Chapter 289 Part 1: Return

(From MC Perspective)

Maria was surprised by his words. She looked at Zack and said, "Actually, I'm not in a state to fight. Especially, in this dangerous core area, I don't want to drag you."

I sighed and replied, "Well, Seems like you realised this. I'm not even sure what kind of monster is ahead. It will be dangerous if he got besieged by other monsters."

Maria nodded and asked back, "So, Are you going to continue?"

I smiled and answered, "Let's go back to our home, before it gets to dawn."

Maria smiled like Chrysanthemum, She hadn't expected Zack to drop his plan. is it for her? then shaking her head, she denied her thoughts. She knows about Zack, other than cultivation he doesn't have anything other on his mind. He must be realizes the possibility of danger. So he forfeit his plan.

"Let's go!" I getures her to follow me back slowly. Fortunately, I made a small mark along the way. So it's easy for me to find a way back.

From time to time, I also make sure to see whether any hostile groups are near us. After making sure, we continued our journey.

Along the way, We did stop for a while to rejuvenate.

At this time, Maria asked, "Zack, What do you think about the Crimson Hall Exhibition Event."

"Hmmm" I was taken back.

Why is she asking me? I frowned. But again I heard she is also training diligently under Ms. Key.

"I don't know. Some say this time the event will be different." I said without much expression on my face.

A curious glint flashes in her eyes immediately.

Suddenly, I remembered something and asked back, "Are you going to participate in the Crimson Hall's event?"

Maria stunned but she nodded back to his question.

"This?" No way, I heard even some influential clans can't get their hands on the single seat. The price of the single seat is very expensive. I'm lucky to be part of Hansen Campus, so I got a Seed Position without a cost.

Then her clan must be powerful and rich. Maybe she knows something about the event. Should I ask? I raised my eyebrows.

Well, it doesn't cost me anything, so I asked, "Do you know content of the exhibition event?"

Maria smiled as she expected the answer, she replied, "Sigh, I too have no idea about the event. Major clans actually inquired about this, but it seems like Crimson Hall has not made any preparations yet."

"Did you make any preparations?" I uttered in disbelief. These guys even dare to offend the Star Tower. I thought they had already planned some big movement. But looks like it's not? What is going on actually?

Seeing the conflicted face of Zack, Maria's eyes shone in curiosity. "What is he thinking?" Maria thought to herself.

Then she suddenly realized something, Zack is the seed candidate for our campus. If he knows the details he can prepare himself in advance. Unlike the Star Tower, the Crimson Hall's event has always been a field event. But this time, who knows what they are planning.

When I'm pondering, I spotted red spots near me. I halted my footsteps suddenly and told her to stop. It's impossible to see what they look like in this dense jungle. There are two red spots standing opposite to each other.

I knitted my eyebrows in confusion.

"Zack, What happened?" Maria asked back in confusion.

"Ahem, It's the wrong route. We need to change direction. " I gestured to her to follow me back on a different route.

If I'm alone, I may fight against those monsters. But this is not the right time. Soon their clash will attract the unwanted adventurers.

After changing the route slightly, We made a detour and joined back in the previous route.

Along the way, with the help of my perception. We avoided the Monsters and adventurers.

Time progresses,

Late evening,

"Finally, We reached the exit." I raised my head and saw the main gate.

"I'm really tired" Maria sounded back behind me.

I smiled and together we walk towards the main gate.

Suddenly, I realised something.

Now, My appearance is known by everyone. It would be trouble, If I got surrounded by others.

I turned around and said to Maria, "I'm directly heading towards the station. Are you coming with me?" I feel she wants to freshen up right away after the exit.

If it was me earlier, I would have waited. But right now, I really don't want to get spotted by others.

Maira answered, "huh, I want to go back to my clan and the report the incident to my father"

I nodded and together we exited the main gate. After stepping outside, I saw very few people gathering inside. Obviously, no one wants to enter the Monster Zone at night.

Then we walked towards the air car platform. Fortunately, the area is not crowded. After hopping inside, we told the destination to the driver.

The air car slowly rose in the air and then flew towards the train station direction.

Fortunately, it was morning and the scenario might be different.

A few minutes later,

The air car slowly lands on the platform near the station.

It's surprising that Maria didn't talk too much. Looks like the grief of her classmate's loss finally gets to her.

Sighing, I too didn't engage in any conversation.

We stepped out of the air car and slowly headed towards the platform. I actually booked a return ticket for tomorrow but due to changes in plan right now, it's difficult to get a seat.

While walking, Maria accessed the train booking site. She also has the same worry like Zack. If they don't get a ticket, they have to spend the entire day here.

A few minutes later,

We got two seats on the next train. I didn't even expect Maria to act faster than me. She booked tickets even before I had asked.

Since we booked tickets, we choose a place to sit down and relax.

"Zack, What is your elemental ability?" Maria suddenly raised a question, when they two just sat down to relax.
