Chapter 290 Part 2: Return

Just as I thought, I will get some shut. Maria's sudden questioning made me stunned. Sure, she caught the anomaly. But without showing much expression on my face.

"Ha..Ha..Ha.." I let out a small laughter.

I chuckled and said, "How can you forget? I had already told you before that I'm a Fire element Warrior."

"Is it?" Maira furrows her eyebrows in confusion. But as far as she remembers there is no such a thing.

Then she asked back again, " Then why didn't you use it during the battle?"

"This woman?" I massaged my temple by hearing her words.

"Are you dumb or what? How can fire element contend against the earth element?" I said with a smile.

Maria displeased by hearinh dumb. She snorts back and chooses to remain in silence, until the train comes back.

I sighed in relief by her behavior. Thank goodness, if she continues to ask me it will irritate me further.

Time progresses,

The train for Red Stone City arrives in time. Seeing that both of us stood from our seats and went to board.

After sitting back in our seats, we still didn't talk to each other.

But my mind is on something else, I hope no one recognises me until I get home.

My whole being got relaxed after getting into the train. Monster Zones were not simple. Whether it's a small one or big one.

Talking about Monster Zones, This time my hauls were not fruitful. I thought about reaching the heart of the core area but it ended in failure.

I sighed in heart, I don't know when I will get my next opportunity. Looks like I need to ask Uncle again, then next moment I denied this plan.

Instead of troubling Uncle, I will ask for Elder Thornton's help. As a Chairman of Hansen Campus, he has an obligation to fulfill my request. I begin to hatch good plans in my mind.

At the same time, the trains depart to Red Stone City slowly.

Maria Frazier also immersed in her own world. Both of them slowly begin to shut their eyes at one point.

Time progresses,

Several hours later,

The train arrives at the Red Stone City station. Both of them opened their eyes after hearing the announcement.

After stepping outside, I turned towards Maria and asked, "Can I tell Elder Thornton about this?"

Maria also Hansen Campus's student. If something happens to her, then it will certainly cause some damage to campus.

Maira halted our footsteps, She commented, "It doesn't matter. Usually, Warrior's from Clan will go for such Monster Zone. Not everyone relies on campus for cultivation." She said with somewhat anger.

Is she talking about me? I frowned but I didn't talk back. We parted our ways after getting out of the train station. Instead of going home, I plan to meet Elder Thornton at this time.

Soon, I saw an air cab landing near me. I hurried my footsteps to hop in.

After getting in, I told the destination to the driver. The next moment, the air car slowly moved upwards and then it flew towards our destination.

A few minutes later,

I walked back into our campus. Few students walking along the corridor noticed my appearance. They immediately ran towards me.

"This?" Another headache, I swiftly used my leg technique to disappear from the spot.

The students who reached the spot at that time sighed in disappointment.

In a few breaths, I came in front of Mr. Arthur's cabin and knocked on the door.

"Creak" the door slid open.

I stepped in and saw Mr. Arthur behind his desk.

Seeing the appearance of Zack, Mr. Arthur commented in surprise, " I thought you will spend more time in Monster Zone."

I sat in the opposite seat and answered, " There were some unexpected changes."

"Hmmm" Mr. Arthur raised his eyebrows in confusion.

Then he suddenly enlightened, "Don't tell me your fans didn't let you go?" Mr. Arthur said with a laugh.

"Coughed"

"Ahem, I met Ms. Maria in core area." I said.

"What? You went to the core area. Are you mad?" Mr. Arthur suddenly exclaimed in disbelief. He had never expected him to be so daring.

Without waiting for Zack to reply. Mr. Arthur advised further, "Don't you know there were more fierce monsters living inside the core area. Even the expected adventurers would think twice before venturing into their lair. "

Hearing his advice, I couldn't help but curse myself, "I shouldn't have told him."

After advising, Mr. Arthur observes Zack's expression less face. He was surprised and asked, "What happened?"

You should have asked me this first, I sighed and answered, "Mr. Arthur, This BrownCliff Monster Zone is really weird. I didn't came across any monster until I fought at inner Zone "

Then without stopping I added, "And It was then, I met Ms. Maria. She was with her two clan members. Three of them were fighting against the pack of wolves.

Unfortunately two of them died due to a sudden attack by the Monsters. Fortunately, I came in time and was able to save her in the end."

By hearing Zack's words. Mr. Arthur is not surprised by hearing Maria's own trip. It's common for clans to organize such a trip for their descendants.

Right now he is happy knowing that she is doing fine.

Then Mr. Arthur also ponders about Zack's experience. "It's really strange." He uttered.

Then he looked at Zack and said, " Well, I guess, it must be your bad luck this time. As far as I know, Only Peak Monsters choose to live in the core area and other Mid level monsters live in the inner area in larger numbers. "

He continues to say, "Since this trip is not fruitful. What do you plan to do next?"

Finally, Mr. Arthur reaches the point.

I smiled and answered, " Mr. Arthur, I would like to go to another Monster Zone."

"Monster Zone?" Mr. Arthur uttered, but next moment he realized that Zack didn't gain any experience this time. So he wants to visit other Zones.
