Chapter 52 - Meeting With Seniors 2

Hearing the fat guy's bickering. Steven Conway got annoyed. "If you like to explain so much; you must say it clearly that I am at Mid-level of Trainer Apprentice Warrior; Not Trainee Warrior," told Steven.

"Max skipped a whole new level." One of the Senior Girls laughed saying that. She has covered the mouth with her hand. while laughing.

Max Stewart got quickly embarrassed. He changed the topic by saying, " You guys should introduce yourself." He pointed at the girls.

The girls were stopped laughing. The short girl stepped forward and said, "Hi, I am Ina Walker and She is Andrea Kramer."

I looked at their appearance. Ina Walker was short in height had black short hair. Her dress looks like Tuxedo. There is nothing special about it.

Andrea Kramer was the same as her. The only striking difference is their height. She is taller than Ina Walker. Both girls got an ordinary appearance of warriors. Both wore the same dress.

There is no glamour in their attire. The two girls belong to the wind element. But they were at an early stage like Max Stuart. Only Steven was at Mid-level may be something to do with his fire affinity.

After seniors introduced themselves. Next is our turn. There is no explanation need from our side apart from our name. For them, we were just newbies who yet awaken their element.

"So, All the introduction finished. Now it's time for training." Ms. Adeline key told to us.

Then she turned to senior students and said, "You guys can go and continue your training." Hearing that All of the senior students nodded and left the hall.

The only guys left behind were us.

"On the way, you have noticed multiple training room facilities." She added.

" Yes, especially there were special environment chambers." Replied Maria.

"It was special environment chambers. They Simulate harsh climatic conditions out there; Once you get used to it. You can fight Class 1 monsters in that region" said Ms. Adeline Key.

Hearing that Candace asked, " There will be a blood kill test again."

"No, For Senior students, they have to hunt and kill Class 1 Monster at an early stage of their evolution; They have to complete this assignment every weekend," Told Ms. Adeline key.

Then she turned towards us and smiling said, "Since you guys were not officially awakened; You have to hunt lower-level Monsters. Such as Pseudo Monsters."

I can understand. Why she used the term officially. They didn't inform Senior Students that we have passed the blood kill test. It was a secret test after all.

I asked, "is that Everyone has to hunt individually?"

Maria and Candace had an expecting look on their faces. Looks like Candace and Maria also had the same doubts as me.

Ms. Adeline Key said, " It's up to you guys. But the kill count should be at least three. If you guys decided to form a team."

I interjected immediately by saying, "Nope it won't work. I had a different schedule; Then it's just a Pseudo Monster. I can hunt whenever I got the free time."

But internally I sighed. I too want to hunt Class 1 Monsters with Seniors.

Ms. Adeline Key didn't refute my argument. She said, " It's fine. But we will give you the location. Where to hunt the Monsters. And you will hunt Specific Monsters according to your Assignments."

Hearing that All of us had no problem with it

Ms. Adeline Key said, " For that, you have to familiarise yourself with the location. That's where the help of the special environment chambers Comes."

Then she added, "You guys will train here. until your assignment comes."

She left the hall by saying that. Then Maria and Candace choose separate environment chambers. I too choose the gravity chamber. It does not come under a special environment chamber.

It's made for physical training. That's why I am more interested in it.

As I enter the training room for Gravity Chamber. I noticed there were multiple specially designed small rooms that were installed from left to right.

There were six rooms in total. Starting from level 1 Basic to level 6 Peak. They were divided into difficulties and based on the cultivation of warriors.

I entered the basic level room. It was made from rare metal. It was quite thick. Its thickness can be compared to the trunk of a tree. It was very broad.

The door closed automatically. After I entered the chamber. I looked around there is no extra space. It has enough space for one person to move his body around.

I stretched my hand. They were exactly an inch away from the wall of the chamber. Such an enclosed space. I sighed thinking that.

Then I scanned my details in the chamber on A. I monitor the screen.

The timer was set for ten minutes.

As the countdown started. The huge force pulled me down like suction. Luckily I stand firmly on the floor. Even though I have to bend myself little to alleviate pressure on my back.

My breathing seems to be irregular. I need to adjust myself for this gravity. So that I can catch some breath.

Ten minutes later. The timer was turned off and the gravity return to normal. I sat on the ground. There was sweat all over my body. Made me look like soaking in a hot water.

I am still catching my breath. I didn't want to turn on the timer yet.

I thought me being at the Mid-level of the cultivation. It's easy to clear the basic level. But looks like no one has yet to use the Advance gravity chambers.

Considering the fact beside me and Steven there is no one at Mid-level. Sometime later. I began to practice in the gravity chamber.

Meanwhile, Maria and Candace also choose their respective chambers. They also had a similar situation as Zack. Maria her being a water element user. She chooses to train in the underwater pressure chamber. But she can't hold her breath more than twenty seconds under the water.

Candace chooses the dessert training chamber. It is an artificially created environment. Even though it's not worse compare to the real thing.

An increase in temperature made Candace dehydrated immediately. She chooses to reduce her training time a little. Days when like that trio immersed in their new practice session.

Over the days, Zack got accustomed to Basic Gravity Chamber. He decided to train his First move of the Sword attack technique. He believed once he get success in training his technique with Black Sword.

Then his Sword movement will be very fluent. He was so into it that He didn't allocate a schedule for the library anymore.

Soon, The weekend came it was time for an assignment.

In discussion hall.

I was chatting with my senior Max. We had a conversation about the Class 1 Monster that He has killed so far in his assignments.

He told me that according to the difficulty of their assignment. They will decide to form a team.

As we were discussing. I heard footsteps from the front door. "Looks like Ms. Adeline Key came with our assignments," told Max.

We got up from our seats. So did the rest of us. Maria and Candace had a conversation with the Senior Girls. Steven Conway didn't join us today. Don't know why?

"I got an assignment for all of you; I will send it to your contact." Then she sends the assignment to our sci-fi watch.

Then all of us received assignments. I read the assignment on my sci-fi watch. My lips curved a little.

"White Stripped Forest Spider" I commented in my heart.

I did not know what to say. Did the management decide to come up with the monster? Seeing that I failed to kill that Black Spider last time.

I sighed a little. It is not comparable to a black spider. Which is a Class 1 Monster. But unlike other spiders this forest spider is clever. even smarter than a black spider in some ways. It won't attack you with beast instinct.

If it feels it's weaker than the opponent. It won't hesitate to flee.

I have to come up with a good plan. So that I can kill it and cultivate my blood element.

I left the hall saying goodbye. It is already too late to catch my train. Hope I will get there in time. I waste my time there in the discussion hall. Waiting to collect my assignment.

Ms. Adeline Key has to follow the procedure. We have to sign a consensus letter in front of her. The A.I Monitor screen also records this activity.

To deal with future troubles.

Sometimes later,

Finally, I relaxed after I boarded the train in time.

I took the window seat. And began to formulate a plan to kill a white spider. Thanks to the library. I can know about this monster. The habitat of this Monster is the Pinewood forest. Which is located near Pinewood city. Which is a Tier-8 city like Red stone city of ours.

According to Map data. This forest is quite large. I don't know if I will cross-path with Class 1 Monster. Then it would be worth the trip. I should discuss with Uncle James.. Maybe he knows things that I don't have access to.
