Chapter 261 Part One: Last Day

The disguised Elite Warrior and Earth Elite Warrior discussed with each other and split into two teams. The disguised Warrior with his team went to look for Zack Lockwood and the earth element warrior with his team went to rescue Crimson Hall Students.

Rescuing Crimson Hall students is also the main thing. They can't afford to have another causality. They already failed to convince the parents of Darius Case. They blamed his death on hostile forces in the end. But which force exactly isn't clear for now.

Having that in mind, the Earth Element Elite Warrior increased his pace. It will take several hours to reach the central city. While on the way he sent a message to his students to get ready.

...

At luxurious inn of central city,

Ella and Sallie stayed inside their room ever since the demise of Darius Case. The Crimson Hall campus too strictly instructed them not to leave the city. Since the identity of those hostile forces is not yet confirmed.

Right now both of them were cooked up in their room. Patiently waiting for the competition to end.

Suddenly, their watch buzzed with notification. As Sallie finished reading the message, she breathed in relief. She immediately opened her room and jolted towards Ella's room.

After getting inside Ella's room, Sallie ran towards her and gave her a big hug. "Ella, We are saved." "We are saved" She said with a huge relief on her face.

Ella smiled too. A huge relief can be seen on her face. She calmed down and commented, " See, Ella. I have told you before. Our campus won't let us alone."

Ella was too worried about recent events happening in the city. The city is in turmoil. On top of it we have lost one of our students.

Sallie nodded, hearing her words, then she sat on the sofa comfortably. Then suddenly she remembered something. Her expression looked worried.

Ella noticed her expression and asked, "And What is it now?? Everything is going to be fine Sallie. Don't you worry unnecessarily"

Sallie sighed and said, "Actually, I'm thinking about something else. Whom do you think responsible for Darius's death? Even his body has not recovered so far."

Ella shook her head in disapproval and commented, "At that time, who knows what he is up to? He might have come across hospice forces. His ranking at leader board is quote good." Ella's thinking about the whole situation is relates to the leader board.

It's normal for some forces to kill outstanding students of their enemies.

Sallie looks at Ella and commented, "You remember our last mission right. It's about collecting information about Zack Lockwood. Unlike us the rest of our teams were quite interested in that mission."

Ella frowns hearing that, " What do you want to say? Darius' death is related to our last mission."

Sallie answered, "I don't know for sure. But I feel there is a good possibility for that."

Ella didn't agree with Sallie's words in her heart. Nobody has seen Zack Lockwood so far. Even before the mission given by the organisation. She feels since he is number one rank holder. His organisation might have come up with some kind of safe haven. So it's highly unlikely for Darius to confront him.

Then she Commented, "Just leave this topic right now. Our organisation will eventually find out the killer. Until then we have to wait patiently."

Hearing Ella's words. Sallie felt right then she shifted the topic of the conversation. One day later, the competition comes to an end. So they are making a list of what to do after going back to their home.

...

Inside Star Tower's guest house,

"Don't worry granny, I'll be back at home in no time." After saying that I hung up the call.

The current situation in the city has reached everyone's ears. Granny Park is having conversations with me at least four times a day.

"Sigh"

"I had lost the all of the excitement about Star Tower." I mumbled under my breath. I don't feel anything good about my ranking on the leaderboard.

I hope Elder Thornton will come back tomorrow from his mission. It's good that there is no new infiltration on his side. As long as there is no new situation, the Star tower will be released from his mission.

For the past few days, I have been practising diligently both with my body and essence cultivation technique. Even Though I won't get much improvement in essence cultivation technique due to my recent breakthrough, I haven't stopped practising it.

The only good thing that has happened so far is my body practice. I got a lot of blood essence pills from Darius's storage ring. Initially, I haven't touched it. But Mr. Jonathan gave me some pills from his storage ring before getting his body.

I'm beginning to feel my body limit. Eventually in dew days I might get a breakthrough in body cultivation technique. So my trip to this westward city did not end in vain. I don't think I might get the

same opportunity back home. My breakthrough has a lot to do with pills. Fortunately my blood method completely eliminates the impurities in the blood essence pill.

That's why I'm consuming those pills without any worry. The only thing I need to do is to make up for my shortcomings. I need to find suitable movement techniques. It will help me greatly when facing enemies.

Thinking about Crimson Hall's actions, I got chills in my back. Fortunately, I eliminated the threat early. To think Crimson Hall is willing to go so far to eliminate me. I haven't done anything against them except representing Hansen Campus as their representative.

Unfortunately, things are not in my hands. I can only ask Elder's help. But in the future, once I get strong. I will pay back ten fold to Crimson Hall. They need to learn that messing up with the wrong person is not a good idea. I believe Crimson Hall's exhibition is truly going to be dangerous for me. If not for the teacher's instruction. I might have given up my seed representative seat.
