Chapter 611 Jonathan's decision

From MC's perspective:

Dean Cabin,

After a few minutes of walking, we reached her cabin.

Creak~

The door opened. We walked inside the room. Dean Rebecca is sitting behind the desk. When she saw us. She changed her demeanor.

"Zack, you are hiding many things from me?" She asked.

"Dean?" Carlos tried to interject. But Rebecca stopped his words.

"I'm asking him. He is at the center of many things," Rebecca added.

"Sigh"

I let out a sigh before saying, "Dean, this is not something new. I have told you before. But this time the Giant Tower Headmaster surprised everyone."

Then I started explaining what happened from the beginning.

A few minutes later,

"So you're saying that someone ordered the Giant Tower Headmaster to kill you," Rebecca said in a solemn tone.

She felt unreal. She knows the Headmaster of the academy won't leave their academy in normal circumstances.

But this time to assassinate Zack. He had left the post. She began to think about the seriousness of this issue.

"So what about that person close to you?" Dean Rebecca asked.

"His name is Jonathan. He is currently after the mastermind," I replied.

"Ah, there is one more thing!"

"We found out the root cause of Azure City's problem," Carlos Kent said.

The Giant Tower Headmaster was confessing to him at that time.

"What is it?" Rebecca asked. She became quickly interested. To be honest, for a long time, the problem with the Azure City troubled her mind.

Then Carlos started to speak. He talked about the weakness of the space barrier above the Azure City.

A few minutes later,

Rebecca showed a heavy expression.

"Why is he targeting the space barrier?"

"Does he want to destroy the whole region?"

Rebecca asked.

Carlos Kent looked towards me.

"I don't know for sure. Only the culprit can tell. But right now, the culprit's plans are related to the space barrier"

"I'm sure Jonathan will find out more information," I said in a solemn tone.

On the other hand, Carlos Kent remained calm. But whenever he heard Jonathan's name. A hint of fear appeared in his heart.

He still remembers how that person addressed Zack Lockwood as the young master. His back went chill for a moment.

Rebecca took some moments to digest the information. She didn't expect a big play to be happening behind everyone.

And what's more terrifying is that no one is aware of it. Especially the other big academies.

"Alright, if anything new comes up, you should tell me," Rebecca said.

Hearing that I nodded my head at her. After a few minutes, we left the room.

Walking out of the room, I thanked Carlos for his timely help.

"Ha...Ha...Ha....."

"Don't mention it," Carlos replied with a smile. But a small fear in his heart disappeared. He thought Zack wouldn't retaliate for old matters.

Then Carlos went to his cabin. I started walking back to the dormitory.

After leaving the office building, I couldn't help but to recall today's events. It was a terrible mistake on our part.

We didn't anticipate the enemy's move. We underestimated the Giant Tower Headmaster's guts. He dares to enter the enemy's territory.

If it was normal time, Dean Rebecca would have caused huge damage to the Giant Tower Academy.

A relaxed smile appeared on my face. Fortunately, everything was fine in the end. And the situation of the Guardian is better as well.

They have passed the worst time because of timely help from Carlos. So Carlos not only saved my life but also theirs.

By that time, I had already arrived in front of the dormitory. So many things have happened. From fear of death to hope. So my mind needs to calm down.

After reaching the room, I opened the door and walked in. Then I closed the door and went to take a bath.

Meanwhile,

Jonathan has reached the Giant Tower City. The Giant Tower Headmaster was together with him.

To make him more submissive. He also told about the insect monster used to control him. When he said that the Giant Tower Headmaster became more obedient.

Right, both of them are at the Giant Tower Headmaster's place. Because of the Giant Tower Headmaster, Jonathan skipped all those checks.

This time he entered the city directly.

"Sir, what are you going to do?" The Giant Tower Headmaster asked.

He doesn't dare to underestimate this person anymore. Especially this guy effortlessly making him shudder. The sheer power difference makes him think about the inner post.

One of those inner giants sneaked in here. Why go through all this trouble? If they share the information above.

They can deal with the rest of them.

Jonathan thought of something. Instead of directly approaching the person. It's better to let him meet the Giant Tower Headmaster.

Since the Giant Tower Headmaster has failed in his task. The person behind the scenes will come forward to punish him.

At that time, he was free. A big smile appeared on his face. He turned towards the Giant Tower Headmaster and said, "I'm going to live under the same roof with you now."

"What?" The Giant Tower Headmaster felt the soul leave his body. What is he saying? Is he going to stay with this monster? His whole body shook uncontrollably.

"Woah!"

"You are overreacting," Jonathan said.

"I'm guessing he will contact you for your mission failure. I can use that opportunity to meet him," He added further.

Hearing that the Giant Tower Headmaster's thoughts became more clear. He is more relaxed now.

But the next second, he thinks if these 2 come into contact with each other. What would happen? He is an SSS- Elite Warrior. His fight shook the twin mountain peaks.

That place was devastated. If these 2 people start fighting, then the whole region will know. He gulped his saliva in fear.

"What are you thinking?" Jonathan asked.

"Ahem, it's nothing," The Giant Tower Headmaster answered.

"Then show my room. I'm tired right now," Jonathan said.

The next moment, the Giant Tower Headmaster starts to show his room.

Chapter 612 Cave Spiders

From MC's perspective:

The following day,

I left the dormitory room at 9 A.M. When I went to the dining hall. I met with Ernest and Laverne.

"Kane Patrick has recovered fully. But for some reason. The whole flame faction seems to be silent these days," Ernest said as we walked into the dining hall.

But I showed no reactions whatsoever.

"Some say, the flame faction had resigned from his job," Laverne added.

But still, I showed no reaction.

"What happened to you?"

"Are you not interested in their news?" Laverne asked.

By the time, we reached the food counter.

"Not right now," I replied.

Ernest and Laverne looked at each other. They realized something was going on with Zack. So he changed the topic.

"So what's your plan for today?" Ernest asked.

Hearing that I didn't answer. But received the food from the counter first.

Then I turned towards Ernest and also looked towards Laverne.

"I'm going to enter Monster Zone solo," I replied.

"Why?" Laverne asked. For a second, she thought Ernest and her somehow offended Zack.

On the other hand, I saw her thoughts.

I let out a small chuckle before saying, "I need some pressure to get a breakthrough. Only in a solo fight, I can push my limits hard."

A look of understanding dawned on both of them.

"No wonder, so you are planning to break through to Super Elite as soon as possible," Ernest said.

"Yes, we have discussed this before. So I'm going alone today," I said.

Then we reached the empty seats to sit down.

Both of their complexions turned better. For a second, they thought I was neglecting them.

We started eating. There is no nuisance about Michael Blevins today. Thinking about the Blevins family's fate. I sighed inwardly.

20 minutes later,

We left the dining hall. I head to the teleportation tower after being separated from them.

My strength has risen to Mid-Stage Super Elite in body strength. So I think I can contend against the Class-6 Monsters.

Even if it's a Peak Stage Monster. I think I can save my life. But the Class-7 Monsters are a no-go. They are all different.

I remember being chased by the Class-6 Giant Centipede Monster. At that time, the monster fled after feeling the threatening aura.

I guess that aura came from the Class-7 Monster. So I decided to choose the monster zone where there were no Class-7 Monsters in it.

I think even for the faction heads, the Class -7 monsters pose a threat to them. But I don't know why. Such dangerous monsters are left in the monster zone.

By that time, I had already reached the Teleportation Tower.

After walking up to the platform, I selected the server.

The next second, the platform lit up with lights.

Swish~

A few seconds later, I disappeared from the spot. When I opened my eyes. I found myself standing on the rock.

The place around me looks like a cave structure covered with dense vegetation.

Looking around, I tried to find an exit. How was the teleportation point arranged here? This time the landscape was different than I imagined.

There is a light coming from outside. If I'm right, that's the exit. Then I turned around and looked at the other side. Where the passage is going deep inside the cave.

"I'm having a good guess about what type of monsters are living here?" I said to myself.

Not long after going deep inside.

Screech!

I heard the screaming sound one after another. Hearing that I paused my footsteps for a moment.

The sounds are coming towards him.

Shortly after,

I saw a wave of spider monsters coming towards him. The monsters are Class-3 Spider monsters.

Seeing that I wasn't flustered. These monsters are weak. I can simply kill them with coercion alone.

The next second, I released the huge coercion on the monsters.

Pfff~

One after another, the monster turned into a blood mist.

In the blink of an eye, all the monsters in the vicinity were cleared.

Seeing that I continued to walk deep inside.

A few minutes later,

Screech~

Even more sound came. As the blood of the monsters starts to spread. As the second passed, a big-sized monster appeared before me.

The aura coming from the monster is Class 4. As the monster starts rushing towards me.

I brought the black sword outside and slashed against the monster.

Pfff~

Blood splattered on the ground. As the blade penetrated inside the body of the monster. The blade almost divided the monster into two.

Tud!

As I retracted the blade. The body of the monster dropped to the ground. Why do I have this feeling that there will be higher-level monsters ahead?

A few seconds later,

One more Class-4 Monster charged against me. I simply used the sword to cut down the monster.

Unknowingly, I went deeper. There is no more light. Then I activated my perceptual ability.

The next second, I found everything around me. I saw a few more Class-4 Monsters nearing me.

Pfff!

One after another, I began to slash down the monster. The Class-4 Monsters are dropping dead on the ground.

"Don't tell me. Next is the Class-5 Monsters," I muttered to myself.

10 minutes later,

My dress was almost drenched in the blood of the monsters. Unfortunately, the monster cores are not useful to me.

As I went further, I saw the next wave of the monsters. The aura coming from the monster is Class 5. There is not one but there are quite a few.

Seeing that I placed the sword back in my storage ring. I don't have that much purple essence because of yesterday's episode.

As the monsters got closer to me. I raised my fist to attack the monsters one by one.

"Blood Fist"

The fist tore through the abdomen of the monster. The monster let out a scream before dropping dead on the ground.

The next second, another monster leaped towards me. I punched the monster again.

As the time passed, I cleared half of the Class-5 Monsters. At this point, I do not doubt that this is the lair of the Spider-type monsters.

Chapter 613 Decisive Retreat

From MC's perspective:

Cave,

The thick and strong smell covers the entire place. The flow of the Class-5 Spiders has stopped after some time.

But I didn't continue to walk further. Rather, I decided to wait for the appearance of the new monsters. I don't know how many Class-6 Monsters ahead.

This time, I can contend against the peak stage Class-6 Monster.

On the other hand, two dark red glows appear in the shadow. The red lights are nothing but the eye of the monster.

The Class-6 Monster made its appearance. Unlike the other monsters, it didn't madly charge towards me.

The height of the monster is twice my height. I have to cut down its limbs before reaching the body.

I brought the black sword outside and looked at the monster.

Swish~

The monster suddenly turns around and shoots at the spider webs at the enemy. In the blink of an eye, the silver color webs reached me.

Slash~

I raised my sword to slash down the webs one by one. The webs are strong and it took me a heavy slash to break it apart.

In the blink of an eye, I retreated backward. While the monster is continuously releasing the web from its spinnerets.

Screech~

Not long after one more monster appeared from the shadows. Seeing that my expression turned heavy.

The new monster starts to attack by using the web as well. The monsters' relentless web attacks push me backward.

I wonder when this will come to an end.

As the time passed, I found it hard to continue the defensive move.

Swish~

The next moment, I disappeared from the spot. I decided to target monsters closer to me. As I moved in a zigzag manner. The monsters find it hard to target me as well.

When I got closer. I appeared in mid-air and targeted the back of the monster's chest. This all happened within seconds.

"Blood Fist"

I raised my fist to punch the monster. The Class-6 Monster was startled. Seeing that the enemy appeared in the air. The monster tried to move.

But it's a pity, that a heavy fist with blood power lands a hit to the monster's chest.

Pfff~

Blood splattered on the ground. The monster's giant legs were almost crippled. The early stage Class-6 Monster is posing not much threat.

On the other hand, the other monster tried to run back to the dark. Seeing that my eyes flickered.

I left the dying monster and started charging against the fleeing one. I rushed out at great speed. In the blink of an eye, I reached the monster.

After appearing above, I targeted the monster's chest again. When I'm standing above the monster's chest. It's finding it difficult to see me.

"Blood Fist"

Another fist rained down on the monster's chest. The punch broke through the defense easily.

Pfff~

The next moment, the blood starts gushing out from the injured spot. Heavy injury caused the monster to collapse on the ground.

When I turned around, I saw the breath of the 1st monster was gone. Seeing that I tried to retrieve the core.

A few minutes later,

The 2nd Class-6 monster dies as well. After retrieving the core, I decided to return. Because my whole body reeks of blood and unknown liquid.

And I don't know how many monsters are inside. If I warmed up by the group of Class-6 Monsters. It would be troublesome.

36 minutes later,

I walked out of the cave. Then I found the teleportation point. After selecting the server, I waited to return.

Before disappearing from the place, I saw groups of Class-6 Monsters at the exit. A strong chill rose in my heart.

When I opened my eyes. I found myself standing on the circular platform. Other warriors are wanting to come up.

After seeing me, everyone retreats in fear.

"This smell," I mumbled under my breath.

It's extremely disgusting.

Swish!

I started rushing out towards the exit. Soon, I reached the dorm room. After walking inside, I came across other dorm mates.

After seeing me they too returned to their room and closed the door. Seeing that my eyes flickered.

On normal days, nobody appears in the corridor. But now everyone is walking here and there.

Soon, I reached the room. After entering inside, I went to take a bath.

20 minutes later,

I got cleaned and walked out of the bath. After changing into comfortable clothes. I sat on the sofa in relief.

"Damn!"

"Finally, this disgusting smell has disappeared," I muttered to myself.

Thinking about the last scene at the cave. A quick glint flashes in my eyes. How many spider lairs are inside that cave?

If I had enough purple essence, there would be no problem in taking the risk. But if there are so many Class-6 Monsters there, then it might pose a great danger to me.

If the guardians' can recover, then I go back to the twin mountains to cultivate. Then a sudden realization struck my mind.

I can take Carlos with me. His strength is stronger than the guardians. We can reach that place in a short time.

After gaining some clarity, I made up my mind to talk to Carlos tomorrow.

The following day,

I got up early. After completing the morning routine, I went to cultivate the body method.

Time flies,

After getting ready, I left the room and walked out of the dormitory room. Soon, I reached the dining hall.

There I joined Ernest and Laverne. While walking inside, they spoke about yesterday's events. Then I recounted the events of the spider cave.

"You again went to the Class-7 monster zone," Ernest asked.

I shook my head before saying, "It's a Class-6 Monster Zone. But there are a large number of monsters in one single cave."

By that time we had already walked in front of the food counter. After receiving the food, we found an empty place to sit down.

"What are you going to do?" Laverne asked.

"Today, I'm going to enter the Gravity chamber," I replied. Then we started eating.

Chapter 614 Old healer's inheritance

From MC's perspective:

20 minutes later,

We got separated again after leaving the dining Hall. Before heading to the gravity chamber. I decided to check the guardians.

They must have regained consciousness by now. So I started walking towards the infirmary.

Soon, I reached the infirmary. There are not many people outside. As I walked inside, I came across healing assistants. Looks like the old man was not here yet.

Seeing that I found their room number.

Creak~

I opened the door to walk in. To my surprise, the male guardian was awake. Upon seeing me, he asked, "Zack, how are you doing?"

"I should be the one asking my guardian," I replied.

"Thanks for saving my life. Both of you guys stood against the Giant Tower Headmaster as much as you could. So that the reinforcement arrived on time" I added.

"Yeah, I didn't expect Carlos to save us," The male guardian said.

Hearing that my eyes flickered.

"Did you guys meet the dean?" I asked.

"Yeah, she was here an hour ago. She told me what happened during our unconscious time," He replied.

A look of understanding dawned on me. She hid the information about Jonathan. Less people knew about it. It's better.

But what did she say about the Giant Tower Headmaster? Before I could ask, he started to speak.

"It's a pity that b@stard left with a half injury," He sighed to himself. Hearing that the final puzzle was solved.

"I'm doing fine, you can go and see her," The male guardian said.

I nodded at him before leaving the room.

A few minutes later,

I walked out of the female guardian's treatment room. She didn't speak too much. I just thanked her. But she seems to be experiencing pain.

So I decided not to disturb her anymore. I'm glad that they are okay. It would take a few days for them to discharge.

When I was walking towards the exit. I came across an old man wearing a white coat. Ignoring him, I tried to walk past him.

But the old man's next words exposed me.

"If you want to be a healer, then I can pass on my healing techniques to you."

Hearing that I felt the soul leave my body.

"How does he know?" I asked myself.

I turned around and met his gaze.

The old man crackled up a wide grin.

"Don't be afraid, kid. Remember to take treatment from me. I found out the healing essence in your body at that time," The old man said with a smile.

A realization struck my mind. No wonder, he knows. To think I was exposed just like that.

"What?"

"Are you interested in learning techniques from me?" The old man asked.

"For free?" I asked back.

"Ha...Ha...Ha...", the old man burst into laughter.

"Kid, you are greedy. Of course, you have to work here part-time. You can treat patients with mild injury," The old man said.

I found that the condition was not bad. I can practice the healing technique while treating patients.

"Alright, I'm ready," I replied.

"Follow me," After saying that, the old man started walking towards the cabin.

His cabin was located at the end of the infirmary.

Soon we reached his cabin. After opening the door, we walked inside.

"Sit," After saying that, the old man sat behind his desk.

"Kid, are you not worried about getting exposed?" The old man asked.

"Yes, I don't want others to know. So I'm going to wear a face mask to hide my identity," I answered.

A surprise glint flashes in the old man's eyes.

Swish!

The next moment, he took the brown color book from his storage ring and placed it on the table.

"I have many students. Some of them are having their clinics right now. I thought that book was left to dust."

"Who would have thought I would find the healer here? Which is very rare."

"On top of it, you are a lightning element warrior. With the healing element. You are dual element warriors," the old man said.

But I smiled in my heart. He doesn't know about my blood element. Which makes me a triple-element warrior.

The old man somehow found out. I still feel uneasy in my heart.

"Alright, take this book and read it. There is one healing method and technique in it. It's not hard to remember. Take 2 days, then come to meet me," The old man said.

"What should I call you?" I asked.

"Ha...Ha...Ha..."

"You can call me old man if you want. Even an old healer would be fine," the old man said with a smile.

Hearing that I nodded my head before receiving the book from him. Then I thanked the old man before placing the book in my storage ring.

Then after some talk, I left the place. Leaving the infirmary, I head straight towards the room. I was planning to enter the Gravity Chamber. But this came as a pleasant surprise.

I didn't expect the old man to take out his healing inheritance. A faint smile appeared on my face. Soon I reached my room.

After getting inside, I entered the training room. Sitting cross-legged down on the platform.

I took out the brown book and held it in my hands. After opening the book, I saw some ancient writing and the translations below.

The old man doesn't know that I don't need the healing method at all. Because I have the wood scripture with me.

Then I turned the pages further. When I saw the healing technique mentioned in it. I began to read it.

A quick glint flashes in my eyes.

"Green Hand"

Or

"Healing Hand," I said to myself.

The technique transfers all the healing essence into one of the hands. Then you can treat the patients by touching them. The healing essence released from your hand can cure the injury.

This technique has no grade or stage in it. I guess it depends on the strength of the healer. If he is strong then the healing essence would be stronger as well.

I don't know whether my assumptions are right. I should ask the old man later.

Chapter 615 Getting started

From MC's perspective:

For the entire day. I tried to get familiar with the healing hand. Fortunately, the process mentioned in the technique was not complex.

Time flies,

When it was nighttime. I finally got hold of it. The old man gave me 2 days' notice. However, I initiated the technique within a day.

My right hand was light green. It's because there is a small amount of healing essence in my dantian.

Seeing that it worked out well. I stopped practicing. Then I stood up and left the room.

After having a shower, I changed into comfortable clothes and lay down on my bed. Today went well. I thought about going to Twin Mountain Peaks.

But I managed to get the healing inheritance. And the old man gave it to me for free. He could have charged it for money.

Instead, he asked me to work in the infirmary. I hope that he doesn't harbor ill intentions.

This healing technique would be useful to me. I can use it in the time of emergency. I remember getting thrashed by the Class-6 centipede monster before.

At that time I was admitted to the infirmary for the 1st time.

Time flies,

The following day, I continued to spend time in the healing practices. The day was much better because I cultivated some of the healing essence.

When the day was over. I decided to hand over the books back to the old man the next day.

The next day,

After having breakfast, I headed straight towards the infirmary. When I reached the spot. I saw the male guardian walking out.

"Are you getting discharged?" I asked.

Hearing that the male guardian looked at Zack in surprise. He didn't expect Zack to come here soon.

"Yes, I've recovered completely. But for her, she needs a couple of days to recover fully," The male guardian said.

Then we spoke for a few minutes before the male guardian left the spot.

I walked into the infirmary. Then I entered the female guardian's room to see her. But when I saw her she was asleep.

So I retreated and decided to meet her later. Then I started walking towards the old healer's cabin.

Soon, I reached the room.

Creak!

The door opened automatically. The old man healer was working behind the screen.

"Hey, kid!"

"Did you get started?" The old healer asked.

Hearing that I nodded my head before showing the "Healing Hand."

My right hand turned green within a few seconds.

The old healer's eyes flickered. He was surprised.

"Zack Lockwood!"

"Your healing aptitude is good as well. It will immensely help you in the future," He said with deep meaning.

Hearing that I thanked him before giving him back the brown book.

"Looks like you have memorized the technique," the old man said.

Seeing me nodding my head, he added further, "But your healing essence seems lower. You have to store a lot of healing essence in Dantian. Treatment requires more healing essence than you can imagine."

"I will do that," I said in a serious tone.

"Now, let's come to our work. Right now, there aren't many patients admitted here. I can handle it for now."

"When there is a flow. I'll ask you to come," The old healer said.

I agreed to his request. Then we spoke for a few minutes before I left the infirmary.

Next, I want to ask the help of Carlos.

Soon, I reached the office building. Instead of meeting the dean, I went to Carlos' cabin. I guess this is the 2nd time I'm going to his cabin.

Creak!

When I walked in front of the cabin. The door opened automatically.

Then I walked inside.

"Zack, what a pleasant surprise. Do you need anything?" Carlos Kent asked. He was sitting down on the seat and looked at me with interest.

Hearing that I didn't hide the fact and asked for help.

"I want to go to the Twin Mountain Peak," I said.

Carlos quickly connected the dots.

"Do you want to continue the practice?" Carlos asked. He knows that the mountain place has a high concentration of the purple essence.

"Well, I have no problem. I can take you there. But before that you have to inform 2 more people," Carlos said.

I nodded my head at him. I know what he's talking about. Dean and Jonathan won't deny my request.

"Alright, I'll ask the dean first," I said.

Carlos then told me Dean was in her cabin right now. So I decided to use this opportunity to get permission.

When I walked in front of her cabin.

Creak!

The door opened automatically as well.

When I walked in to see. I saw her in a bad mood.

"Dean, what happened? I asked.

Rebecca eases down her eyebrows before saying, "The flame faction warriors are asking for their Faction Head's information."

Hearing that a look of understanding dawned on me. Their faction heads have long been turned to cold corpses.

Rebecca saw through his thoughts.

"Don't worry about it. It's my job to handle it. Tell me about your request first," Rebecca said.

Hearing that I told her. I'm going to the Twin Mountain Peak with Carlos.

Rebecca was surprised. Then she quickly realized. There was no threat right now. The possible threats were already neutralized by the person behind Zack.

"Alright, you can go."

"I know there is no known danger yet. But if there is any, you should let me know," Rebecca asked.

"Okay," I replied. Then I left her cabin.

Walking, I texted a message to Jonathan about my plan. After a few seconds, I got a reply from him.

Jonathan is staying in the Giant Tower Headmaster's house. He says it would take some time for him to capture the mastermind.

By that time, I had already walked in front of Carlos' cabin.

Creak~

"She agreed," I said while entering the cabin.

Carlos nodded his head before arranging the desk.

"Give me a minute," Carlos said. He then put the files in the drawer.

A few minutes later,

We appeared outside. There is no need for any vehicle. Carlos grabbed my shoulder and appeared in mid-air.

Then we started moving towards the destination.

Chapter 616 Coming back to the mountain peak

From MC's perspective:

A few hours later,

We reached the mountain peak. Which looked unrecognized today.

"It's a pity, he had destroyed the place," Carlos commented.

He came a bit late at that time. Otherwise, a few small peaks could have been saved. There are not only 2 mountains here.

This place has a mountain range with a small canyon. The twin mountain peaks are an attraction where lightning and thunder hit all day long.

On the other hand, I looked at my previous spot. The crevices of the mountains are damaged.

But the top of the mountain has some space to sit down.

"Drop me there," I said to Carlos, pointing fingers at the mountain peak.

Hearing that Carlos looked towards the direction. Then he flew towards the mountaintop before dropping me there on the ground.

Tud!

I looked around. The ground was wet because of the continuous pouring down of rain.

Then I found my previous spot. Where I used to sit on the mountain rock. Before sitting down, I activated the artifact, and then the dome like a barrier was formed.

On the other hand, Carlos found a spot to cover himself from the rain.

Seeing that I sat down on the mountain rock.

Rumble~

A thundering sound reverberated throughout the area.

A thick black cloud covers the sky. Only the purple lightning is flashing from time to time.

The next second, I closed my eyes and started to cultivate the lightning scripture.

Right after, the lightning rune in my mind starts to flicker.

Slowly, I started to feel the purple energy from the surroundings.

When the energy entered my body. I guided the energy according to the scripture. The energy runs through my veins. After circulation, the purple energy settled down in my dantian.

Seeing that I continued to repeat the process.

A few hours later,

My dantian is filled with purple sea. At that time, the majestic totem starts to vibrate. It starts to convert the purple essence to even more pure.

Several minutes later,

The movement of the totem came to a stop. The purple sea has reduced in quantity but the quality of the essence has become strong.

Then I decided to switch the practice. I started to cultivate healing wood scripture.

As I started to run the scripture. I started to feel the green essence from the surroundings slowly.

Seeing that I focused on absorbing the healing energies into my body.

When the healing energies entered my body. I tried to store it in the Dantian as well.

Time flies,

When it was nighttime, I opened my eyes. Today's cultivation was fruitful. If there is a place here to stay, it would be better.

Then I stood up and deactivated the artifact. It's time to go back.

Swish!

Carlos appeared in front of me.

"Are you planning to come here tomorrow?" Carlos asked.

Hearing that I shook my head. The reason I want to cultivate hard is to improve my strength. Also, I want to improve my technique as well.

Then we started leaving.

A few hours later,

We returned to the academy. Carlos dropped me before the dorm. Then he left the spot.

After arriving back to my room. I went to the bath to take a shower.

20 minutes later,

I changed into comfortable clothes before lying down on the bed.

The following day,

I continued my usual routine. After getting ready, I went to the dining hall.

After reaching there, I joined Ernest and Laverne.

"Michael has gone back to home," Ernest said.

While we are walking into the hall. Hearing that, I wasn't surprised.

"Are you coming with us to the monster zone?" Laverne asked from the side.

"No, I'm going to practice my lightning techniques. You guys can go," I said to them.

Suddenly, a few people blocked our path.

Then we paused our movements and looked at them.

"Seamus Dave," Laverne muttered.

Ernest clenched his fist in anger.

My eyes turned cold. I almost forgot about this character. I thought after defeating Kane everything would be fine.

But he came to trouble me right now.

"Hey, guys!"

"What happened to you?" Seamus asked.

"I just want to meet Zack Lockwood. But he was busy these days. It's hard to locate him," he added.

I furrowed my eyebrows in displeasure.

I asked, "What do you want?"

Seamus smirked before saying, "How long do you plan to remain in the elite stage?"

"I'm looking forward to fighting against you," He added.

Hearing that I turned towards Laverne for a moment. She was right. Looks like some people can't wait for me to become Super Elite.

Then I revealed a bright smile before saying, "Your wish will come true soon."

After saying that I walked past him. Ernest and Laverne followed me.

Seamus smirked again before leaving with his group.

After receiving the food from the counter, we found our usual spot to sit down.

"I didn't expect to come here," Laverne said.

"Yeah, I thought he was going to ask something about the faction head?" Ernest said.

"Hmmm, he seems to not be worried at all," Laverne said.

Eating, I quietly listened to their conversation.

"Zack, when will you get a breakthrough?" Ernest asked.

Laverne also turned toward me.

"In a few weeks, at least," I said while eating.

25 minutes later,

We walked out after having breakfast. As usual, we parted ways. Both of them are heading towards the teleportation tower.

Where I'm walking towards the 2nd building.

Soon, I reached the building and walked inside. Some warriors are going about their business. I decided to use a puppet training room to improve my skills.

On the way, I came across other warriors who recognized me immediately. But none of them came to trouble me.

Soon, I reached the puppet training room. Seeing that no one was using the room.

Creak!

I entered inside. Then I walked up to the screen to set the setting. I selected the wooden puppet to practice.

Swish~

After a few seconds, a wooden puppet appeared above the platform. The wooden puppet was twice the size of mine.

Chapter 617 Improving the skills

From MC's perspective:

A period of time has passed. Day by day, I focus on improving all of my techniques.

Whenever I exhausted the purple essence. I went to the Twin Mountain Peak to cultivate and recover the essence.

Then I also spent my free time in the infirmary, treating mildly injured patients. Fortunately, the old healer didn't push me hard to treat.

But he wants me to improve my healing hand.

And Jonathan had been staying in Tower City. He won't leave until he finds a clue. So the days have passed just like that.

A month later,

Evening time,

When everyone is leaving. I'm still hitting the wooden puppet with the lightning technique.

But this time the lightning beam released from the Sword Divide attack was thinner and quicker.

Swish!

The lightning beam was fast. The next moment, the wooden puppet exploded into pieces. It's hard to guess the speed of the attack.

Seeing that, a hint of satisfaction flashes in my eyes. This month I did nothing but focus on improving my skills.

Fortunately, all of my skills have gone one step further.

Next, I decided to try out the technique one by one.

"Lightning Wheel"

A densely formed purple lightning energy formed around me. The wheel was formed faster. And the purple energy is much more powerful and pure.

Thunder!

A thick purple arc can be seen appearing above the wheel from time to time. After taking one good look at it. I canceled the technique.

Next, I shifted my attention to movement technique.

"Lightning Phantom"

When I released the technique. Dense purple energy covered my legs quickly. I thought about moving to the right side. The next second, I appeared in that instant.

Swish!

In the blink of an eye, I started circling the entire room. If anyone from outside takes a look at it.

They will find a purple arc moving in a zigzag manner. They won't find the silhouette of a warrior.

A couple of seconds later, I returned to the previous spot. Then I canceled the technique. The movement technique of mine has drastically improved.

If I come across an agility-type monster, I won't have a problem facing it. A faint smile appeared on my face.

Not only the lightning techniques. I raised my right hand. The next second, my right fist was covered with lightning.

The advancement in lightning techniques. Unknowingly improved my acquired lightning ability.

Even without using the technique. I can fight against anyone in close quarters. With a thought, the lightning power disappeared from my arm.

Then my attention turned towards one more technique. Now I have some advancement in the 3rd stage of the lightning finger technique.

But it's a pity that it's an incomplete technique.

To test it again, I selected the wooden puppet on the screen. The next second, a wooden puppet appeared above the platform.

"Lightning Finger Technique"

I pointed my finger at the puppet. The next second, a thick lightning shot at the target. It's the 1st stage of the move.

In the blink of an eye, the lightning beam hits the target.

Bang!

The wooden puppet was destroyed by the act. The debris quickly covered the platform.

Seeing that I thought of something before changing the puppet into a silver puppet. The Silver Puppet has the strength of an elite warrior.

When the silver puppet. I tried the attack again.

Bang!

A deafening sound reverberated throughout the area.

When the smoke was gone. The damage became clear to the eyes. A huge dent appeared in the abdomen of the silver puppet.

Apart from that, the puppet managed to survive. It didn't fall to the ground.

Then I selected a new silver puppet to appear. When the 2nd puppet appeared.

Swish!

I released the 2nd stage of the lightning finger technique. The thick beam flashes for a second before it lands a blow to the silver puppet.

Bang!

A deafening sound reverberated throughout the area.

This time the damage was even more severe. When the smoke was gone. I could see that there was a hole in the abdomen.

The beam has pierced through the stomach of the puppet. If it was an Elite warrior, he would have died from the 2nd stage of the lightning attack.

After getting the satisfying result, I turned towards the screen to select the 3rd new puppet.

Swish!

When the 3rd new puppet appeared. I shot the lightning beam at the target.

In a flash, the lightning beam reached its target. When it comes in contact with the silver puppet. The whole silver puppet exploded into pieces.

Bang!

A terrible sound reverberated inside the room. Seeing the result, I was satisfied. When it comes to other elements.

A quick glint flashes in my eyes.

1. Sword Divide: Big wheel (Intermediate)
2. Lightning Wheel: Big wheel (Intermediate)
3. Lightning Phantom: Big wheel (Intermediate)
4. Blood Field Technique: Small wheel (Peak)
5. Soul Tower Method: Small wheel (Intermediate)
6. Soul Needle Art: Small wheel (Intermediate)
7. Lightning finger technique: Small wheel (Intermediate)
8. Blood Fist Technique: Small wheel (Intermediate)
9. Healing Hand: Small Wheel: Small wheel (Beginner)

After recalling the 9 techniques in my mind. I feel more confident. There is no way to try soul techniques here.

Blood element belongs to the body method. And finally, the new healing technique, I had got from the old man.

Now, I can easily crush Seamus Dave. After a few minutes of practice, I decided to leave.

Walking out, I saw no one else was practicing. I'm the one who is leaving late. Soon, I walked out of the building and started moving toward the dorm room.

On the way, I couldn't help but think. Everything was going smoothly except for the breakthrough. Earlier, I thought it would take a few weeks.

But a month was over. I have yet to feel the barrier. Then I shook my head and removed the negative thoughts.

Anyway, I'm going to the mountain peak tomorrow. I will soon get the result. Soon, I reached the dormitory and walked to my room.

Chapter 618 Treating the patients

From MC's perspective:

The next day,

I woke up late.

After getting out of bed, I started doing my morning routine. Later, I went to take a shower.

20 minutes later,

I changed to the academy uniform. After getting ready, I saw the time. There is still half an hour left before the dining hall opens.

I sat on the sofa to read some articles.

Beep!

But all of a sudden, my communication watch lit up with notification. Seeing the continuous notification. I felt something was wrong.

Then I read the message. It was from the healing assistant. They won't disturb me unless something is important.

After reading the message. I understood everything. A large number of patients have been admitted to the infirmary this morning.

The group of warriors seems to have escaped from the monster zone. If my guess is right, they must have encountered a high-class monster.

This happens every once in a while. That's why warriors have to be careful before selecting a suitable monster zone. Then I stood up from the sofa and decided to leave.

Before going out, I wore a mask to cover my face.

Waking out of the dormitory room, I texted Ernest and Laverne. I'm going to skip breakfast today. They can go without me.

On the other hand, Ernest and Laverne received the message. They weren't surprised. They know Zack has been training like crazy.

Soon, I reached the infirmary. I never thought I would be quite used to this place. The female guardian was discharged a week ago.

Now both the male and female guardians are back to their work.

When I walked to the entrance. I saw the crowding of people inside. The healing assistants find it hard to calm the people.

Seeing that I walked into the building. The healing assistant quickly realized me.

"Zack, thank goodness you are here," The healing assistant said in a low tone.

"Let's go!"

"I'll guide you to the patients," After saying that he guided me towards the patient room.

After entering inside, I saw a Flame faction warrior with a deep wound on his back. It was caused by my monster's claws.

My eyes flickered. Don't tell me the groups are Flame faction warriors. These guys are dating these days.

Without the presence of the Faction Head. They are acting on their own. Even Dean Rebecca is trying hard to find a suitable replacement.

"You can go and see others," I said to the healing assistant. Hearing that he immediately left.

"And you!"

"Show me your back. I'm going to heal the injury," I said to the flame faction warrior.

The warrior nodded before turning around and showing me his back.

When I looked at him closer. A hint of surprise flashes in my eyes.

"Super Elite Warrior," I said in my heart.

What have they encountered in the monster? Before asking any questions, I decided to treat him.

"Healing Hand"

When I started to use the healing technique. My right hand turned green. Then I placed the hand on his claw injury.

"Argh" A muffled grunt escaped from his mouth.

"Endure it," I coldly said.

The healing essence starts to spread around its injury. In the blink of an eye, a green film appeared over the injury.

The green essence will soon heal the injury.

A few minutes later,

I saw the injuries getting healed. It would take at least half an hour for full recovery.

Time flies,

When the injury was healed. I went to the next room to get treatment. The warrior in this room has a burnt injury.

His right arm was burnt. Seeing that, my eyes flickered.

The Flame Faction warrior realized that the healer had come to heal his injury. So he started to show his right arm fully.

2 hours later,

I walked out of the infirmary. There are still patients inside. But I have exhausted my healing essence. I have to go to the mountain peak right now.

Then I started walking towards the office building. I don't know whether Carlos is available. Dean Rebecca seems to have given him some work.

Soon, I reached the building. After walking upstairs, I arrived in front of Carlos' cabin. But I saw no response from him.

Seeing that I realized there was no one inside. Then I walked towards the dean's cabin.

Creak!

As I reached the room, the door opened.

I walked into the room. Dean Rebecca is working behind the screen as usual.

Upon seeing me, she asked, "Are you going to the mountain peak?"

Hearing that I nodded my head at her.

"Carlos is not here. I'll ask the guardians," Saying that she summoned the guardians to come.

Shortly after, both the guardians arrived.

After seeing me, they understood the task.

"We are ready to go," The male guardian said.

The female guardian also echoed the same opinion. Hearing that my eyes flickered.

Soon, we left the building. The guardians started carrying me towards the destination.

A few hours later,

We reached the mountain area. The guardians paused for a moment. Especially the female guardian.

Last time, both of them got completely crushed here.

Then I looked at the surroundings. Though there are signs of destruction. But the vegetation has completely covered the place.

Swish!

Then the male guardian moved and dropped me on the mountain peak.

I looked at the female guardian. She is still thinking about the past. Without disturbing them, I took the artifact out and activated the barrier.

A dome-like field quickly covered the place. Then I sat down on the mountain rock to cultivate.

I closed my eyes and started to run the lightning celestial scripture. Right after, the lightning rune in my consciousness started to flicker.

Slowly, I started to feel the purple essence from the surroundings. Then I started to absorb the purple energy into my body.

As the purple energy entered my body. I guided the energy according to the scripture.

After circulation, the purple energy enters the dantian. Seeing that I continued to repeat the process.

On the other hand, the guardian continued to monitor the place.

Chapter 619 Early-Super Elite (Lightning Essence)

From MC's perspective:

Soon, I felt the barrier. At first, I was not sure. But when I continued to cultivate, I felt the existence of the barrier.

The barrier was firm. It was not easy to break the barrier. But if I go back, it would be a waste of time. It's better to stay and cultivate here.

Then I informed the guardians about my decision. Soon, I received permission from Team Rebecca.

Then I continued to cultivate here.

Days passed in the blink of an eye,

After four days of practicing, I felt the barrier was loosening. Seeing that I continued the process.

Not long after, the barrier was breaking apart. When the barrier was completely gone. I felt the stream of new energy running through my body.

My whole body is transforming, including the purple essence. The process went on for a few minutes.

When the transformation was over. I felt the power of new profound strength.

"Super Elite," I said to myself. Then I looked inside my dantian. The space inside the dantian has been increased.

The quality of the purple essence seems to be higher. The purple color seems more dark. Not only that, my height has increased by 1 inch.

The bones seem to be strengthened as well. Then I looked outside. Dark impurities were all over my skin. I urgently need some cleaning.

Then I stood up from the ground.

On the other hand, the guardians noticed some changes in Zack.

"Zack!"

"You have become a Super Elite Warrior," The male guardian said with a smile.

The female guardian also looked over in surprise.

"That's right, I have reached the Super Elite Early Stage," After saying that, I activated my perceptual ability.

The next moment, the range of perception increased for a few more meters. This time, I was able to catch the minute details of my surroundings.

Not only that, my vision seems to have improved as well.

After informing them, I started to look for a small running stream. Soon, I found the stream back on the side of the mountain.

Then I started to clean myself after landing on the ground.

Several minutes later,

The Guardian asked whether to go back or not.

After pondering, I decided to leave tomorrow. I need one more day to stabilize my new strength.

...

Tower City,

After waiting for more than one month. Jonathan was going to meet the mastermind.

The Giant Tower Headmaster was instructed by the mastermind to come to his place. Right after, he shared the news with Jonathan.

But the problem is that location. The meeting place is none other than Tower City.

The Giant Tower Headmaster was scared for life. If a fight breaks out, then the whole city is going to suffer the damage.

But Jonathan doesn't care. If the mastermind escaped then catastrophe would be more severe.

In these past few weeks, he had reported the information back to the master in secret. Presumably, the mastermind was ordered by someone.

The concept of weakening the barrier is not an ordinary thing.

Time flies,

When it was nighttime. Jonathan and the Giant Tower Headmaster left the mansion. They are moving towards the run-down area of the city.

Where the movements of the people are low.

Tud!

When both of them landed on the ground in the empty street. The Giant Tower Headmaster found the place they were looking for.

It's a brick house. But no one seems to be living in it. The Giant Tower Headmaster suddenly felt throbbing in his heart.

Argh!

The next second, he let out our painful roar. The parasitic insects start attacking his heart.

Jonathan's eyes flickered. He had already sensed someone's presence inside the building.

Swish~

The next second, he disappeared from the spot and rushed out to enter inside.

In the blink of an eye, he broke into the room.

Scatter~

The glass windows shattered at the same time.

In the opening room, a mysterious person wearing a black dress is seated on the sofa. His face was covered with a black mask.

Clap~

When Jonathan appeared before him. The person started clapping.

"I should have known earlier."

"I didn't expect someone infamous behind my tails."

"Am I right Jonathan?"

The mysterious person said with a smile. He had long since known something wrong with the Giant Tower Headmaster.

When he saw the Azure City plan was halted. He knew the Giant Tower Headmaster had failed to accomplish the task.

On the other hand, Jonathan was in disbelief. He recognized the strange male and female voice of this person.

"What are you doing here?" Jonathan asked. His mood was not as playful as before.

"Ha...Ha...Ha..."

"Jonathan, you guys are late. Do you think you can save this outpost anymore?" He said with a laugh.

Jonathan's eyes turned cold. But he wasn't flustered. He confidently said, "I have already informed the master. Even if there is a sinister plan he would take care of it."

"Master?" The mysterious person's smile disappeared.

The next second, he said, "It's a pity, I don't want my hard work turned to vain. But how many outposts can you guys save?"

"After escaping from the bone prison, my friends and I have infiltrated many important outposts. I guess they have finished their plan right now."

"Now that I'm free. I can fight against you to my heart's content," After saying that, he released his shackle.

Bang!

The next second, the whole building exploded into pieces. Not only that, the shock wave swept across the nearby building and destroyed them.

"Pfff"

The Giant Tower Headmaster rolled over the ground coughing up the black blood. The insect monster in his heart has already eaten half of his heart.

He is just now slowly waiting for death.

Swish!

Jonathan appeared in mid-air. Seeing that the escaped prisoner is not fleeing at all. His eyes turned cold.

The next second, he disappeared from the spot and shot towards him.

The mysterious person chuckled. He didn't plan on fleeing at all. He knows that Jonathan's master must have arranged some means outside.

If he goes outside, he will get caught.

Chapter 620 Jonathan vs Mastermind

Tower City,

Bang!

A fight broke out. Jonathan is clashing with the escaped prisoner.

One after another, flame attacks were used against him. But Jonathan is blocking all of it.

The energy levels released from their bodies cause a heavy burden on the space barrier.

At the same time, the commotion has already alarmed the city.

"Tell me, who sent you?" Jonathan asked.

It's not a coincidence for all the prisoners to come up with the same plan. To weaken the barrier, one requires secret information and certain knowledge.

The prisoners can't have it without someone's help.

The mysterious person cracked up a wide grin. Though he is being pushed back. He is not worried at all.

He has already thought of a plan to accomplish the task.

On the other hand, Jonathan has been controlling the energy to a minimum. He can't fight here at full strength.

Boom!

One after another punches landed on the enemy. The mysterious person's body was sent back flying.

Pfff~

Blood escaped from his mouth. The mysterious person felt numb all over his body.

After stabilizing his movements, he looked at Jonathan with a mad craze.

"Sneer!"

"Jonathan, you can't kill me without lifting your seal."

"You can kill those ordinary ants. But for a General like me, it's not enough," The mysterious person said.

He is purposely provoking Jonathan. If Jonathan lifts his seal, then the real power would affect the space barrier around the city.

During that time, he plans to destroy the space barrier of the outer post. In other words, Jonathan is a tool to assist his task.

On the other hand, Jonathan kept his nerves. He knows the consequences of his actions. The space barrier was already tampered with by the enemy.

His powerful strength would trigger the barrier.

So he is not going to use excessive power. At the same time, Jonathan decides to stop the prisoner from making some rash decisions.

A few minutes later,

The whole Giant Tower Academy was alarmed. So much that their Supreme Elder was disturbed. When he appeared in the air to look at.

He was completely frozen. He could sense the space barrier was trembling from the impact. It's not even the direct attack power of those who are fighting.

When the realization struck him. His whole body trembles in fear.

Swish!

The next second, he returned to the academy and ordered others to activate the protection barrier.

Even the protection barrier would be wasted, if someone decides to attack them. Having no other choice, the supreme elder quickly shares the news with the other 5 academies.

Meanwhile,

The residents of Tower City are leaving in a hurry. The shockwave has caused the collapse of numerous buildings.

Fortunately, Jonathan purposely led the fight outside of the fortified city.

...

Dean Rebecca, who is working in her cabin, receives the news. The message comes from the Vice-Headmaster of the Giant Tower Academy.

"Their City got attacked," Rebecca lost her voice. She looked at the message and confirmed it once again.

"Two mysterious people are fighting above the sky," She muttered to herself.

Suddenly, she thought of Zack's helper.

"Did he find out the culprit?"She asked herself.

It won't be a lie if she says she is under a lot of stress. Both the Supreme Elder and Franklin are killed.

The unknown master is operating behind the scenes. She was worried about who was going to be targeted next time.

But if her guess is right then the whole outpost can be saved. The next second, she contacted Zack and asked him to return.

Meanwhile,

The Red Moon Tower, the White Palace, the Eclipse Academy, and the Silver Cloud Academy also received the news one by one.

Everyone was surprised and at the same time, they also asked their elders to activate their protective formation.

The Supreme Elders of these respective academies also heard that the power levels of those warriors were off the charts.

Knowing that such existence is only possible from the inner post. The supreme elder of these academies instructed everyone not to leave the academy.

...

From MC's perspective:

When I'm stabilizing the new profound strength.

Beep!

My communication watch lit up with a notification. The constant ringing broke my concentration.

When I saw the contact name. I immediately attended the call.

"Dean, what happened?" I asked.

Rebecca started speaking from the other end. A look of surprise appeared on my face.

"It must be Jonathan!"

"He is staying in Tower City," I replied.

With that Rebecca also confirmed her thoughts. Then she asked Zack to return to the academy.

"Alright, I'm coming," After saying that, I ended the call.

...

Tower City,

Meanwhile,

The mysterious person is having brushes all over his body. Jonathan's controlled punch is slowly causing the inner injury.

"Damn it, he is not falling for my trick," He cursed out in his heart.

If Jonathan fights in full power, then the whole outpost would face severe danger.

He released several flame balls towards the Tower City in desperation.

Swish!

Seeing that Jonathan tried to block the attacks one after another. He then made up his mind not to give any more chances.

Bang!

After blocking all the attacks in time. Jonathan rushed out to attack again.

Bang!

Again, a powerful punch hits his abdomen. He was again sent back flying.

The next moment, Jonathan appeared before him and started smacking his face

Hit~

Getting one hit after another, the face of the mysterious person was swollen. Jonathan seems to have seen through his thoughts.

So his earlier plan won't be working. The mysterious person's eyes turned bloodshot.

He seems to have made some crazy decisions.

"Since you are not going to cooperate. I'm going to sacrifice myself," He said in a low tone.

Jonathan's eyes flickered. In a, he appeared before him.

Pfff!

The next second, a heavy punch shatters his dantian. This all happened within seconds.

"I knew you would think something like this crazy," Jonathan said in a cold tone.

"No," The mysterious person yellowed out in anger. But he can't use his strength anymore.
