Chapter 1381: Timely rescue!

No. 8 Battlefield

Meanwhile,

Supervisor Ronan was in another special space. In this space, he could monitor the battlefield. Opposite him, there was another hidden space.

Where a Purple Mark Level foreign creature was monitoring the situation as well. It was doing so from the foreign creature's side.

It noticed that a new Silver Mark Warrior had made an entry. The warrior was wearing a face mask.

However, he had already killed foreign creatures, including Gold Mark Level foreign creatures.

The Purple Mark Level Foreign Creature was stunned. It understood that a genius-level human warrior had come to the battlefield.

It wanted to share the new information with others, but it could only do that once the current fighting ended. The Purple Mark Foreign Creature was angry.

It wanted the battle to end quickly. It couldn't wait to order its kin to kill the genius warrior as soon as possible.

On the other hand, Supervisor Ronan was shocked. He recognized the face mask-wearing warrior because only Zack Lockwood had entered the battlefield.

He thought the kid was wearing a face mask to hide his identity. Soon, he understood why. The reason shocked him.

"The kid not only killed Silver Mark Foreign Creatures but also killed Gold Mark Level Foreign Creatures," Ronan thought.

He knew Zack Lockwood was talented and could fight across ranks. That's why he had become popular and a headache for other Factions.

Now, he witnessed the scenes for himself. He was shocked. He knew why Dean Jerome was protective of the kid. This kid's presence was needed to turn the tide.

"The Foreign Giant could have seen him already," Ronan thought.

His expression changed drastically. He wanted to inform Zack Lockwood, but he couldn't do that because of the rules.

Since Zack Lockwood could kill Gold Mark Level Foreign Creatures, he was sure the kid wouldn't face other threats inside.

Once the current battle was over, he was going to have a serious talk with the kid.

Ronan's eyes flashed with a glint. Not only that, but he also hoped that no other warriors would seek death. If they came across Zack Lockwood, he hoped that they would behave.

...

From MC's Perspective

Once the foreign creature was dead, I shifted my attention to the surroundings. The battle was happening far away. There were no other fights happening nearby.

I hesitated about whether to go and take a look or not. After wasting a couple of seconds, I headed toward the source of the noise on my left side.

After crossing a few hundred meters, I saw a big fight happening.

Three female warriors were fighting against two humanoid foreign creatures. A red mist could be seen coming from the three female warriors.

I paused before I started observing them. I saw their attack strength was stronger than mine. Not only that, but the two humanoid foreign creatures were not ordinary either.

It showed that the three female warriors were Gold Mark Level Warriors and the two humanoid foreign creatures were Gold Mark Level Creatures as well.

What should I do? I found that their fighting was going well. They were not facing any danger right then, so I continued to watch their fight.

Boom!

All of a sudden, the two humanoid foreign creatures acted differently. Their bodies were covered in a weird black aura.

The next second, they started attacking the female warriors fiercely. Their speed and strength had increased terribly compared to before.

The three female warriors were on the back foot. The red mist was not providing cover for them anymore.

Boom!

The two humanoid foreign creatures' attacks landed on them.

The three female warriors were thrown off in different directions. Their bodies flew backwards like fast projectiles before crashing in different directions.

This all happened within seconds.

Seeing that, I was surprised. The two humanoid foreign creatures used their cards at the right time, and the female warriors couldn't defend themselves.

From the dark red mist, it was clear that the female warriors belonged to the Red Moon Tower. I didn't have any problem with them.

So, I decided to help them out.

Swoosh!

The next second, I darted out towards them.

"Lightning Phantom Technique."

I used the lightning movement method. In a flash, lightning bolts covered my legs. In a zigzag manner, my body covered the distance in an instant.

Boom!

The two humanoid foreign creatures were alerted. They turned towards me.

I didn't stop and continued charging towards them. My fists were covered in lightning force. In a shot, I got near them.

The two foreign creatures' eyes were directed at me. My gaze fell on the one closest to me.

Boom!

My fists slammed into the body of the humanoid foreign creature.

The foreign creature's body was hard, but upon contact, the lightning force blasted the creature away.

The tall humanoid foreign creature fell backwards.

Boom!

I evaded the claws of the second one. Those sharp and long claws went past me. If it had struck me, the injuries would have been serious.

"Lightning Wheel!"

I executed a lightning defensive technique. A purple lightning wheel appeared around me. In that instant, the foreign humanoid moved to attack me.

Boom!

When its hand landed on the lightning wheel, the wheel exploded. The total destructive power landed on the body of the foreign creature.

It was flung backwards before crashing into the ground. This all happened within moments.

At the same time, the three female warriors were getting up one after another. They realized someone had come to rescue them.

When they raised their heads, they saw a young Silver Mark Warrior wearing a mask. They hadn't seen someone wearing a mask before.

Then their gaze fell on his uniform and badge. They understood that the person was from Star University. They heaved a sigh of relief.

Screech!

On the other hand, I heard a scream. I dashed towards the foreign creature nearest to me. The injured creature was covered in a weird black aura.

Seeing that, I wasted no time in attacking the foreign creature again.

Boom!

One after another, dark lightning bolts struck it. The power of the dark purple lightning smoked the foreign creature.

Chapter 1382: Four armed creature!

From MC's Perspective

I quickly killed the foreign creatures with the lightning bombardment. Once the foreign creatures were dead, I shifted my attention to the three female warriors.

They were all injured, but they hadn't suffered any serious injuries. The three female warriors stood up and turned towards the warrior wearing the mask.

They looked on in disbelief. It had been hard for them to deal with the foreign creature, yet the warrior in front of them dealt with the creature easily.

They saw his Star University badge, but they didn't know how to address him. They hesitated to voice their doubts.

I saw through their hesitation. I wasn't going to reveal my identity. It was time to leave this spot.

"Take care of yourself, I'm leaving." After saying that, I left the place.

Swoosh!

The three female warriors saw the Star University warrior leaving the place.

For a second, they felt a sense of loss. They should have asked for his name, but they had missed the chance. They decided to look for his information after the end of the battle.

On the other hand, I was returning near the teleportation platform. I had a feeling that the upcoming battles would be dangerous.

It was important not to waste the inheritance force. Not long after coming near the teleportation platform, I heard a screeching sound again.

I used my perception. I found a foreign creature with four burly arms. The foreign creature had no tail. It was different from the previous creature.

The body of this foreign creature was bulkier than the previous one.

A hit from any one of its arms could crush a warrior. No wonder this battlefield was considered one of the top 10 battlefields.

Only a truly strong warrior could survive here.

At the same time, the four-armed creature with Gold Mark strength noticed the presence of the lone warrior.

The four-armed creature easily sensed the strength of the lone warrior. It thought he was easy prey to kill.

Swoosh!

All of a sudden, the creature started charging towards the lone warrior.

I continued to observe the foreign creature. A four-armed foreigner was coming towards me right now.

I didn't know how long the current battlefield would last. I decided to save the inheritance force as much as possible.

So, I thought it would be the right time to use my body strength. The four-armed humanoid foreign creature got closer to me.

Swoosh!

I started circulating the blood energy. The blood energy came from my skeleton. It started rushing through my veins and reached my arms.

I could feel a lot of hidden strength in my body and bones.

Boom!

In a flash, both of us came in contact with each other.

The invisible red energy covered both of my fists. I raised my hand and punched forward.

The four-armed creature saw this and took it as a joke. It raised two heavy arms to punch forward.

Boom!

Two of the foreign creature's arms struck my fists. The next second, I felt the impact force on my hand. It was the power of Gold Mark-level strength.

The four-armed creature was surprised. It realized that it had found a genius-level enemy. The next second, the malicious intent of the creature increased.

I felt the red mist energy withstand the impact force. My feet were rooted to the spot.

But the sense of danger coming from the four-armed creature increased.

Boom!

The next second, the foreign creature raised two other arms against me. I had no chance to block the other two arms.

When they were about to hit me, I used the lightning movement to back away.

Swoosh!

The fists hit the empty air. It seemed disappointing.

The four-armed foreign creature disappeared from the spot and continued its dash towards me.

"Blood Fists!"

I used the fist move. The invisible blood-red energy reached my right hand. The power of my body was stronger than before.

The foreign creature punched forward. My punch came in contact in a flash.

Boom!

When both of our fists came in contact with each other, the blood energy struck the foreign creature. This time, the creature couldn't handle the impact force.

Thud!

Before it could use its other arms, the body of the creature rocketed backwards. Then, it landed heavily on the ground in the blink of an eye.

Seeing that, I didn't stop. I began to mix the shock force with the blood force energy. After mixing the forces, I circulated the power.

The mixed force flowed through my body before reaching my right fist again.

Boom!

A powerful, weird black aura enveloped the foreign creature. The arm which received the blow earlier was broken and bent.

Suddenly, the arm became straight due to the weird black aura.

Swoosh!

The four-armed creature disappeared from the spot. Its movement speed had doubled. In a flash, the foreign creature appeared before me.

I was ready. I didn't hesitate to attack. Under my perception power, I got the details. The creature was using two fists against me.

Boom!

The blood and shock force mixed power strengthened my fist. My right fist squarely landed on the incoming fist.

Pfff!

The arm instantly broke and bent at a right angle. The second fist, which was about to land on me, paused. I darted out all of a sudden before striking the creature's chest with my punches.

Boom!

The four-armed creature rocketed backwards. Its chest was caved in. It spat a mouthful of blood before crashing into the ground.

This time, the creature didn't get up. The shock force and blood force powers were rampaging inside its body. The creature's internal organs were all getting crushed.

The vitality of the four-armed creature was slipping away faster. The dark weird aura covering the body diminished. It slowly disappeared.

Seeing that, I raised my hand and used the lightning finger technique. The purple lightning ball bombarded the injured body.

Boom!

The already dying foreign creature lost its breath in a few seconds.

Chapter 1383: Getting noticed!

From MC's Perspective

The four-armed creature was dead. I waited for the next creature to appear. As the seconds went by, no other creatures appeared.

Alarm!

A loud alarm sounded a few minutes later. Then I saw warriors coming, one after another, towards the teleportation platform.

A look of understanding dawned on me. The battle had come to an end. It was time to go back. I turned around and headed back to the teleportation platform.

At the same time, the warriors were returning. Some of the groups noticed a mask-wearing warrior going back first.

No one recognized the warrior. They watched him until he stepped onto the teleportation platform.

On the other hand, I once again felt the sensation of descending. Before I knew it, my feet touched the ground. I opened my eyes and saw that I was back inside the stone building.

Then I walked out of the building. My gaze fell on Assistant Jairo.

“You can remove your mask and come with me,” Jairo said.

Hearing that, I did as instructed. I removed the mask and put it inside the storage ring. Then I started following him.

A few minutes later, we were back at the Supervisor’s office. Supervisor Ronan was seated behind the desk. I found he was in a happy mood. His expression showed he was excited about something.

“I have watched your battle. You did well beyond my imagination,” Ronan said with a smile.

Jairo nodded his head as well. He had gotten to know everything from the Supervisor. He was shocked when he first heard about Zack Lockwood’s battle.

On the other hand, I raised my eyebrows in surprise. I didn't know they could watch my battle. Most of the time, I had used the purple lightning force.

I resorted to body strength later. I hoped he didn't notice anything abnormal about that.

"Zack, you have the power to take down Gold Mark Level Foreign Creatures. You have to be careful next time."

"Because not only can I watch your battle, but the enemy can see you fight as well. They must have marked you already. It's a good thing that you wore a mask," Ronan said in a solemn tone.

Hearing that, I understood the seriousness of the matter. I did it to hide my identity from the warriors. But I never thought the enemy side could watch my battle as well.

A sense of foreboding appeared. As if the next battle was not going to be easy. There were chances of being targeted more by the foreign creatures.

"I will take care of myself," I replied.

Ronan said, "I saw you rescue those warriors from the Red Moon Tower. Are you going to hide your identity in the camp?"

"I'm planning to do that. I didn't want any brutal fight to happen between us," I honestly said.

Ronan was taken aback. To be honest, he would have opposed it if it were earlier. But after watching the battle, his favorability towards Zack Lockwood increased.

"Alright, do as you wish!"

After saying that, he ordered Jairo to show me my accommodation. Then I wore the mask back and both of us left the office room.

Ronan leaned back in his seat. He thought that the upcoming days wouldn't be peaceful. Since Zack Lockwood showed his talent, he would be targeted by foreign creatures.

If his identity was exposed, then he would be targeted by both the foreign creatures and hostile people here. He was worried about that. He didn't want the peaceful camp to be turned upside down.

He was from the Blazing Fire Faction. The Faction Leader, Elmer Maddox, was a neutral figure. He was someone who thought about the big picture first.

He was more loyal to the Star University than the faction fights. But the allied families of the Blazing Fire Faction were not the same.

They had a mindset like the other elemental Factions. They wanted to remove any threats as soon as possible.

Zack Lockwood had shown the potential to become a powerful Purple Mark Warrior. From the battle alone, he could tell that there was a chance of Zack becoming a Red Mark Warrior in the future.

What was most worrying? Not only had he seen it, but the Purple Mark Creature would have seen it as well. He then collected his thoughts and called Dean Jerome.

He was going to report the battle on the call.

Meanwhile, Assistant Jairo took me to another area where there was a series of stone buildings. The number was well over a hundred.

Each warrior was assigned one stone building. The warriors who were coming out from the teleportation platform were coming back to their stone buildings.

They came across Assistant Jairo and the masked warrior. A few of the groups had spotted the masked man earlier inside the battlefield space. They were curious about his identity.

Then they saw the masked man was wearing the Star University badge. Their faces filled with disappointment. Not many universities were friendly with Star University.

Dean Jerome of Star University was a powerful Red Mark Warrior. His strength was still in its prime. The forces outside would think twice or thrice before offending him.

Including the invasive foreign creatures, they wouldn't dare to launch an attack on Star University separately. That's why Star University was both respected and feared.

The warriors who wanted to inquire about the details of the masked warrior changed their minds at the last moment.

Only the Red Moon University warriors were there. But most of them were female warriors.

However, the Star University warriors recognized the badge worn by the masked warrior. They were curious. They saw Assistant Jairo, so they didn't go towards him.

At the same time, I noticed the warriors' gazes. I ignored them and followed Assistant Jairo. Then we reached the last stone building in the first row.

"This is going to be your house. The stone house can withstand a few attacks from warriors. So you don't have to worry about a sudden attack," Jairo said.

Hearing that, I started observing the place. Then I walked into the house. Inside, the room decor was fine. There was basic furniture and beds. It was the same as those quarters in the other warrior camps.

Chapter 1384: Marked!

From MC's Perspective

"You can take a rest now. The next alarm could sound at any time. Be ready for that." After saying that, Assistant Jairo left.

I nodded to him before locking the door. Then, I started looking around the room. It had other facilities as well, so I didn't have to worry about anything.

I thought of the next plan. Since the battle at the warrior camps could happen at any time, I decided to recover the inheritance force. I looked around before walking toward the practice room.

Creak!

After entering the room, I locked the door. I turned on the switch, and pure, rich world energy entered the room. It started to fill the space in the blink of an eye.

I walked up to the middle and sat cross-legged on the ground. Then, I closed my eyes and started running the new lightning method.

Buzz!

The new dark purple lightning bolt rune started flickering in my mind. Lightning force from the world energy entered my body.

As time went by, I started circulating the lightning force. Then, the force settled down inside the dantian. I continued to repeat the process.

Meanwhile

The warriors in the camps were discussing the new warrior added to their camp. They only knew the warrior was from Star University.

They didn't know who it was. They started asking friends from Star University, but even those warriors didn't know the newcomer's identity.

They were quite curious about it. Since the new warrior had come here, they would have plenty of time to find out his identity.

..

Foreign Creature Side

In a dark space, black land stretched across miles. The land was barren; not a single green patch could be spotted. The plain was completely covered in black soil.

Yet, in the middle of the land, there was a large dark lake. At this moment, several figures in different shapes and sizes were appearing out of the large dark lake. The figures were none other than foreign creatures.

These foreign creatures were emerging from Battlefield No. 8. Their numbers were high compared to the warriors.

An hour later, these foreign creatures of different shapes and heights were assembled in front of the huge lake.

Boom!

Suddenly, a large humanoid creature over 50ft in height appeared above the lake water. Then, its size shrank. It went from 50ft down to a 10ft humanoid.

The foreign creature had a single horn on top of its head. The horn was over one meter in length. If one looked closely, they could see the horn was covered in alien character runes.

The character runes were all purple. The foreign creature's face was similar to a human warrior's.

The humanoid arrived in front of the assembled army. All of a sudden, black light jolted out from the horn.

Puchak!

In a flash, the black light pierced through the air, killing a few foreign creatures. The other foreign creatures were terrified. They were unable to move from the spot.

The oppression coming from the humanoid creature was Purple Mark level strength. It was the same creature that saw Zack Lockwood earlier. He was also the Supervisor of Battlefield No. 8.

Though the foreign creatures had the upper hand, because of the time limit, they failed to eliminate the human warriors entirely every time.

If they could eliminate them, then the Purple Mark Foreign Creature could directly invade Warrior Camp No. 8 and take over. It would be considered a major victory. But they were failing to do so every time.

“Zvkeksukskejcall.”

The Purple Mark Foreign Creature started speaking in an alien language to the other creatures. The others were all quiet.

Any disobedience would be met with death. They were afraid of the humanoid supervisor.

The humanoid creature briefed them about the battle that took place, pointing out their incompetence. The foreign creatures assembled here were not ordinary, but elites who had gone through bloody training and battles.

Yet, they couldn't do their job completely. The humanoid knew that the human side was using their full strength. Even their hidden talent had come to the battlefield.

The humanoid creature recalled the Silver Mark Human Warrior wearing a mask. He had taken down the Silver Mark and Gold Mark Foreign Creatures easily.

The humanoid was the type who could fight across ranks. It told them that a new human warrior had come to the human camp.

He had already killed Gold Mark Foreign Creatures across ranks. The humanoid ordered the foreign creatures to eliminate the masked human when he appeared next on the battlefield.

The foreign humanoid creatures were all shocked. But they knew it was an opportunity to appease the Supervisor. If they took down the genius warrior, then no one among them would die for no reason.

The humanoid creature then ordered them to leave.

...

Star University

Dean Jerome was in his office. He had received the report from Supervisor Ronan. He was relieved. He had been worried that Zack Lockwood could face trouble from other warriors.

But he was surprised that the kid was clever enough to use his mask. It wouldn't be a problem for a couple of days, but sooner or later, the kid's identity would be disclosed.

He hoped nothing would happen then. He asked Ronan to be wary of the foreign creatures. If the enemy side found out about Zack Lockwood, they wouldn't hesitate to break the rules.

They could even send a Purple Mark Foreign Creature to attack. Ronan had the same thought. He promised that he would watch over Zack Lockwood.

When it came to threats from the human side, he was not worried about Zack Lockwood. But he was worried about others. Infighting would cause more damage.

Jerome hoped that other forces would be sensible. If they wanted to cause harm to Zack Lockwood, he wouldn't be silent. Certain activities had already angered him.

If they crossed the red line at the warrior camps, he would do the same. He will definitely cause heavy damage to their strength. Then they won't dare to target Star University again.

Chapter 1385: Sensing the ambush!

Thunderflame Faction

Faction Leader Clifford received the news of Zack Lockwood's transfer to Warrior Camp No. 8 earlier. He was shocked at the time.

He knew the danger level of the top 10 battlefields. The top 10 battlefields have the highest mortality rates.

He couldn't believe Dean Jerome would send Zack Lockwood to that camp. When he told the news to others, they were shocked as well, especially Main Elders Austin and Ann.

They were extremely concerned. They asked him to keep an eye on Zack Lockwood's updates.

Because the top 10 battlefields were not only dangerous, but they also hosted teams from other forces as well.

Faction Leader Clifford then asked Dean Jerome for details. Dean Jerome told him that Zack Lockwood was still safe and secure.

Only then did Faction Leader Clifford feel relieved. He then told the same news to the other main elders. Austin and Ann understood that they didn't have to worry about Zack Lockwood.

Dean Jerome was more protective of Zack Lockwood than they were.

...

Warrior Camp No. 8

The following day,

Buzz!

I was about to enter the practice room for my daily schedule, but the alarm sounded the next moment. Hearing that, I was shocked. I didn't expect the battle alarm to sound now.

I immediately began to put on my battle uniform and mask. In the blink of an eye, I got ready and left the room.

Swoosh!

I saw everyone flying towards the teleportation platform. Seeing that, I darted towards the teleportation platform as well.

When I got there, I followed others onto the teleportation platform. There were a few others who saw me wearing my mask.

At this point, everyone knew about the newcomer, but they didn't know my real identity.

Swoosh!

After entering, I felt a sensation of descending. It didn't take long for me to feel my feet touch the ground.

I walked out of the layer covering the teleportation platform. One after another, warriors came out from the platform as well.

I started walking towards the front line. The next second, I felt the presence of many strong auras. It was the aura of the foreign creatures.

Then, I felt warriors coming up behind me in groups, including the Red Moon Tower and the Giant Tower warriors.

As their teams walked by, I felt their gazes. They were more interested in figuring out the identity of a Star University warrior.

Among the teams, the three-woman team was there as well. They recognized the Star University warrior who had rescued them that day.

They had shared the news with their fellow Red Moon Tower warriors. They were all shocked at the time because they knew the names of every strong warrior.

So, they didn't know the masked man. They were thinking that a new warrior had made his debut.

I paused after walking some distance. I had a wrong feeling about this situation.

The overwhelming auras of foreign creatures were directed at one point—especially the place I was standing right now. What's going on? I raised my eyebrows and started observing the area.

I noticed the Red Moon Tower teams had walked away. The Giant Tower teams were not near me; they were going to the front line.

The Star University teams coming out were going to the front line as well. In the massive battlefield, everyone could have a wide space for themselves to fight.

But why did I feel something was wrong here? I turned on my perception because I found nothing in sight. The plain seemed to be clear.

The foreign creatures were yet to appear in my sight.

At the same time, the Star University warriors were confused. They didn't know why someone from their University was standing alone here.

They had already collected some information about the masked man. They knew he had used the purple lightning element to rescue the Red Moon warriors.

There was only one faction that used the lightning element more: the Thunderflame Faction. The warriors from the Thunderflame Faction noticed the masked man.

The newcomer was from their own faction, but they didn't know his name. They had tried to meet him, but he never came out after entering inside.

He finally showed up now for the battlefield.

Finally, three teams walked up to the newcomer. They couldn't watch their faction members being sidelined. The relationship between other factions and outside forces was not good.

Hostile people could use this opportunity to take down the newcomer.

On the other hand, I sensed a dark, weird aura in my perception. My expression changed drastically. The foreign creatures were not showing up for some reason.

What was the reason behind it? Were they planning an ambush? A lot of questions appeared in my mind.

"Hey, why are you standing here?"

I heard a middle-aged man's voice from behind. I collected my thoughts and turned around. Then I saw they were from the Star University warriors as well.

They were Gold Mark and Silver Mark warriors.

“Seniors, I feel something is wrong with the battlefield. The foreign creatures are up to something. So let’s observe a little more before going to the battlefield,” I said to them in a serious tone.

“This?” The warriors were taken aback.

They were about to say something. It was something unbelievable. But then they saw those serious eyes. Why would their fellow University warrior lie?

Especially since the warrior was from their Thunderflame Faction. They had to believe him.

The middle-aged man said, “Don’t worry, we are from the Thunderflame Faction as well.”

Hearing that, I sighed in relief.

“Senior, since we are from the same faction, trust me with this one. I know you don’t know my name, but you will know later. So for now, don’t go to the front line,” I said to them.

Hearing that, the warriors looked at each other.

A female warrior said, “It doesn’t matter if we go or not. The foreign creatures will come to us. Why don’t we wait here?”

“Yes. She is right. Let us all wait here.”

“Okay!”

The other warriors here agreed.

Chapter 1386: Facing all alone!

From MC’s Perspective

Warrior Camp 8

The other warriors agreed to my request. I heaved a sigh of relief. Fortunately, the warriors could avoid their death now.

Then, I turned around and looked ahead. The black plain land was empty and desolate. The smell of corpses and blood lingered in the air.

The warrior teams behind me were looking at the battlefield ahead.

Buzz!

Suddenly, a black wave of weird aura spread across the place. Everyone saw the incoming black weird aura heading towards them.

"This?" The middle-aged man standing behind me was stunned.

The faces of the other warriors changed drastically. They turned towards the masked man. They felt grateful; they could tell that something was wrong with the frontline ahead.

Cry!

Next, everyone heard the cries and screaming of warriors in different directions. It was coming from the warriors who went ahead earlier.

Everyone was met with some kind of attack ahead.

The cries made the warriors' faces change further. Everyone hesitated to go ahead to check.

At the same time, my perception picked up. I spotted various foreign creatures of different shapes and sizes.

They were coming towards this direction. I raised my eyebrows. The cries earlier came from the warriors. Then what about this group?

I still felt something was not right. I didn't know what it was yet.

Gasp!

"The foreign creatures are coming!"

"Not one, but many!"

The warriors behind me exclaimed. Suddenly, I thought of an idea.

"Seniors, you guys go in different directions. Let's see if the foreign creatures split or not. Otherwise, we would be facing the whole group," I turned around and said to them.

Hearing that, the warriors felt it was right. They didn't have the confidence to take down the big group.

"Alright, you take care!"

The middle-aged man spoke before leaving with the others.

Swoosh!

In the blink of an eye, the three teams were gone from the place. I was the only one standing there.

As time went by, the dark weird aura got closer to me. It didn't take long for the dark mists to clear.

The figures of the foreign creatures appeared. I could spot them through my eyesight and perception.

More than one group of foreign creatures was coming. Their direction was exactly towards me. They were not parting ways or changing direction.

As if their target was me. My eyes flickered. I recalled Supervisor Ronan's words from that day. Not only could he watch my battle, but the Supervisor on the foreign creature side could see my battle too.

I guessed he might have already ordered the foreign creatures to eliminate me. Now, everything became clear.

My mouth curved into an arc. It didn't matter how many of them came. I was ready to take them down.

Meanwhile

The humanoid foreign creature with a horn saw the battle situation. It saw that the foreign creatures had spotted the human target.

Now they were going to encircle him from all sides. The humanoid creature showed a wide row of teeth. It believed that the human genius warrior would fall today.

This was enough to get more battle credit.

On the other hand, Supervisor Ronan saw the situation as well. His expression was serious. He didn't expect Zack Lockwood to be targeted by the foreign creatures.

He didn't know whether the brat could take down all the foreign creatures, because some of the foreign creatures had Gold Mark Level strength.

Battlefield

My gaze fell on the incoming foreign creatures. Now I was certain that the foreign creatures were targeting me.

I didn't have to hold back my strength.

"Lightning Cage!"

The next second, I used the Lightning Cage technique.

Powerful rays of dark purple lightning beams released from both of my palms. The powerful dark purple lightning beams shot through the air before spreading like spider webs in the sky.

The dark purple lightning webs immediately trapped the weird black foreign creatures. The foreign creatures were of different shapes and sizes.

Boom!

One after another, the dark purple lightning rampaged through their bodies. The Silver Mark Level foreign creatures suffered serious injuries.

They were immobile. They couldn't do much right now.

On the other hand, the Gold Mark Level foreign creatures suffered only slight injuries. They escaped from the current predicament and started darting out towards the target.

Their bodies were covered in a black weird aura. Their strength and force were doubled.

My gaze fell on their bodies. I withdrew my hand. The dark purple lightning cage enveloping the foreign Silver Mark Level creatures was released from its grip.

Boom!

Then, I circulated the shock force and dark lightning force together. The power of the mixed forces flowed through my body.

In a flash, the different Gold Mark Level foreign creatures appeared in front of me. When they were about to strike me, my inheritance force was ready.

I executed the technique.

"Lightning Wheel!"

Dark purple lightning mixed with gold and silver power appeared around me. The foreign creatures' attack landed on the wheel.

Boom!

The wheel, which was beaming with power, exploded upon coming into contact with the attack.

My physique was stronger than before, so I remained rooted to the spot. The impact force did nothing to me. The dark purple lightning power struck the bodies of the foreign creatures.

Boom!

One after another, the foreign creatures were flung backwards. They crashed into different spots with a heavy thud.

The heavy explosion sound spread across the place. The other foreign creatures received the impact force as well. They fell down to the ground.

In the blink of an eye, no one was standing on the ground. I didn't know the exact count of the foreign creatures targeting me, but I was sure there were more than 20 warriors' worth.

When everyone was down, I brought the white bone staff outside. Then I covered the staff with dark purple lightning force.

Thunder!

A crackling sound occurred. Then I lifted the staff up and bolted out towards the nearest foreign creature.

Swoosh!

In a flash, I arrived in front of the injured creature and struck it. The staff landed a heavy blow on the foreign creature.

Boom!

The staff struck the chest. The creature's chest bones were crushed. It died a horrible death.

Chapter 1387: Success!

From MC's Perspective

Boom!

I disappeared from the spot and struck the foreign creatures with the white bone staff, one after another.

The blunt weapon dealt heavy blows to the foreign creatures of different sizes. Their inner organs and bones suffered heavy injuries.

They wouldn't be able to stand again.

In particular, the bodies of the Silver Mark Foreign Creatures cracked upon getting hit by the staff.

They couldn't withstand the overwhelming power of the lightning force. They were lying on the ground, close to death.

Boom!

The Gold Mark Level Foreign Creatures released a weird black aura to increase their strength again. They had been hit by the lightning wheel earlier.

They weren't feeling pain right now. With their current power, they could fight across ranks, even challenge the Purple Mark Creatures.

I recollected my thoughts and turned towards them. Seeing more than three Gold Mark Level Foreign Creatures, I decided to use the mixed force again.

The three Gold Mark Level Foreign Creatures were giving me a sense of crisis again. If I didn't use the mixed force, then I would suffer instead.

Boom!

This time, the purple lightning and shock force flowed through my body. I could feel my whole body brimming with power. This level of strength was needed to confront the black aura-covered creatures.

Swoosh!

In a flash, both sides came in contact with each other. My eyesight covered their bodies, and my senses picked up every detail.

I calculated the distance between us very quickly in my mind. The three Gold Mark Level Foreign Creatures were in humanoid shape, so I didn't have much difficulty.

Boom!

The staff was covered in dark purple and shock force in the blink of an eye. Next, I used the staff technique against the foreign creature.

I rolled the staff in my palms before striking forward. The staff moved forward like a spear thrust; the lower end smashed against the chest of the humanoid creature, creating cracks.

Boom!

The power of the mixed force acted; the impact blasted away the weird dark aura covering the creature.

Pfff!

The chest caved in. The humanoid creature lost its balance and fell to the ground.

Swoosh!

Next, I swung the staff to my left. The lower end flashed before the eyes of the second humanoid creature.

Boom!

The overwhelming force struck the head of the creature. The power of the dark lightning and shock force exploded on the creature's face.

Cry!

With a painful cry, the foreign creature smashed back into the ground. This all happened within seconds.

The white bone staff was still covered in dark purple and golden-silver force.

Swoosh!

The third foreign creature was stunned. It had been so close to launching an attack, but the fate of the other two foreign creatures stunned it.

The foreign creature was hesitant as to whether to attack or not. My eyes flashed with a glint. It was the right opportunity to attack.

Boom!

In a flash, I appeared before the creature and used the staff move again. The white bone staff swept from low to high.

The staff gained momentum with huge force. The lower end blurred before the eyes of the foreign creature. Before it could realize anything...

The staff's lower end smashed the head of the foreign creature.

Boom!

The powerful force destroyed the weird black aura and blasted away the foreign creature. It was flung backward before crashing to the ground.

Then, I gripped the white bone staff and started looking around the place. Right now, more than 20 foreign creatures are lying on the ground.

Most of them were dead, including the Gold Mark Level Foreign Creatures. Only a few of them had lingering breath left. They would die in a few minutes.

Only then did I put my heart at ease. My grip over the staff loosened. Then, I thought of the other warriors. They would soon come towards my place.

...

Meanwhile,

The Purple Mark Level Foreign Creature in the hidden space was enraged. The humanoid creature with a horn was extremely angry.

It saw the bloody corpses of its kin scattered across the ground. The humanoid creature looked toward the human warrior with a different gaze.

It understood the human warrior was not an ordinary genius. The grade of this genius warrior had to be higher.

The humanoid creature's eyes flashed with killing intent. It decided to add the name of the warrior to its killing list. But before that, it needed the identity of the human warrior.

It decided to use spies to get the information.

On the other hand, in another space, Supervisor Ronan had been watching the scene as well. He was left speechless and dumbfounded.

It took him a long time to recover. He didn't expect Zack Lockwood to have this level of strength. To take down more than 20 Foreign Creatures was no ordinary feat.

Not only were the Silver Mark level foreign creatures dead, but the Gold Mark Level foreign creatures had died as well.

He noticed Zack Lockwood using some special attack technique. He couldn't help but think of gold and silver power, though he didn't know what it was.

Ronan's eyes flickered. He understood that the Purple Mark Foreign Creature had set its eyes on Zack Lockwood.

"The enemy wanted to eliminate Zack Lockwood. That's why the foreign creatures were targeting him," Ronan uttered.

He recalled the warning given by Dean Jerome. He couldn't let the foreign creatures do as they pleased. He decided to think of something.

...

Battlefield,

After killing the foreign creatures, I continued to stand there. But there was no sign of other foreign creatures. They could be fighting against the warriors now.

I didn't want to go there and help out others. My inheritance force was already close to depletion. I didn't want to use the sealing force and bloodline force here.

Otherwise, my secrets would be exposed. Then I could face more dangers in the future. I didn't know if they suspected the gold and silver mixed power.

I should prepare some answers before anyone can ask me.

Chapter 1388: Shocking the Supervisors!

From MC's Perspective

I continued to stand there, but no other foreign creatures came to trouble me.

Buzz!

The alarm sounded a few hours later. It was the end of the battle. Hearing that, I gazed over the corpses lying on the ground.

If others appeared, they would definitely be shocked by the scene here. They wouldn't believe their eyes.

Having already been targeted by the foreign creatures, I didn't want my identity to be exposed. If the Giant Tower University learned about my identity, they would definitely target me.

The bad blood between me and the Giant Tower goes back a long way. Next, I turned around and started heading back towards the teleportation platform.

I reached the layer before going to the teleportation platform. Then, I stepped inside and disappeared from the spot.

At the same time, the warriors were returning from the front line. They saw the gruesome sight in front of them. The ground was littered with corpses.

Gasp!

A loud exclamation occurred.

Star University, Giant Tower University, and Red Moon University Warriors were on the spot. For a second, they were lost for words.

Then, someone from the crowd said, "These are corpses of the foreign creatures, but not a corpse of a single warrior was found."

Gasp!

Hearing that, the warriors exclaimed again. They recovered their thoughts and started analyzing the corpses.

They realized that not a single human warrior corpse was among them, which meant only one thing: Someone had slaughtered the foreign creatures.

But who was it? This number of foreign creatures only appears at the front line. So what happened now? How could there be this number of corpses here?

"Who killed these foreign creatures?" a Giant Tower Warrior asked.

He found it unbelievable. He was a Gold Mark Warrior. From the corpses, he found that several auras were that of the Silver and Gold Mark Level Foreign Creatures.

Only Gold Mark Warriors can cause this much slaughter. But they didn't know whether it was caused by a single warrior or a group of warriors.

The group of warriors stayed there. They were all from different teams and universities. They started checking out each other.

They wanted to know which team had done it. If the news were to be reported outside, it would definitely cause chaos. The elders wouldn't be silent.

As time went by, more and more survivors returned. Most of them were injured. They saw that many teams had gathered inside.

They didn't know what was going on. The team leaders turned towards the incoming warriors. They were injured, so it took time for them to return.

The injured warriors were confused. Then, their gazes fell on the corpses as well. But these were corpses of the foreign creatures. This time, they were stunned.

Meanwhile,

The survivors on the foreign creature's side reached their teleportation platform. This time, the number of casualties on the side of the foreign creatures was large.

They didn't know that some of the teams took joint action against a single warrior. Yet, that single warrior wiped them out.

The foreign creatures knew about the plan as well. So, they were shocked knowing that their kin had not returned. They didn't know whether the target was alive or not.

Then, the foreign creatures entered their teleportation platform.

...

Foreign Creature Hidden Space,

On the other hand, the Supervisor Horned Humanoid Foreign Creature was angry and scared. He was angry that his plan had failed.

The foreign creatures had a team of Silver and Gold Mark Level Creatures. Yet, they had failed to eliminate the single target.

The horned humanoid creature was absolutely confident in its plan. But it had witnessed something unimaginable.

It took some minutes to calm down. The foreign creature felt absurd. It didn't know whether the higher-ups would believe it. That's why it was scared.

This time, the casualties on their side were large. The higher-ups would definitely take notice of the performance of Warrior Camp 8.

The humanoid foreign creature didn't dare to wait. When the foreign creatures were returning from the battlefield, the humanoid creature reported the name of the masked man to the higher-ups.

Unlike the human side, the foreign creature side has numerous powerhouses. Including the Red Mark Level Foreign Creatures.

After sending the information, the humanoid creature relaxed. It knew it would be a matter of time before the masked human Warrior faced death.

Their foreign creature side had eliminated numerous talented warriors over the years. The most terrifying factor was something else.

They had used the human warrior side's forces to eliminate the targets. This time, they could do the same.

...

Human Warrior Hidden Space,

Supervisor Ronan was pacing back and forth in the office room. Assistant Jairo was in the room, but he didn't know what had happened.

He saw that Supervisor Ronan was serious. If there was any plot arranged by the foreign creature side, he wouldn't remain silent.

He would have already given his orders. Seeing that he was going back and forth, Jairo thought something else must have happened.

So, he mustered up his courage and asked, "Elder, what's going on?"

Hearing that, Ronan paused his footsteps. He then recovered his thoughts and turned towards Jairo.

"I can't tell you now." After saying that, he told him to leave.

Jairo was shocked. But still, he nodded to him before leaving the room.

Ronan then took his device and called Dean Jerome.

He had witnessed something incredible today. His heart was in turmoil. He had already witnessed the greatness of the kid.

Earlier, his assessment of the kid was different. He had thought Zack Lockwood would reach the Purple Mark Level.

Now, he changed his assessment. This time, he thinks Zack Lockwood could possibly become a Red Mark Warrior in the future.

Which explains Dean Jerome's support for the kid.

"This kid could become Dean of Star University in the future," he thought.

Dean Jerome answered the call.

Ronan then started reporting to Dean Jerome. He was not missing a single detail.

...

Camp,

After coming out of the platform, I returned to my room. My clothes were soaked with blood. I entered the bath to take a shower.

Chapter 1389: Giant Tower's man!

From MC's Perspective

30 minutes later,

I sat down on the sofa. I leaned back and began to recall today's fight. It was a bloody battle. I didn't expect the foreign creature side to target me.

But I had completely obliterated them. Still, it was a small part of the force. The main force had engaged in battle against other team members on the front line.

The supervisor of the foreign creatures must have underestimated me. That's why he had sent a small team to eliminate me.

He must have thought I would be under a team, so he planned to kill me along with the team members. But I was not part of a team.

So, my battle had exposed some of my strength. I didn't use the other Inheritance force. I had managed to deal with everyone using the Purple Lightning force.

But next time won't be the same. I think the foreign creature side will send more teams after me. If this goes on, I would be forced to expose other cards.

A quick gleam appeared in my eyes. Under absolutely no circumstances I'm not going to expose my other cards.

It would be better for Warrior Camp 8 to send me to other camps. The more I thought about it, the more I felt the idea was correct.

Then I stood up and put on my face mask. I walked out of the stone room and started heading towards the office building.

On the way, I saw warriors outside. Some were chatting and training outside, while others must have been recovering in their rooms.

My appearance attracted their attention. I could feel their cold gazes on me. As if they wanted to see through me right away. But they couldn't break the rules here.

And since I'm from Star University, the other members won't stay silent. So, I ignored them and continued forward.

On the other hand, the camp warriors' faces were filled with surprise. They hadn't heard news of the newcomer today. They had no doubt that the newcomer must have entered the battlefield.

But why was there no news about him? They thought that the newcomer must have entered the battlefield and joined one of the teams to fight against the foreign creatures.

Yet there was no news about it. They didn't know the name of the newcomer yet.

A few minutes later,

I reached the office. I saw the guards in front of the office. I didn't disturb them. Instead, I called Assistant Jairo. Assistant Jairo answered my call. I told him about my purpose.

Creak!

The next second, the door opened. Assistant Jairo walked out. Upon seeing me, he was surprised.

"Come in!" Jairo uttered.

Then I nodded to him before going inside the room.

I saw Assistant Jairo and Supervisor Ronan. Supervisor Ronan was seated behind the desk.

Ronan was shocked upon seeing Zack Lockwood. He thought Zack Lockwood would be taking a rest. Instead, the kid had come here.

"Zack Lockwood, what happened?" Ronan asked.

Hearing that, I was stunned. I didn't know how to bring this up. Then I mustered up my courage and said, "Elder, is there any way for me to enter another warrior camp?"

"What?" Ronan was shocked.

Even Jairo was stunned. He didn't know what was going on.

Before Supervisor Ronan could ask, I said, "Elder, you must have seen the battle. I think there will be danger next time. I won't be able to handle large numbers next time."

Ronan's eyes flashed with seriousness. He understood Zack Lockwood's worry. To be honest, he was worried about that as well.

So, he had told Dean Jerome not long ago. The decision was up to him.

"I reported to Dean Jerome. He will make the decision," Ronan said.

Hearing that, I sighed in relief. It appears Supervisor Ronan is aware of my situation as well. Then I thanked him before turning around.

"Wait!" Ronan said.

Hearing that, I stopped and turned around.

"The warriors are trying various ways to understand your situation. They know that you are a Star University warrior, but they don't know your other details."

"If they learn your name, it might cause unwanted problems. Because the next batch will have Bloodline Warriors from Star University."

"If they know your name, they might cause trouble for you," Ronan said in a serious tone.

So far there was no problem. But the warriors included in the next batch are different. He didn't want Zack Lockwood to face problems.

"Bloodline Warriors, huh!" I felt a headache coming.

"Elder, do you have any plans?" I asked.

"Just stay low. I'm waiting for Dean Jerome's decision. He must have known about this as well," Ronan replied.

"Okay," I uttered before leaving the room.

Assistant Jairo was still there. Ronan had explained only a few things about the battle. He didn't tell him about Zack Lockwood's slaughter actions.

Ronan was afraid that news could be leaked.

On the other hand, I started heading back to the room. I came here to find a solution, but I heard another piece of bad news. I wanted to reach Purple Mark Warrior before acting boldly.

Once I become a Purple Mark Warrior in the future, then I can fight across the Red Mark Warrior level. The ambition was big. But I knew it was going to be difficult.

A few minutes later,

I reached my stone room building. But I saw a middle-aged man standing in front of my room. When I saw his clothes, my eyes flickered.

"Giant Tower University," I thought.

The middle-aged man turned around and saw me as well. A broad smile appeared on his face. He started walking up to me.

He then stood before me and continued to observe me. I noticed his Gold Mark Level strength as well. The middle-aged man felt a hint of danger.

His eyes flashed with surprise. His intuition never went wrong. His smile disappeared.

"I'm Big Vic, a Gold Mark Warrior of Giant Tower University," the middle-aged man said with a smile.

Then he extended his hand.

Seeing that, I understood he came to test me.

Chapter 1390: Widespread rumour

From MC Perspective

Warrior Camp 8

Seeing the middle-aged man extending his hand to me, my eyes flickered.

I smiled and asked, "Senior, do you need something?"

Bob was dumbfounded. He felt he was being humiliated. He had come here to probe the strength of the Star University Warrior.

So, he ignored the disrespect. His first goal was to find out the identity of the warrior. It would be useful to the organization.

The Star University is a rival to the Giant Tower University. They were in the camps not only to fight against foreign creatures but also to collect information on Warriors from rival forces.

"Junior, I told you my name. But what about you?" Bob said in a cold tone.

Hearing that, I knew I was right. Supervisor Ronan had just warned me about this matter. I didn't expect it to happen this quickly.

"Cough!"

"Senior, don't you know it's a bit rude to ask about someone's privacy?" I said with a smile.

"What privacy?"

"It's just a name," Bob uttered with a sudden burst of anger; he lost his composure for a second.

He looked at the newcomer with bloodshot eyes. He had not been disrespected like this by anyone before. He wanted to attack the newcomer right away.

However, he understood his intention had been seen through. If he continued to stay here, he would face humiliation.

"Harumph." He gave a cold snort before walking away.

I turned around and looked at his retreating back. My eyes flashed with a glint. I think the upcoming days won't be peaceful.

If they can't complete their task here, they will try to do it on the battlefield. But I would like to see whether they are going to break the rules or not.

The supervisor can watch the battles. If they try to attack the same side on the battlefield, they won't be able to escape punishment.

Then, I collected my thoughts and turned around to enter the stone building.

Meanwhile

Bob Vic joined a group of friends. They knew he had gone to collect information on the newcomer. Upon seeing him, they became eager to know about the newcomer as well.

But Bob was visibly angry. He could feel the gazes of his friends.

"Bob, what happened?" one of the friends asked.

Hearing that, the other friends saw that something was wrong with Bob's face.

"Don't ask me. That young man didn't give me a face. He refused to answer any questions," Bob said in a cold tone.

Gasp!

"What?"

"How dare he?"

"Doesn't he have respect for the Gold Mark Warriors?"

"We should teach him a lesson."

"He must be looking down upon our Giant Tower University."

The warriors here were enraged. They were all from the Giant Tower University. A few of their friends had died in the battle. Some of them were injured.

So, they were waiting for the next batch to come. Once the next batch arrived, the injured could leave. But before leaving, everyone agreed to share the collected intel with the higher-ups.

But the appearance of the newcomer added pressure to them. The newcomer happened to be from Star University as well. So, they had to collect information about him.

Bob Vic heard the cursing and complaints from the others. Seeing that they were angry as well, he relaxed.

"Alright, I guess the next batch won't be the same as us. Some of the veteran warriors will definitely come in the next batch. They will definitely teach a lesson to that newcomer," Bob said in a cold tone.

Quiet!

Hearing that, the others quieted down. They understood that the seniors from the next batch would definitely do something about it.

The group talked about it before parting ways. Bob Vic went back to his room.

A few hours later, the injured were returned to their place through the teleportation platform. At the same time, the warriors from the next batch started arriving at the camp.

Tier-4 Region

All the major forces have spies planted by the foreign creature force. The major population pays attention to news about famous warriors.

Suddenly, a rumor started spreading among the masses. The rumour was about the Star University's Masked Warrior.

He is a Silver Mark Warrior who has single-handedly wiped out more than 20 foreign creatures. The foreign creatures had both Silver Mark and Gold Mark level strength.

When the rumours were heard by the locals, everyone felt it was absurd. It was not the first time for them to hear such exaggeration.

Since the major forces won't reveal official information, it gives birth to rumours and conspiracies. But usually, all such false information quiets down soon.

But this time, something else was happening. The same rumour was spreading like wildfire in different areas of the Tier-4 Region.

This was deliberately done by the spies planted by the foreign creature side. Ever since they read the report, they were shocked. The higher-ups were alarmed.

They don't want the human side to have a formidable Purple Mark Warrior or a future possible Red Mark Warrior. They have decided to kill the masked warrior in the bud.

Fortunately, they at least knew that the masked warrior was from Star University. So, they will uncover his identity sooner or later.

As time went by, the rumours didn't die down. They were being discussed in major places, including restaurants, markets, and other important locations.

It didn't take long for some forces to pay attention to this matter. They had never seen such rumours spread at this fast a rate. They could tell that something was not right.

They didn't know who was stirring up trouble.

...

Meanwhile

The rumours were spreading across the territories under the Star University. Since the masked warrior was from the Star University, the people living there became more interested in it.

They wanted to know whether the news was true or not. Some of the families located outside Star City have started contacting their spies.

They wanted to know the reason behind the rumour as soon as possible.
