

# ANCIENT TEARS BLOODLINE

## Chapter 16 - Affinity Stone 2

"Mr James, I believe that Zack had an affinity with special elements". Said Doctor.

As he once again goes through simulation data of Zack, When he absorbed the world energy in the chamber. Looking at the data he gestures to Mr James to come forward.

Both Mr James and Zack were looking at the current data. It clearly shows the rate absorption of world energy is faster.

"Dr Mearov the data shows that Zack sure got an affinity element considering the rate of absorption his talent regarding the affinity is even higher grade". Mr James said to Dr Mearov.

Listening to their conversation, Zack finally decided to lead the conversation further.

"Uncle James, Could you tell me now? What are the other elements out there, Both of you guys intentionally kept me in dark, Now that I got a special element you have to tell me everything".

"Ok brat, both of us had no authority to indulge classify information. First, we decided not to tell you because we weren't sure about your affinity test, If you don't have an affinity it is impossible to become Ranking Warrior".

" Now that we were sure ourselves it is time to find out your special element, I have to go back to the cabin to bring that thing. Meanwhile, your Uncle James will fill you with information about the special elements". Said Doctor.

'Uncle James, What do you know about special elements? Can people with special elements become Ranking Warrior?".Zack asked Uncle James.

Responding to Zack, Uncle James said.

"Special elements were also part of our world energy but they rarely got an affinity with people and their affinity stones were even rarer"

"There are several types of special affinity elements appeared in our world so far they are recorded as

Dark Element

Shadow Element

Light Element

Poison Element

Lightning Element

Healing Element".

"So far these 6 Elements were recorded in today's history but in the ancient era, it was recorded that there were occurrences of many special element users".

"Apart from special affinity, there is also affinity associated with Warrior's Bloodline for those warriors who were part of the bloodline clan their affinity is the same across almost all the warriors in the clan".

"So warrior's belong to special affinity and bloodline affinity were strong but Special affinity warriors were less in numbers. compared to Bloodline warriors, they belong to large families they were deep-rooted in society"

"So only normal affinity warriors can outweigh them in numbers, considering the huge population of humans it's not surprising".

Mr James Carefully explained everything to Zack, who is listening very attentively.

Well, it's not so disappointing to be a Special Element Ranking warrior. At least I can stand out among the other warriors, yet the crux of the matter is still resources. Zack said to himself.

He heard footsteps coming down, then

He turned his head to see, Dr Mearov is back with a huge crystal ball but it's colourless, it appeared old, looks like the elder cleaned some dust on the way.

Mr James also watch this scene seeing this huge crystal a surprising look caught on his face. Dr Mearov placed a huge crystal ball on the table, and he looked at Zack.

"Brat, this colourless crystal emits affinity light corresponding to your element in your body".

"This crystal contains purified world energy"

" Contains all the elements in the world even the special elements we don't know once you start to absorb the energy the crystal ball will emit light. Now come forward let's see which special element your got".

Dr Mearov said to Zack excitedly.

This ball is sure huge, I don't know which element it is going to be, Zack places his hands on the crystal and started to absorb the world energy, Mmm this sensation is warmth how comforting it is, let's see what is happening inside my body, As Zack activate his perception ability to observe everything!.

What is .this...Ahem?..

Meanwhile in Room.

Dr Mearov and Uncle James looked at the crystal ball excitedly. The Crystal ball in a fraction of a second emits a blinding light, both Dr Mearov and Uncle closed their eyes.

If someone looked at it closely with a high perception they will see three colours reflecting three energies these energies drilled into his body as Zack constantly absorb them.

Yet Still, one colour dominates the other two deceiving the perceivers they will only see one colour.

Second, later Dr Mearov and Uncle James opened their eyes they saw the crystal ball emits violate colour with sparking light.

Uncle James excitedly said.

"Oh my goodness, We got ourselves lightning Ranking Warrior in our ranks of Army Federation".

Lightning represents destruction, Speed and lethality which is top-notch. combined with Combat weapons it's a deadly combo. Uncle James eyes were twinkling with stars as he started to imagine Zack fighting against Monsters with a lightning weapon! one could see with his expression, He was excited and happy for Zack's future.

"Congratulations Mr James, Lightning warrior is indeed special, especially thinking the Army federation now has their asset, they don't have to recruit from outside with lofty resources".

Dr Mearov Chirped in.

Dr Mearov was also happy, Do not judge his character he is greedy for resources but still a good person at heart! He spends his savings on inventions.

But both of them failed to notice Zack's reaction

When three energies drilled into his body. Zack was Shocked. He ceased his eyebrow for a moment. Why there are other two colours? I'm sure about a Violet thing but What is it with Wood colour and Dark Red colour.

Zack's noticed with perception

he felt pain and tingling sensation as the violet energy drilled into his veins travel through all parts of his body. This violet energy was in high quantity compared to the other two energies they both shared  $\frac{1}{3}$  compared to violated energy which is almost  $\frac{2}{3}$  of Zack's absorbed energy.

When its time for Dark red energy to pass through the vein Zack's expression became darker, He felt blood boiling sensation like all the liquid in his body was vaporising.

What on this world is it that? Red thing Zack yelled in his heart. he squinted his green eyes for a moment. soon it's over and it's time for the last wood type energy to pass through the vein, Zack once again startled not due to pain but comfort a new relief sensation felt over his body it's very pleasant yet it's over by the time Zack got over!.

What in this world happening to me? Zack wondered in his heart.
