

ANCIENT TEARS BLOODLINE

Chapter 20 - Lightning Scripture 1

After Mr James entered the secret passage, He then closes the door.

It's an encrypted message, I have to decipher it to infer the information. Mr James said to himself. The Secret Room is simple having a table and chair, several collections of artefacts and beautiful paintings hung on the wall.

He then took a seat and took pen and paper to decipher. Oh my god, Sir Lowell send the information. A seriousness dawned on his face. In the information, he told me to be wary of Dean Marks. That shady guy I too don't feel good about him. As he read the info one by one soon a look of surprise caught in his eyes. He was delighted. Sir Lowell send four things for Zack.

1. Lightning Scripture(Ancient).

2. Special access Military Grade Sci-Fi watch.

3. Contract(Black Contract).

4. Storage Ring(AKA Specially made Faction ring).

looking at the contract, he thought sure there is no free lunch in this world. looking at the fact that he sent an old burn out Scripture instead of the totem. Even though it said that 10% of the scripture was unburnt and readable, The notable thing here is they formed a simple lightning technique for warriors.

He could not imagine once it was released for sale it could go for billion of credits. I only heard about Sir Lowell that he is some bigwig in the Army but I don't know further. Looks like he wants to recruit Zack. it's too good to believe, but we don't have a choice. without the background, you need a powerful connection. I believe Sir Lowell will be the first connection for Zack.

The Military Grade Sci-fi watch and Black storage ring, it's a necessary item for people who sign the contract. It also represents the faction they belong to. The Sci-fi watch and storage ring, both got biometric information of Zack.

They were both made by rare and specific materials belong to their faction. Each faction got different special resources under them. This is no different for

ARMY either. Even in the Army, only special people get them. With these things, I can confirm that Sir Lowell recognise Zack as a potential seed.

It will get destroyed immediately if anyone except Zack tries to get access to them. Sir Lowell reminding me of Dean Marks, it is safe to say he is not got a hostile intention towards us. He needed Zack more than him.

Tomorrow once Zack wakes up. We need a safe place for Zack to have totem manifestation. He quickly thought of a place and intend to visit it there with him.

Early in the morning.

Zack woke up, After a quick bath, he wore his dress. He looked at the reflection of the mirror. looks like I got taller, Even my hair is grown to shoulder length. My face is good looking but I want it to cover half of my face. leaving my eyes only to see. The perfect creation of a soldier. He laughed at himself he is very much pleased.

Today is an important day. I need to get sword technique for white bone, it's the name I give it to my Falchion sword. It's a very simple name yet very unique. Soon he came to a dining hall for breakfast. both Uncle James and Granny Park were seated at the table.

Seeing Zack coming, Uncle James said.

"You eat every food on the table you need a lot of energy. We are going to visit a special place today". Look of understanding appeared on Granny Park's face. She remained silent.

Zack was surprised at first then he said nothing and begin to eat.

When the breakfast was over, Both Zack and Uncle James exited the home. They went to a secluded place it appeared behind the barren mountain. it is a mountain cave. Zack looked at the scenery it appeared very dry desert very few green lush patches on the ground.

But the cave's surroundings were covered with green.

Uncle James took out an artefact from his storage ring. it appeared small dome-shaped in silver colour covered in small runes. The runes buzzed and started to shine. soon silver-coloured film started to cover the cave from the top of the Sky. After it covered Zack gasped the entire cave and his surroundings were disappeared.

Seeing disbelief look on Zack's face. Uncle James smiled and said " the shield acts as both concealment and protective shield, for powerful people they were still able to see the cave to not arouse any suspicion but they cannot enter. Depends upon people's limits as warriors the shield acts differently".

A look of understanding appeared on Zack's face. After the concealing was done. Both of them entered the cave. Inside the cave, there were several passages. Uncle James carefully entered one of the passages. Zack followed behind him. soon they came across at the end of the passage a flat ground with medium space, it's looks like room but a naturally formed area of the cave. The entry of the passage is the only exit in the cave room.

After they entered the room Uncle James formed a small barrier at the entrance. It's different from the concealment shield.

Uncle James looked at Zack before he took four things out of the storage ring. Seeing four things appeared. Zack's face changed drastically a look of disbelief caught in his eyes. His heart starts to beat faster. He didn't know what are these things were but in his heart, he surely knew it's for him.

Early in the morning, Uncle James received the package. But the surprising thing was the person who delivered the package. He was so powerful than

him. He knew it for sure, the package was from Sir Lowell. The person who delivered the package said. He will be back in the evening to receive the signed contract. Then he disappeared. He wore a black tuxedo he had a knife mark on the left side of his face.

Uncle James recalled everything and started to explain to Zack.

Wow, lightning scripture. Looks like a goddess of luck is on my side. I hated being average so much that even the goddess of luck heard my inner thoughts. But it's only 10% it's fine to have it instead of totem implantation. No wonder Uncle James came here. I thought he will bring me to the research facility for the totem implantation.

But his happiness happened for a moment before it disappeared completely. A black colour paper appeared before him.. it's a contract paper in black colour but the wording written in red colour makes his heart dreadful.
