Chapter 297 Selling Night Cat?

(From MC Perspective)

Mt. Liz,

Seeing the little night cat sleeping, I didn't disturb it. But I don't know what to do, if it wakes up. Not every time I can knock it unconscious. I held my chin in contemplation. Suddenly, an idea popped up in my bed.

If the neighbour girl has any solution for it, then it will be good. Otherwise, I can only leave it back here. Sighing, he got up and walked out of the tent.

The girl is still standing outside, I thought she got back to her tent earlier. Shaking my head, I walked towards her.

Upon noticing my presence the girl was surprised and asked, "Hey, did you take any wrong medicine?"

I twitched, if not for the expensive night cat I wouldn't need her help.

"Ahem, Well! You can see I caught a night cat yesterday. But I don't have any suitable artifact to put on its neck. So I wonder whether you got any rope-like artifact." I said with an expressionless face.

The girl looked at me in amazement. Wait a second! What is her name? When I thought about it, I still don't recall the girl's name. Did she introduce herself yesterday?

Claire Walton stupefied for a moment, she didn't know what to say. She wondered how he got a sudden change of heart. But the next second, she thought about his words. She also noticed that cute little night cat yesterday.

"Huh, I thought about touching a cute little cat. But he didn't allow me yesterday." She thought to herself.

Next second, I asked, "Ahem, Well! What is your name again?"

"What?" She stupefied again, this guy really didn't listen her words yesterday.

She touched her forehead and answered, "I'm Claire Walton, Trainee Apprentice Earth Elemental Warrior."

"Okay, Ms. Claire." I said.

By looking at Zack's reaction she nodded and added, "Well, I do have one pet back home. I don't have any artifacts in my hand right now. But I still have some of its pills in my storage ring."

After saying that she begins to check her stock. It was rare for someone to ask her help, but this time it's Star Tower Ranker. If words get out, she doesn't know how many people will be jealous about it.

I sighed in relief at her words. Well, it's too much to ask about artifacts. But I'm glad that she has pet pills in her hands rights now. Which is enough for the cat, until the train reaches the Red Stone City.

Then I looked at her. I wondered what she would ask me in return. I do have some monster cores and essence pills in my storage ring. I think it's worth it compared to the pet pills.

Soon, as expected, she takes a few pill bottles from her storage ring.

By looking at Zack she handed it right away.

"Ms. Claire, I heard that pet pills were usually expensive." While asking, I grabbed pill bottles from her hand.

These pills were colorful. One bottle has blue colored pills in it while the other has brown pills.

Seeing Zack's reaction, Ms. Claire answered, " Yeah, Pet Pills were really expensive. Because not many monsters can be kept as pets. Unlike humans, each monster has a different Physique. So some of the pet pills were exclusively made."

Her words made me realise about pets. "So, the night cat is going to be very expensive" I laughed in my heart. It's been months since I made such a good deal.

Usually I trade monster cores to make money, but this pet business is really promising. In future, If I come across a chance like this. I mustn't lose.

Claire observed Zack's behavior. From the beginning to end, He seems like he has concerns about the night cat.

She asked by looking at him, "What are you going to exchange with my pet pills?"

Her words brought me back to reality. Sure, there are no free meals in this world.

"Ahem, I have some blood essence Pills. I wonder if it's enough to cover its cost." I replied.

Blood essence pills were really expensive. It's more expensive than healing pills. I don't think it's costlier than the pet pills. But the next moment, My expression changes by seeing her smirk.

When Zack said that, Claire Walton had already made up her mind to somehow buy a night cat from his hand. Unlike Zack she really knows a lot about pets.

This night cat has a separate market. Various calculations ran through her mind and finally she commented, "No, I don't want pills. I want to buy this night cat."

"This?" I'm stunned, well I should have expected this from her. Since yesterday she had an eye on the night cat.

I sighed and asked, "I have an idea about selling it, but it's too early. " After saying that I really waited for to change her mind.

By hearing Zack's words, Claire didn't want to let it go. Since he had the idea about selling it, she needs to close the deal right away.

She asked, "Make a price. I'll pay for it."

"Hmmm" Her words really surprised me. Maybe she is second generation rich. If it's true then, it makes me regret thinking about my earlier reaction towards her.

But the point here is I don't know the worth of a night cat. Then I thought about the sites. Let's see whether there is any post about it.

I opened the alliance network in sci-fi watch. It's really hard to get access in Mountain Liz. But let's see whether the server is working or not.

Zack's actions were easily seen through by Claire. Like Zack, as suspected Claire is really wealthy as old rich but not as a new rich.

She knows Night cat worth is estimated at 60,000 credit points in her city, which is Tier-7 City. In this part of Tier-8 cities she hasn't seen someone with pets so far. So it's understandable that their knowledge is a bit poor regarding pets.

If Zack wants money she can pay it right away.
