Chapter 179 - Part Five: May Ford Team's Challenge

(Zack's POV)

I arrived at home a few hours later. After freshening up, I spoke with Uncle James and Granny Park about the incident occurred in Hansen Campus.

I spend some time cultivating after a few conversations. Later, before going to bed, I planned my trip to Mountain Liz, my next destination. This visit to Mountain Liz is very important to me. Right now, there is a significant gap between my body cultivation and energy cultivation. I need to improve my energy cultivation so that it is more in line with my body cultivation.

I went to bed earlier after making my decision.

Leon Stevens and his classmates arrived at the Hansen building the next day.

"This time, Leon, you must take the initiative and challenge them. Otherwise, these people will purposefully cause us to be late." Fatty expressed his dissatisfaction. But deep down, he wishes to return home sooner rather than later.

Fatty's words were backed up by his friends. They, too, shared fatty's viewpoint.

"Yes, Leon, these Hansen bastards may deceive us by not holding the challenge event." One of the students expresses his thoughts.

"Brother Leon teach them a good lesson today!" said another female classmate.

Listening to each of his classmates' opinions one at a time. Leon Steven was overjoyed in his heart. Then he quickly consoles everyone by saying he'll take care of it.

Then they all went to the reception area.

Seeing these people's outfits. The receptionists immediately grasped the situation. Then she sent a message to Mr. Arthur right away.

Mr. Arthur asked her to lead them to the common battle platform after receiving the message. The challenge event will begin in ten minutes.

Mr. Arthur's approval was obtained. The receptionist informed the May Ford team of everything.

When they heard that, everyone on the May Ford campus cracked a vicious grin. Leon, in particular, was taken aback. "What exactly is going on?" This isn't supposed to be the template, is it?" He thought to himself. In any case, if they really want to be beaten, he can give it to them. He walked towards the common battle platform with his friends, a wide smile on his face.

They were walking near a common battle platform at the time. Leon Stevens addressed his classmates, saying, "Guys, you go to the viewing platform." I'll take the initiative and stand here to begin the challenge."

Following his words, everyone proceeded to the viewing platform. "Fatty, What do you think? "How long will it take Brother Leon to defeat everyone?" One of the students inquired.

Hearing this, fatty responded casually, "I hope he can finish it as soon as possible." We'll be home sooner by then." He is concerned. He began to chew on some snacks after settling into a comfortable position.

While there is some muttering among the May Ford students.

Leon Steven stepped inside the common battle platform. A few minutes later, everyone was waiting for the clock to strike ten. The waiting period had come to an end. "Second day of May Ford's challenge is going to happen in a few minutes," said the announcement. Get to the common battle platform as soon as possible if you want to participate in the duel." The announcement was displayed on all of the displaying screens installed throughout the building.

When the announcement was made, there was an immediate uproar. The Hansen students all rush to the common battle platform. They were unable to compete yesterday. They can't wait to see Luke's continued triumph. However, not everyone was aware that the participants in the life or death duel had been granted a few days off.

After a few minutes, the viewing platform is swarming with people. The May Ford Students were the centre of attention. They were noticed by strange stares. One of the May Ford students grumbled angrily, "These bastards!"

Hansen's stares made Fatty feel uneasy as well. He snorted lightly. However, the rest of the May Ford students were perplexed when they saw Leon standing alone on the battle platform. Unlike the Hansen students, they thought he was just another weak student opposing their Luke brother.

Meanwhile, I see that everyone has gathered here. Leon is starting from a distance to see Luke, but the viewing platform is already crowded with Hansen people. However, he has yet to meet the student named Luke.

"What transpired?" He thought to himself. He was walking down the street when he noticed Mr. Frederick. When Leon noticed him, he approached him and asked, "Mr. Frederick, why isn't there anyone here to accept the duel?" "Can you tell me where Luke is?"

Mr. Frederick has black lines across his brow as a result of his multiple questions. Inside, he felt helpless. "If he'd known they'd been given a few days off." "I'm not sure how these people will react." Mr. Frederick thought to himself.

"He might be late," he replied, noticing Leon's gaze. "All you have to do is wait for someone to challenge you."

Leon raised an eyebrow when he heard that. His responses, on the other hand, seemed logical. Given Luke's demeanour, it's unlikely he won't accept today's challenge. As a result, he decided to wait for him. Leon then proceeded to the platform.

When Mr. Frederick realised it was time for the duel, he exclaimed, "Listen everyone! Anyone who accepts the challenge should proceed to the common battle platform."

Everyone's ears were pricked as his voice rang out. They all burst out laughing. Only one May Ford student knowingly smiled. Fatty muttered under his breath, "ignorant."

The rest of the May Ford students smiled as well. This is their opportunity to reclaim their lost respect.

While Leon waited for the challenger, one of Hansen's students stood up and entered the common battle platform. The Hansen student's heart sings with joy when he imagined about his victory. Yet, He erred in his calculation. He assumed that this May Ford guy would be the same as those who challenged Luke the day before.

In the battle platform, he stood opposite Luke.

"He is at the Mid level of Trainee Apprentice, I'm surprised he wants to challenge me." He thought to himself.

Mr. Frederick, on the other hand, already knew the outcome. Unlike Hansen's cheering students. He had already requested that medical personnel be on standby. He knew it wouldn't take long to end this battle.

Before the student from Hansen realised what was going on, he was thrown off the battle platform.

For a brief moment, the atmosphere came to a halt. All of the applause had died away. Only May Ford students are beaming with delight. Fatty was overjoyed when he saw how long it took to end this duel. If this continues, we will be able to return home soon.

All of the Hansen students had a puzzled expression on their faces. "No way, he's a strong man!" The silence was broken by someone. The rest of them are still in shock.

The youth were soon taken away for treatment by medical personnel.

Mr. Frederick shook his head helplessly as he observed the students' reactions. At the very least, that student was not seriously injured.

Leon, on the other hand, was dissatisfied.

"Who the hell is this jerk?" Where is your most talented student? "Invite him to come here!" Leon's voice rang out across the common battle platform.

The May Ford students burst out laughing when they heard that. They were satisfied inside their hearts as they observed the facial reactions of Hansen students.

The Hansen students felt humiliated after hearing Leon's words. Where one section is debating Luke's whereabouts. While others inquire about other outstanding students. Then a few students became enraged within their hearts.

"I'll accept the challenge," one of the students said.

Everyone turned to look at him when they heard what he was saying. As the new Hansen student steps onto the battle platform. The Hansen students were aware of his abilities. He is a slightly larger-than-average warrior. However, he is not the most powerful person on campus. But they continue to hope for a positive outcome.

The way Leon smirked, "I knew this guy was the same as the other." Leon moved as soon as the battle began. He appears in front of him and delivers a powerful kick to his abdomen. Leon's peak strength was unleashed with this kick. The Hansen youth staggers backwards. Before he could calm down. He was in excruciating pain in his abdomen.

"Aaaahhhh," he screamed in agony as he fell off the platform. Fresh blood flowed from his mouth. Some of his internal organs were swollen. If Leon had used his elemental power when delivering that kick. His internal organs would have been permanently damaged.

For a brief moment, the atmosphere is deafeningly quiet. Several Hansen students rose from their seats. While some of them roared in rage once more. Other people sat in disbelief.

"Waste!" exclaimed Leon, observing everyone's reactions.

His words pierced Hansen's heart once more. Some of them went to Mr. Frederick to complain. Mr. Frederick has a headache, so he rubbed his temple.

"Silence, Go back to your seat. You have no right to speak if you are weak "With solemnity, he said.

A few students stopped complaining after hearing his words.. They returned to their seats, helpless.
