Chapter 1201: Battle starts!

From MC's Perspective:

Senior Estella is taking me to the quarters. At the same time, I'm observing the surroundings.

Buzz!

Suddenly, a loud alarm sounds out of nowhere. Hearing that Estella pauses her footsteps. She turned around and looked at Zack Lockwood.

"Come with me," She said before using her flight ability to fly forward.

Seeing that I started using the flight ability to follow her. When I'm flying in the air. I saw many warriors from different places heading towards the same direction.

It didn't take long for her to reach the battlezone. When I saw the battlezone. I was stunned. Because it was not open charred land. But a massive cave structure the size of a towering building.

"You will enter one of the passages. Then kill the foreign creatures coming your way. When the alarm sounds for the second time."

"It means the battle is over. You should retreat and exit the cave structure," Estella said without turning back.

On the other hand, I'm digesting the information. But it was too shocking. I had thought I was going to fight in the open charred battlefield like the trials.

But here I'm going to fight in the narrow passages.

Swoosh!

At the same time, the Black Mark Warriors started to enter the passages one after another. There were 200 Black Mark Warriors in total.

With Zack Lockwood's presence. The total number is one. Seeing that others are going inside. Estella turned around and told Vincent Carey.

"You should enter now!"

Hearing that I looked at her in disbelief. But I found out that her expression was serious. She was not joking at all. I looked at the black cave structure before rushing out towards it.

Soon, I followed other warriors to enter. But upon entering, I found the passage was narrower than I thought.

Then I started going deeper. To my surprise, other warriors were nowhere to be seen.

Then I came to the end and saw that the passage leads to multiple routes next. I had to pick one of the routes. Then I picked the first one and went inside.

As I entered the route, the path was getting darker. There is minimal light inside the route. At the same time, a stomach-churning smell is attacking my nostrils. I never had this experience before.

I immediately activated my perceptual ability. Only perception can save me in this area. I never thought the fighting environment would be this bad. It's hard to be sane here.

Rustle!

The next second, I felt the movements coming from the opposite side. I started to circulate the purple lightning and shock force.

A purple lightning bolt with golden and silver shades appears in my palm. The bolt illuminated the place. Then I saw what was happening in front of me.

A six-legged, deformed foreign creature over 8ft in height is a few metres away. Its entire body is wet, filled with mucous.

Now I understand where the disgusting smell comes from.

Weird cry!

The foreign creature made a weird sound before dashing towards me. Seeing that I felt goosebumps all over my body.

Swoosh!

The next second, I started to shoot the new lightning bolts at the target. In the blink of an eye, purple lightning bolts filled with the power of shock force struck the body of the foreign creature.

Boom!

An explosion occurs the next second. The purple lightning force tears apart the body of the foreign creature.

In the blink of an eye, the wet mucous body exploded like a watermelon. The blood and organ mixed water splattered on the ground.

Seeing that I sighed in relief.

I knew this might happen. That's why I had the purple lightning force ready. Then I calmed down. I started walking forward.

As I started walking forward, I came across a disgusting smell again. It's a sign of a foreign creature appearing. Then I saw another disgusting, wet, six-legged foreign creature.

Swoosh!

Without thinking further, I shot the purple lightning bolts at the foreign creature.

The purple lightning once again struck the body of the foreign creature.

The lightning force explodes, and power starts rampaging through the body of the foreign creature once again.

It didn't take long for the foreign creature to meet with the same fate. The foreign creature exploded on the spot. The blood-mixed organ splattered on the ground.

Seeing that second foreign creature was down. I knew it was not the first or second one to appear. I don't know whether to stop or continue with the move.

Since I don't know about the cave structure. I think it's unnecessary to take risks and explore deeply into the place.

Who knows? I might come across an army of foreign creatures. It's the worst thing that could happen.

This narrow passage is a safe passage for me. If the alarm sounds again, then I can retreat without any problem.

Rustle! Rustle!

Not long after, I heard the footsteps again. This time two more foreign creatures appeared. They had the six-legged as well.

Seeing that I realised that they were part of one army.

Before they could show any weird ability or launch a surprise attack.

Swoosh!

I shot at them with purple lightning bolts. Not one but more than 10.

Boom!

Upon a successful hit, the purple lightning exploded, causing more damage to the foreign creatures.

When the explosion stopped. I could see only blood mixed organs on the ground.

I sighed in relief. I don't know about the foreign creatures. Especially about their ability.

If they had a poison ability, it would become impossible to treat them here. So I have decided to be careful.

At the same time, changes are happening at the blood mixed organ. It's corroding the spot. Seeing that my eyes gleamed with a twinkle.

Swoosh!

I retreated to the safe spot. My gaze then fell on the corroded area. It's a good thing that I spotted it earlier. Otherwise, injuries could have happened to me.

Then I started to wait for the next foreign creature to appear.

Chapter 1202: Battle comes to an end!

From MC's Perspective:

Time passed,

I'm standing at the entrance of the passage. My perception was active. If anything comes behind me to attack, I would know.

Not long after the killing of the foreign creatures. I heard a weird sound again. If not for my strong mind, the weird sound would have disturbed me.

Weird Cry!

A deformed foreign creature appears in the passage. Its height is taller than the passage height. It's weirdly bending his body to walk inside.

Looking at the foreign creature, my stomach began to churn again. This foreign creature was different from before. I don't think a single bolt can take life in one move.

"Lightning Finger Technique!"

I raised my hand. A single powerful lightning beam shot out from my forefinger.

In a flash, the lightning beam tore through the air before striking the weird foreign creature's body.

Boom!

An explosion occurs. The black skin and flesh of the foreign creature blasted away. A weird blood mixed with parts splattered on the ground.

The impact force hits both sides of the walls. It's causing the walls to shake. I realised that the aftermath of the technique is different from the single bolt.

If he continues to use the attack technique, then the passage might collapse. So he used the lightning energy and shot multiple lightning bolts at the foreign creature.

Boom!

The foreign creature which was struggling and was attacked by the lightning power. The destructive lightning with shock force power began to destroy the rest of the foreign creature's body.

In the blink of an eye, the talking foreign creature lost most of its body and fell to the ground.

Seeing that my eyes flickered.

Fortunately, I didn't allow these foreign creatures to attack me. But I'm curious to know about their ability.

Apart from their mucous liquid which was poisonous. I didn't see anything. Then I recovered my thoughts and continued to pay attention to the surroundings.

My eyes were staring into the passage. I don't know where the passage leads to. Maybe I will know more after settling down in the quarter.

Alarm!

The alarm sounds again a few minutes later.

My eyes flash with relief. Then I turned around and started darting towards the exit. I could hear many weird crying sounds coming from the passage.

My heart stirred. As if many foreign creatures are waiting to come out but they were not allowed for some reason.

It reminds me of my trial where I dealt with waves of foreign creatures. I reached the exit within a minute. Then, without thinking further, I darted out.

Only after leaving the massive cave infrastructure did they retreat to the safe spot close to the Camp building. I paused my footsteps.

Then I turned around and looked at the cave infrastructure. I'm seeing many warriors exiting through the different passages. It's one of the sights I'm witnessing for the first time.

I don't know whether everyone was safe or if there were some casualties. But I'm hoping that everyone has eliminated the foreign creatures from their sides.

"Zack Lockwood!"

The next second, someone called out my name. Hearing that I turned around and saw the person was none other than Assistant Estella.

"Senior," I uttered.

Estella saw that Zack Lockwood was fine. The next second, she raised her eyebrows in surprise. Because she found that Zack Lockwood's clothes were fine.

He hadn't suffered any scratches or anything. She wonders whether Zack Lockwood had fought against any foreign creatures at all.

"Senior," I called out to her again.

Estella recovered her thoughts.

She said, "Let's go. I'll take you towards your quarters."

Hearing that I started following her. On my way back, I came across other warriors who were going towards their quarters.

Soon, we got closer to the main campus building. It's the same building where the Teleportation platform was located.

But Senior Estella took the right side and started walking on the footpath. Seeing that, I was surprised. Because I'm seeing a few other Black Mark Warriors moving in that direction.

"Don't be surprised. It's the quarters of the newly joined members. Because there are casualties every now and then. So we have new members joining our camp whenever it's necessary," Estella revealed the truth

Hearing that my eyes flickered with understanding. I was wondering whether there would be any casualties or not.

It appears that warriors lost their lives fighting against the corrupted beasts. Then I didn't ask questions.

Soon, we came to the quarters. I saw a series of multi-storey buildings. Senior Estella brought me to the administration desk.

An old man is sitting behind the desk.

"Orion, we have a new member from the Star University campus. He recently became the Black Mark Warrior. His name is Zack Lockwood."

"Supervisor Bobby gave instructions to take special care of him," Estella said to the old man.

Hearing that old man straightened his back first. He knew it must be someone important if the Supervisor wanted him to take special care.

“Senior Estella, don’t worry. I’ll take care of the rest of the matter,” Oldman said.

On the other hand, their conversation surprised me.

The old man is much older than Senior Estella. But he is addressing her as a Senior. Then I noticed that the Old man is Black Mark Warrior.

“Zack Lockwood, someone will give you our warrior camp uniform and login ID. Then you can browse the classified information you wanted to know,” Estella said before leaving.

When she was gone from the place. I turned towards the Old man named Orion. The old man started to observe me from top to bottom.

“Your name is Zack Lockwood,” the Old man said.

Hearing that I nodded to him.

“You were wondering why I called her Senior,” Orion said with a smile.

Hearing that I was stunned. Because it was the exact doubt in my mind.

Before the young man could explain. The old man Orion said, “I used to be the Silver Mark Warrior. But during one of the battles against the foreign creatures. I suffered injuries to the foundation.”

“So my strength was dropped back to the Black Mark Rank,” he added.

A look of understanding dawned on me.

Chapter 1203: Impressing everyone!

From MC’s Perspective:

Oldman Orion's words made me realise that he was strong once upon a time.

"Let's go. I'll take you to your room," After saying that, Orion started walking towards the elevator.

Seeing that I started following him from behind. Then we both entered the lift. The old man then pressed the button for the 5th floor.

Buzz!

The lift door closed and started moving upward. When it arrived on the 5th floor. The lift door opens. The next second, the old man walks out.

Then I followed him to exit the floor. When I took a few steps forward. I looked at the left and right sides of the corridor. On each side of the corridor, there are 10 rooms.

Orion turned to the right and started walking towards the end. Seeing that I began to follow him.

As I started walking past the room, I noticed that each room was individual and spacious.

Then we came to the last room in that corridor. There is a digital lock mounted in the door. The old man entered the code to open it.

Creak!

The door opened. The old man walked inside and turned on the lights. The lights illuminated the room the next moment.

Then I walked into the room and my gaze swept across the place. The room was wide and spacious. The floors were white marble.

There is a small living area.

Old man Orion said, "The room has a living area, a huge bedroom, a bathroom, a kitchen, and a practice room. The practice room is an advanced one."

"The walls were built with special materials. You can even practice your methods and train your techniques," he added.

Hearing that, I was surprised. I had thought the room would be small, but not this spacious and wide. Then I started to go around the room.

I went to bed. Then I saw it was the king-size bed. There are huge windows on the side of the wall. After looking at the room, I checked the other rooms.

I checked the practice room. Like the old man said, the practice room was well built with special materials. Not only was the practice room spacious. It was tough as well.

Then I checked the bathroom and the kitchen before coming to meet the old man. Old man Orion is wondering about the identity of Zack Lockwood.

But he didn't ask. He has decided to check later by himself.

At this time, a staff member came to hand over the uniform, ID card and digital device. Orion took it from the staff. The staff then left the place.

When Zack Lockwood came. The old man then gave those things to him.

On the other hand, I saw the black and white uniform. It's kind of a warrior uniform for battle. I accepted it before collecting it into my storage ring.

Then my gaze fell on the ID and digital device.

"The device is already filled with your details. You can directly log in and use the services. From time to time there will be announcements from the camp administration," Orion said in a serious tone.

"If you want any help, you can contact me," he added.

Hearing that I nodded to him. Then the old man left the room. I locked the door and went to take a bath.

The bath lasted for 20 minutes before I walked out of the bath. Then I changed into comfortable clothes before going to bed to take a rest.

When I lay on the bed. A wave of tiredness washed over me. The next second, I closed my eyes and went to sleep.

...

Office:

Supervisor Bobby is speaking with Estella.

"Zack Lockwood was unharmed and not even his clothes were torn apart," Bobby commented.

"Yes, he was completely fine," Estella said.

Her expression was full of disbelief. It was totally different from before when she was with Zack Lockwood earlier.

When she was with Zack Lockwood. She didn't show any expression. But her expression was totally different now.

Even the Supervisor Bobby felt hard to believe.

He said, "It's not easy to kill foreign creatures. Though the battle was short. He must have faced 5 foreign creatures at least."

"To think he was able to kill those foreign creatures. It's not easy. Then it's clear that he has an Ancient Inheritance. Only Ancient Inheritance has this level of power."

"No wonder the Dean wanted to take care of him," Bobby said.

Estella, who was listening, was shocked in her heart. She has been staying in the camp for years. So she didn't know much about the Star University news.

"Okay, you can leave now," Bobby added.

She then nodded to the Supervisor before leaving the place.

When she was gone. Supervisor Bobby's eyes flickered. He has decided to pay close attention to Zack Lockwood.

He then began to report to Dean Jerome.

...

Star University:

Dean Jerome was in his room. He got the report from Supervisor Bobby. He began to read the report. His eyes gleamed with a twinkle.

He didn't expect Zack Lockwood to do well on his first day. He understood that it was a small battle.

But he knows even if it's a small battle. It's not easy to fight against the foreign creatures.

But he believes in Zack Lockwood. He thinks Zack Lockwood had used his ancient Inheritance power to eliminate the enemies.

He thinks it will be a matter of time before the whole campus learns about Zack Lockwood. So he doesn't have any plans to recall him.

He wanted Zack Lockwood to experience more battles. He had sent Zack Lockwood to that camp for this specific reason.

Once Zack Lockwood got more experience. He would then send him to the top 10 camps to participate in more dangerous battles.

Only warriors with Ancient Inheritance can turn the tide in their favour. Then, he collected his thoughts.

For a second, he thought about informing Faction Leader Clifford. Then he shakes his head. He doesn't want anyone to know about Camp 424 here.

Only he can communicate with them. The faction leaders and main elders don't have access to the camps.

Chapter 1204: Started practicing!

Star University:

The following day:

The Thunderflame Faction is experiencing a strange calmness. The atmosphere was not as active as before. The members knew that Zack Lockwood had gone on the mission.

It was spread all over the internet. So the mysteries of the blue force power were unsolved. Even the Faction leaders and the main elders of existing factions were clueless about it.

In the main hall, the Faction Leader Clifford and other main elders are present right now. They were discussing the important matters related to the faction.

Yet they had to discuss a particular topic. It's about Zack Lockwood.

Austin said, "Faction Leader, did Dean say anything to you?"

Old man Clifford shakes his head by replying, "No!"

"If he had wanted he would have told me. Since he didn't say anything, which means he didn't intend to," he added.

Austin sighed inwardly. He knows no one can contact the camp. Only the Dean has the authority to know what's going on inside each camp.

Main Elder Ann was worried as well. But she knows that Dean would pay close attention to those with Ancient Inheritance.

They are assets for any organisation.

Old man Clifford saw through everyone's reaction.

He said, "Don't worry about that kid. The dean will take care of him. We have to worry about other things."

Hearing that others nodded their heads. Then they continued their discussion on other topics.

....

Bloodline Faction (Human) :

Faction Leader Francesca Ball is thinking about Zack Lockwood as well. Zack Lockwood was to be exposed. But the Dean had sent him on the mission right after the duel.

She thinks the Dean made the right move. Because everyone started suspecting something fishy about the bright blue force power.

Even her friend Bethany, the leader of the Bloodline Faction (Monster), suspected that it could be a water element. But she soon felt her judgment might be wrong. Because she doesn't have evidence.

Francesca thinks that among the faction leaders, the faction leader of the Dew Water Faction must be more curious. But she saw no actions from the Dew Water Faction. They were being silent.

She thinks something must have happened that she is not aware of.

...

Dew Water Faction:

The Faction Leader, Monica, is getting constant calls from the Elemental Faction Leaders. They all want to have a direct meeting with her.

Monica knows the purpose of their meeting. She doesn't want to discuss Zack Lockwood's bright blue force. The Dean had given her a warning. She can't do anything about it.

More importantly, Zack Lockwood doesn't want to leave the Thunderflame Faction. So she can't recruit Zack Lockwood into the Dew Water Faction.

...

Dark Variant Faction:

Faction Leader Vince noticed the absence of Zack Lockwood. Unlike others, he is not going to rest on this matter. He still remembers the humiliation inflicted by Dean Jerome.

Because of Dean Jerome's power and authority. It's impossible to have rebellious thoughts. Especially when he is inside Star University.

But it doesn't mean that he can't create problems in other ways. Since Zack Lockwood sent for the mission. He thinks it's likely to be one of the camps.

Otherwise, if Zack Lockwood were sent to complete the mission in their territory, he would know. So there was only one safe and suitable location, which was the camps.

But the problem was that he didn't know which camp it was. So he is going to find a few trusted Black Mark Warriors and ask them to find the whereabouts of Zack Lockwood.

Once Zack Lockwood's location was found. Then he would start creating trouble for Zack Lockwood.

...

Dark Shadow University:

The Dark Shadow University is one of the Universities. It's also sending its warriors to the camps to fight against the foreign creatures.

At the same time, they were also keeping watch on the other forces' strengths and weaknesses. In particular, they are monitoring how many Black Mark Warriors have Ancient Inheritances.

The nearest to their Dark Shadow University was the Star University. So the name list of the Star University's Black Mark Warriors with Ancient Inheritance is important to them.

A Black Mark Warrior with Ancient Inheritance can become the future Dean of the respective forces. If they get any chance, they would nip them in the bud.

...

From MC's Perspective:

Camp 424,

I woke up early in the morning. Upon realising that it was the camp, my eyes flickered with an understanding.

After getting out of bed, I started doing the morning routine. It didn't take long for me to complete the morning routine.

Then I entered the new practice room. After entering, I turned on the switch. The next second, a pure dense world energy starts pouring into the room.

I sat on the platform. Then I closed my eyes and started running the Lightning method first. The rune in my mind began to flicker.

The next second, I started to feel the purple force around me. The purple force is stronger than the purple energy.

It slowly started to enter my body. Then I started to circulate the purple force in my body. The purple force coursing through my according to the specific routes.

I'm feeling the power of the purple lightning energy. After circulation, the purple force enters the dantian and settles down in the middle of it.

Seeing that I continued to repeat the process.

As time passed, more and more purple force gathered inside the dantian. When enough purple force was gathered. Then I switched to the practice.

I started practising the blood element method. The next second, the blood rune in my mind flickered. The blood force started coming towards my body.

Slowly, the blood force entered my body. I started to guide the blood force. It started to course through my body.

After becoming the Black Mark Warrior, the process remained the same. It's just that the energy has become stronger. The blood force is stronger than the blood energy.

As it appears above the bloodstream, the mysterious white energy began to convert the blood force to the white force. The converted white force began to enter the bones.

It's started to strengthen the bones all over my body.

Chapter 1205: Senior Thomas!

From MC's Perspective:

Camp 424,

Time passed,

After practising the blood element method, I switched to the healing method. Then I spent one hour practising it. Then I turned towards the Ancient Inheritance Methods.

Starting from the shock force integration method. After gathering enough golden and silver force in the dantian. I switched the sealing force method.

Then I practised it until there was enough sealing golden force in the dantian. Finally, it was the bloodline method.

I began to visualise the water drop. It didn't take long for me to gather bright blue water force inside the dantian as well.

Time passed,

When I finished practising with the method. The time was already past noon. I had practised 6 methods to strengthen myself. If others knew about it, they would be shocked to the core.

I pushed down these thoughts before getting up. Then I exited the practice room and went to take a bath. Then I spent 20 minutes there before coming out.

Then I changed to the Camp 424 uniform and badge. I have decided to go around and explore the camp. But before that, I'm going to use the device to learn basic information.

I took the digital device given by the camp and began to access it. All the necessary information was loaded, there is no need for digging.

I sat on the sofa and began to read it.

Meanwhile,

The name of Zack Lockwood appears on the warriors' list. There are 200 Black Mark Warriors in Camp 424. He is the 200th warrior.

These warriors were all seniors from Star University. They are waiting for the breakthrough. Once they become Silver Mark Warriors, they will be shifted to a different camp.

Right now, they are discussing that a new member has joined them. But they don't know about the person. Because the warrior is not a senior warrior.

They were quite shocked to know that a new recently become Black Mark Warrior has joined them. Communication with the outside was not allowed.

So they didn't know about Zack Lockwood.

About 10 minutes later,

I exited the room and swept my gaze across the place. The corridor looked empty. He then went to the front desk.

Upon arriving there, he saw other Black Mark Warriors. Most of them are middle-aged people. Very few were old people.

But he hadn't seen one of a similar age. When he was observing others, some people were looking at him as well.

Suddenly, one of them started walking up to me. He appears to be middle-aged with a well-built physique. His skin tone is tan. His height is over 6ft.

He was dressed in a black and white uniform.

"You are Zack Lockwood right?"

"When did you break through?"

He asked the back-to-back questions.

Hearing that I was stunned. I didn't expect someone to recognise me.

"Yes, I'm Zack Lockwood. Senior, how did you know?" I asked him.

"Ha...Ha...Ha..., good," He said with a laugh.

"Finally, someone from the Thunderflame Faction has entered this camp," He added further.

Hearing that my eyes flickered with an understanding.

"I'm Thomas," The middle-aged man said.

"I'm a member of the Thunderflame Faction and the warrior of the Black Flame Palace," Thomas added.

Hearing that I heaved a sigh of relief. I didn't expect to see the seniors here.

"It's nice to meet you, Senior," I said.

"It's good to see you here. I had thought it would take at least 2 years for Breakthrough. But you break through soon," Thomas said with a smile.

"Let's go, I'll take you around the camp." After saying that, he started walking.

"Okay," I replied.

Then I started following him from behind.

This was seen by the other warriors as well. They have realised that the new warrior was from the Thunderflame Faction.

The rivalry between the Thunderflame Faction and the Dark Variant Faction was not restricted to the Star University. It was happening at the camps as well.

Some of the warriors from different factions. Seeing that Thomas and the newcomer are going to take a look around the camp.

They have decided to tell the Dark Variant Faction people.

Meanwhile,

After leaving the camp, Thomas started wandering around the place. Starting from the various camps.

Thomas thought of something important.

He said, "Zack Lockwood, I wanted to tell you something important."

"The faction fights are common here. So be aware of the Dark Variant Faction and Elemental Faction Warriors," He added.

Hearing that I was stunned. I didn't expect that Faction fights are happening here as well. My expression turned serious.

Thomas turned around and saw the expression on Zack Lockwood's face. Seeing that Zack Lockwood was taking it seriously.

He nodded his head.

"It's right. Don't trust anyone. Especially during the battles. If you are assigned to any team, be aware of other warriors. You have to protect yourself."

"Many of our faction warriors die each year in this camp. Most of them are natural. But few lost their lives because of others," Thomas said in a cold tone.

I'm carefully listening to his words. I had thought I could get experience here. But I didn't expect I would have to be wary of the hidden arrows as well.

"Do they cause trouble in the camp?" I asked him.

Thomas shakes his head and says, "They don't dare to do it openly here in the camp. Only the battle cave passages are a suitable place for them."

"So, before getting enough information, don't accept any team battle request," He added.

"I will be careful," I replied.

Then we started walking past other quarters where I saw the female warriors. There are strong female warriors present here as well.

Thomas looked at them before saying, "Be aware of the female warriors as well. Don't get close to them before learning about their situation."

"Most of them have partners in the same camp. If you wrongly communicated with someone, then you must wait for their partners to attack you."

"Don't think everyone from the Thunderflame Faction will support you," Thomas added.

"I know," I replied.

Chapter 1206: Bullying plan?

From MC's Perspective:

The senior continued to take me around the camp 424. He told me what to do and what not to do.

While going around the place.

A realisation dawned on me that this whole camp, 424, is in the middle of huge forests.

“Senior, what’s with the forests surrounding the camp?” I asked the senior.

Thomas’ eyes flickered with fear.

“The surrounding forests are forbidden to enter. Could you not go near them? There are traps laid out in that place. If you go there, you could trigger them,” Thomas said in a serious tone.

Hearing that I was stunned. I didn’t expect there were dangers outside Camp 424.

A few minutes later,

He guided me back to the quarters. Then I thanked him before going towards my room.

After entering the room, I locked the door. Then I went to bed to lie down. Today’s tour was good. The senior shared his experience with me.

More importantly, he shared the ongoing situations inside the camp. So that I can save myself.

I didn’t know when the mission would end. But I think it’s necessary to know the inside information about this place to survive here.

During the conversation with the Senior, he understood that not many warriors know about me. Some of them are staying in camp for years.

Because everyone would get double the resources compared to staying in the University and doing missions there.

...

Outside:

The Dark Variant Faction Warriors were able to learn about the newcomer. They were surprised that someone from the Thunderflame Faction had joined this camp.

Because many warriors from the Thunderflame Faction had died in this camp. Some lost their lives during the battle against the foreign creatures. While others do some others because of them.

They won't leave any chances to weaken the Thunderflame Faction. They think that they have got the opportunity right now.

They have decided and asked the weakest warriors in their faction who wanted to prove themselves to go and trouble Zack Lockwood.

It didn't take long for a group of people to go towards Zack Lockwood's quarter.

Their arrival attracted attention. When the warriors of the other faction saw them. They understood that they were going to cause some problems.

The group started going towards Zack Lockwood's room. They got this information easily from someone. Other warriors were watching them from behind.

Not everyone is supportive of the Dark Variant Faction and the Elemental Faction. A few of them had decided to inform the Thunderflame Faction.

Some had seen the newcomer with a warrior named Thomas. So they informed him.

Meanwhile,

The group of warriors stood in front of Zack Lockwood's room and started knocking on the door.

Inside the room, I was lying on the bed. I'm half asleep.

Suddenly, the door knocking sound disturbed my sleep. Hearing that, I opened my eyes and got out of bed. Who is knocking on the door?

I walked up to the door and opened it.

Creak!

The next second, I saw a group of warriors standing in front of my room.

"Who are you guys?" I asked.

Hearing that Elemental Warriors were taken aback. They had thought the newcomer would be scared. Instead, he is speaking with confidence.

"Don't you know?"

"How to talk to you seriously?" One of the middle-aged men asked.

I raised my eyebrows. I smelled some trouble. Senior Thomas had warned me already. So I quickly calmed down my heart and looked at them.

"If you need something, you can tell me," I said to them.

The Elemental Warriors looked at each other's faces. They have come here to trouble this kid. Instead, the kid doesn't care at all.

"You come with us," One of them said.

“You haven’t met your seniors yet,” The buzz-cut middle-aged man said.

“Yes, come with us. We will show you around the place. You will meet with other seniors as well,” a middle-aged man said.

On the other hand, I don’t know whether to laugh or cry. These guys think I’m easy to fool. I shook my head and said, “Senior, I’ll do it some other time. I’m taking a rest right now. ”

After saying that, I’m about to close the door. But one of them stepped forward to block the door.

Meanwhile,

This scene is being watched by other faction warriors and warriors from the adjacent rooms.

“You have no other choice. You are coming with us,” The buzz-cut middle-aged man said.

My heart turned cold. These people are pissing me off. They are just Black Mark Warriors.

The buzz-cut man was about to step forward.

At this time, someone made an entry.

“What are you guys doing?” A female voice was heard all of a sudden.

Hearing that the Elemental Warriors were taken aback. A hint of anger flashed in the eyes of the buzz-cut man. When they turned around and saw who was shouting at them.

They were petrified on the spot. Because the person who had come here was none other than Assistant Supervisor Estella.

Estella walks up towards them.

“You guys have started bullying. Do you think we will turn a blind eye to everything you do?” Estella said in a threatening tone.

Hearing that, the Elemental Warriors, the six of them, were in shock. They didn’t know why the Assistant Supervisor was here. What more? They can’t refute her words.

It’s because of the lack of evidence that the Supervisor and she hadn’t taken any action against her.

If they insist on causing trouble for Zack Lockwood, they might be punished for sure.

“Let’s go,” the buzz-cut man said.

Hearing that the other members agreed. Then they left the place.

Estella glared at them until they left the corridor. She then turned towards Zack Lockwood and said, “Are you alright?”

“I’m fine. A senior had already warned me about this. So I was prepared,” I replied to her.

“No wonder, you seemed alright. Without evidence, we can’t punish warriors.”

“If they tried to do something, try to collect evidence. Then they will face serious consequences,” Estella said in a calm tone.

“Sounds good,” I uttered.

Chapter 1207: Part 1: Time for revenge

From MC’s Perspective:

Estella left the place after advising. So do others. I waited until everyone left before going inside the room. I locked the door and went to lie down in bed.

But the anger in my heart has not calmed down. These people won't know until I start beating them down. I'm just not sure about the attitude of the Supervisor and the Assistant Supervisor.

As far as I know, the Dean has asked them to care for me. But it doesn't mean that I can break the rules. I think it's better to wait a few more days to assess the situation.

Then I'll take care of them.

Meanwhile,

The Elemental Factions' Warriors return to their quarters. But their expressions were not good-looking. They were disappointed. They failed to teach a lesson to a newcomer.

Not only did they fail. They lost face in front of other warriors. It's all because of Assistant Estella. But they can't do anything to Assistant Estella.

She is a Silver Mark Warrior. She holds a position next to the Supervisor of Camp 424. She has more say than other Silver Mark Warriors.

Even if they go and seek help from their faction seniors who were Silver Mark Warriors. Their seniors won't be able to help them.

"Let's wait for the right time. We will be able to teach the newcomer an unforgettable lesson," One of the Black Mark Warriors said.

Hearing that others agreed. They thought that a battle situation would be the right situation to do something.

...

Midnight:

Buzz!

The alarm sounds again. The whole warrior quarters jolted awake. It's not any other alarm. But the alarm of foreign creatures' attacks on their camp 424.

Swoosh!

In the blink of an eye, the black mark warriors left their room in a hurry and went towards the cave structure. A swarm of warriors can be seen going towards the place.

They are ready to fight against the foreign creatures.

Meanwhile,

Inside the room, I woke up and put on the uniform before getting out. I left the quarters and started darting out towards the cave structure.

On the way, I saw a swarm of warriors going in that direction. I had thought there would be a period of peace. But not even a day has passed, and there is another attack.

Soon, I reached the cave structure. Everyone is going inside and finding their position. Seeing that I followed them to enter the cave structure.

Inside, I picked one of the passage routes and started going inside. It didn't take long for me to encounter the foreign creature. The same weird foreign creature with six legs.

Boom!

I shot out a purple lightning bolt at the foreign creature. The six-legged foreign creature was caught off guard and struck by the purple lightning bolt.

Weird cry!

The next second, it made a weird cry. The targeted spot was torn apart by the lightning force.

Seeing that I continued to attack the foreign creature with a few more lightning bolts. The foreign creature was unable to retreat or move forward.

The lightning bolts shredded its body into pieces.

Seeing that I didn't let down my guard but I became vigilant. Because that weird cry was not a cry but rather an attack. My mind was strong to begin with.

If it were others they would be disturbed for a few seconds. It was enough for the foreign creatures to launch a counterattack.

At this point, I can say that I'm invisible against the same warriors and creatures who have similar strength.

Just as I was waiting, I heard a sound of footsteps coming from behind.

"He must be here!"

"Someone saw that kid entering this passage route."

"He should not leave alive."

"The camp 424 is run by us."

I was a bit confused about the sound. Then I overheard the conversation. My heart stirred. It was the same group who came to trouble me earlier.

I didn't expect them to follow me here. Certainly, they are here for me. Now, I have to deal with them as well.

A few seconds later,

I saw three middle-aged men appear in the passage. They are Black Mark Warriors from the Blazing Fire Faction. My eyes gleamed with a twinkle.

The three middle-aged men saw Zack Lockwood as well.

"Ha...Ha...Ha ..," one of them let out a joyful laughter.

"I have told you. Someone saw him entering this package. Now that kid got nowhere to go," He then said with a smile.

The other 2 middle-aged men were smiling as well.

"Let's kill him first and get the credit. Then our Blazing Fire Faction will get a face," A tan-skinned middle-aged man said.

The third one had a lean physique in comparison to those two.

On the other hand, I looked at the passage to see whether any foreign creature is coming. Then I activated the perception ability. Now, even if something sneakily approaches behind. I would know.

"What are you looking at kid?"

"It's you bad for appearing in this camp."

"It's not a campus where your Thunderflame Faction enjoys privileges. The Elemental Faction makes the rules here."

Three of them started speaking. They never took this new kid seriously. They had years of experience fighting against the foreign creatures. So they were not afraid of the young Black Mark Warrior.

"Lightning Phantom Technique"

I used the movement technique to bolt out towards them. The purple lightning arcs are being released from the feet. The lightning power helps me move fast at breakneck speed.

Swoosh!

In a flash, I appeared before them. The three middle-aged men were dumbfounded. They were taking it as a chill. But they never expected to face an attack from the young man.

At the same time, I covered my fist with blood force energy. Then I struck the chest of the middle-aged man in the middle.

Pfff!

The punch broke his chest bones and caused his chest to cave in. The middle-aged man spits out blood in disbelief.

How strong the Physique of the Black Mark Warrior was. It was crushed in one punch.

Chapter 1208: Part 2: Time for revenge

From MC's Perspective:

Cave structure:

I covered my fist with purple lightning force and struck the body of the middle-aged man once again.

Boom!

This time, his heart was crushed into pieces, and he died on the spot.

The other two middle-aged men felt something was wrong and wanted to retreat. But I leapt forward and punched at them.

Pfff!

The punch struck the back of the second person. He fell to the ground. His back was punctured by the purple lightning force.

The third person was scared sh!t. He had thought that the newcomer was easy to deal with. But they were totally wrong.

"Lightning Finger Technique"

Boom!

I shot the purple beam from my forefinger. The powerful purple lightning force cuts through the air before striking the third person.

Boom!

An explosion occurs. He was blasted away from the spot. Then I appeared in front of the second person. The middle-aged man was taking his last breath.

I killed him before going to the third person. The finger attack left him with a serious injury. The middle-aged man was scared sh!t.

He had a look of pleading in his eyes. He is regretting deeply. But it was too late.

I struck his heart. Which was immediately crushed. The middle-aged man dies unwillingly. Then I dragged three of their bodies into the passage.

The foreign creature is yet to appear. After putting them inside, I started to wait for the foreign creatures to appear.

Weird cry!

Hearing that weird cry, I understood that a foreign creature was coming. Then I saw something which left me speechless.

Something taller is standing at the end of the passage. Its legs are taller than the passage height.

It brings back memories of the trial and the battle zone.

At that time, I encountered a similar beast in the open vast land. Now, I'm facing a similar beast again. I don't know what's going on with her.

The foreign creature with long legs. It suddenly crouches down to enter the passage.

On the other hand, I felt goosebumps all over my body. The foreign creature's weird head sight is causing my stomach to churn.

But I knew the foreign creature might have the ability. So I decided to use the lightning finger technique. But this time I'm going to add the shock force.

Tap!

When the weird foreign creature with a small head and a long body started crawling into the passage.

I felt a sense of crisis. I knew if I didn't attack right now. It could cause a lot of problems.

"Lightning Finger Technique."

I released multiple lightning force beams at the foreign creature. But this time the attack contains shock force energy.

The combined force of the two can cause a lot of destruction.

Boom!

One after another the purple beam force struck the body of the foreign creature.

Boom!

One after another, loud booming sounds appear.

Weird Cry!

The foreign creature made a weird sound. The lightning and shock force rampaged through its body. The power starts to tear it apart.

On the other hand, I didn't stop. I continued to attack the foreign creature with finger technique.

Boom!

One after another the lightning power blasted away the foreign creature. Its body is crumbling down right before his eyes.

Finally, the blood and organ mixed liquid splattered on the ground. The foreign creature's upper body was gone. Only the long legs remained on the ground.

Seeing that gives me a creepy feeling. Fortunately, the foreign creature was dead. Then I calmed my heart and began to wait for the next foreign creature to appear.

Time passed,

Morning comes. The alarm sounds again. This time it's sound for retreat. Hearing that, I sighed inwardly.

Then I rushed out of the cave. When I appeared outside the cave structure. I saw others coming out as well.

I started going towards my quarters.

Meanwhile,

The Elemental Faction Warriors came out as well. Some of them saw Zack Lockwood. They widened their eyes in disbelief.

The team was split earlier to find out about this newcomer. Instead, they never saw him inside. They thought the other group would find and kill him.

But here they saw him going to his quarters.

Swoosh!

Then they decided to go back to their place and discuss.

About a few minutes later,

I returned to my room. Then I sat on the sofa and leaned back comfortably. Compared to before, I'm feeling good right now.

I dealt with three Black Mark Warriors among their group. I'm sure they will find out about their disappearance soon.

Then I believe the confrontation between us is going to be serious. After clearing my thoughts, I entered the bathroom to take a shower.

Then I spent 20 minutes in the bath. After that, I stepped out and changed into fresh comfort clothes.

I sat on the sofa and took it out of the digital device.

Then I began to browse the news. The warriors started to post about today's battle. He then began to read a few posts.

Among the posts, I saw some of them mentioned a foreign creature with long legs.

Seeing that, I felt I was not the only one who had faced the foreign creature. Others had fought against the foreign creature as well.

Then I began to read other posts. From their posts, he found out something new. Others had fought against the foreign creature with great difficulty.

But I had it easy. But no other warriors. But I saw there were no reports of the casualties. I think it would take time for the elders to confirm it.

While I was browsing, I heard the knock on the door. Hearing that, I got out of bed and went to open the door.

Creak!

Then I saw Senior Thomas in front of me. I was surprised.

I asked, "Senior, what are you doing here?"

"I heard you are having trouble from Elemental Faction Warriors," He replied.

"Yes, but don't worry. Assistant Estella had warned them. They won't target me openly here," I said to him.

Chapter 1209: Casualties' report!

From MC's Perspective:

I looked at Senior Thomas, whose expression eased greatly after hearing from me. Thomas sighed inwardly. He had thought they were going to lose one more member.

"Good," Thomas said.

"If you face similar danger in future, don't forget to inform me," After saying that Thomas turned around and left.

I saw his disappearing back. I heaved a sigh of relief. I can understand the worries of seniors, but I'm not agreeing with the Elemental warriors.

Then I entered the room and went to bed to lie in it.

...

Meanwhile,

The Elemental warriors were discussing the disappearance of the members.

"What happened?"

"Were they killed by the foreign creatures?" One of the Warriors asked.

A middle-aged man said, "The foreign creature can't kill them. We had faced this tall type of foreign creature before."

"Could it be the work of Zack Lockwood?" A warrior asked.

"Quiet!"

Hearing that everyone had become quiet.

"How could it be possible?"

"He is just a recent breakthrough. How can we fight against the experienced warriors? That, too, one versus three," Another Elemental warrior said.

"I guess they were likely killed at the hands of the foreign creatures," He added.

The other Elemental warriors agreed to that. Only foreign creatures could kill three of them. They thought that the three of them must have faced many foreign creatures. So they can't escape.

"So, what do we do with the newcomer?"

"Should we let him go?" A middle-aged man from the Blazing Fire Faction asked.

Hearing that others shifted back to the main topic.

"We will set a trap. Let's see if he steps on it or not," A long-nosed warrior said.

Then everyone agreed. Because if they do any direct confrontation, Assistant Estella would come to help him. They had already seen that.

So they are going to act indirectly.

...

Office:

The Supervisor Bobby is going through the reports. He wanted to confirm the number of casualties. Only then can he ask Dean Jerome to send the replacement.

As he was going through, he found out that three warriors from the Elemental Faction had died as well.

A hint of surprise flashes in his eyes. Because he knows those three. They were members of the elemental faction and belonged to a group where they bullied others.

He also knew the warriors were targeting Zack Lockwood. He had been paying attention to Zack Lockwood because of Dean Jerome.

Then he began to read how they had died. He caught something interesting. It was mentioned that Zack Lockwood had entered the cave structure.

Then these three have entered the place as well.

"Did they do something?" Bobby asked himself.

His expression becomes serious all of a sudden. He knows the actions of the elemental warriors. He knew they had met with Zack Lockwood.

But he had thought they wouldn't cross the line. But upon learning of the death of the three members he feels something fishy.

He then immediately summoned his Assistant Estella.

It didn't take long for Estella to appear. When she comes to the office. She saw the supervisor sitting behind the desk.

Bobby saw her. She asked, "Do you know what's going on?"

"Those three warriors from the Elemental Faction have died," he added.

"It appears that they have gone after Zack Lockwood. It's good that nothing happened to Zack Lockwood. Otherwise, the Dean would have taken his anger out on us," Bobby said.

Hearing that Estella's eyes flickered with understanding. She understood that Elemental Warriors might have tried to kill Zack Lockwood.

But somehow those three died in the end.

"I'll keep close watch on them," Estella replied.

"Okay, you can go now," Bobby said. He just called her to remind her.

Estella then left the room. Bobby then sent the list to Dean Jerome. Only he was able to relax.

...

Blazing Fire Faction:

A few hours later,

The faction leader, Elmer Maddox, received the names of casualties from Dean Jerome. The list of casualties from the various camps which were attacked by the foreign creatures not long ago.

Among them, the Camp 424 list was present as well.

He knows the situations in some of these camps are totally different from Star University. The Elemental Factions Warriors were dominant.

So much so their influence is stronger than the Thunderflame Faction and the Dark Variant Faction. Because the number of Elemental Warriors is large in numbers compared to those two factions.

Here, they have a Faction Leader and the Main elders to support them. But in the camps the scenario is different.

There is no support for the Thunderflame and the Dark Variant Faction's warriors. Suddenly, Elmer couldn't help but think about Zack Lockwood.

When Zack Lockwood was here. He was supported by everyone from the Thunderflame Faction. Even more, Dean Jerome himself had supported this kid. But he didn't know what was going on at the camp.

At this point, all the faction leaders came to the conclusion that Dean Jerome had sent the kid to the camp. It's just they weren't allowed to know which camp it was.

At the same time, communication was restricted. They can't speak to their own faction warriors.

Only from time to time would they get this casualty. They need to send a replacement for that.

Only if the warriors were discharged from the camp would they know what had happened.

After pushing down the thoughts, he goes through the casualties list. Some of the names shocked him.

Because their family background was strong. Yet the background can't save warriors' lives from an outside threat.

What more? It was mentioned that a tall foreign creature had attacked some camp this time. He knows there are types of foreign creatures with weird abilities.

If the warriors weren't careful, they might lose their lives. He knows that the tall foreign creature was one of those types as well.

30 minutes later,

He convened a main elders meeting to discuss this report. Because the casualties were higher than the last time. They need to send their replacement back quickly.

Chapter 1210: Leah Downing is back!

Blazing Fire Faction:

The Faction Leader, Elmer Maddox, has called for the meeting. It didn't take long for the main elders to arrive at the meeting hall.

When everyone has arrived. Elmer started the meeting by talking about the casualties report. The main elders were taken aback.

Not every day can you attend the meeting for the casualties report. They started to think it was one of the worst days in the camp.

The main elders started going through the reports. Their expression filled with shock and disbelief. This time, a large number of their warriors have died.

Usually, the casualty rate was one to two warriors. But this time they got a double-digit in the casualty report.

The faces of the main elders turned serious. It could be their disciples and members.

A few minutes later,

The faces of the main elders turned worse. Because they recognised the warriors who lost their lives.

"It's bad, the warriors who lost their lives were strong. Especially the three warriors from Camp 424, they were veterans."

"How could they lose their lives to this foreign creature?" One of the main elders said.

He is a middle-aged man with a sharp tone. The three warriors who lost their lives were members of his palace.

The other main elders felt something fishy after seeing his outburst.

"This foreign creature is strong. It does have the ability to kill the veterans. But they are not that much of a threat to the three warriors," The middle-aged man said.

Hearing that the main elders turned towards the Faction Leader.

Elmer saw through their reactions. He decided to convince them.

“Apart from the foreign creatures, who can kill them. They must have been swarmed by more than one foreign creature,” Faction Leader Elmer said in a serious tone.

Hearing that others felt the Faction Leader’s words were right as well. But the middle-aged man still refuses to believe that those three lost their lives just like that.

He decided to investigate when the next batch of warriors would be discharged.

Meanwhile,

The discussion around Zack Lockwood was starting to disappear on campus as well. Everyone forgot about the bright blue force used by Zack Lockwood in the last duel.

Only those who knew Zack Lockwood and were concerned with Thunderflame Faction were paying attention to any updates.

They, too, knew that it would take time for Zack Lockwood to get discharged. They can only wait until he comes back.

...

Thunderflame Faction:

Meanwhile, inside the Thunderflame Faction, the situation was normal. The Faction Leader, Clifford, and the main elders were able to solve the massive problem.

Earlier, they were worried that Zack Lockwood might enter the Dew Water Faction. But Dean Jerome had helped them and sent Zack Lockwood to the warrior camp.

So they were relaxed right now. But still, they were wary of the other factions. Especially the Elemental Factions, they knew that the situation inside the camps was different from the University.

They were not worried about Zack Lockwood. But they were worried about other members. Some of them died unjustly. It's one of the reasons why the infighting was not ending.

Those who couldn't target the Thunderflame Faction here would do something at the warrior camps. Unfortunately, no one can intervene. It depends on the Supervisor and the Assistant Supervisor to watch over the situation.

...

Golden Lightning Palace:

At this time, the second disciple of Main Elder Austin. Leah Downing returns to the University. All other disciples of Austin had gone on the mission. Including Zack Lockwood as well.

Upon returning, she met with Master Austin.

Austin said, "It's good that you have returned. The Golden Lightning Palace needs Senior brothers and sisters to guide other members."

"There is no one here," he added.

Hearing that Leah was surprised. She immediately thought of Zack Lockwood.

She asked, "Master, what happened to Zack Lockwood?"

Austin nodded to her. He then began to tell her about Zack Lockwood.

Leah's face starts changing into surprise and shock. Especially when she hears about Ancient Inheritance. She didn't expect Zack Lockwood's career to have such a twist.

Then Austin told her about the duel. The Inner Hall Warrior challenged Zack Lockwood to a fight. Zack Lockwood then defeated the opponent using a bright blue force.

He then told about the Dew Water Faction's reaction.

Leah is listening with interest. She never expected such things to happen during her absence here.

Finally, he told her that Dean Jerome had solved the problem.

"Phew!"

Leah heaved a sigh of relief.

"It's a lot of things that happen in a short period. I wish I were here to support junior brother Zack," Leah said with a helpless smile.

"Don't worry about it. He is doing fine right now. Dean Jerome must have sent him to one of the safe camps," Austin gave her assurance.

Hearing that, Leah's eyes flash with a glint. Because she knows that the warrior camp is different from the University campus.

No one can protect Zack Lockwood there.

Austin saw through her thoughts.

He asked, "What are you thinking about?"

"The camps are not safe for Zack Lockwood. Unless he dominates others like he did here," Leah said to him.

Austin's expression turned serious.

"The rules of the warrior camps are different. Infighting is forbidden. The enemy is the foreign creatures. The Supervisor and Assistant Supervisor are there to watch over them."

"They won't allow any infighting. If someone deliberately causes trouble then he must be angering Dean Jerome. Because he has expressed his willingness to protect Zack Lockwood," Austin said.

Hearing that Leah was surprised for this time. If Zack had accepted the Lightning-type Ancient Inheritance, then she could guess why.

But Zack Lockwood has a different Inheritance right now. He has awakened a variant water element.

She asked, "Is Zack Lockwood's Ancient Inheritance any different?"

Hearing that Austin was stunned. Because he recalled Zack Lockwood trying out his ability right before his eyes that day.

A single variant water drop had blasted away the puppet. The scene was clear in his mind.

He said, "Zack Lockwood's Ancient Inheritance is powerful. You should watch the duel footage."
