Chapter 311 Putting An End To The Bear Monster

(From MC Perspective)

Brown Armoured Earth Bear- Initial Class 2 Monster.

When my fist landed at its chest armour.

"Boom" a deafening sound reverberated in the area.

The Bear Monster's defense is almost perfect. My causal fist attack has no effect on the monster. It didn't even flinch.

I move backwards to make some distance to fight again.

The Bear Monster is completely dumbstruck, the monster surprised that its attack didn't even touch me, instead I'm the one who made a successful blow to the monster.

"Roar"

The Bear monster roared looking at above, there is nothing but dome structure ceiling there.

Next second,

The monster turned towards me, its eyes looked fierce. I can see it's completely pissed off. Various ideas come to mind, I need to find a weak spot to attack it as quickly as possible.

Again, I used the leg technique to evade its attacks.

I can use lightning essence, but I don't want to waste it on movement technique. It's better to use a lightning attack move.

Time progresses,

Soon, I found its weak spot using my perceptual ability.

There is no armor like defense skin in its neck region.

While Zack was battling, inside the control room, Elder Thornton leisurely sat in his seat & monitoring the data.

"It's been 10 minutes. What is he doing?" Elder Thornton grunted.

Elder Thornton has a vague idea about Zack's power.

During the Star Tower Competition, he knows Zack had a breakthrough. Otherwise it's impossible for him to succeed.

But here looking at the data on the screen, he doesn't know why he is taking so much time to kill the monster.

A quick glint flashes in Elder's eyes as he feels Zack is as mysterious as his teacher.

Inside the dome,

As I confirmed the weak spot of the monster. Next moment, I didn't hesitate to try the sword move on it.

When I reached very close to the monster, I raised my black sword and swung at its neck region.

The bear Monster's size is so huge that I had to use leg technique to leap forward to reach the spot.

"Clang" a metallic sound resonated in the area.

I got dumbstruck by the sound, next second I leaped backward to escape from Monster's paw swing.

Just as I move from the spot, a monster's huge paw tears through the air.

If I had wasted one more second behind its back, it's possible to be heavily hit by the monster.

But one good thing, I find its neck region is not as hard as other parts.

It's impossible to penetrate with a blade by the just casual swing of the sword.

Sword Divide attack is a suitable one to target its neck part.

Unlike before, my proficiency in the skill has greatly improved over the weeks.

As I activated the attack, I poured a flood of lightning essence to the black sword.

Soon, the sword lit up the purple lightning.

It all happened in the blink of an eye.

I doubt if I were to launch the sword divide from here, it's quite possible for that bear monster to escape from the brunt.

Even if it's slightly missed, lightning attack would have landed on its armour like body. Which in turn will have no effect on the monster.

Next Second, I burst out with a break necking speed by using lightning phantom technique.

"Sword Divide"

In a few breaths, I reached the back of the bewildered monster and released the gathered lightning power stored in my sword.

A thunderous blast of lightning power reaches the bear monster's neck region in a blink of an eye.

"Bang"

The neck region of the monster was torn apart by the heavy blow caused by a burst of lightning power.

"rwwa rrrrrrrr"

While roaring with agonizing pain, the monster stumbles back and falls on the ground.

Dark blood spurted out from its neck part & the central platform splattered with blood.

Seeing the huge body of the monster flattened on the ground.

I smiled, this is a good opportunity to end its life before it makes unnecessary moves.

Next second, I reached its body in a few breaths.

Again, I made another swing to serve its gigantic head.

"Pffff"

The blade penetrated further deep inside and finally made a cut by severing the head from its body.

"Phew"

"That was easy!"

The battle ended in a few minutes just after finding its weak spot. If not for the weak spot, I would have wasted my energy & time by fighting blindly.

Just as the vitality in the Monster's body comes to an end. The sensors installed in the dome ceiling pick up the signals.

Soon another monster will appear in a few minutes.

I know the sensor will pick-up the signals. I don't want to waste my time on slicing its body & storing it in a container. Who knows what monster might pop up in the next second?

So I moved forward and dragged its gigantic body away from the central platform. I will later place it in my storage ring after dissecting its body.

"Such a colossal bear, phew!" I grunted while dragging away the monster.

Outside,

Ms. Key going towards Mr. Arthur's cabin. It's been a long time since she saw Zack on the Hansen campus.

Every time Zack visited here after Star Tower, Ms. Key wasn't able to meet him due to some other work.

But now she has some free time, she is ready to meet Zack.

"Creak" the door opens.

Ms. Key stepped inside, upon seeing her Mr. Arthur said, "What are you doing here?"

Ms. Key reveals a small smile & sits in the opposite seat.

"Zack wasn't picking up the call. I doubt you know something about it." Ms. Key said with a smile.

Mr. Arthur nodded and said, " Yeah, I just received a message from Elder Thornton."

Then looking at her he added, " Zack is taking a new blood kill test."

Ms. Key was stunned and asked, "isn't it any different from Star Tower?"

She thought what difference would it make by fighting against low level Monsters?

Shaking his head, Mr. Arthur commented, " I don't think Elder Thornton only captured Class 2 Peak Monsters. There might be Class 3 Monsters."

Ms. Key dumbfounded, "How could be?" She asked. To fight Class 3 Monsters, a Warrior needs the strength of at least Trainee Warrior.

Mr. Arthur smiled wryly, from the beginning he was clueless about Zack's actual strength. He also underestimated the competition of Star Tower.

Chapter 312 Odyssey Zone, A Trouble?

While Zack Lockwood was busy undergoing a blood kill test, new developments were taking place in Crimson Hall.

After selecting the place for the event, the First Elder from the Crimson Hall is making some other plans.

At the same time, far away from this barren outpost, Zack's teacher, Mr. Lowell McClain, is having a discussion with his servant, Jonathan.

Inside Mr. Lowell McClain's study room,

"Jonathan, Did you find out? What is Crimson Hall up to these days? Sir Lowell McClain asked with interest.

Sir. Lowell McClain is already planning to go there and watch the event. The first thing he wanted to see was Zack's performance. If he succeeds, he plans to meet him in person.

But Crimson Hall's movements have been vague lately. Mr. Lowell McClain was not sure about their intention. So he asked Jonathan for an answer.

Mr. Jonathan, who is standing in front of him, is quite surprised. He knew his master had made up his mind to visit outpost 1012. But it's easier said than done.

Even if his master enters the land somehow, there are going to be a lot of eyes in the dark. If there is a slight fluctuation in power, it will be noticed by others.

Mr. Jonathan sighed inside. He still dared not question his master. Maybe he had already sorted it through.

So when talking about Crimson Hall, looking at his master, Mr. Jonathan replied, "Master, from our sources." I received some information. "

"Oh, tell me about it," Sir Lowell McClain said. He raised his eyebrows in interest.

Even Sir Lowell McClain was quite surprised by their activities.

From the Killing List to the latest event, this little crimson hall is involved in a lot of shady things. In his opinion, it's better to remove such an organisation before it causes a lot of damage.

Mr. Jonathan raised his head to answer, "Master, According to the latest information, an official from Crimson Hall was last spotted in the Odyssey Monster Zone"

"Odyssey?" Sir, Lowell McClain asked back. He is not aware of the barren land's monster zone. In his eyes, those monsters are comparable to ants.

Mr. Jonathan smiled wryly. He knew it was nothing when it came to his master's standards.

Since his master has no knowledge about the barren land, he replied, "Master, the Odyssey Monster Zone is used to keep rare mutation monsters under watch."

A quick glint flashes in Sir Lowell McClain's eyes. He guessed something. With a smile, he asked back, "Then, what happened?"

Mr. Jonathan answered, "Master, it's hard to know what transpired in their meeting." But one of our spies saw them taking a tour of the monster zone. "

2/3/ Sir.Lowell McClain has a vague feeling in his heart that this Odyssey location might be their competition site.

Looking at Jonathan, he ordered, "Find out what happened in the meeting." I guess this zone might be their event location. "

Mr. Jonathan was stunned, "No way."

He knows the Odyssey zone is a special zone. It is kept for other purposes. especially for research. Some rare monsters were kept for observation.

These mutation monsters were inherently more bloodthirsty than others. If this monster zone is selected for their competition, then there would be lots of bloodshed.

Thinking about the blood drained from Jonathan's face

"Master?" Mr. Jonathan said.

Sir Lowell McClain sighed and said, "If it's true, then it can't be stopped. Don't forget, we can't interfere in their affairs. At the end of the day, I can only save Zack"

Mr. Jonathan understands his master's words. The majority of the population don't know there is a wider world outside of their outpost. They are all purposefully kept in the dark.

If people were aware of such news, it would lead to a lot of chaos.

Shaking his head, Mr. Jonathan asked, "Master, then why don't you stop Zack from participating in it?"

Sir Lowell McClain said with a smile, "You still underestimate him after his splendid performance at the Star Tower."

Then Sir Lowell McClain added further, "Right now, I bet his strength has increased further." So, there is going to be no life-threatening situation inside the monster zone. All I can do is to save him from certain factions' backhands. "

"Besides, I already told him that this event is a test for him. If he succeeds, I will formally select him as my disciple. "

Mr. Jonathan sighed inwardly. He only hoped for Zack to pass this hurdle. Then Mr. Jonathan thought about Zack's worry. Now, he realises what backhands are meant by the master.

Obviously, there are going to be some forces that might show an interest in Zack. As a lightning warrior with top talent, Zack will be sure to attract a lot of attention once he displays his powers publicly.

He also knew his master had already given the green signal to Zack. Zack can use his lightning element in Crimon Hall's event.

Then both of them discussed other situations before Mr. Jonathan left his master's study room...

(From the MC's point of view)

Hansen Campus,

Underground Battle Arena,

This bear monster doesn't even pose a threat. I hope that Elder Thornton will send more challenging monsters for dueling.

In the control room,

Elder Thornton has a bewildered expression on his face looking at the signals. which show Zack has successfully cleared the blood kill test.

"How could it be?" Elder Thornton is taken back.

He knows, unlike other monsters, this bear monster has terrible defences. He wants to know how he killed the monster.

"Damn, boy. If not for my position, I would have opened this underground arena already to see." Elder Thornton said, with frustration.

After Zack's star tower performance, he wants to see his duel in person. His curiosity about Zack's ability is further increased.

Elder Thornton had guessed something in his heart. In his opinion, Zack's teacher has given some powerful techniques. That's why this brat is performing well.

If not for his powerful teacher, Elder Thornton would have asked him directly.

Next, he retracted his thoughts. Now he needs to send another monster for Zack to fight.

He pressed a certain button in the control room. This time, Zack is going to face a tough monster.

Chapter 313 Violet Horned Snake

(From MC's POV)

Hansen Campus, underground battle platform.

As the "X" marked door begins to open,

A huge violet-colored snake leaped forward to land on the battle platform.

Seeing the appearance of the monster, I finally recognised it.

Violet Horned Snake-Class 2 Mid-level Monster

Fighting against snake monsters is not something new to me. But I have to be cautious of its poison every time.

Just as I was figuring out the battle plan, the Violet Horned Snake hissed upon seeing me.

I realised that, like any other monster, it is in a belief that I am its prey.

Next, the snake monster moved fast towards Zack. It wants to gulp down its prey in one bite.

I activated my perception to watch the snake's movements clearly. I gripped my black sword tight. I decided to test its scale.

Just as the snake inched closer towards me, I stepped enough to evade its fangs. At the same time, I swing my sword at the back of its head.

"Clang"

A metallic collision sound resonates in the area.

A flicker of interest flashes in my eyes. As expected of mid-level monsters, they're quite sturdier than initial level monsters.

After the collision, I moved away from the spot.

The snake monster got startled after seeing the prey escape from its fangs. It got me completely enraged.

It swung its long tail against Zack as he moved away from the previous spot.

I perceive a giant tail coming towards me under my perception. At that moment, I didn't hesitate anymore.

My legs were covered completely in lightning energy right away.

And I disappeared from the spot in a flash. At the same time, a huge giant tail smashes the ground to pieces, which I had stood on previously.

These monsters were inherently stronger than humans. My initial lightning power is not enough to damage mid-level monsters in one blow. It looks like I need to use the same method that I did previously with Best Monster.

Which is to find the perfect opportunity to use lightning power.

The violet snake furiously hisses. It gets angered by the slippery prey..

I placed the black sword back in my storage ring. I'm going to flex my muscles. This time, before the snake moved, I disappeared from the spot using the lightning phantom technique.

The snake monster is flustered. It fails to track my movement. In a few breaths, I reached the top of its giant body.

I use all of my mid-level body strength to deliver a powerful punch to its body.

"Crack"

As my fist made contact against its scales. It began to crack slowly. At first it was a small crack. Then it slowly begins to expand.

A delightful gleam flashed in my eyes as I watched the cracks on the snake's scales.

At the same time, the snake begins to hiss in agonising pain.

Seeing that I didn't waste anymore time, I made another powerful punch at the same spot.

"Bang"

As its massive body crashed to the ground, the cracked scales turned to powder.

The snake monster is horribly wounded. I took the black sword back and moved closer towards its body.

The snake kept twisting its body. It even forgot that I was getting closer towards its body.

Feeling confident, I moved closer towards it. But all of a sudden, the violet snake monster raised its head to spray purple venom against me.

Fortunately, I caught its movements through perception. which gave me enough time to evade its attack.

The purple poison hits the empty air and finally lands on the ground. In a fraction of seconds, the entire tile gets corroded.

When I see the aftermath of the attack, my pupils constrict. If it were human flesh, I can't imagine the outcome. Sure, I should not be complacent.

Even if it's a mid-level monster, its venom can pose a threat to peak monsters.

This venom is a safety mechanism of the monsters. Even if its venom can't kill peak monsters, it will give some ample time to escape from it.

Then I moved closer towards it. And I launched a lightning attack technique.

"Lightning wheel"

A purple lightning wheel formed around me in an instant. The wheel is busting with thunderous power.

Seeing the thunderous lightning power, the snake monster got frightened.

The snake monster finally realised that its injury was very serious and twisted its giant body to move away from me.

Seeing that, I smirked, with a lightning wheel around me. As I got closer, the lightning wheel made contact with injury.

"Bang," a deafening sound resonates in the area.

The purple thunderous lightning power tore through the snake monster's injury. It led to further damage to its vitality.

Right now, the snake is half beaten; its life is hanging by a thread. It will be a matter of time before it loses its life.

The snake monster didn't move its body from the spot as the monster lost its strength.

If not for its earlier injury, it's impossible to cause this level of damage through lightning power.

Next, I looked around me. The entire platform is out of shape. The earlier confrontation with the bear monster alone did severe damage to this battle platform.

This duel with the snake monster completely destroyed the battle platform.

I immediately sent a message to Elder Thornton about this.

After sending the message, I glanced at the monster. Targeting the head of the snake, I launched my next lightning move.

"Sword Divide"

I held my black sword straight. I slowly pour lightning essence onto the black sword to charge it.

In a moment, the entire blade is covered with purple energy.

The snake monster's head region is not as hard as its other body parts. I believe this blow alone is enough to take care of its remaining life.

Next, I released thunderous lightning power towards the snake monster's head region.

The snake monster is still unaware of the danger; it's simply lying down due to the injury.

A huge blast released from the sword, when the thunderous lightning power landed on its head

"Pfff"

The snake's head was completely blown to pieces, and with it, the monster was completely dead.

Next, I moved closer to dissect its body to remove the monster core. A few minutes later, I placed the monster core in the storage ring. I also dissected a snake corpse into pieces and stored it in a corpse container.

Now, the snake monster is finished. I only need to take care of the giant bear monster.

Chapter 314 Part 1: Made A Request

(From MC's POV)

After storing the dissected parts of the Violet Snake Monster, I walked towards the gigantic body of the bear monster. I already sent a message to Elder Thornton. So, I'm not worried about the appearance of some random monster all of a sudden.

20 minutes later,

I dissected the bear monster's body parts and placed them back in my storage ring. Two monster cores will fetch a lot of money. I plan to sell it through online later.

After erasing the trail of lightning energy, I walked towards the entrance. I'm tired of acting this low-key. I hope it will change soon. I can't wait for the Crimson Hall Exhibition event where I can show off my ability. Only the strength of Tier-7 City warriors troubling me.

Before the event, I need to raise my essence cultivation to the same level as my body strength.

It will probably take a few weeks to get a breakthrough in essence cultivation. But if I get some lightning resources, it will save a lot of time.

When it comes to Lightning resources, only one person comes to mind: my teacher. At this time, I made a decision in my heart to contact him once I got back to my home.

After walking near the exit, I reminded Elder Thornton to open the door.

"Creak," the huge metallic door opens.

Seeing that, I stepped outside and waited near the lift for Elder Thornton to come.

Soon, a silhouette hurriedly walked towards me.

"You brat, how you did it?" Elder Thornton asked in surprise.

Seeing his flustered expression, I understood he must be surprised about my clearance time.

To answer his question, it's impossible to tell him that I killed the two monsters with lightning power.

Shaking my head, I changed the subject and said, "Elder, I have some other work to do." I'll contact you when I get ready for the blood test."

After saying that, I stepped inside the lift.

Elder Thornton was stupified by my direct rebutal. He hurriedly answered, "Alright brat, wait for me."

He entered the lift with me. When the lift's door completely closed, I turned towards him and asked, "Elder, Is there any resources which can improve essence cultivation? "

I asked him after weighing everything in my mind. It will be a matter of time before he knows my lightning ability.

Since, I'm not going to reveal my lightning element directly. It doesn't hurt if I can ask one or two things about essence cultivation.

A strange glint flashes in Elder Thornton's eyes. He wasn't expecting such a question from Zack. Ever since he met with Zack, Zach has always talked about Class Monsters. This is the first time Zack has talked about essence cultivation or other fighting techniques on this campus.

Seeing the shocked expression of Elder Thornton, I called out his name, "Elder Thornton."

By hearing his name, Elder Thornton retracted his thoughts and looked at Zack again.

Elder Thornton said, "Zack, What happened to you? You never talked about essence cultivation before. "

So he caught on, and I sighed internally.

Then I honestly answered, "Elder, I want to improve my essence cultivation. For that, I need some special resources."

Elder Thornton's expression condensed after hearing my request. He replied, "You already holed out our campus resources, now you are asking back again. What have you done with the precious herbs which Arthur gave you?"

Those previous herbs are obviously not helpful at all. My lightning essence is difficult to improve with these herbs. Otherwise, why do I long for lightning resources?

Seeing that Elder Thornton is not at all convinced by my request, I said, "Elder, I have kept those herbs. But I don't think it will be helpful for my breakthrough. "

This time, Elder Thornton was shocked again. He remembers Zack's getting a breakthrough not long ago at the Star Tower Competition. Now he is talking about a breakthrough? Elder Thornton doesn't know what to say?

He looked at Zack with a serious expression. "Did he consume all those pills to get a breakthrough?" Elder Thornton thought to himself.

Then again, he shakes his head in denial. Cultivation through pills won't have a stable base. Seeing Zack's previous performance, he doesn't think that might be the case.

To kill those monsters in half an hour is not a joke.

We reached the first floor while we were talking.

"Creak" the lift door opens.

Both of us stepped outside the lift, but neither of us brought the topic back again.

I thought it was up to him next whether he wanted to help me or not.

After bidding good bye to him, I headed straight towards the exit.

Elder Thornton watched Zack's back disappear slowly. He ponders that if what Zack says is true, then he must help him. He has already shown a splendid performance at Star Tower.

If Zack gets another breakthrough, it will be good for him and also good for our campus.

Zack might really contend against the geniuses of Tier-7 City.

A flicker of interest flashes in Elder Thornton's eyes. Next, he walks back to his cabin.

On the other hand,

I noticed the watch light up with a notification as I approached the exit. I opened it to view. I smiled, seeing it was from Ms. Key. She is currently at Mr. Arthur's cabin.

"It's been a long time since I last saw her. I wonder how she is doing" I muttered to myself.

Then I turned back and walked towards Mr. Arthur's cabin. Maybe my sullen mood will brighten up after talking to her.

In a few minutes, I reached Mr. Arthur's cabin.

"Creak," the door opens.

When I walked inside, the first thing that came into view was the beautiful silhouette of Ms. Key. She is sitting opposite Mr. Arthur. She wore an adventure uniform.

If not for her teaching here, I might think of her as an actual adventure guild person.

Shaking my head, I walked up to her.

Seeing me coming, both of them turned towards me. Mr. Arthur gestures to take a seat.

Chapter 315 Part 2: Made A Request

(From MC's Pov)

Hansen Campus,

"Hi, Ms. Key. It's been a while. How have you been these days? I asked her while I sat in my seat.

Upon hearing my voice, Ms. Key reveals a warm smile on her face.

She turned towards me and replied, "I'm doing alright, Zack. On the other hand, you are very busy. I hear it's very difficult to see you in person than Elder Thornton. "

Hearing her talking about Elder Thornton, Mr. Arthur chuckled.

I smiled wryly, thinking about the Mountain Liz trip.

I sighed and said, "Well, I'm worried about Crimson Hall's event. So far there is no news whatsoever regarding the event. "

When I mentioned serious matters, the expressions on both of their faces tightened.

Ms. Adeline Key is slightly shocked. She has never seen him take it seriously. "What happened?" She said it in her heart.

Then she looked at Arthur for an answer. This is something she talked about with Arthur a few minutes ago. But both of them never discussed it seriously.

Maybe they are underestimating certain things?

Zack is the only seed candidate on their campus. If he is not feeling good about the event, then it might hinder his performance later.

If Zack fails to shine in the event, then it will be difficult for their campus to get the next term of resources.

Mr. Arthur is worried. He immediately asked, "Zack, What's wrong? "

I chuckled, seeing their expression.

Then I answered, "Well, I thought about Star Tower. When it comes to Star Tower, we had some information forehand. So it was easy for me to prepare. But this time with Crimson Hall, I'm completely clueless. "

Then I continue to say, "Without knowing, it's getting hard for me to concentrate on my training. I know we have talked about this before. But I want our management to find out as soon as possible. Who knows, Crimson Hall might come up with something I'm not aware of?

I'm tired of Elder Thornton's previous attitude. He really thinks I can take care of things, just like that. I'm not confident enough to face those geniuses of Tier-7 City.

They are at Trainee Warrior Level. I'm clearly one whole level behind them.

Maybe in their case, my current strength is alone to get some rankings for Hansen Campus. So none of them were worried. But they don't know about my test. I can only pass the test of my teacher after getting the 1st place.

My current strength is not enough for that. "What to do?" I grunted.

Ms. Adeline and Mr. Arthur finally understand Zack's worry. These people from Crimson Hall were clearly tight-lipped about their event. No one is willing to say anything.

"Don't worry, Zack," Mr. Arthur said, looking at Zack. Do you think they can hide the news for so long? I bet the information about the event will be leaked sooner than later. Apart from us, some factions have a lot of stakes in this event. They won't be silent for long. "

Hearing that Ms. Adeline Key also supported his opinion by saying, "Yeah, Zack. There are still some months left before the event. You should focus on your training. Soon you will hear the news about the event. "

I nodded at them. I know the authority of Ms. Key and Mr. Arthur is limited on the campus. Only management can do something about it.

Then I changed the topic and talked about a few other things. After having the conversation, I bid goodbye to both of them. I have already decided to contact my teacher. I'm not wasting anymore time here. So I left the room to go home.

Seeing the disappearance of Zack, worry kept sweeping over Ms. Adeline Key's face. She looked at Arthur and asked, "Is that Crimson Hall's event is tougher than Star Tower's?"

"No!" Mr. Arthur said.

Then he added, "You know, it's not as famous as Star Tower. Crimson Hall is conducting an event for recruiters. So that people from the academy can pick up talented seeds"

So, Ms. Key nodded and asked, "So, what was the theme of the event?"

"Usually, they set up a ranking board. The Warriors need to win against their opponent to reach the next round. In this way, they need to clear multiple rounds to reach good rankings. " Mr. Arthur said.

Then he continued to say, "Out of thousands, finally the top rankers will be listed. Then the recruiters will select the talented seeds for their academy. Apart from them, those who got quota previously also get admitted into the academy. "

Mr. Arthur explained it clearly.

After thinking about something, Ms. Key asked, "Do you think Zack can be listed in the top rankings?"

Mr. Arthur was dumbfounded. He immediately replied, "What are you talking about? If Zack can perform better than our competitors, then he will automatically gain a good ranking for our campus. So he doesn't need to fight other top warriors. And also, he has a quota to get into the academy, so there is no reason to fight others. "

Ms. Key shook her head and said, "Again, you are missing one thing. If Zack came across strong opponents in most of his rounds, then imagine what would happen. He will lose even before he gets to meet the warriors of our competitors"

Mr. Arthur thought about her words and answered, "Warriors were chosen randomly." So it can't be helped if there is a case like this. We can only say "hard luck" if Zack comes across strong opponents in most of his duel rounds"

Then he added, "If we were to face such a result, then it would be a huge loss to our campus. Yet Zack can still get into the academy based on his quota. "

Ms. Key doesn't find anything wrong with his statement. She furrowed her eyebrows and said, "Maybe Zack is anxious because he wants to do better."

Mr. Arthur nodded and replied, "That might be the case. Anyway, for his sake, I'll ask Elder Thornton again to look into this matter. "

Ms. Key nodded at his words.

On the other hand,

After walking out of the campus, I reached the train station via air car. Then I boarded my train on time.

While sitting next to the window seat, I texted Mr. Jonathan. I asked him whether the teacher was available or not. If he is not available, then I'll contact him some time later.

After sending the message, I waited for his reply. I wonder what Mr. Jonathan is doing right now.

Time Progresses,

An hour later, I received his reply.

[Busy, I'll call you back later]. -Jonathan

Reading his message, I sighed internally.

Chapter 316 Part 1: Conditions?

Crimson Hall,

After returning from the Odyssey Monster Zone, the first elder turned his attention to other projects. It will take some time to get a reply from Official Ben. So he doesn't plan on dwelling on it.

While tapping the desk, he ponders.

He doesn't know whether the higher ups of Odyssey Monster Zone will agree with his request. He believes that since he has taken a gamble, soon there will be a result.

On that day, he reminded his good friend, Ben, about the seriousness of this situation. If they won't agree, he won't hesitate to drag them into his scheme.

With his friend Ben's personality, he believes that he will convince them for sure.

Only after receiving confirmation can he consider the next step. For signing a contract, it can be only done by Grand Elder Chris. Which is another troublesome thing.

These contracts should be signed by the higher-ups of each faction. He and his friend Ben were just spokespeople for their respected faction.

He hopes that once he gets a green signal, He will take some time to arrange a meeting with the Grand Elder. With his permission, he can decide the rules for the competition. The Odyssey Monster Zone is large, like an island. He can plan different levels of difficulty for participants.

Just as he was pondering, he received a notification from Communication Watch.

Reading the message, "What is the moron doing here?" With a frown on his face, the First Elder uttered.

Next, he gives permission to open the door.

"Creak" the door opens.

Stepping inside, the HeadMaster walked up to him slowly.

Seeing his humble attitude, the first elder knows it's just a play.

"Harumph, What do you want? " The First Elder asked

The Headmaster smiled wryly, and small sweat beads began to form on his forehead.

If not for an urgent situation, he would not have come here.

The head master replied, "First Elder, our alliance factions are demanding an urgent meeting lately."

A flicker of interest flashes in the first elder's eyes.

With an indifferent gaze, the First Elder asked, "What is it about?"

The headmaster cursed him in his heart. He knows that the First Elder is aware of the current situation. But still, he is making things hard.

While he was cursing inwardly, on the outside, his face was calm and peaceful.

Then the head master smiled wryly and answered, "They were asking about the event. Since we are tight-lipped, they are requesting an immediate meeting"

Shaking his head, the First Elder said, "Why are they in a hurry? There are still a few months left before the event. You can go and handle them. Tell them that I'm busy. "

The head master's mouth twitched, "How am I going to handle them?" He muttered to himself.

If there is a conversation between the headmasters of two factions, then he can dominate the other party. But clearly, here the situation is different.

Some of the alliance factions directly brought their Grand Elders for a chat.

"What am I going to do?" The Headmaster cried in his heart.

At the same time, he failed to notice that the first elder was getting displeased because of his silence.

When he came to realise this, his heart came out of his mouth.

"If you want to waste any more of my time, then you should prepare for the consequences," the First Elder said with dissatisfaction.

Next, the headmaster didn't waste any time; he immediately left his cabin.

Seeing the disappearing back of the head master, the first elder snorted and shut his eyes off.

He knew people out there wanted to know about the event. But it can't be said now, only after receiving confirmation that he can do something about it.

And he won't reveal any information about the event right away. He will let them know a few pieces of information four days before the event.

While he was in deep thought, his communication watch lit up with a notification.

Hearing that, the First Elder opened his eyes in disdain. But right after seeing the name, he changed his posture. He straightened his back and answered the call, "Official Ben, What happened? "

He hadn't expected to receive a call from him. He predicted it would take a few more days to receive news from them. But since his friend has called him now, He expected to get good news.

From the other end of the call, official Ben sounded, "Elder Casey, I spoke with higher ups about your request." Fortunately, they agreed. But it's based on certain conditions. Those conditions will be included in the contract. You can decide after viewing it. "

"Conditions?" The First Elder was taken back.

He thought there was going to be some kind of demand for resources. But he didn't know what those conditions were.

"Do you know what the conditions were?" asked the First Elder.

Official Ben replied, "I don't think they have decided yet. But higher ups will definitely tell in two days"

Hearing that, the First Elder sighed and thanked him before ending the call.

"Sure, their old foxes might want to share the pie." A cruel glint flashed in the First Elder's eyes while he thought to himself.

But again, since they agreed, he thinks that they won't touch his bottom line.

Then he ponders, since Ben had talked to them, the first elder felt it was important to inform the Grand Elder also.

He quickly rose from his seat and exited his cabin to meet Grand Elder.

Elder has a separate building for his seclusion. No one else can enter here other than him. The building is located on a nearby small hill.

The small hill is owned by Crimson Hall. It's completely forbidden for Crimson Hall students and the elders.

The first elder went straight towards the entrance after reaching the building on top of the hill.

Before he could speak, the door opened automatically.

A hunched-back old man walked out of the building.

The First Elder's face stiffens. He remembers the majestic appearance of the Grand Elder at the previous meeting.

"What happened? Are there any changes that I don't know about?" First Elder Casey said in his heart.

Chapter 317 Part 2: Conditions?

Crimson Hall,

But he dared not show any expression on his face. He hurriedly went forward and helped Grand Elder sit on a nearby slab.

But Grand Elder Chris didn't stop him. As he sat on the slab, he looked at the First Elder and asked, "What are your preparations for the event?"

First Elder responded immediately, "Grand Elder, as I previously informed you, I have chosen a specific monster zone for our event."

The Grand Elder's eyes flickered with interest. He wasn't expecting this. "Casey has decided this early," the Grand Elder said in his heart.

Without waiting for the Grand Elder to reply, First Elder Casey continued to say, "I have chosen this trial zone called Odyssey Monster Zone. To confirm the zone, I personally went there and met with officials"

"After making my request, I returned back to our place a few days ago. Coincidentally, a few minutes ago. I received confirmation from other parties. They have agreed to our request, but it is only possible if we agree to their certain conditions."

Grand Elder Chris raised his eyebrows in confusion. So many things have happened in the span of a few days. Looking at Casey, he didn't know what to say.

In his opinion, such drastic measures were unwarranted. Yet at the last meeting, Casey insisted on doing so to weaken the hostile forces. There is also competition between the alliances.

Finally, thinking about all of it. He let out a deep sigh.

Then Grand Elder asked, "What is their condition?" If it hurts our interest, there is still some time left to select another location."

The First Elder understands his worry. He had already made up his mind. If they touch his bottom line, he can still choose another monster zone.

So looking at Grand Elder, he said, "They will tell us after two days. Don't worry, Grand Elder. If it's not feasible, then I will select another location for the event."

Hearing such a quick answer from him, Grand Elder's old face reveals a small smile. At least he is satisfied that Casey seems to know what to do and what not to do.

Then they talked about a few other things before the first elder walked back to his own cabin.

In his cabin

A new gleam of light flashes in the First Elder's eyes.

The current appearance of the Grand Elder made him think about several things.

"Is he going to run out of oil?" First Elder thought to himself

Even though he knew he was going to die, the first elder believed it would be better after the event.

There is already so much at stake in this event. He doesn't want any mishap to happen midway.

Time Progresses,

Two days went in a flash,

Odyssey Monster Zone,

Official Ben is working in his office. Suddenly, he received a call from his higher ups.

Seeing that, he immediately attended.

A half an hour later,

Official Ben sat back in his seat in frustration.

Because his higher ups informed him of their conditions during the call. First, their faction wants half of the resources provided by academies for Crimson Hall.

Second, higher-ups want to know all the details about the event. Including all those rules and all. Because the higher ups are likely to send some of their own people to the competition.

If they knew the rules beforehand, it'd be easy for them to rank high in the event.

"Shameless!"

Even official Ben cursed at his own higher-ups in his heart.

Forget about the second condition, after hearing the first condition itself, he knows that Casey won't agree to their condition.

Official Ben thought his higher ups were really asking for too much.

Shaking his head, he decided to tell Casey about it. The decision is up to him anyway, so he doesn't want to get dragged into their problems.

Next, official Ben called Casey.

Crimson Hall,

The First Elder, who was talking to someone in his cabin, After receiving the call, he told the opposite party to leave when the person walked out of his room.

The First Elder attended the call to answer.

"Official Ben, I was just waiting for your call. What happens now? "Did your higher ups speak about the conditions?" First Elder asked with expectation. He hopes that the conditions won't be too excessive.

On the other hand, official Ben begins to talk about the conditions.

After hearing the first condition, there is not much change in his face. But after hearing the second condition, his face reveals a cunning smile.

"What sly foxes!" The First Elder muttered to himself.

On one hand, they want to have huge resources. And at the same time, they want their people to get into the academy easily.

What was more surprising to him was that he knew that the Odyssey Monster Zone was not under the control of one particular faction.

It is more or less an alliance, with the majority of it dominated by medical factions. These research people take these monsters for experiment purposes.

For a brief moment, a tinge of curiosity rose in his heart. He wants to know who the higher ups were. Are they from the same faction or a different one? Now,

Thinking about it, the First Elder thinks that they really want to have a share of a large pie.

From the other end of the call, official Ben was taken back by seeing Casey's silence. He expected a strong rebuttal. But there are no words whatsoever.

Official Ben called out again, "Elder Casey?"

Hearing his name, the First Elder retracted his thoughts and asked, "Official Ben, could you tell me the name and affiliation of your higher ups?"

Official Ben's heart skipped a beat. He diplomatically answered, "You will know when you sign the contract."

The First Elder chuckled. He commented, "I want to know which faction is currently in charge of the Odyssey Monster Zone. I know it is jointly managed by many, so don't fool me. "

Official Ben remembers the words of his higher ups. Actually, they don't want to reveal their identity. Shaking his head, Official Ben replied, "Casey, Unless you agree to these two conditions, It's impossible to reveal their identity. "

Now the situation has become tricky. First Elder Casey doesn't want to agree before knowing who is in charge of the Odyssey Monster Zone.

Then he thought about something and answered, "Okay, I'll ask our Grand Elder for his opinion. Only then I can tell you about it."

After saying that, he ended the call.

Chapter 318 Part 1: New Place To Train

Mr. Jonathan, who is currently busy with his work, Coincidentally, he opened his communication watch to view the message. He was surprised to see the message from Zack. Next, after looking at the message

A hint of light flashes in his eyes;

"Zack is worried that his strength is not enough to contend with warriors from higher cities." Jonathan thought to himself.

Then again, Zack's worries are also related to the Master's test.

The next second, Mr. Jonathan smiled. He seeped his consciousness into the storage ring. Where there is a dark ball flickering with purple light all over it.

Looking at the object, coincidentally, this thing also fell into my hands. This thing will help Zack raise his strength to another level. "Before the start of the event, I must make another trip back to outpost 1012." Jonathan muttered to himself.

Jonathan decided to hand over this thing to Zack. This is something he obtained personally, not given by his master. So he knows that his master won't stop him from giving this thing to Zack.

After making up his mind, Jonathan sent a message to Zack by saying, "Don't worry, the thing you need will arrive before the event."

"Master has decided to go there." I don't know whether I can go along with him or not. " Jonathan thought to himself.

Then, retracting his mind from these thoughts, he continues to do his work

....

(From MC's POV)

Dinner time, James Lockwood Residence,

"Uncle, other than Monster Zone, is there any place where I can train myself?" I asked while looking at Uncle James.

I know he hates it when someone starts to talk while eating. But surprisingly, the uncle is patient.

Mr. James observes Zack with a calm face. Zack doesn't know that his discussion with Mr. Arthur has already reached Mr. James' ears.

Mr. James knows that Zack is worried about the Crimson Hall Event. Unlike Star Tower, there might be an open battle. The duel can also be viewed directly.

So there is a slight possibility that Zack may come across strong opponents. He discussed it with Arthur. The only thing that could help Zack at this time was to find a way to improve his strength.

Right now, after hearing Zack's question. Mr. James thought of something. He knows a place that is a den of bandits. That place is quite close to Tier-8 City.

Due to natural obstructions, the officials weren't able to solve this banditry. But from time to time, the city lord recruited some brave warriors for a mission. which includes the killing of bandits and clearing up their dens.

After thinking about it, he looked at Zack and said, "There is a place where you can hone your skills. But that place might have Trainee Warriors"

Hearing his words, I began to think.

Trainee Warriors are the same as Class-3 Monsters.

If I burst out with all my strength, I can take care of the Initial Trainee Warriors. But above such a level, it is impossible.

Then, without knowing about the place, I don't want to make a decision.

So I asked, "Uncle, can you tell me about the place?"

Mr. James answered, "There is a bandit group creating problems for Tier-8 City."

Then he added, "The bandit group is hiding in a forest located outside of the city. Very often they are involved in robbery and killings. "

My eyes lit up with surprise upon hearing about bandits. This might be the right place for me to test my skills. Fighting against monsters is one thing, but I want to know the human heart.

These nefarious bandits might be the right option.

Then I thought of something and asked, "Uncle, If they are really hiding in a forest, Why don't they send strong warriors to eradicate them? "

Mr. James chuckled. He expected this question from him.

Shaking his head, Mr. James commented, "This forest is not something that anyone can enter. But these bandits found some way to live there. "

"Interesting!" I muttered.

Without waiting for Zack to reply, Mr. James continues to say, "This forest has a nickname called the insect zone. Like Monster Zone, this forest is heaven for some insect species. "

This is something new to me. I had seen some insect monsters previously. But what my uncle is describing is something new.

Mr. James easily saw through Zack's thoughts. He commented, "I know you are comparing it with Class Monsters. But these insects were not classified as monsters. They don't have a long lifespan. But what

makes them deadly is their venom. There is a record that some trainee warriors who were bitten by these insects were found dead. "

Then looking at Zack, he further added, "That's why no one is willing to go there. After realizing this, the city lord started to recruit people. And these people often try to venture into the forest. But the majority of them died. Some found a few traces of bandits, that's all."

I commented, "So no one succeeded in killing them."

Mr. James answered, "Officials often kill those bandits who walk out of the forest. The officials built a few camps outside of the forest. If any bandits come out, they will meet a miserable end. "

There is such a thing, by hearing Uncle's words. I can only imagine that the operation is not small. I heard these bandits usually have treasures inside their den.

On the other hand, Granny Park didn't stop the two of them from talking. She was used to watching them like this. She finished her food without waiting for them.

Next, I didn't answer directly. I continue to finish the food on my plate. I'll talk to him after finishing the food.

Mr. James, who is watching Zack's actions, wasn't surprised. Venturing into a deadly insect forest is not a small thing. If it were for another young warrior, he wouldn't have any hope. But Zack is different he has lightning element.

Next, he too continues to eat food.

Chapter 319 Part 2 : New Place To Train

Time Progresses,

One hour later, inside the study room,

"Have you decided?" Mr. James asked, looking at Zack in front of him. He knows it's not an easy decision, but he wants to see whether Zack is willing or not.

Hearing Uncle's question, I immediately answered, "Well, I decided to go there. But Uncle, I want to know, normally you wouldn't allow me to visit a place like this. But now what happened? "

"He caught on!" Mr. James thought to himself.

Next, with a smile, he answered, "I believe those insects won't be a problem for you because of your element. The majority of insect species dislike lightning. So you only need to focus on those bandits. "

"Is there such a thing?" I asked.

I hadn't expected to hear such good news. If I go there, then I'm obviously ahead of some warriors. I don't need to waste my time on grouping.

Mr. James said with a smile, "Yes, consider it one of the advantages of being a lightning warrior."

I nodded at him and asked, "Uncle, When can I go there? "

I want to return in time before the event. The bandit mission is not something that is going to end in one or two days. I believe it will take at least one or two months.

Mr. James said, "Well, it's up to you. You can leave tomorrow also. "

Then Mr. James thought about something and added, "Zack, one more thing. I suspect the boss of bandits might be on the same level as me, a Peak Trainee Warrior. One step closer to becoming a warrior of the elite. Just take care of those low-level bandits. Don't think about testing deep waters. "

I understand Uncle James' worries. Only a fool would fight such an existence. I'm only thinking about fighting against initial level trainee warriors.

"Don't worry Uncle, I know my limits" I assured him with strong determination.

Seeing that, Mr. James smiled and said, "Well, you can leave tomorrow. For travel expenses, I will send you some credit points. "

I nodded at him, then we talked about a few other things before I left the study room.

After coming back to my room, I laid on my bed comfortably.

"This trip is going to be more fun than mountain Liz. New people, new location, new enemies. Everything is going to be new," I muttered to myself.

Earlier, I was worried about a breakthrough. Since lightning, treasure has been something rare. I shouldn't be dwelling on this. I need to first cultivate normally. Increase my lightning essence on a daily basis.

After making up my mind, I shut my eyes off to sleep.

On the other hand, Mr. James was on a call with Mr. Arthur.

"Are you really planning to send Zack to that place?" Mr. Arthur asked, back in tension.

Mr. James smiled and answered, "I'm not planning. I already talked to Zack about this. And he agreed to go there to train."

Mr. Arthur felt he had been struck by lightning.

For a moment, none of them said anything.

Finally, Mr. Arthur breaks the silence by saying, "That forest is not something for humans. You are underestimating the dangers there."

Mr. James sighed internally. About Zack's element, only a few people knew about this. His confidence also comes from Zack's element. But he obviously can't reveal it to Arthur.

"Nothing will happen to him. This is something necessary for him. He can't always fight monsters. He needs to understand the evil nature of humans also. " Mr. James said in a solemn tone.

Mr. Arthur doesn't know what to say. Finally, before ending the call, He answered, "If Zack can come back alive from this, Then the Crimson Hall event will be nothing in his eyes. "

A quick glint flashes in Mr. James' eyes. Obviously, he understands the meaning behind the author's words. Those geniuses from Tier-7 cities were nothing compared to nefarious bandits.

Mr. James really wanted to see the day. Where Zack can shine brightly among those talented warriors.

The following day,

I left home early and picked up an air car for travel. Soon, the air car landed near the train station.

After paying the fees, I headed straight towards the waiting area. There is some time before the train arrives.

Like always, I need to travel via Red Stone City.

After finding the empty seat in the waiting area, I sat back and waited for the train to arrive.

Last night, I received the necessary information from my uncle. The insect forest is called the ourez forest. And nearby Tier-8 is called Ironpost City. A gleam flashes in my eyes, recalling the name.

Last night, when I first heard it I wondered whether their city wall is made of iron. Shaking my head, I thought about the City Lord. His name is Aaron Powell, Peak Trainee Wind Warrior.

Recalling the bandit boss' strength I thought, if not for the City Lord, the bandit would have long since acted.

Fortunately, this place is not located far away from the Red Stone City. I can reach it in a day.

Time Progresses,

Sometime later, I boarded the train to Red Stone City. I need to shift to another one before reaching the destination.

Soon, two hours later, the train reaches the platform of Red Stone City. I walked out and headed to another platform to board my next train.

While Zack was on his trip, someone was exploding in rage inside the Hansen Campus.

Hansen Campus

"Which madman let him go?" Elder Thornton inside Arthur's cabin roared in anger. He was furious because nobody told him about Zack's trip to the Ourez forest.

Mr. Arthur panicked greatly. He knew this was going to happen. But it's impossible to stop Zack. That kid had already made up his mind to go there. It's impossible to convince him to return.

Looking at silent Arthur, veins begin to pop up on Elder Thornton's head.

Seeing the expression of Elder Thornton, Mr. Arthur hurriedly said, "Elder, you know it's not due to me. The decision was made by Zack's family. I'm totally helpless about it. "

Elder Thornton snorted coldly, saying, "That brat told me that he would come back to continue his blood test. But now he is going to that damned place. which is a lot worse than Monster Zone."

Mr. Arthur laughed wryly in his heart. He doesn't know how to cool him down.

Chapter 320 Tier -8: Iron Post City

(From MC's POV)

Several hours later,

I arrived at the train station in Iron Post City. After entering the city, I discovered that it is similar to Red Stone City.

After finding the hotel, I settled in.

Although it's similar, I find some gloomy atmosphere all over the place. It's best to find out about the current events in the city. After gaining some clarity, I made a call to the room server.

Soon, I heard a knock on the door.

A middle-aged person wearing a black tuxedo stood in front of me.

Upon seeing me, he immediately greeted me, "Esteemed guest, is there something you want?"

Hearing that, I nodded and replied, "I really want something. It's not food but information. "

A quick glint flashes in his eyes. He looked at me for a moment before he nodded.

Then the server quickly entered the room, following behind me.

Upon reaching the small study hall in the room, I sat comfortably and placed one fire affinity stone on the table.

The server's mood lit up when he saw the stone. He immediately asked, "Esteemed guest, you can ask me about anything."

Hearing that, I began to ask questions.

A couple of minutes later,

The server man left the room with a fire affinity stone in his hands.

"The City Lord is very interesting," I muttered, while recalling the information.

This city is like any other vibrant city.

Trade and business in the cities were enough to run the city. But because the trade route is often interrupted by the atrocities of bandits, the city suffered huge losses.

The City Lord tried several means to put an end to it. But he failed whenever there was a chance of success. The bandits flee into the insect forest.

Because of the bandits' actions, the transit route is disturbed. And the businesses inside the city have also been hit. It may look like a bright day, but there is actually a gloomy atmosphere surrounding the city.

To think that such a forest is so close to such a bustling city. I don't know whether to laugh or cry.

Then to put an end to this matter. The City Lord tried to attract various warriors to come to their city. He announced as long as people submit the head of the bandit. They can get their rewards.

The rewards are very lucrative; it's 50,000 credit points per bandit head. With such a sum, I don't know whether the city is rich or the City Lord.

Shaking my head, I thought about Bandit Head.

The server man said nothing about the bandit hideout or their bandit boss. It's surprising that they have little information about the insect forests.

It is the same as what my uncle told me last night. Maybe I'm asking the wrong person. The server person might have had limited knowledge about this. It's better to go out tomorrow and ask around.

Just as I was pondering, my sci-fi watch lit up with a notification.

I read it casually. "No way!" I exclaimed all of a sudden.

It was a message from Mr. Jonathan. After taking a look at the message again, I breathed in relief. Mr. Jonathan replied that he would give me what I needed.

Obviously, I need lightning resources.

From his message, I can infer that he has found some things suitable for me. A small smile rose on my face upon realising this. I can finally put my worries about essence cultivation to rest.

Fortunately, things went well for me in the end. Now I can focus on the things before me. I'll go outside tomorrow after taking a rest today.

I don't want to come across unnecessary trouble at night.

The following day,

I left the hotel after having breakfast. Then I plan to roam around the city and find a suitable place to gather information.

Time went by.

One hour later, I stepped inside a bar.

Looking at the people inside the room, I wasn't surprised. All of them were warriors. What is more surprising is that I couldn't see through a few people.

All of them were having fun and chatting.

My entrance didn't attract anyone, so I quickly found a corner to sit in. Then I ordered something to eat.

The thing that interests me will soon be heard by me.

From a nearby table, two warriors were conversing with each other.

"Damn, these bandits. Our new team was almost wiped out. Now several of them are injured. It's hard to participate in future missions" One of the warriors said with a bitter smile.

His teammate, who is sitting opposite him, made a comment, "I don't know how many missions we have to do to get rewards, like the bandit mission." He is not good-looking either.

Both of them begin to pour down their worries with the help of the drink.

I sighed, trying to imagine someone posing a threat to the City Lord. He must be at the same level as him. Otherwise, the city lord would have long acted.

Now the bandit head is back, using the opportunity to disturb the trade route as much as possible. which led to the loss of several lives.

The bandits were never easy. The origin of them is also not so clear. At this point, I recalled Uncle's words. He never wanted me involved too deeply.

As long as I get certain experience, then it's fine. The City Lord is in charge of the bandit problem. If he is afraid of life, then he can only do these kinds of things.

Shaking my head, I thought it would be easy if they hired some Elite Warriors to come over. To raise such money for a mission. I believe the City Lord has enough money to reward an Elite Warrior.

Why isn't he doing it? A question popped up in my mind. When I tried to understand the problem, several questions came to mind.

At this point in time, from another table A warrior commented, "Hey, tomorrow the city lord is going to recruit another few batches for the mission."

Hearing that, the people inside the room immediately sneered.

I looked at the person who made a comment. There is a crystal badge pinned on his chest. Looking at the emblem, I realised the warrior is from the Parazam Hunter League.

To have a badge, one must have reached some level in the Parazam hunter league.

So this guy is clearly not a rookie. So why is he making bold comments about the City Lord here?

While I was looking at him, suddenly his companion made a point. He sneered by saying, "What a batch! They are simply sending everyone to their death bed. It's best not to go over there at all"

Another badge-wearing person. What's up with these two? Clearly, these warriors are not afraid of city guards arresting them.

Crazy!

What's more surprising is that no one is stopping him or refusing him. Suddenly, a thought rose in my heart. It's best to leave this place and inquire somewhere else.

I stood up from my seat and made my way towards the exit. Fortunately, my visit didn't displease anyone, or I should say, none of them cared.

Then, after making several rounds around the city, I went back to my room.

Back in my room, I lay down in my bed.

Today's event clearly opened my eyes.

Why are warriors behaving like lawless individuals? I still find something amiss with the Parazam Hunter League.

They suffer in business due to the City Lord's inaction against bandits. For the hunter league, they also need skilled warriors to complete their mission.

Now the majority of the strong warriors are focused on the bandits' mission. I believe hardly anyone is taking up their mission.

No wonder there were a lot of dissatisfied voices. What to do? It's troublesome to visit the City Lord's mansion tomorrow.

To select warriors for the mission Obviously, they record information about everyone. which is not good for me.

If my lighting element is exposed, then it would be more troublesome.

I rack my mind to find some solutions.

Finally, I thought of something.

To act as cannon fodder. No one will care about such an existence. They obviously don't record information about cannon fodder apart from their basic details.

I heard from my uncle that there is a camp outside the city. Whichever is the best place to start, I may come across a team.

Who knows, there might be someone hiring me as Cannon fodder.

The troublesome forest is a dangerous place to venture alone. Since, I'm going to stay here for months. There is no hurry to venture into the forest.

After making up my mind, I sent a message to Uncle James and Granny Park.

An image of Hansen campus flashes before my eyes. Talking about Elder Thornton, he must be furious right now. If not for our earlier conversation, I would have talked to him.

I shook my head. I shut my eyes off.

Time Progresses,

At dinner time,

Instead of going out, I ordered food from the hotel. After gobbling down the food, I went back to my room.

The following day,

I woke up earlier. After getting ready, I left the hotel. I need to go to the north side of the city to venture outside. Soon, I reached the north gate via air cab.

I can see warriors standing in a queue. I hope they won't inquire about my identity. But looking at their behaviour, I bet it's possible.
