

BloodLine 1261

Chapter 1261: Virtual avatar fight!

From MC's Perspective:

Virtual training lab,

Inside the lab, Ronnie was ready to fight. His virtual avatar appears on the screen. Right then, the virtual avatar of Issac appeared.

But the avatar's appearance is based on old data. So the avatar's appearance is a little younger.

The fight started the next second.

Issac's avatar began to attack using the fist. His fist covered the red blazing flames. On the other hand, Ronnie Seth attacked using the black lightning.

Boom!

In the first confrontation. Both of them retreated to a certain distance. Ronnie Seth's black lightning Inheritance was not at the level of the ancient inheritance.

Yet the black lightning was able to force Issac's avatar back.

Gasp!

Seeing that, the staff exclaimed in surprise. They didn't expect Ronnie Seth to gain upperhand first.

On the other hand, I was shocked inwardly. I didn't expect Ronnie Seth to bring out surprise. It seems his inheritance was not ordinary either.

But I had heard it was not at the level of ancient Inheritance.

Old man Daniel knows what's going on.

He said, "The top 3 warriors are old. They have practiced many years to achieve their current state compared to others."

"So it's normal for their old data to be weak. Whereas Ronnie Seth was strong from the beginning. We need new data to compare," He added.

Hearing that everyone was understood. No wonder the red flame of Issac doesn't seem to be threatening.

A hint of curiosity appeared in my eyes.

"What about Issac's data when we fought yesterday?" I asked.

Hearing that Daniel smiled and said, "We have data with us. Let's see whether he wins the duel or not."

I nodded to him before turning towards the big screen.

Time passed,

Like everyone had guessed. Ronnie Seth was able to defeat Issac's old avatar. After continuous black lightning attacks, the avatar's body disintegrates.

"Create a new one with yesterday's data," Daniel said.

The next second, the staff began working. Ronnie Seth didn't leave the pod chamber. He knew there was going to be a new avatar with new data.

He felt the old avatar of Issac was weak. He has defeated it easily.

From the appearance of the avatar, he too realised that these warriors were weak when they were young.

Only through repeated practice have they gained current strength. It didn't take long for the new avatar to appear with the middle aged appearing.

It matches exactly with yesterday's appearance.

Outside,

Everyone's gaze was fixed on the big screen. It's going to be the main duel now.

Boom!

Once again both of them began clashing with their element. The flame attack comes in contact with the black lightning.

The next second, Ronnie Seth's body was forced to retreat. But Issac's avatar is standing on the same spot.

Seeing that everyone was shocked once again. This was a total contrast to the previous match. This shows how seniors had worked hard to reach this level.

A hint of seriousness appeared in my eyes. It's a pity that they are wasting their time and energy against me. They should be using their strength against the foreign creatures.

Especially the black humanoid creatures which had overwhelming strength with weird black enemies. It took me the power of the three ancient inheritances to kill that thing.

If that foreign creature had appeared it would have easily wiped out these people. I couldn't help but think of those warrior camps.

I'm also wasting time with them which is also not good. Then we continued to watch the duel on the big screen.

Boom!

One after another flame attacks landed on Ronnie Seth. The red blazing flame explodes one after another on the spot.

Ronnie Seth is suffering injuries. Burnt marks appearing on his avatar body. Seeing that my expression condensed.

This happened to me. Now it's happening to Ronnie Seth's avatar. Issac's flame indeed has explosion type power.

Only something overbearing can do something about it. Like my purple lightning power.

The staff were doing their work to collect data now. They have collected data on previous matches. Now they are collecting data on the second duel.

Meanwhile,

The news started to spread that Zack Lockwood had come outside. The members have seen him. But they failed to take any pictures.

The news reached the ears of Main Elders. Main Elder Austin and Ann heard the news. They were stunned. They knew Zack Lockwood was injured and recovering from the injuries.

He texted them back some time ago. But they didn't expect him to move around after getting those injuries yesterday.

They and the other main elders were curious. Faction Leader Clifford was not here. He doesn't know what's going on here.

So he is getting updates from the main elders from time to time. After knowing that Zack has come out. He wanted to know what he was doing next.

He has asked the main elders. Austin raised his eyebrows. He then called Zack Lockwood directly.

When the call was connected. He asked Zack what he was doing right now. Then he came to know that he is watching the virtual duel between Ronnie Seth and Issac's avatar.

He then learned Zack Lockwood wanted to use the facility there. Issac's metal chain had caught him off guard. The lab has old data on the elemental warriors.

He plans to learn their figuring style. Austin was stunned. He hadn't thought of this before. No one takes lab facilities seriously. But when it comes to this type of situation. It's extremely useful.

He then told Zack Lockwood if he needed anything. Then he can call him back. Austin then reported to other main elders.

He knew they were curious as well. If not for respecting Zack Lockwood's privacy, they would have gone to his residence.

Inside the lab, Ronnie Seth's avatar collapsed under everyone's gaze.

Seeing that everyone was not surprised. On the other hand, I felt everyone's gaze on me. I had suffered injuries because of the same attack.

It was normal for Ronnie Seth's avatar to collapse this easily. His physique was not as strong as mine to begin with. His main reliance was the black lightning.

Chapter 1262: Fighting against Eric's avatar

From MC's Perspective:

"Damn it," Ronnie appeared outside and started to curse under his breath. He didn't expect to lose this badly. The pain he suffered felt real.

His gaze fell on Zack Lockwood. His eyes flashed with a complicated glint. He doesn't know how Zack Lockwood endured this pain and injury.

He thinks Zack Lockwood has yet to recover from his injuries. Yet he is standing here to improve his strength. His eyes flashed with admiration.

"You did good. Your black lightning is powerful. If your skill level reaches the level of old warriors, then no one can defeat you," I said to Ronnie Seth.

He is truly strong. It's just we have started now. If we reach the level of seniors, then no one can defeat us in the same level.

Ronnie Seth smiled. He knows Zack Lockwood is humble.

Old man Daneil said, "kid, you did well. Don't feel bad."

Hearing that Ronnie Seth smiled and started talking. Then he turned towards me and asked, "What are you going to do?"

"If possible I want to fight as well," I replied.

"Good, kid. You can enter the pod chamber next," Daniel said.

Hearing that I nodded before entering the pod chamber. Then I closed the top cover before wearing the helmet.

Shortly afterwards,

My consciousness connected to the virtual network. My avatar appears in the new field. Feeling the avatar body, my mouth curves into an arc.

After becoming the Black Mark Warriors, it's the first time for me to come here. The avatar body feels different.

The next second, a middle aged man appeared before me. Upon seeing the emblem. I knew he was from the Cutting Silver Faction. His element is Silver Element.

"Name: Eric"

"Faction : Cutting Silver "

Outside,

"His name is Eric. He is one of the top three from the Cutting Silver Faction. His Silver Element is sharp. It can cut through flesh like paper," Daniel said.

Hearing that Ronnie Seth was stunned. He started to understand that the top 3 warriors from the Elemental Factions were not pushovers.

They have ancient inheritance as well. Ronnie becomes determined to improve his strength.

The staff started working to collect the data. They knew Zack had come here for this purpose only. They hope Zack can continue to come here in future to use their facility.

In this way, more and more Black Mark Warriors could come to their facility.

Inside the virtual field,

Swoosh!

The opponent started charging towards me. My gaze fell on his fist. It was a simple brute fist. Seeing that I decided to use my fist as well.

In a flash, both of our hands come in contact.

Boom!

The next second, I felt the immense impact force. But I rooted on the same spot. On the other hand, the opponent retreated.

Seeing that I was not surprised. I started to think that it was old data as well. There is not much use in fighting against this old avatar.

But I can learn the opponent's fighting style.

Swoosh!

The opponent's avatar started charging towards me again. It didn't use the element power yet. Seeing the brute punch again. I smiled and started to face it.

Boom! Boom!

One after another I blocked all of the punches. But none of the punches pushed me backward. They were all easy to block.

At the same time, I'm interested in learning the effect of Silver Element.

A few minutes later,

The opponent's avatar started using the element. Seeing that my eyes flashes with a gleam. I have decided to face head on.

In a flash, we came in contact with each other. His punch was covered with a glowing silver element. Upon seeing it, I felt it was rather sharp.

None of these old warriors were simple.

Boom!

When his silver punch touches my right palm. I immediately felt the power of the silver element. The silver power is trying to harm my skin and flesh.

But my body strength is powerful. It can withstand the attack. Yet I could feel the power of the silver element.

If it were other warriors, their hands could have been injured right now. Seeing that nothing happened to me.

Eric's avatar started using the silver element again.

Outside,

"Eric seems to be stronger than Issac," Ronnie Seth gave a comment.

Hearing that everyone agreed. Because they have data with them. The power of Eric's silver element has more destructive power than Issac's flame element.

Even with the old data they can tell that Eric was stronger than his peers during his prime days. But he was a little older when he broke through.

So he was older than Isaac. Old man Daniel is watching with a smile. Because he is interested in collecting Zack Lockwood's data as well.

Since then, Zack Lockwood has shown interest again. He wanted the data to be useful for his future duels.

Inside the field,

Eric's avatar takes out a spear after using the fist. The spear has a sharp edge. Any small attack from the edge could easily injure the warrior.

Swoosh!

The avatar thrust the spear all of a sudden.

Seeing that I sidestepped to avoid the attack. Then the Avatar started attacking again.

Swoosh!

I avoided the sharp spear edge one after another. I'm starting to learn his fighting style and footwork. It's been some time since I saw someone use a spear.

Eric's avatar is getting impatient. It's good with footwork and timing. Yet somehow he fails to hit the target. The virtual avatar is fighting based on the old data.

So the fighting style and responses are based on the old data. The avatar continues to attack with a spear.

At one point, it decides to use weapon techniques. The spear is covered with the silver element in a flash.

On the other hand, my expression turned heavy. It's not as simple as defeating average warriors. These seniors are strong.

Especially the current opponent. He is not weaker than Issac. I'm starting to wonder how the new data would be. But I don't know whether the staff has any recent data on him.

If not then it would be troublesome. I made a good decision by coming here. I can gain experience by facing spear attacks here.

Chapter 1263: Gained new experience!

From MC's Perspective:

Inside the field, I'm trying to avoid the spear edge. But the opponent started using the footwork all of a sudden.

Combined with his movement technique, the spear attack becomes powerful. The silver element covered spear edge becomes more deadly and sharper.

It's getting hard to avoid the edge.

Pfff!

At one point, the spear edge manages to cut the skin. A few virtual blood drops splattered on the ground.

Upon seeing that my eyes flashed with a gleam. I came here to learn the fighting style. So I continue to face spear attacks.

Boom!

One after another, the spear attacks coming at me. I was able to evade few of the attacks. Yet one or two spear moves were managed to cut through the skin.

Pfff!

But I ignored the injuries and continued to face the spear attacks.

At one point. I went charging forward with the punch. The spear edge comes in contact with the punch.

Boom!

A deafening noise occurs. The shock force spreads across the field. Everything here was virtual.

When the aftermath was settled. I saw my fist was in contact with the spear edge. Blood is dripping from my fist.

The spear edge managed to tear apart my flesh. Now the bones were exposed. A virtual pain is assaulting my body.

Yet I managed to hold the spear from not moving forward. Eric's Avatar started attacking fiercely.

Seeing that I continued the attacks with the injured fist.

Outside,

Everyone was shocked. Right now, they have an important question in their mind. This question has been bothering everyone.

"Why is the kid not using his inheritance force?" Daniel asked.

His voice was not loud but everyone heard his words.

Ronnie Seth was here as well. He heard it but he didn't know the answer. He was sure that Zack Lockwood had accepted the ancient Inheritance.

He went to that same sky rift secret land. Yet for some reason Zack is not willing to show his power.

"If he doesn't use Inheritance force, then what's the point of collecting data," Daniel asked himself again.

But no one answered the question. Because they themselves don't know about it.

Daniel's expression darkened. He had thought about it earlier. Now he thinks it might be true. This Zack wants to fight the remaining duels with the brute force alone.

He doesn't know what to say. The other top 3 warriors are no weaker than Issac. For example, the avatar of Eric fighting against Zack. It's made of old data.

If they had new data, then it would be interesting to see the results.

Time passed,

The staff were working hard to record the data. Now, everyone knows that Zack Lockwood is going to use brute fist only.

They started recording the brute force power. As the time passed, they could confirm that the brute force is less powerful in comparison to the spear's destructive power.

Inside the field, the injuries on the avatar body started to appear more and more. At the same time, I'm getting used to the fighting style.

If I had used my inheritance force, then the duel would have been over in minutes. Yet I have forced myself to fight using the brute fist.

As the time passes, the silver spear manages to leave behind holes in my body. The avatar slowly started to collapse.

But I have managed to extend the duel for so long.

Click!

At one point, the avatar's body collapses on the ground and is shattered into pieces. My consciousness returned. Then I removed the helmet and opened the top cover to walk out.

When I appeared outside. I found everyone was looking at me weirdly.

"What?" I asked.

"Why are you not using the inheritance force?" Ronnie Seth asked.

This time he wants an answer. The suspense is killing him. Old man Daniel and the staff were curious as well.

Hearing that I understood their reaction. I would be showing the same reaction in their place. Then I collected my thoughts and looked at them.

I said, "Everyone, I have decided long before that I would be using brute strength to defeat these people. They are not worthy for me to use Inheritance."

"I'll use Inheritance force in the warrior camp," I added.

Gasp!

Hearing that everyone sucked cold breath of air. They didn't expect Zack Lockwood to be determined. Now they understood why he got so many injuries against Issac yesterday.

Ronnie Seth was stunned. He doesn't know what to say. Since Zack Lockwood was determined. No words can persuade him.

Old man Daniel sighed inwardly. He understood this as well.

On the other hand, I decided to leave. I have gained something in this duel. I'm going to train privately to increase my combat strength.

Then I told them about my decision. None of them stepped on me. I left the lab and headed back to the faction.

Ronnie Seth decided to leave as well. From his two battles he got some gains as well. He wanted to increase his combat power by using the black lightning.

When Ronnie Seth left. Old man Daniel turned towards the staff.

"You heard that kid Zack wants to use his body strength. Compile all of his opponents' old data. Maybe this would help him," Daniel said.

Hearing that the staff have started working.

Meanwhile,

I started going back. But Ronnie Seth came all of a sudden.

"Zack, wait?"

I heard his voice. Next, I turned around and looked at him.

I asked, "What?"

"When are you going to fight next?" Ronnie Seth asked.

A strange glint flashes in my eyes. Why is he asking though?

Then I replied, "I'm going to increase my combat strength first. Then I'll decide on a day. Don't tell anyone about this."

Hearing that Ronnie Seth smiled helplessly. He was just being curious.

"I don't know what is on your mind?"

"But the top 3 warriors of other factions were not weak. Even the stronger warriors in our Factions are discussing their strength."

"If possible I'll collect their details," Ronnie Seth said.

Hearing that, I was surprised. Then I thanked him.

Chapter 1264: Crowd at the training facility

From MC's Perspective:

After parting ways with Ronnie Seth, I returned to the Thunderflame Faction. But upon returning I went to the training facility instead of my residence.

My appearance attracted attention. I can't hide anymore. Because there are more warriors coming and going from the training facility.

Here most of the faction members spend their day here training. Upon seeing me they couldn't hide their shock and surprise.

"Hey, he is Zack Lockwood!"

"Can he walk again?"

"Wasn't he severely injured and bed ridden?"

"Huh, this is old news. He is completely fine and didn't have to visit the clinic."

The warriors discussed among themselves. None of them had courage to confront Zack Lockwood and to ask these questions.

"So we were being fooled?"

"He could have won a duel against the Blazing Fire Faction Warrior Issac."

"But he didn't use his inheritance power!"

"What a let down? Don't know why the main elders are supporting him?"

The Faction members were furious. They still didn't forget about Zack Lockwood's defeat against Issac.

On the other hand, I ignored the blazing gazes of everyone. I knew they were angry. I have ruined the reputation of the Thunderflame Faction.

But I'm not stupid. Once the inheritance is exposed, I could face more threats. Only this kind of negative news would deter the enemies.

Then I reached the training room and went inside. I locked the door and set my gaze on the Humanoid Puppet.

I walked to the console and activated the Black Mark Rank Puppet which could withstand my attacks.

Boom!

The platform cover opens the next moment. The current humanoid puppet goes down. Instead, a Black Mark level Puppet appears above the platform.

The metallic puppet is strong and powerful. It's made of special materials including earth metal and others.

The humanoid puppet cannot perform actions. As I set the setting for the target practice. I brought the new long black sword outside from the storage ring.

This one sword I got from Master Austin sometime ago. I have been wanting to use it after the duel.

I started practicing from the "Sword Divide" move.

Clap!

I charged the black sword with the purple lightning. I shot the purple lightning beam at the humanoid puppet the next second.

In a flash, the shot reached the target and struck it.

Boom!

A deafening sound occurs the next moment.

The shock force spreads across the platform and hits the walls. My gaze fixed on the humanoid puppet.

When the aftermath was settled. The condition of the Humanoid Puppet becomes clear. The puppet's chest was caved in.

If it were a Black Mark Warrior to receive the attack, his chest bones would have been crushed. He would have died from the single attack.

Seeing that my eyes filled with satisfaction. Unfortunately, I can't use this attack against the warriors outside.

It was a simple sword beam release without the use of the shock force. The next second, I controlled the gold and silver mixed force in the dantian.

Then I mixed it with the dark purple force and began to charge the black sword with it.

Clap!

The same long black sword which looked destructive earlier. Now it looks more threatening as if the powerful energy wants to break out.

Once it breaks out it could shatter everything.

Boom!

The next second, I released the sword beam from the same puppet. The dark purple beam with a mix of gold and silver force went across in a straight line.

Boom!

In a shot, it lands on the target. A terrific explosion occurs the next second.

Yes! Explosion. My eyes widened in surprise as I saw the Humanoid Puppet's body parts scattered across the room.

The power of the Attack was so strong that I could feel the vibration under my feet for a few seconds.

Gasp!

I sucked a cold breath of air. If this attack were to land on Issac, he would have died on the spot. Then the Blazing Fire Faction would have gone crazy on the spot.

Then I shook my head before calming down my heart. The real thrill comes from shredding the foreign creature. But not fighting against the human warriors.

I recovered my thoughts and continued with the practice.

—

Outside,

The crowd was huge. They were standing in front of Zack Lockwood's room. Earlier, no one had the courage to confront him and to ask him why he had lost the duel.

Among the warriors, the old seniors were angry the most. Because they are in the same generation as Issac, Bella and others.

Even if they had fought against him, they wouldn't have lost miserably as Zack Lockwood. So these serious questions have genuine questions to ask.

More importantly, they are not average warriors. They have ancient Inheritance of the ancient warriors. They are part of the Thunderflame Faction as well.

Looking at the seniors in this place. The other warriors retreated backwards. Not only the seniors from the Black Flame Palace, Ice and Fire Place are here.

The Seniors from other medium and small palaces are here as well. Their elders didn't say anything to stop them.

Everyone had come here upon learning Zack Lockwood was here. They have many serious questions on their minds.

Why Zack Lockwood didn't use his integrity? Does he even have one? Or is he deliberately damaging the reputation of the Thunderflame Faction.

Meanwhile,

The news of warriors crowding in the training facility reaches the ears of respective palace elders. Even the Main Elders heard the news.

They couldn't help but to touch their forehead with a headache. They knew this might happen if Zack Lockwood came outside.

Instead of staying in his room and recovering from the injuries. Zack Lockwood had come outside for training.

They don't know whether to appreciate Zack Lockwood for his efforts or to respect the feelings of other faction members.

The other faction members are feeling down. They don't have any idea why Zack Lockwood is doing this.

But the Main Elders knew that Zack Lockwood wanted to hide his inheritance. But they didn't know how long it could last.

Chapter 1265: Tense situation!

From MC's Perspective:

Inside the training room, I'm practising all of my techniques. Including the new staff technique. My skill level in other techniques are good.

Only the staff technique was at the beginner stage. But I believe if I maintain the training schedule for a couple of days, I could improve my skills.

Time passed,

When it was night time. I stepped outside. The next second, the scene outside stunned me. A large number of warriors were standing in front of the training room.

A hint of seriousness appeared in my eyes. I didn't expect them to surround this place. Then I tried to walk through the crowd.

But the warriors have blocked the place.

"Zack Lockwood, where are you going?"

"You can't run away from here without giving answers?"

"Why didn't you use your inheritance force?"

“You have ruined the name of Thunderflame Faction.”

The warriors have started slandering. Now they have an opportunity to lash out. Especially the Senior Black Mark Warriors.

Hearing that my eyes flashes with anger. I don't have any reason to answer them. I continued to walk forward.

Seeing that the Senior Black Mark Warriors were enraged. A middle aged man decided to attack. He lost his composure.

“You won't listen without getting a hit,” After saying that he punched forward.

Seeing my eyes flashes with a glint.

Boom!

I easily blocked his punch before forcing him to move aside. The middle aged man staggered before falling down to the ground.

Seeing that other senior warriors were enraged.

Swoosh!

The next second, the warriors tried to gang up on me. As many of their warriors' fists came towards me. I felt infuriated.

I don't know what to do. Their punches landed on me one after another. But none of them were able to harm.

Boom! Boom!

On the other hand, the faces of warriors have changed. None of them were punches that caused anything. Not even a blood is shedding from Zack Lockwood's body.

While others felt their hands were hurt. If they continue to hit with their fist. They will suffer more.

At the same time, I felt an immense urge to beat the sh!t out of them. But I controlled myself. Then I forcefully walked through the crowd.

When I appeared outside. I started heading back towards the residence. The senior Warriors were all stunned. They couldn't do anything to Zack Lockwood.

They can only leave the place with bitter smiles on their faces. At the same time the main elders learned what happened here.

They were shocked. After knowing that Zack Lockwood has left without hurting anyone. They sighed in relief. The main elders realized that they needed to warn their palace members first.

So they immediately convened a meeting. Even Main Elder Austin was disappointed with the behavior of the Golden Lightning Palace members.

They knew the truth about Zack Lockwood. But the warriors didn't know about it. Austin called for the meeting as well but he didn't inform Zack Lockwood.

Meanwhile,

The other factions are paying attention to the news of Zack Lockwood. They somehow learned that Zack Lockwood was fine.

He is doing training inside the training facility. After knowing that they thought of the next duel. They don't know whether Zack Lockwood was completely healed or not.

They don't want to give any chances to Zack Lockwood. They wanted the duel to happen right away. But they can't forcibly do anything.

For that Dean Jerome had to accept their request. But Dean Jerome was not thinking about the next duel date. He is taking time.

As long as Zack Lockwood doesn't say anything about the next duel. Dean Jerome has decided not to say anything. He respects Zack Lockwood's decision of not using the inheritance force.

It didn't take long for other Factions to learn about the current issue. Especially, about Zack Lockwood's clash against the fellow faction members. It has surprised everyone.

They didn't expect other Thunderflame Faction members to be this furious. Everyone understood that they were dissatisfied with Zack Lockwood's actions as well.

Inside the Thunderflame Faction, the meeting took place. The Main Elders have warned their palace members inside the faction to offend Zack Lockwood.

Even the other Purple Mark Elders warned other Medium and Small Faction members. They don't know why the Elders are reacting this way.

But they soon understood that the elders knew something. It's just they don't know about it. Soon, the news about the meeting was also leaked outside.

It didn't take long for other faction members to learn about it. They were stunned. Especially the main elders of other Factions.

They knew something was wrong with Zack Lockwood. He is not using his inheritance powers in the duel for some reason. Now they think their main elders knew something about it.

There is a possibility that Dean Jerome must know about it. It's just that other factions in the University are clueless.

—

Dean Office:

Jerome is paying attention to the warrior camp. Especially the newly formed Silver level camp. The fight against the humanoid foreign creature was intensified.

At the same time, he is paying attention to the campus as well. After learning that Zack Lockwood started training. His mouth curves into an arc.

He thinks that kid still wants to use brute force to win the duel. But he knows that won't be easy. Especially against the bloodline warriors.

Compared to the elemental warriors. He thinks the bloodline warriors are stronger this time. It would be difficult for Zack Lockwood to win the duel.

He wants Zack Lockwood to win the duel. So that kid can focus on fighting in the warrior camps. But he thinks the other factions won't be silent if there is a huge delay in the competition.

He then takes something out from the storage ring. It's a silver box. He opened the box. There is a red pill inside the box.

It's not an ordinary red pill. It's the top grade body strengthening pill for the Silver Mark Warriors.

He thinks Zack Lockwood can consume it without any problem. This will add more weight to the kid's brute force.

Chapter 1266: Consuming the red pill!

From MC's Perspective:

Night time,

After meeting with Master Austin, I came back to the residence. I entered the residence. Once I reached the hall. I took the small box out of the storage ring.

This box was given to me by the Master. But it was the Dean who wanted to give it to me. Currently, the Faction Leader was not present in the campus.

I don't know what it was about. But I suspect that it was related to me. Then I recovered my thoughts and looked at the box. I removed the box. Then I saw the red pill inside.

Seeing that my eyes gleamed with a twinkle. According to the master, it's one of the body strengthening pills. It's normally consumed by the Silver Mark Warriors.

But the Dean knows about my physique strength. So he is hoping that he will consume the pill to increase his body strength.

A quick gleam flashes in my eyes. I suspect that Dean might have predicted my intention was not using the inheritance force in the duel.

He must have guessed that I'm ready to lose the duel. That's why he has given this red pill. So that I can send my body.

Then I put the storage box back in the storage ring. I went to bed to sleep.

The following day,

I woke up and started doing the morning routine. The routine lasts for an hour. Then I began to get ready for today's practice.

2 hours later,

I left the residence and headed towards the Golden Lightning Palace. It didn't take long for me to reach the place.

Once I entered. My gaze fell on the members. They were having mixed reactions. They don't know what to say.

Yesterday, some of their seniors laid their hands on Zack Lockwood. They were all forced to retreat. None of them were able to do anything to Zack Lockwood.

Now looking at Zack Lockwood. They don't have any courage. They averted their gazes. I looked at them before going towards the essence chamber.

I reached the training area and walked past it. Soon, I reached the essence chamber. I walked inside the building and started looking for the available essence chamber.

The nearest essence chamber was available. I opened the essence chamber door and walked inside. The door behind shut automatically.

Meanwhile,

Austin has already felt the presence of Zack Lockwood here. He thinks that Zack Lockwood might have tried to consume the red pill.

He sighed inwardly. He thinks Zack Lockwood 's strength would increase considerably after consuming the red pill.

Essence chamber:

Inside the essence chamber, I took a red pill out and ate it. When the warm energy goes down my throat. I started running the Shock Force Integration Method.

The golden and silver force from world energy inside the chamber started entering the body. As this energy goes through the veins, I have started running along with the red pill energy.

The two of the energy combined have coursing through my body. I could feel the cells are getting strengthened.

As the time passed, I could feel the flesh, muscles, tendons and veins were getting stronger. Not long after the energy started affecting the inner organs and bones.

My dark red bones were stronger to begin with. I don't know how much impact this new pill energy would have.

Slowly the pill enters the skeleton.

Buzz!

The next second, I got the reaction from the bones all over my body. The hidden runes began to absorb the pill energy.

It didn't take long to feel the difference. The runes seem to have held some hidden force. At the same time, the bones seemed to have become stronger.

The red strengthening pill is something consumed by the Silver Mark Warriors. But it has brought wonderful changes.

The shock force integration has already integrated the lightning, blood and healing method. I could practise them individually and whole as well.

Which leaves the Bloodline method and Sealing Force Method.

Then I recovered my thoughts and continued with the practice. After some time, I switched to the bloodline element method.

As the time passed, I fell into visualization. The boiling water force from the surroundings entered the body. I could feel the extremely hot energy running in my body.

After circulation, the boiling water force enters the dantian and settles down beside the shock force integration.

A few hours later, I switched to the Golden Sealing Force and started practicing it.

Meanwhile,

The warriors were all waiting to hear news about Zack Lockwood. Yesterday, they did something. But after the main elders and elders warning. They don't have guts to go against Zack Lockwood.

Time passed,

In the evening, I walked out. After leaving the Golden Lightning Palace, I went to the joint training facility.

When I arrived at the spot. I came across other warriors. Who are all surprised upon seeing me?

Unlike yesterday, none of them came to block me. Then I shifted my gaze towards the training room. I walked up to the training room and entered inside.

Creak!

After entering inside, I locked the door. Then I turned towards the console and selected the humanoid puppet at the level of Black Mark Warrior to appear.

Buzz!

The platform opens up. The next second, a 6ft tall metallic puppet appeared. The humanoid metallic puppet is standing static.

Seeing that I rushed towards the attack. I raised my fist punching forward. As I twisted my fist, I could feel the immense force underneath it.

Boom!

My fist lands at the chest of a humanoid puppet. The next second, the metallic chest caved in. The brute force shook the metallic puppet.

Right then, a piece of metal fell from the humanoid puppet's chest. The metallic chest was completely broken leaving behind the hole to appear.

Seeing that my eyes flashed with satisfaction. The brute force behind the attack was stronger. I can't wait to test it against the foreign creatures.

Then I went to the console and selected the Silver Mark level humanoid puppet to appear.

Chapter 1267: Thunderous Cave Valley!

From MC's Perspective:

Inside the training room, the next humanoid puppet appears above the platform. Seeing that I rushed forward to use the brute force.

Boom!

My brute fist struck the puppet. The next second, an explosion occurs. The humanoid puppet is shaking the next moment.

The metallic chest exploded. The metal scraps scattered across the ground. Seeing that I continued to strike the metallic puppet with the brute force.

—

Meanwhile,

The whole Star University was calm and composed. Everyone is focusing on their training. The top 3 warriors understood that decision making rested with Zack Lockwood.

Everyone had seen him getting injured in the duel arena. They don't know whether he is completely healed or not.

Though he was able to walk. The other factions don't know the complete truth. The Faction Leaders had tried contacting Dean Jerome.

Dean Jerome told them that he would say when the time comes. So having no choice the faction leaders had asked their warriors to focus on training.

Compared to the Blazing Fire Faction Warriors. The Other Elemental Warriors were strong. Especially the bloodline warriors.

They are at the extreme peak stage of the Black Mark level. They were one step away from the Silver Mark Level.

They had even defeated a couple of average Silver Mark Warriors.

—

Human Bloodline Faction:

Right now, they are fighting against the above average Black Mark Warriors inside the Human Bloodline Faction.

The Faction Leader Francesa Ball is watching over their duel in the fighting platform. The layout of the buildings here is different from the Thunderflame Faction.

The Faction Leader can directly watch over the training facility. Francesa's gaze fell on the red haired middle aged man.

Boom!

His fists attacks are landing on the opponent like a barrage. The opponent had no way to defend. If one looks closely, they could see the difference.

The person who was getting attacked has the silver color aura around him. But the Red haired middle aged man had a Black color aura around him.

It shows that one is Black Mark Warrior and the other one is a Silver Mark Warrior.

Boom!

The final punch broke through the defense of the Silver Mark Warrior. His body flew backwards like a broken kite.

The Silver Mark Warrior fell down to the ground.

Cheers!

The warriors standing around the fighting platform broke out in huge cheers. They didn't expect the Red Haired Warrior to win.

He is the oldest of the Black Mark Warriors. His name is Julian. After defeating the Silver Mark Warrior, he showed a wide grin on his face.

“Ha...Ha...Ha...,” he let out a joyful laugh.

“I don’t think Zack Lockwood can win. I have defeated the Silver Make Warrior,” Julian said with a laugh.

Outside the fighting platform, the remaining two warriors were standing. They exchanged looks with each other.

Both of them were female warriors. They have the record of defeating the Silver Mark Warriors. But they have never defeated above average Silver Mark Warriors.

Since they rely on bloodline power. The more the purity of the bloodline the stronger their attacks would be. That’s why they were able to do it.

Now hearing the laughter and statement from Julian. They were not surprised. Julian is stronger than them.

His bloodline is related to the Human Ancestor known for being violent. So his attacks contain killing power coming from his bloodline.

While everyone was talking and laughing. There is one person who was not happy. The person was none other than Francesa Ball.

Francesa squinted. She knows about Julian’s bloodline. His Human Ancestor is known for killing. Not any ordinary killing. It was brutal killing and murder.

The attacks and injuries Zack had faced from Issac was nothing in front of Julian. Each of his attacks contains mad fury.

If Zack Lockwood uses either one of his inheritance then he can easily defeat him.

But if he relies on the simple brute force. Then it won’t be easy for him to defeat Julian.

She hopes that Zack Lockwood would use his inheritance force. The Dean had already given permission for him to use Inheritance power.

The bloodline power disguised as an Ancient Inheritance. In this way, Zack Lockwood can hide his original Ancient Inheritance.

—

Meanwhile,

Faction Leader Clifford right now is present in the mysterious place. Inside the thunderous cave valley. He is exploring the ruins of a once destroyed force.

The force was called Thunder One Academy. The Force's Red Mark Warrior was killed during the battle against the Powerful Foreign Creatures.

The Academy's warriors died one by one on the battlefield. It was the time when everyday they had to fight against the foreign creatures.

At that time, they didn't have time to make shifts. It was one of brutal periods. It was recorded that Thunder One Academy's Inheritance was hidden by the late leader.

It's just the inheritance method of the late leader was not an Ancient Inheritance. The highest one could reach was the Red Mark Level.

Because of it, the top forces ignored it. Even some of the forces tried to get their hands on it including some Bloodline clan and Warrior families.

Eventually they failed because of the deadly traps and thunderous environment here. The thunder power here can kill Silver Mark Warriors.

This thunderous means deters other forces as well. But he got a clue from one of his connections. So he has come here to try his luck.

As a half-step Red Mark Warrior, the Thunder One Inheritance was no use to him. But it's useful for Zack.

He thinks Zack can hide his Ancient Inheritance while practising this one outside. Yet it doesn't mean that kid was safe from all the threats.

Everyone had seen that kid emerge from the Sky Rift Secret Land. Almost everyone knew that Zack Lockwood had accepted the Ancient Inheritance.

This Thunder One Inheritance is going to help them keep Zack Lockwood inside the Thunderflame Faction.

More than Zack Lockwood. He needs this Inheritance most. Unfortunately, apart from some inheritances and bloodlines.

The inheritance powers were not easy to pass down generally. The Black Mark Warriors had to find suitable Inheritance for themselves in normal cases.

Chapter 1268: Part 1: Thunder One Inheritance

Thunderous Cave Valley,

Faction Leader Clifford reached the ruins and started exploring the place. By following the clues he got from the connections. The Old man reached the place where Thunder One Inheritance suspected to be located.

When he got there. He saw the extremely old well. The old well was covered with vegetation and weeds. But the old man could feel the powerful aura from it.

Swoosh!

In a flash, he appeared above the old well. The old man's gaze locked into the well. He once again feels a powerful aura hidden in the old well.

A serious gleam flashes in the old man's eyes. Though he was half step Red Mark Warrior. He won't underestimate the late leader of the Thunder One Academy.

With the power of atmospheric thunder. The late leader had caused havoc in the battlefield. Countless foreign creatures perished because of it on the battlefield.

When the late leader fell. His academy warriors were targeted one by one by the foreign creatures. He thinks once the inheritance appears in the battlefield.

The foreign creatures might target Zack Lockwood again.

After giving some thought, he went inside the old well. The old well goes deeper into the underground. In a flash, he reached the bottom and landed on the ground.

Tud!

The old man's eyes flashed with a surprise. He had thought it was water well. But the old well was opening to the underground cave.

He thinks he has reached the right place. Then he walked into the cave and came across the black stone tablet in the end.

The black stone tablet was covered in purple lightning. Upon seeing that his eyes flashed with relief. Because this purple lightning is matched with Zack Lockwood's purple lightning.

Hereafter, no one would suspect Zack Lockwood unless the kid deliberately exposed himself. He walks upto black stone table and tries to place his palm on it.

Boom!

The purple lightning struck his body out of nowhere. The old man was caught off guard. His body flew backwards like a broken kite.

A hint of disbelief flashes in his eyes. His body smashes into the wall. He was half step Red Mark Warrior. He couldn't believe himself.

He had thought that purple lightning power would have reduced because of the passage of time. Yet the purple lightning power had struck his body.

He was shocked to the core. He was sure that this Inheritance was the Red Mark level Inheritance. He then gets up and stored the stone tablet inside the storage ring.

This time he protected himself from the purple lightning.

From MC's Perspective:

Time passed,

Once again, I exited the training room in the evening. I saw there were no other warriors standing outside. Everyone was minding their own business.

It brings me a sigh of relief. Then I collected my thoughts before walking towards the residence. Soon, I reached my room. After entering inside, I shut the door and went to take a bath.

About 20 minutes,

I changed into comfort clothes and went to the bedroom. Lying in the bed, I took the digital device out and started browsing online information.

I'm looking into the Black Mark Level practise. To breakthrough to become Silver Mark Warrior. Then their inheritance force inside the dantian needs to reach the limit.

Once a barrier breaks, the dantian size expands. Which would eventually bring changes to the body as well. Right now, he was far from such level.

But he is interested in looking into the shortcuts. For example the rare treasure which would increase the overall strength of the Black Mark Warriors including the inheritance force.

Apart from the competition, I have to focus on increasing my strength as well. As I began to go through the information, I'm beginning to get a new understanding.

The breakthrough process for everyone is different. Someone with the flame elemental Inheritance can consume related resources to increase their strength.

For other Variant type Inheritances, their understanding of the inheritance method needs to be improved. The stronger their understanding, the stronger their body will become.

Three of his Ancient Inheritances are different. He can only follow the second method to improve his strength.

Not only the incomplete Ancient Healing Technique relies on the understanding as well. Now he knows what to do. He then browsed information for an hour before sleeping.

The following day,

Faction Leader Clifford returns to Star University. The first thing he did was to enter the Thunderflame Faction.

He didn't even think about reporting to the Dean. He doesn't want unknown changes to occur at the last moment.

So he is planning on directly letting Zack Lockwood to accept the inheritance. After coming to the Thunderflame Faction, he directly went to Zack Lockwood's residence.

He didn't even alert other elders. After appearing above Zack Lockwood's residence, he called that kid.

Buzz!

The sudden buzzing sound woke me up from sleep. I took the device and saw the person who was calling me. He was none other than the Faction Leader Clifford.

I was shocked. But I calmed my heart and attended the call. Then I heard the Faction leader's office. He is waiting for me outside.

The next second, I got out of the bed and changed into the uniform quickly.

A few minutes later,

I walked out of the residence. The next second, I found someone grabbing my shoulder. Then I found myself moving in the mid air.

I raised my head and saw the person was none other than Faction Leader Clifford. He is taking me somewhere.

Faction Leader Clifford is indeed taking Zack Lockwood towards the secret land under Thunderflame Faction control.

In a flash, he used his secret key and opened the restrictions for that place. He brought Zack Lockwood inside the space.

The next second, they are standing in front of the huge door. The door was unlocked. It's open. One could see its dark space behind the door.

A hint of surprise flashes in my eyes. I don't know why the Faction Leader brought me here. He won't do anything without reason.

Chapter 1269: Part 2: Thunder One Inheritance

From MC's Perspective:

I'm curious about the Faction Leader's purpose. The door in front of us could be the entrance to the secret land.

Faction Leader Clifford's eyes turned solemn. He can't take out the stone tablet here. It could attract the eyes of the Dean and others.

What more? He can't enter the secret land. The secret land won't tolerate the power of half step Red Mark Warrior.

He can only give his ring to Zack. Fortunately, before coming here. He had emptied the resources. Once Zack Lockwood accepts the inheritance, then he can get back his ring.

"I'm giving this black ring to you. Inside the ring, there is a stone tablet. It's the Red Mark Level Inheritance of Purple lightning Element. It's Called Thunder One."

"It belongs to the old Thunder One Academy. Now that Academy was no more. I have found this inheritance to help you just as I had promised."

"Hereafter, you can freely use your purple lightning in the duels. No one will question anything. Even if the things about your Ancient Water Variant Inheritance gets exposed. It won't attract huge commotion," Clifford said with a smile.

On the other hand, my heart was stirred. I never expected Faction Leader Clifford to do this. I'm already loaded with the inheritances. Should I tell him the truth?

But he had found the inheritance for me. Though it's a Red Mark Level Inheritance. It's fine for me. I can use the inheritance to cover up my original Ancient Inheritances.

I can use this Thunder One and incomplete healing technique outside to fool others. No one would suspect my abnormal combat strength.

I have purple lightning seeds with me. I was worried that I had wasted it. But now I'm feeling happy. The Thunder One Inheritance could help the seed to sprout.

Sigh!

I heaved a sigh of relief. I collected my thoughts before properly thanking the Faction Leader. Not only he had saved me from the current mess.

But he had indirectly helped to cover up the ancient Inheritances.

Then I accepted the black ring from him.

Clifford then opened the door to the secret land by using the secret key.

Boom!

The door opened with a loud sound.

"You can go now," Clifford said with a smile.

Hearing that I nodded to him before walking into the black space. The next second, I disappeared from the spot. I find myself descending on the ground.

Clifford revealed a relieved smile on his face. Now he can tackle all the problems.

Meanwhile,

Dean Jerome noted the fluctuations and opening of the secret land. When he noticed the secret land. He was surprised. The secret land under the Thunderflame Faction was opened.

He knew no such activities were ordered. If there is something he would know. He became curious.

Swoosh!

The next second, he disappeared from the spot and went there. In a shot, he appears inside the restrictions without any damages.

He then sees old man Clifford standing in front of the closed black door. When he appeared there. The old man Clifford's face changes.

"Dean?" He uttered.

"What's going on?" Jerome asked in a serious tone.

Clifford knew it was impossible to hide. Especially from the Dean. He would know sooner or later. So he decided to tell him right now.

Then he began to brief him.

Inside the secret land, I find myself standing in the barren area. The Faction Leader didn't tell him about the secret land.

But from the surroundings and the atmosphere. I think it's related to the dark blood incident. It could be the secret land where I was drenched in dark blood to strengthen my body.

Then I collected my thoughts. I started observing the place. I decided to find a safe place to accept the inheritance.

The Faction Leader didn't inform me about the dangers here. But I think it's better to be careful.

Outside,

The Main Elders Austin and others arrived one after another. They too felt the opening of the secret land.

But when they got there. They were shocked to see Dean Jerome here. Next, all of them greeted him.

But Dean Jerome didn't respond. Because he is digesting the information said by the Faction Leader Clifford.

Only he and Francesa knew that kid got two Ancient Inheritance. One was related to the combat strengthening type and the other one was bloodline.

The Ancient Inheritance of Water Variant was made up by him to cover up Zack Lockwood's secrets. But he didn't expect the Faction Leader Clifford to find Inheritance for Zack Lockwood.

Though it was not Ancient Inheritance. It's still a rare purple lightning Inheritance which could be passed on to the warriors. There are no restrictions.

He had seen the Late Head of the Thunder One Academy. Those days were his young days. The Head had a big reputation at that time.

When he fell. His warriors were targeted one by one. Mostly by the foreign creatures and other by his enemies here.

But the elders of the academy hid his inheritance in a secret place. Later no one was able to find it.

Since it's the inheritance of the Red Mark level. It didn't attract the covet eyes of the big forces. Since they have many Red Mark level Inheritance.

What everyone wanted was Ancient Inheritance? Ancient Inheritance could determine victory or defeat in the battle.

Main Elder Austin and others are curious. They were surprised to see Faction Leader Clifford here. He didn't inform them before coming here.

Clifford was looking at Dean Jerome for approval. These things can't be hidden anymore.

"You can tell them," Jerome said.

Sigh!

Hearing that Clifford let out a relieved sigh.

He then smiled and said, "I got Red Mark Level Thunder One Inheritance for Zack. Right now, he entered the secret land to accept it."

Gasp!

The Main Elders exclaimed in a surprise.

The Main Elder Austin was especially in disbelief. He was looking for the purple lightning Inheritance everywhere.

But he was able to know about other lightning types but not the purple ones. He was wondering whether he would succeed or not.

Yet he didn't expect Faction Leader Clifford to find one first.

Chapter 1270: Part 3: Thunder One Inheritance

From MC's Perspective:

Secret Land,

After searching everywhere, I came across a ruin. The ruin reminds of the previous incidents.

But right now, this is the place I can use it for accepting inheritance. Before that I activated my perception ability to investigate the place.

If these ruins are found to be the place without any traps, then I can use the place for inheritance acceptance. As I walked into the shambled ruin.

I noticed there are intact halls supporting four pillars. They are not in any danger. Seeing that I immediately walked into the place.

I appeared in the middle of the hall and sat crosslegged on the ground. A hint of seriousness appeared in my eyes.

I'm grateful to everyone. From the outpost Saw Scale Viper Academy to the Inner Post Master Lowell McClain. Everyone has helped me in this journey.

In the Tier-4 region, I'm getting the same help again. Thunderflame Faction and Star University are helping me. I should repay them in future.

Then I took out the stone tablet from the storage ring by the Faction Leader Clifford. Upon looking at the stone tablet with Ancient characters.

I felt a sense of crisis. Since it's the inheritance tablet of purple lightning element. I have come up with a method. Then I used my purple lightning element on it.

When my palm filled with the purple lightning touched it.

Boom!

The stone table shone with bright purple light. The next second, a purple bolt shot from the tablet and entered my head.

A mysterious character appeared in my consciousness forming a complete Red Mark Level Method.

When the complete method appeared in the consciousness. The stone tablet lost its color. With the appearance of the method. An additional information appeared in my mind.

If I became the Red Mark Warrior in the future, I can use the same stone table to pass down the inheritance to the next generation of warriors.

My eyes flickered with an understanding. Now I understood how the Thunder One Academy had selected their Head of the academy for each generation.

For the transfer of the method. The stone tablet was extremely important. I don't know who made this tablet.

But I think the stone tablet won't withstand the power above the Red Mark Level. Then I collected the stone tablet into my own storage ring.

Then I shifted my gaze towards a new rune in my mind. The new thunder rune belongs to the Thunder One Method.

There is a Star Shaped Rune formed by the Shock Force Integration Method. Then there is a blood rune belonging to the Bloodline Method.

Finally, there is a Golden Rune belonging to the Guardian God's Sealing Method. The Incomplete Ancient Healing Technique was integrated into the Shock Force Integration.

After checking out the inheritance method, I began to comprehend the new Thunder One Method.

Outside,

Everyone was under shock. Their Faction Leader was able to do something impossible. There are many warriors who died before getting hands on one Inheritance.

But here Zack Lockwood got more than one method. Which makes him more formidable. Everyone knows Zack Lockwood had purple lightning seed with him.

The new purple lightning Inheritance would definitely make him reborn.

On the other hand, the Dean of the Star University is feeling complicated emotions. He knows Zack Lockwood has got not two but three inheritances.

Perhaps, if he had told them the truth, these Inheritances would have reached someone else with the purple lightning Element.

Anyway, things have happened. There is no turning back. The Thunder One Inheritance was better cover for Zack than his made up Inheritance words.

Hereafter, the Dew Water Faction Leader Monica won't cause any problems.

He then collected his thoughts and said, "Since he has Inheritance now. He can use it in the duel without any worry."

"The Red Mark Level Inheritance would attract attention. But it's fine compared to Ancient Inheritance," Jerome said to them.

"Don't worry, dean. I'll ask him about the next duel date. It will take time for him to adapt to the new method. So I can't force him," Clifford said.

"It's okay. He can take a week. But I want him standing in the duel arena the next day," After saying that Jerome left the place.

Because he was confident that Zack Lockwood would win the duel if he used Inheritance power.

Now he can tell that Zack Lockwood would definitely use the new Thunder One Inheritance power.

Otherwise, he would anger that old man Clifford to death.

Elder Austin's expression turned serious. He walks up to the Faction Leader Clifford.

He said, "Thank you for helping my disciple."

Hearing that Main Elder Ann stepped forward and thanked him as well.

A black line appeared on Clifford's forehead.

Then he smiled and said, "Zack Lockwood is a member of the Thunderflame Faction. I don't want him to be snatched by the Dew Water Faction."

"Now we can all be at ease," he added.

Hearing that everyone sighed in relief. This matter has been bothering them. Now it was solved by the Faction Leader Clifford. They can focus on other matters.

Even if Zack Lockwood was sent to warrior camp, they are not going to get worried anymore. Zack Lockwood's purple lightning element was stronger to begin with.

With the help of Thunder One Inheritance, it's going to be terrifying.

"Leader, I had read the history that the late Thunder One Academy Head had a fierce reputation. What if Zack Lockwood was targeted by others," Ann asked.

Clifford's expression turned serious, he replied, "It can't be helped. It was already exposed that the kid had accepted the ancient Inheritance. "

"The foreign creatures would target anyone with Ancient Inheritance. So the kid has to walk his own path. We can only provide assistance. It's impossible to save him from all the threats."

"Once he reaches the Purple Mark level. He can protect himself like other warriors. Until then we have to keep a close eye on him,"he added.

Time passed,

Zack Lockwood yet to come outside. But none of them planned to leave. Only after meeting Zack Lockwood, they would feel assured.
