

BloodLine 45

Chapter 45 - Practice

One of the mosquitoes flapped its wings and came toward me. It's trying to suck my blood using its long blood-sucking organ. I felt disgusted by seeing it. So I immediately hold my Sword to Defend it.

I did not want to kill it immediately. They are very weak in strength. They use their instinct to find food. But unfortunately, they find me weak. If I use my strength to attack. It will fee away.

It has the same strength as mine. It is not fully grown to Class 1 Monster. So I am very confident in my safety. Soon it got annoyed The Class 1 Monster seems to know the prey this time is not easy.

It buzzed again calling his companion. Who is now roaming around the tent to find food? Seeing its partner's call. It came quickly and surrounded Zack.

Finally, I can use RECKONING CIRCLE. Seeing they came quite close to me. I summoned the attack. Soon a thin lightning circle starts to form around me.

It happens in a flip second. The pseudo monsters got quite startled. They felt scared. When seeing the circle of lightning. Having low I.Q they cannot judge the situation.

By that time duo felt overwhelmed with fear. The thin Violet lightning circle came in contact with their body. The Mosquitoes monster body was got electrocuted.

I heard some popping noise followed by a roasted smell. The pseudo monster body is fallen to the ground. They were completely fried. Then I removed my attack.

Seeing the effect of RECKONING CIRCLE. I was shocked inside. If I use this move with careful planning. It can be used as an effective attack move against the enemy.

A little thin energy can cause this much damage. It would be good if I can find Real Class 1 Monsters. I suspect the current level of this attack won't cause damage to them.

Their skin is really tough like that Black Spider. I hope in Advance Class they might give again the same blood kill test. Uncle told me that the test is used for senior students to gain their first kill.

I felt nothing by killing this monster. I once again looking at their bodies. Try to access the damage level. This knowledge will be quite useful for me.

I believe the popping sound must be due to the sudden burst of their internal organs. It must be quite overloaded. I smirked thinking that. I am glad about the arsenal that I have.

I removed their bodies and move back to my tent again to practise. I recovered drained lightning energy. I sighed. I only got half a day tomorrow. By that time I have to practise the Lightning Sword attack.

I removed the messy thoughts. I have clearly understood that It certainly needs a lot of time to adjust to New Black Sword. So I am going to do one step at a time. Then I began to make up my bed for sleep. I am exhausted.

Next Morning.

I got up early and meditate peacefully for more than an hour then I began to cultivate for some time. I don't know why I felt the concentration of lightning energy at night is quite high.

It's time after some practice. I decided to try the Sword attack. I came back to my conscious sphere. Which is nothing but my spiritual sense. I focused my gaze on the Sword rune.

I went through the information. After confirming each step. I decided to try it out. This comes in three moves. At first, I have to get familiar with using the black sword. Then I have to channel my lightning energy to charge this Sword.

This Sword acts as a small container or medium to project my lightning energy outside. I don't know what kind of technology they used to make an actual lightning container.

The last move was to aim at a target. So that the contained energy can be released all at once. An image crosses my mind. The warrior used this attack effectively to obliterate a large mountain.

No wonder he chooses the centre of gravity of the mountain as his target. Because if you miss a target. you have to recharge all over it again. So you have to use it effectively. I sighed thinking it.

So much process going behind the single attack. No wonder the Sword is black. It must be specifically used for lightning energy. I decided to try the first move. I took the black sword from my storage ring.

I began to try some sword moves slowly. The weight of the sword is a little hard to get adjusted. Time passes I followed the process as depicted in the future. Sometimes later. My watch buzzed indicating it's time to go home.

I began to regret it. I want to spend time here. This is the ideal place for me. How good it would be. If this place is near my home. I sighed maybe I should change the schedule of Advance Class.

I need two off days every week so that I can come here regularly. If I do that I will level up eventually. I formulated this good plan. Next, I removed my tent and began to pack my things.

After six hours of travel. I arrived home.

Seeing me coming to the garden. Granny park asked, " Zack, How did it go?" I smiled and took a seat beside her in the garden. " It went well Granny but that place is too far. Most of the time is gone by travelling." I replied.

Then I told her about my plans to spend weekdays at Mountain Liz. I am glad that She also supported my plan. We talked for few minutes before I went back to my room.

After some quick shower. I lazily laid on my bed and began to read articles from my sci-fi watch. Patiently waiting for dinner.

late at the dining table. Uncle James said, " Once you join the Advance Class Tomorrow. Be always on your guard. Don't trust anyone." He looked at me then added, "Even your classmates." Hearing that I nodded at him.

"I informed my friend Arthur about you. He assured me to take care of you. Though I believe in their protection. But I believe in self-help is the best help." uttered Uncle James.

Hearing that I asked, "Am I the only one going to participate in that tournament." " Yes, Don't worry about it. They will support you with the necessary resources. Because their stakes are quite high." I nodded at him. I don't care about these things as long as I got resources.

Furthermore, "He doesn't know your element. If he asks you tell him that you have yet to awaken your element." Uncle James added.

Granny park also seemed worried. Seeing that I said, "Don't worry guys. I do have some sense of measure. I can protect myself." Hearing that they got relaxed.

I have to acquire the necessary strength to get that Ancient inheritance in my body. Domain Physic Level 15. It's still a long distance for me. We talked for few minutes after having dinner. Later I went back to my room.

The next morning after arriving at Hansen Sword Centre. I plan to wait for Ms Adeliene Key in our training room. As I entered the room. I am being gazed at by my classmates.

"How come you pass the test. You must have been cheated." roared Marcus Moore.

I looked at him. There is no usual grin on his face. He had a crazy look on his face. Looks he doesn't have good sleep these days. I laughed internally. Seeing such a narrow-minded guy.

I didn't reply to him. I firmly believe that you cannot win an argument with stupid people. So I avoided him. Seeing that He got pissed off even further. He wanted to attack me this time.

Before Marcus thought Zack was weakling. So he didn't care about him. And acted highly in front of these girls. But now the reality is different. Not only the girls got passed. Zack also got a chance to learn in Advance Class.

He got embarrassed. When he got to know the results. He can't look at the eye of the girls. Maria and Candace were also waiting here beside Zack. They were encouraging the twin sisters. They don't care about the drama unfolding here.

So, Marcus Moore wanted to take out his anger on Zack. He came towards Zack and raised his fist to smack him. But poor soul quickly got pinned to the ground. Not by Zack. But Ms Adeline Key.

She entered the room at an exact moment. When Marcus walked towards Zack. Zack quickly noticed her. So he smirked internally. This bull going to have his judgment day today.

Ms Adeline Key was instructed by Mr Arthur Emerson to take care of Zack. She knows the reason. Zack is going to represent their centre in future. You have to make sure there is no accident. She felt especially on her watch.

She lost her mind. When she saw Marcus going to attack him.. She made her mind to teach him a lesson.
