Chapter 294 Crimson Hall's Sudden Change Of Fortune

Crimson Hall- Meeting Room,

Grand Elder Chris once again came out of his seclusion for another important meeting. Unlike last time, this time Grand Elder Chris only asked for First Elder Casey's presence.

He doesn't want other Elders to know about this meeting.

"Creak" the door slid opens

First Elder Casey stepped inside the meeting room. Upon seeing Grand Elder was waiting for him, he hurriedly went forward and greeted him. "Grand Elder!"

To that Grand Elder Chris just gestures to him to take a seat without minding his etiquette.

Next moment, First Elder Casey takes first seat beside the main seat. Ever since the last meeting, he has tried to come up with various solutions for the exhibition event.

There were two things for it, he wanted their event to be a great one. At the same time he wants Grand Elder to recognise him again. From the last meeting, he knows that he had disappointed the Grand Elder greatly due to his poor handling of the Star Tower situations.

But unfortunately, things were not going well for him. The Star Tower is trying to make a big move. People had already guessed the reason behind this. Ever since he heard about it he couldn't sleep well at night. He just hopes that Star Tower won't come across anything concrete.

The other hand, Grand Elder Chris notices the worry-filled face of the first Elder. He gazed at him from his old eyes, yet he can easily see through his thoughts.

Shaking his head slightly, Grand Elder asked, "What now?"

He is not used to this new Casey. "What happened to the boy who is always calm and composed?" Grand Elder said in his heart.

"This?" First Elder Casey hesitated a bit to answer. Then he calmed down his heart then commented, "The Star Tower is planning to do something."

He doesn't need to explain it further,

Grand Elder Chris already understood the crux of the matter. He looked at the First Elder with a frowning face and said, "The Star Tower won't act on us unless there is solid evidence."

First Elder nodded to that, he is patiently listening to Grand Elder to know what he has to say.

The Grand Elder Chris added further, "Right now, We need to focus on our event. Even if they have something they won't come at this point of time, they will wait until the recruitment is over. So you can relax"

Finally, the First Elder sighed in relief. All he needed was some time to freely think about the plan. Right now his mind is occupied with different issues, he can't focus on one.

"Thank you, Grand Elder, for your words!" The First Elder said.

Grand Elder nodded and said, "Right now, I asked you to come here because of one thing. I don't know whether it's your luck or what, someone has proposed the same thing as you said to me in the last meeting."

First Elder complexion turns solemn.

He had never expected such a turn over. If what Grand Elder is talking about is Monster Zone, then it is a seriously good thing for him.

After a long time he had heard something positive. He smiled and asked, "What is it? Grand Elder"

"This time warriors are going to fight in the Monster Zone. It really is surprising that this notion is proposed by someone from the Academy side, not from any of the factions." Grand Elder said with a smile.

"How is it possible?" The First Elder exclaimed in surprise. He thought those Academic people were arrogant; they had never put a fraction in their eyes. But what changed now? With a bewildered expression he looked at the Grand Elder.

Grand Elder chuckled, "Do you really think competition exists only among Factions and Clans?"

Then he added, "There is also severe competition among the academies. This time I heard it was very serious. So now everyone wants to recruit good seedlings at the cost of a high death rate."

First Elder eyes gleamed with surprise. He hurriedly asked back, "Grand Elder, What about Monster Zones? Is it decided or what?"

Grand Elder smiled and said, "Well, The decision is up to us. They had talked about their need. We only need to fulfill them. That's why I called you here. Not only us particularly, It was same for other regions. So you need to hurry up and contact the official to register the Good Monster Zone for event. Otherwise it will be robbed by other regions."

First Elder smiled and answered, "Grand Elder, Don't worry, I had already contacted some. But I just need confirmation from you. After the meeting, I'll arrange a good monster zone to filter good seedlings" His eyes gleamed with delight, but he didn't care if everyone died in the monster zone.

Since People from the Academy have spoken about it, he doesn't need to worry about anything. He was all smiles now but before coming here his mood was a little bit low.

Now it changes drastically, "Those who were against the Crimson Hall, should be ready to grief the death of their descendants. Because none of them will return alive." He made a good calculation in his heart.

Then they talked about a few other things before the meeting came to an end. After instructing the First Elder the Grand Elder again went back to the seclusion.

On contrary, the First Elder didn't leave the meeting room. Since he had received head up from the Grand Elder. He needs to make a few calls to register for their event. Before doing that he accessed the map of their region to spot various monster zones.

Usually, Class 2 Monster Zones were threshold. But he was interested in Class 3 one. If any of them see the First Elder's thoughts, they would be scared sh!t. Because none of them could return alive from the clutches of Class 3 Monster Zones.

A hologram map view hovers above his scifi watch. Earlier, he had already marked potential places. But this time, he directly views the dangerous Monster Zones in their region. There are only a few they can count on fingers.
