Chapter 33 - Meeting

Before Ms Adeline key broke the news to Zack and his Classmates. Earlier Morning in the Meeting Room.

Mr Arthur Emerson Said, "Ms Key, You do not have any choice. The Senior Management decided to choose you as their Mentor. I know, what you were worried about. You must be thinking about problems that would occur. When senior and junior students will train same room in the class".

Ms Adeline sits in an opposite chair to him. She furrowed her eyebrows and began to contemplate in her heart that there is no way senior management would give advance course access to new Students for free. I do not know? What is the catch here? She decided to ask him.

Ms Key asked, "Mr Arthur, I do not know? Why management would make such a sudden decision regarding advance courses especially it's been only 29 days since the new students joined the class".

"It would make no sense to my new students I can understand Ms Maria Frazier in my class had ability beyond any new students in my class; then she continued by saying; It would be waste of time for her to spend time in basic training; there is no problem for her to join advance class".

She sighed and said, " What about the rest of them? There is no point in conducting Advance combat tests for them".

She did not hold back anything in her heart and told about every query she had. She felt fishy.

Listening to what Ms Key said.

Mr Arthur Emerson said, "Looks like I have to reveal a bit of information to you" He leaned forward a little and said, " We are invited by CRIMSON SWORD HALL for an exhibition match".

Hearing the Famous name CRIMSON SWORD HALL. Ms Key face turned serious. She was shocked in her heart. She thought, why they would invite students from HANSEN SWORD CENTRE.

CRIMSON SWORD HALL is situated in TIER-7 city. They looked down upon every TIER City below them; especially our RED SONE CITY is TIER-8 City. It's not just a simple increase in number.

The City structure follows a Pyramid system. There are many TIER-8 City but very few TIER-7 City it is far more developed than our city. It got more population than us more resources than us. TIER 8 CITY got Invited to an event of TIER-7 City is nothing more than trouble and humiliation. She began to worry.

Seeing Ms Key remained silent for more than a minute. Mr Arthur Emerson said, "See, that's why I did not want to reveal anything and now you forced me".

"I know, to be invited by TIER-7 City is nothing more than a doom spell for us; I wish, I would be born in any of above TOP 5 TIER cities. Anything below TOP-5 TIER City is Nightmare. Considering that cities above TOP-5, TIER-7 cities were nothing more than child's play for them"

Ms Adeline Key came back to her senses and replied, "Mr Arthur, You make it easy for TIER-7 city. When comes to TOP-5 cities, we are not qualified to talk about them. Only Special can dream about them. Considering our OUTPOST 1012's TOP-5 TIER cities were better than neighbouring OUTPOST. She said proudly at the same time scared mentioning them".

Mr Arthur laughed and said, "Even though there is competition between Several TIER Cities among ourselves, When comes to OUTPOST 1012. We are one family. Our OUTPOST had produced several Elite Rank Warriors. Who joined various powerful organisations; so, don't fret about TIER-7 City. We need strong warriors. CRIMSON SWORD HALL only invited young cubs. I mean seeds at the age of 12"

Ms Key responded by saying, "Only age of 12, it's the typical age where the kids join their respective Academy".

Soon she realized something her heart starts to beat faster. Her palms became sweaty. She thought, sure nothing good comes from TIER-7 CITY. She had a bad premonition in her heart.

She asked, "They are going to target potential seed. Won't they?"

Mr Arthur Emerson replied, "We cannot do anything about it, there is word spread among our network. This time they are going to pour huge rewards for the competition. To attract the seeds; There is a Risk and Reward".

"If you are being targeted you have to watch your back until you joined the academy; at the same time enjoy the rewards from the competition".

"It's not just our TIER city alone got invited every TIER-8 city under the influence of ARMY FEDERATION is got invited; the same thing happened for TIER-7 CITY under PARAZAM HUNTER LEAGUE. They too invited their respective TIER-8 Cities"

"ONE thing is clear Mass filtration is going to happen among seeds" Mr Arthur finally uttered.

Ms Key sighed and said. "Only kids, who got quota for Academies has to worry about that; there is a fierce competition happen among academies too; No way they are going to stop".

"I believe, it's done by SAW SCALE VIPER ACADEMY they are being too cruel"

Mr Arthur Emerson said, "Everyone has the same thought as yours. There is still time for that Exhibition Competition. CRIMSON SWORD HALL will conduct that event one year later".

"You have to train them if our warriors perform well. We can get more resources granted by our UNION"

Ms Key said, "Then it's fine, I will go prepare the content for the test". Then she left the Cabin.

Mr Arthur Emerson waited for her to exit. Then he created a simple barrier in the cabin. So that no one can eavesdrop. He looked at his Holowatch and called his friend. Soon a 3D holographic image was projected above the Holowatch. That person is none other than Mr James Lockwood.

Mr Arthur Emerson said, "James, I believe you already got the news; If Zack performs well and want to go for the competition; I'm pretty sure they will target him".

Mr James replied, "Don't worry he is a smart Kid, He knows went to move forward and recede back; to be on the safe side I will tell him everything".
