BloodLine 1281

Chapter 1281: Part 1: Aftermath (Julian's end)

From MC's Perspective:

Fighting Platform,

The barrier disappeared. The team for the infirmary came and took away the body of Julian Klein. The next second, the loud cheers from the audience sounded.

But I don't know what the storms ahead will be. So I turned around and left the place. Not long after leaving the duel arena. I came to the Thunderflame Faction and returned to the residence.

I'm sure the Faction Leader and the main elders will call for the meeting soon. The Klein Family doesn't seem to be an ordinary family.

Even Julian Klein gave his words before everyone. I don't think the Klein Family would accept it just like that.

If they have a bad relationship with Star University, then they would use this opportunity to find some trouble.

Meanwhile,

The warriors started walking out of the duel arena one after another. Everyone was terrified about the fact that they were able to witness a life or death duel.

The person who was dead was someone from the Klein Family. These people knew the Klein Family is one of the powerful bloodline families.

Their Family Head is said to be the Half-Step Red Mark Warrior. If they retaliate they don't know what their response would be.

The human bloodline warriors were especially angry. One of them was dead. Though he had asked for it. But still they are from the same Faction.

They have decided to trouble Zack Lockwood in future. Even if they can't do it, their core warriors can cause problems to Zack Lockwood.

As long as Zack Lockwood stays in the campus he would be fine. But if he steps out of the campus, then the bloodline families would trouble him.

Next, the main elders exited the duel arena. They are waiting for the show. More than Dark Variant Faction, the Bloodline Klein Family is ten times more troublesome to deal with.

In the viewing block 1, the Faction Leaders have yet to leave. Francesa was happy that Zack was fine. But she has a headache and thinks about upcoming troubles.

The Klein Family would definitely question her. She gave a look at the Faction Leader Clifford and said,"You have to be prepared for upcoming troubles."

Swoosh!

Then she left with her friend Bethany. The Elemental Faction Leaders were not good. The strength shown by Zack Lockdwood was terrifying.

Since Zack Lockwood has started using the inheritance force. Their top three warriors are not matched as of now.

More than that they don't know Zack Lockwood's Inheritance name. The power released by the inheritance force earlier during the duel was definitely Ancient Inheritance Force.

At the same time, the Dark Variant Faction Leader Vince looks at the old man Clifford. There is something troubling him. But he doesn't know what it is.

He then left the place. Finally, the Dew Water Faction Leader Monica stays behind. Seeing that there was no one left behind except her and Thunderflame Faction Leader Clifford.

She walks up to him and looks into his eyes.

She said,"I knew Zack Lockwood had received Ancient Water Variant Inheritance from the sky rift land. Dean Jerome had said to me."

"Now that kid is using purple lightning Inheritance force. Don't tell me it was the reason you guys are not letting him out."

"This kid has 2 Inheritances. No wonder he had not used the inheritance power before. If the enemy finds out the truth, he will have a hard life going forward."

"The foreign creatures will target him. Now that he killed the Klein Family Member. They won't let him live as well. Don't worry, I won't target the kid anymore."

"Our top three warriors won't fight against him," After saying that she left.

Not long after, the Faction Leader Clifford reacted. He heaved a sigh of relief. Before he could give any clarification. Monica misunderstood perfectly.

She won't trouble them anymore. Zack Lockwood can use his Thunder One Force freely hereafter. But the problem is they have made a new enemy.

"Klein Family," Old man Clifford muttered to himself.

He then returns to the Thunderflame Faction.

Meanwhile,

Dean Jerome and the Purple Mark Guard returned to their place.

“Dean, what about the Klein Family?” The Purple Mark Guard asked.

Jerome is sitting behind the desk. He served himself tea and started drinking it. The Purple Mark Guard was waiting for the answer.

“Since I’m hoping that Zack will enter that place in future. Ofcourse, I want him to be safe. So you are going to protect him from now,” Jerome said.

The Purple Mark Guard was not surprised.

He said,”I will obey the order.”

The Purple Mark Guard then left the place. He is going to protect Zack Lockwood once he leaves the campus.

Dean Jerome’s eyes flashes with a gleam. He knows there is infighting among the forces as well. It’s about getting more resources and survival of the fittest.

The destruction of the Thunder One Academy was the best example. Once the Head was killed. The students were all targeted by different forces.

But Star University is not Thunder One Academy. He is not afraid of the Klein Family. Instead the Klein Family should be worrying about the consequences.

—

Thunderflame Faction:

Faction Leader Clifford called for the meeting right away. Before he could wait further. One after another silhouette entered the meeting hall.

Main Austin, Ann, Leola. Cathy and Rosie sat in their seats. Their expressions were all grave. Though they were happy that Zack won the duel.

They have encountered a different problem right now.

“The Klein Family is not easy to deal with. Their Family Head is Half-Step Red Mark Warrior,” Ann said in a solemn tone.

She knows about the strength of the Different Warrior Families. Especially the Bloodline Families.

Austin thought of something and said,”If the kid was from a branch family, then there would be no problem. But he was from the main branch.”

“Surely, they won’t let go. The higher ups won’t dare to target. But the Black Mark Warriors could target Zack Lockwood,” Austin said in a serious tone.

Chapter 1282: Part 2: Aftermath (Julian’s end)

Thunderflame Faction:

“Don’t worry, the dean must have a plan. Besides, we will give him life saving treasures. It’s just I don’t want other members to know.”

“Already, there are voices that we are paying too much attention to the kid. Since I got him the Thunder One Force. Next he has to face the challenges alone.”

“I will step in case strong bullies the weak,” Clifford made it clear to everyone.

Everyone accepted it. Faction Leader solved the problem for Zack Lockwood. They can focus on other warriors. The meeting then ended quickly.

The next morning,

After getting ready, I was about to visit the Golden Lightning Palace. But someone was standing in front of my door for a long time.

When I saw the person. My expression changes drastically. The person is none other than the Purple Mark Guard.

“Elder, what are you doing here?” I asked him.

“The competition is likely going to be postponed. Since a Klein Family member has died. There will be some retaliation. To avoid the heat the dean has ordered to send you to the Camp 400”

The purple mark guard explained standing cross armed. On the other hand, I was taken aback. It was happening so soon. I was expecting a break.

“Let’s go,” the Purple Mark Guard said.

“I need to tell the Faction Leader and Masters,” I replied.

“The dean will inform them. You don’t need to waste time here,” The Purple Mark Guard said.

I nodded to him.

Swoosh!

The next second, the purple mark guard grabbed my shoulder and started taking me away from the campus. I had thought that there would be restrictions covering the sky.

But the Purple Mark Guard passes through easily. He quickly brought Zack Lockwood outside of Star University.

Now they are going towards Star City. It's been some time since I had been to the city. But it's not the time to think about it.

I'm going to the warrior camp. I'm going to encounter the problem again.

Swoosh!

Not long after, both of them flew over the skies of Star City. Then we continued to fly over the sky. The human habitat began to decrease as we left the city.

It didn't take long for him to reach the destination. We landed at another isolated area. The spot was surrounded by mountains.

"Go inside. The Supervisor there will explain to you," The Purple Mark Guard said.

Hearing that I felt a sense of urgency in the Purple Mark Guard's voice. Then I nodded to him before going inside the cave structure.

Then I saw markings on the ground. I stopped.

Purple Mark Guard then takes out the key and inserts in the empty space. The next second, the cave gets activated.

Swoosh!

Next, I felt my mind go blank. I disappeared from the spot.

Outside,

The Purple Mark Guard immediately left the place. Not long after he crossed several miles. He was blocked by four different purple auras in the skies.

The Purple Mark Guard's eyes flickered. He knew the visitors. He immediately released his coercion without thinking further.

Booom! Boom!

The power coercion spreads across the sky. The four different purple auras reacted as well. They released their own coercions to withstand.

In a flash, the coercions collided into each other.

Boooom!

A terrifying explosion occured. The impact force sent the four different auras flying backwards.

AaaaHhhh!

A scream was heard the next second. Clearly, the four different auras belong to the experts.

"Star University won't be able to protect him!"

A deep male voice was heard before they disappeared from the spot.

The Purple Mark Guard frowned. Fortunately, he had sent the kid earlier. Otherwise, things would have gotten troublesome.

He expected the Klein Family to react. He didn't expect for them to send Purple Mark Experts. Like him, they are one step away from reaching the Half-Step Red Mark level.

The Klein Family dispatched them to remove Zack Lockwood. But they should have guessed Star University's response.

Now the kid entered the Black Mark Warriors Camp. The Silver Mark and above won't be able to do anything to him.

Meanwhile,

I'm inside the Supervisor's office. I had thought that the supervisor here was a male. But she turned out to be a female Gold Mark Warrior.

She was wearing a combat armour uniform. She has short black hair and eyes. She was from the Blazing Fire Faction.

I don't have to make a guess. The flame emblem on her chest makes it clear about her faction.

"My name is Linda. I'm the manager here. The Dean has sent me the message earlier. The Klein Family won't be able to attack you here."

"But the Black Mark Warriors can make a move on you. In order to please the Klein Family, the Silver Mark Warriors might try something," Linda said in a non-serious tone.

Hearing that my heart was stirred. Her voice sounded like she didn't care about it.

"Don't worry, my job is to protect you. Dean has given me clear instructions. The Silver Mark Warrior and above can't take action against you."

"But you have to deal with the rest of the Black Mark Warriors," She added.

“Okay,” I replied.

“Good, then I’ll make the announcement,” She said.

“Everyone!”

“A new Black Mark Warrior has joined our camp. He is Zack Lockwood from the Thunderflame Faction. His situation is quite special. Dean has given warning.”

“No Silver Mark and above Warriors can attack him. If they do then they would be punished by the Dean,” She said.

Her voice spreads across the campus. The warriors were going about their business, chatting with their friends, training alone.

Everyone heard the voice. Their expressions changed drastically. Right now, the most famous Black Mark Warrior in the entire Tier-4 Region is none other than Zack Lockwood.

Zack Lockwood had killed Julian Klein in a life or death duel. Everyone knows about it. Some showed excitement, a few showed worry.

But there are people who have killing intent in their hearts. There are families who share common interests with the Klein Family.

If the Klein Family suffers then their families would suffer as well.

Chapter 1283: Warrior Camp 400!

From MC’s Perspective:

Warrior Camp 400,

Supervisor Linda turned towards me after making the announcement.

“You wait here. My assistant Nancy will come,” Linda said with a smile.

Hearing that I nodded to her. It didn’t take long for her assistant to come. She is another female warrior. But she is a Silver Mark Warrior.

Last time, I saw a similar strength. The Supervisor Bobby was Gold Mark Warrior and the Assistant was Silver Mark Warrior.

Supervisor Linda told her about me.

“Take him to his quarters,” Linda said.

Nancy then asked me to follow her. Then I thanked the Supervisor before going following the Assistant Linda.

We left the main building and came to the ground. Then we started walking on the footpath. On the way, we came across many warriors.

They recognised Assistant Linda. Then their curious filled gazes fell on me. I didn’t show any reaction.

Soon, we crossed many buildings before coming to the quarters of the Black Mark Warriors. She then continued to lead me towards the specific building.

When I saw the quarter. I raised my eyebrows in surprise. It’s a brand new looking quarter. Then we went to my room.

Upon arriving there she gave me my room passcode and new uniform and badge. Both had the mention of the Warrior Camp 400.

Nancy said,"If an alarm sounds, no matter what. You should follow the crowd to go to the cave structure. It's been two days since we last fought."

"The next battle may come soon. So be ready," She added.

Hearing that I thanked her once again. Nancy then left. I entered the pass code in the monitor. The next second, the door opened.

I walked inside and closed the door. The door was locked automatically. The room arrangements were the same as the previous warrior camps.

Then I started to settle in my room.

About 30 minutes later,

I laid down to take a rest. Then I began to think about my next plan. Now everyone in the warrior camps must have heard my name.

I don't know how many supporters of the Klein Family are here. I'm sure if I go outside later, I will bump into these people.

"Sigh!"

I let out a sigh. Instead of thinking about these people. I might as well get some rest now. Then I closed my eyes.

Meanwhile,

The Undercurrents were surging in the warrior camp. The warriors close to the Klein Family have decided to do something.

Fortunately, this warrior camp 400 doesn't have anyone from the Klein Family. Dean Jerome had sent him here knowing the fact.

Time passed,

Outside, the Klein Family came to know that Zack Lockwood was sent to the warrior camp. The four experts told them everything.

Now they can't take any direct action. They don't know which warrior camp Zack Lockwood was assigned to.

But they can confront all the allied families. So if any warriors from outside were dispatched to the same warrior camp. Then they can target Zack Lockwood.

…

Star University:

The following day,

The Faction Leader Clifford came to know about Zack Lockwood's departure to the warrior camp from Dean Jerome.

He was shocked to the core. He didn't expect Dean to send Zack Lockwood away for the warrior camp so soon.

They he had learned that Klein Family had sent four Purple Mark level experts to capture Zack Lockwood.

Before they could succeed Zack Lockwood entered the Warrior Camp 400. After knowing all of this, Faction Leader Clifford sighed in his heart.

The dean did the right thing. So he had nothing to complain about. Dean Jerome told him to inform the main elders. So that they can be at ease.

When other Main Elders learned about it. They were equally shocked. They didn't expect the Klein Family to send four Purple Mark Experts after Zack Lockwood.

Austin was angry. He was not surprised by the attitude of one of the powerful bloodline families. But he won't be silent if something to Zack Lockwood.

Main Elder Ann was worried as well. Despite the verbal statement and promise given by Julian Klein before the start of the duel yesterday.

The Klein Family broke the promise and started hunting Zack Lockwood. But they knew Dean Jerome must be monitoring the situation.

Meanwhile,

The warriors are still discussing yesterday's duel. How it went down. Those who were criticizing Zack Lockwood were now being silent.

Because Zack Lockwood had shown that he can use Inheritance force. The inheritance force turned out to be powerful in the end.

Everyone saw during the duel. Zack Lockwood was using his purple lightning element against Julian Klein.

At that time, they noticed an atmospheric thunder had fallen on the barrier. Whenever Zack Lockwood took action the thunder struck the batter.

Later the sky of the Star University was covered with the restrictions. Today the campus is discussing Zack Lockwood's purple lightning Inheritance.

They want to know whether it's known Ancient Lightning Inheritance or not. So some of the warriors started to look for the information.

Not only them, the Elemental Faction Leaders were all curious as well. They are using their connections to find out the information.

Because if they knew whether purple lightning Inheritance had previous famous Warriors. If there was any, then could analyze his battle records to find one weakness.

At this moment, the faction leaders were clear that their top three warriors can't fight against Zack Lockwood.

If they could find out the answers, then it would help the top 3 warriors. Until then none of the Factions were ready to let their warriors fight against Zack Lockwood.

Meanwhile,

Ronnie Seth made his visit to the Virtual Training Lab. Like others, he was perplexed. He didn't know why Zack Lockwood had to hide his inheritance.

Now that he killed Julian Klein in the Life or Death Duel. Zack will be targeted by them and their supporters.

He thinks If Zack comes here to the lab, then he would remind him.

Right now, he is going to discuss with Old man Daniel about yesterday's duel. He wants to fight against Zack Lockwood's virtual avatar.

Chapter 1284: Klein Family's supporters!

From MC's Perspective:

The following day,

I woke up early and started doing the morning routine. Then I began to get ready an hour later.

After finishing that I opened the door to go outside to take a walk. I stood in the corridor and started observing the surroundings.

I'm sure there are people who were waiting for me to come out. But I don't care about that. I have decided to figure out the place.

In case something happens like the previous warrior camp. I should know how to escape quickly. Then I turned around to go to the ground.

When I left the quarters. I see warriors going about their business. Some of them are taking a walk. There are few groups standing and talking with each other.

I'm thinking about taking a round around the whole warrior camp. Then I started walking. On the way, I came across the warriors who were coming in the opposite direction.

They saw my Black Mark Uniform and the Thunderflame Badge. They immediately recognised me. But none of them stopped me.

They were a bit discussing among themselves. Seeing that I thought they were not supporters of the Klein Family. Even if there are supporters, they would think twice before acting here in Camp 400.

Then I continued walking. Not long after, I found a group of people under the Giant Tree looking at me. They were making clear that they were indeed observing me.

My eyes glinted with clarity. The next second, my gaze fell on their badges. They are wearing bloodline faction badges. I don't have to guess anymore.

They are Black Mark Warriors as well. They must be supporters of the Klein Family. After seeing them, I tried to walk past them.

But these five warriors blocked my path. Everyone is having serious expressions. Already, the Supervisor Linda has spoken that no Silver Mark Warriors and above can take action.

So these warriors might be thinking about beating me.

"Zack Lockwood, you have done something unthinkable. You have killed one of our bloodline warriors. That too someone from Klein Family," A scar faced middle aged man said.

"Yes, Supervisor Linda said that Silver Warriors and above can't take action. It means that we can take action against you," a middle aged man with a heavy build said.

Next, the other three warriors gave their opinion. I waited for them to finish their words.

"Now, that you guys have said that. Can you guys leave? You can't beat me," I said to them.

"What?"

"How dare you?"

They got furious. The scar faced warrior was the first one to dart towards me. Next, the heavy built punching forward to attack.

Swoosh!

In a flash, all five of them surrounded me. My perception was active. I followed the gaze of the first one's attack. I avoided the frontal attack.

Then I slightly moved my body away and kicked his stomach with my right leg.

AAaaHhhhh!

The scar faced warrior widened his eyes in disbelief. He was sent back flying like a projectile before crashing into the ground.

Next, I blocked the punch of the heavy built man. Then I punched in his chest under a bus shocking gaze.

Boom!

The impact force blasted him backward. He crashed into the ground like the scarf faced warrior. The other three warriors were dumbfounded.

Before they could figure out what's going on. I struck their body with my fist one by one.

Boom!

I blasted away three of them.

AahhHhhH!

Three of them crashed into the ground with a loud scream. This all happened within minutes.

My mouth curves into an arc. I just held back while hitting them. Yet five of them were hurtled in the air before falling down to the ground.

I ignored their screaming before continuing with the walking. It didn't take long for some people to hear their screams.

When they followed the sound to arrive at the place. They noticed five men were lying on the ground screaming like pigs.

Among the people, there are few recognised bloodline warriors. They immediately went to help them.

After learning what happened from their mouth. Everything becomes clear. They were in this state because of Zack Lockwood.

The warriors were all surprised. Next, they knew what would have happened here. Five of them went against a single warrior.

Yet they were beaten down in return. The Bloodline warriors were then taken to the clinic room. The other crowds were dispersed.

It didn't take long for the news to spread across the warriors.

On the other hand, I returned to my room half an hour later. Then I once again went to the bath to take a shower.

20 minutes later,

I'm lying down in my bed. Assistant Nancy said that there could be next battle in few days. There was no alarm whatsoever so what.

On the other hand, I thought there would be warriors coming to trouble me. Apart from the five bloodline warriors, there were no others who tried to cause problems.

I guess they must be evaluating my strength.

Alarm!!!

Suddenly, a loud alarm sounded out of nowhere. It's the sign of battle. I immediately got out of my bed and rushed to open the door.

Fortunately, I was dressed in the uniform. There is no need for me to get ready.

After coming down to the ground, I saw people flying towards a certain location. I recalled Assistant Nancy's words. I started following the crowd.

In a flash, I saw a sea of Black Mark Warriors going towards a certain location. My eyes flickered with an understanding.

This warrior camp got this much Black Mark Warriors. I found the numbers seem to be higher than the previous camp.

I reached the destination a few seconds later. It's the same huge cave structure in front of me. There must be different passages inside.

Compared to my first day, I'm not being nervous right now. Instead, I wanted to test my strength against the foreign creatures.

I would like to see how the Thunder One Force scares them away.

Chapter 1285: Part 1: Battle time

From MC's Perspective:

I walked inside the cave structure. Several others rushed inside and disappeared into the different passages.

Seeing that I picked the random passage in front of me and went inside. Surprisingly, no one picked this passage after me.

I was walking alone. There is no sign of passage end. Not even the battle site can be seen. After coming inside so deep. I paused my footsteps and started observing the surroundings.

I wanted to find any battle marks here. If there are battle marks, it could confirm that battle took place here. But so far the passage has been clean.

Even after spending ten minutes here. I didn't find anything. It raised my curiosity. Then I resumed walking.

About 20 minutes later,

Finally, I saw the battle site. It's a wide space inside the passage. There are broken rocks and damaged terrain everywhere.

Swoosh!

A figure appeared in a flash from the other side of the passage. It's a 8ft tall Black Humanoid figure. But I recognised the figure. It's a humanoid type foreign creature.

I'm surprised by the fact that it's releasing the pressure of the Black Mark Warrior. I don't want to let down my guard.

So I started circulating the Thunder One Force in my body.

A purple layer of thin film covered my body. Not only that purple lightning bolts were appearing from time to time outside the thin film.

Aaahh!

The black humanoid creature made a weird sound. A weird black aura covered its body in a flash. Next, it bolted out towards me to strike.

Swoosh!

I covered both of my fist wings with purple lightning. After a long time, I'm going to have a serious fight. That too against the humanoid foreign creature.

There is no reason for me to hold back. In a short while, we met each other. Next, a fierce clash took place.

Boom!

My Purple lightning fist is smashing him. At the same time, the black humanoid is fighting with a weird black aura.

As the time passed, I found out that the weird black aura slightly had restraining effects against the thunder one force.

My eyes glinted with a discovery. I have decided to test my limits. What could be the best choice other than testing my skills against the Black humanoid.

Boom!

The black humanoid found out that the human warrior was hard to deal with. So it increased the weird black aura to suppress the opponent.

Meanwhile,

The fierce fighting is taking place in other different passages. Except for a few warriors, a majority of warriors were no match for the foreign creatures.

The goal of these was to hold on until the next alarm sounded. As long as they were able to survive till the next bell rang.

They can go back to the camp to recuperate. A few unlucky ones were directly beaten to death. Because they don’t have answers for the weird black aura.

The foreign creatures were able to slay them easily.

Outside,

Supervisor Linda and Assistant Nancy were standing in the mid air outside the cave structure. Lina frowned.

She doesn’t know how long she can withstand the assault this time. Each time they were the ones who were suffering the most.

The losses on the foreign creature side were not that big. Linda is pondering. If not for the human side having more population, the foreign creatures would have invaded long ago.

Nowadays, apart from the Purple Mark Expert. No one can change the situation on the battlefield.

Nancy is thinking about Zack Lockwood. She heard about the incident that happened this morning. He was able to overwhelm others with brute force only.

Now she started to believe those rumours where Zack Lockwood had defeated his peers with body strength alone.

She was not able to witness the duel. But she was able to collect information from others. She saw some footage as well. But she found it hard to believe.

Linda casually glanced towards her side and noticed that Nancy was in deep thought. She became curious.

"What are you thinking about?" Linda asked.

"Senior, I’m thinking about Zack Lockwood. His battle records say that he will survive the battle easily," Nancy replied.

"Zack Lockwood, huh?"

Linda said with a sigh.

"Actually, this kid has a bright future. But he offended the Klein Family at the wrong time. These strong warrior families were trying to break away from the University forces."

"The Klein Family might have found an opportunity," Linda said in a solemn tone.

"Klein Family’s member death was insignificant to them. But they want to use this opportunity to gain more," She added.

"Senior, do you think they will dare to kill Zack Lockwood?"

"Wasn’t it a life or death duel agreed by both parties," Nancy asked.

"From the start to the beginning, the Klein Family never put out a statement that they are agreeing to the duel."

"So the decision was left to Julian Klein. If he had won then he would have gained resources for training. Now that he was killed."

"The Klein Family is looking to use this opportunity," Linda said.

She then thought of something important.

"Don’t try to help this kid out. Dean Jerome has his plans. He won’t die," Linda said to Nancy.

"Okay, senior," Nancy replied with some understanding.

Passage:

An hour later,

Boom!

I struck the chest of the Black humanoid. The power purple lightning blasted the creature backward.

Right now, the black humanoid looked different. The weird black aura has diminished. It’s not increasing anymore.

On the other hand, I’m getting better at using the new Inheritance force. The Thunder One Force was domineering.

Yet there was no atmospheric thunder here. Otherwise, the effect will be twice. The Black Humanoid is feeling threatened.

It had never come across a strong human before. The Black Humanoid made its mind to blow itself to kill the threatening human.

In this way, it can provide support to the foreign creature side.

On the other hand, I felt a sense of crisis. The sudden death crisis made me think that the Black Humanoid was up to something.

Swoosh!

The Next second, I quickly retreated to widening the gap between us.

Chapter 1286: Part 2: Battle time

From MC's Perspective:

Cave passage,

The black humanoid exploded. Next, a powerful weird aura burst forth. It struck the nearby boulders and rocks. They were corroded instantly.

Boom!

At the same time, I used the movement method to escape. When the thunder one force covered my legs. I felt the speed was increased by many folds.

Swoosh!

In a flash, I got away from the black weird aura. When the aftermath was settled. I saw a sunken ground appear at the explosion site.

I didn't expect that black humanoid to blow himself up. I think he got frustrated in the end. I was simply using him for practice.

Yet I'm not satisfied yet. I needed to fight with more humanoid foreign creatures. I collected my thoughts and looked ahead.

If I follow the path ahead, I might reach the camp of the foreign creatures. My eyes glinted with curiosity.

But I stopped myself. It's foolish to seek death now. I have decided to check out other passages. Then I turned around and left the place.

A few minutes later,

I came outside. My gaze fell on the different passages. I don't know which one has causality.

Tud!

Suddenly, I heard faint footsteps. I turned around and tried to find out the passage. Then I found the passage on the right side.

Swoosh!

I immediately rushed to that place. Standing at the passage entrance. I heard the sound more clearly. Then I walked into the passage without further thinking.

Not long after walking into the passage. I came across a black humanoid foreign creature. A look of understanding dawned on my face.

Aaahhah!

The Black Humanoid stopped moving. It made a weird sound upon seeing me. It has a blade of large uneven size in its hands.

The material seems to be extraordinary. I could feel the sense of crisis again.

Swoosh!

The black humanoid charging towards me suddenly.

"Blood Fist!"

I executed the blood method move. The blood force reaches my right hand. In the blink of an eye, my right fist was covered with the blood red force.

Swoosh!

Next, I used the movement method to increase the speed. In a short while, the gap between us shortened. The black humanoid uses the uneven blade to strike.

My perception was active. I adjusted my body away from the blade. Then I punched the black humanoid's face.

Boooom!

Next, the Black Humanoid flung backward. It crashed into the ground. It couldn't get up on its feet.

Seeing that I bolted out towards the black humanoid. I continued using the blood fists strikes on its body. I got a punching bag now.

I'm not going to let it get away. As the time passed, I corrected the blood fists execution. The posture and the attack timing was improved.

The injuries on the black humanoid were increased as well. The Black Humanoid was dumbfounded. Before it could truly execute the technique.

It got seriously injured. It got mad. The next second, a weird black aura burst forth from its body.

Swoosh!

The uneven long blade absorbed the black aura like a vortex. The pressure starts coming from the uneven blade.

At the same time, I raised my eyebrows in surprise.

Swoosh!

I retreated to escape from the attack.

AaaHhhh!

The black humanoid made a weird sound before bringing forward the attack. A powerful blade strike released from the uneven blade.

Boom!

The attack was so fast. At the last moment, I side stepped to avoid grazing by the attack.

The blade energy strikes the ground. A deafening explosion occurs. The ground was cleaned. The passage walls started to shake.

If the shaking continues, it could collapse at any moment. After realising that fact, I decided to put an end to this fight.

Swoosh!

I brought the new black blade outside. I started charging it with thunder one force and shock force. This is the first time. I'm trying this combination.

The black humanoid sensed the danger. The human warrior is using the trump card like it did. Next, it turned around to leave.

"Sword Divide!"

I released the sword beam aimed at the fleeing target. The sword beam cuts through the air in a straight line before reaching the fleeing target.

Next, the purple and white mixed sword beam goes through his back.

Boom!

The black humanoid exploded. The sword beam shredded its body parts into many pieces. Upon seeing the attack, my mouth curves into an arc.

I knew if I used the power of inheritance force in the attack technique. The destruction will be higher.

Like I guessed, the Black Mark Level Warriors or Foreign Creatures were no match for it.

Maybe I should use this opportunity to kill the remaining foreign creatures. As this thought occurs in my mind.

Swoosh!

I decisively left the passage. I came outside a few minutes later. Right then, I saw a black humanoid creature exiting the passage.

A hint of seriousness flashes in my eyes. I had thought that Black Humanoid came to the end of the passage out of curiosity.

Now I see that second one. I doubt it’s a coincidence. They must have a plan. I launched the sword divide attack without thinking further.

Puchak!

The black humanoid was caught off guard. The sword beam killed the foreign creature in one strike.

The blood mixed body parts splattered on the ground. After killing the foreign creature, I have decided to wait here.

I'm thinking about eliminating the foreign creatures if they reach the end of the passage. I don't know what their goals are. Since they are enemies. Their intentions won't be any good.

Time passed,

Not long after, another black humanoid exited the passage. Before the black humanoid could do anything. It was killed in one strike.

As the time passed, more and more Black humanoids were able to exit the passages. Undoubtedly, the Black Mark Warriors who went inside the passage were all killed.

I continued to put an end to their lives. At the same time, the Thunder One and Shock Force were drastically consumed in the dantian.

I hope the alarm will sound soon. So that the battle can be ended.

Chapter 1287: Shocking casualty report!

From MC's Perspective:

Cave structure,

I killed the black humanoid creatures in one blow. Just as I was worried that it's going to be never ending.

Buzz!

The alarm sounded indicating the battle was over. The next second, I rushed out of the cave structure.

Swoosh!

A few seconds later, many black mark warriors rushed out of the passages one after another. Now everyone is going towards the exit.

On the other hand, I appeared outside. Then I spotted Supervisor Linda and Assistant Nancy standing in the mid air.

I nodded to them before going towards my quarters.

"He was the first one to come out," Linda said with a surprise.

Because she knew it’s difficult to fight against the Black Humanoid. Unless you are strongest in the same rank. You can’t win against the Black Humanoid easily.

At the same time, you can’t runway or hide against the Black Humanoid. If you do, you will die faster than you think.

So she believes that Zack Lockwood had fought against the Black Humanoid. Perhaps, he defeated the Black Humanoid. That’s why he was able to walk out faster.

Right then, the other Black Mark Warriors started coming outside.

Assistant Nancy was surprised as well. More than a surprise, she was shocked. It’s true that she had rated Zack Lockwood high. But she didn’t expect him to walk out first.

If other warriors learned about it, then they would consider him as a threat.

Linda said,"Nancy, don’t let others know about it. I don’t want any mishap to happen."

After saying that she disappeared from the spot.

Nancy then recovered her thoughts and turned towards the warriors on the ground. She saw some of them waiting.

"What are you guys doing?" She asked.

Hearing that Black Mark Warriors turned towards her. Their expressions changed. Then they recalled the Supervisor’s words earlier that day.

"We are here to see Zack Lockwood. Supervisor Linda has already said that we can fight against him. As long as no Silver Mark Warrior takes action," A middle aged man said.

Nancy’s eyes flickered. But it’s a pity that they don’t know that Zack Lockwood had long since left. She then said nothing and left the place.

The warriors then looked at each other. They had victory smiles on their faces.

Meanwhile,

I returned to the residence. I noticed my dantian. Apart from the Dull Golden Sealing Force and the Bloodline bright blue force.

The other Inheritance forces were exhausted. I need time to recover. Without thinking further. I entered the small training room.

I closed the door and appeared in the middle of the room and sat crosslegged on the ground. Then I started practicing the Thunder One Force.

Time passed,

Everyone left the cave structure. It’s been more than one hour since the battle ended. But there was no sign of Zack Lockwood.

More than ten warriors were waiting outside for Zack Lockwood to come. Eventually, they started to think he could have died inside the cave structure.

But they can’t confirm it now.

"Let’s go back now. We can look up the casualty report later," A middle aged man said.

Hearing that others thought it was the right thing to do. No one wants to waste the time here.

Swoosh!

Then the warriors vacated the place. They didn’t know that Assistant Nancy was monitoring them. When everyone left.

She sighed in relief. She then went back to her place.

The following day,

The casualty report was made public. Everyone in this warrior camp 400 read the report. To most of their surprise, the casualty was less compared to the last battle.

Most of the warriors were in disbelief. Because not much changed between the last and duel happened this time around.

Even their injured warriors entered the passage to fight. Normally, the casualty should be higher. They were confused about what reduced the death count this time.

Not only them, the Supervisor Linda and Assistant Nancy were surprised as well. They became happy upon seeing the report.

They were sure that something had changed. They didn't know what it was. They refused to believe that Black Humanoids were weak.

These foreign creatures must have fought hard. So something was changed on their side.

At the same time, Klein Family supporters were shocked by other news. Zack Lockwood was alive. His name was not in the list.

He must have exited the cave structure before them. Now they felt like a clown. These warriors felt ashamed. They have decided to go to his residence.

No one will stop them. Soon, the ten warriors communicated with each other. Three of them decided to knock on his door first.

These three middle aged men were old seniors. They are Black Mark Warriors experts. Rarely, someone in the Black Mark Ranks defeated them.

There are exceptions such as the descendants of the warrior families. But those people have entered the Silver Rank Stage long ago.

Now Zack Lockwood's reputation has surprised them.

About 20 minutes later,

The trio arrived at his room. They didn't hide their whereabouts. The news about them reached others as well.

A small crowd gathered in front of the building. They are ready to watch the show.

Knock!

One of the middle aged men started knocking the door.

Inside the residence, I'm busy practising inside the training room. I'm recovering the shock force power in the dantian.

I could hear someone knocking on the door. As the time passes, the sound of knocking the door intensifies.

I felt that someone with bad intentions had come. So I have decided to let them wait. No one can tell when the next battle is going to happen.

I can't waste time here. So I continued the focus on recovering my strength.

Knock!

The three middle aged men were frustrated outside. They were close to breaking in. If it happens, then the Manager Linda might punish them.

They have given permission to confront Zack Lockwood. But it doesn't mean that they can barge into his room.

"What to do?" One of them asked.

"Let's wait here!"

"I don't think he will stay inside forever," A short haired middle aged man said.

Chapter 1288: Quiet period!

From MC's Perspective:

Warrior Camp 400,

2 hours later, I ended the practice. Then I walked out of the training room. My eyes glinted with a surprise. I could feel the presence outside the door.

"Don't tell me. They are still here," I thought.

Then I shook my head before going to take a bath. The bath lasted for 20 minutes. Then I stepped out and began to get ready.

I changed to a uniform. After getting ready, I have decided to check the situation outside.

Creak!

I opened the door and saw three middle aged men standing outside. My appearance caught them off guard.

"You have finally decided not to hide," One of them said.

I saw through their Black Mark Strength. Which means I can hit them.

"You guys are the ones who were knocking on my door from the beginning," I said.

"Yes. It's us. What are you going to do?" A person in the middle spoke.

At the same time, I could hear noise coming from downstairs. I guess there are warriors gathered in front of the building.

Everyone was waiting to watch a good show.

“What are you looking at?”

“Brothers, let’s hit him. Everyone is waiting for us,” the last person spoke.

Hearing that my eyes flashes with a cold glint.

Swoosh!

I moved from the spot. My right fist struck the face of the nearest one.

AaahHhhh!

He flung backward screaming out loud. Next, I blocked the punch of the second person and kicked him in his abdomen.

Pfff!

He coughed up blood. His internal organs were hurt. This all happened within seconds. Finally, it was the person in the middle.

He couldn’t believe two of his brothers were knocked down.

“You dare….”

He raised his fist to punch. His fist covered in flames. Seeing that I circulated Thunder One Force slightly.

Thunderclap!

The middle aged man felt a sense of crisis. Before he knew it. His punch was met with another fierce punch. Next, his flames were extinguished.

He felt terrible pain in his right hand. Before he could retreat his hand.

Crack!

The force cracked his bones.

AaaHhhhhh!

The middle aged man was horrified. His right hand was broken.

Slap?

Before he could say anything. He received a loud slap on his face which sent his body back flying.

On the other hand, I relaxed my shoulders. My body strength was strong. If it were average Black Mark Warriors, they would have suffered serious injuries.

But they were experts. They can be counted as the strongest among the Black Mark Warriors.

Next, I went back to my room and closed the door. I'm going to practise using the staff. I have yet to use it against the foreign creatures.

Outside,

The three middle aged men managed to get up. Then they immediately left the quarters. The warriors gathered down below waiting for them to come.

But they didn't stop to meet them. Instead they fled towards the medic room. The warriors knew something was wrong. They vacated the place. In the blink of an eye, the place becomes empty.

Assistant Nancy who was following the situation laughed out loud. Since Zack Lockwood was the first one to exit the came. His strength is not something ordinary.

Even the veteran Black Mark Warriors were beaten down. It's the best proof. Hereafter, no other warriors are thinking about troubling Zack Lockwood.

Especially the new warriors. If they do, they would only invite disaster among themselves.

Because of it, a quiet period starts to occur in the Warrior Camp. The casualty report gave them a false sense of accomplishment.

But they didn't know it was Zack Lockwood who took down the black humanoid foreign creatures in single blows. It's because of his contribution that many of the warriors survived.

Meanwhile,

On the foreign creatures' side. A huge debate is going on. The black humanoids were already stronger than average Black Mark Warriors.

Yet they faced losses this time around. They immediately thought of the work of the human genius warriors. So they started to collect information regarding the warrior camp 400.

They wanted to know whether a terrifying genius had entered the warrior camp 400 this time around. If it was true then it would explain the reason for this much loss.

So Undercurrents started surging. The next battle is going to be serious and difficult for warrior camp 400.

—

Star University:

Dean Jerome got the casualty report. When he saw the results. He immediately thought of Zack Lockwood. He knew the situation of Camp 400 before and after the arrival of Zack Lockwood.

He thinks Zack Lockwood had used inheritance powers to eliminate the Black Humanoids. Because Zack Lockwood got not one but two Ancient Inheritances and One Red Mark Inheritance.

If it was not done by Zack Lockdwood, then he would be surprised. But he found out that Supervisor Linda and Assistant Nancy seemed to have no clue about this matter.

His eyes flashes with a gleam. He thinks it's better in this way. If Zack Lockwood's name was popularised, then he would be targeted by assassins soon.

On the other hand, he is keeping an eye on the Klein Family. The Klein Family has sent people to Star City. Right now, they are staying in Star City.

He knew they were waiting for Zack Lockwood. He was surprised by their guts. They dared to send warriors to Star City under his watch.

If he wanted he could clear them right now, but he was curious about their purpose. He wanted to know what they were going to do.

If they try to do anything, it will be the end of them. Yet these people have come knowing that.

—

Star City:

There are people from the Klein Family here. Some of them are staying in the hotel. Few others are staying in the rented house. They don't want to alert Star University.

But they don't know. Dean Jerome himself has found these rats. They don't have any idea about this.

Chapter 1289: Part 1: Tough battle!

From MC's Perspective:

Time passed,

I got more skillful in handling both the staff and sword. It's just that I didn't have the opportunity to use them. Most of the time, I used my fist to beat others.

Yet I have a feeling that I could use these two skills in crucial times. For example, I had faced the Silver Mark Level Creatures last time.

There is no guarantee that the same thing won't happen here. What more? I have a feeling that the next battle won't be easy.

The foreign creature side suffered casualty. The Warrior Camp 400 must have gained their attention already. But nobody here is serious about it.

Then I recovered my thoughts and continued to focus on practising and recovering.

A day later, at noon time.

Alarm!

The battle alarm sounded. Hearing that everyone dropped their work and started rushing towards the cave structure.

Supervisor Linda and Assistant Nancy appeared in the sky. They are looking at the rushing warriors. They had quiet time since the last battle.

She thinks that Warriors must have recovered from their fatigue. Among the crowd, she spotted Zack Lockwood.

“Would he be able to come out as the first person this time?” Linda uttered.

Nancy spotted Zack Lockwood as well. Her eyes flickered. Everyone had thought the warriors would trouble him because of the Klein Family.

But Zack Lockwood’s strength was so powerful that none of the warriors continued to pester him after a few failures. Everyone has recognised his strength.

Meanwhile,

I walked into the cave. This time I picked the passage nearest to me as usual. I started going inside. Not long after, I could feel the warriors coming after me.

Upon seeing me their expression changes. But I gave a way for them to go ahead. The warriors then continued to rush forward.

My eyes glinted with a suspicious light. From the beginning, I’m suspecting that this battle is not going to be easy. Seeing others moving forward without a plan gives me a headache.

“No wonder there is so much casualty on our side each time ” I mumbled.

Then I continued moving forward. My perception was active. The central area in the passage is yet to come.

Shortly afterwards,

AaaaHhhh!

I heard a loud screaming coming from ahead. The next second, I started rushing towards the place. I arrived at the spot a few seconds later.

I saw the mutilated body of the warriors who went past me earlier.

Grrrr!

In front of me was a foreign creature with four legs and four arms. The Head of the creature is conical with razor blade teeth. What's more threatening was.

Instead of hands, the creature got sharp nails. It's not a living creature but a killing machine.

Swoosh!

Next, I took the white bone staff outside. I immediately circulated the Thunder One Force. The purple lightning covered the white bone staff in a flash.

Grrrr!

The ugly creature over 8ft sensed danger. But it can't back away. It's job was to kill. The foreign creatures had sent this type of creature to get revenge for the last time.

Swoosh!

The foreign creature started bolting out towards the target. The four arms are ready to tear apart the body.

On the other hand, my perception was active. So many inheritances enhance my combat awareness and senses as well.

I'm trying to find out the weakness. Apart from the head, the other areas are well protected. If I want to attack the back of the creature, then I have to go past the four arms.

Swoosh!

In a flash, the foreign creature reached me and slashed at me. Seeing the sharp nails my eyes glinted with an understanding.

If this blade were to land on me, it would easily go through my body.

Next, I struck those claws with those white bone staff.

Boom!

The thunder one force filled staff came in contact with the claws of the creature. The purple lightning blasted away the creature.

The foreign creature's body flung backward and landed on the ground in an awkward position.

My mouth curves into an arc. No matter which type of foreign creature it was. It's still the Black Mark Level Creature at the end of the day.

Grrrr!

The foreign creature made a sound. The purple lightning has destroyed the claws of the 2 hands. Now only the other two hands are remaining.

The foreign creature was enraged. Instead of fear, it started giving off more energy. All of a sudden, weird black aura enveloped its body like a mist.

I saw a black mist but nothing else. But the sense of crisis grew again. I have long understood that black weird aura is some kind of source of power.

Swoosh!

All of a sudden, the foreign creature dashing towards him. The speed is breaking through the air.

On the other hand, my eyes flickered. I immediately used the lightning technique.

“Lightning Wheel!”

A powerful dark and purple lightning wheel appears around me. The wheel is beaming with terrible energy.

Before I could think of anything else. The foreign creature collided into the lightning wheel.

Boom!

The lightning wheel explodes. The powerful thunder force struck the foreign creature again. Yet the impact force sent both of us back flying.

Tud!

I landed on the ground a few metres away. My gaze immediately fell on the creature. The dust and smoke has covered the place.

When the aftermath was settled. I saw nothing big happened to the foreign creatures except the black weird aura was diminished.

My eyes glinted with an understanding. The weird black aura is not only giving the strength but also acting as a shield.

Swoosh!

Next, I stored the white bone stuff in my storage ring. Then I decided to test the foreign creature.

I raised my hand and executed another technique.

“Lightning Cage!”

A ball of thunder one force shot from my palm. It reaches above the foreign creature in a flash. The foreign creature was clueless.

Grrrrr!

It uses the black weird aura again to protect itself.

Boom!

The next second, several purple lightning bolts landed on top of the foreign creature one by one.

Chapter 1290: Part 2: Tough battle!

From MC’s Perspective:

The purple Lightning power from the thunder one force trapped the foreign creature. It couldn’t move away from the spot.

At the same time, the destructive Lightning power is rampaging through the organs. The power of weird black aura diminishing.

It’s clear that foreign creatures can’t use the weird black power infinitely.

Seeing that I continued to pour the thunder force into the attack.

Grrrr!

The four armed and legged creature finally collapsed to the ground. I stopped attacking. Then I saw the clear view of the foreign creature.

It was more miserable than before. The flesh and bones were exposed. The blood is gushing from the wounds. The foreign creature struggled for a bit before dying.

Once the foreign creature was dead. I made a confirmation that it was actually dead or not. Then I started going back.

This foreign creature type was different from before. The Black Mark Warriors would find it troublesome to solve it.

Soon, I walked out of the passage. I came to the middle and began to wait for the foreign creatures to arrive. I doubt whether other creatures would arrive before me.

A few minutes later,

Another four armed and legged creature slowly walked out of one of the passages. This time I didn’t use any staff or sword for the attack.

I decided to rely on the complete lightning attacks. But this time I mixed the shock force with one force of thunder. The mixture of attacks will bring out more destruction.

Grrrr!

The foreign creature charging forward to attack with sharp nails.

"Lightning Cage!"

A white mixed thunder one force shot from my palm. It appears above the creature's head before exploding. Next, the lightning bolts trapped the foreign creature.

A few of the bolts struck the creature's body.

Boom! Boom!

One after another explosion occured. The shock force adds more destruction. The attacks were blasting away the creature.

Unfortunately, the foreign creature can't escape. It didn't take long for the foreign creature to succumb to the injuries.

When the aftermath was settled. The view becomes clear. The foreign creature's body was exposed. The bones and internal organs were visible. They were completely charred black.

The four armed and legged creatures died within minutes. The combination of the shock force and the thunder one force works well.

This time the foreign creature didn't have the time to use the black weird use. Then I pushed these thoughts behind and continued to wait.

Not long after, two foreign creatures made an exit at the same time. Upon seeing me, they started charging forward.

Swoosh!

I circulated the shock force and thunder one force. Then I performed the lightning wheel technique.

"Lightning Wheel!"

A silver mixed lightning wheel appears around me. It’s beaming with destructive power.

Right then, the collision happened. Both the foreign creatures collided from the two sides.

Boom!

A terrific explosion occurred. Next, the impact force pushed me backwards.

At the same time, the destructive Lightning attack struck both the foreign creatures.

Grrrr!

They made a weird sound. The lightning power is destroying their body as the time goes by. The shock force power made it worse.

"Lightning Cage!"

Seeing that they are struggling. I added more power next. I executed the lightning attack. The silver mixed thunder one force shot from my palm.

In a flash, they formed a cage and trapped the foreign creature.

When one creature is suffering from the lightning bombardment. I can't leave the other one. Next, I attacked the second foreign creature with the same technique.

Boom!

The destructive thunderbolt strikes the creature one after another. The skin and flesh were torn apart from the repetitive strikes.

The bones become visible. The creature wasn't able to use the black weird aura. The continuous lightning attacks are not giving any chance to it.

As the time went by, both the foreign creatures succumbed to the injuries in the end.

The purple lightning power didn't disappoint me. The shock force power speeds up the destruction. The combination of the two were enough to harm the Silver Mark Level creatures.

The one slight disadvantage though. The consumption was rapid. I can't fight against all the creatures alone.

My fear is that I could run out of the inheritance force at some point. At that time, I could rely on my body strength.

Like I had guessed earlier. I encountered another creature five minutes later. Without a doubt, the fighting started.

I repeated the same attack technique to kill the creature faster. Once it was dead. I noticed something. The creature was injured before coming outside.

The person who had fought against the creature earlier in the passage must have dealt it a heavy blow.

Time flies,

Before I could realise. I had already killed 10 foreign creatures this time. The number was higher. My dantian is empty right now.

The only thing I left with was the dull golden sealing force and bright blue water force. I'm sorting out my thoughts.

Then the 11th foreign creature made an entrance. Seeing that I circulated the dull golden force in my body. Next, I brought the white bone staff outside.

Then I began to coat the staff with the dull golden force. In a flash, I wielded the golden coated staff.

I'm observing a foreign creature. Compared to the previous creature, the injuries on this creature were high. The warrior must have fought it till the end.

I sighed inwardly. Though I'm dealing with a foreign creature. I can't control the casualty. It's happening on the other side.

Swoosh!

The foreign creature bolted out towards me. Seeing that I brought the staff forward to attack. In a flash, the staff collided with the hands of the foreign creature.

Next, the golden force took effect. It acted on the creature sealing it for sometime. My eyes flickered. Then I began to strike the foreign creature all around its body one after another.

I wanted to make sure the foreign creature was completely sealed. Now the staff returned to normal. I collected the stuff into my storage ring.
