Chapter 1551: Battle (Boundary)

Boundary No. 5

After resting for some time, I entered one of the compartments. There was an essence chamber inside.

I opened the essence chamber and entered inside. I shut the door and turned on the switch.

The energy entered the chamber and spread across the room. I came to the middle and sat cross-legged on the ground.

Now, I was a Purple Mark Warrior. I began to use the Purple Chapter of the ancient inheritance to practice.

The world energy in the room was dense and pure. It was helping me to increase the inheritance force in my dantian.

I didn't know when the battle alarm could sound. So I decided to focus on the practice.

Two hours later,

I exited the essence chamber. Next, I went to take a bath. I spent 20 minutes in the bath. I walked out and changed into comfortable clothes.

Then I went to bed to sleep.

The next morning,

I woke up early. After getting out of bed, I began to do my morning routine. I completed the routine in an hour.

So far, the battle alarm had not sounded. I didn't know what was going on. But I decided to be ready.

30 minutes later,

I was dressed in my uniform and sitting on the sofa. I began to rest.

Buzz!

Shortly afterwards,

The alarm sounded the next second. Hearing that, I stood up from the sofa and rushed to the exit door.

I arrived in front of the door and opened it.

Creak!

The next second, I rushed outside. I came across many members going past me. They were going in one direction.

Seeing that, I followed them from behind. In the blink of an eye, we came to a vast open field.

I saw a crack appear in the sky. The crack was long, and it looked like a mouth.

Next, several dark humanoid figures jumped from the crack. One by one, they landed on the ground.

What's more? They had a single horn on their forehead.

Seeing that, my eyes flashed with understanding. They were humanoid foreign creatures.

I recalled something before putting a mask on my face. Then I moved further.

Boom!

The fight took place the next second. The Purple Mark Warriors were engaging with the horned humanoid creatures.

I had fought against the horned humanoid creatures before. They were strong and were not easy to defeat.

Since I was a Purple Mark Warrior right now, I could test my strength. I circulated the purple lightning force in my body.

I covered both of my hands with purple lightning power. Crackling lightning bolts appeared.

Swoosh!

Next, I picked my target and rushed towards it. In a flash, I appeared in front of the horned humanoid creature.

The speed was so fast that the horned humanoid creature was stunned. My fist snapped out and struck its body.

Boom!

The purple lightning power came into contact with the horned humanoid creature. The power blasted away the creature the next second.

The horned humanoid creature flew backwards before crashing into the ground.

It happened fast. A deep gash appeared on the body of the creature. The purple lightning was paralyzing the creature.

Swoosh!

In a flash, I appeared in front of the creature again. I could see small purple lightning arcs were paralyzing the creature.

"Lightning Drop!"

I used the lightning drop attack again. A lightning ball released from my hand. In a flash, the lightning drop landed on the horned humanoid creature.

Boom!

The powerful lightning further blasted away the creature. This time, the horned humanoid creature was beyond dead. The horned humanoid corpse landed on the ground.

It looked completely charred. The internals were completely burnt. Now, smoke was coming from the body of the foreign creature.

This happened in the blink of an eye. I could hear the sound of others fighting. They were engaging in the battle.

I didn't have time to waste. I went to the next opponent to fight. There was a horned humanoid creature which had defeated a Purple Mark Warrior from the flame faction.

Boom!

I covered my punch in lightning force and landed a blow on the foreign creature. The punch tore through the chest of the foreign creature.

Boom!

The lightning force split open the internal organs of the foreign creature. In a flash, the second horned humanoid creature was dead.

As time passed, I targeted the foreign creatures who were gaining the upper hand against the other warriors.

It didn't take long for others to notice that purple lightning was going here and there. But they were occupied with their own fights.

Still, they understood that because of that person, they were gaining some time to breathe.

Boom!

My fist rocketed forward before striking the head of a horned humanoid creature. The horned humanoid creature once again flew backwards before landing on the ground.

The whole head looked charred. Small purple lightning chains were paralyzing the horned humanoid creature.

Once again, I used the "Lightning Drop" to kill the horned humanoid. After killing the creature, I turned around and found out that almost everyone had dealt with their horned humanoid creature.

I saw Senior Stella killing a creature. My gaze swept across the warriors. I saw the same middle-aged man who threatened me yesterday.

He too had dealt with a foreign creature. Then I saw others as well, including the seniors from the Thunderflame Faction.

Then I withdrew my gaze and looked toward the wide crack in the sky. The mouth-like crack was now starting to heal.

The cracks would soon return to normal. It was the first time I was witnessing something like this. Who could be powerful enough to make a space crack?

I had not seen the Purple Mark Guard doing it.

It must be powerhouses above them. Then I continued to observe the place. It didn't take long for the crack to be completely gone.

When the crack disappeared, I turned around and looked at the others. The next second, I found gazes on me.

I raised my eyebrows in surprise. I had thought no one noticed my fight. Then I saw Senior Stella and the others looking toward me as well.

Then I collected my thoughts before heading toward my room.
