

## **BloodLine 1311**

### **Chapter 1311: 11th Class Tiger Monster!**

The Dean Matilda saw that Star University people had come. Her demeanor changed. She was happy a while ago. Now her eyes turned cold.

The Black dot got closer. Then everyone saw a huge sky carrier in the sky.

Swoosh!

Shortly afterwards, many wizards flew out from the sky carrier. In the blink of an eye, everyone appeared outside.

The Purple Mark Guard and a few other Purple Mark Elders came to greet Dean Matilda.

Matilda's eyes flickered.

She said, "I didn't expect you to come."

She recognised the Purple Mark Guard. He is the right hand man of Dean Jerome. She still doesn't know whether the Purple Mark Guard is hiding his strength or not.

"It's nice to see you, Dean Matilda. Dean Jerome asked me to tell you that Star University will never forget this favor," He said.

"Hmmm," Dean Matilda hummed.

Her eyebrows eased down. She then swept her gaze across the warriors. The warriors came in exact numbers, not one more or less.

“Alright, enter the secret land. We don’t know about the rules of the secret land. So explore the place carefully,” She said.

Her voice sounded across everyone. The Red Moon University Warriors are excited to enter the secret land.

Purple Mark Guard appeared in front of the Star University Warriors. His eyes scanned everyone and passed over Zack Lockwood.

“You guys heard it. It’s basically a new secret land. We don’t know the rules. You have to be careful all the time.”

“Once the time is over. I think you all will be ejected out of the secret land,” The Purple Mark Guard said.

The Other Purple Mark Guard elders beside him spoke a few words of advice as well.

Swoosh!

First, the Warriors from the Red Moon University started to enter one by one. The Black Mark Warriors are entering the space crack.

Not long after, the Silver Mark Warriors have started entering the space crack. It didn’t take long for them to enter. Once they were done.

The Gold Mark Warriors started entering the crack.

The Star University Warriors waited for them to enter.

A few minutes later,

It's time for the Star University Warriors. We came in front of the space crack. I felt the gazes of the Purple Mark Guard.

There is another cold gaze from the Senior brother which never left my back. One by one the Black Mark Warriors started entering.

Soon, it was my turn. I stepped inside the space crack. The next second, I found myself descending down.

Tud!

I landed on the ground. The next second, I activated the perception ability. My senses immediately covered the surrounding areas.

Seeing that no threats around me. I sighed in relief. Fortunately, there is no one around me. Everyone must be teleported to different locations.

Then I took the face mask and put it on my face. Then I took the white bone staff outside. Everyone knows about my sword.

But they didn't know about the white bone staff. I will use the staff to deal with everyone.

Roar!

A loud roar brought my thoughts back to reality. The vegetation around me is dense. It's hard to see the open cover.

Fortunately, I have my perception. I could feel something coming towards me.

Thunder!

I held the white bone staff tightly and circulated the Thunder One force. In a flash, the white bone staff was covered in purple arcs.

Roar!

The next second, a 3 metres tall tiger appeared before me. The tiger monster looked ferocious. It's giving oppressive pressure. It has two long saber teeth.

It has a red body and flying wings.

A hint of surprise flashes in my eyes. It's the first time I'm seeing a monster above the Black Mark Level. The power coming from is similar to that of Silver Mark Warrior.

Roar!

The 11th Class Tiger Monster Roared. For the first time, it's seeing humans come to this land. It became bloodthirstyness quickly.

The scent of human blood is alluring to it.

Swoosh!

The next second, it charged forward. The flying wings give an added boost in speed.

My eyes turned serious. I didn't have time to appreciate the monster. It's going for the kill. Unfortunately, it's going to die by my hands next.

Boom!

In my perception, I could see the monster. It's aiming for my hand. When it got closer. I shifted my body to the side.

Then I guided the staff in low, sharp thrust towards the abdomen of the monster.

Boom!

Thunder one force filled thrust struck the abdomen. A powerful purple lightning started rampaging the monster.

Raor!

The monster body flew backwards before smashing to the ground. The attack was unexpected. The Tiger Monster has suffered a terrible injury right now.

The purple lightning left a deep wound with charcoal marks. The purple lightning power is paralyzing the monster. But it would get up soon.

A hint of surprise flashes in my eyes.

My staff practices were worth it. The strike came after long hours of practice. I didn't expect to use it against the monster.

Roar!

The Tiger Monster stood up. Just as I'm thinking it would start charging again. The next second, the monster fled from the spot.

My eyes filled with surprise. I didn't expect the monster to flee in the end. The monster disappeared into the woods in the blink of an eye.

I don't know whether to laugh or cry. Then I decided to look for the resources. My main goal is to become a Silver Mark Warrior.

Perhaps this secret land holds the opportunity. Then I left the spot and started looking for the resources.

There is no path whatsoever. So I'm creating my own path. The Tiger Monster disappeared before my eyes. If I had known which direction it went, then I would have followed it.

Roar!

Then I heard a faint roaring sound. Hearing that my eyes glinted with understanding. I turned around and started following the direction where the roar came from.

The Tiger monster was injured by me. It must be roaring in pain. If I could find its hideout, it would be better.

Chapter 1312: Vitality Fruit!

From MC's Perspective:

I quickly reached the place where the sound was coming from. Then I saw Tiger Monsters fighting against warriors.

The warriors are none other than the warriors of Star University. Seeing that my eyes flickered.

I didn't expect these people to appear near me. Judging from their elements, they are from the Silver and Gold Factions.

Swoosh!

My mouth curves into an arc. The next second, I disappeared from the spot and moved towards them.

The 4 Black Mark Warriors are confronting the Tiger Monster. Yet they are being defensive.

“You can’t even kill this monster,” I said to them.

Four of them were dumbfounded. They didn’t feel the appearance of the masked man. When they saw his dress. They were stunned.

It’s the uniform of the Star University with no emblem.

Roar!

The Tiger Monster let out a roar. It recognises the masked man. Its eyes flashed in fear. The next second, the monster fled from the spot.

The 4 Black Mark Warriors ignored the Tiger Monster and were observing the person in front of them.

“Brother, who are you?”

“You must be from one of the elemental factions,” one of the slender looking middle aged men asked.

He doesn’t want any conflict between the elemental factions. If the Elemental Faction Warriors join forces, then they can deal with other warriors easily.

The other 3 warriors are looking with expectations.

On the other hand, I gave a cold snort in my heart. If they knew my identity, I doubt they would be this friendly .

I gave a deep glance at them before going on my way. All the four warriors are dumbfounded. They didn’t expect the person to ignore them.

“Damn it!”

“Who could be?”

The slender middle aged man cursed out.

“Let’s go on our way. I suspect he is someone from the Dark Variant Faction,” Another warrior said from the side.

Swoosh!

The next second, the group walked away from the place.

On the other hand, I’m randomly going through the forest. The monstrous vines and large trees have made up a large canopy.

Such a place is dangerous. At the same time, an opportunity could be hidden in such a place.

An hour later,

Roar!

I heard a faint roar again. My eyes widened in disbelief. Why am I coming across the Tiger Monster? Then I changed direction and started going towards the noise.

It didn’t take long for me to come out of the thick forest. Then I saw a ruined stone building. A large tree is growing in the middle of the building.

A fragrant smell is coming from this place. Not only that tiger roar was from this place as well. Don’t tell me it’s the hideout of the tiger monster.

A good plan comes to my mind.

The next second, I held the staff tightly and charged towards the ruined building.

“Ha...Ha...Ha..., it’s a vitality fruit!”

“Vitality fruit!”

“We become rich!”

As I got closer, I heard two voices coming from inside.

A sharp glint flashes in my eyes. I covered the staff in thunder. When I rushed in. I spotted 2 Silver Mark Warriors.

They are looking at orange fruit in one of the vines.

“Who?” A black haired middle man sensed something. When he turned around. He was greeted with one end of the staff.

Boom!

The staff was covered in thunder. Such a force struck his gut. The Silver Mark Warrior flung backwards before crashing into stones.

The second warrior used flame technique to attack.

Swoosh!

His attack missed. I shifted my body to the side and swiped down at him. The staff with a full force struck his head.

Puchak!

Blood splattered. His body hurled backwards before crashing into the large stones.

Boom!

Both the warriors fainted on the spot. Both of their bodies were severely injured. Since we are from the same university. I'm not going to kill them.

Not only that I have a feeling that Dean Jerome could find out what happened here. So it's better to behave here.

Then my gaze fell on the vitality fruit.

Swoosh!

The next second, I appeared in front of the vitality fruit and plucked it. After storing it inside the storage ring, I was about to leave.

Roar!

The next second, I heard the roar again. It was coming from here. I turned around and started looking around the place.

Then I came outside and saw the tiger monster resting under the big shade tree. But the body of the monster is filled with injuries.

A look of understanding dawned on me. It must be injured by those two. Then I walked forward.

The Class-11 Monster still has consciousness. It raised his head and saw the masked man again. Its whole body trembles in fear.

“I know you can understand me. I can save your life. But in return I need your help in exploring this land,” I said to the monster.

The Tiger Monster was surprised. It’s hard to trust. But it felt no killing intent from the masked man. What more? It has escaped twice from the masked man before.

Then it nodded its head in agreement. The next second, 3 metres size monster stood up.

“You made a good decision,” I said.

“Follow me. I’ll check the storage rings of these two people,” I added before going towards the unconscious warriors.

I quickly came to the first one. I spotted a silver ring in his finger.

Tud!

I struck his head lightly with the staff.

Aaahh!

The Black haired Silver Mark Warrior screams out in pain. Then he recalled what happened. When he turned his gaze. He saw the masked man.

His pupil shrinks in fear.

"I need healing pills," I stated.

Hearing that black haired man glanced at the tiger monster beside the masked man. He understood what happened.

Then he takes out one healing pill. He still has some. But it's for him. He is injured right now.

"Don't worry, one is enough," I said.

The Black haired man gave the pill to me. Then I gave the pill to the monster. The Tiger swallowed it in one go.

Chapter 1313: Surge in strength!

From MC's Perspective:

The complexion of the Tiger Monster turned better. Then we left the stone ruins. After coming out of the place, I asked the Tiger Monster for a safe hideout.

Roar!

The Tiger Monster roared and started leading. Seeing that I smiled and started following the monster. With the help of the monster, I might find more treasures.

As the time passes, the tiger monster is leading him through more open spaces. Looking at the ground, he can tell that the path was created by the movements of the monsters.

But the path was covered with reeds and twigs. If it were for the Tiger monster, it would be difficult to find such a path.

By following this path, the tiger monster reached another shore under the huge bed rock. After seeing that my eyes gleamed with a twinkle.

Then I turned on the perception ability. I found no signs of danger. Then I asked the Tiger Monster to guard outside.

Roar!

The Tiger Monster roared in agreement. Then I went inside the shelter. I reached the other end of the wall and sat crosslegged on the ground.

The space inside the shelter is narrow. It's enough for one monster to sleep. No wonder, the Tiger Monster brought me here.

Apart from the tiger monster, I doubt other big monsters can enter this small space. Then I collected my thoughts and took the vitality fruit out.

Seeing the glowing organ color and powerful energy in it. My eyes ignited with fire. Then I wasted no time and started eating the fruit.

A hot energy liquid entered my body. I started running the incomplete Ancient Healing Technique. Not only to circulate the hot energy but to alleviate the pain as well.

Whenever the energy passes, I could feel that area being strengthened. Finally, when the hot energy entered the dantian.

The different Inheritance forces inside the dantian began to react. They are getting strengthened from the red hot energy.

As the time passes, the defense of the dantian has become stronger. As I continued to pay attention. I noticed the purple lightning seed absorbing the little vitality energy.

Unknowingly, the black aura becomes thicker and enveloping a lot more like a cloth.

Boom!

The coercion coming from the black aura crushed the nearby rocks and boulders.

“Hmmm,” I noticed the changes outside.

I opened my eyes and started scanning the body. Then I noticed the transformation. The Black Aura around my body has become black cloak at this point .

But it’s not enough. I need to completely comprehend the first chapter of the Inheritance Methods.

Then only I can attempt the breakthrough. Right now, I’m just strengthening the foundation.

Time passed,

When the last red hot energy was dried out. I opened my eyes. I’m definitely stronger than before. In terms of both Physique and Inheritance Force.

I have a feeling that I can kill the Veteran Black Mark Warriors with brute force alone. Then I came outside and saw the Tiger Monster resting on the ground.

“Hey, do you know any other place nearby?” I asked.

Roar!

The Tiger Monster let out a roar. Then I asked a few other questions to understand. After hearing multiple roars, I understood that there is no other treasure place nearby.

I can only make the next journey tomorrow. Then I asked the Tiger Monster to enter the shelter. Where I’m resting behind the body of the Tiger.

The scene looks funny. But I'm not resting at all.

I'm going to comprehend the inheritance methods. The vitality fruit had brought me benefits. I'm going to check whether it has improved my comprehension or not.

I started with the Shock Force Integration Method.

As the time passed, I became completely immersed in it, forgetting the dangerous monster near me.

The Class-11 Tiger Monster saw that Human Warrior is practising. It could sneak attack him. But it doesn't know whether the human is pretending or not.

So it doesn't want to take risks. With unwillingness, it turned around its head, not glancing at the human anymore.

—

Meanwhile,

The warriors are facing life or death situations outside. A very few warriors were able to remain unscathed.

Including the warriors from both the Red Moon and Star University. Due to the number of warriors, the Red Moon University Warriors are reaping more benefits.

They are gathering more resources on the way. More than that they are moving as a team. Since the Red Moon University is made of mostly female warriors.

They are not having any problem in exploring the secret land as a team. There are only a few reckless Male Warriors who are venturing out alone.

If they can find fortune here, then they can change their fate in the Red Moon University.

On the other hand, the seniors of the Star University Warriors are trying to find resources to strengthen their foundation.

The Silver Mark Warriors don't want to waste their opportunity. Only a few of them got a quota to enter this place. Many of them at Star University missed out on opportunities.

Neil Smith didn't forget about Zack Lockwood. While looking for resources, he is also thinking about encountering him.

He had already harbored ill intentions against Zack Lockwood. Don't know why? He thinks that if he missed this opportunity, he won't be able to stand against Zack Lockwood again.

It was an absurd thought. But he knows it could be possible. Zack Lockwood was already strong among the Black Mark Warriors.

If he becomes Silver Mark Warrior, his strength will definitely rival the veterans. His eyes turned icy sharp. He did learn about what happened to the 5th Junior brother.

He thinks the 5th junior brother is a fool. But he is not like his junior brother.

So he doesn't want to make the same mistake. If he comes across Zack Lockwood here, he will definitely make him stay here.

He doesn't know why he had developed hatred against Zack Lockwood. Since he doesn't like him. He decided to kill him. No one can find the clue.

He doubts even the Master could do anything about it. He grinned thinking about it.

Chapter 1314: Green Lotus!

From MC's Perspective:

The following day,

When there is daylight, I stopped practicing and opened my eyes. I spotted peacefully sleeping Tiger Monster.

A smile appeared on my face. I didn't expect the Tiger Monster to be obedient. I thought it would do something at night.

But it didn't have any rebellious thoughts. Then my attention shifted to the inheritance methods. Last night's practice was worth it. It's not without any gains.

I looked at the boulder next to me. Then I circulated the shock force power. A gray color force covered my forefinger.

I simply touched the boulder.

Boom!

The next second, the boulder crumbled into pieces. A sharp glint flashes in my eyes. Because the damage was stronger than before.

Roar!

The Tiger Monster woke up. The sound just now disturbed his sleep.

I turned towards the Tiger Monster and started a conversation. I must find the next resource as soon as possible. So I can strengthen the foundation.

Roar!

The Tiger Monster ready to lead the way. But I'm hungry. Hearing that I understood. Then I told him to get food first. Then we can travel.

Time goes by,

The Tiger Monster returned before noon. His stomach was full. Seeing that I'm ready to move.

I'm riding on the Tiger Monster. It's moving through the forest at fast speed. After crossing several distances, we saw the end of the forest cover.

We then exited the forest cover and came to the dry land.

Roar!

The Tiger Monster roared. It had traveled to his place before. In the centre of this barren land, there is a treasure.

I could understand that something is hidden in the barren land. Then I asked the Tiger Monster to take me there.

Swoosh!

The next second, we started rushing towards the middle of the barren land. It's an open land. So there are no obstacles here.

The Tiger Monster is moving at fast speed. We are covering more ground than in the forest.

An hour later,

The Tiger Monster brought me to a place. It's a place covered in small vegetation. Compared to the barren land. The vegetation here is denser.

"Is this the place?" I asked.

Roar!

The Monster roared in acknowledgement.

"Then let's go, what are we waiting for," I said.

Swoosh!

The next second, we started rushing towards the green vegetation. I activated my perception. After going through the bushes, I came to the exit.

There is no sign of dangerous monsters here. Looking at the Tiger Monster's reaction. It appears to be the truth.

A hint of excitement flashes in my eyes. There is an unguarded treasure here. What could be? Then I calmed down my heart and started moving forward.

Then I saw a beautiful green Lotus growing in the small pond. I checked the water pond using the perception.

There seems to be some cracks at the bottom of the pond. The lotus roots are connected to the crack. My eyes gleamed with a twinkle.

There must be something in the underground which gave birth to the green Lotus.

Roar!

The Tiger Monster showed its paw towards the Green Lotus.

"You mean, it's the treasure," I asked the Monster.

The Monster nodded in response. But my eyes flashed with a doubt. If it's an unguarded treasure then why didn't the tiger monster consume it?

Then I asked the same question. The Tiger Monster roared again. It started drawing on the ground. But the drawing was bad. But I saw that the size of lotus flowers had a smell.

"No, it's lotus bud," I uttered.

The Tiger Monster nodded its head again. Hearing that my eyes glinted with an understanding. So it's recently grown treasures. Nobody knows about it.

"You guard me here. I'll get the treasure first," I said to the Monster.

Roar!

The Monster roared again. In a flash, I reached the green Lotus above. I'm standing in the air. Then I gently plucked the green Lotus.

I could feel the power of the green Lotus. Then I appeared on the ground and sat crosslegged. I decided to consume the green Lotus here.

I looked at the palm sized green Lotus and took the bite one after another. In the blink of an eye, I consumed the whole green Lotus.

Buzz!

The next second, something strange happened. Instead of entering the organs. The green Lotus energy entered my brains and eyes.

I felt scorching pain in both of my eyes. Not only that I'm feeling the head splitting pain as well.

At the same time, the green Lotus energy is strengthening the brain. Improving the memory power and comprehension.

The other part of the enemy strengthening the eyes, improving the eye sight. I bit my lips and continued to endure the pain.

I don't know about the grade. It could be at the level of Gold Mark Level or Purple Mark Level Treasure. I consumed it without checking it.

I was reckless. I started regretting it. But there was no choice now. I can only endure it.

Roar!

The Tiger Monster saw something wrong. But it didn't dare to do anything. It thinks that this human warrior could be pretending again.

It was smart. So it's obediently guarding the place.

Time goes by,

The terrible pain reduces. But the green Lotus energy is there.

Meanwhile,

A 2 Silver Mark Warriors of the Star University entered this barren land. They intended to find the resource land.

It didn't take long for them to come across a special place. It's the middle of the barren land filled with green vegetation.

Both of them exchanged looks. They knew it's abnormal for barren land to have an area filled with green vegetation.

"It must be some kind of treasure," One of the Silver Mark Warriors said. His eyes sparkled.

"Wait!"

"We should move slowly. There could be monsters guarding the treasure," The second warrior said.

Then both of them started walking towards the green area not knowing that someone else is currently occupying the place right now.

If they knew it was Zack Lockwood, they would be shocked to the core.

Chapter 1315: Brain power and comprehension improved!

From MC's Perspective:

The 2 Silver Make Warriors are walking slowly towards the green area. They were convinced that some type of treasure exists there.

In order not to alert any monsters, they are moving carefully.

On the other hand, the Tiger Monster sensed the presence of 2 humans. They are coming in their direction.

Roar!

The Tiger Monster let out a low roar. A hint of anxiety flashes in his eyes. This human was still screaming.

On the other hand, 2 more human warriors are coming. The Tiger Monster is smart. It knows the human warriors could be enemies.

At the same time, the green Lotus energy is going to end soon but it has already caused tremendous transformation.

I'm better than before but I could still feel the pain.

Suddenly, I felt something.

My thoughts are clear. My thinking has become faster. The calculative mind has become sharper.

The green Lotus has strengthened my brain. My comprehension has improved.

The previous doubts about the inheritance methods are disappearing from my mind.

I'm starting to understand better.

Not only that my perception spread around 100 metres, 200 metres, 300 metres, 400 metres and 500 metres.

The little green energy improved my eyesight as well. I could spot the little details with great clarity. Nothing escaped my eyes.

"Hmm," I noticed 2 warriors coming in my direction.

My mouth curves into an arc. I was wondering where to test my strength. Now, someone sent me a pillow.

Then I adjusted my emotions and looked towards the Tiger Monster.

"You stay here," I uttered.

Roar!

The Tiger Monster let out a small roar in acknowledgement. Then I shifted my body and disappeared from the spot.

The Purple lightning movement is getting better. I'm getting clear ideas for improvement because of the improved comprehension.

Gasp!

I sucked a cold breath of air. I don't know what kind of treasure the green Lotus was. It certainly improved my calculations.

Then my gaze turned towards the 2 Silver Make Warriors. I'm going to use the blood force and fight using body strength.

Then I immediately thought of the blood fist and how to improve it. A lot of clear ideas come to my mind.

Swoosh!

While pondering, I got closer to them.

On the other hand, the 2 Silver Make Warriors found the Tiger Monster with their senses.

"It's just a Class 11 Monster. We both can take it down," One of the Silver Mark Warrior said.

Roar!

The Tiger Monster let out a roar. If it was a single warrior, the monster would definitely harm the warrior.

Now it's facing 2 warriors, the tiger monster is feeling defensive. But it remembers there is one more terrifying warrior.

Compared to that human, the monster was not afraid of the 2 warriors.

Roar!

The Tiger Monster roared at them.

"Oh, not afraid. It must be guarding the treasure. But where is the treasure?" The Silver Mark Warrior asked.

"Yes, I couldn't find the treasure. Are we wrong?" His friend asked.

"Harumph, we will dig up the entire place to find the treasure," The Silver Mark Warrior replied.

"Let's deal with the monster first," he added.

Both don't know someone else is watching them.

On the other hand, I saw that 2 warriors were moving towards the monster. I came behind them.

I'm wearing the Red Mark Warrior ring given by Dean Jerome. It can shield my presence.

Swoosh!

Then I shifted my body and appeared right behind their back.

Boom!

My punch landed square on their backs one by one. Both of them caught off guard. Their bodies hurled forward before crashing into the ground with a heavy thud.

Boom!

Their landing caused a shock force to sweep away the nearby weeds and grasses.

Roar!

The Tiger Monster roared. It charged forward to attack.

"Stop, you are injured. So I'm going to deal with them," I shouted at the monster.

Roar!

The Tiger Monster paw was about to strike. But the monster paused at the last moment. It understood the meaning.

With a small roar, it retreated backwards.

Pfff!

They spat blood before trying to get up. They are angry. Someone sneak attacked them. They wanted to know who was so daring.

I waited patiently for them to get up.

They both stood up and turned around to see who was the culprit. But when they saw the person. They were stunned.

Because the person was none other than Zack Lockwood, a member of the Thunderflame Faction.

A prodigy who shot up in fame recently.

"It's you, you dared to lay hands on us," the brown haired Silver Mark Warrior said with hatred.

The Silver Mark Warrior next to him was equally angry. They are both from the Elemental Factions.

They knew the fight between their factions and the Thunderflame Factions.

"Let's kill him. Our factions will reward us," the brown haired warrior said all of sudden.

The next second, he released a silver color force from his body.

The warrior next to him nodded in agreement and released a golden color force. It's an outward release of force. It's the sign of the Silver Mark Warriors.

The Black Mark Warriors can use the force in techniques. But the Silver Make Warriors are different.

My eyes never left them. Because I'm calculating their attack moves and deducing their weakness.

Just one treasure brought me this level of change.

Swoosh!

Both the warriors started charging towards me.

My eyes spotted their inheritance force. They have only covered their arms and left their other spot open.

Swoosh!

Then I started darting out towards them. In a flash, we got closer. Both of them launched their punch towards me.

Their punch is covered in gold and silver force. My eyes easily captured the details. I quickly found out the best outcome. The calculation was done in a fraction of seconds.

Swoosh!

I shifted my body. The silver force punch just went past my head.

A hot red blood force enveloped my fist in a flash. Then I twisted my punch and struck under his arm.

Aaahhh!

Like a broken kite string, he flung backward and crashed to the ground. Only a loud painful scream was heard from him.

Chapter 1316: Class-12 Scorpion Monster!

From MC's Perspective:

After striking the first warrior, my gaze fell on the second warrior. His golden fist was about to land on my face.

My eyes caught the weakness and my brain came up with a solution quickly. I twisted my body and used my right leg to kick at his abdomen.

His eyes filled with terror. A terrible pain assaulted him.

This all happened within seconds.

Boom!

The kick forced the Silver Mark Warrior to retreat backward. I used the opportunity to attack again. My palm covered in a Thunder one force in the blink of an eye.

"Lightning Drop"

I used the lightning attack technique. I shot a purple lightning ball towards his feet. In a flash, the purple lightning ball reached him and struck the ground.

The Silver Mark Warrior immediately used his golden element to cover his body. But his act was too late.

Boom!

The purple ball exploded. The next second, the purple lightning bolts bombarded his body one after another.

Aaahhhh!

The Silver Mark Warrior let out a terrible scream before falling down to the ground.

My gaze then fell on the warriors who could use Silver Element. He is trying to get up.

A quick gleam appeared in my eyes. Should I kill them right away? The bridges were already burnt. They had shown their killing intent towards me.

But the image of Dean Jerome comes to my mind. The attitude of Dean Jerome is still unclear. If I'm not wrong, he treats everyone some.

If I needlessly killed them for showing little killing intent, I doubt it would make him happy. After making the decision, I decided to let them go.

Swoosh!

But before that I decided to do one thing. I appeared behind the warrior and knocked him down unconscious.

The second warrior was already injured. It was enough. It would take a long time for him to move around. Then I went towards Tiger Monster.

"Let's go," After saying that I sat on its back.

Raor!

The Tiger Monster roared out loud before moving towards the next place. While riding on its back, I could feel freedom and thrill.

I had underestimated the secret land. The treasures here are not ordinary. A simple looking, unguarded Green Lotus treasure had improved my brain power and comprehension.

I don't know what other types of treasures are hidden here. I want to become a Silver Mark Warrior as soon as possible. It would be better if I could become a Silver Mark Warrior before the next warrior camp dispatch.

The power shown by the foreign creatures is crazy. The Elders are right, you need the power of ancient force to defeat them. Some of them are so powerful that the ancient force was not enough.

Fortunately, I don't have such disadvantages. I wanted to develop all around. All my inheritance methods should be developed.

Rustle!

Just as we are reaching the end of the barren land. A sudden disturbance caught my attention.

Boom!

A massive body emerges from the ground. I saw a massive 4metre tall, red and black scorpion. The pincers are glowing in black light.

The sharp steel like poisonous stinger is aiming at us. What more? The aura coming from the scorpion monster is greater than the Tiger Monster.

Could be Class-12? The Class-12 represents Gold Mark Warrior. My eyes turned serious. The next second, I got out of the back and landed on the ground.

Roar!

The Tiger Monster roared. He is facing a formidable opponent.

"You are not his match. Watch from the side," I said to the Tiger Monster.

The Tiger Monster roared. But it obediently retreats, giving space for two of them to fight.

Swoosh!

I took the white bone staff out and covered it with one force of thunder.

The Class-12 Scorpion felt threatened. It started charging towards the enemy the next moment.

Swoosh!

The scorpion monster appears in a flash. It only took a fraction of seconds. It made me more serious.

Unknowingly, my racing heart calms down. My brain is coming up with a solution. My gaze never left the monster.

Boom!

Suddenly, it moved one of the pincers towards me. Seeing that I immediately used the long end of the staff to block it.

Boom!

The thunder one force filled bottom end collides with the pincers.

Boom!

A deafening noise occurs, the impact force sends the scorpion backward. At the same time, I felt the impact force through the staff.

Swoosh!

I moved backwards while swinging the staff to divert the force. The nearby boulders and rocks were swept away by the wind.

Roar!

The Tiger Monster roared. It didn't expect the human warrior to retreat. It realises that the scorpion monster was not ordinary.

On the other hand, the scorpion defense was powerful. It's just the thunder force that caused a little paralyzing effect.

Instead of attacking, I'm observing the scorpion monsters. It's not everyday you can get to fight the monster.

This monster happens to be equal to the Gold Mark Warrior. 25 Gold Mark Warriors have entered the place from the Star University.

If I come across them, I don't know how it would end.

In order to be safe, I'm expecting a tough fight. So the Class-12 Scorpion came at the right moment.

Swoosh!

I started moving the staff. When the paralyzing effect was over. The Scorpion monster set its gaze on me. My gaze never left its body and the deadly stinger.

Swoosh!

It bolted out towards me. This time its stinger is stretching forward.

Seeing that I realised it wanted to attack me with the stinger. But I spotted it with my improved eyesight.

Swoosh!

Then I stretched my staff forward. In a flash, the staff end collides with the stinger. The next second, I felt a powerful impact force through the staff.

It could have struck me at any moment. I jumped backward before diverting the force again. A powerful impact force struck the ground, causing the dust and smoke to cover the scene.

I created a safe distance and retreated to the Tiger Monster side. If it were me earlier, I wouldn't have made a sudden decision and responded faster.

Now, I am able to calculate the power and damage. The stinger can easily break my physique. Though it can't kill me using brute force. But the poisoning was enough.

Chapter 1317: Instant impact!

From MC's Perspective:

The Tiger Monster and I are observing the Class-12 Black and Red Scorpion. The Scorpion is observing us as well.

In this situation, the white bone staff is helping me greatly. My eyes are looking for a weakness. If I'm not wrong the underbelly of the monster won't have strong defense.

But it's not easy to target that spot. I have to wait for the perfect opportunity. Suddenly, my eyes gleamed with a twinkle.

Instead of the Thunder One force, I started to circulate the golden sealing force. The staff was covered in golden power.

Roar!

The Tiger Monster felt some changes in the warrior.

"Don't worry. I can win against the scorpion," I said to the tiger.

Swoosh!

The 4 metres tall Scorpion made a sudden charge. The whole body is shooting towards the warrior.

It already sensed the power from the warrior. It wanted to taste the flesh and blood. It was alluring to me.

Swoosh!

My gaze never left the monster. When the monster got closer. I used the purple phantom technique.

Like a lightning bolt, I quickly disappeared from the monster's sight. The sudden disappearance startled the monster.

The scorpion is about to move its body. But the long end of the staff came out of nowhere and touched the side body.

Boom!

The inheritance force of golden sealing comes into effect. The 4 metres tall Scorpion froze on the spot.

A sharp glint appeared in my eyes. Then I immediately used the silver and gold shock force to cover the staff. In a flash, I swept the staff at the underbelly.

Boom!

When the shock force touched the weak part. An explosion occurs. The shock force tore through the abdomen causing slight injury.

At the same time, the effect of the sealing force was over. The scorpion monster dropped to the ground. The injury enraged it.

My pupil shrinks. The Monster's pincers coming towards me. I immediately used the white staff to block .

Boom!

But the impact force sent me back flying like a broken kite.

Roar!

The Tiger Monster leaped towards the Scorpion. The Claws and stinger came in contact. The next, the power behind the stinger struck hard.

The Tiger Monster hurled before crashing to the ground.

On the other hand, I stood up and saw the Tiger crashing into the ground. My eyes turned serious. Then I started to use the Bloodline power.

A bright blue water drop gathers at the tip of my forefinger.

Swoosh!

The Scorpion monster turned towards humans. Next, it moves like a projectile towards the human.

At the same time, my eye sight is far sharper. I could see the head of the monster clearly. My target is the middle part of the head.

I doubt that the head of the monster would be tough. In order to be safe, I added the shock force power. The blue water drop in my forefinger had the silver power.

Swoosh!

My racing heart calms down. The huge body of the monster appears before me. My perception is active. Small details never left my eyes.

Just as the monster got in my range. I shot the new water drop at the monster.

Boom!

The streak of light swept across in a straight line. The Monster eyes only spotted a flash.

Puchak!

The dot pierced through the head. Next, the power entered the brain of the Monster and crushed it.

Thud!

The Scorpion Monster died and the huge body dropped dead on the ground. All of this happened within seconds.

"Phew!"

I heaved a sigh of relief. My bloodline power is a water variant. It's boiling water. It has astonishing penetrating power.

Added with the shock force power. Nothing can stop it. Especially if the defense was not strong. The power will be more destructive.

Roar!

The Tiger Monster roared out loud. It didn't expect the powerful scorpion to die. The Tiger Monster body trembles in fear.

Fortunately, it didn't attack the human. Otherwise, it would have died as well.

I turned towards the Tiger monster. My eyes turned solemn. I underestimated the secret land. I have come across Class-11 and Class-12 Monsters.

I don't know whether there are monsters above it. If there are Class-13 Monsters here. Then no one can survive in the secret land.

"Do you know any other treasure areas?" I asked.

Roar!

The Tiger Monster roared. The Barren Territory was last. There is a treasure land in the end.

I saw a Tiger Monster nodding its head. Seeing that I have decided to take risks again. I sat on the monster's back.

Swoosh!

We then started moving towards the destination.

Meanwhile,

The warriors are looking for resources. Some of them are able to find it. Yet others suffered injuries. Not only that fierce clash happened between the warriors.

Old grudges and the new grudges are being settled here.

Even the Red Moon Women Teams had clashes with the Star University Warriors. It's a new secret land. No one had surveillance here.

If someone dies here, no one will be able to know. As the time goes by, the number of casualties increases.

Somewhere inside the dark cave. The corpse of a Class-12 Spider lies over the ground. Neil Smith is taking rest after killing the monster.

It's been some time since he entered the secret land.

But he didn't see Zack Lockwood. His eyes filled with hatred. The secret land is a good opportunity. He wants to get rid of his good brother.

Yet he had no opportunity so far. He doesn't know where his good junior brother is located right now. Looking at the Class-12 Spider corpse, his eyes turned solemn.

He didn't expect to come across Gold Mark Level Monster soon. It's a wake up call. He doesn't know whether Class-13 Monsters are living here.

He knows even if he doesn't do anything. It will be difficult for his brother to survive. There are monsters everywhere.

"I hope Zack faces Class-12 Monsters here," Neil Smith thought. Then he began to dissect the monster corpse.

## Chapter 1318: Golden Essence of the Monster Core

From MC's Perspective:

After traveling the entire day, we came to the end of the barren land. The Tiger Monster was really fast. It was moving non stop.

Suddenly, a strange place caught my attention. It appears to be another stone ruin.

"Stop," I said to the Tiger Monster.

Roar!

Hearing that Tiger Monster roared out loud. Then it came to an abrupt halt. I flew over and landed on the ground.

My eyesight was improved because of the green Lotus energy. Now I'm looking at another weird land ahead. I started walking towards the place.

At the same time, I'm using perception to cover the place. The Tiger Monster is following me from behind.

As we got closer, I could see the ruined stone building taken over by the large trees and plants. It reminds me of the place where I got the vitality fruit.

Roar!

The Tiger Monster roared. It smelled something sweet.

Swoosh!

The next second, it started charging forward.

“You,” I uttered in a surprise.

The Tiger Monster must have found something good. Then I started following the monster from behind.

Swoosh!

In a flash, we arrived closer to the ruined spot. My gaze sweeping over the place not missing any details.

My gaze began to cover 100metres, 200 metres, 300 metres, 400 metres and 500 metres.

My gaze fell on the golden color liquid seeping from the mountain crack and gathering at the pond. Then my gaze fell on the Tiger Monster.

“This guy,” I gritted my teeth.

Swoosh!

The purple lightning exploded beneath my feet. Next, I started darting out towards the golden pond. While moving like a lightning flash.

Inspiration appears in my mind. The doubts regarding the lightning phantom movements got cleared.

Roar!

The Tiger Monster roared. Before it could reach the place, a flash of purple bolt moved past it. The monster’s pupil shrinks.

The Monster then recognised the human warrior.

Plop!

After reaching the golden pond, I jumped into the golden pond. The next second, the warm and cold golden energy entered the body.

Roar!

The Tiger Monster entered the pond next. It started drinking the golden water. The pond was small. Both of them are next to each other.

I closed my eyes and began to run the ancient technique. The golden energy flows through the body. When it enters the veins. A sudden change took place.

The veins which were already stronger began to strengthen again. The veins start to turn slightly golden. When it further passes through the meridians.

The already wide opened meridians become stronger.

More golden shade appears in the meridians. Seeing the changes, my heart started racing. Finally, when the golden energy entered the dantian.

It landed everywhere. Immediately the changes took place. The space inside the dantian becomes larger. I could accommodate more inheritance force.

The purple lightning seed showed reaction. It started to absorb the golden energy. My gaze turned serious. The purple lightning seed always preferred purple lightning resources.

This time it showed interest in the golden energy. I don't know what it is.

Boom!

The purple lightning seed is having changes. A small golden veins started appearing over the surface.

“This,” I uttered in a shock.

The purple lightning element of mine was already abnormal. Now it’s absorbing the golden energy. I decided to use this opportunity and continued to run the practice method.

Time goes by,

The Tiger Monster is having changes in its monster core. It has golden lightning attributes.

A few hours later,

The golden energy becomes depleted in the golden pond.

Boom!

I opened my eyes. Then I saw that the pond was left dry. Not a single drop of golden liquid left in it. My gaze then fell on the Tiger Monster.

The next second, my pupil shrinks. The Tiger Monster now has golden lines in its body.

“What is this treasure?” I muttered to myself.

Then I didn’t get up. Once again, I began to check the internal organs. The veins, meridians and inner organs have golden color in it.

Surprisingly, the golden energy couldn't enter the bones. The Dark Red skeleton of mine rejected the golden energy.

But the most important change was the dantian. The space has become larger. The purple lightning seed got golden veins now. I don't know how to use it.

After going out of this place, I'll do the experiment. But one thing was clear. My Physique has gotten stronger.

Swoosh!

Then I flew over and landed on the ground.

Roar!

The Tiger Monster roared. A bolt of golden lightning shot from its mouth. A hint of disbelief appeared in my eyes.

I had never seen it using the golden lightning before. Could it be? My gaze fell on the dry pond.

"No wonder, the purple lightning seed absorbed it," I said to myself.

Roar!

The tiger monster stood up. The next second, the breadth released from its body is stronger than the previous time.

"Class-12," I uttered in surprise.

Next, the Tiger Monster is looking towards me. The Tiger Monster got a new sense of confidence. It has become stronger. If it faces the Red Scorpion now, it would definitely kill it.

On the other hand, I'm observing the monster change. It has grown taller. The size has reached over 5ft. The claws have become sharper and longer.

The razor sharpened teeth look more deadly.

"So you want to challenge me again," I said to the monster.

Roar!

The Tiger Monster roared out again. It wanted to challenge the human warrior again. It thinks that it got more gains than the human warrior.

Because it recognises the golden energy. It's the essence of the monster core. The Monster core of the powerful lightning monster.

At the same time, my eyes gleamed with a twinkle.

Swoosh!

I took the white bone staff outside to fight. Then I started to cover it with the thunder one force.

Roar!

The next second, the huge tiger monster leaped forward. In a flash, it appeared before me. It brought the claws swiping downward.

Chapter 1319: Improving the lightning finger technique!

From MC's Perspective:

Boom!

I brought the staff forward to stop. The tiger claws struck the staff. The next second, a powerful impact force shook the staff.

Swoosh!

The impact power forced me backwards. At the same time, I could feel the force reaching my hand from the staff, trying to harm my hand.

But my physique was stronger than before. I immediately withstood the force before stabilizing footsteps.

Roar!

The Tiger Monster roared. It felt confident. Now, it can harm the human warrior.

On the other hand, I raised my head and looked into the eyes of the Tiger Monster. It's time to act serious.

I placed the staff inside the storage ring. Then I started charging forward to attack.

Boom!

My gaze fell on the Tiger Monster side body. While charging, I circulated the blood and shock force power.

The mix of 2 Forces flowed through my veins and reached my hand. In a flash, it gathered in my punch.

Roar!

The Tiger Monster felt challenged. It was not weak anymore. He raises right claws to strike again.

The claw was about to land on the warrior.

Swoosh!

Next, the changes happen. It saw the human warrior disappearing from the spot.

I avoided the claw and reached the side body of the monster to attack.

"Blood Fist"

My arm moved punching forward. In a shot, it landed squarely on the tiger body.

Boom!

The blood and shock force blasted away the monster. It flew sideways before crashing into the ground.

Roar!

The Tiger Monster roared out in pain. It got fist size injury on its side body. After consuming the golden essence, it was fully recovered earlier.

Now it was injured again.

Roar!

Then the monster struggled to stand up. On the other hand, I appeared before the monster. I think it's time to part ways.

The Tiger Monster had never left its territory. This was the last stop. My gaze then fell on its injury.

The injury looks small compared to the massive size of the monster. Besides, I knew the Class-12 was similar to the Gold Mark Warrior.

It's not easy to kill it. If the Tiger Monster comes across another Class-12 Monster, it can save itself.

I just hope there aren't Class-13 Monsters here.

"Big guy, it's time to part ways," I said to the monster.

Roar!

The Tiger Monster roared. It felt like it heard something wrong. The Human warrior wanted to leave. Then it can go back to its life.

"Roar!"

But it roared again to confirm.

"Big guy, I'm telling the truth. You can leave now," I said to the monster.

Swoosh!

The Tiger Monster gave one look before fleeing from the place. It long wanted to leave. But because of fear of death it accompanied me.

Now that it has gone. It's time for me to collect more resources. I looked at the sky. It won't be long before it's night time.

I decided to stay in the old ruins. Not even Class-12 Monster can harm me. After making the decision, I went back to the old ruin.

I stayed near the dry pond. As the time passed, I felt bored and restless. I couldn't sleep.

I stood up and took the sword outside. Then I started practicing from the basic moves. Starting from drawing, chopping, splitting, thrusting, parrying, swinging, and turning.

As I continued to repeat the process. My understanding becomes better. I started to feel it was natural to use the sword.

I often used the sword to discharge the purple lightning beams. I never properly used it as a sword weapon.

I have got too many techniques with me. Including the soul types which I never had the opportunity to use.

Time goes by,

After practising the basic moves for sometime. I shifted other techniques. The green Lotus has improved my understanding.

I could see through things which I hadn't before.

I started from the lightning finger technique. The thunder ball quickly gathered at my tip. When I used the power to test.

I shot at the nearby huge boulders.

Boom!

In a flash, the purple lightning beam shot from my finger struck it and pulverized the boulder.

The shock force struck the nearby huge rocks.

My eyes flickered. My thoughts raced. I found the direction of the improvement. I started condensing the Thunder One force on my finger tip.

Compared to the purple ball. A small drop of force gathered at my tip of the forefinger. Slowly, the size of the ball increased.

The small purple ball contains more force than before. My focus was entirely on the control of the force. If any mishap happens, it will backfire.

When the small purple beam began to shake. I knew the control was getting harder. If I lost control I couldn't condense further.

Boom!

But I wanted to test this power. Then I turned around and targeted another big boulder.

Next, a purple streak released from the finger. The speed was faster than before. The beam reaches the target in a flash.

Boom!

The purple beam goes through the boulder and is released from the other side. But the beam didn't stop. It reached the next boulder and struck it.

Boom!

The purple bolts crushed the boulder before bombarding the nearby boulders. In the blink of an eye, they got destroyed as well.

Gasp!

A small exclamation left my mouth. I just wanted to improve my finger technique. But my idea turned out well.

By condensing the thunder once force, I could increase the output damage. If this attack were to hit the Black Mark Warrior, he would be pulverised.

The new improved method is different. It needed extreme control over the force. The original lightning finger technique was incomplete to begin with.

So I don't know how the later part of the finger technique would be. It's better to name this technique as Condensed Finger.

This technique would be useful against the genius warriors who can fight across the ranks like me. But for other warriors, the normal techniques were enough to deal with them.

Chapter 1320: Meeting 2 Gold Mark Warriors!

From MC's Perspective:

After practising and reviewing the technique the whole night. I left the cave early in the morning.

It's been two days already. I don't know how much time left before the secret land ejects us.

I should improve my strength so that I can achieve a breakthrough. I had already benefited from the vitality fruit, green lotus and mysterious gold liquid.

The three fortuitous encounters made me strong enough to deal with Class-12 Tiger Monster. I can't wait to test my strength against the Gold Mark Warrior next time.

It didn't take long for me to leave the barren land. Now I have stepped into a different terrain. It appears to be grasslands with more vacant lands.

The place is not dry like that barren land. The ground here is covered in green patches. It's a suitable place for a fight.

After looking around, I spotted very few trees. I decided to take a rest under the tree. My eyesight and perception are greater than before.

Even if someone appears I will know. Then I came to the big tree and sat under it. I leaned my back against the tree and started reviewing the events in my mind.

Every battle and encounter started replaying in my mind.

Time goes by,

After reviewing events, I brought the long sword out and started swinging. For others the long sword appears to be big and heavy.

With my physique, the long sword is easy to handle. I'm not feeling any discomfort. I'm already familiar with the basic sword moves.

I have many techniques. But the sword divide method is one amongst them. It's not even a proper sword method. Rather, beam discharge moves.

I don't know I'm biting off more than one can chew. Once I mastered the available techniques. I should think about what to do next.

These techniques can be practised until Gold Mark Level. If they become weak in future, I can try learning other methods.

Rustle!

Suddenly, I heard footsteps. Hearing that I turned towards the noise. Then I saw 2 people coming in this direction.

They are a few hundred metres away from me. But I can clearly see their faces and their uniform.

Looking at the Star University uniform. My brows eased down. But still it's hard to judge the human heart. Because their badge has a golden pattern.

This badge is worn by the Gold Mark Warriors. After confirming it, I was about to leave.

"Who's there?" I heard the voices next second.

They are Gold Mark Warriors and they can easily find me. I gripped the sword and was ready to confront them.

Swoosh!

Both the warriors appeared before me. They are middle aged men with battle scars in their faces and bodies.

Upon close look, I found their uniforms seem to be torn. My pupils are shrinking. Who could cause this? I thought Gold Mark Warriors can walk sideways in this secret land.

Both the middle aged men saw the person turned out to be Black Mark Warrior from their university.

"Hey, kid, who are you?"

"Which Faction are you from?" One with a straight nose asked me.

The middle aged man next to him, observing me.

"Two seniors, it's nice to meet you here. I'm Zack Lockwood from the Thunderflame Faction," I said to them.

But I don't know how they will react.

Next, the two men exchanged looks. Their eyes flashed with a glint.

"So it's you. I heard you are giving a tough time for our Factions," the straight nose guy said.

The one with an upturned nose next to him seemed excited.

"Little guy, you are running rampant in Star University. Not taking anyone seriously. I heard even the main elders are helpless against you," The upturned nose guy said.

Hearing that I sighed inwardly. I wished to fight against the Gold Mark Warrior. But not against the two.

On the other hand, my gaze fell on their badge again. It has clues to their faction.

"What are you looking at?"

"If you want to know our faction, I can tell you. I'm from Cutting Silver and he is from Dazzling Gold. Now you can understand the enmity," The straight nose guy said.

We both stared at each other. Infact, the 2 Gold Mark Warriors are not stupid. They are thinking about the consequences.

The secret land is a good place to eliminate the guy. No one can track here. If they do, they can earn rewards.

On the other hand, they had to think about the consequences. If the matter is leaked somehow, then their own factions will abandon them.

"What are you thinking?"

"We are two guys here. Eliminating this kid will solve future trouble for our Factions," the straight nose guy said.

On the other hand, I understood that fighting was inevitable. I collected the long sword into the storage ring.

The upturned nose guys made a decision. His eyes flickered with killing intent.

"Ha..Ha...Ha.."

"Good," the straight nose guy said with a small laugh.

"Blood Fists!"

I immediately used the blood force power. Immediately, the shock force mixed with the blood force flows through my veins.

My eyes were on them. Next, they started charging towards me. When I noticed they are not using Inheritance force.

I sneered inwardly. Like others they underestimated me now. In a flash, I used normal footwork. I could easily read their moves.

They are coming for me straight without hiding any intentions.

Swoosh!

I avoided the opponent fist and moved sideways. Then I gave a blow from the side angle.

Boom!

The punch landed squarely on the upturned nose guy's body. The blood and shock force power drilled into his skin and flesh.

The upturned nose guy's face was written with horror.

Next, the force behind the punch was powerful that blasted away the upturned nose guy.

Puchak!

In a flash, I came to the straight nose guy. He was startled.

Boom!

My second punch crashed into the straight nose guy's chest. It was hit with a solid force. His eyes widened in disbelief.

He couldn't believe himself. The Gold Mark Warrior like him was hurt.

Blood trickled from his mouth. Like the previous one his body flew backwards before crashing into the ground.

After beating them down, I looked at my fist. Their bodies are hard as powerful weapons. If not for two kinds of inheritance force, my arm would have broken already.
