Chapter 240 - Part One: Elder Ross Vs Three Elites

The Second emergency meeting of Star Tower came to an end. After getting an assurance from the Hall Master, the elders leave one by one and the Virtual body dissipates.

But who would have thought, Just after the meeting a terrible situation is awaiting for Second Elder Ross.

Second Elder has been guarding West Fort since the beginning of the Star Tower Challenge. The West Fort is a government building, which acts as a second line of defense after the border line.

This setup is the same for the rest of the borders except the last line of defense. The last line of defense is the central city, which is under the direct protection of City Lord Garry.

When the Second Elder consciousness came back to his real body. An ominous promotion rose in his heart. The next moment, a loud siren resonated throughout the area. Hearing that everyone was alarmed greatly.

Second Elder Ross appeared above the sky overlooking everyone. His Power level is at Peak Elite level Warrior. He awakened flight ability as early as during his Initial Elite level stage.

At this time, all the warriors stationed below Elite stage rushed to the front to face enemies.

Opposite to them a large number of warriors hurriedly rushing towards them. All of them were wearing dark uniforms in disguise to hide their identity.

Elder Ross's face frowns seeing the number of the warriors. At this moment he sensed three elite level powerhouses trying to besiege him.

"Harumph" Elder Ross snorted immediately, He released several silver spikes from his hand attacking them.

"Hysss!" the air breaking sound can be heard at this instant.

A long silver colored, needle like spike falls on the three Elite level power houses at the same time.

"Bang" "Bang" "Bang"

A continuous blocking sound reverberated the area. The three powerhouses begin to fend off those silver pikes. In a moment, all three of them pushed into a defensive position.

Just like Elder Ross fighting against three powerhouses. Below the constant fighting is going on. Warriors from both sides attacking and defending against each other.

The number of warriors from West Fort is twice in comparison to the enemy faction. The enemy faction is overwhelmed by numbers. Yet the overall advantage is still held by the enemy faction due to three Elite level Power houses.

Above, Elder Ross already guessed a flaw in the defense. He began to target the weakest elite among them. As the three of them were quite far from each other.

Elder Ross disappears from the spot and appears above the Initial Elite Warrior.

The Warrior's pupil shrank sensing him at close. Looking at his expression Elder Ross sneered, a deep killing intent rose in his heart.

Using his right leg, He slammed heavily at the center of his chest.

"blurt" A blood spilled from his mouth, as he lets out a muffled groan due to agonizing pain. He doesn't know how many chest bones broke.

His Initial Elite level strength wasn't able to block his attack. As his body heavily falls on the ground from above. Due to another heavy impact on his body he fainted on the spot.

Everything happened in a blink of an eye. While the other two took the entire time to fend off those Silver Spikes. They weren't even able to help their companion in the middle of an attack.

After clearing the weak one, Elder Ross set his eyes on the other two. Unlike the weak one, the other two were better in strength.

He already probed their strength. One is at Peak Elite level as him and the other is at Mid Elite level.

Feeling his gaze the Peak Elite level Warrior let out a creepy laughter, "He...He...He..."

"As expected of the Elder from the Star Tower. You guys are as cocky as ever." He said with a vicious smile. He removed the mask from his face without worrying.

At this moment, Elder Ross recognised face. He smiled and said, "You escaped last time due to sheer luck. I don't think this time even luck can help you."

Hearing his words, the enemy burst out in anger. He glanced at the Mid level warrior for a moment. There is a tacit understanding between them.

He immediately attacked Elder Ross with his Giant Flame Sword.

A blazing heat is constantly emanating from the Flame Sword. As the tip of the Giant Flame Word slashed against him.

Elder Ross's eyes flickered with interest. To defend against the flame sword. He formed a thick shield out of thin air using metal elements.

As the blade touches the metallic shield.

"Clang" A metallic sound resonated in the area due to the collision.

Both moves canceled out each other, As Elder Ross thought about the next movement. He also observed the other Mid level Warrior. He has been looking for openings, Elder Ross plans to take him out as soon as possible.

...

(From Mc Perspective)

At Zack's inn,

The Elder Thornton hurriedly reaches Zack's room. Upon seeing his flustered expression, I asked, "Elder, What's wrong?"

Elder Thornton drinks a glass of water to quench his thirst. After hearing Zack's question, He gestures to him to sit.

After taking seat, Elder Thornton commented, "The turmoil has started. Just a while ago Mr. Jonathan informed me about the new situation at the West border."

Then he looked at Zack's expression. Instead of getting tense, He appeared Calm. Elder Thornton's eyes flashed with appreciation.

Then he continued, "The West border is breached. Some forces infiltrated successfully into the town. Right now, The Constant battle has been going on there."

Hearing that I'm surprised, Which force dared to do this. Won't they worry about any retaliation after the Competition? I wondered.

I looked at Elder Thornton and asked, "Elder, I heard, Star Tower can employ any means to eliminate the threat once they enter inside the city during the ongoing competition."

Elder Thornton nodded and commented, "Yes, It's true. But we don't know how they are going to do it." Then he added, "What I'm worried about is the killing done by the assassins. It's a good time to infiltrate the city during chaos."

I knitted my eyebrows hearing the term assassin after a long time.

"I believe The City Lord will take care of it. Already his Patrol guard has been keeping an eye on the streets. It will be difficult to get past them." I said with confidence.

Shaking his head, Elder Thornton disapproved of Zack's reasoning. He added, "You seem to forget something. Do you think these normal guards can fight against Elite Assassin?"

I sucked cold breath hearing that, "What Elite level Assassin?" I'm beginning to get tense. I had the worst experience with the assassins.

Elder Thornton didn't want to say it first. But he feels Zack is letting down his guard. So, having no other choice he told him seriousness about the situation.

After seeing Zack's reaction, "Yes, There is quite a possibility for it. Though, He/she might not be from the same force. Which tried to assassinate you on our campus."

Hearing that I sighed in relief. I already learnt from Mr. Jonathan that he had eliminated the assassin some time ago. So, I don't think there will be another force ready to act so soon.

Elder Thornton said, "So, in any case. You have to be careful. Don't go outside until the end of the competition. It's just one more week. Then we can rush out of the city."

"Elder?" I said.

"I knew you hadn't gone outside for a while. But I'm saying it's for your own good. Right now, we are outnumbered. You have me and Mr. Jonathan. In case of emergency it's impossible for Mr. Jonathan to enter the city. Which leaves me to protect against those forces." Elder Thornton convinced Zack in a solemn tone.

Hearing his words made me tense even more. Elder Thornton is the one who wanted me to participate in the completion. Now, it looks like he himself hasn't expected this situation to develop this far.

Perhaps, he made a wrong calculation by assuming I'm weak. If he had known my real strength. He wouldn't recommend it and I wouldn't be in this desperate situation.

Then I said to Elder Thornton, "Okay, Elder. I won't leave this inn. But What's your next Plan?"

Elder Thornton signed in relief hearing Zack's words. Next he can focus on his work without worrying about Zack.

"Don't worry about me? I met an old friend here. If there is any situation he will help us." After saying that he left Zack's room.

Seeing the Elder leaving my room, I frowned. He came to meet me to discuss this matter alone. I thought he would stay here for a while. Shaking my head, I begin to cultivate.

Only having good strength can aid me during this crisis. It's better to focus on increasing strength than involving in conspiracies.

Elder Thornton, on the other hand, went directly to a different location to meet his friend. He didn't divulge the information about him to Zack.. He thought it's too early for Zack to know certain things.
