

BloodLine 1471

Chapter 1471: Part 4: Battlefield No. 3

Battlefield No. 3

Time passed.

A weird foreign creature with a long finger made a sneak attack from the left side. The attack was so sudden. If my senses weren't so strong, I wouldn't have noticed it.

"Lightning Wheel"

I executed the technique right away. A purple lightning wheel appeared around me. The lightning wheel beamed with overwhelming destructive power.

It appeared in a flash before coming into contact with the foreign creatures which were attacking me.

Boom!

The next second, the foreign creatures which were closer took the full brunt of the attack. In the next second, the foreign creatures were blasted away from the spot.

They were all thrown back and their bodies landed in different directions.

This all happened within seconds.

I used this opportunity and moved backwards instantly to widen the gap. The foreign creatures were all stunned. They stopped attacking for a second.

The warriors who were watching from a distance were taken aback as well.

The attack was so sudden. They didn't know what words to say.

Right then, the planted spies felt the opportunity had come. If they didn't move right now, the foreign creatures wouldn't give an opportunity to them.

Swoosh!

The planted spies were from different universities. They used their elemental attacks right away.

A huge earth boulder, water arrows, and flame balls were shot at their target. This happened within seconds.

Each of the elemental attacks was larger in size. They were going to rain down on the target.

On the other hand, I raised my head and looked towards the sky. The attacks were falling down like rain.

"Lightning Phantom"

I used purple lightning bolts to cover my legs. In a flash, I evaded the attacks one by one. The huge boulder landed on the ground with a heavy thud. A huge pit appeared on the ground.

Right then, the massive flame balls landed on the ground one by one.

Boom!

Explosions occurred one after another. The flame spread across the place and destroyed the pile of corpses instantly.

If the flame balls were to land on the body of the purple mark warrior, he would be severely injured.

Swoosh!

Right then, the water attack followed suit.

It aimed precisely. The attacks were to land on the target next. Right then, I moved away from the spot.

The water arrow landed on the ground. It pierced the target and flooded the place.

In the blink of an eye, all of the attacks missed the target. They failed to hit me.

But it had exposed the whereabouts of the planted spies. They all looked at each other. Especially, the gazes of other warriors and the foreign creatures were on the planted spies.

Because the identity of the planted spies was a secret. Nobody knew about them.

Even the foreign creatures were clueless about their identity.

On the other hand, my gaze fell on the planted spies. There were eight in number. Seeing that they were exposed, the planted spies charged at Zack Lockwood.

They didn't have any other choice than to kill Zack Lockwood right now.

I gripped my white bone staff tightly. All eight of them were coming at high speed.

Swoosh!

I let the planted spies get closer to me. When one of the planted spies reached me, I used the white bone staff to smash his head. The end of the white bone staff came in contact with his head.

Boom!

The next second, the warrior was blasted away. Right then, I swung the white bone staff with force.

The staff went horizontally before striking down the second warrior. The purple lightning power electrocuted the person before sending his body flying backwards.

This all happened within seconds.

Boom!

Then I didn't stop and charged at the third and fourth persons. They were closer to me.

Smash!

I made an uppercut move by rotating the staff. The staff moved with speed before hitting hard. Once again, the staff ended up smashing the head of the warrior.

Puchak!

The attack revealed a wide cut on the enemy's head. Blood spurted from the wound.

Next, I drove the staff into the fourth warrior, who was a woman. The staff was covered in purple lightning power. The purple lightning power struck the woman down very hard.

Boom!

Her body flipped before crashing onto the ground.

Next, my gaze fell on the other four warriors. They were coming at me at a fast speed. I decided to use the staff technique.

As I performed the staff technique, I felt a mysterious power.

The power was brewing in my staff. I didn't hold back and struck down the other four warriors one by one.

Boom!

The mysterious power and the purple lightning power were overwhelmingly destructive. The four purple mark warriors took the full brunt of the attack.

They were seriously hurt. Their internal organs were bleeding. Their outer bodies looked completely charred. The skin and flesh were burnt.

They were electrocuted by the power of the purple lightning.

All eight warriors were brutally injured. They were all planted spies. I didn't have sympathy for them. I saw them struggling to survive.

They were injured so much that their vitality was going down.

I had no sympathy for them. My gaze swept across the place. I wanted to see whether anyone was coming forward. I doubted they were the only planted spies here.

There could be others here. They might be watching from the sidelines. I had shown enough strength to prove that I can take down anyone.

Quiet!

Silence filled the battlefield. Everyone's gaze was on me. For the first time, everyone had stopped fighting.

They were all looking at each other. Not even the foreign creatures with large numbers were attacking now.

Their primary target was me. Without eliminating me, how could they continue with the fight? I smirked. This rare silence gave me the opportunity to observe the battlefield.

I could see different types of foreign creatures now. My gaze swept across them. I was looking for the humanoid elite race member.

But I didn't see one. If the elite race member creature were here, it would have attacked me earlier.

Chapter 1472: A twist unseen

Battlefield No. 3

My gaze swept across the battlefield. I confirmed that there were no elite race creatures here.

So, there was no one who could pose a threat to my life. None of the foreign creatures were ready to attack me.

Should I start targeting others? Then, my gaze fell on the injured warriors and foreign creatures on the ground.

The fate of the planted spies was sealed. They were not going to escape. They would have to rot here. If they tried to come back, they would be caught by the elders.

Buzz!

The next second, the battlefield alarm sounded. It occurred at the right time. My heart relaxed a lot. The alarm sounded, and everyone relaxed their bodies.

I looked at the warriors and foreign creatures once again. Then, I turned around and started heading back toward the teleportation platform.

If I stayed here, someone would attempt a sneak attack again.

Gasp!

The warriors came back to their senses. The foreign creatures then relaxed and started going back toward their teleportation platform.

They needed to report back to the higher-ups. The high-value target had entered the battlefield. They weren't able to defeat him.

They needed someone at the level of an elite race member to kill the target.

Time passed.

It didn't take long for the battlefield to become empty, except for the planted spies and foreign creatures who were injured earlier.

They were lying on the ground. The foreign creatures could go back to the teleportation platform, but the fate of the planted spies was sealed.

They couldn't go back to the warrior camp. They had no other option but to stay on the battlefield.

On the other hand, I left the battlefield through the teleportation platform. Then, I appeared at the warrior camp. I was the first one to arrive.

I immediately rushed toward my stone house. In the blink of an eye, I reached the house. I used the key and entered inside.

I relaxed a lot. Then, I went to the sofa and laid down. The battle was intense.

On the other hand, Elder Mike was outside the teleportation platform. He was hidden, but he had seen Zack Lockwood coming out earlier.

Then, one by one, the warriors started coming out. Elder Mike didn't show his presence, but he was overhearing the conversation.

"Damn!"

"Zack Lockwood is here!"

"The battlefield is going to be more intense from now on."

"The enemies will send a more dangerous team next time."

The warriors started their discussion. They were afraid that they were going to be caught in the crossfire.

They could survive if the battlefield was not that dangerous because the enemies were at the same level of combat strength.

But because of Zack Lockwood, there was a chance the battlefield would be flooded with powerful enemies for example, the elite creatures.

They wouldn't be able to stand against the elite creatures. The warriors were frustrated. They were scared that the casualty rate was going to be high.

Elder Mike heard everything. He was surprised. He knew something might happen because of Zack Lockwood.

But he didn't expect the whole battlefield to be shocked. He wondered whether any fight had happened or not.

Then, he continued to listen to their conversation. It didn't take long for him to hear everything. He was able to make out the full picture.

He then returned to his office. He sat on the chair and leaned back, sorting out his thoughts. He needed to report to Dean Jerome next.

"So, there were planted spies," he muttered.

He doubted all the hostile people took chances against Zack Lockwood. He thought there were still smart people among the hostile forces.

They must be waiting to assess Zack Lockwood's strength. After this battle, they might have information. So, Zack Lockwood is going to face more attacks in the future.

It was going to be dangerous.

Buzz!

The next second, his device buzzed. He recovered his thoughts and picked up the device. The person who was calling was none other than Dean Jerome.

Mike sat up straight. He then answered the call.

"Dean," he said.

"What happened? Is the battle over?" Jerome asked.

"Yes, Dean. The kid has caused quite a scene on the battlefield. Everyone is talking about him. It appears the foreign creatures stopped attacking him at one point. No one was his match," Mike said.

"Then the battlefield didn't have elite race creatures," Jerome commented.

Mike was taken aback.

He said, "Dean, you are right. There were no elite race members who entered the battlefield this time."

"I know it. Keep an eye on others. There is no guarantee that planted spies won't attack inside the camp," Jerome said.

"Yes," Mike replied.

...

Foreign Planet

The dark planet had numerous spike-like black towers reaching close to the sky. At the base of the towers, massive cities were located.

In one of the cities, the higher-ups were located. They were discussing the battle reports coming in from various battlefields.

In one of the buildings, the higher-ups were looking at the reports from Battlefield No. 3. The news was shocking to them.

Most of the time, the battle was not fought. Everyone stayed in their position—both the foreign creatures and the warriors.

All because of one person. The person was none other than Zack Lockwood, their high-value target. Various bounties were on his head.

But no one had been able to locate him so far. It was rumored that the target was hidden away by the Dean of that university.

But now, that target had entered Battlefield No. 3 and was able to slay purple-mark level members.

The foreign creature higher-ups came to realize that the target had become a Gold Mark Warrior. That's why he was able to stop the battlefield and intimidate others.

They also got reports that the planted spies were defeated as well. Basically, no one was able to stop him. In the end, they could only return empty-handed.

The higher-ups decided that only elite race members could face the target now.

They made a united decision and gave orders to a team of Elite Race Members to enter Battlefield No. 3 next time.

Chapter 1473: Attack inside the camp

Warrior Camp No. 3

The warriors from the battlefield have returned. They have gone to their respective houses. Today's battle was shocking for them.

They have learned one thing: their strength was not enough.

Zack Lockwood has shown more formidable strength despite being a Gold Mark Warrior. They are Purple Mark Warriors, yet they are wasting more time dealing with the enemies.

The battle was an eye-opener for many of them. The battle revealed the strength of Zack Lockwood to the hostile warriors.

Many of them wanted to try their luck fighting against him, but they held back their intentions in the end.

This was because the planted spies made a move and got defeated. They exposed themselves. They didn't dare to return to the warrior camp side; they were left to die there.

Yet, there are people who have yet to make a move. They are planted spies who didn't move earlier.

They are waiting for an opportunity. They had seen the strength of Zack Lockwood. Not a single warrior can take down Zack Lockwood alone.

They have to make a united attack against him.

On the other hand, the elemental faction warriors are doing the same, though they are from Star University.

Their rivalry goes deep. If they can gain fame after defeating Zack Lockwood, it would be a huge matter for them.

Some of them are disciples of the faction leaders and the main elders.

Inside one of the stone houses, a middle-aged man with gray hair is recalling the earlier battle.

He is none other than one of the disciples of Faction Leader Vince, the Head of the Dark Variant Faction.

Like his hair color, the middle-aged man's name is Gray. He is a Purple Mark Expert.

Unlike the planted spies who received orders from foreign creatures, Gray got a direct order from his Master Vince. Faction Leader Vince wanted Zack Lockwood dead at all costs.

When he saw Zack Lockwood on the battlefield earlier, he had wanted to rush and attack him. But Zack Lockwood's strength made him change his mind.

He didn't expect the young man could fight against this many Purple Mark foreign creatures with Gold Mark strength.

It was a known fact that the Inheritance Force of Gold Mark and Purple Mark strength were different.

Even if it's Ancient Inheritance Force, the Purple Mark strength should have been stronger. Yet, Zack Lockwood's strength broke everyone's cognition.

There are warriors who can fight across Tiers, but they had never heard or seen anyone fight against this many enemies on the battlefield.

So much so, Zack Lockwood had caused the battle to stop at one point. Gray's eyes flash with jealousy.

He didn't know what made his Master want to attack Zack Lockwood, but he himself developed a hatred against the young man.

From the beginning, the Thunderflame Faction and the Dark Variant Faction did not get along well. Zack Lockwood is from the Thunderflame Faction.

How could he let the enemy faction have such a warrior? If the time is right, he will take action on the battlefield.

If he takes action on the battlefield, there is a chance to escape. But if he takes action inside the camp, he will die.

The elder here is a stronger Purple Mark Warrior. He is from the same university; obviously, he would stand behind Dean Jerome.

So, Gray was not foolish enough to take such action. But little did he know, there are foolish people in the camp.

Nighttime comes. Five black-clad figures stand in front of one of the stone houses. The stone house was not an ordinary one; it belongs to Zack Lockwood.

The five figures looked at each other. Their eyes flashed with a solemn glint. They were all Purple Mark Warriors.

They were from different universities, but they had one common identity: they were all planted spies.

They had lost the confidence to take action on the battlefield. They wanted to catch Zack Lockwood off guard and kill him right here.

Knock!

One of them stepped forward and knocked on the door.

Inside the house, I was lying on the sofa, resting. The knocking sound disturbed my sleep. I opened my eyes and saw it was night.

Knock!

I heard the knocking sound again.

"Who is it this time?" I asked myself.

I got up and walked up to the door.

Knock!

On the other side, the five Purple Mark warriors looked at each other, ready to strike.

Just before I could touch the door handle, my heartbeat increased all of a sudden. An unknown crisis hit me.

"What's going on?" I muttered.

Then I took a moment to realize: anyone could be outside. I was thinking the person must be Elder Mike, but what if it is not?

A cold glint appeared in my eyes.

I had assumed that no one would be foolish enough to try to attack me inside the camp. But what if I'm wrong?

I slowly circulated the dark purple lightning. I can control the lightning freely without relying on a technique.

In a flash, my whole body was covered in purple lightning. I looked at my hand and slowly withdrew the power before opening the door.

The next second, my gaze fell on the five warriors outside. Upon seeing me, they went for the attack.

Boom!

Seeing that the warriors were coming at me, I reacted instantly.

"Lightning Wheel!"

I executed the lightning attack. A purple lightning wheel appeared around me, beaming with power.

Right then, the five of them got closer and collided with the wheel.

Boom!

The next second, the wheel exploded. The overwhelming destructive power struck them one by one.

In a flash, the five warriors were blasted away. Their bodies flew through the air before crashing into the ground.

Everyone was hurt. They didn't expect Zack Lockwood to be ready with a lightning attack.

The noise of the attack was so loud that it alerted nearby houses.

One after another, the warriors stepped out to watch the scene. They were all shocked to see the damage.

They didn't expect anyone would dare to fight inside the camp.

Chapter 1474: Part 1: Fight against the elite race members

Warrior Camp No. 3

The five warriors were coughing up blood on the ground. They were badly hurt. My gaze swept across them.

I wanted to know who else wanted to attack me. But none of the warriors stepped forward.

The warriors were all watching from a distance. They were all visibly shocked. None of them stepped forward toward Zack Lockwood; they were all scared.

What's more? They looked toward the five warriors on the ground. They were all beaten up and bruised.

The warriors were shocked. They felt the attackers could be planted spies.

Swoosh!

The next second, Elder Mike appeared. He looked around the place. His gaze swept over Zack Lockwood and the others. Then, he finally saw the injured warriors on the ground.

His eyes flashed with a cold glint. He appeared in front of the injured warriors.

Boom!

He released a pressure of coercion. The coercion struck the five purple-mark warriors. Their faces showed fear. They were exposed. They had no words to say.

Mike didn't do anything further. He simply called for help. A few more elders responsible for safety arrived at the scene. They captured the five warriors and took them to the prison.

Elder Mike then turned toward the other warriors.

He said, "It appears people forget the rules here. Infighting is forbidden. Those who break the rules will be strictly punished."

Hearing that, the other warriors shuddered. Mike looked toward Zack Lockwood before disappearing from the spot.

It didn't take long for the other warriors to leave. I calmed my heart and returned to the stone house.

The Next Morning

I woke up early. I started my morning routine, which lasted for one hour. After that, I entered the essence chamber and turned on the switch.

World energy filled the room. I went to the middle and sat cross-legged on the ground.

I closed my eyes and started running the Purple Lightning Method. I wanted to recover my inheritance force.

Time passed.

After recovering the inheritance force, I shifted to other inheritance methods. I practiced until all my force was recovered.

A few hours later...

Buzz!

The battle alarm sounded. Hearing that, I quickly got ready. I left the stone house and rushed to the teleportation platform.

The other warriors were heading in the same direction.

In the blink of an eye, I reached the teleportation area. The warriors were entering the platform one by one and disappearing.

I entered one of the slots.

Swoosh!

The platform activated. I disappeared. In the blink of an eye, I appeared inside the battlefield. My feet landed on the ground.

My gaze fell on the layer. I walked through it to the other side. My eyes swept over the extending battlefield. Piles of corpses were scattered everywhere.

I brought out the White Bone Staff. I was sure the battlefield was going to be dangerous. The elite race members would likely come here.

Thunder!

I circulated the purple lightning force and covered the White Bone Staff.

Boom!

The next second, I saw several streaks of black energy rushing toward me. Don't tell me the foreign creatures have recognized me this fast?

Seeing them, I charged. In the blink of an eye, I reached them. Three horned humanoid creatures stood in front of me.

I recognized one of them—the one in the middle. That humanoid had fought me last time.

My gaze fell on the other two standing next to him. They looked similar.

Boom!

Their bodies were covered in dark black energy. The next second, they charged at me.

Boom!

I swung the White Bone Staff at them. The side of the staff moved horizontally, making contact.

The staff struck a foreign creature. The purple lightning force hit the humanoid one. The lightning power damaged the dark power, reducing it slightly.

The one who attacked was the first one. The second and third were yet to make their move.

Boom!

The first humanoid was forced backward. Right then, the second and third made their moves.

Dark black energy shot from their bodies. The energy was so close to me. My perception was active.

I shifted my weight. The dark energy brushed past me.

Boom!

I blocked the second attack with the White Bone Staff. The dark energy was reflected and landed on the other side.

A huge, deep pit appeared in the ground. The humanoid creatures didn't stop; they continued their attack.

Boom!

One after another, the dark energy attacks reached me. I used the White Bone Staff to deflect all of them.

On the other hand, the human warriors had reached the front. They started fighting against the foreign creatures.

Unlike last time, the warriors didn't have time to stop and watch Zack Lockwood's fight. They were busy themselves.

The foreign creatures were not stopping either. They had come with a plan and started attacking the human warriors.

The job of eliminating high-value targets was the responsibility of the elite race members. The rest had to deal with the human warriors.

There were still planted spies left, but they had no opportunity to move. The elite race members were focused on fighting Zack Lockwood.

As time passed, the coordination of the attacks between the three elite race members became stronger.

At close quarters, I found it hard to deflect the attacks. I moved from offensive to defensive mode.

I was being pushed backward. If it were anyone else, they would have been killed by the attacks already. If this continues, it will be dangerous for me.

I have to find a way to go back on the offensive.

Boom!

Right then, dark energy brushed past my side. I immediately felt a burning pain.

I controlled the lightning power externally to destroy the lingering dark energy there.

Swoosh!

The next second, I retreated to widen the gap. I understood that team work of the elite race members were strong.

They had come here with the plan. I should try something else to defeat them quickly. There could be others waiting for their chance to attack me.

Chapter 1475: Part 2: Fight against the elite race members

Battlefield No. 3

The 3 Elite Race members saw the target was retreating. They looked at each other. To be honest, there was competition among them.

If any one of them could take down Zack Lockwood, they would be rewarded with more resources. The second horned humanoid charged forward suddenly.

Swoosh!

The second horned humanoid creature was getting closer to the target. It was the same creature that fought against Zack Lockwood last time.

The other 2 foreign creatures were taken aback all of a sudden. They didn't expect the second person to take the lead.

Boom!

The black runes on the horn began to charge. Dark spikes shot from the sharp horn.

A dark streak of light shot toward Zack Lockwood.

On the other hand, my senses screamed at me. I put away the white bone staff and shifted my weight to avoid the attack.

I thought it was time to go on the offensive. No one was paying attention to us.

By this time, the horned humanoid creature appeared before me.

Smash!

I landed my fist squarely on the horned humanoid creature's body.

The horned humanoid creature cracked a grin before countering with a fist.

Boom!

Both fists came into contact with each other. The purple lightning power clashed with the dark fist. I felt a strong impact force from the creature.

Swoosh!

The other 2 humanoid creatures appeared at the right time. They slammed their fists toward me.

I avoided the attack and moved backward.

My eyes turned icy cold. I used my bloodline power. In the blink of an eye, a bright blue water force reached my hand.

My right palm was filled with bright blue water. If anyone looked closely, they could see power hidden beneath the purple lightning power.

Boom!

The horned humanoid creatures charged at me at the same time. My perception was active and my gaze never left the details.

My eyes were observing the information. Just as the second horned humanoid foreign creature was about to do something, I took the lead.

I shifted my weight and landed my fist on the creature's chest. This time, the creature had the same smirk. Dark energy covered its chest.

It thought the dark energy would block the attack. But there, it was wrong.

Boom!

My fist landed on the chest. The grin on the horned humanoid creature disappeared. The bright blue water force was so hot; it tore through the dark energy.

The purple lightning force followed through the hole and struck the chest without defense.

Boom!

The second humanoid creature was blasted away. The purple lightning force went on a rampage.

The first and third humanoid creatures were stunned. Before they could do anything, I charged toward them. I shifted my body to avoid their attack.

Boom!

I rocketed my fist toward them one after another. The horned humanoid creatures failed to avoid the attack at close quarters.

Boom!

Fists came raining down on them. The bloodline and purple lightning power exploded right upon contact. Their bodies were thrown off before smashing into the ground.

This all happened within seconds. I saw the horned humanoid creatures on the ground. I felt a sense of urgency. I should kill them before they find anything wrong.

The bloodline power is a secret of mine. My gaze fell on the second humanoid creature, which was trying to get up.

Swoosh!

I darted out toward the creature. I started circulating the shock force along with the bloodline power and purple lightning force.

Three types of force circulated inside the dantian. In the blink of an eye, they reached my right hand.

All of a sudden, my right hand was filled with three types of inheritance force.

Boom!

The horned humanoid creature stood up after a struggle. The runes on its horn charged up once again.

It didn't expect to be attacked like that. It saw the injury on its chest. There was a clear burn mark on the chest left by the blast. Black-colored blood was oozing out.

The creature was enraged. The anger caused more dark energy to surge out from its body. In the blink of an eye, the strength of the horned humanoid creature doubled.

Swoosh!

It darted out toward the target again.

On the other hand, my right hand was beaming with the three kinds of power. The horned humanoid creature appeared in front of me in a flash.

Boom!

I could see a dark fist coming at me. The fist brought a small sense of crisis. If I wasn't careful, I would be injured by the attack.

My senses and concentration became stronger. I could perceive the movement and direction of the fist. The creature's face was furious this time.

It was confident that once the attack connected, the target human warrior would die. But all of a sudden, my body weight shifted. I moved and avoided the attack.

Swoosh!

I drove my right fist into the chin of the horned humanoid creature.

Boom!

In a flash, the fist made contact. A terrific explosion occurred the next moment.

The attack created a blast. The power struck the head extremely hard.

The horned humanoid creature's body was propelled backward before crashing into the ground.

Boom!

My gaze shifted to the other foreign creatures. They had stood up from the ground. They saw the scene with disbelief on their faces.

They must have had strong confidence in their own dark energy.

"Lightning Phantom"

I used the movement technique. Purple lightning covered both of my legs. I swiftly moved away from the spot.

Like a bolt, I charged at the first horned humanoid creature. The three inheritance forces were still covering my hand.

Boom!

The humanoid creature was stunned. Then, it swept its right hand at me. A blade made of dark energy slashed at me.

I made an unexpected turn to avoid the attack. The attack missed me before landing on the ground.

Boom!

The blade penetrated deep and cleaved the ground a few inches deep.

By the time I appeared before the creature, I started hitting it with fist attacks.

Boom!!

The three inheritance forces tore through the defense and destroyed its internals. The horned creature was thrown off, its body covered in dark blood, a few seconds later.

Chapter 1476: Killing the elite race members!

Battlefield No. 3

I attacked the foreign creature with the same method. The hard fist, containing three inheritance forces, slammed into the body of the horned humanoid.

Boom!

The attack power tore through the defenses and destroyed the dark energy. The creature was in disbelief.

The horned humanoid creature couldn't stop the powerful attack. It continued to receive the brunt of it.

Puchak!

Dark blood spurted from the injuries. The horned humanoid creature lost strength and crashed into the ground.

A few minutes later,

All three horned humanoid creatures were dying. That battle ended quickly compared to the previous battles.

Even the horned humanoid creature which fought earlier wouldn't have expected to receive such a beating.

At the same time, the warriors and the foreign creatures were busy fighting. Casualties started occurring on both sides.

Still, the numbers on the foreign creature side were increasing.

Seeing that, I decided not to interfere right away. First, I had to decisively kill them. I used more bloodline power to decisively kill the three of them.

Boom!

The bright blue water drop tore through the heads of the horned humanoid creatures one after another.

The other foreign creatures and warriors were so busy that none of them paid attention to me.

After killing them, my gaze turned towards the front. I saw warriors fighting against more than one enemy.

Clearly, all of them were veteran purple mark warriors.

That's why they were able to fight against more than one warrior at the same time.

My gaze swept across the battlefield. I was looking for the elite race members, but I had not seen any so far.

Boom!

Suddenly, a four-legged foreign creature took note of me and started charging at me. Seeing that, I stopped circulating the bloodline power and shock force.

A pure purple lightning force started flowing through my body. When the four-legged creature got closer to me, I extended my right hand. A dense purple ball appeared at my index finger.

"Condensed Lightning Finger"

Boom!

The next second, a purple beam shot from my finger. A purple light streaked across the air before hitting the four-legged creature.

Puchak!

The beam penetrated the body and came out of the side. Dark blood oozed out from the injury.

Shriek!

The four-legged foreign creature made a terrible cry. Seeing that, I closed the gap all of a sudden.

While the foreign creature was struggling, I appeared before the creature.

"Lightning Cage!"

A purple lightning bolt was released from my right hand. In a flash, the purple lightning bolts struck the four-legged foreign creature again.

Boom!

An explosion occurred. Like a lightning cage, the lightning bolts trapped the foreign creature.

Boom!

The lightning bolts exploded one after another as they came in contact with the body.

In the blink of an eye, the powerful lightning tore through the body and damaged the internals.

The four-legged creature was not as strong as the elite race members.

It quickly succumbed to the injuries. When the creature died, I turned towards the other side of the battlefield.

Boom!

I covered my whole body in a purple lightning force. Then I darted out towards the group of foreign creatures.

In a flash, I came to the group and started striking them with one punch after another.

Boom!

As time passed, I didn't hold back my punches and continued to rocket my fists toward their bodies.

The four-legged creatures couldn't withstand the attack. Their bodies were riddled with holes.

As time passed, the human warriors were shocked and started to notice Zack Lockwood.

They didn't expect Zack Lockwood to survive at the hands of elite race members. Those foreign creatures are elites of the enemies.

It's hard to kill them. Yet, Zack Lockwood is here supporting them. The curious warriors started looking around. They didn't see any sign of the elite race members.

Earlier, they saw Zack Lockwood fighting against the three Elite Race Members. But right now, the elite race members are gone.

The warriors were shocked to the core. They didn't expect Zack Lockwood to defeat the elite race members.

Just as they were in shock, the other foreign creatures started noticing something wrong. They were taking more casualties than usual.

A greater number of foreign creatures were dying as time passed. Some of the foreign creatures stopped their battles and turned towards one particular warrior.

The one particular warrior, covered in purple lightning power, was causing much disturbance. They saw how the foreign creatures died after getting a couple of hits.

They saw something wrong with that one particular warrior.

While they were confused about the identity of the warrior, it didn't take long for the foreign creatures to notice the disappearance of the elite race members.

The three elite race members were nowhere to be seen.

Buzz!

Right then, the battle alarm sounded. Hearing that, the warriors and foreign creatures who were fighting elsewhere stopped their fights.

It was time to return to the warrior camps.

On the other hand, I smashed the head of a foreign creature. The lightning bolt blasted away the foreign creature.

Shriek!

The foreign creature let out a weird sound before crashing into the ground. The creature was covered in dark blood. It was injured all over its body.

The foreign creature struggled to get up.

"Lightning Drop"

I heard the battle alarm, but I wanted to kill the foreign creature before leaving. My right hand released the powerful purple lightning bolts.

Boom!

In a flash, the power struck the struggling foreign creature. The foreign creature was electrocuted by the purple lightning bolts.

The terrifying destructive power destroyed the internals. The struggling foreign creature died.

The lightning power took away its life.

Seeing that, I immediately turned towards the surroundings. I saw the warriors and the foreign creatures were looking towards me.

Like the last time, they were maintaining their distance from me. None of them dared to attack me.

I gave a look towards the foreign creatures before going to the teleportation area.

Swoosh!

In a flash, I entered the barrier and approached the teleportation platform. The other warriors were stepping inside the slots.

Swoosh!

The next moment, the teleportation platform activated. I returned to Warrior Camp No. 3 the next second.

Chapter 1477: Part 1: Rise of the Darkened Heart

Warrior Camp No. 3

I returned to the warrior camp. I quickly came back to the stone house building. A bright smile appeared on my face.

I succeeded in killing the elite race members. I'm sure the enemy side is going to be rattled.

Fortunately, it appears that none of them saw the death of the elite race members. I was able to use the bloodline power quietly.

...

Outside

The warriors are coming back from the battlefield. As usual, the battlefield was tough and the fight was intense.

The warriors exited the camp with some injuries. There are casualties as well. But all of them are talking about Zack Lockwood.

They were busy in their own fights. They forgot about the most important one. Zack Lockwood had won against the elite race members.

It's breaking news. They didn't know Elder Mike was hiding and listening to their conversation. It's the best way to collect intel from them.

As the warriors continued to enter the camp, they revealed more information. Elder Mike was shocked to the core. The shock was no ordinary shock.

He was able to confirm the fact that Zack Lockwood was able to kill the elite race members. Who are the Elite Race Members?

Among the foreign creatures, they are among the elites. They are powerful among the foreign creatures.

It's even harder for the expert Purple Mark Elders to defeat an elite race member. Yet Zack Lockwood had not only defeated one, but three elite race members.

Mike calmed his heart. Then he noticed that the casualty rate was still high. The smile on his face disappeared.

He needed to prepare for the arrangements.

Swoosh!

He then returned to the office room. Mike then called Dean Jerome and informed him about the developments.

Dean Jerome was not surprised. He knew about Zack Lockwood's other inheritance forces. He was glad that nothing unusual had happened.

Unlike other battlefields, you cannot watch the battlefield scene from the hidden space. Battlefield No. 3 is an isolated land.

Meanwhile

The news spread across warrior camp no. 3. Those who didn't know earlier about it were shocked right now.

It was especially a serious slap against the disciples of faction leaders and the main elders. Even they were not able to fight against three elite race members simultaneously and kill them.

They found it hard to believe. But the evidence was there. Zack Lockwood had come out alive. No one had seen the three elite race creatures surviving, either.

Some of the warriors couldn't help but feel jealous. If the news were to be spread outside, the fame of Zack Lockwood would shoot up again.

Already, the name of Zack Lockwood is famous because of the assassination attempts. They can't imagine Zack Lockwood getting more famous now.

It will question the status and strength of the disciples. They are Purple Mark Warriors. Most of them are stronger than the average elders.

A few of them even had strength rivaling their own masters. They are facing pressure now.

If they wanted this to end, then either they have to fight against the elite race members and kill them, or Zack Lockwood needs to die.

Among the disciples, there are some twisted people as well. They can't digest what's happening right now. They are in this warrior camp as well. But they were not planted spies.

That night, a Purple Mark Warrior from the Wind Elemental Faction of Star University came to Zack Lockwood's stone house.

He is one of the disciples of the main elders in that faction. He is not friendly. His eyes were reddened. He was angry. It showed he was not in a good mood.

He is going to wait for Zack Lockwood to come outside. His twisted mind and heart are making him take a drastic decision.

....

Foreign Planet

Inside one of the towering buildings of the Black Planet, the higher-ups are discussing the reports of today's battle.

Everyone wanted to know the result of battlefield no. 3. They were not worried about the overall results.

But they wanted to know whether the elite race members had killed the target or not. But when the complete report came out, it sent shockwaves across the higher-ups.

The three elite race members known for their formidable strength died at the hands of Zack Lockwood, the human warrior target.

It was something unbelievable for them. These foreign creatures are of different sizes and shapes. But they all have one thing in common: they have black runes running across their bodies.

Right now, they were all glowing. The coercion coming from their bodies is powerful.

So much so, the whole black tower is shaking right now. If they truly released their coercion, the surrounding land would be decimated, including the black tower building.

They were unable to control their anger right now. Yes, the surprise and shock turned to anger. If anyone killed their elite race members, it was considered taboo.

It's also time for them to take the enemies seriously. Already, the true powerhouses of their planet are fighting a hard battle against the true powerhouses of the human side.

They are powerhouses above the Red Mark Level.

If the foreign creatures start losing their elite race members to a human warrior below the Red Mark Level, it could lead to dangerous consequences for them.

They have to take serious action unlike before. They have to kill the target at all costs, even if they have to use planted resources on the human side.

If the true powerhouses above the Red Mark Level were to notice their failure, it would cause serious problems. The higher-ups might lose their own heads.

The next second, they started their serious discussion. In order to activate their decade-long planted resources, they need the consent of everyone.

Because it takes years to plant spies on the human side. They were there for emergency times. But the rise of the target has threatened them.

It had never happened before. A Gold Mark Warrior was able to kill their Purple Mark Level Elite Race Members.

So, they are going to eliminate the threat at all costs.

Chapter 1478: Part 2: Rise of the Darkened Heart

Stone house

Knock!

I heard a knocking sound on the door. First, I ignored it and continued to sleep. But the knocking continued, and it disturbed my rest.

At one point, I opened my eyes. My eyes flashed with a quick glint. Clearly, someone had come to cause trouble.

I got out of bed. I had learned my previous lesson. If someone truly wanted to cause harm to me, then the group or person should be ready to attack right now.

I walked up to the door and used my mental perception. I found only one person, with a creepy smile on his face, standing outside.

Seeing that, I knew it was a hostile person. Instead of using the lightning power, I started using my bloodline power.

I extended my hand. A water drop condensed on the tip of my finger. It was a bright blue water force. The power inside the single water drop was immense.

But the person standing outside didn't seem to be weak. I kind of felt that he was strong. The people in the camp are strong. Hardly anyone is weak here.

In order to be safe and not be caught off guard by the person standing outside, I added a little bit of the shock force power to the water drop.

The water drop gained a golden and silver color. Seeing that, a sense of satisfaction occurred.

Creak!

Then I opened the door and saw the person.

"Zack Lockwood. You should die," after saying that, he released a wind tornado.

Boom!

Powerful wind blades got closer to me.

Seeing that, I immediately shifted my body weight. My eyes caught every detail. I could spot the wind blades and how sharp they were.

At the same time, I pointed my index finger at the forehead of the warrior.

Boom!

A water drop was released from the index finger. It went in a straight line in mid-air. In a shot, the water drop reached the target.

The next second, it struck the forehead of the warrior. The water beam pierced the forehead and came out from the other end.

Boom!

The next second, the head exploded in mid-air like a watermelon. It burst into pieces. Blood splattered across the ground. Thud!

The headless corpse dropped dead on the ground.

Boom!

At the same time, a deafening noise occurred as the wind blades struck the stone house. The wind tornado blasted away the stone house.

This all happened within seconds. It was a close call. When I looked around, I found the stone house blasted into smithereens.

I felt a cold chill on my back.

Swoosh!

The next moment, several figures rushed out of their stone houses. They saw the headless body on the ground and Zack Lockwood standing before it.

Behind him, smoke full of dust was rising. It was clear that the stone house was gone.

Gasp!

A huge exclamation occurred. Everyone was visibly shocked. They couldn't believe their own eyes. There were warriors from every faction and university here as well.

Then the warriors from Star University saw the corpse, and they tried to look for the decapitated head. But the head was nowhere to be seen.

"Aahhhh!"

A female warrior let out a blood-curdling scream all of a sudden because she recognized the tattoo on the corpse. It was the tattoo of a tornado.

Her scream stunned everyone. The friends standing near her were especially taken aback. Some of them were from the wind elemental faction.

"Rose, what happened?"

"Rose!" "Rose!"

Everyone started asking her.

Swoosh!

Elder Mike appeared the next moment. He saw the corpse and the destruction of the stone house. When he looked at Zack Lockwood, he didn't know what to say.

Because he understood that someone tried to kill Zack Lockwood, but Zack Lockwood had counter-attacked instead. The warrior was dead. He needed to find out the identity first.

"Can anyone tell me who this person is?" Mike asked.

Hearing that, a commotion occurred. Rose and her friends heard it as well. They all turned towards Rose.

Elder Mike saw this, and he turned towards Rose.

"Can you tell me who it is?" he asked.

Rose wiped the tears on her face.

She said, "He is Kenny. He is the disciple of Main Elder Peter of the Wind Elemental Faction."

Gasp!

A loud exclamation occurred once again. Everyone was taken aback and shocked, including me. I didn't expect the guy with a creepy smile to be the disciple of a Main Elder.

It is going to be a problem soon.

On the other hand, Elder Mike was thinking the same. He thought that the main elder was going to cause problems.

He then collected his thoughts and said, "Alright, everyone go back to your rooms."

He didn't say anything further. He was not sure whether the disciple of Main Elder Peter was a planted spy or not.

If he was a planted spy, he would have been caught sooner. Because the inner circle people are under more scrutiny than other people.

Dean Jerome himself checks the background of these people because the disciples are the future main elders of Star University.

So he didn't want to be accused without evidence.

At the same time, the warriors started going back towards their stone houses. None of them wanted to stay here.

Everyone met the cold gaze of Elder Mike. He is also the supervisor here. Among the warriors, a few of the gazes went past Zack Lockwood.

They were in disbelief that Zack Lockwood could kill a Purple Mark Warrior in such a short span. Because Zack Lockwood is a Gold Mark Warrior.

That is why they were shocked. When all of them were gone, Mike turned towards Zack Lockwood.

His eyes were filled with complex emotions.

"You have done it again. But it will increase the attacks towards you. Main Elder Peter is cracked. He won't let this go," Mike said.

Hearing that, I smiled. I knew it. How could a disciple be sane if the master is not?

I said, "He released a wind attack right after I opened the door. I had to kill him. Going to the battlefield with an injured body would increase the chances of my death."

Elder Mike nodded his head. He then decided to solve the matter. He collected the corpse first and spoke to Zack Lockwood for a few minutes before leaving.

Chapter 1479: Part 1: Crucial battle

Warrior Camp No. 3

Elder Mike disappeared from the place. Seeing that, I returned to my room. My mood was ruined. I did not expect someone to attack me.

He happened to be a disciple of the Main Elder Peter. Since he is from the Wind Elemental Faction, I would pay attention to it.

Then I went to bed and slept. I slept only for a couple of hours. Then I woke up early in the morning.

I immediately started doing my morning routine. After completing it, I entered the essence chamber and started practicing.

I wanted to recover the bloodline power and purple lightning power. I had used both of them during the last battle.

I needed them to recover fast.

A few hours later,

I walked out of the essence chamber and started getting ready fast. I have this feeling that a battle could occur at any time.

Half an hour later,

I sat on the sofa wearing my battle suit. I don't know what challenges are waiting outside.

Buzz!

The battle alarm sounded the next time. It took me off guard. Then I exited the room. Then I saw the warriors going towards the battlefield.

Some of them looked at me while flying past. I could see fear in their eyes. They were worried that they could be the next to die on the battlefield.

The enemy side has been sending powerful creatures, including the Elite race last time. I had fought against three Elites.

This time, I don't know how many of them are here. Next, I started moving in mid-air towards the teleportation platform.

In the blink of an eye, I reached the teleportation area. I saw that warriors were going towards the platform.

I followed them towards the platform. When it was my turn, I stepped inside the slot. When the platform was activated.

Buzz!

I disappeared from the spot. The next moment, my feet touched the ground. Then, one after another, the warriors appeared.

They looked at me before going through the barrier to enter the battlefield. Seeing that, I didn't mind their gazes.

I started circulating the Purple Lightning force, bloodline power, and a little bit of shock force. Slowly, the force flows through the body and reaches the right arm.

Then I started walking towards the barrier. I could feel the uneasiness. I activated my perception. My mental power covered the area around me.

After reaching the barrier, I walked through it. The next second, I saw something incredible. There are many humanoid creatures coming towards the barrier.

Seeing that, my expression changes drastically. They have crossed the frontline to come to our side.

Swoosh!

I immediately darted out towards them. My perception covered them. The humanoid foreign creatures were none other than the Elite race members.

They were the kin of the same creatures who appeared last time. But this time, the humanoid foreign creatures have appeared in large numbers.

Boom!

In a flash, I got closer to the humanoid creatures. The next second, I saw them moving against me.

I slammed my fist into the punch of the humanoid creature.

Boom!

The fist tore through the creature's hand. I shifted my body and struck the creature's chest with a punch.

Boom!

The punch came so fast and struck the chest. The foreign creature was stunned. The chest was torn apart.

Puchak!

The blood splattered across the ground. It happened so fast. The other creatures' attacks reached me.

My perception caught the details. I evaded the attack.

Swoosh!

A whistling hand moved past my body. I swept my leg at the second horned humanoid creature.

In a flash, the right leg connected with the horned creature.

Boom!

The horned humanoid creature received the impact force. The body flew backward like a curveball before hitting the ground.

"Purple Lightning Wheel"

Right then, the other foreign creatures reached me. There are more than 20 Elite race members.

The Purple Lightning Wheel appeared around me. In an instant, the foreign creatures' attacks contacted the wheel.

Boom!

The next second, the wheel exploded. It struck the foreign creatures around me. The purple lightning bolts blasted away the foreign creatures one after another.

The horned humanoid foreign creatures landed on the ground here and there. The impact force made the other horned humanoids retreat.

The dust and smoke covered the ground.

Using the opportunity, I used the three types of inheritance force again. In a flash, I attacked the next nearest horned humanoid creature.

Boom!

The fist moved with a whistling speed before hitting the horned humanoid. The purple lightning, bright blue water, and shock force power sent the foreign creature crashing away.

Boom!

The rest of the horned humanoid creatures were stunned. The next second, the horned foreign creatures used their main ability right away.

Boom!

The black streaks of light shot at Zack Lockwood. This time, the black lights were stronger and sharper.

On the other hand, I felt a sense of crisis. It was stronger.

"Lightning Phantom"

My perception caught many beams. So I immediately used the movement technique to avoid the attack.

Swoosh!

The lightning bolts covered my legs in a flash. I moved in a zigzag manner. One after another, the black streams of light landed on the ground.

The land cracked and the ground split further.

Meanwhile,

The other warriors were fighting against the four-legged foreign creatures. Some of them saw Zack Lockwood fighting against more than 10 Elite race members.

Because of the fight, they couldn't pay attention. But they were scared. They didn't expect Zack Lockwood to be attacked by this many foreign creatures.

Many of them thought Zack Lockwood might lose his life this time, because they were also facing pressure as well.

The foreign creatures are targeting them more. The fight was intense as well. So they had to put more effort in to save their lives and to defeat the creatures.

There were planted spies left who wanted to make use of this opportunity. But they erased their thoughts after seeing the Elite race members.

They think Zack Lockwood is going to die this time, so they didn't have to move their hands now.

Chapter 1480: Part 2: Crucial battle

Warrior Camp No. 3

The battle is being fought, and it is getting intense. I'm dodging the black lights one after another, my body moving in a zigzag manner.

At the same time, the other horned humanoid creatures acted together. Their bodies were covered in black energy all of a sudden.

It immediately increased their strength. The horns on their heads are glowing, and the black runes on them are beaming with power.

They made their moves. They disappeared from their spots and rushed toward the target. Their speed was faster than before.

On the other hand, I felt the sense of crisis increase again. The sense of crisis is definitely stronger than last time.

I should not underestimate the attack. I stopped using the movement technique and circulated the triple force again.

In a flash, the triple force reached both of my hands. My palms and fingers are filled with power.

Boom!

My perception caught a pure black hand coming at me. It was only a few inches away. I shifted my body weight and drove my fist right into the horned humanoid.

Boom!

A deafening noise sounded again as both fists came into contact with each other. My fist tore through the black hand of the creature. The bones broke, and the remaining force struck the creature.

The purple lightning force, bloodline water force, and the shock force broke through the physical defense and sent the creature crashing away.

Boom!

I didn't stop there. I released a barrage of punches against the remaining elite race members. I didn't want the horned humanoid creatures to stand back up.

To do this, I used my eye power, senses, and mental power to calculate every move. My precise strikes broke the bodies of the horned humanoid creatures.

As time passed, the number of horned humanoid creatures attacking me reduced. Some of them have already died. Not only that, but I started using lightning attack techniques.

This made it harder for the horned humanoid creatures to reach me. But the situation on the other side is different. A large number of warriors have died already.

The other four-legged humanoid creatures are slowly taking advantage.

Time passed.

When the last horned humanoid creature around me was dead, only then did I look around the battlefield. My gaze swept across the place.

Piles of corpses surround me. All of them are horned humanoid creatures. They are not ordinary foreign creatures, but elite race members.

It gives me a sense of thrill to eliminate 20 elite race members. It took me a couple of seconds to calm my heart. Then, I began to look for the other warriors.

There is no one around. I can hear fighting coming from the distance. The warriors who were fighting near me are dead.

A hint of seriousness flashes in my eyes.

I didn't expect the casualty rate to increase this much. The foreign creatures have sent powerful units this time.

Swoosh!

I brought the black sword out. I held the sword in my hand and started dashing toward the frontline ahead.

In the blink of an eye, I reached the front area. I saw an injured warrior surrounded by four-legged foreign creatures.

Swoosh!

I covered the blade in purple lightning power and swung. The blade swept across the four-legged creatures.

The lightning blade went through the body. Blood spurted on the ground. The four-legged creature's body was cleaved in two.

The body of the creature dropped dead on the ground.

Boom!

I continued to swing the blade at the other creatures. The blade came fast, cutting the head off one creature before I withdrew the blade to make a reverse strike.

The blade slash cut through the bodies of two other foreign creatures. In a flash, I ended their lives.

By then, the injured warrior had collapsed on the ground. He fell unconscious. Seeing that, I was not surprised; the loss of blood was high.

I fed him a healing pill. The injured warrior's complexion improved. Seeing that, I sighed in relief. The warrior is now safe.

Buzz!

The next second, the battle alarm sounded. A wave of relaxation washed over me. I picked up the unconscious warrior and walked toward the barrier.

Swoosh!

In a flash, I got closer to the barrier and walked through. I was the first one to arrive. I carried the injured warrior and entered the teleportation platform slot.

Buzz!

The next second, I disappeared. Before I could think further, I landed on the ground. I left the teleportation area and went to the stone house area.

Swoosh!

Elder Mike appeared the next moment. He saw Zack Lockwood and the injured warrior.

"Someone come here," Mike uttered.

The next second, one more elder appeared. He saw the injured warrior and took him away.

"What happened today?" Mike asked.

He was curious. He knew the foreign creature side might have sent terrifying creatures to kill Zack Lockwood.

"I faced 20 elite race creatures," I said to the elder.

"20?" Mike uttered in shock.

Then he noticed the blood-soaked body of Zack Lockwood. He understood the fight must have been terrifying.

"You can go and take a rest," he said.

Hearing that, I nodded to him before going toward the stone house. When I reached the house, I opened the door and entered.

I immediately took a shower to cleanse myself. After coming out, I changed into fresh clothes. Only then did I feel relaxed and sat down on the sofa.

Then I noticed the situation in my dantian. The purple lightning force is close to the bottom. It was the same case with the bright blue bloodline force and shock force.

I was shocked. It's not an ordinary situation. Usually, I don't have to consume this much inheritance force.

Yet, I was forced to earlier. It shows that the elite race members didn't hold back their strength.

They were going all out. That's why I felt like they were refusing to die. It took so much time to kill each of them. They must have thought it would be enough to kill me.

But they failed yet again. I don't know what they are going to do next. I have to improve my skills further.
