Chapter 296 Capturing Night Cat?

(From MC Perspective)

"Clang"

At the last moment, I used my black sword to block the attack. The black silhouette staggered backwards due to the collision.

Seeing the sudden appearance of Zack Lockwood in front of her Claire Walton was shocked. Then her gaze net shifted to the black silhouette. The night atmosphere also makes it hard for her to identify.

"Night Cat- Class 1 Monster"

Though it's dark, I can easily see through its appearance using my perception. But this type of Monster's growth stops at Class 1. Their bloodline is so thin, they won't level up.

After knowing the monster, my killing intention fades away. Using these type of cat monsters were kept as pet by high level warriors. Instead of killing it, I can earn more money by selling it.

My lips rose a little while thinking about it. Since it's a really good plan, I didn't hesitate anymore. I disappeared from my spot and went to capture it.

Claire Walton is really clueless of what is happening around her.

Seeing that Zack went to chase it away. She smiled and let go of her worries. Class 1 Monsters won't pose a threat to Star Tower Ranker.

A few seconds gone by,

I knocked down the night cat and fed it with some sleeping pills. Next moment, I wonder how to take the monster from here.

I glanced at my storage ring, this storage ring is given by the master. I don't know whether any living things can be placed in it. In curiosity, I actually tried to place the night cat in a storage ring.

But it ended in failure, "Sure, It's not easy to place living things inside the storage ring. I wonder, ``Where can I buy such a ring?" I muttered to myself.

This also means even the storage ring provided by the master is not enough. Shaking my head, I proceed to do the next things. I can only keep the monster on my side.

The night cat is really small, it can easily be placed on my lap. I held the Black sword in one hand and with the other. I carried the Little Night cat back to my tent.

At this time, a still thunderous sound resonated throughout the dark clouds.

I'm completely drenched in rain, it's better to go back fast and change clothes. I used my league technique to move towards the tent.

In a few breaths, I reached my tent. But the girl was sitting in a tent and saw my arrival. Seeing the night cat in my hand, she walked out the tent in curiosity.

"Wow, what a cutie! " Claire Walton cried out in surprise.

"Where did you find such a beautiful night cat? And what about the monster that attacked me." She asked back again, While looking at the cute little cat.

I twitched, "what cutie? If she knows this is a Class 1 Monster. I wonder how she will react"

"Cough"

"Okay, Go back to your tent and don't cause any trouble." After saying that I went to my tent with my cat.

Claire Walton is stunned and she looks speechless for a moment. This guy is really cold, she almost scolds herself for her behavior right now. She should have minded her own business.

She pouted and went back to her tent again. She had already formed an idea of getting the night cat from Zack's tent. But his cold behavior makes her hard to ask.

Time progresses,

Later there was no monster attack throughout the night. Even the heavy rain stopped after a couple of hours. Both Zack and Claire fell asleep in their own tent.

Next Morning,

I woke up a bit earlier, I plan to move the camping tent in a few hours. Instead of rushing out to see outside. I used my perception to check the surroundings again, including Claire's tent.

I know it's kind of rude to check her tent. But I'm going to cultivate it right now. So it's necessary to make safety precautions. I wasted an entire day yesterday.

Today I got only a few hours to practise. Later, I will leave this place in the afternoon. Elder Thornton might have returned from his trip. Though Mr. Arthur didn't agree to my request, I hope he must have discussed it with Elder Thornton.

I'm looking forward to his answer once I get back. Shaking my head, I retracted my mind from there thoughts and focussed on cultivation. I sat cross legged and slowly try to sense the rich lightning energy around the surroundings.

Time progresses,

One by one lightning energy fell on my body and they were finally observed by me and settled back in dantian.

Even Though the final product is not high in quantity. But its little quality enough, certainly this place is good for lightning cultivation. I often spend more time in cultivation at home to store little essence back in dantian.

Time went by,

2 hours later,

Claire also woke up, when she opened her eyes it was already a bright morning. She enjoyed her camping experience last night. She wasn't disappointed by the sudden downpour of rain. But rather she enjoyed it.

Except for her cold neighbour everything is fine. She walked out the tent and enjoyed the morning sunlight and fresh air. After standing still and bathing in sunlight for a few minutes, she returned back.

Seeing that Zack's tent is still closed. She thought, "Zack told me that he will find a new camping site today. Is he really going to shift?"

"What a hassle!" She uttered.

"Hmmm" I noticed the neighbour girl is awake and it's time to stop cultivation. I was so immersed in Cultivation that I even forgot the surroundings.

It's good that her eyesight is poor. She can't even recognise the night cat, then how she can notice subtle world energy around here.

Talking about the night cat, I hurriedly checked the condition of the cat. I had fed it with a warrior pill, I don't know whether it's effective on monsters or not. But as far as I know one sleeping pill is enough to knock down a warrior for 6 hours. But the night cat is still sleeping.
