Each punch was filled with red blood force energy and shock force energy.

After a couple of hits, the foreign creature's head was completely cracked. Green liquid splattered on the ground.

At the same time, the sealing force began to lose effect.

The next second, I used the sealing force again. The humanoid creature was once again sealed. I was worried that the humanoid creature might have other abilities.

It didn't take long for the humanoid creature to die. When the sealing effect was over, the corpse fell to the ground.

Chapter 1185: Returned with triumph!

From MC's Perspective:

After killing the humanoid creature, I started to look around. I wondered whether other humanoid creatures were nearby.

For the first time, I felt a threat from the humanoid creature. It took all my efforts to kill these foreign creatures.

Time passed, but there was no sign of the humanoid creature at all.

Seeing that, my tensed eyebrows relaxed. The next second, I retreated backwards to the area near the Teleportation platform.

I continued to wait for the foreign creature to come. Not only did the humanoid creature not appear, but the rest of the creatures didn't appear as well.

Then I let go of my heavy heart. I had already completed this tough trial. The next morning, I would leave this platform.

As time passed, the next morning came. I moved my body and walked up to the Teleportation platform.

Outside, the Purple Mark Guard noticed that Zack Lockwood had entered the platform. The next second, he took out a device and activated the Teleportation platform.

Swoosh!

The next second, Zack Lockwood appeared outside.

Upon seeing him, the Purple Mark Guard let out a hearty laugh.

"Ha... Ha... Ha..."

"Zack Lockwood, you have done an amazing job. You managed to complete the tough trial. This was not a simulation but an actual battlefield."

"You managed to withstand it until now. It shows that you are ready to take on some important missions," the Purple Mark Guard said with a smile.

Hearing that, I didn't know whether to laugh or cry.

Only I knew how hard it was to survive. The humanoid foreign creature was on another level. Suddenly, I thought of something important.

I looked at him and asked, "Elder, did anyone complete the trial before me?"

The Purple Mark Guard was not surprised.

"Yes, there are people who have completed the trial. But they were like you. Every one of them had Ancient Inheritance," he said.

Hearing that, my eyes flickered with understanding. It was not only hard for me but also hard for other Ancient Inheritance Warriors.

"Some of the foreign creatures were hard to kill. They cause huge losses every year. Only Ancient Inheritance's power can harm them."

"Now, you can understand why warriors with Ancient Inheritance are favored compared to others. I know about your situation as well."

"You have accepted the new Ancient Inheritance called Shock Force Integration. Apart from that, you have also got bloodline Inheritance of the Ball Family," he added with a smile.

"Yes," I said.

There was nothing to hide. He was someone assigned by Dean Jerome, so I could trust him.

"But be careful. Don't tell anyone about your real Inheritance. Soon, the dean will reveal that you got a variant water force Inheritance," the Purple Mark Guard said.

I nodded to him.

"Let's go," the Purple Mark Guard said.

Then he grabbed the shoulder of Zack Lockwood and left the spot.

About two hours later, the Purple Mark Guard brought Zack Lockwood to Star University.

On the other hand, I had many doubts about the foreign creatures. I was looking forward to asking him. But the Elder was keen on leaving.

After dropping me at the transportation area, he left.

Then I turned around and started walking towards the Thunderflame Faction. As I headed toward the place, I came across other warriors.

At first, the warriors didn't recognize me because my clothes were dirty and tattered. My face was also covered with sand and dust.

Seeing that, the warriors didn't recognize me. I sighed inwardly. I didn't know what happened during my absence here.

I'm sure the warriors of the Dark Variant Faction must be waiting for me. Previously, I had beaten them relying on brute force.

Now, I have a handle on my ancient inheritance powers. If someone wants to mess with me, I can use the sealing force to deal with them silently.

Soon, I returned to the Thunderflame Faction.

Upon entering, I found that the warriors were going about their business. I made my way toward the residence.

Shortly afterwards,

I returned to my room. I opened the door and walked inside. The first thing I did was to enter the bathroom.

Then I started to take a bath. The bath lasted for 20 minutes. After coming out of the bathroom, I changed into comfortable clothes.

Then I went to bed and lay down. The next moment, a wave of comfort washed over me.

...

Meanwhile, the Purple Mark Guard returned to the Dean's office to report.

Dean Jerome was sitting behind the desk. He was now looking at the data from the training battlezone. He was focused only on the number of foreign creatures killed.

Unfortunately, the battlezone didn't support other technologies. Otherwise, he would have recorded footage.

But he was happy with the available data.

Swoosh!

The Purple Mark Guard quietly appeared inside the room. Dean Jerome felt his presence but continued to look at the data.

It was the data belonging to Zack Lockwood. As he continued to look at the data, he was surprised to learn that Zack Lockwood had killed multiple foreign creatures.

It was the final foreign creature in the trial. Not many Ancient Inheritance warriors were able to kill this foreign creature on their first attempt. It was nicknamed mountain foreign creature.

Just as he was about to close the data, he saw another new entry.

"Hmmm," he raised his eyebrows in surprise.

But when he saw the new data, Jerome's eyes widened in disbelief.

"Humanoid creature," Jerome uttered in shock.

"What?" the Purple Mark Guard exclaimed.

He thought he had heard something wrong, but looking at Dean's expression, he was sure he had heard it right.

Dean Jerome's expression turned serious. At the same time, his heart was not calm. The humanoid creature was not supposed to appear on the training battlefield.

It belonged to a different battlefield where Silver Mark Warriors gathered. But he was shocked to the core upon learning that Zack Lockwood was able to kill the humanoid creature.

It was not easy to kill the foreign creature. Even powerful Silver Mark Warriors would struggle to defeat such a being. Yet that kid managed to do it.

If the kid had been weak warrior, he surely would have died. It was a mistake on their part not to check the training battlezone.

Chapter 1186: Dean and Purple Mark Guard's shock

Dean Jerome's office:

The Purple Mark Guard couldn't contain his curiosity. He looks at Dean Jerome.

He asked, "Dean, what's going on?"

Jerome takes his eyes off the screen and turns towards the Purple Mark Guard.

"Don't you know?" Jerome asked back in surprise.

The Purple Mark Guard shakes his head helplessly.

Jerome said, "The foreign creature that appears on the last day was supposed to be a mountain-type foreign creature."

"Yes, it's the same case every year. Zack has done well. He even returned unharmed," The Purple Mark Guard said.

Jerome smiled and said, "Zack Lockwood is even better. Do you know what happened?"

"There is one more foreign creature that appeared after the mountain-type foreign creature. It's a humanoid foreign creature."

"Even the Silver Mark Warrior would find it hard to kill one. Yet this kid was able to slay one. We all underestimated him," Jerome said with a smile.

"What?" The Purple Mark Guard blurted out in surprise.

He couldn't help but recall Zack Lockwood's questions at the entrance. He asked about the previous challengers who had Ancient Inheritance.

But he gave a casual answer to the kid. Yet Zack Lockwood was asking about the foreign humanoid creature. No one had faced it before. Including the previous warriors who had Ancient Inheritance.

"Now, you understand!"

Dean Jerome said with a chuckle. He was shocked as well. But he didn't show emotions on his face.

"If the news is leaked, a new storm will appear. Dean, should I go back and warn that kid," The Purple Mark Guard said.

Jerome shakes his head before replying, "There is no need for that. People are already paying attention to his inherited power. This news will distract them."

"Let's hope that the Thunderflame Faction would be silent about this," He added.

The Purple Mark Guard nodded to him.

Jerome then informed the Faction Leader, Clifford, about Zack Lockwood's return.

...

Thunderflame Faction:

The Faction Leader Clifford was glad to know that Zack Lockwood had returned safely. He had expected Zack to visit him.

Now he thinks that kid must be exhausted. So he didn't disturb him. Rather, he informed all the main elders.

Austin and Ann were happy to know that Zack had returned. They were worried. The battlezone was not an easy place.

Only the warriors who have accepted the Ancient Inheritance can survive there. Both of them had witnessed the power of the variant water element.

So they knew there won't be any life-threatening injuries.

...

From MC's Perspective:

The following day,

I woke up quite late. After getting out of bed, I began to do my morning routine. To be honest, I don't want to leave today. I still wanted to rest here.

But the Faction Leader, Masters and the Main Elders must have known about my return yesterday. If I don't go today, they will think something is wrong with me.

It didn't take long for me to complete the morning routine. Then I entered the bathroom to take a shower. The bath lasted for 20 minutes.

After stepping out of the bath, I changed into fresh clothes.

Shortly afterwards,

After getting ready, I exited the residence. Then I started going towards the Golden Lightning Palace. As usual, the members recognised me.

"Hey! Zack Lockwood has returned!"

"Quickly spread the word to others!"

"The Faction is going to shake."

The warriors are discussing in a low tone. Hearing that I was speechless. I hadn't expected the warriors to miss me.

They were waiting to see a drama. I shook my head before heading towards the Golden Lightning Palace. Upon arriving there, I took a small breath before going inside.

I nodded to the members before heading towards the Master's residence. But just as I arrived at his residence.

Buzz!

I received a call from Master Austin the next second. Seeing that my eyes flashed with doubt. I attended the call the next moment.

"Zack, come to the meeting hall!"

Hearing that, I realised everyone was waiting for me in the meeting hall. Then I turned around and started walking back.

About 5 minutes later,

I arrived at the meeting hall. At this point in time, a lot of warriors saw me. I guess the news will spread soon.

Then I walked into the hall. My gaze fell on the Faction Leader and Elders discussing me.

Upon my arrival, everyone quieted down.

"Zack, how are you doing?"

"Did you suffer any injuries yesterday?" Oldman Clifford said.

Hearing that, I replied, "I'm doing fine, Faction Leader."

"Good, tell me about the trials?"

"It's not easy to face the foreign creatures for the first time. We all had our own experiences facing them," Clifford said with a smile.

I nodded to him before starting to tell them about the experiences. Starting from the first day, when I came across the weird six-legged foreign creatures.

Hearing about the six-legged foreign creature, they weren't surprised. But they all had a smile on their faces while listening.

Their expression shows that they too faced this creature. Then I talked about the nighttime when I faced the projectile-type foreign creature.

"These damn pests usually come at night time," Cathy said all of a sudden.

Hearing that other main elders smiled. The Faction leader, Clifford, nodded his head.

Then I began to talk about the second day. I came across extremely tall, towering foreign creatures. Their legs are taller than some of the high-rise buildings.

This time no one was surprised. They had faced the towering foreign creatures as well. Then I continued to talk about my attacks and strategies.

After telling them, I started to speak about the mountain-type foreign creatures.

"It's the final creature in the trial. To think you have killed it. It's the proof of the power of your Ancient Inheritance," Oldman Clifford said with a smile.

He was impressed with Zack Lockwood's explanation. The kid narrates as if everyone were on the spot, witnessing the battle.

"Final creature," I uttered in disbelief.

There is one more foreign creature to go. It's the most dangerous foreign creature in the trial.

Chapter 1187: Stunned silence!

From MC's Perspective:

My expression caught them off guard. I immediately tried to calm my heart down.

"What happened?" Austin asked.

Hearing that the Main Elder's gaze fell on Zack Lockwood. They could see something was wrong.

Faction Leader Clifford notices the expression as well. The kid has been explaining with a calm expression earlier. What happened now?

"Zack, did something happen?"

“You can tell us. If there is anything, I can even request the Dean to sort it out,” Clifford said in a serious tone.

Hearing that, I sighed inwardly. I don’t know whether any good outcome would come from telling them.

“It’s nothing, Faction Leader. I thought of something else,” I said to them.

Ann frowned. She could tell something was wrong as well.

“This kid had already faced so many life and death situations. What is he hiding right now?” Ann asked in her heart.

The other main elders thought that the kid was lying.

Leola’s expression changes for a second.

She asked, “Kid, are you worried that we would ditch you because of your inheritance?”

Her words caused even more commotion.

Austin stood up from his seat. He turned towards the Faction Leader.

He said, “Faction Leader, I have made it clear. He is not going anywhere. I’m still looking for the Purple Lightning Method.”

“If the Dew Water Faction wanted to get him, then I’m ready to fight against them,” He added.

“What are you talking about?” Old man Clifford was dumbfounded.

Ann stood up abruptly as well. She thinks someone else spoke to Zack behind her back. She wanted to make her statement clear as well.

“I have said it before. This kid is practising my ancient healing technique. Though the technique is incomplete. But its power is not less than that of other Ancient Inheritance.”

“So Dew Water Faction can’t have him,” She said to the Faction Leader.

But the Faction Leader, Clifford, was dumbfounded. He thinks there is some misunderstanding going on.

On the other hand, my mouth twitches. My silence has caused arguments.

Main Elder Leola, Cathy and Rosie spoke one after another as well.

“My disciple and I were here because of Zack. I hope the Faction Leader won’t drive him out,” Rosie said in a serious tone.

“What are you guys even talking about?”

“Nobody knows about Zack Lockwood’s Inheritance. Let alone, the Dew Water Faction. More importantly, I had made it clear as well.”

“Zack Lockwood is a member of the Thunderflame Faction and will always be,” Clifford said.

Hearing that, the main elders looked at each other before sitting back in their seats.

Faction Leader Clifford’s gaze then fell on Zack Lockwood.

“Kid, are you happy right now?”

“Both of your masters have misunderstood me,” Clifford said.

Hearing that I have decided to tell the truth. Since the Thunderflame Faction’s Faction Leader and Main Elders are not willing to give up on me.

Then I have to be truthful. I felt the gaze of everyone on me. Master Austin and Ann were looking at me as well.

“Actually, one more thing happened in the trial,” I said.

Hearing that everyone’s expression turned serious.

“I was thinking about that earlier. After killing the mountain-type foreign creature. I had faced one last foreign creature. It’s a humanoid foreign creature.”

“It took me some effort to kill it in the end. Fortunately, it was the only one. If it had appeared in a group, my situation could have become worse,” I said to everyone.

Quiet!

There is absolute silence in the hall. My gaze went to score everyone. They had a solemn expression on their faces.

Faction Leader Clifford was stunned. He was speechless for a second. Then he realised what the kid had said. The kid can’t lie. Because no other warriors below Black Mark Rank had heard about it.

Unless the kid has really faced that being in a trial.

Austin’s heart was in turmoil. Who doesn’t know about the humanoid foreign creatures? They were the main killers. The other different foreign creatures were just foot soldiers.

But the Black Mark Warriors were only allowed to face those foot soldiers. For that Warriors needed Ancient Inheritance Power. It's not easy to kill some of them.

"No wonder my disciple's expression was different earlier," Austin thought.

Ann's heart was set off by storms as well. She believes Zack Lockwood. She doesn't think it was a lie. Now she understood the change in Zack Lockwood's expression earlier.

The Faction Leader didn't mention the humanoid foreign creature. It was the creature faced by the Silver Mark Warrior.

Leola, Cathy and Rosie were in disbelief as well. They had misunderstood it earlier. Zack Lockwood had a change in expression because of the Humanoid Foreign Creature.

"How did you survive?" She blurted out of curiosity.

The next second, everyone looked at her.

On the other hand, I'm enjoying the dreadful expression of the elders and the faction leader. They were all powerful Purple Mark Warriors. They were stunned by the news.

Especially the Faction Leader who is a Half-Step Red Mark Warrior. His expression was grave as well.

"Is it the work of Dean?" Clifford thought.

He then looks at the kid. But this time his expression was serious. It was not an ordinary thing to take down that being in Black Mark Rank.

He hadn't heard of anyone with Ancient Inheritance doing that before.

“Zack Lockwood, tell no one about this matter. It’s a more serious matter than your inheritance,” Clifford said.

“Okay,” I replied.

“Wait, tell me!”

“How did you kill that thing?” Leola asked.

She couldn’t contain her curiosity. Not her, but also Cathy and Rosie were the same. Their eyes show their expectations.

“Sigh!”

“Tell us before you leave,” Clifford said.

Hearing that I don’t know whether to laugh or cry.

“I had used my Physique strength and Bloodline power to cause damage. In the end, I was able to kill the humanoid foreign creature,” I replied.

“That’s it,” Leola said.

“Yes,” I replied.

“You can leave,” Leola said.

She doesn’t believe his words at all. She knows the strength of the Humanoid Foreign Creature. During their early days, they had to flee from it.

I nodded to everyone before leaving the meeting hall.

Chapter 1188: Fresh drama!

Meeting hall:

“Faction Leader, is this the work of Dean?” Austin asked.

Because he sees no other reason for the trial battlezone to have humanoid foreign creatures.

“It must be him. Apart from him, no one has power and authority,” Ann said as well.

But the Faction Leader, Clifford, was still doubtful. He thinks, why would the dean allow a humanoid foreign creature to appear? This thing can only be taken down by the Silver Mark Warrior.

So he thinks Zack Lockwood was lucky. He has made up his mind to see Dean Jerome. Only he can solve his doubts.

“I’ll ask him. So don’t worry. Since we knew what happened with Zack Lockwood. It’s time to go back to our office room,” After saying that old man Clifford left the place.

Seeing that others were stunned. Then they had no choice other than to go back. They knew the Faction Leader wouldn’t come back unless he got answers from Dean Jerome.

...

Outside,

I have decided to use the inner hall facilities. The trial has given me insights. Only by practising hard can I utilise them.

Shortly afterwards,

I walked out of the Thunderflame Faction and headed towards the Inner Hall. On the way, I came across warriors. They were surprised upon seeing me.

I nodded to them before continuing with the walk.

Soon, I reached the Inner Hall. I took my badge out and scanned it.

Creak!

The next second, the door opens. I walked inside. As always, I started going towards the training facility.

Meanwhile,

The warriors did their job. They posted the news about Zack Lockwood's return with his picture. The news immediately caught the eyes of many warriors.

They started to like it and share it. It didn't take long for some of the warriors in each faction to know about Zack Lockwood's return.

Especially, the four Dark Variant Faction Warriors who were waiting patiently were able to get the news. When they got the news.

The four inner hall warriors looked at each other's faces.

Last time they were beaten down by Zack Lockwood. Because they didn't use their Inheritance power. They had thought they could take down Zack Lockwood with four of them combined.

But they were wrong in the end.

“Let’s go, he must be going to the training facility right now,” the first person said.

“Don’t go, there are others who want to fight against him,” the second middle-aged man replied.

“At least, we should watch the fun from the sidelines. Let’s go,” the first person uttered.

The other two agreed as well. Seeing that the second middle-aged man decided to go as well.

Soon, four of them left their faction and headed towards the Inner Hall.

Similarly, the others who wanted to target Zack Lockwood began to appear in the Inner Hall. Because the news of his return is not only trending in the Outer Hall.

But the news is also trending in the Inner Hall.

Meanwhile,

Ronnie Seth, who was in the Dark Variant Faction, heard about the news as well. He quickly went to the online media to confirm it.

Upon checking that the news was true, he thinks that the upcoming days won’t be peaceful. Last time, he had helped Zack Lockwood.

He doesn’t know whether he can continue with that. He had also heard the news that four of their Inner Hall warriors were beaten miserably that day.

He wanted to stay here to focus on practice. But he couldn’t contain his curiosity. So he quickly left the faction and headed towards the Inner Hall.

Similarly, the warriors of the Thunderflame Faction heard it as well. But their Inner Hall Warriors are seniors to Zack Lockwood.

The Outer Hall Warriors don't know whether they would help Zack Lockwood.

...

Human Ancestor Bloodline Faction:

The Faction Leader Francesca saw the news as well.

"This kid is back. Did he win the trial?" She asked herself.

She wanted to check the progress of the bloodline as well. Last time, Zack Lockwood asked her about the bloodline techniques. She didn't give him any.

Because Zack Lockwood has Bloodline power. As long as he could pay attention to the visualisation. The information would appear in his mind.

...

Time passed,

I'm practising inside one of the rooms. The blood fists technique is getting better. But I don't have a suitable target Puppet for practice.

All other Puppets were getting destroyed upon contact. I think it would be better if I got a puppet similar to the Silver Mark Warrior standard.

Until I won't be able to get satisfaction. Then I thought of getting fresh air outside. Then I stopped practising and walked out of the room.

But the scenes outside stunned me. There are warriors gathered outside in the corridor and discussing something serious. It takes me back to memory lane.

Someone wants to mess with me right now.

"Hey, Zack Lockwood is out!"

"He is here."

"He has no way to escape right now."

"Go attack him"

The warriors were discussing in a loud tone.

Upon hearing their words, I knew it was trouble. Then I turned around and started walking towards the exit. I want to see who's coming this time.

Last time, the people from the Dark Variant Faction had come.

While walking, my gaze fell on the Inner Hall Warriors. They were all middle aged men and above. None of them were young like me.

I guess only Ronnie Seth and few others are similar age to mine.

"Zack!"

Upon stepping outside, I heard someone calling me. Hearing that I followed the gaze and saw the person was none other than Ronnie Seth.

“What are you doing here?” I asked him.

The next second, Ronnie Seth found everyone’s gaze turned towards him.

He felt helpless before walking Zack Lockwood.

Then he said, “They have come here to watch the fun.”

“There are warriors who want to fight against you,” he added.

“Fighting against me?”

“I’m busy,” I replied.

Ronnie Seth had black lines in his forehead.

“You can’t avoid them,” he said.

“Let’s see,” I uttered.

Chapter 1189: The Bloodline Warriors’ actions?

From MC’s Perspective:

“Zack Lockwood, you are here?”

I heard the voice the next moment. Then I turned around and saw a group of ten people walking towards me. My eyes flash with a glint.

I saw their badges. They are from the Bloodline Factions.

Ronnie Seth, standing beside, was silent. He doesn't know whether to step up or not.

I noticed his struggle. Then my mouth curves into an arc. This guy was from the Dark Variant Faction. But he is courting death by supporting me.

"I'll take care of it. You just step aside," I said to him.

Hearing that Ronnie Seth nodded his head and retreated.

Then I turned towards the group of people. Everyone was a middle-aged person. I could sense an aura closer to the Silver Mark Rank.

I guess they are one step away from reaching the Silver Mark Rank.

"I don't have any issue with Bloodline Factions. What are you guys here for?" I said to them,

"What?"

"Did you forget about how you beat down the warriors from other top 10 factions?" A heavy-built middle-aged man asked.

"Our juniors are yet to break through. That's why we have decided to teach you a lesson on behalf of them," A short-haired middle-aged man said.

Hearing that, I felt that the fight was going to be unavoidable.

“Let’s go to the duel arena,” I said in a confident tone.

But it has reached everyone’s ears.

Gasp!

A small exclamation occurs. The warriors around us are taken aback by surprise. Even the bloodline faction warriors were surprised.

They didn’t expect such an answer from me. Among the group, three of them were from the Human Bloodline Faction. But they are not from the Ball Family.

So I don’t have to be worried about offending the Faction Leader Francesca.

“What happened now?”

“Are you guys scared?” I asked them.

The two middle-aged men were enraged. They were being challenged. Then the ten members began to discuss.

Everyone’s gaze was on them.

“I’m going to the duel arena now. Come to the arena after making a decision.” After saying that, I turned around to leave.

Everyone was shocked. They felt like Zack Lockwood was mocking the bloodline warriors.

Ronnie Seth shakes his head. He knew someone would fight against Zack. But he didn't expect the Bloodline Factions' warriors to come up first.

Meanwhile,

The four warriors from the Dark Variant Faction were watching the scene. They were surprised to see the reaction of Zack Lockwood.

Seeing that he said he is going to fight in the arena. They were shocked. They knew the strength of Zack Lockwood. He can take them down with his brute strength alone.

"Let's go and warn them. If they don't use their inheritance power, then it would become difficult to defeat that kid," the first person said.

The others are watching the development with excitement and have begun to share the news online.

The warriors in the Outer Hall were already waiting. Upon seeing the news they were shocked. Including the Outer Hall, the Elders didn't expect this outcome.

They had thought someone would stop the fight. Especially the Inner Hall Elders. But from the beginning to the end. The Inner Hall Elders didn't make any appearance.

Like others, they were watching the scenes from behind as well.

"This kid has challenged them to an arena fight. Would they agree?" A white haired old man asked. He is one of the Inner Hall Elders.

"The Bloodline Warriors have no choice. If they don't want to lose face," A female elder said.

The other Inner Hall Elders were discussing it as well. It's just none of them went forward to stop the fight. Because they don't want to offend the factions.

If the warrior manages to become a Black Mark Warrior, then he has become an asset to the University. Then he would be trained to become a powerful warrior.

So the Inner Hall Elders are not taking action.

At the same time, some of them wanted this fight to happen in their heart. They were interested in Zack Lockwood's Ancient Inheritance. They want to know what kind of power it was.

Everyone has thought the Thunderflame Faction would make it public. But they were keeping silent. If not for Dean Jerome's words, they wouldn't have thought Zack Lockwood got Ancient Inheritance.

But Dean Jerome didn't reveal anything about Zack Lockwood. Whereas everyone almost knew what type of Inheritance others got. Including the Inheritance of Ronnie Seth. They knew Ronnie Seth's Inheritance was to do with lightning.

It was confirmed by the Dark Variant Faction as well.

But nobody knows about Zack Lockwood's Inheritance.

Meanwhile, I exited the Inner Hall and started heading towards the duel arena. I must use this opportunity to deter others. So the warriors won't pester me again.

The Inner Hall Warriors needed to see an unforgettable scene. I should thrash all ten of them. So next time, no one would bother me.

...

Thunderflame Faction:

Faction Leader Clifford got the news. A blackline appears on his forehead.

“Here we go again,” He said to himself.

He doesn’t understand why the kid can’t stay silent. Especially after killing the humanoid foreign creature, he should be low-key.

But instead, he was ready to fight others.

“Damn, the other brats are ready to die. If they knew about Zack’s achievements in the trial battle zone, they would sh!t themselves,” Clifford thought.

Then he called Austin and asked him, “What’s your disciple up to?”

Austin doesn’t know whether to laugh or cry. Everyone can tell that the Inner Hall Warriors from other factions are troubling his disciple.

But the Faction Leader is asking him the questions.

“Leader, did you see those guys?”

“They are asking for trouble. Trust my disciple. He won’t kill them,” Austin replied before ending the call.

Clifford sighed. Earlier, he went to meet Dean Jerome. But Dean Jerome had warned him not to tell others. The dean didn’t say whether he allowed the humanoid foreign creature into the trial battle zone.

He left without getting any answers. Now this happened. He thinks that kid will shock everyone with his strength.

Chapter 1190: Inevitable duel!

From MC’s Perspective:

Duel Arena,

Soon, I reached the duel arena. There is a massive infrastructure in front of me. My gaze fell on the entrance. I don't know whether the elders are here.

Then I turned towards the office. Seeing that its door was open. I think that the staff were inside. Then I started walking towards the office.

When I got there. I immediately heard the conversation. I walked inside. The next second, I found everyone's gaze on me.

I smiled and said, "I'm sure everyone heard of the challenge. There are quite a few warriors who want to fight against me."

"I thought it's better to deal with them in the duel arena. Could you please arrange for the referee," I added.

Hearing that the staff were shocked. They looked at each other's faces. One of the Outer Hall Elders was present here.

He suddenly said, "I can do it."

The staff were taken aback. They didn't expect the Outer Hall Elder to accept it.

One of the staff said, "We need to discuss this with the Inner Hall elders. What if they don't want the duel to happen?"

"It doesn't matter. If not for the duel arena, I would beat them outside. But it won't look professional," I replied.

Hearing that the staff's mouth twitches.

“Let’s get inside. We can think about it later,” The elder said.

Hearing that, I sighed inwardly. Then I walked to the entrance door of the duel arena.

After exiting the office room, I stepped into the massive field. The fighting platform was built in the middle of it. I started heading towards the platform.

Fighting on the platform is going to be a good experience. Everyone will watch the duel. The defeated and other warriors would think twice before messing with me.

After reaching there, I entered the platform. My gaze fell on the floor, which was newly reinforced. My mouth curves into an arc.

The floor is going to be destroyed today.

Meanwhile, the warriors from the Inner Hall were coming towards the duel arena. The Bloodline warriors have decided to fight against Zack Lockwood.

Unless they teach a lesson to Zack Lockwood today. They won’t have a face to lift anymore.

Ronnie Seth is coming as well. But his face was full of helplessness. Because he is getting a lot of murderous intentions because of his earlier conversation with Zack Lockwood.

He also has a powerful inheritance. So no one is taking a risk to challenge Ronnie Seth. The four warriors from the Dark Variant Faction have seen Ronnie Seth as well.

Their expressions turned ugly. Their faction member was on the side of Zack Lockwood. They don’t know what to say. They too knew it’s because of Ronnie Seth’s Inheritance.

The Main Elders are willing to turn blind eye. But it’s not the same for them. If they don’t complete the task, they won’t be able to get rewards.

Then they too started following the crowd.

Meanwhile,

The inner hall elders got news from the duel arena office. Zack Lockwood has entered the arena. An outer hall elder is going to act as a referee.

From the beginning to end, Zack Lockwood didn't think about Inner Hall Elders. Now these Inner Hall Elders are regretting little.

Because of their inaction, an elder from the Outer Hall was able to grasp the chance. Now it's a foregone conclusion that a duel is going to happen.

If they still don't leave, they might have to face both the faction leaders.

Swoosh!

Then the Inner Hall elders rushed out towards the Duel Arena one after another. They don't want to miss the duel.

On the other hand, the Outer Hall warriors who got the news were rushing towards the duel arena as well.

Most of them had witnessed the duel between Zack Lockwood and Ronnie Seth previously.

They don't want to miss out on another exciting match this time.

...

Virtual Training Lab:

Oldman Daniel and the staff received the news as well. They were shocked. A small smile appeared on the old man's face. He had thought Zack Lockwood would be silent after getting into the Inner Hall.

But he was wrong in the end. Zack Lockwood is acting the same way as he was in the Outer Hall before. Ronnie Seth had told him about the warriors who were itching to fight Zack Lockwood.

He thought the problem would be solved by the Inner Hall Elders. But looking at the things right now. He doesn't know what to say.

"If the duel is going to happen in the duel arena, then it will be live streamed. So open the streaming page," He said to the staff.

The staff were excited about the duel as well. They had heard about Zack Lockwood's previous fight. But no one had witnessed it. Now they have a good opportunity.

...

Meanwhile,

The Bloodline warriors entered the duel arena. They saw Zack Lockwood standing in the fighting platform waiting for them. They got enraged upon seeing that.

What does it mean? They felt Zack Lockwood was challenging them.

"Damn it!"

"He should not leave the fighting platform today."

"We should use our Bloodline power to fight."

“Let’s ask the referee.”

“Otherwise, we will be evenly matched in physique strength.”

The Bloodline warriors discussed. Then they started walking to the fighting platform.

Meanwhile, the outer hall warriors began to enter the auditorium one after another. They were shocked to see Zack Lockwood and the Bloodline warriors.

The next second, their eyes filled with excitement. At the same time, the outer hall warriors from the Bloodline Factions were going to support their seniors.

If it were other opponents, they would have supported Zack Lockwood. But this time it’s different. They don’t know whether their seniors can defeat Zack Lockwood or not.

...

Thunderflame Faction:

Austin stood up from the sofa to leave. He doesn’t want any unwanted situation to occur. He fears that Dark Variant Faction might try to do something.

Though his disciples’ opponents are from the Bloodline factions. He thinks that Dark Variant Faction would soon cause some noise.

Swoosh!

He then leaves his residence and goes towards the duel arena.
