

BloodLine 1291

Chapter 1291: Transfer order!

From MC's Perspective:

The foreign creature was completely sealed now. I coated the staff with bright blue force. The bright blue force was the result of the bloodline power.

Boom!

Then I begin attacking the foreign creature with the staff. Upon contact the bloodline water power started harming the flesh and organs.

It didn't take long for the bloodline water power to leave countless holes inside the creature's body. The foreign creature died of organ failure.

Time goes by,

Before I could realise the alarm sounded. It's indicating that the duel has ended. So far I have killed 26 foreign creatures.

The numbers are higher than the previous times.

Swoosh!

Next, I turned around to exit the cave structure. I walked out the cave and met with Supervisor Linda and Assistant Nancy.

They were looking at me as if they were waiting for me. I greeted them.

“You are doing well here,” Linda praised Zack Lockwood.

Nancy saw him with a curious gaze. She doesn’t know how many foreign creatures died at his hands.

Next, I went to my quarters. The fight today has brought me huge combat experience. I could use different ways of inheritance to kill the foreign creatures.

Four armed and legged foreign creatures are stronger than the black humanoid creatures. I doubt the next battle is going to be even more difficult.

Meanwhile,

The warriors started coming out of the cave structure. Along the way they saw piles of corpses. The corpses belong to the foreign creatures.

Many of them came across similar scenes in the last battle. Everyone had mistook it for a group fight.

Now they are looking at the same thing again. They didn’t know how many groups had fought against the foreign creatures.

Because there is no sign of human corpses. They were puzzled. But it’s not the place to discuss. So they exited the cave.

One hour later,

Supervisor Linda found out that casualty was less this time as well. She was shocked. Because the foreign creature invaded this time was four armed and legged creatures.

It’s stronger than the Black Humanoid. She had fought against these 2 creatures during her Black Mark Warrior days.

So she knows the difference between the two. Now she started to notice something odd. It's definitely not related to the Black Mark Warriors here.

Compared to the previous battle, most of the warriors who went for the battle had injuries. It's impossible for them to defeat four armed and legged creatures easily.

It's not like the death was not reported. There are losses. But the numbers are less than the predicted.

Suddenly, the image of Zack Lockwood comes to her mind. She then shakes her head. She knew Zack Lockwood was strong.

So he could survive against the foreign creature. But she didn't know it was Zack who took down the foreign creatures from causing massacres.

She ordered Assistant Nancy to look into this matter. Nancy has decided to speak with warriors. From their accounts they can know what happened inside.

Days goes by,

Another casualty report was sent to Dean Jerome. The Dean knew the facts again. But he didn't bring it forward.

He thinks it's time to transfer Zack Lockwood to another Warrior Camp. Because he didn't expect foreign creature side to send four armed and legged creatures.

Those foreign creatures won't unleash this species unless they are suspicious of something. Next time, they could send something dangerous.

Jerome gave a quick order to Supervisor Linda. Zack Lockwood is going to enter Warrior Camp 368 next.

When the order reached Supervisor Linda. She was shocked. Because this transfer order only comes for Zack Lockwood.

Not only that, she was warned not to leak this information. Linda has been investigating the reason behind the less casualty.

She had even asked Dean Jerome. But Dean Jerome told her not to look into this further. Then only she realised Dean Jerome knows something.

But he is not willing to help her. Now looking at the transfer order for Zack Lockwood. She couldn't help but suspect it has something to do with him.

She can confirm her guess in the next battle. If Zack Lockwood was not here, then the casualty would be higher.

She then informed Zack Lockwood and told him to get ready.

On the other hand, I'm resting in my room. This transfer order came out of nowhere. I think Dean Jerome has something to do with it.

I was worried about what to do next. But this transfer came at the right time. Then I pushed behind these thoughts and began to get ready.

—

Meanwhile,

The Klein Family's people were patiently waiting for Zack Lockwood to emerge. They are getting information from inside.

They knew Zack Lockwood didn't appear so far. He might appear if the next competition takes place.

But none of the Faction Leaders are wanting their competition to happen next. Because of it the Klein Family had no choice than to wait.

At the same they are not taking any drastic steps which could offend Dean Jerome. When their family member was killed in the duel.

They have collected information about Zack Lockwood. They came to know that Zack Lockwood came from the Federation in the Tier-5 Region.

After growing step by step, he came this far. Those family members who were suggesting to target Zack Lockwood's family are suppressed by the Family Head.

The last thing they wanted to do was to offend Dean Jerome. This time it's their fault. The family member agreed for a life and death duel. He got killed. He can only blame himself.

The reason they are targeting Zack Lockwood was because of their face. If they don't do anything, then their prestige would fall.

Hereafter, anyone will target their Klein Family. That's why they have been wanting to teach Zack Lockwood.

At the same time, Dean Jerome knew their purpose. So he is watching the show from behind. Not only he wanted to lure out Klein Family members.

He wanted to lure out other hostile forces as well.

Chapter 1292: Warrior Camp 368!

From MC's Perspective:

In the evening, I was summoned to Supervisor Linda's office. I quickly got ready and left the room. After leaving the building, I made my way towards her office.

Soon, I reached the main building. When I arrived at her office. I saw Assistant Nancy standing outside.

She saw me as well.

"Assistant Nancy, what are you doing here?" I asked.

Nancy doesn't know what to say. She just found out the news.

"You should go inside first," She uttered.

Hearing that, a hint of doubt flashes my eyes. Then I opened the door and walked in. Supervisor Linda is sitting behind the main seat.

"Take a seat," She said.

I sat in the seat. Then I looked at her. I think it's going to be serious news.

"You are transferred to Warrior Camp 368 now. If you are ready you can leave right away," Linda said in a serious tone.

I was dumbfounded. It took me seconds to realise that she is telling the truth. She is not lying. I'm being transferred.

Linda saw confusion in Zack's eyes.

"The decision was made by Dean Jerome. You can ask him later. But you have to leave right now. The Supervisor there might be waiting for you," Linda said.

I'm digesting her words. But still I found this camp was nice. I didn't expect to leave so soon. Then I thanked her and told her that I'm ready to leave now.

There is nothing to pack. Everything was already collected inside his storage ring. Linda nodded, then called Nancy.

When Nancy walked inside. She told her to guide Zack Lockwood to the teleportation platform. Nancy nodded her head.

Then both of them left the office.

"Sigh!"

"It's a pity that he can't stay here for a long time," Linda said to her.

If the things were true, then she knows Zack Lockwood is going to face danger. Now she had to prepare for the next battle.

Meanwhile,

Both of us are heading towards the Teleportation platform.

"Do you know why I am being transferred suddenly?" I asked her.

Nancy frowned. When she heard it from Supervisor Linda earlier. She found it hard to believe. But she doesn't know whether it's true or not.

"Ever since you entered here. We had 2 battles against the foreign creatures. Each time we got a huge victory. The casualties were low."

"The supervisor thinks it's related to you. If the foreign creature learns it, then they will target you," Nancy said.

Hearing that my eyes glinted with an understanding. I didn't expect them to figure it out so soon. No wonder they were cautious and wanted me to transfer.

I guess the Dean is keeping an eye on me. He must have figured out that I was killing more foreign creatures.

Nancy has been observing Zack Lockwood's reaction. She saw how he was calm and composed. Her heart set off storms. She knew Zack Lockwood's reputation.

He was one with Ancient Inheritance and killed a Klein Family member in a life or death duel. If the things were true then she could imagine the consequences.

Shortly afterwards,

They arrived before the teleportation platform. In front of them is an arch-like structure for entrance. The formations were laid inside.

"You can enter," Nancy said.

I collected my thoughts and walked in. I stood on the platform and looked at her.

Nancy's eyes flickered. She thought of something.

She said, "I hope you can become a Silver Mark Warrior soon. You are wasting your strength in small camps."

I raised my eyebrows in surprise. Then I nodded to her.

Buzz!

Nancy then activated the platform. I found myself disappearing from the spot. Before I knew it. I'm inside the space descending down.

Warrior Camp 368:

A few seconds later,

Tud!

I landed on the ground. It's another teleportation platform. It belongs to Warrior Camp 368. I opened my eyes and saw 2 people standing in front of me.

The pressure coming from their body is not ordinary.

I stepped out and walked up to them.

"Hello, Senior. I'm Zack Lockwood, Thunderflame Faction," I introduce myself.

The first person in front of me is a burly man with a 7ft height. Beside, a middle aged man with a obese body is looking at me with a kind smile.

If I'm not wrong they are Supervisor and Assistant Supervisor.

The burly man's eyes flickered. He is a veteran Gold Mark Warrior. He learned what happened from Dean Jerome.

"My name is Ben. I'm the supervisor here. His name is Robert. We call him Rob. He is my assistant," Ben said.

Hearing that I nodded to them.

"Zack Lockwood, you are quite famous now. You are wanted by the Klein Family. But they won't touch you here."

"So you can focus on the battles here. I know what happened in the Warrior Camp 400. No one in the Silver Mark level will target you."

"You can take care of rest of them. If you need anything else you can contact Rob. One more thing, try to break through as soon as possible," After saying that Supervisor Ben left the place.

Rob said, "I'll take you to your room."

"Thanks," I replied.

Then I started following him. Only after coming out of the main building, I saw the outside place. It's a contrast to my expectations.

Instead of greenery and tall trees. The place is filled with sand and mountain rocks.

Rob saw the reaction of Zack. He let out a chuckle before saying, "This warrior camp is located in a desert."

I was shocked. It's the first time I'm seeing something like this.

Then I continued to follow the assistant to my room. On the way, I spotted many warriors. Everyone is looking at me with a surprise and curious gaze.

I started believing that they have recognised me.

"You are famous. Everyone here knows about you," Rob commented.

"I don't know whether it's a good thing or bad thing," I thought.

Soon, we came in front of a building. He then guided me towards my room. Only after arriving in front of my room, I relaxed.

"Here is the passcode," Rob said.

I saw the passcode and memorised it.

"See you later," After saying that Rob left.

Then I used the passcode to enter the room.

Chapter 1293: Enemy side took action!

From MC's Perspective:

Camp 368,

I immediately began to check the room. After finding that place safe. I began to take a rest. I'm sure that Dean Jerome must have thought about the safety.

But I'm still curious about the place here. I don't know if anyone from the Klein Family is here. The confrontation is something unavoidable.

Meanwhile,

Assistant Rob comes to the office. He sees Supervisor Ben.

"I don't know what he has done. But it won't be good if infighting occurs here," Ben commented.

"And I'm sure that warriors are not stupid enough to fight this kid. So keep an eye on him," he added.

“Senior, why don’t we transfer this kid to another camp?,” Rob asked.

A quick gleam appears in the burly man’s eyes. It’s not like he didn’t think about it. But he can’t do that. By doing so, it would completely offend the Dean.

He said, “The Dean is protecting this kid. The Klein Family can’t do anything. All we have to do is to follow Dean’s order.”

Hearing that Roh understood. He nodded to him before leaving.

As the time goes by, the news about Zack Lockwood reaches everyone’s ears. The warriors were updated. They knew Klein Family Member was killed in a life or death duel.

But the Klein Family can’t do anything in the warrior camps. But they can ask the warriors to take action.

Right now, this camp has supporters of the Klein Family. Both in the Black Mark and Silver Mark Warriors.

The Silver Mark Warriors are like elders. They can’t step in. Only that Black Mark Warriors can fight amongst each other.

After knowing that Zack Lockwood entered their camp. How could they not welcome him? They found his room.

The warriors include both the bloodline and the elemental warriors. They are going towards Zack Lockwood’s room to find out some details.

It didn’t take long for them to reach his room. But they are hesitating who is going to knock the door first.

On the other hand, their movements were not secret. The Assistant Rob came to the spot quickly.

“What are you guys doing?” Rob confronted them.

Supervisor Ben was clear in his statement. He wanted to avoid the infighting as much as possible.

The warriors are surprised. They didn’t expect the Assistant Rob to appear so fast. But it doesn’t change their mind.

They have hostility against Zack Lockwood. The warriors then discussed among themselves before vacating the place.

Assistant Rob shakes his head. He too knew that warriors won’t cross the line. They might try to test the patience of Zack Lockwood, that’s all.

Everyone knows that Dean supports this kid. They won’t dare to offend Dean Jerome. He then leaves the place.

Zack Lockwood isn’t aware of anything. He is resting in his room.

—

Meanwhile,

The foreign creatures have taken a serious action. They are going to attack the warrior camp 400 next. The last two battles had caused them huge losses.

It had never happened recently. Before they could lose more foreign creatures to this camp. The foreign creature side decided to take over the camp 400.

It happened fast. They sent Silver Mark level creatures to the camp. When the battle alarm sounded. The warriors entered the cave structure to fight.

But to their surprise and shock. The creatures are one level higher than them. The warriors were killed easily.

It's too late to turn around. The foreign creatures are matching forward.

Outside,

Supervisor Linda and Assistant Nancy are standing outside the cave. They are here because of Zack Lockwood as well.

They wanted to know whether everything was safe or not. The foreign creatures had lost to them twice. They both knew that revenge would be stronger.

Since Zack Lockwood was not here. Their casualties will increase. But they don't have any idea that Silver Mark level foreign creatures have entered the passage.

A 20 minutes later,

The alarm sounded. Linda and Nancy are shocked. The battle ended so soon. Both of them had bad premonitions.

"Something is not right," Linda uttered.

Nancy's face was not good looking either.

A few minutes later,

No one came outside. Instead, a weird foreign creature with a flat body structure and tail appeared.

Upon seeing that Linda's expression changes drastically. She quickly shot towards the foreign creature.

Swoosh!

She appeared in a flash before the creature and released the coercion. The Gold Mark Level Coercion struck the foreign creature.

Pfff!

The foreign creature struggled a bit before its body exploded. The blood splattered across the ground.

Swoosh!

It didn't stop there. More and more foreign creatures with tails appeared.

Linda seems to realise something.

"Nancy, send the emergency signal. The foreign creatures are attacking to take over our camp," Linda said.

Hearing that Nancy nodded before going towards the office.

Boom!

Linda's eyes turned cold. She knew the foreign creatures wouldn't stay silent. But she didn't expect that they would attack the camp directly.

No need to guess. The warriors who went inside have died already. She can only try to protect the rest of the camp.

Time goes by,

More and more foreign creatures appeared. The numbers are enough to defeat the Gold Mark Warriors.

Swoosh!

One after another the Silver Mark Warriors appeared. They were the reserve teams in the camp. They were stationed to take care of such situations.

The foreign creature side can't be trusted. So they started fighting. The battle site is now outside the cave structure.

On the other hand, Nancy notified the dean and other warrior camps under Star University. The warrior camps are shocked.

It's been some time since such an incident happened. Now it's happening again. They can't allow the foreign creature sides to take over the camp.

Dean Jerome was angry. He allowed the backup teams to travel. He thinks that the number of Silver Mark Warriors stationed in Camp 400 won't be enough.

He too underestimated the plans of the foreign creature side. But he thinks he made a good decision to send Zack Lockwood away.

Chapter 1294: Part 1: Taking risk

From MC's Perspective:

Warrior Camp 400,

It didn't take long for the reinforcements to come. They joined the battle right away. Supervisor Linda retreated and allowed Silver Mark Warriors to fight.

She was able to discern a few things. The Foreign Creatures with tails are appearing from time to time. Clearly, the enemy side is sending out more people than who entered earlier.

She was glad that backup teams arrived on time. There are still people who are coming on the way. Clearly, they are not going to let the foreign creatures take over their camp.

She then returns to her office building to report to Dean Jerome.

—

Warrior Camp 368:

Alarm!

The battle cry sounded in the middle of the night. Everyone woke up from their sleep and rushed outside. Some of them are going to the cave structure.

On the other hand, I stepped outside. My gaze fell on the swarm of warriors going to the cave structure. I made a decision. Next, I started flying towards them.

The warriors are Black Mark Warriors. It's the same as the previous camp. I could see the anger and fighting spirit. As if deep hatred has already forged between them and the foreign creatures.

Soon, everyone arrived in front of the cave structure. The mouth of the cave structure is giving eery and chilling vibes. It's totally in contrast to the desert vibes here.

Tud!

One by one the warriors landed on the ground. Two more figures appeared out of nowhere and landed in front of them.

They are none other than Supervisor and his Assistant. Ben and Robert.

The burly man, Ben, swept his eyes across everyone. He received grave news earlier that warrior camp 400 was under attack. He doesn't know whether their only camp was targeted.

So it's necessary for him to warn everyone. Otherwise, they would be under attack as well.

The Black Mark Warriors are looking towards Supervisor Ben. They don't know why he has come. The battle cry had already sounded.

If they don't go inside, then the foreign creatures might come to their camp.

"I know you guys are confused. But there is important news to tell you. One of our warrior camps was under attack right now."

"Silver Mark Level Creatures have started attacking the camps. If you go inside the passage, you might come across the Silver Mark Level Creatures."

Supervisor Ben's voice reached everyone's ears.

Gasp!

A loud exclamation occurs. These warriors don't have a clue that such a thing is happening now. Everyone is having grave expressions on their faces.

They are hesitating whether to go inside or not. Some of the warriors have started trembling.

On the other hand, my eyes flashed with a sharp glint. I didn't expect the warrior camp to be under attack right now.

But I don't know which warrior camp it is.

Commotion!

The discussion started happening. Earlier everyone was ready to fight for life or death. Now, everyone is hesitating.

Going against the Silver Mark Foreign Creatures is nothing but a suicide. Even Black Mark Warriors with Ancient Inheritance will struggle against the Silver Mark Level Creatures.

Assistant Rob's eyes flickered.

He said, "Senior, why don't we send someone inside to test the water first."

Hearing that Supervisor Ben's eyes lit. Instead of sending everyone to their death. It's best to send someone first to check the situation inside.

Their conversation was not loud. Yet the warriors who are paying attention heard it clearly.

"Quiet!"

"Is anyone willing to check out the situation inside?" Supervisor Ben asked.

The atmosphere turned quiet the next moment. Everyone heard it clearly. Now the warriors are looking at each other's faces.

On the other hand, I decided to take risks. It's an important situation. If I don't do anything right now, it could create a bad impression.

Next, I walked forward.

Gasp!

Everyone's gaze fell on me.

"Hey, he is Zack Lockwood!"

"He is a Thunderflame Faction member!"

"He is the one who killed Klein Family Warrior!"

The warrior started making noises. At this moment, everyone is looking at Zack Lockwood. Even the supporters of Klein Family saw Zack Lockwood for the first time.

Including those who went to his room earlier. At this moment, even their hatred reduced somewhat. The other neutral warriors appreciated Zack Lockwood.

Those who had complaints earlier. Now they couldn't help but to erase them. The other warriors who hated Thunderflame Faction now don't know what to do.

If there is a best time to prove the prestige of the Faction, it's the best time right now.

I appeared before the Supervisor and Assistant Supervisor. Both of them are impressed.

Supervisor Ben's eyes flashed with appreciation. Even the Assistant Rob put away his little calculative thoughts against Zack Lockwood.

Both of them had their opinion about Zack Lockwood earlier. Now they think it's right for Dean Jerome to be protective towards Zack Lockwood.

They need more warriors like Zack Lockwood.

“Zack Lockwood, are you serious about it?”

“Anything can happen to you?”

“I won’t send a second warrior inside until we confirm the situation inside,” Supervisor Ben said with a serious face.

Hearing that I nodded to him.

“Then good luck. It’s already quite late. I think those things must have reached our side,” Ben added.

Swoosh!

Next, I entered the cave structure and disappeared from their side.

Everyone watched it. Unfortunately, none had courage to accompany Zack Lockwood.

“Sigh!”

Supervisor Ben let out a sigh. He then thought of something important.

He said, “I guess you already know about him. He is Zack Lockwood. Recently, he killed a Klein Family member in a duel. It’s a life or death duel agreed by both sides before the duel.”

“So I hope you guys won’t cause unnecessary problems to Zack Lockwood. Remember, the Klein Family won’t send its people to take risks for us,” he added.

His words are like cold water poured on everyone's head. They woke up from their illusion. They knew they were fighting against the foreign creatures. So the unity among them is important.

Chapter 1295: Part 2: Taking risk

From MC's Perspective:

Inside the cave structure, I arrived in front of the passages. There are multiple passages with different mouth sizes.

My gaze sweeps across the passages. I don't know what's going to happen next. But I'm ready to face it.

To my surprise, the foreign creatures have yet to reach this site. I don't know whether they are Black Mark or Silver Mark Level Creatures.

Anyway, it doesn't matter. My task is to eliminate each and every foreign creature that comes to this side.

Next, I brought the white bone staff outside and held it in my right hand.

Just in case for safety, I coated the white bone staff with Thunder One Force. The white bone staff is covered in a purple lightning arc in a shot.

The white bone staff is beaming with power right now.

Grrrr!

A weird noise sounded all of a sudden.

Hearing that I turned my attention towards one of the passages. A huge insect type foreign creature appears with antennae and wings.

It's standing on its legs. The height of the insect creature is twice the height of the humans. It looks menacing and dangerous.

The back wings looked like the metallic wings.

It's the first time I'm facing such foreign creature. I'm also feeling a sense of threat coming from it.

Swoosh!

The insect creature shot towards me the next second.

My expression turned grave. Using my perception, I moved sideways to avoid the confrontation.

Boom!

The insect creature's wings struck the ground. It goes slicing through the ground surface. If I were to be in that place, then my body would have been sliced.

A cold hint appeared in my eyes.

I darted out towards the insect creature with the white bone staff in my hand. When I got closer. I swiftly brought the white bone staff downward.

The insect foreign creature senses the danger. It tries to avoid it. But I heavily brought the white bone staff to strike down the insect creature.

Boom!

The purple lightning force filled white bone staff comes in contact with foreign creatures. The next second, the lightning power bombarded the insect creature's back.

Boom! Boom!

One after another thunderous sound occurred. The purple lightning covered the creature's body like a spider web.

The purple lightning power came into effect. It is electrocuting the foreign creature.

Grrrr!

Seeing that insect foreign creature frozen on the spot. I immediately used the white bone staff to strike down the insect creature again.

A few minutes later,

Boom! Boom!

After landing the multiple strikes, the foreign creature is completely being paralyzed by the purple lightning.

The purple lightning power is rampaging through the creature's body causing destruction to both internal and external bodies.

Click!

At one point, the internal organs burst open. The destructive Lightning power continues to cause damage.

The creature suffered fatal injuries. Because of it, the vitality is being reduced drastically.

In a flash, the vitality drops to very low. The foreign creature dies in the end. I looked at the insect creature with solemn expression on my face.

"It's the Silver Mark Level Creature. That's why it took me a couple of strikes to kill it," I thought.

Boom!

Just as I'm thinking over it. I heard the next sound. I'm sure another foreign creature had come. If this insect type creature goes outside. They will cause a blood bath.

The similar foreign creature walks out of the passage. It sets its gaze on the human warrior. But it immediately sensed the breadth of the fellow Creature.

Upon seeing the corpse, the insect creature enraged. It immediately uses its wings. The next second, it shoots through the air to attack the human warrior.

Swoosh!

On the other hand, my perception was active. I brought the white bone staff forward. The thunder one force power was still left in the staff.

Boom!

In a flash, both of us confronted each other. The insect creature uses metallic wings to attack.

Clang!

A metallic noise occurs when the staff comes in contact with the metallic wings.

Boom!

The next second, I felt the impact force in front of the metallic wings. I retreated before swinging the staff horizontally to target the insect creature's body.

Swoosh!

The foreign creature moves its body to collide into the staff in a shot.

Boom!

The impact force shook the white bone staff. I could feel the strength of the insect foreign type creature. My eyes glinted with an understanding.

Then I mixed the thunder force and shock force together.

Next, I retreated to create a distance. Then I coated the white bone staff with the mixed shock force. Fortunately, I practise the body method as well.

Because of it. I was able to contend against the insect foreign type creature.

Boom!

Time goes by,

I continued to rely on the white bone staff to inflict damage to the foreign creature. The purple lightning force mixed with shock force is tearing apart the foreign creature.

Many ruptures appeared in foreign creature's bodies within a few minutes. The torrent of blood gushing forth from its wounds.

Yet the insect foreign creature continued to entangle with me. But it's dying faster than the previous insect creature.

A few minutes later,

The insect creature died due to loss of vitality. Its body dropped dead on the ground. I looked at the corpse riddled with many external injuries.

The addition of the shock force adds the external injuries to the foreign creature. It caused the death of the foreign creature faster.

Outside,

The Supervisor Ben and Assistant Rob are discussing. It's been several minutes since Zack Lockwood entered inside. They don't know what's going on.

But one thing they can say for sure. It's that Zack Lockwood is fighting. If he was dead, then the foreign creatures would have reached this end.

So they are waiting for the alarm to sound. It only happens when the battle stops. Until then both of them decided to wait.

Supervisor Ben looks at everyone's gaze. His piercing gaze is checking everyone.

If others showed courage to go inside, then it could help Zack Lockwood. But he knows the likelihood of that happening is small.

Chapter 1296: Creating a record!

From MC's Perspective:

Time goes by,

I'm fighting against the 2 insect creatures at the same time. Just as I thought the insect creature is going to die. Four more insect creatures made an entry.

My eyes turned cold. This fight was not less than that of a trial. I'm fighting against many foreign creatures. Finally, I have decided to use the dull golden sealing force.

Boom!

I circulated the golden sealing force. Then I struck the body of the insect creature one after another. The 2 insect foreign creatures froze on the spot.

The 2 foreign creatures stood like a statue. Then I rushed out towards the 3 foreign creatures. I coated the white bone staff in golden sealing force.

Swoosh!

In a shot, I arrived in front of the 3 foreign creatures. The foreign creatures are ready to attack me. Under my perception, I shifted my body and struck the first creature with the golden sealing force.

Boom!

Then I immediately struck the 2 remaining foreign creatures with the golden sealing force. In the blink of an eye, all the five foreign creatures are frozen like a statue.

I felt my purple lightning essence in the dantian . But the quantity was low. So I decided to use the bright blue water force.

I put the white bone staff back in my storage ring first. Then I covered my fist with bright blue water before hitting the foreign creature.

Boom!

The punch landed squarely into the insect creature's stomach.

Boom!

The blow sent the foreign creature reeling. At the same time, the variant water element power comes into play.

The hot boiling water left holes in its abdomen. A torrent of blood gushes forth while the creature crashes into the ground.

Swoosh!

Next, I struck the remaining 2 foreign creatures in quick succession. The blow catapulted the insect creature across the ground.

The second creature was blasted backward in a similar fashion. This was all happening within minutes.

I didn't forget the 2 foreign creatures. I used the same bloodline power to smash their head.

Pfff!

Next, the blood dyed the ground. After dealing with the foreign creatures, I heaved a sigh of relief.

Then I began to observe the dantian. Thunder One Force and Shock Force were dried out. My first lightning method's force and healing force remained.

I'm not planning to use them next. Unless, it's necessary. I don't use them. Hereafter, I'm going to use the dull sealing force and bloodline bright blue water force.

Time goes by,

I encountered another team a 5 minutes later. This time it's four insect foreign creatures. They are in similar height and strength.

As the time passed, I used the same tactics to kill one foreign creature after another.

—

Outside,

The expression of everyone turned grave. They don't know whether Zack Lockwood was alive or not. It's been more than one hour.

Yet the battle is going on. The alarm is not ringing. They don't know when it's going to happen. So each passing second they are nervously looking at the entrance.

If Zack Lockwood was dead, then the foreign creature would definitely come to their side. But they don't have any idea that Zack Lockwood is killing the enemies alone.

Buzz!

At one point, the alarm sounded again. Hearing that everyone sighed in relief.

Supervisor Ben and the Assistant Rob exchanged looks. They are relieved. They don't want to be the reason for Zack Lockwood's death.

Dean Jerome is supporting Zack Lockwood. In the one hour, Supervisor Ben received so many calls from the Dean.

Initially, he didn't want to report. But he knows by doing so he would be breaking the rules. So he reported to Dean Jerome earlier.

Surprisingly, Dean Jerome was calm. He didn't scold him. Now that the alarm was sounded. He wanted to know what happened inside.

Now, everyone is looking towards the cave.

Tud!

Under the gaze of everyone. I appeared outside.

My body is covered in sweat and blood. The clothes are torn apart. There are minor claw injuries on the body.

Gasp!

The crowd exclaimed in a surprise. They didn't expect Zack Lockwood to come alive. What more? He had fought the entire session.

It meant he killed those foreign creatures. Now they are wondering whether it's a Black Mark Level or Silver Mark Level Foreign Creature.

Supervisor Ben's nervous brows relaxed. Assistant Rob was shocked. "He really did come out alive," he thought.

He felt fortunate that he didn't do anything bad against Zack Lockwood.

Supervisor Ben said, "Take him to the infirmary."

Hearing that a few warriors started guiding Zack Lockwood to the infirmary. Then he turned towards Assistant Rob.

“Go and check inside,” Supervisor Ben said.

Hearing that Rob reacted and quickly went inside to check.

He appeared inside and came across the piles of corpses. The corpses’ thick blood smell and aura is giving the coercion of the Silver Mark Level Creatures.

When Assistant Bob saw this view. His mind went blank. He immediately felt legs go weak. His whole body is trembling with fear.

This scene horrifies him. He didn’t expect Zack Lockwood to kill all the foreign creatures. What more? These foreign creatures are Silver Mark Level Creatures.

If the Black Mark Warriors had entered earlier, then they would have died for sure. Then it would have become easy for the Silver Mark Level Creatures to attack their camp.

Assistant Bob collected his thoughts. Next, he turned around and started darting towards the exit. He himself is a Silver Mark Warrior.

Yet, a cold shiver went down his spine.

Swoosh!

In a flash, he appeared outside. Everyone looked at him. He looked unsightly. He was covered in sweat and face looked contorted.

“What happened?” Supervisor Ben asked.

He found out Assistant Rob was in a state of shock.

Assistant Bob then turned towards him.

“Senior, it’s a Silver Mark Level Foreign Creature. I saw a small mountain of corpses. Zack Lockwood had killed all those foreign creatures,” He said in a trembling voice.

Gasp!

The warriors sucked cold breath of air. Some of them swallowed their own saliva. It’s hard to believe. Yet Assistant Bob’s appearance and his words were convincing enough.

Chapter 1297: Return to the Star University?

From MC’s Perspective:

Supervisor Ben said, “Everyone should keep this matter a secret. No one is going to leak this information.”

“You can go back to your quarters now,” he added.

Hearing that the Black Mark Warriors agreed to keep this news secret. They knew once the news was leaked. The foreign creatures will target Zack Lockwood.

Next, they vacated the place. Only Supervisor Ben and Assistant Rob were standing there. Rob is not in condition to speak. He needs rest right now.

So Supervisor Ben told him to take a rest. When Rob left the place. Ben summoned a few Silver Mark Warriors. Like any other camps they are here for emergency tasks.

They were watching the things from the sidelines. They knew what happened here.

“You guys guard the post here. If there is any change, you should inform me right away,” He said to them.

The Silver Mark Warriors agreed and took their positions.

Supervisor Ben then left the place. He is going to meet Zack Lockwood in the infirmary.

Meanwhile,

Zack Lockwood was treated with the healing liquid. It is administered through the syringe.

I could feel the warm sensation inside the body. The healing energy is healing the injuries. Fortunately, I didn't suffer serious injuries.

Before I could run out of all the inheritance forces. I have defeated the enemy camp. But this situation was not right. One person cannot control the whole situation.

If I was not here, then the camp would have been slaughtered. I don't know what Dean Jerome is going to do.

Creak!

The door opens. Supervisor Ben walked in. He walks up to Zack Lockwood's bed.

He said, “Zack Lockwood, you did something amazing today. You risked your life to face those things. I have reported to Dean Jerome.”

“Don't worry, the situation will be sorted out. So you should focus on your recovery,” he added.

Hearing that I sighed in relief and spoke to him for about a few minutes. Then he left the place. After breaking through to become Black Mark Warrior, I stopped thinking about the next step.

I'm feeling a sense of urgency. Being Black Mark Warrior is not enough. I should become a Silver Mark Warrior. Then Gold Mark Warrior as soon as possible.

Then only I am able to influence the battle. But breaking through Silver Mark Warrior is not easy. It involves some conditions.

You need to perfect the first chapter of Ancient Inheritance. Then your inheritance force should reach a limit. So that your dantian can't accommodate more.

Naturally, the breakthrough occurs when dantian expands in size leading to Silver Mark Level. He has decided to pay more attention to the practice.

Maybe he will be the first warrior to become the Silver Mark Warrior faster.

—

Star University:

Dean Jerome heard the news. He was glad that Zack Lockwood was safe. At the same time, he understood that foreign creatures were testing them.

They have found an anomaly. They didn't know why their Silver Mark Level Creatures were dead. So they will continue to send their warriors to each camp to find out the reason.

Dean Jerome's eyes flickered. He wanted to protect Zack Lockwood. At the same time, he wants to save other warriors as well. He can't ignore them.

So he is pondering how to solve this problem. He can't let Zack Lockwood remain in the Black Mark warrior camp. He thinks Zack Lockwood will continue to kill the Silver Mark Level Creatures.

If the kid doesn't do that then his camp will be raided by the foreign creatures. Finally, he has decided to call back Zack Lockwood.

Once Zack Lockwood was not in the camp. Then the situation will return to normal. Next time, he decided to send Zack Lockwood to the Silver Mark Camp.

In that way, the foreign creatures won't find anything abnormal. Then he sent a message to Supervisor Ben. Once Zack Lockwood was recovered. He will leave the camp to return back to Star University.

—

Time goes by,

The following day,

I got discharged from the infirmary. The first thing I did was to go and see Supervisor Ben. He told me to visit him earlier.

When I arrived at the main building. I went to his room. I walked into the room. I saw him sitting behind the desk talking to the Assistant Rob.

Assistant Rob's complexion looks better. I heard he was devastated by the sight of the corpses.

Assistant Rob saw Zack Lockwood. There is a fear in the depth of his eyes. He couldn't believe that a young man had such prowess.

He believes that there is no problem in Dean Jerome supporting this young man.

Supervisor Ben smiled and asked, "How are you now?"

"I'm doing fine, senior," I replied.

“Good!”

“Dean Jerome asked you to come back. Now you are going back to Star University,” Ben said in a serious tone.

Hearing that, I raised my eyebrows in surprise. I knew there must be a plan. But I didn’t expect Dean Jerome to ask me to come back.

Ben saw through his thoughts.

He said, “Don’t think too much about it. I think Dean Jerome doesn’t want the foreign creatures to know your existence.”

“If you continue to stay in the warrior camp to fight, the foreign creature will soon find out your existence,” he added.

Hearing that I understood his concerns. Perhaps, Dean Jerome is right. Then I nodded to him and agreed to leave.

Before that I decided to visit my room first.

“Alright, I’ll come back in 20 minutes,” Ben said.

I nodded to him before walking out of the room. Then I headed back to my quarters. I came across warriors on the way.

Surprisingly, they nodded to me. I nodded to them in response. I noticed their eyes filled with respect and awe.

None of them had prejudice anymore. I felt satisfied inside. This changed what I wanted to see. The infighting leads to nothing but loss for us.

Whereas the foreign creatures are working as one to eliminate us. Soon, I returned to my room. I started packing things. I couldn't help but think about the Klein Family.

I'm sure they haven't changed their plans yet.

Chapter 1298: Part 1: Fighting against Gold Mark Warriors!

From MC's Perspective:

20 minutes later,

I arrived in front of the teleportation platform. Supervisor Ben and Assistant Rob are here with me. They gave me their wishes.

I thanked them for their help before entering the teleportation platform. I stood inside the formations.

Supervisor Ben activated the teleportation platform.

Buzz!

The platform was activated. I felt my mind go blank. I'm kind of descending down. Before I could figure it out. I found my foot back on the solid ground.

The surroundings become clear. I have appeared at the random forest. But this place has a teleportation point. Then I stepped outside and used my perception to observe the place.

If I'm not wrong, the purple mark guard would come to pick me up.

Rustle!

Suddenly, I found something in my perception. There are six figures coming towards me. My eyes flashed with seriousness.

The way they are rushing towards me. I doubt they are friendly forces. Don't tell me they are from the Klein Family.

I felt the adrenaline rush the next second. But I tried to calm myself to confront them. All the men are wearing black clothes and masks to hide their identity.

Which made them more suspicious. In a flash, the first person reaches me. I immediately spotted a silver glow in both of his fists.

He is using an element to attack me. Seeing that I responded in a similar fashion. I covered my fist with the Thunder One Force.

Purple color lightning jumps in both of my hands. When his fist was about to land on me.

Booom!

I punched forward. Both of our fist comes in contact. A terrible collision occurs. I immediately felt an overwhelming sharp metallic metallic element tearing my fingers.

I'm feeling incredible pain for the first time. If it goes on my hands could be disabled.

At the same time, the power of purple lightning travels through the opponent's arm. The passing current electrocutes the skin and nerves.

Next second, both of us retreated forward. I looked at my bloodied palm in disbelief. A cruel realization dawned on me. The opponent is Gold Mark Warrior.

To think a Gold Mark Warrior has come to kill me. I don't know what to say.

"You are indeed a threat," the opponent uttered.

At this time the other 5 members have already arrived. They heard this person's words. Their eyes flashed in disbelief. Right then, they made a decision and started attacking me.

Boom!

The next second, I saw a person using a blazing red fist at me. At the same time the other members started using their elements.

I felt a sense of crisis. I never fought against the Gold Mark Warriors before. It's dangerous to encounter them all at once. But I don't have any choice right now.

I gritted my teeth and used the lightning defense technique.

"Lightning Wheel!"

A purple wheel of lightning appears around me in a flash. The next second, all the elemental attacks collided into the wheel.

Boom!

A massive explosion occurs. My body was sent back flying like a projectile. The power of the lightning wheel was destroyed by the multiple Gold Mark Level attacks.

Tud!

My body crashes into the fields. The fall was a bad fall. If not for my body strength, I could have suffered internal injuries already.

But this is not the time to ponder over this. My opponents are the Gold Mark Warriors. A hint of ruthlessness appeared in my eyes.

I never fought a life or death battle. This is going to be my first time. I started to circulate the blood force and shock force.

The blood force covers my skeleton. The red force in both of the skeleton hands becomes activated. My hands are now covered in both shock force and blood force.

The combination of these two forces are deadly. Then I stood up after some struggle.

Swoosh!

The six men appeared before me in a flash. Then, I took the initiative to charge forward. My perception was active.

The six men are surprised. Then they all sneered. They knew that the young man was putting up a dying struggle.

The middle man in front. Once again he uses the silver element to attack. This time he didn't hold back. His right hand is covered in sharp spikes.

Boom!

In a flash, I slammed my fist into his hand. The next second, the blood and shock force mixed with power shattered the metallic spikes and entered the opponent's arm.

The power rampages through his right arm. The skin and flesh burst open. If the power persist it could shatter the right arm entirely.

Pfff!

Blood sprayed on the ground. Upon seeing that the rest of the warriors were dumbfounded. They never saw Black Mark Warrior injuring the Gold Mark Warrior. It's the first time.

They thought no wonder the Klein Family would die in his hands.

"Don't give him any chance. Finish him," the middle aged man roared. He was injured by the Black Mark Warrior. If this gets out then he will become a laughing stock.

The other five men used their element attack techniques at the same time.

On the other hand, I felt a sense of crisis again. I don't have any choice other than to use a purple lightning wheel.

I executed the attack technique with the shock force. The shock force gave additional power to the wheel.

Boom!

When their attacks landed on the wheel. The wheel explodes. At the same time, the power bombarded everyone. It was not destroyed like the last time.

The impact force sent me backwards. The attack power landed on others causing injuries. The shock force power broke their Gold Mark Level skin.

Tud!

On the other hand, I was forced to stabilize myself. The fight was not over. I need to go all out to kill these people. I don't know how they found out my whereabouts.

I absolutely can't let them escape after showing this much power. I decided to use the sealing force as well.

Meanwhile,

The Purple Mark Guard is watching from the shadows. Actually, he had long since arrived. It's because of Dean Jerome's order. He is testing Zack Lockwood.

They want to know how strong Zack Lockwood was against the Gold Mark Warrior.

Chapter 1299: Part 2: Fighting against Gold Mark Warriors!

From MC's Perspective:

The six men suffered skin injuries. Their Gold Mark Level defense was broken. Their faces are filled with horror and disbelief.

If they weren't Gold Mark Warrior, then they could have died from the attack. They got angrier. The threat level of Zack Lockwood increased in their mind.

If they don't take action today, then Zack Lockwood will become a bigger threat in future.

"Kill him!"

The six men went forward to attack again.

On the other hand, I didn't hold back. I started to mix the shock force and the blood force again. Not only that I ignited the blood force in the skeleton.

Hereby, boosting the strength of the body.

Boom!

The next second, a fierce battle took place. A different type of elemental attack overturned the ground.

As time goes by,

The shock force swept away the surroundings. The overgrown bushes and nearby trees are uprooted.

My fist landed squarely on one of their chests. The power behind the punch damaged the opponent's chest bones.

Pfff!

He coughed up a mouthful of blood. He could believe he was injured by Black Mark Warrior. The condition of the other five warriors is not better either.

The continuous collision with Zack Lockwood has broken their defense. They are dealing with multiple blows.

The blood and shock force power hurt their internal organs. The Gold Mark Warriors are perplexed. They don't know what kind of Inheritance Force Zack Lockwood was using?

Because they had done their research before coming here. They had seen online footage where Zack Lockwood used the purple lightning element.

But they are encountering something different right now. Yet they didn't give up. Ultimately, they are ranked higher than Zack Lockwood.

They can fight for a longer time.

Time goes by,

They continued to trade blows. Zack Lockwood's clothes are torn apart. He looked bloodied. During the fight he traded heavy blows.

Receiving blows from Gold Mark Warriors hurt his body as well. He is purely standing because of his will. His internal organs are still hurt.

The various elemental attacks exposed his hand and leg bones. The injuries are quite serious. If this goes he might die here today.

The 6 Gold Mark Warriors are in bad shape. But they are not as bad as Zack Lockwood. They could see that the young man was forcing himself to stand up.

He will die sooner. It's just a matter of time.

20 minutes later,

"Zack Lockwood, I didn't expect you to be hidden!"

"Outside, they are saying that you have a purple lightning element!"

"But we have found that you are using a special element as well."

The scar faced middle aged man said. They have traded blows with him. Yet Zack Lockwood in spite of being Black Mark Warrior. His body is withstanding their attacks.

During the fight, they found an unknown force harming their body as well. They didn't know the force. That's why they look bad right now.

"I don't know what secret you are carrying!"

"But you are not only what others say!"

"It's a pity that you are going to die here."

The scar faced middle aged man continued.

He then looked at the other 5 men. They decided to go one last round against Zack Lockwood. They don't think Zack Lockwood will be alive at the end of the round.

Boom!

On the other hand, my shock force was dried out. I didn't give up. I still have the bloodline power with me. If I use that power, I'm sure these people will be injured further.

Boom!

I started to circulate the bright blue water force. The variant water force travels through my body. In a flash, the force covered both of my arms.

When the scar faced man appeared. He started charging towards him to attack.

The scar faced man is grinning. He had never seen such a mad young man before. He is putting up a dying struggle.

He too likes to torture the genius before their death.

Boom!

The next second, the scar faced man faced a punch. He sees Zack Lockwood punch glows with bright blue color.

He sneered. He thinks it's another trick. He smiled before raising his fist to encounter.

Boom!

Both the closed fist comes in contact with each other. The scar faced man froze. His smile disappeared. He felt a powerful force striking his hand.

Aaahhhh!

He let out a terrible scream. The punch rocketed him away the next moment. He then crashed into the ground.

The other five Gold Mark Warriors snapped back. Something unbelievable happened before their eyes.

Swoosh!

The next second, they charged forward to attack.

On the other hand, I'm impressed with the bloodline force. It was more destructive than I thought. Then I turned my gaze towards others.

Swoosh!

Next, I darted out towards them. A terrible fight took place. We continued exchanging blows.

But this time I have the upper hand. The five warriors are suffering at the other end. Their injuries have worsened.

Meanwhile,

The Purple Mark Guard sucked cold breath of air. He didn't expect Zack Lockwood to fight back. Not only that, Zack Lockwood is fighting back. He is gaining the upper hand as well.

Time goes by,

The situation turned one hour later. All the 6 Warriors are laying over the ground. They are beaten to half death.

Zack Lockwood was heavily injured as well. Though Zack Lockwood defeated others. He was in worse condition. If not treated immediately, he would die in the end.

He thinks it's time to make an entrance.

Swoosh!

He appeared before Zack Lockwood.

I was stunned. I didn't expect the Purple Mark Guard to appear at the right moment. But I'm glad. I don't have to face another threat anymore.

"You did well. Don't worry. I'll take care of others," After saying that the Purple Mark Guard killed the Gold Mark Warriors and disposed of their corpses.

He then erased their traces. After doing that he turned towards Zack Lockwood.

"I was watching from the beginning to assess your combat strength. I was following Dean Jerome's order," The Purple Mark Guard said.

"Dean's order," I uttered.

"Yeah, you will know everything soon. Let's go back now," He said in a solemn tone.

Chapter 1300: Quiet Recovering!

From MC's Perspective:

Star University:

Inside the medic clinic, the advanced healing liquid was administered to Zack Lockwood. He suffered gruesome injuries. Including broken bones and injured organs.

The advanced liquid was made from expensive healing fruits from the secret land. Even Dean Jerome has given out one of his priced expensive fruit.

But the energy was too large. Not only will it cure injuries but the remaining energy will strengthen Zack Lockwood's soul and mind.

Most warriors don't pay attention to these two things. But there are warriors who were specialized in this aspect and had Inheritance related to it.

Right now, no one knows about Zack Lockwood's return. Except, the Dean Jerome, Purple Mark Guard and Elder of the Medic clinic.

One of the elders of the Medic Clinic was an old man. His name is Gerlad. Purple Mark Healer. He rarely makes public appearances. This time he was personally asked by Dean Jerome to step in.

Right now, the Purple Mark Guard is standing outside the room. Dean Jerome and old man Gerlad are inside.

"So this kid is practising 2 Ancient Inheritance and 1 Red Mark Level Inheritance," Gerald asked out in surprise.

"Sigh!"

Dean Jerome breathed a sigh of relief.

He said, "I didn't know this kid is related to the Ball Family. Only after the bloodline awakening, the truth came out."

"Then the kid happens to have a pure bloodline. Francesa taught him the bloodline technique."

"But the news is too incredible. If the foreign creatures learned about this, then the kid will be targeted."

"The kid had been hiding his inheritance force. The faction infighting had forced him to come out. The Faction Leader Clifford then found Thunder One Force for this kid."

"Now the outside world thinks that he has purple lightning Inheritance," Jerome added.

Old man Gerald said, "Well. It's not a big thing. This kid is not only one with dual inheritance. But he is the one with the least protection."

"He doesn't have a background. No wonder you did this," he added.

Gerald completely believed it. Because he checked the kid's dantian earlier. It's filled with many inheritance forces. He didn't pay too much attention.

He only tried to check the dantian injuries. But the kid didn't have one.

Fortunately, the old man didn't check the inheritance forces. Because he would have found an extra one.

Even Jerome never paid attention to the dull golden sealing force. According to him, Zack Lockwood doesn't have secrets before him.

Both of their ignorance, Zack Lockwood's important secret was protected.

"If he wakes up, inform me right away," Jerome said to old man Gerald.

"This kid's body needs to digest those energies. He will wake up in two days," Gerald replied.

2 days later,

I opened my eyes and saw the ceiling above my head. Next, the flood of memories came back to me. Then I realised what happened.

I had fought against the Gold Mark Warriors. I left them half beaten to death. The Purple Mark Guard arrived in the end to rescue me.

Then I looked at my surroundings and realised the current location. It could be the campus's medic room. My attention shifted to the body.

My body was bandaged. It has covered most of the body. I remember being brutally injured in that battle. Then I started to check internally. The internal injuries were all healed.

Then I turned my attention to the dantian. The purple lightning seed is there. But the Inheritance forces around it were exhausted.

Then I recalled something. I don't know whether anyone inspected my dantian. If they did then the golden sealing force would have been exposed.

At this time, I didn't care much. Even if they found out something, I would lie again. They already knew about my three inheritance. It doesn't hurt if they knew about one more.

There is also this ancient incomplete healing technique. My eyes flashes with a gleam. I didn't know what they had given me.

But I could feel hidden energy in the body. I have decided to run the incomplete ancient healing technique.

Then I closed my eyes and started to do that. The healing energy from the surroundings enters the body.

As per the method, I started to guide the healing energy. The healing energy is coursing through the veins. I could feel the cooling sensation this time.

It's making me relaxed. Master Ann told me that mastering an incomplete healing technique would give me some healing ability in the end.

Now, I have recovered from the injuries. I began to realise the importance of it. Then I continued to pay attention to the circulation.

Suddenly, something happens. The veins and meridians are absorbing the healing energy. At first I didn't notice it.

But when it tried to gather healing force/energy in dantian. I realised that the quantity was low. Then I discovered the special changes.

I tried to speed up the process. At normal times, it would be difficult. This time I could find myself easily operating the ancient healing technique.

The speed was faster than before. My eyes glinted with an understanding. Every time, when there is injury in the body.

The speed of the ancient healing technique circulation was faster. I think only the injuries and recovery could trigger the changes.

I think the continuous absorption of healing energy by the veins and meridians would lead to an awakening of healing ability.

Time goes by,

One hour later. I ended the practice. The veins and meridians didn't absorb the healing energy anymore.

Sigh!

I sighed inwardly. The discovery was good. But I'm not going to self-inject the wounds on me. The ancient healing technique's progress is going to be slow.

Then I collected my thoughts and recalled the experience of fighting against the Gold Mark Warriors.

Their bodies are like metal shields. Their skins are hard to break. Even the elemental techniques used by them are destructive.

A simple silver metal spike hurt my hands at that time. And those Gold Mark Warriors are not average Gold Mark Warriors. They are talented warriors as well. It's a pity that they decided to go against me.

I think the Klein Family is pissed off right now.
