Chapter 37 - Successfully, Exit The Door.

Seeing the water sphere suspended in the air. The Dark wolf became cautioned. It never took his eyes off from the incoming water attack.

Marian Frazier pointed her attack focusing on top of the wolf's head. The Bluewater sphere quickly moved at a good speed and appeared above the wolf's head. The Dark wolf was quite startled. It deflected the water sphere with its pointy sharp tail.

As the wolf's tail came in contact with the sphere. It easily pierced through it. The water sphere gets splashed all over the place. The blue sphere failed to make a dent on it. But it sure made the wolf's whole body drenched in water.

Seeing the attack failed. The Dark wolf became confident. It's starting to intimidate Maria with its aura and growled furiously.

Maria Frazier mumbled herself. "The attack failed due to its not being a surprising attack. Considering the wolf's strength. It can easily defend or evade any frontal attack" she added, "The wolf's attribute is speed. It can easily injure me. But I hope the Sci-fi belt on its neck can hinder its speed just like another safety mechanism".

To be honest this is nothing more than a handicapped match. The Dark Wolf is being handicapped without a sci-fi belt it's impossible to defeat it. Maria Frazier thought.

She used both hands to hold her short sword. She moved forward and try to attack the Dark wolf's leg. Thereby, hindering its movements further.

Time Passed,

Whenever she came near the "X" mark. The Dark wolf used his full speed to attack her but it failed due to the sci-fi watch vibe. It may not be able to kill her. But it ended up succeeding in injuring her.

Seeing the blood dripping from her forearm. Maria Frazier stopped for a moment and try to take a small breath. She said to herself, " If this continues, I may end up getting my injuries to worsen". Her forearm was slightly pierced by Dark wolf's tail. She took care of her injury temporarily by taking some first aid from her storage ring.

She saved herself by getting out of the range of the "X" mark in time. Otherwise, the Dark wolf had a chance of piercing her bone through its tail.

Meanwhile, In the control room.

A lot of people working in this room. They were seated in a chair and operating from their monitoring screen. They were preparing to sedate the next batch of Class 1 Monsters.

Mr Arthur Emerson asked, "How long it will take for the next batch of Class 1 monsters to regain consciousness?". Hearing that one of the staff replied, "Maximum of Two hours, Sir".

Seeing the stats of Maria Frazier and Dark Wolf on A.i Monitor's Screen.

Mr Arthur Emerson said to Ms Adeline, " Will, She be able to pass the exit door". He further added, " Only plausible way to pass the exit door is by slowing down or fooling the dark wolf".

Hearing that Ms Adeline Key replied, "If it's someone, They won't have a chance; But Ms Maria Frazier being a Trainee Apprentice Warrior. May use her elemental power to Slow down the Dark wolf".

Hearing that Mr Arthur Emerson Smiled. He had a certain person came to his mind. He looked at the Entrance room. Found Zack and his classmates were seated and patiently waiting for their chance.

Mr Arthur Emerson Said, "We don't know, what is happening inside the arena? Ms Frazier got only two more hours before the test ends".

Ms Adeline furrowed her eyebrows, she asked, "Mr Arthur, Do you think Ms Frazier would decide to participate in CRIMSON SWORD HALL's exhibition match next year?".

Hearing that smile on Mr Arthur faces disappeared. He said without any emotion on his face, "Her father already informed the higher-ups that she won't participate" then he sighed.

Ms Adeline key asked, "Then what are we going to do for numbers, We will be short on candidates"

Mr Arthur Emerson looked at Zack for a second and shook his head. He thought his friend would kill him If he decided to use Zack. He said to Ms Adeline Key, "We had enough time to make some other plan".

Meanwhile, In the arena.

Maria Frazier crashed backwards heaving on the ground. She misjudged the attack power behind the Dark wolf's front paw. She used her short sword to defend the wolf's frontal attack in time.

She thought luckily they got a sci-fi belt on its neck. Otherwise, My heart would be ripped out. She stood up from the ground and looked at her Sword. The Bluish Short Sword shined brightly. It Did not get any scratch on it from the fierce attack.

She said to herself, " I cannot keep up with the Dark wolf's Speed. Every time, I plan to use my short sword to pierce its skin. The Dark wolf with its speed attribute got away easily".

Maria Frazier thought, My elemental energy reducing drastically. I cannot use the water sphere continuously anymore. She has been using the same tactics for the last two hours. She only got one more hour. She thought it is time to change the tactic.

Soon, She came up with a crazy idea.

She looked at the Dark wolf for a second and formed a large water sphere again with her remaining energy. She quickly moves ahead with good speed aiming at the Dark wolf's eyes.

This time the Dark wolf is slightly away from the exit door. Seeing Water attack came over its eyes. The wolf quickly used his front paw to pierce the water sphere.

Seeing the wolf is quite a distance from the exit door. Ms Maria Frazier after launching the attack she did not hold back. She ran straight toward the exit door.

The Dark wolf while piercing the water sphere attack from its front paw. It notices Maria went past the "X" mark ran towards the exit door. It furiously used his long tail to whip her.

Just as Maria went past the "X" mark. She notices the Dark wolf's tail is coming towards her. She quickly improvised by moving backwards and defended the sharp tail attack with her short sword horizontally.

Lucky for her the tail attack failed to make a dent on her short sword. hereby, pushing her even further with its pure attack power.

Maria Frazier successfully reached the exit door. She gasped for a long breath. She sat down at the exit door for a moment and look back at the Dark wolf.

The Dark wolf seeing Maria Frazier reached the exit door. It got furious with boiling rage. The Dark wolf wants to reach the exit door. But it quickly howled in pain due to "X" marks restrictions.

Seeing the Dark Wolf's stupid action. Maria stood up from the ground and shook her head smilingly. She then exited the door and went to the discussion hall.
