Chapter 234 - Frazier Clan Head's Realization

Frazier Clan,

Two people were discussing inside the Clan Head's Study room.

"Clan Head, The intel reports just came" After saying that old butler handed over a memory chip.

The Frazier Family Head, father of Maria Frazier looked at him. After receiving the memory chip he immediately connected to the visual operating screen. As the memory chip's data was assessed. Lots of information was reported in detail. Somewhere backed with evidence and somewhere just speculation.

His gaze falls over each report one by one, right now he wants to look at the intel about Hansen Campus. Finally after scrolling down two pages. The information about Hansen campus is mentioned in the 3rd column. He paused for a moment and read every word carefully.

It's stated that there are lots of movements around Hansen campus. The location was swarmed by the news reporters of Red Stone City and there is also a group of people from time to time gathering around the area. After reading the first few lines. He didn't get surprised. It's normal to have this reaction after seeing this kid's performance in the Star Tower Event.

Shaking his head he further scrolls down to see. Suddenly, his eyes noticed some interesting information. It's reported that Warriors from the Rogue organization were also seen there. "Bounty?" He said. "No, all those rogue warriors stopped their movements after that incident occurred in Hansen Campus. " He said in his heart. Then where do these people get their guts to roam around Hansen Campus again.

Having some doubt, he further reads down the reports one by one.

It's also stated that the Hansen campus is functioning as usual. This piece of news is confirmed by his daughter. Again, there are also reports that the Chairman of Hansen Campus never left the City. After that incident, He is been spending more time on the campus. By overseeing the restoration project and all that.

For a moment, He looks at his butler and asked, " How long will it take Hansen to complete the restoration of their building?"

The old butler was surprised to hear that. He immediately answered, "Clan Head, I heard Young Miss saying something about the completion of the restoration project. "

"Uh?" Mr. Frazier furrows his eyebrows in doubt.

Then he told the old butler to ask her daughter to come here for a moment. The old butler left after receiving the order. The other hand, He shifted his attention back to the screen.

A few minutes later,

Maria Frazier stepped inside her father's study room followed by the old butler.

Looking at his daughter Mr. Frazier smiled and asked, " Maria, is that Hansen Campus's restoration work is complete?"

At first Maria didn't know why her father asked her to come. But now hearing his words, she understood and answered, "Hmmm, It's not entirely complete. But 80% of the work has been completed."

"Why are you asking Dad?" She was surprised and asked, "Do you want to fund it?"

"No, it's not about that. I'm just wondering about Elder Thornton's Whereabouts? He said with a smile.

"Hmmm" Maria began to ponder, "So far I haven't seen him inside the Hansen Campus. "

Then she added, "Usually, it's very rare for us to come across Elder Thornton. And after that incident it becomes even harder to see his presence."

Unlike Maria. The other hand, he has different thoughts running through his mind. He knew Zack was participating on behalf of Hansen Campus. The Name of Hansen is clearly mentioned in the leaded board ranking beside Zack's name. So, How come people are not worried about his safety?

Shaking his head he put his doubts behind his mind. Then he asked her daughter, "Do you know about Zack's ability?" He knew both Zack and her daughter were classmates. She might know about him. It also puzzles him, it's been months since Zack came to the Red Stone City's Hansen campus to train. Yet so far there is no wind of his true abilities. He was really amazed by this fact.

On the other hand, Maria smiled wryly. Like others She is also in the dark about Zack's talent. But looking at his current standing in the leaderboard ranking. His rank is number one. So far none of the warriors from big forces could get close to him.

Seeing his daughter's silence. He uttered, "Even, You don't know about it."

Maria nodded her head hearing his words. On the other hand, Mr. Frazier doesn't know what to say for a moment. Here he thought his daughter didn't want to disclose about his friend's talent. But seeing her disappointing reaction, it looks like her words were true. Confirming that He smiled mysteriously.

"Elder Thornton?" He thought of something, "He must have known about it. Otherwise, without knowing his student ability. It's impossible to allow him to participate in the Star Tower event."

He really underestimated the Hansen campus. There were days when he objected to his daughter's demand to train there. But looking at all the events that happened after that, Including the infiltration incident. The Hansen Campus still stood tall. Even Elder Thornton was able to keep his position. And even that kid, Zack also showed his dazzling performance in Star Tower.

Thinking all about it, He really feels stupefied. No one could have imagined these happenings. But it's happening right now before everyone's eyes. On the other hand, Maria and the old butler stood in silence. While Old Butler also has some thoughts on his mind. He knew the Family Head was trying to develop a fruitful relationship with the kid.

At this time, Maria seems to understand something. "Dad, Remember, At first I told you Hansen campus is good. But you objected that day. But look here right now, it's getting famous around our surrounding regions." She said with a triumphant smile.

Hearing that, the Family Head nodded. "It's all because of that kid. Elder Thornton is really something. Looks like he really envisioned all of this." He said with a sigh.

Then he senses his daughter's power level. "How long will it take you to get your next breakthrough?"

Maria was stunned to hear that, "Dad, it's not even a week has passed since my breakthrough." She said with a solemn tone.

"Ahem," He forgot about that, "Do you know? why didn't I allow you to go there?"

"Is it about my safety?" Maria asked.

Mr. Frazier smiled. Then he added, "Not only it's about safety. Even if you go there it's hard to compete in this challenge."

Then he continued further in a solemn tone, "I believe that your friend already has the strength of a Mid level Special Trainee."

"No way? Is that level gap between us really too long? " Maria wondered to herself.

She just got her breakthrough to reach Peak of Trainee Apprentice Warrior. But Zack is already two levels higher than her. She unconsciously clenched her fists. She had been training most of her day. But still it's enough. "I need to change my training plan. I will talk to Mentor Key tomorrow." She said in her heart.

On the other hand, Mr. Frazier finds out Zack's strength Using the leaderboard ranking. Apart from first place, rest of the warriors who were close to his rankings all have Special Trainee Cultivation Base. So, it's no brainer to realize Zack's real strength.

Looking at her daughter's solemn face. Mr. Frazier sighed deeply., He regretted saying that. Then he commented, "There is still time, if you can get the next breakthrough before the Crimson Hall Exhibition event. I will allow you to go with Hansen Campus."

Maria Frazier stood stunned hearing that, Her father never took great risk. Having only a daughter, he won't make decisions unless he is entirely sure about her safety. Now, he is allowing me to go. She even forgot that she needs to get breakthrough for that.

At this time, the old butler panicked. He hurriedly said, "Clan Head, It's too early to make this decision." Unlike Star Tower, People will target openly in the name of completion rules at Crimson Hall's event. He doesn't know why Clan Head made this decision."

On the other hand, Mr. Frazier gestures to the old butler to stop.

At this time, Maria opened her mouth to say, "Don't worry Dad? There are still months left before the Crimson Hall Exhibition event. I can reach my next breakthrough easily. " She now changed her priority to get breakthroughs as soon as possible. For that She will ask Mentor Key's help. With her help she believes that her goal is achievable.

Mr. Frazier smiled hearing that then he gestures to both of them to leave. What they both don't know? Mr. Frazier is betting on Elder Thornton and Zack Lockwood for his daughter's safety. "I believe there is something behind Hansen campus that No one couldn't perceive." He whispered to himself.

Earlier, He thought about Helping Zack. But looking at the report. He knows that he can help Hansen Campus and Zack Lockwood. He plans to identify those rogue organizations separately. If he could get information about people behind them. It will help Hansen a lot.. Thinking that, He made up his mind to help them in this way.
