Chapter 22 - Breaking The Limit.

The violet energy with black specks on it started to seep into his body and soul.

Zack sensed immense pain as the energy starts to cleanse every cell in his body. After the cell is cleaned each energy pore is filled with new profound energy. The Violet black energy also started to level up his soul.

Zack felt his body and soul limit is going to break. He bit his teeth and cleared his mind.

His tender muscles started to get power up filled with muscle strength. His soul also powers up same as body strength. As the limit break. He levelled up finally from

Initial Basic Human physic to Mid-level Basic Human physic. Zack felt his body loosened.

Finally, Before joining the academy I levelled up. It saves a lot of trouble. He once again seeped his conscious into dantian. Saw the hazy totem but can't get closer. He was repelled back. Zack internally sighed.

Lightning totem manifestation successful done. I have to put forth an act convincingly that I got the totem from warrior technique. Before that, I need to destroy the scripture.

Zack holds the scripture in his hand. For a moment a violet spark comes from the bottom of the hand. within a flash, it destroys the scripture leave behind no ashes.

Zack gasped for a moment. It is the first time he has used lightning. it acts according to his thoughts like the movement of his body. Zack got happy internally. He then turned his attention towards the warrior technique. He started to read but its very plain. it looks like handwritten notes without spiritual thoughts. But he felt the same power as in scripture but on a minuscule scale. He felt relaxed. He starts to conjure a plan. To deceive Uncle James.

After everything was done. Zack got up and walk towards the barrier. As he exited the barrier. Uncle James saw him. He was happy.

"Zack, Have you made it? How was it?".

asked Uncle James.

"I Finally formed a manifestation totem from the warrior technique, Uncle James". Zack said smilingly. Uncle James didn't doubt it. "Okay, now take out the Sci-Fi watch and storage ring and bind it". said Uncle James. Zack touched the Sci-Fi watch and placed it on his left hand. He then activated it. The biometric scanner was turned on the screen as Zack activate it.

Zack did his retina scan. After that passed Zack logged in. He saw the inbox and contact list. In his contact list, there were two names they were Uncle James and Sir Lowell McCain. looks like he is the mentor. Zack said to himself. Then wore his storage ring. It did the same after he wore it he felt a ting of pain.

The blood verification is done with the storage ring. As he seeped his consciousness he saw it has 500 cu.m of space.

"Now everything was done what do you want to do next. Do you want to train him Until the Academy opens?". asked Uncle James.

'I want sword technique for my white bone". Said Zack. Hearing that Uncle James smiled and said. "Okay, for now, you will attend the Sword training centre near the city. They teach basic sword stances for all types of swords. it's a good opportunity for you. Master all the sword stances and basic sword practices before officially learning the Falchion sword technique". Said Uncle James.

"The nearby city is Redstone City, A week later I will take you there for registration". Said Uncle James. After both of them exited the cave and cancelled the concealment to went back home. Late in the evening uncle, James got a visitor he handed the contract to him. Then he disappeared.

Meanwhile, Zack is meditating in his room concentrating on the ruin in his consciousness. After an hour of meditating, he got tired went for a bath. After he came back from the shower. He comfortably lay

down on his bed. Zack tilted his head saw the wooden case nearby on the table which got white bone on it. He placed the entire case in his storage ring.

After I joined the training centre. There is no problem with sword training but my element training is special. I can only control specks of it. It's very hard to control a large amount of lightning energy. Thanks to soul power I quickly got restrain over it. otherwise, this room will get destroyed. I need the finest control of soul energy to control my lightning element. otherwise, this large amount of energy become useless to me. I need to ask Uncle James about it.

Early in the morning after breakfast. He was at Granny park's favourite place the garden. Both Zack and Granny Park talked casually. He asked Granny park about element control. Surprise caught in Granny park's eyes. In this past month. Zack's life changes hugely. When she heard Zack got special elements for the first time. She was very much happy all her worries about the quota had gone away.

"Zack for elemental control, you need to participate in lots of fights against monsters. The battle is the key to improve your strength in all aspects. If you think by meditating you can improve your strength it's a waste of time". said Granny park.

Zack lowered his head. For the next few days, he didn't know what to do except meditating.

So then he and granny park discussed monsters, various element users. Granny Park especially reminds him about the academy. How to fight for the resources. How to act low key whenever it is needed.

Granny Park starts lecturing Zack. Zack tries to understand everything he can. It will become a helpful experience for Zack in future. Granny park is not a powerful warrior but she had a lot of experience in her life. Especially the monsters her team fight when she was younger. The monsters she described were all different.. There are monster hordes that occur from time to time near the border.
