Chapter 1211: Peace days!

Star University:

Leah Downing has listened quietly after knowing that Jeremy was sent to the warrior camp. She was worried inside.

Because she knows the situations inside the warrior camps.

She asked, "Master, did you know which camp it was?"

Austin saw through her thoughts. Even he doesn't know about the camp details.

"Nobody knows the camp details except the dean. Don't worry he will be safe," Austin assured her.

After speaking with him, Leah went back to her residence.

Austin resumed his work. He thinks his other disciples are going to return soon.

...

From MC's Perspective:

Camp 424,

Inside the room, I'm resting. A couple of days had passed since the last battle against the foreign creatures. Since then, there has been no movement inside the cave structure.

It's a rare peace time. I had heard from the seniors that it was not normally the case.

Usually, there is only a gap of one or two days, but this time they are experiencing peace for more than 4 days.

It's good for me. None of the seniors bothered me. Maybe the news of the Assistant Estella that stood for me had spread across the entire camp.

No one comes to mess with me. On the other hand, I got to know other seniors from the Thunderflame Faction.

Senior Thomas introduced me to a few more people. They had no idea that it had recently been recruited into the Star University and became the Black Mark Warrior in a short time.

At that time the seniors couldn't contain their curiosity. They had asked about his inheritance type. But I didn't reveal anything related to my inheritance.

But after knowing that I'm a disciple of Master Austin. They gave up the matter and became respectful. Since that day, I have made a few connections here.

One hour later,

After getting ready, I left the room and went to the training facility. The training facility has been operating at full capacity.

Because of rare break days, everyone is hitting the facility to train. It's also one of the places to get to know people.

Soon, I reached the destination. In front of me is a massive, multi-floor training building. Its massive structure spreads across more than 100 acres. It's enough for the 200 Black Mark Warriors to train here.

Everyone got space. The Administration has built this training facility after knowing the capacity of Camp 424.

From time to time, I get to see Silver Mark Warriors as well. Their role is to safeguard the camp. They don't participate in the fighting. Their strength can destroy the cave structure.

So only the Black Mark Warriors are allowed to fight here. After walking along the corridor, I reached the training room which I booked last night.

I can use the training room for myself for the entire day. There are no restrictions. After going inside the room, I locked the door and started looking at the training room.

The whole room has a wide space. Enough for eight fighting platforms to be made inside the room. So I can practise the movement technique here.

After becoming the Black Mark Warrior, I almost forgot about practising the various attack and defence techniques. I knew there was room for improvement.

So I collected my thoughts and started practising the "Sword Divide" move.

...

Supervisor office:

Bobby is slightly nervous. While the warriors were practising and resting during the rare peace days. He is having the opposite.

He didn't know why? He has this feeling that the next attacks from the foreign creatures could be dangerous.

Unfortunately, he doesn't have evidence to back up. He had only instincts. There are 499 other warrior camps under Star University.

Communication is allowed only in times of emergency. He can't use it to confirm his assumptions.

"Anyway, let's confront what's going to come our way," he thought.

...

Meanwhile,

Assistant Supervisor Estella is talking with her friends. They are Silver Mark Warriors as well. One of them happens to be from the Elemental Faction.

She suddenly raised questions about Zack Lockwood.

Estella and other friends were surprised. The woman who asked this question was a woman with hair named Kelly.

She is from the Blazing Fire Faction.

"Kelly, why are you asking this?" Estella asked.

"No, I'm being curious. I heard from my juniors that 3 warriors from my faction were killed in the last battle," Kelly replied.

"So?" Estella uttered.

"They had a confrontation with a newcomer named Zack Lockwood. He entered the cave structure before them," Kelly replied.

Hearing that Estella and other friends understood.

Estella said, "Are you saying that the newcomer confronted them and killed three of them in the end?"

"No, I'm not saying he has killed the three warriors. I think he could be involved indirectly in their death," Kelly said in a serious tone.

Estella immediately got alerted. She thinks the Elemental Faction might come up with new trickery to falsely accuse the newcomer.

But without evidence, no one can do anything.

She then said, "Kelly, you are imagining things on a different level. Those three were veterans. They had killed numerous foreign creatures over the years."

"Do you think they can be killed by a newcomer who just became Black Mark Warrior recently?" She added.

Kelly was left speechless. She has no way to defend this argument. Because she had the same idea as well. It's her juniors who think that it's connected to the newcomer.

She thought they wanted to frame the newcomer. So she agreed to help. Inside the camp, you cannot do anything without evidence.

Seeing that Kelly has become silent. Estella nodded her head. She thinks this matter won't end silently.

The warriors from the Elemental Factions might try to do something against Zack Lockwood.

She knows that Zack Lockwood has the support of the Dean. These people don't know.

Estella said, "Kelly, listen to me. Don't do anything against the newcomer. It's my friendly advice to you. If you and your juniors did anything, no one can save you."

"Including your Faction Leader," She added.

Chapter 1212: A new foreign creature with abilities!

Camp 424:

Kelly listened but she was shocked in her heart. She didn't expect the newcomer to have such a background. Even Estella is warning her.

She knows Estella. She is a good friend of hers. If she is saying this then it must be true. She then looked at her and asked, "Do you know something?"

Estella shakes her head and says, "I can't tell you. But remember don't go against him. Tell juniors of yours not to cause problems."

"Once there is evidence for their wrongdoings, they will face far more punishment," She added seriously.

The surrounding friends of hers noted the name of "Zack Lockwood " carefully. Though Estella didn't say it to them. But they will warn their juniors as well.

The conversation then shifted to some other topic. Then they parted ways. Camp 424 is having rare peaceful days.

...

The following day,

Inside the training facility room, I'm practising various attack methods. I slowly forgot about the outside noise.

Buzz!

All of a sudden, a deafening alarm sounded inside the room. Hearing that I stopped practising the moves. I quickly exited the room and went to the bathroom to refresh myself.

Swoosh!

Shortly afterwards, I left the quarters and rushed out towards the cave structure. I saw others going in the same direction as well.

I'm used to seeing this sight. Then I entered the cave structure and rushed inside one of the passages. After going inside, I paused my footsteps.

Rustle!

I could hear sounds coming from the other side. The alarm sounded so suddenly. I was unprepared. The various inheritance forces inside the dantian were less.

I could only carefully use the force in this fight.

Tap!

An eight-legged, flat-bodied foreign creature appears.

Upon seeing that my eyes turned solemn. It's again one of the types of foreign creatures. I should not underestimate it.

Splash!

The foreign creature with a flat body and a small mouth spews out saliva. The saliva shot like a bullet. It speeds through the air before hitting the cave wall.

Sshsh!

The cave wall is beginning to corrode. If the corrosive saliva lands on the warrior's body, then his Physique would be corroded.

On the other hand, I retreated a few steps backwards.

The ability of the foreign creature shocked me to the core. I didn't expect to come across the eight-legged foreign creature with an ability.

Tap!

The eight-legged foreign creature is stepping forward at a slow pace.

Seeing that I began to control the bright blue water force. I slowly mixed it with the shock force. I raised my hand.

At the tip of my forefinger, a water drop appears. The water drop is different. It has shades of silver and gold. But it was bright blue in colour.

Boom!

The foreign creature attacks me with corrosive saliva again. It was shot at him. His perception was active.

When the Attack got closer to me. I sidestepped to avoid the attack.

Ssshhh!

The corrosive saliva struck the wall. A huge hole appears the next second.

I realised it was not easy to detangle the foreign creature. So without thinking further, I shot the water drop at the foreign creature.

Boom!

The water drop cuts through the air. Like a fast projectile, it reaches the target in a flash. Just before the water drop could touch their forehead.

The foreign creature evades the attack at the last moment. It was so fast. It seemed like another ability.

Swoosh!

The water drop then went past the spot and struck the ground.

Boom!

An explosion occurs the next moment. A deep pit appears on the ground. But the passage was safe.

Seeing that I was dumbfounded. One thing that a foreign creature was able to evade. But to think that passage was not damaged. I'm dumbfounded.

Then I began to think that the cave structure was not naturally formed.

Splash!

While I was thinking the foreign creature shot the saliva at me again. This time, the foreign creature was careful. It was not moving forward.

Boom!

Once again I sidestepped to avoid the attack. The corrosive saliva went past me and struck the ground.

At the same time, I started to use purple lightning force and shock force.

"Lightning Cage"

The next second, a series of purple lightning bolts shot from my hand.

The purple lightning bolts with gold and silver shades joined together to form a cage-like structure before falling on the foreign creature's body.

Boom!

The eight-legged, flat-bodied creature fails to escape. Instead, it was trapped by the new lightning cage filled with shock force power.

When the body of the foreign creature comes into contact with the lightning cage.

Boom! Boom!

The lightning and shock force power began blasting away its body parts. It appears different parts of the body exploded at the same time.

In desperation, the foreign creature tried to move. In a flash, it's trying to slip away from the place. Yet it failed once again and was attacked by the purple lightning force.

Pfff!

This time the remaining parts of the body got it. The blood and broken organs splattered across the ground.

Sshsh!

The ground was dyed with blood. It began to corrode. Soon, it leaves behind another pit. I stopped using the lightning cage.

When the aftermath had settled down. I looked at the destruction and damage left behind after the fight.

It was the first time I fought against a foreign creature with two different abilities. If it were not closed space, the foreign creature would have more chances to escape.

My lightning cage technique happens to be the perfect solution for it. It dies inside the cage in the end. My eyes flash with relief.

Now I understand the importance of having an ancient inheritance. And that too more than one. So far I'm handling different types of foreign creatures with ease.

It was because of the multiple ancient inheritances. No wonder the Dean was supportive of me.

If I become the Purple Mark Warrior in the future, then I could cause change on the battlefield.

Chapter 1213: A new crisis!

From MC's Perspective:

Camp 424,

I continued to stay inside the passage. I had this nagging feeling that the fight was not over yet. My inheritance forces inside the dantian are not full.

I need time to recover my strength. So I took the risk to practise the methods here.

As time passes, the purple lightning force enters the dantian.

Rustle!

But not long after, the commotion starts coming from the passage. Hearing that I stopped practising the method and turned towards the passage.

An eight-legged, flat-bodied foreign creature appeared. Not one, but I saw more than one foreign creature.

Seeing the two foreign creatures looking towards me.

I immediately decided to use the “Lightning Cage” attack.

Boom!

Several purple lightning bolts were released from my fingers. They were shot at the target at breakneck speed. The lightning bolts joined together to form a cage.

Then it falls on the bodies of both foreign creatures.

Boom!

The next second, an explosion occurs one after another. The purple lightning power is blasting away the bodies of the foreign creatures.

Blood mixed organs were splattering on the ground. But the foreign creatures were not completely dead yet.

On the other hand, the inheritance forces in the dantian are getting dried out.

If this goes on, I will soon run out of force. I might be forced to engage in close combat.

Boom!

It didn't take long for both the foreign creatures to die. Their whole body has disappeared. Instead, the blood-mixed organs can be seen on the ground.

I stopped using the technique and waited for the battle to end. But I still have this feeling that today's fight is not over yet.

Then I started to practise the lightning method again. Once again the purple lightning force is gathering inside the dantian.

I'm not using the golden sealing force and the shock force for a reason. I'm planning on using them in an emergency situation.

Meanwhile,

The causality starts to appear in other passages. Because the Black Mark Warriors were fighting more than one foreign creature.

It's putting a lot of pressure on them. So the warriors started to die as time passed. Some of them were continuing the fight, hoping that the battle would come to an end.

As the time passed, they felt something was wrong. Because the alarm was not sounding at all. On the other hand, the injuries on their bodies were increasing.

Not only were the Black Mark Warriors who were fighting inside the cave structure passages surprised.

But the Silver Mark Seniors were taken aback as well. They didn't expect the battle to continue even after 3 hours.

Because usually when the battle time appears. Not more than one or two foreign creatures attack each passage.

Yet as time passes, there is a risk of more foreign creatures appearing in the passage. Now they are having one such situation.

The atmosphere among the Silver Mark Warriors outside the cave structure was grave. They were silent.

Because they knew what would happen if the battle continued. There is a danger of facing attacks from the foreign creatures who had Silver Mark strength.

Estella was with her friends, carrying a tense expression as well. Because it's not easy to defeat the foreign creature.

There are chances of Silver Mark Warrior dying as well. Because it had happened before.

...

Inside the Supervisor's office:

Supervisor Bobby was sitting behind the desk. His finger is tapping the top of the desk nonstop.

Bobby knew the seriousness of the matter. If this battle continues, then the Silver Mark Warrior has to fight.

...

Inside the passage,

I saw the foreign creature again. But this time the foreign creature was different. It has two legs, almost similar to the Human warriors.

But the Head was bald. The body was completely black. The body has two hands and legs. They were like sharper claws.

The pressure coming from the humanoid foreign creature is stronger than the eight-legged foreign creatures.

Seeing that my heart stirred. I realised something was wrong.

If my instincts were right, this foreign creature was different from before. It's stronger than the Black Mark Warrior-level foreign creature.

I felt a sense of crisis. I don't know the ability of the humanoid-type foreign creature. Before it could use it. I decided to use a purple lightning attack.

"Lightning Cage"

I shot several purple lightning bolts at the coming black humanoid foreign creature. The purple lightning bolts darted towards the creature.

But before falling on the foreign creature. It forms like a cage and falls on top of the black humanoid foreign creature.

Boom!

The next moment, a loud booming sound can be heard. The lightning bolts explode upon coming into contact with the black humanoid creature's skin.

But apart from a few torn skins here and there. The foreign creature was not affected greatly. A sense of crisis grew in my heart.

A realisation occurred that the Black Humanoid Foreign Creature indeed has Silver Mark Strength.

Boom!

The black humanoid foreign creature destroys the remaining purple lightning bolts. After doing that it turned towards the enemy.

Swoosh!

The next second, it disappears from the spot. They darted out towards the target at extreme speed. The speed was faster than the Black Mark level foreign creatures.

At the same time, I'm finding it hard to keep track of the foreign creatures. Before I knew it its fist appeared before my face.

"Lightning Wheel"

Seeing that I used the lightning wheel technique. A purple lightning wheel appears around me. The purple lightning wheel was beaming with destructive power.

The purple lightning wheel comes in contact with the body of a black humanoid foreign creature within a fraction of a second.

Boom!

A huge explosion occurs the next moment. The black foreign humanoid took the full brunt of the attack. But the impact force failed to make it move.

On the other hand, the impact force struck my body. I was sent back flying before falling on the ground. The landing was heavy and sudden. I felt an inhuman pain in my body.

Chapter 1214: Shock force power helps!

From MC's Perspective:

The inhuman pain is impacting my ability to think. But I know if I don't get up, I'll be thrashed by the humanoid foreign creature.

After a struggle, I stood up. When I raised my head to face the enemy. I saw another claw before my face. Seeing that I tried to move sideways to avoid it.

Boom!

The next second, the humanoid foreign creature kicks me in the chest. It was so fast that my perception was ineffective.

I felt like I was struck by a boulder. My body was sent back flying again. It goes fast in the air like a projectile before crashing into the ground again.

AaaahhhHhh!

I let out a muffled grunt from a splitting headache and body pain. The heavy landing made my head dizzy for a second.

At the same time, I felt a huge sense of crisis. The humanoid foreign creature is anything like what I had faced before.

More than that, I have realised that a humanoid creature has intelligence. Otherwise, it won't take a pause between attacks. And it's yet to use its ability on me.

Without thinking further, I circulated the blood energy inside the body. When red blood energy rushes out. The pain begins to recede.

I'm feeling stronger than before. I came to realise that I had no choice but to engage in close combat.

I stood up with great difficulty and looked at the black humanoid creature. The 8-foot humanoid creature is walking up to me. It has a wide mouth and small eyes.

The most terrifying thing was. It has claw-like fingers and legs.

The humanoid creature got closer towards me. A red blood energy covers both of my arms. I know that it has a greater speed than mine.

Under the perception, his movements became clear.

Swoosh!

The foreign creature leapt forward to attack. His right hand claws are coming at me. It wants to take flesh on my body.

The red blood energy has already covered my fist. So I punched forward.

In a flash, both of our attacks come into contact with each other. The red blood energy struck the black claws.

Boom!

The next second, a weird black energy tries to withstand the red blood energy. My heart shook to the core.

A shock force appears. It immediately spreads across the surroundings. On the other hand, both of us are rooted in the same spot.

But our energy is going against each other. The one whose energy is lost first would be sent back flying.

As time passes, my red blood energy is losing its ground. The weird black energy is destroying the red blood energy.

Suddenly, the black humanoid creature cracks a wide grin. Seeing that my sense of crisis has increased.

Boom!

The next second, the weird black energy increased all of a sudden. It burst forth. So much so it immediately destroys the red blood energy.

Before I could do something, I lost my balance. The black energy forced me to retreat backwards.

I stabilised my footsteps and was about to attack the black humanoid creature.

But the black humanoid foreign creature reacted. Its right-hand claw is now covered with dense black energy.

At the same time, I raised my fist to attack.

Swoosh!

The black humanoid creature's right claw struck my fist attack.

Boom!

This time the impact force began to affect my right arm. I could feel some weird black energy trying to tear my right arm apart.

At the same time, I felt immense pain in my bones. I'm feeling the heart-wrenching pain for the first time. It feels like someone is separating the bones from my body.

Boom!

The black humanoid creature is carrying a wide grin. Suddenly, it draws its claws before grabbing the left arm.

Its left arm grabs my right arm. It all happened within seconds. Seeing that bad premonition rose in my heart.

"Lightning Wheel"

I used the lightning wheel technique with a mix of shock force. A powerful purple lightning wheel appears around me. It has shades of gold and silver.

The lightning wheel is beaming with more destructive power. Compared to the previous strike, I guess this will work.

The black humanoid creature's intentions were clear. It wanted to tear the two arms of the human.

But then the sudden appearance of the Lightning wheel caught it off guard.

The black humanoid creature felt threatened. But before it could withdraw. The purple lightning wheel explodes right before its face.

Boom!

The explosion caused the lightning power to strike the foreign creature's body. The abnormal purple lightning has started rampaging through the body of the humanoid creature.

The shock force aids in the destruction as well.

Weird cry!

It lets out a weird cry before retreating backwards. It uses the black energy to destroy the purple lightning. Yet the shock force power is making its job difficult.

The foreign creature forgot about the human. Now it wants to save itself. It's clearly the work of its intelligence.

On the other hand, I adapted to the heart-wrenching pain. Both of my arms are hurting right now. I was so close to losing my hands.

Seeing that the Black creature was struggling. A satisfied grin appears on my face. I didn't expect the shock force power could push the humanoid creature into a backwards position.

Meanwhile,

The black humanoid creature with Silver Mark Strength has not only appeared in this passage. It has appeared in the rest of the passages as well.

It's successfully taking the lives of the Black Mark Warriors.

Outside,

The Supervisor Bobby, Assistant Estella and other Silver Mark Warriors had no clue about it. They can't enter the cave structure once the battle has started. It's against the rules.

If they break the rules, then the foreign creature could break the rules next time. So they are hesitating to assess the situation.

But they all understood that the continuation of the battle was not a good sign.

Either the Black Mark Warriors were facing a large number of black mark strength foreign creatures, or they could be facing the Silver Mark Strength foreign creatures.

Chapter 1215: Fighting back against the Humanoid creature!

From MC's Perspective:

Seeing that the shock force power is hurting the black humanoid creature. I began to circulate both the shock force and red blood force.

My right arm is covered with both of the forces in a flash. Before the humanoid creature could stabilise. I disappeared from the spot and bolted out towards the creature.

Swoosh!

Right after appearing in front of it, I furiously punched forward.

The humanoid creature was about to eliminate the last purple lightning force. But it faces the next attack.

The punch, filled with red blood and shock force, hits its chest.

Boom!

The punch tore through the black flesh and skin, revealing the inner white organs. Seeing that my eyes flickered.

I went forward to attack the same spot.

Boom!

One after another the booming sound was heard clearly. Each punch takes a piece of skin from the humanoid creature.

Weird cry!

The Humanoid creature is letting out a weird cry.

All of a sudden, the body of the foreign creature burst forth with weird black energy. The black energy covers each part of the body in a flash.

Swoosh!

The next second, the black humanoid creature retreats backwards. It went close towards the exit.

On the other hand, I was stunned. I was wondering why the humanoid creature didn't use its ability. It's saving it for the last moment.

But I don't want the black humanoid creature to let go. It still has some strength left.

Weird cry!

The black humanoid creature lets out a weird cry again. The weird cry was directed at him. The next second, it disappears from the spot.

The speed was tenfold that of before. I couldn't even see the blur. A strong sense of crisis appears. I tried to cover the whole body with the red blood and shock force.

Boom!

But the next moment, I felt something kick my chest. With a loud booming sound, my body was sent back flying.

Like a projectile, my body travels fast before crashing onto the ground.

AaahhhHHh!

A muffled grunt left my mouth. Then I spewed blood from my mouth. My chest was burning hot. Like someone placed a hot iron rod in my chest.

At the same time, I felt numerous bones in my body were cracking. A few more attacks, and my bones would be broken.

I raised my head and saw the black humanoid foreign creature before me. Its body is completely covered in black weird energy. It looked like it was covered with pitch black paint.

I began to circulate the red blood force inside my body. The red blood force alleviates the pain in the body.

Weird cry!

The humanoid foreign creature makes the weird sound again. My sense of crisis has increased again. I don't know when the ability of the humanoid creature wears off.

But I can't take this next attack. I used my perception ability to an extreme to predict the attacks. The black humanoid creature appears in front of me, and it tries to stomp.

Swoosh!

At the last moment, I moved sideways to avoid the attack. Seeing that the humanoid creature was taken aback. Then it didn't hold back.

Swoosh!

It uses its ability to attack. In a flash, it appears before me. Its leg landed on my stomach. The next second, I felt the tearing pain.

The inhuman pain made my mind go crazy. I'm trying to move away from the body. But the foreign creature refuses to move away from its leg.

The weight behind the leg is massive.

Weird cry!

The foreign creature made a weird sound. It wanted to crush my inner organs.

After knowing the foreign creature's intentions, I have decided to use the golden sealing force. I circulated the golden sealing force.

When the sealing force appears in my hand. Then I grabbed the leg of the foreign creature. The golden sealing force began to take effect.

Something amazing happens in front of my eyes. The golden sealing force destroys the weird black energy. It was destroying faster than the shock force.

Weird cry!

The humanoid black creature makes a sound again. This time it made a sound because it had lost its senses in the leg and failed to move away from its body.

On the other hand, I saw what's wrong with the black humanoid creature. I'm struggling. The upper body is moving. But it couldn't move its lower body.

Seeing that I began to circulate the shock force. When the shock force covered my palm. Then I added the purple lightning force.

A purple lightning ball with shades of shock force appears. The next moment, I attacked the foreign creature's leg, pressing it on my stomach.

Boom!

The foreign creature's leg, which was completely sealed earlier. Now it was under the attack of Purple lightning and shock force.

The next second, the leg was blasted away by the purple lightning ball.

The foreign creature, which has lost the power of the weird black energy, fails to defend against the attack.

Boom!

The next moment, the black humanoid creature fell backwards to the ground. I felt the weight lifted off my shoulder.

Gasp!

I started gasping for breath. But still, there is inhuman pain in the stomach. When my gaze fell on the humanoid foreign creature.

Its right leg was broken.

A hint of coldness appeared in my eyes. I don't want to miss this opportunity. I stood up while experiencing the pain.

Then I began to circulate the golden sealing force. Then I started charging towards the enemy.

The humanoid creature, which was struggling on the ground, faced another attack.

Pfff!

My fist landed in its stomach. The sealing force takes effect. The humanoid creature failed to move. It knew something was wrong.

Unfortunately, it can't use its weird black energy against the golden sealing force.

On the other hand, I switched the golden sealing force with the shock force. Then I began to add the red blood force.

When the two forces combined. Once again I struck the stomach of a foreign creature.

Boom!

The punch tore through the skin and flesh. The red blood force began rampaging through the exposed skin and flesh.

Pfff!

A blackish-green blood splattered on the ground from the injuries the next moment.

Chapter 1216: Part 1: Chaos in camp 424

From MC's Perspective:

Pfff!

I continued to hit the humanoid creature with my fist. The weird blackish green blood is dyeing the ground. When the humanoid creature tries to retaliate.

I used the sealing force immediately to seal it. The sealing force acted. The humanoid creature was frozen in its spot.

Boom!

Then I repeated the striking until the shock force ran out of the body. This time, the humanoid creature, which looks disfigured, was beaten half to death.

Fortunately, the purple lightning and sealing force were left. So I used both of them to put the humanoid creature to death.

Tud!

The corpse fell to the ground. Both of my fists were bloodied. The state of the corpse was miserable. The head was sunk in. The chest area of it was carved inside.

Both the hands and legs were torn apart and the flesh parts were blasted away. I noticed that there is a black oval-shaped object located in the heart area.

I took the black object out and held it in my palm. My eyes flash with curiosity. I didn't expect to find a foreign creature's heart.

Then I stored it inside the storage ring. After doing that I retreated. I started to wait for the battle to come to an end.

Buzz!

Not long after, the alarm sounded. Hearing that I turned around and started moving towards the exit.

In the blink of an eye, I came to the exit and left the cave structure at high speed. When I got out of that place. I saw other warriors exiting as well.

Seeing that, I paused my footsteps and took a good look at the surroundings. The scene I'm witnessing is sending cold shivers down my spine.

Because the warriors who were exiting were low in numbers. And everyone looked bloodied. Some of them had their arms and legs missing.

A look of realisation dawned on me.

Others must have faced the humanoid foreign creature.

It's just that I was fortunate to have Ancient Inheritances. I was able to kill the Humanoid creature because of it.

I began to calm down my turbulent heart. At the same time, I'm keeping an eye on the surroundings. This time it was hugely disastrous.

There are 200 Black Mark Warriors who entered the cave structure earlier. Now, fewer than 50 are coming out of the cave structure.

An unknown fear gripped my heart.

Then I saw warriors dressed in Silver Mark Uniforms appear. They started to take the injured to the infirmary.

"It must be Silver Mark Seniors," I said to myself.

It should be their fight. Instead, the Black Mark Warriors were forced to face the humanoid creatures.

AahhhhHh!

A muffled grunt left my mouth. I forgot that I was injured as well. But compared to others my condition was better.

Then I turned around and started going towards my quarters. Soon, I reached my quarters. Then I started walking towards my room.

After reaching there, I went inside and locked the door. Then I removed my clothes to assess my injuries.

I found many black spots on my body. It was the hard-hitting spot. An immense pain is coming out of my bones as well.

Then I found a spot to sit cross-legged on the ground. I closed my eyes and started to circulate the healing force inside my body.

I believe the healing force will reduce the immediate danger.

Meanwhile,

There is chaos across Camp 424. More than 100 Black Mark Warriors are yet to exit the cave structures. If they don't come, it can be said that they have lost their lives.

Supervisor Bobby is walking back and forth in his office. He was tense and panicking. He had not faced this kind of situation before.

The casualty is higher than last time.

Creak!

Someone walks into the office. The person is none other than Assistant Estella.

Seeing that Bobby turned towards her.

He asked, "What happened?"

Estella replied, "Senior, you are right. The Humanoid creatures have launched a surprise attack. Almost everyone fought against the humanoid creature."

"But only a few of them managed to survive," She added in a sad tone.

Hearing that Bobby was taken aback. He was not sure earlier. But he knows now.

He said, "The humanoid creature has the strength of a Silver Mark Warrior. Even the Silver Mark Warrior would find it difficult to kill it."

"The Black Mark Warriors had met with an unwanted situation," Bobby said with grief.

He was well aware that once news reached the Star University. It would cause great shock to everyone. Especially the faction the deceased warriors belong to.

Not long ago, he gave the casualty report. Now he doesn't know what to say.

Suddenly, he thought of Zack Lockwood. His expression changes.

He asked, "What about that kid?"

"Has he survived?"

Hearing that Estella immediately thought of Zack Lockwood. Because of the tense situation, she forgot to check on him.

"Call him right now?" Bobby asked.

Estella immediately made a call to Zack Lockwood.

Bobby is watching with a tense expression. If anything happens to Zack Lockwood, it would be a huge loss to Star University.

Because Zack Lockwood is a warrior with Ancient Inheritance. His existence is important. If he becomes a strong warrior in future, he could change the tide on the battlefield.

It didn't take long for the call to connect.

"Zack Lockwood, are you alright?" I heard the voice of Assistant Estella from the other end.

I stopped circulating the healing force and replied, "I'm alive. But I'm injured. I need healing resources."

Hearing that Estella was dumbfounded. She was not sure about Zack Lockwood's survival before the call.

But she was shocked to the core right now. Where other veteran warriors gave their lives. Here, Zack Lockwood was able to survive with injuries.

Bobby saw her change in expression. He can't wait to know what's going on.

Estella asked with hesitation, "Did you come across the humanoid creature?"

"Yes, I fought against the Black Humanoid creature. It took my everything to kill that creature in the end," I replied to her on the call.

Chapter 1217: Part 2: Chaos in camp 424

From MC's Perspective:

"What?" Estella uttered in disbelief. Her face was filled with complete shock.

Seeing her shocked reaction. Supervisor Bobby was taken aback. He didn't know why she was shocked.

"Senior, what happened?" I asked.

I knew she would find it hard to accept the facts.

Estella collected her thoughts.

She said, "Are you telling the truth?"

"Don't dare to joke around. We have currently lost so many warriors to the humanoid creatures. The whole camp is in chaos right now," Estella said in a serious tone.

Hearing that I was dumbfounded. I knew the casualty was going to be high. But from her tone, it seemed that causality is higher than he thought.

A grave expression appeared on my face. The excitement of killing the humanoid creature was gone.

"I'm not lying. I have a humanoid creature's heart with me," I replied.

Estella was dumbfounded again. She then realises why would Zack Lockwood lie to her? Then she asked about the humanoid creature's heart.

Zack Lockwood's words match with the characteristics. It shook her heart to the core. She doesn't know what to ask further.

She was sure Zack Lockwood indeed killed the humanoid creature. Which was even impossible for some Silver Mark Warriors.

"Alright, I'll see you later," After saying that she ended the call. She totally forgot that Zack Lockwood was injured as well.

Her mind is filled with his earlier statement.

"What happened?" Bobby asked.

Hearing that Estella collected her thoughts and turned towards him.

She said, "Zack Lockwood is fine."

"He is fine. That's all," Bobby asked.

Estella takes a deep breath. She then turned towards the Supervisor and told him everything.

At first Supervisor Bobby's expression was calm. But when he continues to listen. His expression was full of disbelief and shock as well.

A few minutes later,

"So this is the reason why Dean wanted us to take care of him?" Bobby said.

Estella's eyes flickered with an understanding. It's one thing to fight against warriors across ranks. But it's different to fight against the foreign creatures.

"This kid got Ancient Inheritance. It must be one of the powerful Inheritance," Bobby said.

He then turned towards her and said, "You go and take care of other matters. I need a casualty report as soon as possible."

Estella nodded to him before leaving the room. When she was gone from the place. Bobby walked back to his seat and sat on the chair.

His mind is filled with confusion and fear. Not every day you can see humanoid creatures appearing in the battlefield of the Black Mark Warriors.

He couldn't help but wonder. If the humanoid creatures were here, then what about their warriors in the Silver Mark camp.

"Did they come across Gold Mark level foreign creatures?" Bobby thought.

A mere thought of it is sending a cold shiver down his spine. He wanted to report to Dean Jerome as soon as possible.

Meanwhile,

Estella is taking care of survivors. They still don't have any idea about the timing of the battle.

If they don't sort out the current problem, the consequences would be disastrous.

Estella wanted to collect the name list quickly.

At the same time, the mental condition of the survivors was miserable. Most of them were seriously injured. They had missing body parts.

Only a handful of them had complete body parts. Yet their internal injuries were severe. It's impossible for Camp 424 to send these warriors to the battlefield again.

In other words, camp 424 is defenseless. The Silver Mark Warriors can't enter the battlefield according to the rules.

There is also a rule that if the alarm sounded. Then Camp 424 had to send the warriors. If no warriors were present, the foreign creature could barge into their camp.

In the room, the healing force has cured the serious internal injuries. I had put so much effort into practicing the ancient healing technique.

Now it's paying off. The ancient healing technique is a powerful technique. The healing force's healing power is no less than that of any professional healer.

So much so I didn't need help from the professional healers here. It won't take long for me to recover completely.

Then I have decided to practise the methods to recover the inheritance forces.

Time passed,

Midnight comes. The whole camp 424 is silent. The surviving Black Mark Warriors were undergoing treatment.

Estella has done her job. She had submitted the casualty report to the Supervisor Bobby. Supervisor Bobby then submitted the report to Dean Jerome.

Everyone is hoping that there will be some peace of time. But no one knows what might happen next. The whole camp 424 is tense .

In the Supervisor office, the Supervisor Bobby is keeping an eye on the cave structure. He doesn't want the alarm to sound in their current situation.

More importantly, he is waiting for the call from Dean Jerome. He doesn't know what to do if the alarm sounds again. Only the Dean can instruct him.

If the Dean allows Silver Mark Warriors to enter the cave structure then Camp 424 is saved.

...

Star University:

Dean Jerome who got the list was not happy at all. He was extremely angry. He didn't expect the foreign creatures to act despicable at this time.

This had happened before. But there was a reason behind it. Now the same thing is happening again. He couldn't help but wonder whether it's a sign of any upcoming danger.

Like Supervisor Bobby, Dean Jerome is also waiting for instructions from someone higher up.

Buzz!

Suddenly, a communication artifact in his storage ring starts vibrating.

Jerome's expression changes. The things that he has been waiting for have happened. Jerome takes out the circular communication device.

It can be considered as Artifact as well. It can't be broken by the power of the Red Mark Warrior.

Jerome then began to access the device. He then goes to the notification to read the message. But upon reading the instructions sent by the higher ups.

Old Man Jerome's face changes as well.

Chapter 1218: Envy & hate!

Star University:

Dean Jerome was shocked beyond his words. The instructions from his higher-ups are causing turmoil in his heart.

"No, Zack and other black mark warriors are still there," Jerome said.

He then picks up his communication device and calls the Supervisor Bobby.

When the call was connected. It was time for reality.

"From now on, Camp 424 is a Silver Mark Warriors camp. I'll send the remaining Silver Mark Warriors and Gold Mark Warriors for protection."

"Send back all the Black Mark Warriors including Zack Lockwood," Dean Jeroen told him.

But Supervisor Bobby was dumbfounded. He was extremely scared. Then he collected his thoughts and answered, "Yes, Dean. I will do it."

After ending the call, old man Jerome's face was not good-looking. He didn't expect the higher-ups to convert Camp 424 to the Silver Mark Camp.

He just got the report of humanoid creatures attacking Camp 424. He had thought it was one of those despicable tactics to inflict damage.

But he didn't expect the situation to be permanent. He was fortunate that nothing happened to the kid, Zack.

But Supervisor Bobby didn't provide him with full details about Zack Lockwood.

Zack Lockwood killed the humanoid foreign creature. It's wonderful news. Unfortunately, the ongoing tense situation caused Bobby to forget it.

...

Camp 424:

Supervisor Bobby summoned Assistant Estella and told her about Dean Jerome's instructions. Estella's face turned pale with fear.

The change of camp meant. They could face attacks from a Silver Mark-level foreign creature at any time.

"Tell the Silver Mark Warriors to get ready. The remaining warriors must be on their way. And also inform the Black Mark Warriors to be ready for the discharge," Bobby said to her.

Estella collected her thoughts. She then nodded to him before leaving. Soon, the news starts to reach everyone's ears.

The warriors were all scared. The sudden change of Camp 424 to Silver Mark camp was out of their expectations.

More importantly, they could face the attacks from the Silver Mark level foreign creatures at any time. Then news for the Black Mark Warriors was conveyed as well.

...

From MC's Perspective:

In the morning, inside the room, I was asleep. After sensing the daylight, I opened my eyes and got out of bed.

I walked up to the window and removed the window screen. Then I saw that the whole camp 424 was empty. There was a pin-drop silent.

"What's going on here?" I asked myself.

Usually, I could see warriors doing some exercise outside. But no one was outside today. I had this feeling that something was up.

Knock!

Suddenly, there is a fierce knock on the door.

Hearing that I collected my thoughts and started walking towards the door. Then I opened the door and saw Senior Thomas standing outside.

But his condition was worse. He had his right arm missing. His whole body was covered in white bandages.

"Senior," I asked.

I'm glad that he was alive. It was not easy to escape from the grasp of the Humanoid creature.

"Zack, you are alive. That's good. Let's go, it's time for us to leave," Thomas said with a smile.

Hearing that I was stunned. I don't know what's going on here.

I looked at him in confusion and asked, "Senior, what's going on?"

Thomas was already in shock. His heart was in turmoil. Because he knew Zack had entered the cave structure as well.

But he had returned safely. His body was fine. There are no missing parts. Either Zack Lockwood hadn't faced the humanoid creature or he hid himself.

He doesn't think Zack Lockwood was able to eliminate the Humanoid creature. It didn't even cross his mind.

"Senior, what's going on?" I asked again.

"Don't you know? " Thomas asked back.

"Camp 424 is the Silver Mark Warriors camp now. We have been asked to leave. Let's go," Thomas said.

Hearing that my heart set off storms. So many things have happened? I didn't even know about it. Then I collected my thoughts.

"Senior, wait a minute." After saying that, I locked the door and went inside the room to get ready.

Thomas nodded his head. He has doubts in his heart. He doesn't know how Zack Lockwood has survived.

Since Zack Lockwood is a disciple of Main Elder Austin. He can't be rude to him.

Meanwhile,

I began to get ready. I collected all of my things into the storage ring. After making sure nothing was left out, I walked out of the room.

"Let's go," I said to him.

Thomas nodded his head. Then we started walking towards the administration building. When we exited the quarters, senior Thomas asked, "Zack, how did you survive?"

He was hesitant. But I can tell that he was curious.

"I killed that humanoid creature," I said casually.

Thoman stood in the same spot. His face filled with disbelief and shock. He continues to stare at Zack Lockwood's back.

"Is he making fun of me?" Thomas said, while looking at his missing right arm.

Then he started following him. Thomas has become silent. He didn't believe the words of Zack Lockwood.

But he knows Zack Lockwood's identity. So he silently follows him. They reached the Administration building sooner.

Then they saw the survivors were standing in line to enter the Teleportation platform.

On the other hand, I saw the bad condition of Black Mark Warriors. Almost everyone is seriously injured. I'm the only one with an intact body.

I don't know what to say. If not for the Ancient Inheritances, I would be in the same condition as well.

Our arrival has caused commotion. I immediately felt many gazes on me. Most of them were filled with envy and hate.

I frowned. I can understand the envy but I don't know where the hate comes from.

Suddenly, a female warrior whose left leg was injured approached me.

"So you are Zack Lockwood?"

"Did you fight against the humanoid creature or hide yourself somewhere?" She asked straightforwardly.

Her voice was not new. It was heard by others. Everyone is looking at me right now.

Chapter 1219: Sudden attack! (Camp 424)

From MC's Perspective:

I heard the female warrior's questions. But I didn't react.

Thomas' expression changes drastically. He didn't expect the female warrior to be bold.

"What are you saying?"

"Don't slander without knowing anything. Otherwise , I'll report to the Main Elder Austin," Thomas said to her.

But his words for everyone. The faces of other Black Mark Warriors change drastically. They didn't expect someone to stand up for the newcomer.

Then the mention of the name of Main Elder Austin has shut everyone's mouth. They knew about the famous elder of Thunderflame Faction.

The situation inside the university is different from the warrior camp. They can't make any threats there.

Buzz!

When everyone was silent and ready to enter the teleportation platform. The alarm for the battle sounds again.

Hearing that everyone's expression changes drastically. The Black Mark Warriors who were discussing in a low tone, have become silent as well.

Everyone's face is full of fear. They want to return to their University. No one wants to stay here and fight against the humanoid creatures.

At the same time, I was dumbfounded. I didn't expect the next battle to happen so soon. This time it's going to be the Silver Mark level foreign creatures.

"It's over," Thomas said in a panicking voice.

No one is moving an inch from the spot. They were afraid that the supervisor would drag them into a fight.

Swoosh!

On the other hand, I saw the available Silver Mark Warriors rushing to cave structures. Seeing that I knew they were outnumbered.

"Open the teleportation platform!"

Someone shouted all of a sudden.

Hearing that my attention turned towards that person.

A patrol guard is standing outside the teleportation platform. He is hearing the alarm sounds as well.

He then said, "During the battle hours, the teleportation platforms were deactivated."

Gasp!

The warriors sucked cold breath of air. It was common knowledge. They almost forgot about it. Now they can't go back to the Star University until the battle was over.

...

Supervisor office:

A few minutes earlier,

Supervisor Bobby hears the alarm. He immediately sends the available Silver Mark Warriors to the cave structure.

He knew that the number of warriors was not enough. During the battle hours, the teleportation platform was deactivated.

Neither the warriors from the outside nor from the inside can use the teleportation platform.

He then sees the Silver Mark Warriors were going to the cave structures. Among them, he sees the Assistant Estella as well.

Because she is a Silver Mark Warrior. She can't disobey the rule despite having the position as the Assistant.

There 50 Silver Mark Warriors in total including the Assistant Estella. They need 150 Silver Mark Warriors in total.

If they don't do anything sooner, then they will fail to provide any deterrence. The foreign creatures could directly enter their camp.

Bobby was tense. He thinks the Dean would know what's going on here. Because Camp 424 was declared as the Silver Mark Camp earlier.

A few minutes later,

He receives the message that Black Mark Warrior standing in queue in front of the teleportation platform was panicking.

Bobby's expression was grave. He knows that Black Mark Warriors were not in any good condition to fight. They needed to be evacuated as soon as possible.

He hoped that there would be some short time break. So that they can send away the Black Mark Warriors.

...

Meanwhile,

Inside the cave structure, the 50 Silver Mark Warriors were engaging in a fight against the Humanoid creatures.

Right now, they were confronting a single humanoid foreign creature. But there are Humanoid creatures in other passages.

They were looking for the human prey. But the humanoid creatures were puzzled that there aren't any human prey inside the passages.

The passages were empty. According to the instructions, they need to kill every human prey that they come across.

They don't have Instructions to enter the human prey camp so far. So the majority of the foreign humanoid creatures found a spot inside the passages and began to wait for the arrival of the human prey.

...

Star University:

Dean office:

Jerome receives the message about another attack on the camp 424. This time it was an official attack from the foreign humanoid creatures.

Old man Jerome was angry. He knows what this means.

"Camp 424 is currently outnumbered. There is a possibility of humanoid creatures occupying the camp 424," He uttered.

But he was glad that Bobby was still there. Bobby is a Gold Mark Warrior.

If there is any forceful intrusion from the side of the humanoid foreign creatures, then Bobby will take care of it.

But right now, he can't stop the ongoing battle. Only if there is a pause, he can get those black mark warriors from the camp 424.

The news of camp 424 turning to the Silver Mark Camp was not known to others. He had deliberately blocked the news.

Once the black mark warriors were discharged from camp 424. Then they would reveal the truth to everyone.

Dean Jerome then thought about Zack Lockwood. He didn't expect Camp 424 to have such changes after Zack Lockwood joined the camp.

He hoped that the kid would come back alive. Then he sent a message to the Faction leaders to have their Silver Mark Warrior in standby.

They were forbidden to leave the Star University until there were further instructions from him.

The Faction Leaders who got the news weren't surprised at first. Because they thought some Silver Mark Camp might be under attack.

...

Thunderflame Faction:

Inside the healing Palace, Main Elder Ann got the news as well. The healers play an important role during the battles.

Their presence was largely needed in the infirmary.

Suddenly, she couldn't help but think about Zack Lockwood. She doesn't know how her disciple is doing in the camp.

She thinks Zack Lockwood must be facing some kind of pressure. Because the foreign creatures were different from the Human warriors. They won't die or get injured easily.

But she has hope in his ancient healing technique. She knows the ancient healing technique would play a huge role in his battles.

Chapter 1220: Facing the humanoid creature again!

From Mc's Perspective:

Camp 424:

Everyone was sitting down in the corridor with a grave expression on their faces. No one dares to even stand up.

They could tell that fierce fighting is taking place inside the cave structures right now.

At the same time, I'm watching the cave structures with a serious expression.

I don't know why? I had this bad feeling that the ongoing battle won't end easily.

"What are you thinking?" Thomas asked.

Hearing that I turned towards the senior. I don't want to scare him. So I replied by saying, "It's nothing, senior. I want this battle to end quickly."

Thomas is wiping out his sweat. He was scared like others. But he found out that Zack Lockwood was calm and composed.

It really surprised him. Now he started to think whether Zack Lockwood had really killed the foreign creature.

Suddenly, he thought of something.

"Zack, if your earlier words were true, then why don't you go and help the seniors. It will reduce the burden on them," Thomas said to Zack.

I heard his words. A quick gleam flashes in my eyes. Then I realised there is some truth to his words. Why am I wasting time here?

I looked at the cave structure again. The battle is still ongoing. I might come across a similar humanoid creature again.

"He is right. It's better to fight instead of waiting for the battle to end," I said in my heart.

Then I stood up. Thomas was shocked. He didn't expect Zack Lockwood to act right away. This time the other warriors noticed them as well.

They were wondering what he was?

"Senior, wait for me. I'll come back," After saying that I left the spot.

Gasp!

The Black Mark Warriors sucked cold breath of air. They don't know what's going on. No one was ready to move an inch from their spot.

Yet someone is leaving at this time. They recognised Zack Lockwood but they don't have any idea about his plan.

Only Thomas is wiping out his sweat beads. He doesn't know whether what he has done was right or wrong. If something bad happens to Zack Lockwood, then he will die as well.

On the other hand, I left the main building and rushed out towards the cave structures. There are no other warriors on the way.

All the Silver Mark Warriors were fighting inside the cave structure. Soon, I reached the cave structure and entered inside.

I came across multiple passages inside. I picked the closest one before going inside. I activated my perception and started to perceive the surroundings.

Not long after, I saw an 8-foot-tall humanoid creature standing like a statue.

"Don't tell me, it's actually waiting for the enemy to come," I said in my heart.

A hint of fear appeared in my eyes. If it had walked further to appear in the camp, then the lives of Black Mark Warriors would have been threatened.

Supervisor Bobby is there. But I don't know whether he can handle a large number of the Humanoid creatures.

Weird Cry!

The humanoid foreign creature made a sound.

Hearing that I collected my thoughts and was ready to fight. I don't know whether it made the sound out of excitement or anger.

Swoosh!

The humanoid creature rushed out to attack. It's using simple brute force.

On the other hand, I already knew the abilities of the humanoid creature. So I started circulating the golden sealing force.

The dull golden sealing force has covered my fists.

Boom!

The foreign humanoid creature's fist is about to hit my face. But I blocked the attack with my right fist. The dull golden sealing force immediately acted.

The force has sealed the creature's entire right arm.

The foreign creature was stunned. It tried to remove its arm but there was no use. Seeing that it worked, I began to circulate the purple lightning and shock force.

In the blink of an eye, my right fist is covered with two different types of forces. The dark purple lightning with golden and silver shock force.

Boom!

The next second, I struck heavily on the chest of the foreign humanoid creature. The blow goes through the hard skin of the creature before destroying it.

The purple lightning and shock force are rampaging inside.

Puchak!

A black like substance drops to the ground. Seeing that I continued to strike the foreign creature with two different types of ancient forces.

Puchak!

The continuous attack caused the flesh parts to fall off. The black substance is dyeing the ground with the black ink.

Before the sealing force could lose its effect. I struck the foreign creature with the sealing force again. From the beginning to the end, the foreign humanoid creature is unable to react.

Since I had fought against this type of creature before. I knew it had a weird black ability that could boost its power.

Weird Cry!

The black humanoid creature made a weird cry. This time the cry was different. It was calling out for help.

Seeing that I slapped its mouth with sealing force. Its mouth was sealed. The place has become quiet all of a sudden.

Boom!

Then I switched the blood force and started to hit the humanoid creature brutally. I'm using it as target practice to improve my "blood fist" technique.

As the time passed, the parts of the humanoid creature fell to the ground. Even its black oval core was visible.

I directly removed the black oval core and ended its life completely. The foreign humanoid creature's corpse, without life, fell to the ground.

I collected the black oval-shaped core into the storage ring. Then I walked out of the passage and was required to enter.

Instead of leaving directly, I began to focus on recovering my strength. One thing I found out was that the black humanoid creatures were acting on orders.

If they had a signal, they would have raided the camp already. I don't know whether it's a fortunate or unfortunate situation for Camp 424.

I guess other Silver Mark Warriors must have realised this point right now.
