Chapter 32 - Evaluation Test 1

"There is going to be an evaluation test tomorrow", said Ms Adeline Key; Hearing that Marcus Moore asked " Mentor is that any benefits we can get tomorrow? I heard from seniors that it varies upon different batch that got recruited every year"

I frowned internally, It's been a month but I have never seen a single senior batch student. There are several floors in the building. I only visited the places that I got access to. But this bull had even contact with seniors. I put the thoughts back off my mind. And look towards Mentor.

Responding to Marcus Moore. Ms Adeline Key said. " Looks like you have already got the information from your seniors, indeed, resources may vary. For your batch, it's already been decided. only the top 2 will get rewarded from 6 members, And what is the rewards to know you have to wait until you get into the top 2"

Seeing her facial expressions, I believe she is pissed off by Marcus Moore. Do not know what is the reason. As I was watching her suddenly she met my gaze. Ms Adeline Key said, "Zack, Today Do not indulge in extra training hours. Don't injure yourself Tomorrow, Based on everyone's performance, training courses can be modified further".

I replied to her saying " Then it's fine Mentor, I don't plan on training further today". She nodded at me. Then she looked at all of us and said " I believe you all get familiarise with A. I chamber combat test; But, tomorrow is different you will be evaluated by an Advanced version of A. I chamber combat test". She then smirked.

Seeing Ms Adeline behaviour, I thought this is troublesome. No wonder She advised me not to have extra training hours. The first thing to have is not to get injured yourself. The second thing you don't know, What is the content of tomorrow's test? It may be a combat test but I do not know what type of combat test.

It's useless to train further, I was impressed with my current stats of mine. As I was contemplating, I noticed Maria Frazier seems fine. Seeing her confident look. I smiled, I want to test my strength with her instead of dummies. It would be a real test then.

Dummies are artificial they don't have emotions. They don't intimidate their opponents they are tools to guide your training. I don't learn much further with them. On other hand, I always get annoyed by Marcus Moore. Battling him I do not know how would I react. I believe it would be an emotional battle.

There is also Candace, I nicknamed her Mysterious Candace aka Ms Mystery. Maria Frazier is an open book you can see the emotion on her face. But this Candace is a closed book. You don't know, What is it in her heart? and What is it in her face?. Every flower is different. These days I had met Candace often in the class and had some small chats.

She gives vibes, That I do not know How to explain. Looks like some veil covered her. And there are also twin sisters. They are the only two people who look normal among ourselves. I can see their worry on their face. They are listening to Mentor attentively.

Then out of nowhere, Maria Frazier asked.

"Mentor, What will happen if you perform badly?" Everyone keened our ears to Mentor's response. Ms Adeline smiled at her and said.

" If you perform better you will include in advance class Maria. Otherwise, you will have to stick with this same course throughout training".

A sudden thought came to my mind, I asked Mentor. "Ms Adeline, Do we get only one chance here? It has been only one month since the start of the training. We already paid for it. How come there is another advanced course on top of it."

Ms Adeline was not surprised by my question. She responded to me by saying " I'm not only a mentor for your class, But I also train your senior batch students; Those exceptional senior students were passed out successfully and left the centre. But still, some people got failed. Refused to go out".

"So I was instructed by the administration to teach these lagging students; They also told me to include some talented juniors in the class".

Marcus interjected by saying " So, we do not have to pay credits for the Advance courses" His eyes were shining. Ms Adeline sighed and said " I told you earlier top 2 get rewards; The rewards are you got placed in the advanced class with free of cost"

Hearing that everyone gasped. I said in my heart. "Zack, this is an opportunity. Don't miss it" Then after some talks, all of us left the facility. I boarded my usual train and got a window seat. I looked at the sceneries through the window. This train is a common class train with good speed. So I can still see the scenes outside.

The timing of the Advance class train had a conflict with my current Schedules. I was contemplating ever since she announced about the test tomorrow. My heart is beating rather faster than usual. I do not know it is due to excitement or nervousness. As I saw the heartbeat rate in my Holowatch.

It is hard to believe the sudden turn of events.

I cannot wait to tell Granny and Uncle about this. I closed my eyes waiting for the train to reach the destination. Sometime later, I left the train to reach home. After I arrived home. It's good that I found Uncle is home today. He is return from the mission.

Before that, I went to my room had a long shower. I eased up my nerves comfortably. I finally got relaxed. I wore some casual clothes. Then my stomach starts to growl for some food. I lazily laid on the bed waiting for dinner.

Finally. At the dinner table, I broke the news to granny and uncle.. They were surprised especially, Uncle.
