Chapter 260 Two Teams?

Seeing the report shown by Mr. Chris. Everyone's eyes gleamed with interest.

"Ha...Ha...Ha..., Since no forces are involved in such a mess. I think it's the right time to reap some benefits" one of the brute elders in Virtual form voiced out his opinion.

Most of the elders echoed the same opinion. Since there is no loss to them on this matter. So, Why can't we help Star Tower? Everyone knows the Star Tower is also a mysterious big organisation. But nonetheless its fat sheep.

Mr. Chris smiled seeing their response. He considered this matter to be settled. He just arranged this meeting to see any difference of opinion. There is no harm in making sure that no one is against helping Star Tower this time.

He is quite sure maybe their subsidiary forces were not involved in such a mess, breaking into government city. But he knows that few Elders have an independent connection with those hostel forces. Which right now is creating havoc in West Word City.

Since an individual's actions are not related to the organisation. He is not worried even if some elder connections might be revealed later. After once again confirming everyone's opinion on this issuer. He ended the meeting after getting the green signal.

All Elders gave him permission to mobilize Elite level forces during the meeting. Since none of them wanted to do an overtime job. He happily accepted their suggestion. After letting out a deep sigh. He immediately contacted the Hall Master of Star Tower.

As the call connected...

"Mr. Chris, is there any news?" The Hall Master of Star Tower asked with slight hesitation. He is slightly under pressure. He can't move around while completion is going on.

Hearing the Hall Master's worried tone, Mr. Chris let out a laugh. "Ha...Ha...Ha..., Hall Master, Don't worry. I already received permission from the Elders to mobilize the forces."

The Hall Master breathed in relief hearing the good news. The first problem is solved. Now, he is worried about how fast Mr. Chris can mobilize the forces. The sooner they come the better the result will be.

The Hall Master commented, "Mr. Chris, Thank you for your organization's support. The Star Tower will remember this favor." He immediately thanked them for their help. He doesn't know whether it's a good time to ask about the second issue.

Mr. Chris said, " Hall Master, it will take one day for our Elite level forces to reach West Word City." He said in a calm tone. He knows the urgency of the Hall Master.

Something can't be avoided, such as travelling time. Since there were some monster Zones in between, there is no straight and shortest route towards the West Word City. He only hoped that City Can managed to save themselves somehow until they arrived.

"One day, Uhhh?" The Hall Master sighed. He understands the difficulty of the Parazam Hunter league also. This can't be helped anyway. So, he answered, "It's okay, Mr. Chris. We will try to hold on until you come" After saying that he ended the call.

The Hall Master sounded dejected. "I never thought I would ask help from the Parazam Hunter League" originally, this is a government issue. Not directly responsible for Star Tower. They can only support this matter to protect the city. It's impossible to take direct lead to protect the entity city. It's the responsibility of a City Lord City to protect this city, not Star Tower.

Otherwise, he can mobilize all the elders in Star Tower to stop the chaos. "Looks like someone from the government doesn't want to send additional elite forces to support the Elite Lord. They actually want Star Tower to bleed. He sneered thinking that, that's why asked for help from the Parazam Hunter League.

After gaining some clarity, he decided to ask a few Elders to support the city until Parazam Hunter League forces arrive. He stretched his hands after making up his mind. Then he slightly glanced at the LeaderBoard. Where Zack's name is shining in gold letters.

...

The Crimson Hall's Rescue team begins to move towards the central city after breaching the northern fort. The Star Tower Zone is inside the central city, Where the competition is currently going on. The Rescue team didn't take any transport for their travel in order not to arouse any suspicion.

At this time, The disguised Warrior asked, "Should We Eliminate Zack first or rescue our students?" He asked the Elite Earth Element Warrior who is currently leading the team.

The Elite Earth Element Warrior knitted his eyebrows. Right now they don't have any information about this warrior named Zack Lockwood. They only know their students are staying in Central City. For a moment, he begins to hesitate. His colleague is right.

Before coming here, First Elder reminded them no matter what cost they have to eliminate the person named Zack Lockwood. Only after eliminating him can they focus on rescuing their students.

Seeing the hesitation of Earth Element Warrior. The disguised Warrior asked, "What?" The rest of the Peak Trainee Warrior stood behind them silently not wanting to make any noise. Seeing the conversation between leader and disguised Warrior, these warriors thought this disguised Warrior might be some Elder's son. That's why he is talking to their leader without any worry.

The Elite Earth Element Warrior replied, "We were supposed to kill those warriors on the leader board including Zack Lockwood."

Heading that the disguised warrior nodded and answered in dejection, "Yeah, it's the initial plan of our allied forces. But right now we are acting independently. We don't need to care about all of them. Only we have to kill Zack Lockwood."

The Earth Element Warrior nodded, and he immediately contacted Robb Williamson.

As the call connected....

An anxious voice sounded in his ears, "Sixth Elder, Is there any news about Darius Case" Robb Williamson inquired.

Hearing that the Earth Element Warrior frowned. The matter of the Darius Case is very serious. They don't have enough time to investigate it either. Pushing the matter of Darius Case behind his mind.

He asked, "Did you find the whereabouts of Zack Lockwood?"

"Zack Lockwood?" Robb Williamson's face condensed. This is the first time he heard from someone at Elder level. Openly asking about Zack Lockwood. "Sure, they want to kill him," he thought to himself. After confirming his expression turned bright.

"Sixth Elder, Last time, I saw him near the Star Tower Zone. It was during the first day of competition. " Robb Williamson answered obediently.

Hearing that the Earth Element Warrior got further disappointed. There is no way that they can breach into the star tower zone. It's impossible to happen. For a moment, his mind sprung up in action to find some solution. If they go back without killing Zack. The First Elder will skin them alive. Recalling the instruction from the first Elder, small sweat beads formed in the forehead.

Robb Williamson is currently on the line waiting for some answers.

The disguised Elder glanced at Earth Element Warrior and sighed. Such a difficult situation, where they are going to find Zack Lockwood in two days. It's impossible to ask their students to search around the city looking for his whereabouts. Already some forces eliminated Darius Case, they didn't know which force was responsible. They fear it might happen again. So, there is no way they are going to allow their students to do that.

At this time, the disguised Elder commented, "Can we ask the First Elder what to do? We have only two days to complete the mission." The disguised Elder sounded rather serious.

Hearing that the Earth Element Warrior. Though he didn't want to contact the First Elder, they don't have any choice right now. Seeing that Robb Williamson is still on the line, he answered, "Robb, I'll call you later." After saying that he ended the call.

Then he immediately connected the call with the First Elder. As the call connected, he immediately began to summarize his situation. The First Elder of the Crimson Hall didn't make any comment before he finished his explanation. He was already quite satisfied with breaching the northern fort without the help of Allied forces.

After understanding the difficulty of the rescue team. He continues to ponder. There is no way he is going to let Zack Lockwood walk out alive. He doesn't want any variables to arise during the Crimson Hall Exhibition event. Which is a significantly very important event for Crimson Hall.

Seeing that he actually sent two peak elite warriors on that reduce team. He smiled. He immediately answered the Earth Element Warrior to divide the team in two. One is going to reduce the their Crimson Hall Students. And other team is going to responsible for finding and killing Zack Lockwood. He also reminded them if they come across any warrior in leaderboard they can kill them without having any hesitation.

After saying that he ended the call, from start to finish he didn't talk about their student Darius Case. He also didn't mention what would happen if they failed to complete the mission.

The Earth Element Warrior and the disguised Elder nodded to each other. Since they are going to split up into two teams there is no need to maintain the disguise anymore. The disguised Warrior released his original Peak Elite aura.
