Chapter 298 Grade 4 - Vine?

(From MC Perspective)

Soon, I found the normal worth of the monster pets from the sites. It's around somewhere between 10,000 - 20,000 credit points. By reading such an amount, I sucked cold breath. It's really such a lucrative business.

But still there is no news about the night cat's description. The night cat is more expensive than common pet monsters. I bet it must be around somewhat 35,000 credit points.

Since Ms. Claire knows about the real worth. It's better not to open my mouth. I need to hear the real value of the night cat from her. I glanced at her smiling face, which gave me an uneasy feeling.

This girl is not simple. She still didn't disclose her background. Which is also suspicious. Shaking my head, I put behind suspicious thoughts. Right now what I most need is resources.

The resources I got from treasure list is good. But they are not higher qualities, most pills were in low quality comparing to Star Tower rewards. Which is also source of my dissatisfaction. I still didn't even consume some of the rewards.

I sighed, let's see if she has some good pills in her hands to exchange.

Then I raised my head and commented, "Ms. Claire, instead of credit points. I want you to pay me with some good pills."

After saying that I looked at her expression. If she is really a second generation rich, then she must have some good pills in her hands.

My eyes gleamed with expectation.

Ms. Claire Walton wasn't surprised by Zack's request.

She predicted this would happen a few minutes ago.

You need some advance level access to search about night cat and others. Only the citizens in advance level city has such privilege. But she didn't reveal to Zack about it.

She would have told him, if he had behaved better towards her.

Shaking her head, She seeped consciousness into her storage ring. In her storage ring, Like Zack predicted there were precious pills. Which her family gave her for cultivation.

1. Blood essence pill, 2.Healing pills, 3.Earth energy pill, and some precious herbs.

She knows the night cat's worth around 60,000 credit points. She contemplates for a while. Whether to give him all of her pills or not.

Obviously, she can't exchange every pill. Otherwise her family would reprimand her. Her expression frowns a little by thinking about it.

She then turned towards Zack and asked, "By the way, what is your element?"

Her question brought me back to reality.

"Elemental Pills?" I muttered.

She has elemental Pills in her hand, which is very rare. Elemental Pills were created using multiple rare precious herbs. No doubt she is really second generation rich. It's hard to find even ingredients of such pills these days.

For a moment, my expectations rose. I know it's stupid to dream about lightning element. But I'm thinking about the other two elements in my body. Healing element and Blood element.

It's impossible to ask her about the lightning element pill. But I can inquire about the healing element.

Perceiving her gaze, I coughed and replied, "I'm a Fire elemental Warrior."

By hearing my words, there is no change in her expression. She just nodded to my words. Most of our region is dominated by Fire and Earth Elemental forces except a few clans and families.

When comes to water element, I can only think about Maria Frazier. Thinking about Maria, I wonder what is she up to now? It's a pity, she lost two clan members. I hope her family won't be too harsh on her.

While Zack was in his own world. Maria seems to check her storage ring again. It's not about Pills but some of her herbs have fire attributes.

After confirming a few fire attributes mountain her herbs she smiled and commented, "Well, I have few fire attributes herbs. Do you want it?"

"Hmmm" I was taken back a little. But suddenly I smiled wryly by thinking about the fire element.

"Ahem, Ms. Claire, I know it's kind of rude. But can you tell me about the pills and herbs in your storage ring." I said with some hesitation.

This girl admires me, I hope she won't get angry.

The other hand, Ms. Claire observes Zack in a strange gaze. But again recalling his polite request she nodded and told about the pills and herbs in her hand.

At first my reaction was not so great, because I really felt bad. Because pills in her hands were at least of middle grades. Most of them were tailor made for earth elemental ability.

This is the first time I met with someone having elemental pills. Then my expression changes little when she begins to talk about herbs. Because few of the herbs were new to me.

Finally, Ms. Claire ended the topic with last herb, " Blood Cleansing Vine"

My complexion becomes solemn by hearing the last herb. "Blood Cleansing!" I uttered. It's easy to infer the usage of the herb from its name.

Then I hurriedly looked at her and asked, "Can you tell me about the Blood Cleansing Vine?"

This time Ms. Claire was actually surprised. Because earlier she found him being uninterested in her pills. Yet now he is asking about this strange plant.

If not for her Grandfather's birthday, she wouldn't have purchased it in the first place. But anyway since Zack wants to know about it she answered, "Blood Cleansing Vine. You can easily understand its name. It's a grade 4 plant, which is used to cleanse impurities in the blood."

Then she saw Zack's expectation, she nodded and added further, "This Vine is used by mostly bloodline warriors and old age peoples. But unfortunately, You can't consume it directly. If someone wants to cleanse their blood, they need to consume a blood cleansing pill for it. This Vine is one of the ingredients for the pill."

After saying that she looked at Zack again, but he is showing the same enthusiasm again. Upon seeing that, She unconsciously blurted out, "Do you want this Vine?"

By hearing her words, I nodded immediately. What are you talking about ? This precious plant belongs to the Grade 4 category. Who doesn't want it? Then I revealed a bright smile.
