Chapter 250 - Part 1: Darius Collision With Zack

At the Eastern Fort,

After securing both Elder Smith's and Elder Dorothy's body. Elder Ross placed it in a safe place away from the battle.

He did it amidst a person chasing him from behind. After placing it, he turned back to face the enemy.

The other hand, The Peak Elite Warrior from the enemy faction stayed behind little. He didn't want to endlessly waste his energy.

For a moment, he hesitated. A look of confusion can be seen on his face. "It's troublesome, I feel like I stepped into deep shit. Wouldn't it be better if I went back to normal?"

But just as he ponder it,

"Hiss!"

Several silver spike needles dashed towards him.

"What is it?" He instinctively deflected those attacks with a water barrier.

"Harumph"

Elder Ross sighed, "To think the situation pushed me to this state."

Then he raised his head and looked at the person. "Well, It's time to stabilize the situation here." He mumbled under his breath. While he released his next attack simultaneously.

Seeing Elder Ross's face clearly now. The Peak Elite Warrior instinctively knew this person was from Star Tower Management.

His face becomes condensed for a moment. Then he decided to fight head on. He knows it's too late to back away.

Seeing another wave of silver needles coming at him. He created a large defensive barrier around him in response.

"Boom" "Boom" a deafening sound resonates in the area.

Large number of silver needles collide at the water barrier in the blink of an eye. But they all get deflected one by one. There is no dent left on the Water barrier.

Seeing the collision, Elder Ross's expression didn't falter. They were just appetizers, and there is still some time left for him to use the main course.

But before that he wants to make sure that there are no other Peak Elite Warriors, hiding in the vicinity. Otherwise, he would fall into the same trap like Elder Smith and Elder Dorothy.

He decided to use the minimum essence possible. Then he suddenly disappeared from his spot and in the next moment his right foot stomped on opponent's chest.

"Bang"

Like bullets the opponents flung backwards in a blink of an eye. Unlike Water element, his metal elements greatly enhanced the physique attributes.

Elder Ross wants to wear out the opponent before killing him by using the essence technique.

The other hand, For opponent it took him some seconds to react and stabilize himself. Unlike Elder Ross his body strength is not up to the mark.

He feels conflicted little as his mind races to find the solution. "Looks like he wants to drain my energy." He thought to himself. He doesn't want to drag it any longer.

The other hand his lackeys were watching his battle nervously.

Elder Smith's deep wounded injuries began to heal slowly. The blood clots stopped slowly after healing pills' energies began to work. It will take some time for him to gain his strength as usual.

But the state of Elder Dorothy is a bit serious. Unlike Elder Smith. Elder Ross gave her two pills apart from the healing pill. He also put a Meridian calming pill into her mouth. The Meridian calming pill slowly calmed her stressed meridians. While the healing pill also accelerated his recovery a little bit.

Unless Elder Ross transferred them to a nearby medic unit their condition won't get any better.

...

At Northern border,

Like other borders, there are also battles taking place between the forces. One Peak Elite Elder from Star Tower is battling against an enemy from Peak Elite Warrior.

Unlike other borders the situation here is balanced. No one can predict who is going to win against these two.

While the collision taking place between the two forces. There were also some small forces hiding the vicinity. They were waiting for a chance to fish in the troubled water.

Among those hiding forces, the team from Crimson Hall is also hiding quietly. Unlike other teams, this team is led by two Peak Elite Power houses.

One is hiding his breath and leaking the aura of Peak Elite Warrior. While the other one is officially leading the team in the name of the leader. Apart from the duo, there were nine trainee peak warrior subordinates assigned for the mission.

One extra Peak Elite Warrior is specifically assigned for this mission. In order to not to alert the enemy, he has been ordered to remain undercover. From time to time, the two peak elites glanced at each other.

For them they didn't care about the ongoing battle. They worried about their allied forces. It's been several hours since they came here to the northern border. But there is no word from the allied forces. They don't even have any idea about their strength.

Besides, there are no clear instructions from the organization. That's why they don't even ponder about the ongoing battle.

...

At Crimson Hall team,

The emergency fund was transferred to the Crimson Hall team by their organization. They also received clear instruction from their organization to stay inside the inn and not to roam around the city.

But not all of them took it seriously. Apart from Sallie and Ella, the rest of their teammates were involved in collecting details about the participant. Because the competition is still going and participants are going in and out of the star tower every moment.

At this time Darius from Crimson Hall is went near the Star Tower Zone. He spotted a few familiar faces from the current batches. Some of the warriors hailed from the enemy family. It's nothing to do with organization. He had already completed a mission for his organization. Unlike his other teammates, he doesn't want to do extra missions.

Right now, he wants to collect information about them to help his family. He didn't even tell his teammates about his little mission. Because, sometime ago he received information from his

organization reminding them to stay put inside their inn.. But he believes that there is no harm in doing missions near the Star Tower.
