Chapter 280 Part 1: Brown Cliff Monster Zone

(From MC Perspective)

The Following day,

Zack is having a good conversation with Uncle James and Granny Park while having breakfast.

"Beep" "Beep" "Beep"

Mr. James' communication watch lit up with notification. He accessed the notification to view it. After seeing the content of the message, He smiled.

Then he looks at Zack who is munching down his food silently. "Ahem, Zack. There is good news for you."

"Hmmm" I stopped eating food for a moment and raised my head to see him. My eyes gleamed with expectation.

Seeing Zack's expectation, Granny Park Chuckled. She asked, "What is it, James? "

Mr. James smiled and answered, " A couple of seconds ago, I received approval for Browncliff Monster Zone. It's a Class 2 Monster Zone."

Hearing that I stood up from my seat in joy. "Uncle, is it real? Didn't they ask for any documents of mine?" I asked back in surprise.

Mr. James shook his head and said, "No, Brown Cliff Monster Zones doesn't require much proof to get permission. Only Level 3 and above require strict verification."

Then he looked at him and added further, " Zack, you got permission only for two days. Don't stay in the monster zones during night time."

Granny Park's expression turned solemn, She advised, "Zack, Usually adventures camp at night at the Monster Zones. If you come across any of them, don't trust them easily. If you can, stay away from them as much as possible "

Obviously she had a bad experience with adventurers. Most of the adventurers were criminals. It doesn't matter whether it's a decade ago or now, Nothing changed.

Hearing Granny's solemn expression, I understood the reality. But with my double repair strength, I can contend against the Trainee Warriors. Even in the worst cases, I'm capable of retreating from the battle.

Yet this was my personal secret, both of them were not aware of it. That's why they were troubled. "Don't worry, Granny, I have a sense of measure. I will only hunt in the outer area. "

Hearing Zack's affirmation she breathed in relief. But Mr. James is not easy to fool, He knows it will be a safe trip unless Zack came across Peak Trainee Warrior.

Talking about Peak Trainee Warrior, with their strength they can easily dismantle Class 3 Monsters. So Class 2 Monster Zones were useless to them. He believes there is a very slim possibility of encountering them.

He sighed and answered, "Zack, Improve as much as you can before the Crimson Hall Exhibition event."

A glint flashes before my eyes, hearing Crimson Hall.

"Uncle, Do you have any news about their Exhibition Event? Even Elder Thornton is clueless about it." I asked back hurriedly hoping Uncle would answer me something about it.

Mr. James smiled wryly, He shook his head in denial. "It's not easy to know their plan. I came to know that even some of their acquaintance failed to know about the details"

"This..." I was taken back a little, this means either they are really keeping it tight or nor they really planned about it.

Mr. James commented, "Don't think too much about it. Just focus on this trip for now "

Then he thought about something and advised, "And be aware of Hard Rock Bears, they were widely seen Class 2 Monsters in Brown Cliff Monster Zone"

I nodded and sat back to finish the food on the plate.

After having breakfast, I bid goodbye and made my way towards the train station.

It's been a while since I last ventured into Monster Zones. This time I'm going a little deeper inside the inner area. After sorting out my thoughts, I hopped into an air cab.

Later, I boarded the train to Red Stone City. To reach Brown Cliff Monster Zone, I need to board a train from Red Stone City. The Brown Cliff Monster Zone is also one of the closest Monster Zone from here.

It's situated in Brown Cliff town, where its name is actually derived from. Before I visited the Black Forest Zone, Uncle had applied for the Brown Cliff Monster Zone. At that time I was a beginner so it's hard to get approval. But this time my application is easily passed.

Sighing, I shut my eyes and waited for the train to reach the Red Stony City. I didn't plan on stopping by Hansen Campus. It will delay my time. Since I only have two days, I need to use this opportunity efficiently.

Time progresses,

The train reaches Red Stone City two hours later. I stepped out and walk towards opposite platform to board the next train.

Fortunately, I didn't have to wait for long. After waiting for one hour the train arrived. As usual the train is heavily built, one can see at glance this train is going to stop at the Monster Zone.

The train slowed down its speed and halted after a couple of seconds.

This platform is crowded with adventurers. It's a no-brainer that everyone is going for the same Monster Zone as mine.

For a while no one noticed me. After confirming my coach, I stepped inside and walked towards my seat. Suddenly, I feel numerous gazes on me.

"Hmmm " I was taken back.

"These people" but soon without minding everyone's gazes, I sat in my window seat.

These adventurers might have recognised me. Feeling that I shut my eyes to avoid conversation with them. Like Granny advised, Who knows what their real intentions were? So I didn't plan on meeting them.

Like Zack expected, most of the adventurers recognised Zack at first glance. Especially the adventurer beside Zack, he once again observed closely before confirming it.

He got excited and wanted to strike up a conversation with him. But seeing Zack shutting his eyes he got disappointed. It's rude to wake a person in sleep. So he decided not to wake Zack.

The Coach is occupied with people. Soon the presence of Zack Lockwood spread among them immediately. One by one people went closer to take a look and confirm.
