Chapter 601 The death of the Supreme Elder and Franklin

From MC's perspective:

I looked at Dean Rebecca. She wants me to spill the truth.

"Sigh"

A sigh escaped from my mouth. Then I started to tell them about the Giant Tower Headmaster and the Supreme Elder.

I'm going to omit some important things. Then I included the supreme elder's obsession with the forbidden potion.

What forced him to attack me?

A few minutes later,

Gasp~

A small exclamation can be heard in the room.

Dean Rebecca was fine. As she knew the news firsthand. But the other faction heads are shocked.

The news is hard for them to digest. The Rain Water Faction Head Alice Brown quickly connected the dots. Lots of her doubts regarding Azure City were cleared.

"So what happened to Carlos Kent?"

"Is his disappearance related to the Supreme Elder?"

Marcus Lin asked. The absence of Carlos Kent has been bothering everyone's mind. No one knows the exact reason for his disappearance.

To his question, Dean Rebecca looked at me again.

"Faction Head Carlos was the first one to discover the problem. Later, he avoided meeting the Supreme elder to save his own life," I answered.

Hearing that a look of understanding dawned on everyone.

Rebecca showed complicated emotions. Earlier, she made up her mind to resign from the post. Now she doesn't know the condition of the supreme elder.

After knowing that Zack's support has arrived. She can guess that the supreme elder is unlikely to survive.

"So what happens now?" Rebecca muttered.

Alice Brown thought of something.

She asked, "What about Franklin Madden?"

Everyone realized that Franklin was on the side of the Supreme Elder. Now his fate is unknown.

"Alright," Rebecca said.

"First, we need to control the news. I don't want the supreme elder's news to be exposed. Otherwise, our academy will face unknown threats from all directions," Rebecca added.

Hearing that everyone nodded their head. They can understand without the protection of the Supreme elder. The other big academies might target them.

Shortly after, everyone left. Leaving me and Dean alone in the cabin.

"Should I continue or not?" Rebecca asked.

I sighed inwardly. I never expected the old man to seek his death. Now the academy has no protection.

If Dean Rebecca quits, then it will do more harm than good.

"Dean, I think you can continue. But before we have to capture Franklin."

"If he leaks out the information, then it would cause a serious catastrophe," I said.

Rebecca has the same idea as Zack. She can't leave the Academy just like that. Now the Academy needs her more.

Then I left the room a few minutes later.

Rebecca sent out the guardians to look for Franklin Madden. Right now, he is nowhere to be found.

She fears that he might escape the jurisdiction of the academy.

Meanwhile,

Jonathan had made sure that the old man could rest in peace. After killing and destroying the traces, he left the place immediately.

But on his way to Viper City. He came across someone else.

The person is none other than Franklin Madden. Both of them are flying in the air.

Seeing that Franklin is coming towards him. Jonathan quickly remembers the scene where this guy stood behind the Supreme elder and openly mocked the young master Zack.

After the supreme elder, he wanted young master Zack dead. A cold glint flashes in Jonathan's eyes.

At the same time, Franklin is fleeing in a hurry. He doesn't know what happened to the Supreme elder. But he can tell that someone blocked his attack.

And it has something to do with the lightning brat. If he stays there any longer, he could die.

Then suddenly he paused his movements. He noticed someone coming in the opposite direction.

Before he knew it the stranger's gaze was locked on him. Franklin startled all of a sudden. The next second, a hint of anger appeared on his face.

He was already running for his life. But all of a sudden, nobody is blocking his path.

"Who are you?" Before he could complete his words. The stranger's fist hit his face.

Boom~

The force sent him flying. Then finally, his body crashed onto the ground.

Argh~

A muffled grunt escaped from his mouth.

It was just a casual punch from Jonathan. But Franklin was unable to block it.

Jonathan landed on the ground just before Franklin Madden.

Franklin Madden felt pain all over his body. His head is aching as well. When he regained his clarity. He saw someone standing before him.

Then the memories come to his mind. Instead of anger, a cold shiver went down his spine.

"Sir, who are you?" He asked in a trembling tone.

Jonathan snorted coldly. He didn't answer Franklin.

He observed him from top to bottom.

"Where are you going?" He asked.

Hearing that Franklin was stunned for a moment. He doesn't know the person before him? Then why is he asking?

Suddenly, he seemed to think of something.

Before him, the supreme elder fled from the academy. Then the person before him is?

As this thought comes to his mind. He sucked a cold breath of air.

The next second, he tries to flee with his injured body. But he found his body turned stiff.

Jonathan completely locked him. He knows what will happen if this person leaks the truth. Then the whole academy might face danger.

Pfff~

Jonathan tightens the coercion. Blood spilled from Franklin's mouth. A bone-cracking sound can be heard clearly.

Franklin feels heart-wrenching pain. But he wasn't able to let out a scream. The whole body is shrinking under the pressure.

Jonathan is squeezing Franklin's body.

A few minutes later,

Another cold corpse dropped on the ground. Jonathan picked up his body and started moving towards Viper City.

Time files,

In the dormitory room,

I started taking a rest. At the same time, I'm waiting for Jonathan's arrival. The result of the life-or-death duel has already started spreading like wildfire.

I didn't expect my momentary decision would shoot up my fame just like that.

Even the Flame faction members are posting good things about me. But if they know about their faction head's condition.

I wonder what they would think?

Not long after, I heard a call from Jonathan. When I opened the door. I found Jonathan standing outside.

"Young master, I brought good news for you," Saying that Jonathan walked into the room.

Hearing that I closed the door and looked at him.

"Young master, I dealt with the old man."

"And at the same time, I also solved another nuisance," After saying that he dropped the corpse on the floor.

When I saw the face of the corpse. A hint of disbelief flashes in my eyes.

"Franklin Madden," I uttered in disbelief.

So Jonathan killed him in the end. The next second, I felt a huge relief. Another danger was solved.

I asked, "So what next?"

Jonathan's expression turned serious for a moment. Things have gone beyond the plans.

Now the supreme elder is dead. The academy is now without protection. Earlier, he thought about sending Zack back to his hometown.

But now it appears unnecessary.

"Young master, I think you can stay here. I will also ask Carlos Kent to come."

"The Giant Tower Academy might know the old man's seat," Jonathan added.

Hearing that my expression changes drastically.

"How?" I blurted out in surprise. Apart from the faction heads and the dean, no other person should know about the news.

On the other hand, Jonathan recalled the last moment of the Supreme elder. The old man's body turned into black liquid.

At the time, he had a vague guess about the black liquid. It must be the work of a forbidden potion.

Then Jonathan explained the details to Zack.

A few minutes later,

A hint of apprehension appeared in my eyes.

"The forbidden potion is scary," I muttered to myself.

Jonathan seems to have made some decisions. He already cut off the tentacles. Now the remaining people are the Giant Tower Headmaster and the mysterious person behind him.

"Young master, don't worry. I will take care of those people," After saying that he decided to leave.

"By the way, this body," I asked.

Jonathan took the body before leaving.

After closing the door, I clutched my head. I don't know what's going to happen in the coming days.

The next day,

When I walked out of the dormitory. I saw Ernest and Laverne waiting for me.

"You guys are early again," I said jokingly.

"Zack, your fame has risen again."

"Didn't expect the flame faction guys to share the good news about you," Ernest said.

Hearing that I thought about Kane Patrick.

"How is he?" I asked.

"Are you asking about Kane?" Laverne asked.

I nodded my head in response.

"He is still in the infirmary. I heard it will take a few days for him to recover," Laverne said.

"It's good," I replied. Then we started walking towards the dining hall.

When we reached the spot. The place was crowded with people. They are not here for the foot. But for me.

Three of us stood still in front of the entrance.

Chapter 602 Michael's return

Giant Tower Academy:

The Giant Tower Headmaster was disappointed with Zack's duel result. He has been waiting to hear the good news earlier. But he doesn't know what happened.

The Supreme elder of the Saw Scale Viper Academy failed him again.

Sitting in his room, he wasn't able to control his anger. He wants to destroy all the things here.

"I should have known. That old man was not willing to kill that kid," He gritted his teeth in anger.

The mysterious person had warned him earlier. He wanted that kid somehow. But now how is he going to do it? His trump card failed.

In a fury, he tried to contact the Supreme elder. As the seconds pass, his frustration only increases. Because the call was not connected at all.

"What's happening out here?" He starts yelling out in frustration. The situation here is not good nowadays.

There are factions in the Giant Tower Academy who want him out. Some of them already suspected him of hollowing out the academy treasure.

When it comes to the treasury. He couldn't help but think of Carlos Kent. He had lost wealth because of that culprit. His heart wants to be shredded into pieces.

But it's a pity that his hideout is difficult to find. After pushing down these thoughts, he began to ponder the pressing issue.

If he delays any longer to kill that kid. The mysterious person won't give him any chances. Thinking about it, a deep chill went down his spine.

"No!"

"I have to hurry," He muttered to himself.

Last time, he went to Viper City. But for some important reason. He had to return quickly.

This time he plans to go there again. Only there he can get the opportunity to kill that kid. There is also a second way where he can ask the supreme elder to arrange something.

But right now, he doesn't believe him at all. This plan he wants to carry out alone.

A cold glint flashes in his eyes.

...

From MC's perspective:

The dining hall,

Seeing the crowd, I couldn't help but think about returning. It's impossible to have a peaceful breakfast here.

But before I could speak. Ernest dragged me inside. Somehow, the crowd gave us a way forward.

Then we reached the food counter to receive the food. The staff is looking at me with an excited face.

I ignored her before returning with Ernest and Laverne. We found an empty seat at the corner.

But from beginning to end. The warriors kept staring at us.

"It's uncomfortable," Laverne muttered.

We sat on the seat and started consuming the food. Seeing that the warriors around us started having their breakfast as well.

"Now no one will challenge you in the elite stage. But things will change once you step into the Super Elite," Ernest commented.

Hearing that I paused my movements.

"What?"

"Am I right?" Ernest asked.

I looked at him before nodding my head. They don't know that the supreme elder is gone. And it's time for the academy to stay low-key.

"So Zack, what's your next plan?" Laverne asked.

"Me?"

"I'll try to touch the barrier first. Then I'll attempt to break through," I answered.

Hearing that both of them weren't surprised.

It's been some time since I have been in the elite stage. Partially, because of the lack of lightning resources here.

Then we continued eating. But not long after, an unwelcome guest visited us.

"Oh, you guys are here!"

"What a coincidence?"

"Then I'll join you guys for breakfast"

A sarcastic voice reached our ears. When I turned around, we saw a familiar person coming towards us.

"Michael," Laverne said in a trembling tone.

Ernest's face was discolored as well. No one expected this troublemaker to come.

Michael Blevins smiled coldly at everyone's reactions. Then he turned toward Zack.

"Zack, congratulations on your win"

"You protected the name of our special faction."

"But I hope you won't break in a hurry," he said as he sat beside Ernest.

Hearing that everyone turned towards him.

But I controlled the laughter in my heart. His family didn't know that one of their backs was gone.

There will be no more support from him. Now the dean can act freely. She won't hesitate to punish those criminals in the Azure City.

On the other hand, Michael continued to say.

"I guess, you guys must have understood something."

"Well, if Zack becomes Super Elite Warrior. Then I'll challenge him for a life-or-death duel," Michael said.

"Michael?"

"Are you out of your mind?"

"We belong to the same faction," Ernest said in a solemn tone.

Laverne's expression turned ugly as well.

My eyes turned cold. This guy's courage is commendable. But I don't know whose idea it is.

"What Zack?"

"Are you afraid?" Michael asked with a chuckle.

But I kept myself calm and composed.

Then I replied, "I don't have time to waste."

I simply ignored him before continuing to eat the food. Laverne almost laughed out loud.

But she controlled her emotions in time.

Ernest revealed a small smile on his face.

Seeing that everyone is ignoring him. Michael's face turned dark. The reason for his return was Zack.

Before coming here, he heard interesting information from his father. His father's acquaintance wants Zack dead.

He doesn't know the backstory. But Zack's existence is making trouble for someone.

Then Michael accepted the task from his father. He will try to end Zack's life here. If he can accomplish this, then his father's strength will increase further.

But when he heard that Zack was participating in the life-or-death duel yesterday. He thought it was a good chance.

It's a pity that Zack won the duel in the end. He found another way to kill Zack. Which is to have a similar duel when Zack reaches the Super Elite.

That's why he came here to set a trap. But Zack Lockwood is not agreeing at all.

"I want to see. How long are you going to hide?" Michael said in his heart.

Seeing that three of them are still focusing on having food. He left the place.

"Sigh"

"He is gone," Laverne said with a sigh.

"Why is he asking for a life-or-death duel?" Ernest raised the question.

Then he thought of something.

Ernest asked, "Did he find out your help to Laverne's family?"

"It's possible," Laverne added.

"I don't think so," I answered. Not that many know about my help to Laverne's family.

Except for both, the dean and Jonathan know.

And Michale can't have interaction with both of them.

20 minutes later,

We walked out of the dining hall.

"Shall we go to the monster zone?"

"It's been some time since the three of us joined together," Laverne said.

Hearing that I agreed immediately.

Then three of us started heading towards the teleportation tower.

Time flies,

At noon time, another person came back to the academy unexpectedly. He is none other than Carlos Kent.

After entering into the Academy space. He couldn't help but stop and take a look at the Academy.

"I'm back," He said in an excited tone.

When was the last time he had this feeling? It's because of the Supreme Elder he had to leave the Academy.

Now that person is no more. He couldn't believe it at first when Jonathan told him. He thought it was an imagination.

But when he saw the corpse of Franklin Madden. A cold shiver went down his spine. Because the corpse belongs to the warrior SSS-Elite Rank. Similar strength to him.

He doesn't know when Franklin broke through. But looking at his cold corpse at that time. He realized that the news was true.

Also at that, he realized his strength as Jonathan. To think he is someone who can kill the Supreme elder.

Then he has no rival in this region. Only after knowing that he dared to come back.

After pushing down these thoughts, he moved to the office building.

In the monster zone,

The Cat-type Class-6 Monster is giving us a tough fight. But thanks to Ernest and Laverne's relentless attack.

The monster has weakened a lot.

Ernest once again released the soil attack to trap the monster. But the cat monster was agile. It continues to evade the attack.

"Zack, do you have any purple essence left?" Laverne asked.

Hearing that I nodded my head. I have enough to release one lightning attack. But the cat monster is extremely fast.

All of a sudden the cat monster ignored them and started charging against me.

Maybe the monster thought I was weak. As I'm the one who is standing behind them.

Ernest and Laverne stopped attacking and turned towards me.

When the monster got closer to me. It raised its massive claw to attack me.

"Lightning Wheel"

I released the lightning attack. The next second, a purple lightning wheel appeared around me.

The monster was startled. But it was too late to avoid the clash.

Bang!

A deafening sound reverberated throughout the area.

As the lightning wheel explodes. The monster took the direct brunt of it and crashed into the ground.

Chapter 603 Practicing the lightning ability

From MC's perspective:

Time flies,

After hunting in the monster zone. We returned to the academy when it was dark. All of us have collected a significant amount of monster cores.

With this, I'm hoping to touch the barrier in my body strength soon.

The next day,

After getting out of bed. I went to the training room to cultivate. I have a good feeling that today might be the day when I touch the barrier.

Walking into the room, I sat down cross-legged on the floor.

Then I took the Class-5 Monster core from the storage ring and held it in my hand. I started to run the blood element method.

The next second, the bloody rune in my consciousness started to flicker. Slowly, I started to absorb the monster's core energies.

When the monster's energies entered my body. I guided the energy according to the blood element method.

Slowly, a red blood light appears above the bloodstream. The red light starts to convert the monster's energies into mysterious white energies.

The white energies then started drilling into bones. Which causes the heart-wrenching pain the next moment.

Enduring it, I continued the process. At the same time, the back of my neck bones are turning red.

Once it is completed then my entire upper half of the skeleton expects the head to be red.

An hour later,

I suddenly felt the body limit. Something restricting my improvement of strength. Undoubtedly, this is a barrier for the Mid-mid-super elite stage.

Feeling the barrier, the hanging stone in my heart disappeared. This time it took me many days to touch the barrier for the Mid-Super Elite stage.

A faint smile appeared on my face. Then in one or two days, I will get a breakthrough.

Then I closed my eyes and continued to repeat the process. So that I can hit the barrier.

As the seconds passed, I felt no change in the barrier. As it was rock solid. It might need a lot of refined monster energies to break the barrier.

I'm not disappointed. Rather, I'm pleased by the appearance of the barrier. I can certainly wait for a few more days.

Then I stood up from the ground and left the room in a hurry. As there are black impurities all over my skin.

20 minutes later,

After having a bath, I changed into the academy uniform. Then I began to get ready.

Meanwhile,

The Giant Tower Headmaster was on his way to Viper City. This is the 2nd time he is going to enter Viper City.

He had made up his mind to accomplish the task somehow. Otherwise, he will face a horrible death.

The mysterious person behind had made it clear to him. He won't give him another chance.

While this was happening. Jonathan is going around Tower City in search of clues. He doesn't know that the Giant Tower Headmaster has already left the Academy.

On the other hand,

The mysterious warrior from the inner post is spending his time weakening the barrier. He has attained some success in its scheme.

But still, his strength is limited here. If he reveals his strength the space barrier of the outer post will be affected.

If it happens, then it will be a matter of time before people are looking for him.

That's why he had planned to use several academies as bases for his plans. Which is a long-term goal.

But the problem is each of the big academies has the commander rank powerhouse. They are the Supreme elders of the academy. Which is also the limit of the outer post.

If a warrior wants to break through further. Then he has to enter the Inner post.

Amongst the six academies. He had managed to subdue one dying b@stard. But still, the progress was enough.

He has to subdue the other 5 academies as well. The Supreme Elder of the Giant Tower Academy hasn't shown any weakness.

Which is why he subdued the Headmaster of that academy? But now things are going bad.

He has found interference of another inner post force. When he learns the background information of the warrior named Zack Lockwood who is a lightning element warrior.

He had a good idea of the force behind this kid.

That force is an enemy organization. The mysterious person doesn't want to be exposed. And at the same time, he wants to destroy the lightning seed of the enemy organization.

In many places, lightning seeds are considered to be rare. So he doesn't want the enemy organization to gain exceptional seed.

What he doesn't know is that a certain someone is already looking for his whereabouts.

Meanwhile,

I left the dormitory and headed to the dining hall. Today, I have decided to practice my lightning ability. Which will become a trump card for me in the future.

Shortly after, I reached the dining hall.

Ernest and Laverne are there. Then I also spotted troublesome Michael Blevins.

"Zack?"

"Did you hear the news?" Ernest asked.

Hearing that I looked at both of their serious expressions.

"Our faction head is back," Laverne said.

A hint of surprise flashes in my eyes.

But I controlled my emotions. Jonathan had already informed me of this. Since the old man was gone. There is no threat to him.

"Really?" I asked back.

Ernest rolled his eyes at me.

"I think you have heard it already," Laverne added.

I smiled in response before saying, "Don't worry, the faction head won't do anything against us."

Ernest and Laverne looked at each other. They also heard some recent rumors. Their faction head was gone for some time before coming back again.

Then we entered inside. Not long after, Michael Blevins followed us.

"He is still looking for the life or death duel," Ernest said.

Hearing that I laughed in my heart. In a few days, I will reach the Mid-Super Elite Stage. When it happens, I can easily fight across the ranks.

The Peak- Super Elite Stage will be no threat to me.

Michael also found an empty seat to sit down and eat. We also brought our food to an empty place.

Several minutes later,

Three of us started walking towards the training area. After reaching the training area, we entered a different training room.

Laverne and Ernest walked into the Gravity Chamber. When I entered the puppet training room.

In the puppet training room,

I selected the wooden puppet for practice. The wooden puppet here can withstand the attack of the elite stage.

When the wooden puppet appeared above the platform. I tried to engage in close combat.

The wooden puppet has the basic settings. It can move sideways, forward, and backward. Most warriors use the wooden puppet for target practice.

But here I'm going to use it for first practice.

I started to use the lightning ability. A small purple arc appeared in my palm. Seeing that I clenched my fist and punched the wooden puppet.

Boom!

A loud sound reverberated in the room.

When the dust settles down. The scene became clear to me.

The wooden puppet cracked in the middle. But it was the result of my body strength.

There is a small amount of darkness in the middle. This must be the result of the purple arc. Seeing that I tried to increase the purple arc in my palms.

Time flies,

I don't know how many wooden puppets were broken. But in these few hours, I have managed to increase the purple arcs.

Now the purple arcs can cover my fist. But it needs greater concentration. Otherwise, the purple arc disappears the next second.

Then I left the training room a few minutes later. The lightning essence in Dantian has emptied.

Next, I have to cultivate again to recover the lightning essence. Soon, I reached the room.

The next day,

I woke up earlier. After walking into the training room, I sat down cross-legged on the ground.

Then I took another Class-6 Monster core in my hand. I started to run the blood element method as usual.

The bloody rune in my consciousness started to flicker.

Slowly, I started to absorb the monster's core energy. When the energy entered my body. I guided the energy according to the mental method.

The red light appears in the bloodstream again. The blood light began to convert the monster's core energy into white energy.

The white energy then started drilling into my bones. Seeing that I continued to endure it.

The skull starts to become red again. Not long after, I tried to attack the barrier.

Time flies,

After a few hours, I opened my eyes. But a trace of disappointment flashes in my eyes.

The barrier remained unscathed. But the monster core in my hands crumbles into pieces.

Then I got up and left the room.

After several minutes, I changed to academy clothes again. Then I sat on the sofa to take a look at the online post.

I wonder what Carlos Kent is doing? He seems to be avoiding us. Then I saw many online posts.

But they are just normal posts. Nothing is important. Then I started to scroll down the page.

Suddenly, I paused on a particular post which was about Michael Blevins.

Chapter 604 Mid-Super Elite Stage (Body Strength)

From MC's perspective:

Michael Blevins' appearance has caused a lot more noise than expected. Before me, he was the face of the Special Faction.

Looks like he wants to regain his prestige back.

I stopped looking at the online post before deciding to go about my business.

Time flies,

After having breakfast with friends, I got myself immersed in training again.

Meanwhile,

The Giant Tower Headmaster appeared in Viper City. His presence was low-key. No one knows his identity other than some spies.

But this time, he didn't even let the spies know. He randomly found a hotel to stay in.

On the other hand, Jonathan also secretly investigates the tower city. Instead of targeting the unknown people. He decides to target people who are close to the Giant Tower Headmaster.

This will take some time. But he knows that there is no real threat left back in the academy. So Zack Lockwood can stay there safely.

He had eliminated the 2 threats quickly. But here in Tower City. He has to show some patience.

The next day,

In the training room, I sat down cross-legged to cultivate. I hope this time there will be a breakthrough.

After taking another Class-6 monster core out. I started to run the blood element method as usual.

As the monster's core energies entered the body. I started to circulate the energies. Sway, the red blood light appears above the bloodstream.

They started to convert the monster energies into white energies as usual.

The mysterious white energy then starts drilling into my bones. Enduring the heart-wrenching pain.

I continued the process. The remaining part of the skull slowly turns red. The process was slow. Little by little. But the pain makes me feel older.

I closed my eyes and immersed myself in the process.

A few hours later,

Click~

I felt something shattered. The next moment, I felt a huge weight lifted off my shoulder.

Then a new wave of energy starts to improve my body strength.

"I broke through," I opened my eyes in joy. I broke through before the expected days.

"Now I'm a Mid-Super Elite stage warrior," I mumbled under my breath.

My body strength has reached the mid-stage in Super Elite. Next, I should focus on getting my essence breakthrough to reach the early stage of the Super Elite.

Then I closed my eyes and started to feel the improvement. Not only did I get a breakthrough. But my domain physique has increased further.

I don't know what stage of domain physique is exactly at. Only after accepting the inheritance. I can say for sure.

The increase in body strength also expelled the impurities in the body. A thick layer of impurities covered my skill.

I raised my eyebrows in confusion. These impurities must be coming from bones. The monster energy has become part of my bones.

It would be no surprise. If the impurities are coming from it. Then I didn't get up, instead, I took another monster core to consolidate my new strength.

An hour later,

I opened my eyes. But I have only used half of the monster core energy. So I placed it back in the storage ring for tomorrow's cultivation.

Then I got up from the ground and left the room.

20 minutes later,

After completing the bath, I changed into academy clothes. Then I left the dormitory room after getting ready.

Since my purple essence has hit rock bottom. Now it's time to go back to the twin mountain peak. I hope the dean arranges it.

On the way to the dining hall. I couldn't help but think of Jonathan. He had warned me not to go outside. The academy was the safest place for me right now.

But my lightning cultivation is getting delayed. It's not as fast as body cultivation.

A quick glint flashes in my eyes.

Without the purple essence, I can't do anything. Whether it's to hunt the monsters in the monster zone or practicing the lightning attack. I need the purple essence.

Otherwise, I have to rely on body strength. Then I suddenly thought of something.

There are guardians with me. Even if someone dares to trouble. They can easily take care of it.

After figuring it out, I decided to go out today. By that time, I had already walked in front of the dining hall.

Seeing Ernest and Laverne at the entrance. I smiled at them.

"Did you read the news?" Laverne asked.

"What's going on this time?" I jokingly asked back.

Then all of us started walking into the hall.

Ernest took the moment to explain.

He said, "Basically, the flame faction head was nowhere to be found. The flame faction warriors are panicking."

My eyes flickered. I know what happened to him. He has become the property of Jonathan. But I kept my expression calm.

"What could happen to him?"

"I heard the boasting of flame faction warriors the other day. The flame faction head wants to become the next dean," Laverne sneered.

Hearing that, I wasn't surprised. But they don't know that before death Franklin had the strength of an SSS-Elite stage warrior.

Even today, I'm wondering what the exact strength of Jonathan is. Whenever I ask him, he never gives me the correct answer.

After receiving the food, we sat on the corner seats.

"Michael is showing off again. He is telling others that he has no rivals in the elite stage," Ernest said.

Laverne also started to respond.

While hearing both of them. I silently started to eat food.

Suddenly, I thought of something.

"What about Kane Patrick?" I asked.

Both of them looked at me in surprise.

"I thought you were not interested in our conversation," Laverne said.

"I'm hungry," I replied.

Laverne rolled her eyes at me.

"For warriors of our stage. We can skip the food for a couple of days. But it's a pity, it has become our daily habit to eat," Ernest said.

Hearing that I couldn't help but think of Granny Park and Uncle James. I wonder what's going on there?

Chapter 605 Danger is coming

From MC's perspective:

"Zack?" Laverne called out my name.

Hearing that my thoughts returned to reality.

"Ah, it's nothing," I continued to eat.

Ernest and Laverne looked at each other.

They understood something bothering Zack's mind. So they continued to eat without disturbing him.

20 minutes later,

We walked out of the dining hall.

"Zack, are you coming with us to the monster zone?" Laverne asked.

"No, I have a different plan. You guys can go without me," I replied.

Hearing that Ernest and Laverne got separated here. They started heading towards the teleportation tower.

As for me, I decided to go to the office building.

Soon, I reached the place. As I walked upstairs, I came across the faction heads' cabin.

Last time, Dean's destruction has caused them to locate further from her place.

When I walked past the cabin. I came across Carlos Kent. Upon seeing me, he registered a bright smile on his face.

Seeing that I felt goosebumps all over my body.

"Mr. Carlos," I gritted him with a smile.

Getting a good response from Zack. Carlos has become more enthusiastic. He always feared that Zack would get vengeance. He just needs to tell Jonathan, if there is any dissatisfaction.

Then his life will be over. Now he feels more relaxed.

On the other hand, I ignored his self-imagination and started walking towards the dean cabin.

When I reached her place.

"Creak"

The door opened automatically.

Seeing that I walked inside. Dean Rebecca as usual working something on her screen.

I sat opposite her.

"Zack?"

"What's the matter?" Rebecca asked.

Hearing that I looked at her. She looked extremely tired. Her eyes were swollen.

"Dean, what happened to you?" I asked.

"Sigh"

Rebecca let out a sigh before saying, "Me and other faction heads are looking for Franklin day and night. But we found no clue."

My mouth twitched. No wonder the post about his disappearance started to trend.

Suddenly, I felt a sense of guilt.

"Haven't I told anything to Jonathan?" I said in my heart.

Then I looked at her and decided to let her know.

"Dean, you should call back others," I said.

Rebecca stunned before looking at Zack suspiciously.

She asked, "Do you know something?"

"He is dead. You guys can stop your search now," I replied casually.

But a hint of disbelief appeared on Rebecca's face. Looking at Zack's serious face. She doesn't think it's a joke.

"Who are you guys?" She asked.

She clearly remembers the strength of Franklin. He had broken through recently. But it's not easy to take him down without making any noise.

I don't know whether to laugh or cry. I'm asking the same question to Jonathan. But he didn't respond to me.

"Dean, it's real. You can take it easy," I said.

Rebecca took some seconds to calm down.

Then she quickly called others to inform.

At the same time, I thought of one more culprit. Carlos Kent should know about this. Otherwise he won't dare to step inside.

A few minutes later,

Dean Rebecca recovered to her usual self.

Then she looked at her Zack.

"So why are you here for now?" She asked.

"Dean, I'm planning to go to the twin mountain peak," I replied.

Dean Rebecca understood something.

Then she informed the guardians to come here.

10 minutes later,

The guardians appeared. Then I left the place with them.

When we appeared outside. The male guardian grabbed my shoulder and appeared in the mid air.

Then he started heading towards the destination. The female guardian followed me from behind.

Time flies,

Soon we reached Viper City. The guardians crossed the place in a blink of an eye.

On the other hand, the Giant Tower Headmaster who was looking at the sky from his hotel room window, suddenly spotted something in the sky.

He found three silhouettes in the sky. But among the three. Only 2 of them seem to be flying.

One of them seems to be carried by someone. This strange thing caught his attention.

His heart tells him to follow them. Why doesn't he? He feels it's important.

A quick glint flashes in his eyes.

The next second, he starts to get ready.

In meantime, the guardians have crossed some distance.

By that time, the Giant Tower Headmaster appeared in mid air. It's already been 5 minutes.

But the Giant Tower Headmaster knows the direction. He explodes at a breakneck speed before moving in the direction.

Time flies,

After a few hours, the guardians arrived at the twin peak successfully. The other hand, the Giant Tower Headmaster lost direction before finding the actual path.

Shortly after, we landed on the main peak. A heavy rain is as usual pouring down in this place.

Soon, I activated the barrier. And sat down cross-legged on the ground.

Both the guardians stood not far away from me.

I closed my eyes and started to run the lightning scripture. The next second, the lightning rune in my consciousness starts to flicker.

Slowly, I started to absorb the purple essence from the surroundings.

When the purple energy entered the body. I started to run the purple energy according to the lightning scripture.

After circulation, the purple energy enters my dantian. Seeing that I continued to repeat the process.

Time flies,

I immersed myself in lightning cultivation.

On the other hand, the guardians don't know what danger awaits them.

Meanwhile,

The Giant Tower headmaster finally reaches the mountain area. He is slowly flying across the mountain landscape and also looking for warrior traces.

Suddenly, his gaze set on the significant mountain peak. This twin mountain peak naturally attracts attention.

When he got closer. He saw something which he would never forget in his life. He saw 2 half step SSS Elite stage warriors.

What's more strange is that? They are guarding someone. Which further increased his curiosity.

When he looked at the person sitting down cross-legged. His face lit up with a surprise.

"Zack Lockwood," He said in his heart.

He didn't expect to see him here.

Chapter 606 Giant Tower Headmaster vs the guardians

From MC's perspective:

When I was cultivating, I suddenly felt heart palpitations. The sensation was so strong that I opened my eyes the next second.

"Ha..Ha...Ha..."

"So you are hiding here!"

An arrogant voice filled with laughter reached my ears.

Swish~

The male and female guardian, both appeared in the mid-air. They stood opposite the Giant Tower Headmaster.

At first, both of them thought some rogue had come. But now the guardians have easily recognized the faces of the Headmaster of the Giant Tower Academy.

"Giant Tower Headmaster!"

"What are you doing here?" The male guardian asked.

"Harumph"

"You two must be this brat's protector. You can't save him today," The Giant Tower Headmaster said with a snort.

Hearing that the faces of the guardians change drastically.

"Zack, find some same spot to hide and then inform our dean," After saying that the male guardian rushed out to attack.

The female guardian also supports him from behind.

"You guys can't block me forever," The Giant Tower Headmaster sneered. Then he started to respond as well.

On the other hand, I hurriedly left the mountain peak and tried to find a hideout.

The mountain has several crevices where one can hide. I'm hoping to find a suitable one.

Boom~

A deafening sound starts to reverberate as a result of the class.

Hearing that my heart is pounding hard. I'm not a match for SS-Rank warriors, forget about the Giant Tower Headmaster. He must be an SSS-Rank.

While searching, I texted messages to 3 people. Jonathan, Dean Rebecca, and Carlos Kent. All of them are capable of stopping the Giant Tower Headmaster.

My problem is that Jonathan is out of town. Only the rest of the 2 can help me. While flying down, I came across a narrow opening. This small crevice is enough for my body to enter inside.

And the gap is going deep inside the mountain. I don't think the Giant Tower Headmaster's body can enter inside.

After gaining some clarity, I entered the crevice opening. My body easily went inside. There was no light inside.

Water drops can be seen dripping down from above. Seeing that I started to go deep inside.

The gap is going around the circle. Finally, it came to an end, where the mountain rock was blocking the other end.

For now, this place is safe. To come here, I had to crouch down and make myself flexible to reach here.

I don't think the Giant Tower Headmaster is capable of that. Unless he wants to blow off the whole mountain.

Outside,

Boom!

A fierce fight is going on. Both the guardians give a tough fight to the Giant Tower Headmaster.

But still, they are one step lower than him. The complete SSS-Rank power level is on a different scale.

Already their fight is affecting the surroundings.

The Giant Tower Headmaster smirked.

"It's been a long time since I killed warriors of the Saw Scale Viper Academy. I'm not going to let you off easily," He said.

The guardians are unaffected by his words. Both started to respond with elemental attacks.

The Giant Tower Headmaster is not in a hurry. He can end this duel in 5 minutes. But he wants to torture them madly.

When it comes to Zack Lockwood. He knows that kid is hiding here somewhere. Even if he calls for support. The help would take at least 2 hours for them to arrive.

In the meantime, he can do whatever he wants. Since he has plenty of time, he is going to act slowly. Especially after getting a threat from a mysterious person.

He needs someone to vent his anger out.

Both the guardians have become his targets.

Meanwhile,

Jonathan, who is investigating Tower City, gets a message.

When he saw the message was from Zack. He was surprised. He knows Zack won't text him unless it's important.

But after reading the message his demeanor changes. So much so that the coercion released from this body exploded the building instantly.

In the blink of an eye,

He appeared in mid-air and started moving towards the mountain peak. Jonathan's heart boiling in anger.

He didn't expect the Giant Tower Headmaster to appear there. No wonder he wasn't able to find his information these days.

He made a slight miscalculation. He didn't expect the Giant Tower Headmaster to act directly. He was sure that the death news of the Supreme elder was blocked.

So who told him to attack the young master Zack? He is enraged. If something happens to Zack, then the Master won't forgive him.

He is speeding in the air at full speed. So much so that the energy leaking out of his body is causing a burden on the space barrier.

It can't be helped. If he maintains this speed. Then he will reach the mountain peak in a few hours.

Meanwhile,

Dean Rebecca lost her composure when she read the message.

"What does he mean when the Giant Tower Headmaster is attacking them?" Rebecca said to herself.

For a second she was confused. She doesn't know whether there is anything wrong with the message.

How come the Giant Tower Headmaster could come to their jurisdiction? She doesn't know whether Zack is playing a prank or what.

She then tries to contact the guardians. But both of them are not picking up their call.

Creak~

Suddenly, Carlos enters the room with a panicked expression.

"Dean, I'm leaving," After saying that Carlos tried to leave.

Rebecca was stunned for a moment.

She asked, "Where are you going?"

Carlos paused his footsteps before saying, "I'm going to save Zack."

Hearing that Dean Rebecca looked at him in disbelief.

"Did you receive the same message as well?"

"Is it really that Giant Tower Headmaster attacking them?" She asked in a surprising tone.

She feels absurd. Because no headmaster would leave their territory.

Carlos headaches. He knows that the dean wasn't aware of many things.

So he replied short and sweet, "It's true. There is no need for Zack to lie. And it isn't the first time for the Giant Tower headmaster to come here."

After saying that Carlos left. In the blink of an eye, he appeared in mid-air and started moving towards the twin peak.

He heard the details of twin peaks from Jonathan. Now those details helped him.

Chapter 607 Carlos Kent's timely arrival

From MC's perspective:

Dean Rebecca was left speechless. She thinks Carlos knows more than her. If the news is true, then it's a great violation of a pact between six academies.

For a second, Rebecca doesn't know what to do.

After a few minutes of walking here and there.

She finally calmed down her heart.

Time flies,

In the mountain peak,

The Giant Tower Headmaster finally decides to end the life of the guardians.

Swish~

He disappeared from the spot and appeared in front of them.

Boom~

A massive fist broke the defense of the male guardian and hit his chest.

Pfff~

The next second, his body was sent flying and crashed onto the ground.

The female guardian was petrified.

The Giant Tower Headmaster grinned. He looked at the female guardian from top to bottom.

"You look beautiful. But I don't have time to enjoy it," The Giant Tower Headmaster said.

Then he punched her in the abdomen. The next second, her body was sent flying as well. She smashed into the deep pit the next moment.

Pfff~

Blood spilled from her mouth. Her internal organs have suffered great damage. Unless given immediate treatment, it would leave a great hidden danger in her body.

The male guardian was not good either. His entire face looked bloodied. Like the female guardian, his internal organs are smashed.

The Giant Tower Headmaster looked at both of their conditions. They are not in a condition to move.

"Harumph," He gave a cold snort in his heart.

He wants to torture them more. But he suddenly feels a sense of urgency.

"You guys are lucky. I won't beat you anymore. Just wait for your death slowly," After saying that the Giant Tower Headmaster appeared in mid-air.

He tries to sense the presence of Zack. But he found him nowhere.

Swish~

He landed on the mountain peak. Then he starts to look at the crevices. There are many crevices in this particular mountain.

He thinks Zack must have entered one of those. Then he started to search one by one.

On the other hand, the guardians tried to move as much as possible. But the pain is making them more miserable.

"No, I should inform the dean," The male guardian said in his heart.

From the side eyes, he saw the deep pit not far away from him.

Meanwhile,

In the crevice, I stopped causing any movements.

Because there was no more deafening sound. This means the Giant Tower Headmaster has succeeded in defeating the guardians.

Realizing that my expression changes drastically.

I didn't have much or much interaction with them. But both of them are good people. They didn't show any negative attitude towards me.

They have always followed the orders of the dean strictly. If something happens to them, then it will be a great loss to the academy.

For a second, I don't know what to do. I can't appear outside just like that.

My palms turned cold.

Boom!

The next second, I heard loud explosions. The explosion causes a strong tremor. Hearing that I couldn't help but furrow my eyebrows.

If I'm not wrong, the Giant Tower Headmaster is blasting off the crevice opening to enter inside.

But fortunately, he is attacking other crevices. I'm hoping in the meantime, the help arrives.

Time flies~

Boom!

One after another, the Giant Tower Headmaster is blasting off the mountain crevices.

On the other hand, the female guardian's condition is deteriorating. If the help does not arrive, he might die.

The male guardian has lost consciousness already.

"Zack Lockwood, where are you?"

"If you can show yourself, then I'll give you a decent death."

"If not I'll beat you horribly," The Giant Tower Headmaster started saying threatening words.

But he is getting no response at all.

Boom!

He blasted off another crevice opening in frustration. The crevice has a small space. There was no one inside.

There are still 50 more crevices to check. A hint of anger appeared in his eyes. He thought it was easy to find that brat.

But now he doesn't know where he is hiding?

He then checks the time. Seeing that it has been more than one hour. He relaxed his eyebrows.

"The brat must have informed others. I need to act quickly," The Giant Tower Headmaster said to himself.

Then he continued to look for the crevices.

A few minutes later,

In the crevices where I'm hiding. I heard the movements from outside.

"He is here," I said in my heart.

Boom!

A deafening sound reverberated throughout the area again.

The Giant Tower Headmaster saw the space was big. Someone can hide inside.

"Could the brat be here?" A thought rose in his heart.

Then he decides to check here. When he cleared the rubble. His eyes caught something.

"Footprints," He uttered in surprise.

Then he realized that the brat was hiding inside.

"Ha...Ha...Ha..."

"I have caught you finally," The Giant Tower Headmaster said with a laugh.

He then starts to pound the crevices heavily trying to make the gap larger.

On the other hand, my expression turned grave.

"I forgot about the footprint," I massaged my temple as my head ached.

There is nowhere to hide anymore. Behind the mountain, rock has blocked my path. Even if I want to escape, it's impossible to outrun him.

"Is my life going to end here?" I said in my heart.

The Giant Tower Headmaster's hysterical laughter reached my ears.

Boom!

One after another, I hear the loud explosion. He is destroying the whole mountain to find me.

The space inside is thin, that's why he is doing it.

Meanwhile,

Carlos Kent arrived on time. The first thing that caught his attention was the injured bodies of the guardians.

Swish!

The next moment, he appeared in front of the female guardian and checked her condition. Seeing that her inner organs were damaged.

He took the precious healing pill from his storage ring. He puts it inside her mouth.

The healing pill is the product of the SSS-Elite stage. It can protect her vital organs for the time being.

Chapter 608 Carlos Kent vs Giant Tower Headmaster

From MC's perspective:

Carlos Kent then went to check the condition of the male guardian. The male guardian was unconscious.

Carlos furrowed his eyebrows. The inner organs of the male guardians are damaged as well. Then he puts another healing pill in his mouth.

After doing that he turned towards the mountain. Where the explosion sound is occurring.

Swish~

He disappeared from the spot and started moving towards the mountain.

Then he saw what was happening. The Giant Tower Headmaster is destroying the mountain. He starts to look around but there is no sign of Zack.

"Brat, you are going to die here. No one will save you," The Giant Tower Headmaster started saying threatening words.

Hearing that Carlos realized Zack was hiding in the crevices.

Before the Giant Tower Headmaster explodes with the next attack.

Swish~

He disappears from the spot. The next second, he rushed out to pinch the opponent.

The Giant Tower Headmaster finally realizes that there is someone else here. When he turns around. He saw the face of Carlos Kent.

A hint of surprise flashes in my eyes. The next second, his eyes reddened in anger.

"Carlos, what are you doing here?"

"Well, are you here to support me or protect that brat?"

But Carlos was not in any mood to answer. His punch is raining down on the Giant Tower Headmaster's face.

"You!" The Giant Tower Headmaster responded with a similar punch.

Boom!

A deafening sound reverberated throughout the area.

The Giant Tower Headmaster was sent back flying. On the other hand, Carlos Kent retreated a few steps backward in mid-air.

Then he again shot himself towards the Giant Tower Headmaster. He has been wanting to beat the sh!t face of the annoying b@stard.

The Giant Tower Headmaster adjusted himself before stopping himself in mid-air.

His heart is raging. Carlos Kent had a breakthrough thanks to his academy resources.

This moron had consumed his resources. Now he is beating himself.

"You dare to beat me!"

Boom!

Both of them started to collide with each other again. The aftermath of their collision is causing tremors.

A few minutes ago,

Inside the crevice space, a hint of hope appeared in my eyes.

"What's going to happen next?" I uttered in a solemn tone.

The next second, the Giant Tower Headmaster's threatening words reached my ears.

Before I could think, I heard another collision. But the collision sound is not coming from the mountain.

But someone is fighting hard.

Suddenly, I felt a huge weight lifted off my shoulder.

Beep!

Suddenly, I received a call from Jonathan.

Seeing that I immediately attended the call.

"Young master Zack!"

"Are you alright?"

"What's happening there?"

A serious question reached my ears.

"Jonathan, you are not here then who else is fighting outside," I blurted out of surprise.

Then a look of understanding dawned on me.

"What do you mean?" Jonathan asked.

Then I explained sending messages to three people.

"It must be Carlos Kent. The dean of the academy can't leave the academy that easily," Jonathan said with some understanding.

"Good, I'll be there for a few minutes."

"Until then stay safe for me."

After saying that Jonathan ended the call. At the same time, a fear of death disappeared from my heart.

Now I want to see the miserable fate of the Giant Tower Headmaster.

Boom!

One after another collision sound reached my ears. Just as I thought about the condition of the guardians.

Beep!

I received another call. Seeing that the call was from the dean. A quick glint flashes in my eyes.

She took her time to call me.

When I attended the call. I hear a panicking tone.

"Zack Lockwood, what's going on down there?"

Hearing that I calmed down before I started explaining to her.

A few minutes later,

I confirmed from her words that the person outside was none other than Carlos Kent. He came to protect me.

I couldn't help but appreciate the far sight of Jonathan. If not for Jonathan forgiving and taking him under his command.

Maybe my life would have been in danger right now.

"Zack, do you want me to come there?" Rebecca asked.

"No, Dean. Since the Special Faction Head is here. I'm safe. You don't have to leave the Academy," I answered.

"I still can't believe it. The Giant Tower Headmaster left his academy far away from there to come and kill you."

"What's happening to our region?" She said,

Hearing that I sighed inwardly.

"Dean, don't think too much. Just make sure that no one knows about the Supreme Elder's demise," I said.

Hearing that she agreed. Then we spoke for a few more minutes before ending the call.

Outside,

In these several minutes, both the Giant Tower Headmaster and Carlos Kent tired out each other.

The aftermath had wiped out the green vegetation on the ground.

Smoke is rising from here and there.

Right now, both of them are standing in mid-air opposite each other.

The Giant Tower Headmaster's face was ugly. He was surprised to see that Carlos was fighting on equal footing with him.

He wasn't able to digest. It's like a newcomer is holding against the veteran warrior.

He then thought if this goes further reinforcement from the Saw Scale Viper Academy might arrive.

"There is a possibility that b!tch will come here as well," He said in his heart.

If this happens, forget about killing that lightning brat. It would become difficult to save his own life.

Then he suddenly thought of the mysterious person. That person's strength is unfathomable. No SSS-Elite warrior can stand against him.

Even he feels the Supreme elder of their academy might be weaker than the Mysterious person.

Looking at Carlos, he decided to convince again.

"Carlos, look here!"

"Let's forget all of this. I will give you another chance. Join my team and kill that brat."

"We might get an opportunity to enter the inner post," He said with a smile.

He thinks that Carlos might consider his words.

Chapter 609 Jonathan's plan

From MC's perspective;

Twin Mountain Peak,

Carlos Kent sneered. He still remembers how this guy had wanted him to consume an unknown black liquid to show loyalty.

Thinking about the black squirming liquid. He still feels goosebumps all over his body.

"I think your time is over now. You made a mistake by coming to our academy territory," Carlos said.

"Your academy!"

"Don't make me laugh, Carlos"

"When did you become loyal to your academy," The Giant Tower Headmaster said with a sneer.

He wants to make him know how ignorant he is.

"Carlos!"

"Trust me."

"The person behind me has unfathomable strength. If he wants he can destroy our inner post."

"The six big academies are nothing to him," He said in a solemn tone.

Carlos Kent somewhat believes. But the Giant Tower Headmaster doesn't know that he has already come across such a person.

He took the life of the Supreme Elder and Franklin. Which means he is no match for him. And certainly not the Supreme elder of the other academy.

When it comes to the Mysterious person who is operating behind the scenes. He doesn't have to worry about it.

Even since he had the attitude of Jonathan. He is almost convinced that what's happening here is not a big thing to him.

That he can handle whatever situation that arises.

"Carlos, what do you think?"

"I made you a final offer."

"If you want I can arrange more resources for you."

"What do you say?"

The Giant Tower Headmaster tried to convince him again.

But Carlos Kent showed no emotion.

At the same time, some other person made the entrance.

That person is none other than Jonathan. After arriving here, he quickly spread his consciousness to cover the area.

The whole terrain was mapped in his mind. Even the inner layer of the mountain has become transparent.

Suddenly, he saw in one of the crevice spaces someone was hiding.

He immediately recognized that the person was Zack.

"Clever," A hint of appreciation flashes in his eyes.

If Zack had decided on some other method. He would have been dead right now. If that happens Jonathan doesn't know what to do.

Thankfully, the worst situation has passed. In his consciousness, he saw 2 people standing in the mid-air.

They seemed to be in the middle of some conversation.

Seeing that a good idea comes to his mind.

Since he is here. Zack's safety is guaranteed. On the other hand, he can collect necessary information from the Giant Tower Headmaster.

The next second, his body becomes invisible. Like he has become one with an atmosphere.

Silently, he goes near the two of them to hear their conversation. He then sends a mental note to Zack.

On the other hand, the Giant Tower Headmaster is getting pissed off. He doesn't know why Carlos is not saying anything.

"Carlos, you don't understand the power of that person."

"If you don't agree to join his team, then you are all going to die by his hands," The Giant Tower Headmaster said.

A quick glint flashes in Carlos's eyes. But before he could think further. He received a mental note all of a sudden.

"Ask him about the mysterious person and what is he doing?"

Carlos Kent startled all of a second. Hearing that familiar voice, he gulped saliva in fear.

"Don't tell me he was here, all along," He broke out in a cold sweat.

On the other hand, looking at the flustered face of Carlos. The Giant Tower Headmaster was surprised.

He thinks Carlos is giving some thought to his words.

Carlos quickly calmed down his heart.

He didn't show any nervousness. He then looked at the Giant Tower Headmaster and asked, "What do you know about the mysterious person?"

Hearing that the Giant Tower Headmaster finally got relaxed. Finally, this b@stard is showing his true face.

He knows how he can neglect the offer. This b@stard was greedy for resources. It's impossible to deny his words.

Finally, the Giant Tower Headmaster relaxed.

"Mysterious person uh?"

"I think he appeared a couple of months ago"

"And he had wanted someone to work under him."

"At first that person's target was the Supreme Elder of the academy. But the Supreme Elder of our academy is not weak and he is a good person."

"He is not that very old either. So that mysterious changed his target and subdued me," The Giant Tower Headmaster said.

Jonathan, who was hiding secretly near them, showed no surprise in his face. He had already collected some crucial information.

One of them was that the space barrier in this region was getting weak. Even when coming down here, he found that the space barrier was fragile.

But that person who was causing all of this was slippery.

Carlos Kent doesn't know how to react. He is sure that Jonathan was listening to all of this.

The Giant Tower Headmaster continued to say, "Don't know why lately he was agitated for some reason. He instructed me to kill the lightning brat at all costs."

"What?" Carlos blurted out in surprise. He connected all the dots.

"So you wanted to kill him during the student exchange meet for this reason," Carlos asked.

"No," The Giant Tower Headmaster shook his head.

"At that time, I had wanted that kid to die. So that the enemy academy suffers. Even the mysterious person wasn't interested in him."

"But everything changed. When the plan for the Azure City was started," He said.

"Ask him about the Azure City"

Another mental note reached Carlos' mind.

Carlos asked, 'What's with the Azure City?'

"I didn't find anything valuable there."

The Giant Tower Headmaster sneered. He recalls the task in his mind. At that time he had sent Carlos to Azure City to complete a mission.

But he had left after a short stay.

Then he remembers the mysterious person's mumbling. At that time, he was surprised as well. Because Azure City was a normal place.

"Ah right, he said something about the space barrier. I'm not sure why he cares about that," He said.

Jonathan's eyes flickered. Now he understands that Azure City must have weakness in the space barrier.

Chapter 610 Guardians admitted to the infirmary

From MC's perspective:

Twin Mountain Peak:

"That's all I know. Are you ready to join us now?" Giant Tower Headmaster asked.

He thought Carlos Kent must be scared right now.

"Ask about his whereabouts?"

On the other hand, Carlos continued to hear the mental note.

"Where is your leader?"

"Can I meet him?" Carlos asked. When he said that unknown fear covered his heart. He knew Jonathan was strong.

But still, he doesn't want to participate in the plan.

The Giant Tower Headmaster furrowed his eyebrows. He conveyed his opinion. But still, this guy is extra greedy.

Does he want to strike a deal with the mysterious person? The Giant Tower Headmaster thought.

Thinking about the forbidden liquid. A cruel grin appeared on his face. He knows once Carlos meets him.

He can't return without being controlled.

"Alright, I'll take you to meet him. But before that you have to kill that kid," He said with a smile.

The next second, he found his body turned stiff. What's going on? The Giant Tower Headmaster was terrified.

Swish~

Jonathan appeared in front of him.

"Who are you?" The Giant Tower Headmaster asked. His eyes were full of surprise. He didn't find anyone coming near them.

Then how come he? He couldn't believe his own eyes. At the same time, he tries to move. But his body was completely locked.

Carlos Kent felt relaxed. Hereafter he doesn't have to pretend anymore.

"You go and ask Zack to come outside," Jonathan said without turning back.

Carlos Kent nodded before swiftly moving towards the crevices.

As he left Jonathan looked at the Giant Tower Headmaster and said, "I have been patient for so long. But your actions finally pissed me off."

The Giant Tower Headmaster was afraid. Looking at Jonathan, he immediately realized that person was strong. Similar to the mysterious person.

As this thought occurs to him. His whole body trembled in fear. A deep chill went down his spine.

Looking at the flustered face. Jonathan said, "You are quick to realize your situation."

"Now take me to see the person behind you," He added.

The Giant Tower Headmaster broke out in a cold sweat. He doesn't know where this unknown pressure is coming from. He wasn't able to move an inch.

From earlier words, he realized that lightning brat had something to do with him.

"F@ck!" He cursed inwardly.

He knows that the kid's background is suspicious. But he never expected to hit an iron plate soon.

Meanwhile,

"Zack!"

"Are you inside?"

Carlos Kent's voice reached my ears. Hearing that I sighed in relief. Finally, I can go outside.

My whole body was drenched in sweat.

"I'm coming," After saying that I started to leave.

Carlos Kent heard the voice. He stood outside silently.

A few minutes later,

I walked out of the crevices. Then I stood in mid-air before moving closer towards Carlos Kent.

"Are you injured?" Carlos Kent asked.

Hearing that I shook my head before asking about the guardians.

"Guardians?"

"They are alright. I have fed them high-grade healing pills," Carlos Kent answered.

A hint of relief flashes in my eyes. The next second, I saw two people not far away from here.

One of them, I recognized. He is Jonathan. And another one is the Giant Tower Headmaster.

Then I started moving towards him in mid-air. Carlos Kent is slowly following me from behind.

In the blink of an eye, I reached him.

The Giant Tower Headmaster is trembling in fear. When he saw Zack. He understood everything.

The person in front of him related to the lightning brat.

"Young master, are you alright?" Jonathan asked.

"I'm fine. Thanks for coming in time," I replied.

Carlos Kent who was just behind jumped in fright.

"Young master?" He was shocked in his heart.

He looked at Zack and Jonathan from side to side.

Not only he, but also the Giant Tower Headmaster is shocked to the core. "Young master?" He was terrified in his heart.

What's the real identity of that brat? Both he and Carlos Kent are in a state of shock.

On the other hand, I ignored the reactions of the Giant Tower Headmaster.

I said, "I want to take the injured guardians back to the academy."

"Alright, Carlos can go with you. I'm taking this b@stard with me to find someone," Jonathan said.

The Giant Tower Headmaster was in no position to talk. He resigned to his fate.

On the other hand, I turned around and flew towards the Guardians. Both guardians are on the ground.

I can see pools of blood around their bodies.

Tud!

After landing on the ground. I tried to lift the male guardian's body.

"You can't carry him. Let me handle it," Jonathan said.

Then he carried people using both of his arms.

"Let's go," He said.

Swish!

We both appeared in mid-air and started moving towards the Academy.

On the other hand, Jonathan left with the Giant Tower Headmaster.

Time flies,

After a few hours of flying, we reached the academy. Carlos Kent took both of them towards the infirmary.

I started following from behind.

In the infirmary,

The old man wearing a white coat is going the usual rounds to check on the patient.

Suddenly, he was Carlso Kent carrying 2 people.

"What happened?" He asked.

Instead of answering, he is looking for an empty treatment room.

After finding the room next to him was empty, he walked inside and gently placed the male guardian on one bed.

And he took the female guardian to find the next room. At this point, both the guardians are unconscious.

The old man wearing a white coat was flustered. Before he could ask he saw someone else was coming.

When he saw the familiar face. A quick glint flashes in my eyes.

"You are Zack Lockwood right?"

"Tell me what happened?" The old man asked.

Hearing that I paused my footsteps for a moment.

I looked at the old man before saying, "They got injured in a fight."

"Fight?"

"Who can injure a half-step SSS Elite rank warrior?" The old man said.

Hearing that my eyes gleamed with a twinkle.

As I guessed, this old man was not simple. He can see through their real strength.

Then I saw the old man enter the room to treat the guardian.

A few seconds later,

Swish!

Dean Rebecca appeared. Seeing me standing in the way, she asked, "What happened to them?"

"Are they alright?" Rebecca asked in a concerned tone.

They are admitted in this room. After saying that I entered the room. Rebecca nodded her head before walking inside.

The old man wearing a white coat is treating the male guardian. Noticing the dean's presence. He didn't get flustered.

He slowly started to brief.

"His internal organs are ruptured. As if someone beat the sh!t out of him. Fortunately, his life was safe."

"Looks like Carlos has fed them a high-grade healing pill each. I wonder when he had such resources."

"You can't even find them in the pill shop anymore," The old man said.

On the other hand, Rebecca was surprised in her heart. Though she was not healed. She can see the state of the injuries.

She knows the strength of the guardians. Both of them are half-step SSS-Elite Warriors. Even the opponent is SSS-Elite Warrior. Both of them can give a tough fight.

But right now, looking at such a state. She has to reevaluate the strength of the Giant Tower Headmaster.

Thinking about the Giant Tower Headmaster. She couldn't help but take a look at Zack.

Feeling the gaze of the dean. I sighed inwardly. She is under immense pressure.

"Let's go and see another one," The old man said.

Hearing that we followed him to enter the next room.

Carlos Kent was standing there. The condition of the female guardian was worse.

The old man went forward to treat her. He started to release healing energy. In the blink of an eye, her body was covered with a small layer of green film.

Dean Rebecca walked forward. He saw Carlos standing there as well. She knows this is not a place to talk. So she remained silent.

A few minutes later,

The old man said, "Her injuries are even worse. The chest bone was completely broken. She might require a longer time to recover."

Dean Rebecca asked several questions.

Then she decided to leave. Carlos Kent on the other hand doesn't know what to do. But before she walks out.

She asked Carlos and me to visit her cabin.

When we walked out of the infirmary.

Carlos raised the question, "Are you going to tell her everything?"

I let out a sigh before saying, "She needs to know. Otherwise, she would find it difficult to handle a similar situation in the future."

Carlos Kent nodded his head.

Then we both started walking towards the office building. People on the way looked at us in surprise. Because me and Carlos are walking side by side.

Carlos Kent is the Special Faction Head. I'm just a faction warrior. So they are surprised to see us together.
