Chapter 269 Relaxing?

(From MC Perspective)

I had a good long conversation with Uncle James. I told him everything about the journey except Darius's case. Uncle James was glad that I got No. 1 Rank at leaderboard. He told me that it will help me improve my qualification during the Saw Scale Viper Academy's admission.

On top of it, He also mentioned once I get into the academy, I don't need to hide my lightning element anymore. I can also have the opportunity to meet my teacher personally. When I heard that I felt adrenaline rushing through my veins.

Is there anyone who doesn't want to flex their power? I can't wait to see the shocking face of everyone when I show my element to the world. There is also my blood method. But for the time being, I don't want anyone to know about my blood element, including my teacher.

Hope I will find blood combat techniques inside the Saw Scale Viper Academy. My combat strength would be increased several times after practicing those techniques.

Then I left his room after having a deep conversation. As I stepped inside my room, I began to contemplate.

So I don't have to worry about my D rank quota. My Performance at Star Tower alone will get me into C or B rank institutions. On top of that, If I perform better at the Crimson Hall event. It will further cement my qualifications.

I breathed in relief realizing that so many things have changed in the past several months. At first we discussed that getting a D rank admission quota is itself a miracle. Countless people were dying to get that D rank quota alone.

Uncle James got for me with his merit points. I'm happy that I didn't disappoint him. Right now, I am one step ahead and my eyes are set on top institutions. Getting into the academy is 100% confirmed. But what grade of the institution I will be getting into is decided by my further performances.

"I'm looking forward to fulfilling my role as Seed Candidate." I mumbled under my breath.

For a moment, I thought it would be better if I got more info about this academy. But Uncle is tight lipped about it. Hmmm, As long as I have enough strength. I can jump out of this well and move to higher places.

Time progresses,

Later, I heard Granny Park was awake. I immediately sprung into her room. After learning about her condition, I sighed in relief. She will recover soon as long as she continues to take her medicine.

I had a light conversation with Granny. Keeping her condition in mind, I didn't mention about those fighting and border tensions at Westword city. We just talked about food and plants. Since, I got two days leave. I decided to accompany Granny Park.

Two days later, Early Morning.

"Beep!" "Beep!" "Beep!"

I woke up after hearing the buzzing alarm. "These two days have been so relaxing. Now, it's time for me to get busy." I muttered as I went to take a bath.

After completing my morning routine. I get ready for Hansen campus. Standing in front of the mirror, I looked at myself. I wore a Red t-shirt, it looked clean and neat. Then I wear a black jacket and black cargo pants. Finally I finished my dressing with black fingerless gloves.

When everything looked fine, I saw the timing on the clock. "There is still some time left for breakfast" I said to myself while looking at the clock. So I decided to wait for a while.

Suddenly, I thought of something.

For the past few days I have been taking care of Granny. So I literally forget about the outside world. Even Elder Thornton and Mr. Arthur didn't disturb me. I wonder what is happening in Westword City Right now.

A deep curiosity rose in my heart, I immediately switched on the virtual screen and immediately connected with news sites.

As the news site was connected, I saw the News anchors talking about the notice released by Star Tower. The notice stated that there will be a press conference held this upcoming weekend. Where Star Tower Management will brief about the entire situation.

My expression turned cold for a moment. I don't know whether they caught the culprit or not. Especially the sign of Crimson Hall's team at the northern border. As I'm pondering it, the news anchor then also mentions about the Leader Board.

I saw an image of me getting out of the Star tower on the screen. "It must be taken by the Star Tower authorities. Were they hoping to divert the news by mentioning about the leaderboard Ranking." I questioned myself. But I don't think so, Elder Thornton highly talked about the Hall Master of Star Tower. So there must be a reason for it.

Then the image of mine changes again. This time the image of me leaving from the Red Stone City's station is being shown on the screen. Seeing that I smiled wryly, I don't know how long they will repeat the same news again.

It's not just me they also reported about the other rank holders. I saw the name of the second rank holder. I don't know what happened to that dude. There is no news of him and his Elder's whereabouts were unknown. But the Star Tower Management didn't mention any death of the top 5 rank holders.

After watching a bit of the news, I switched it off. Initially, I thought the news would die down after a few days. But it's still making news due to Star Tower Management. Shaking my head, I looked at the clock again.

Seeing it's almost time for breakfast, I went downstairs to eat.

Sometimes later,

I left home after having breakfast. Granny Park had made healthy food for us. Instead of enjoying it, my mind is always on today's plan.

I'm going to achieve a Physique breakthrough inside the essence filled chamber. I already got permission and necessary resources from Elder Thornton. So, I'm looking forward to it.
