

## **BloodLine 232**

### **Chapter 232 - Crimson Hall's Small Alliance Meeting**

When Zack exited from the Star Tower, the news broke out immediately. Many of the warriors want to find Zack. But he was nowhere to be seen. He left the Star Tower Campus and stayed inside the city.?

His exit also broadcasted in all other regions except Westword city due to emergency law.?

When the people from Crimson Hall came to know about it they quickly conveyed the meeting of allied forces.

At the virtual meeting,

From Crimson Hall, Apart from First Elder. The Second Elder and the Headmaster of the Crimson Hall preside over the meeting. Total of Six forces agreed to participate in this meeting.?

On the visual screen, the image of elders from six other forces can be seen. It's a live meeting.?

"He.. he...He..." The Great Elder from sunflower training institute. let out a small chuckle and added, "It's hard to believe that people from Crimson Hall took initiative to eliminate some talents from the opposing party."?

Hearing that expression of the First Elder become speeches. Earlier, they didn't reveal the true purpose of their meeting. Crimson Hall 's main purpose is to eliminate Zack. But if they conveyed it to others it can bring out huge dissatisfaction. After all, everyone's target is different. They want to use this opportunity to fulfil it.

Hearing the Great Elder's word, others also let out a knowing smile.?

Seeing that the First Elder from Crimson Hall answered ambiguously, "Everyone has own interests. Let us now discuss dispatching strong people."

Hearing his words, the atmosphere becomes dignified. The other hand, The Great Elder from Sunflower institution shook his head smilingly, He knew distinctively there was something wrong with this Crimson Hall People. But he didn't bother to inquire about it. Since their own organisation has a lot of problems.

At this time, One of the Elder from medium size force commented, "Why don't we send a team of Trainee Warrior to complete the mission?"

Hearing his words all of them nodded, Even the Great Elder from Sunflower institution began to listen seriously.?

But, People from Crimson Hall looked at each other. While the First Elder from Crimson Hall frowns. He thinks sending a team of Trainee Warrior power is a little bit unreliable.

Seeing his frowning face, the Great Elder asked, "What happened to the First Elder? Do you think sending the team of Trainee Warriors is not enough?"

The First Elder was startled hearing his words. Then he cursed the Great Elder inside his heart, "I didn't expect him to come here for this meeting." He clearly knew about this person's method. Even though we are allies on the surface. But there is intense competition between us.?

He understands that even in this meeting the old man will try to collect some intel from his behaviour.

Then he looks at all of them and said, "I propose we should send team of Elite Warriors"?

Hearing that, the rest of them were stunned. Even the Great Elder is bewildered hearing his words. "Are you even serious Thomas?" This time Great Elder directly took the name of First Elder from Crimson Hall.

Seeing this intention, The first Elder didn't utter anything.?

But the Great Elder expression becomes dignified. The meeting rests on his decision. Even the rest of the five elders from other forces have fear and respect for the man.

Seeing there was no response from the First Elder, Then the Great Elder once again added, "Tell me Thomas, is there any need to send elite warriors over there to kill some few brats? He said in a solemn tone.?

Even the rest of the Elders become confused hearing his proposal. Mobilising a team of Elite warriors is not easy. Somewhere guarding strategic places in their organisation. So, they feel absurd hearing his proposal.

Even the First Elder from Crimson Hall thought it might be unreasonable for them to hear a first. So, he needs to convince them thoroughly.?

He said, "I feel, Even though we sent Trainee Warriors. It won't be fool proof enough. The people from Star Tower won't let them easily do anything. On top of it, there are chances that enemies have already sent their strongest to protect their students."?

Hearing that all of them took time to ponder. But the Great Elder felt even more uneasy from his words. "Sure, Something is going on. This Thomas brat won't suggest this unless there is something serious." He thought to himself.?

At this time, the Great Elder opened his mouth. He said, "Still, I believe sending Elite Warriors is too much. Even if we fail we can try later. And also it's not easy to mobilise Elite Warriors from our organisation."

Hearing that the First Elder gritted his teeth. He understood, this person won't let him succeed. If hasn't come here today, then he will try to persuade others successfully.

And at this time, one of the elders from the rest of the forces commented, "First Elder, it's impossible for us to send Elite Warriors. Because we have only a handful of people. Therefore, we can't afford any casualties. It will be a huge loss to us, if someone loses their life."

Hearing his words, the rest of the four forces all echoed their same point. It's not easy to send elite forces. Who will take responsibility for them if someone falls? Their organisations only vent their anger on them if something happens like that. For a moment, they were a bit scared. So, they unanimously opposed the First Elder's proposal.

On the other hand, the Great Elder Smiled hearing that. Seeing their response, the First Elder knew his proposal had failed. Having no other choice he answered, "Okay, It's fine. We can send a team of Elite Warriors. "?

"Ha...Ha...Ha..." Hearing that Great Elder let out a huge laughter.?

Then he added, " Then it's decided, Our team will be waiting for the perfect opportunity to eliminate some threats at the end of the competition."? After saying that he ended the call.?

Followed by him, others also ended their call.?

Finally, the First Elder from Crimson Hall remained in his seat. His face immediately becomes unsightly. Seeing his frustrated face, the headmaster of the Crimson Hall was scared silly.? Even the second Elder hesitates to say anything.?

Then the First Elder calmed down after a few breaths then he said, " We will send three Elite warriors behind our team in shadows. When the opportunity presents they can kill that kid once and for all"

Hearing that Second Elder nodded without objecting. But deep down in his heart. He felt sending three elite warriors was a bit overkill. On the other hand, the Headmaster of the Crimson Hall sighed in relief. He really wants this situation to end and move on.?

The other hand, the First Elder seems to recall something. "Did you trace the recent activities of Crimson Hall?" He inquired at the Headmaster of the Crimson Hall.

The Head Master replied, "First Elder, We have been monitoring since the start of the competition. There is no movement noticed from Hansen Campus."?

Hearing that the First Elder frowns, He felt something strange but he didn't know what it was. He wasn't able to pinpoint. Shaking his head he commented, " Okay, Arrange the team as quickly as possible." After saying that he left the meeting room.

...

On the other hand, Elder Thornton already left the Hansen campus. He is already on his way to West Word city. When he stepped out of the Hansen Campus. He already makes sure that no one can find out about? his whereabouts.?

When on his way to the west word city. He received a message from Zack. Seeing that he let out a smile. He is currently travelling by train towards the West Word City. In a few hours he will reach the destination.?

He knew there was an emergency lockdown placed in the West Word city. Unnecessarily, you can't roam around the city. For him it's not a problem. But for Mr. Jonathan he will be staying outside of the city. He doesn't want to meet Zack and accompany him. He plans to protect him from distance, with two elite warriors Zack safety can be guaranteed.?

He doesn't know the current location of Mr. Jonathan. But on the other hand, informed him that he will be present at the end of the competition. He guessed Meanwhile,? He has some other work to do..?

Then he glanced at the current leader board ranking. After seeing Zack's record of clearing 18 floors, he became stunned again. Since the beginning of the competition, he doesn't know how many times he has become speechless. At first, he set the first ten floors as a huge benchmark for him. Which is already a mountain task. But now Zack had gone one step ahead and cleared 18 floors.?

He also noticed the name of Zack also stopper flickering. Which means Zack exited the platform. He smiled,? This is already a high record. "I don't which force will break the record?" He said to himself. But still he underestimated Zack. Since he doesn't know the content.. He felt it's quite possible for other force's top students to break the record.
