

ANCIENT TEARS BLOODLINE

Chapter 17 - Lightning Affinity

This dark Red energy is more potent and a lot more fierce than Violet energy. It's probably less than 1/3 of the energy that I absorbed but still, I felt it's more lethal than violet energy. Zack is immersed in his thoughts.

Meanwhile in the room

"Zack, Why are you hazing out? Are you all right? " Uncle James asked me.

"It's just a little pain". I replied lazily.

"It's common to feel pain because you don't have an affinity totem". Uncle James said.

Hearing that, Here we go again it's not over yet what a drag I cursed in my heart it's not that I'm not being happy, it's that I don't want too many variables

in my life, As a person, my nature to have control over all things in my life, Regarding that Ancient inheritance, I felt a sense of urgency took over me it's like walking above the tip of the knife.

My ultimate goal is always been to preserve your life first. This Saw Scale Viper Academy is my first step toward that goal. As I once again prioritize what to do with my life, A sense of ease well over me. A Clarity could be seen in my green shining eyes, I clenched my fists readied my thoughts, and began to ask Uncle James.

"Elder and Uncle James, What is my Special affinity, and What are we gonna do with that totem, Since I am a special element user, I believe this facility doesn't have a Special affinity totem to implant inside me".

Uncle James excitedly said. "Lad, you got a lightning affinity and your talent with affinity is no less than high grade. But what specific statistics I'm not sure about that you need the academy to verify you".

Dr Mearov looks at Zack with a pleasing smile.

He said "Kid Special implant totem was rare in research facilities because they were all ways under trial because since we don't have many Special

affinity users, even so, organizations don't allow to fund this special research, because they consume huge amounts of resources".

"So how come people train". Zack asked back.

Dr Mearov looked at Mr James, he thought it would be best James answered his question since both of them were from ARMY.

Mr James answered,

"If it's a common affinity totem, it wouldn't matter they were manufactured daily, even a new version was released last year! Every 10 years they launch new Versions officially", he then glared at Dr Mearov.

"But you need permission from authorities at the high-level cabin for special elements users! Since Special element users were part of Special Camp. They were trained by Experienced trainees and monitored by High tech research facilities, once you graduated from the academy you will officially join Ranks of ARMY Federation".

"Now that you got a quota under Army Reservation, I'm going to inform them about your affinity. You will be eligible to earn credit points once you entered the academy. They will give your special affinity totem, but I'm not sure about that, Both I and elder don't have access to this information! For the time being, we have to wait".

"Yeah, Zack now you have to wait patiently for the time being. there is still time available for your evaluation for the academy". Dr Mearov answered.

And he looked at Mr James and said "James now that I believe I repaid your favour. You know how much it would cost for a person to test his/her affinity privately and don't say about special element users".

Zack said "Thank you Elder for your effort When I join ranks in the future If I could help you with something I won't hesitate to do it".

A look of satisfaction and happiness appeared in Dr Mearov's eyes. Well, that kid is not an Ungrateful one, hope he does well in the academy.

Mr James interjected

"Yeah Dr Mearov Thank you for your precious time and help you have given for Zack. I'm very grateful for that.

Now that we accomplished what we come for it's time for us to leave". Mr James said to Elder and he eyed Zack.

"Both of you guys don't be afraid to come here, Whenever you got the time just inform me, I will be available".

Dr Mearov said as he accompanied his guest outside.

"Ok Elder until next time, Zack waved back to the elder stylishly".

As both Mr James and Zack exited the facility.

"Uncle James What's next". Zack asked.

"Lad, Don't be sad. It won't be long you will get your lightning affinity totem you have to be patient. Our next stop is your favorite Weapon facility Let's go".

As both of them entered their car and jet passed across few streets, it's already late at night but looking at the streets and buildings lit up with lights. One could not distinguish day and night without Sun and Moon. Soon Zack saw a huge billboard.. Highlighting the Name on the Billboard 'SARA NASH WEAPONRY'.
