Chapter 282 Collecting Spoils

(From MC Perspective)

Just as I was inspecting the area, I found a small flickering light in my mind. As I observed it closely, I found it was red. A small smile rose from my lips, seeing that. "It must be Monster" I mumbled under my breath.

Then without waiting much, I dashed towards the location.

"Silver Tooth Boar"

I spotted the wild boar from a distance. Looking at its strength, I knew it's a Initial- Class 1 Monsters. It's not enough to improve my strength but it can fulfill my appetite.

My mouth raised a little, I used the phantom lightning technique to move.

"Wizz " Suddenly, A purple arc flashes for a moment in a zigzag manner.

In a blink of an eye, I reached the top of the boar. Its silver coated back is clearly visible to my eye. The speed was so fast that the boar didn't feel anything.

I swiftly held the black sword and made a slash at its neck.

The Boar suddenly became alarmed. Before it could make any sound, the boar's head fell over. My blade sliced its neck neatly.

Seeing there is not much blood, I smiled. It's been a while since I did such a neat killing. The most important thing in the wild is to avoid as much commotion as possible.

If the battle commotion attracts unwanted guests then it would be troublesome. So this kind of neat killing is very efficient.

I smiled, Before slicing its parts. I used perception again to investigate the area. I breathed in relief as I found there were moving spots.

Soon, I moved. I cut down these overgrown bushes and tree branches to make a temporary space to sit down.

I placed the boar's body in the centre and began to slice down its body parts. A few minutes later, I tasted roasted meat. After munching down the food, I plan to wait here for a while.

Then I packed the leftover meat and placed it in my storage ring.

20 minutes later,

At the centre of the inner area, An adventurers group of three members team involved in robbery and killing. To avoid being chased by other adventurers they went off road and camped at open space available at the inner area.

They were laughing, chatting and counting their spoils.

Suddenly, they heard some footsteps behind them.

Three of them rose from the ground and immediately looked over the area.

"Andrew, Don't hesitate to hack. We need to catch this Monster" The Leader of the team shouts at his companion.

A silhouette appears in front of them from the bush. He is none other than Zack Lockwood.

"Three Special Trainees," I muttered. After leaving behind the empty spot, I tried to find as much open space as possible. It's hard to move through the dense area. But luckily I found these three beforehand through my perception.

I couldn't help but think of Granny Park by looking at their spoils. No wonder, It's easy to loot then fight against monsters and with their strength they must have looted so many peoples.

Since there of them were thieves to avoid commotion, I acted fast. I recited blood method in an instant. The throbbing blood power coursed through my vein. As double repair, I don't see them as a threat at all.

The Leader of the group started seeing the person coming out of the bush. "Rookie " Andrew beside him commented.

The Leader then glanced at Zack's appearance and raised his eyebrows. As he sensed no cultivation base from him, his senses alarmed him. But before he could say something.

The person disappeared in a blink of an eye and appeared in front of his friend. "Andrew!" The Leader screamed and raised his iron hammer against the enemy.

I raised my fist with throbbing power and slammed at the enemy's chest.

"Crack" a muffled sound rang out as the enemy flew backwards like a broken kite and crashed to the ground.

His chest bones were broken like powder leaving behind lifeless corpses.

It happened in the blink of an eye.

Seeing the iron hammer coming towards me, I looked at him in disdain. And drew my black sword to block it.

The last adventurer's thief was so scared, He begin to flee when he saw Andrew's lifeless corpse. He didn't even glance at the condition of the leader.

"Clang" the metallic sound resonated in the area.

I didn't move an inch from my spot. But the enemy staggered a few steps backwards.

The old driver thief looks at Zack in disbelief. "How could it be?" This person appears to be so young but his strength is higher than mine.

Suddenly he thought of someone and shouted, "Thomas!" A cold sweat started to drip from his forehead. As realizes his friend left him all alone.

I smirked seeing his expression, but I'm not interested in any interaction.

Suddenly, I held my sword and yelled,

"Lightning Wheel"

A thunderous sound reverberates the area. As the purple wheel bursting with lightning power formed in an instant.

The Leader was horrified, his iron hammer fell from his hand. Before he could ask for forgiveness.

The purple wheel smashed at his body.

"Bang"

The purple wheel busted in an instant as it came into contact with the body. The explosion shredded his body in pieces, his arms and limbs were torn apart completely.

The Lightning Wheel is improved in accordance with my breakthrough. With an increase in cultivation level, the quantity of pure lightning essence in my dantian also increased.

So it's no surprise to see the aftermath of the lightning wheel.

Without glancing at its corpse, I used my perception to see a fleeing person. The last guy is fleeing frantically, but his speed is limited by the overgrown bushes.

After seeing there are no other adventurers around here. I stored their looted items in my storage ring. Then I immediately removed their corpse and erased the traces for any battle that happened here.

Before going back deep into the area, I need to kill that person. After locating his area, I dashed towards him.
