Chapter 121 - Peak Level (Trainee Apprentice)

"You are aware of the Hansen Training Centre's guidelines. Mr. Arthur Emerson stated solemnly, "Killing is not permitted." "Zack, I told you to make them fearful." However, this does not imply a life-or-death struggle. "It's too much," Ms. Adeline expressed her concern.

'Ms. Key, I didn't make my decision based on your advice,' I said after a little pause. Mr. Arthur might have known about my Uncle. That is why I must train for the academy admission exam. I'm not interested in wasting my time with these people. They'll put a halt to my training." I responded with a solemn tone.

"Only by having a life-and-death duel," I continued. We've dealt with people like this before. They won't bother me then."

Having heard my explanation. Ms. Adeline Key and Mr. Arthur Emerson exchanged a glance.

"However, for the entrance exam. There are still two years remaining." Ms. Adeline Key was perplexed. Mr. Arthur Emerson sighed. "Yes, Ms. Key, he is correct. According to what I've heard, the Entrance Exam may take place sooner this time." She responds with a nod.

"It's not up to me to make the final decision," Mr. Arthur Emerson remarked, looking at me. I'll inform you tomorrow. You are free to practice." When I heard it, I nodded to both of them and left the room. I don't have a choice in the matter.

Only a life-or-death fight could provide me with peace of mind. In light of my strength. The duel will be quite simple to win. Because all of the contestants will have lower strength.

After Zack had left Mr. Arthur's Cabin.

Ms. Adeline Key sighed deeply. "I never considered it." He is really courageous." "What do you think of his strength?" Mr. Arthur asked, with a little smile on his lips. Hearing that, she paused for a moment before responding, "After witnessing today's match." He had a breakthrough, I suppose."

Mr. Arthur Emerson said, "He must be at Midlevel, Otherwise, He wouldn't have suggested a life and death duel." "What are you going to do about this?" Ms. Adeline inquired. "I'm going to ask higher-ups," Mr. Arthur said.

His position has made some individuals envious. In addition to the resources we lavish on him" In his mind's eye, the image of the silver case appeared. He thought to himself, "It'll empower him even more." They didn't go any further with this subject. They discussed other serious issues.

Meanwhile, Zack walked into the Gravity chamber. He had booked a whole room for himself.

I walked into the simple room. I'm going to put this wealth to good use. I didn't even bother to ask him. During our talk, we discovered what kind of treasure it is. As soon as I walked into the room. The door closes on its own. The meditation mat was placed on the ground. I didn't activate gravity. This room will be used to consume the treasure.

I sat on the mat after that. I took the small silver case from the ring of storage. As I slid the case open. I came across a small blood pill. A name is also inscribed on a small piece of paper.

When I saw that, I gasped. As I already stated, I require a blood pill from the available resources. However, I failed to mention the name of the Monster. It is up to the training centre to make the decision. And they gave me a rare monster's blood pill now.

It's a Mount Snow Ape blood pill. It belongs to the Class Monsters category. Blood Pill is a supplement that helps with physical strength. Those who have elemental abilities don't give importance to physical strength. Apart from The exception of, Bloodline warriors.

Physically, elemental warriors are vulnerable. As a result, people frequently take a blood supplement. To increase their physical strength. Nonetheless, the blood pill is divided into several categories.

Based on the type of monster, the pill's grade, and the amount of blood essence in the pill. The Blood Pill in my hand is from the Monster class, which is a rare level class. That's why I'm taken aback when I read that name. I'm getting a whiff of its medicinal odor.

It appears to be a level 1 Peak level Pill. I took this blood pill after confirming it. I was able to swallow the pill once it had entered my body. I felt a warm current rush through my body.

It's the first time I've used Blood Pill. The Ape Monsters are feared for their ferocious strength. I recite the Blood cultivation chant without further ado. As a result, The Blood Ring Rune began to shine in my consciousness.

The hazy red light begins to work its magic. The blood essence was engulfed by a red light. The white energies from the blood essence were drawn to it. Then, one by one, the white energies pierced into my bones.

"Aaargh... Aaargh..." I screamed at the top of my lungs.

Due to the agony, I became dizzy. The agony is unbearable. This blood essence is more potent than other monsters of the same rank. To keep awake, I bit my lips. Sweat is dripping down my back. The agony continues. The procedure is in progress.

With my perception, I detected something. There's still a little bit of blood essence left. Tears fall from my eyes unintentionally. It felt like an eternity. Right now, I'm concentrating on staying awake.

After a few minutes, I felt the weight of the massive mountain being lifted off my shoulders. "I broke through," I thought to myself. As I ripped my way through the limitation. In terms of physical strength, I've hit the pinnacle. The entire amount of blood essence was used. Drilling by the white energies came to a halt.

A big heated current runs through my veins as a result of that. It affected my hands, limbs, waist, groin, and other bodily regions. My muscles were strengthened and each cell in my body was loaded with energy.

My skeleton's normal red lines have widened. As a result, my bones are becoming a little tougher. All of this filled my body with power. Having achieved success. My aura appears to be more distinct now. It's a dark crimson colour.

"Now I have to concentrate on bringing Lightning Element up to the same level," I muttered.
