Chapter 621 Jonathan's Win

From MC's perspective:

Tower City,

Jonathan decided to imprison him and later hand him over to the master for interrogation.

The next second, he grabbed the mysterious person's body and disappeared from the spot.

After a long time, people saw that there was no fighting sound.

The tower city residents erupted in cheer all of a sudden. They don't know what the fight was all about. Since there was no fighting sound. Which means the winner has been decided.

And their city doesn't have to suffer the aftermath. So the residents showed up and started cheering.

The news also reached the Giant Tower Academy. To confirm the news, they sent a few elders to the location.

...

From MC's perspective:

A few hours later,

I returned to the academy. Instead of going to the dorm room. I went straight to the dean's cabin with the guardians.

When we reached her office. I saw Carlos was there as well.

"Zack," He called out my name.

I nodded at him while entering inside.

Dean Rebecca is sitting behind her desk. Upon seeing me, she sighed in relief. Apart from receiving the order from the dean, the guardians left.

I sat on the seat opposite to the dean.

"Zack, did you get any news?" Rebecca asked.

"No," I replied in a calm tone. The news was still surprising to me. Didn't expect the mastermind to jump out of trouble right now.

"I heard the aftermath has destroyed part of Tower City," Carlos said.

Dean Rebecca affirmed by saying, "It's true, the cowardly b@stars from the Giant Tower Academy didn't even leave their academy to help."

"They are afraid of death," She added.

Beep!

Suddenly, she receives a message from the Giant Tower Academy. After reading it, she widened her eyes in disbelief.

"The Giant Tower Headmaster is dead," She said.

"What?" Carlos almost stood up from his seat. He was aware of recent news. Jonathan had subdued the Giant Tower Headmaster.

But he didn't expect that his fate would be short-lived. But he was glad in his heart. There is no one to question him about the Giant Tower Academy's resources.

At the same time, my eyes flickered. I can guess some things. Jonathan must have finished his objective. There was no use in keeping the Giant Tower Headmaster's life.

He had tried to kill me many times. Jonathan can't forgive him.

Beep!

All of a sudden my communication watch lit up with the notification.

It was an encrypted message. Seeing that I found 2 of their gazes on me. But I decided to read it anyway.

[Target was captured. Returning to base right now.]

After reading the message, a look of understanding dawned on me. Maybe my teacher was involved.

Otherwise, he won't leave right away.

"What is it?" Dean Rebecca asked.

Carlos is also looking at me.

I raised my head and said, "Problem was solved."

"Solved?" Rebecca uttered in surprise.

Hearing that I nodded my head.

"Then we don't have to worry about outside interference anymore," Carlos said with a smile.

Rebecca found a huge weight being lifted off from my shoulder. The death of the Supreme elder troubled her most.

Later, she found out about an even more dangerous person from Zack's mouth. Fortunately, that person was gone now.

Carlos is happy as well. No one can threaten him now except Jonathan. Since Jonathan was from the inner post. It's impossible to offend him.

"We should do something about the Supreme Elder's post," Rebecca said.

"Dean, can you not break through?" I asked.

Rebecca shook her head before saying, "It requires a lot more accumulation. It can only be done patiently."

"I think we should cancel the year-end conference," Carlos said.

Hearing that Rebecca frowned.

Before she could think, Carlos added, "At the year's end, everyone would appear. There is a chance for Supreme Elders to come as well."

"They would certainly look for our Supreme Elder," After saying that he stopped.

At this point, everyone understood what he meant. Dean Rebecca turned towards me.

"Zack, can you ask that person to present here for the year-end conference?" She asked.

Carlos Kent squinted his eyes. He knows that person can make everyone silent.

At the same time, I thought it was not a bad idea. so I agreed to let him know.

After speaking for a few more minutes. We left the cabin.

Shortly after, I returned to my room. The first thing I did was to take a shower.

20 minutes later,

I changed into comfortable clothes and sat on my bed. I didn't have time to check the online post before. Now, I'm free.

I started accessing the online articles. When the page was opened. I saw many feeds about the Giant Tower Academy. News travels fast.

Almost everyone is posting about this incident. I started to scroll down the page. But there was no picture of the actual fight. No one saw the faces of Jonathan and the mysterious person.

Then I realized something. No one dared to get near them when that incident happened. It's also good in one way. At least, I can stay low-key.

A few minutes later, I closed the page. And decided to sleep.

The next day,

After getting out of bed, I started to do my morning routine.

An hour later, I entered the Training room to cultivate body strength. I sat down cross-legged on the platform.

Then I took the Class-5 Monster core and started to run the blood element method. Right after, a bloody rune in my mind starts to flicker.

Slowly, I started to absorb the monster's core energies. When the monster's core energy entered my body. I started to guide my energy according to a mental method.

After circulation, a red blood light appears above the blood. The blood light starts to convert the monster's energies into white energies.

Right after, the white energy starts drilling into my bones. The pain was somewhat less because of a recent breakthrough. Then I continued to endure it.

The neck bones turned red and they started further expanding to my scalp. Seeing that I continued the process.

Chapter 622 Next Duel Date

From MC's perspective:

2 hours later,

I ended the cultivation and walked out of the training room. Then I went to take a shower.

20 minutes later,

I changed into academy clothes. After getting ready, I left the dorm room.

There was no appointment in the infirmary. So I headed straight towards the dining hall. When I got there. I saw Ernest and Laverne.

"You have returned," Laverne asked.

I nodded my head at her. Then we walked into the dining hall.

"Can we go to the monster zone today?" Laverne asked. She was purposely looking at me.

Now, I'm a Super Elite warrior. I can go with them.

"Alright, let's go together," I replied.

Hearing that both of them were shocked and looked at each other.

"Are you coming for real?"

"Don't tell me you had a breakthrough," Ernest asked out of surprise.

Laverne also looked at me with a questioning gaze.

Seeing that I decided to reveal.

"Yes," I replied.

A hint of joy appeared in their eyes.

"Congratulations!"

"Now we can go to the monster zone whenever we want," Ernest said.

Laverne also congratulated me.

By that time, we arrived at the counter.

After receiving the food, we turned around.

"Zack, congratulations on your breakthrough," Seamus Dave said.

"When did he appear?" Ernest said.

Laverne was surprised as well.

At the same time, my eyes flickered. This guy has been eavesdropping on us. A hint of coldness flashes in my eyes.

"What Zack?"

"Are you going to lie now?" Seamus asked.

At this point, the warriors' attention turned towards us. Everyone is hearing our conversation.

But I don't care anymore.

"Yes, I'm a Super Elite Warrior now," I replied in a calm tone.

"Ha...Ha...Ha...."

"There you go..."

"Then don't forget about our duel. When are you going to fight against me?" Seamus asked.

"Zack!"

"Don't agree. You need a few more days to stabilize the new strength," Laverne said.

"Yes, Zack. Take your time. You can duel him later," Ernest also persuaded me.

Hearing that I looked towards Seamus and made some decision.

"Alright, we can fight next week," I said to Seamus.

Hearing that Seamus was satisfied.

Gasp!

The people in the dining hall who heard this let out a small gasp.

The news will surely spread like wildfire in a few minutes.

"Good, Zack!"

"I'll meet you next week," After saying that Seamus left with his group.

"He is cunning," Laverne said with a snort.

"I guess he has been waiting for you for a long time," Ernest added.

"Let's go, food is getting cold," I said.

Then we found an empty place to sit down and eat.

Time flies,

After having breakfast we walked out of the dining hall. Then we headed straight towards the teleportation tower.

I have yet to get familiar with techniques by using my new strength. I guess fighting against monsters will be helpful.

Shortly after, we arrived at the teleportation tower.

After walking up to the circular platform. We selected the server where there are many Class-6 Monsters.

Swish!

When the circular platform lit up with light. We disappeared from the spot and appeared in the monster zone.

Looking around the lush green atmosphere. A quick gleam flashes in my eyes.

"This is an entirely new monster zone. We may find a large number of Class-6 Monsters," Ernest said.

"Hmmm, I heard there are many snake lairs here," Laverne added.

"Looks like we can get many Class-6 Monster cores," I mumbled under my breath.

Then I took out the black sword and started to cut down the grown-out weeds.

Laverne and Ernest also started to clear the way forward.

Not long after we heard some sound ahead.

Hearing that I activated my perceptual ability. In my mind, I saw a black body hiding underneath the bushes.

The size of the body is almost 40 meters long.

Hiss!

The next second, the three of us heard a strong hissing sound.

"There is a snake monster ahead," Laverne said.

Hearing that Ernest exploded with a great speed. In the blink of an eye, he arrived before the monster to attack.

Hiss!

The snake monster let out a strong hissing sound before leaping forward to attack.

"Mud Wall"

Ernest released the attack. The next second, a huge mud wall rose above the ground.

Bang!

The Class-6 Black Dotted Snake Monster collided with a wall. The huge mud wall exploded into pieces.

"ICE Freeze," Laverne released her ice attack.

The next second, an extreme ice released from her palms. It quickly reaches the target in a blink of an eye.

When the ice hits the snake monster. It quickly spreads around the monster's body.

Seeing that I decided to attack using the lightning technique. I started to charge the black sword with purple essence.

In the blink of an eye, the black sword started glowing with the purple light.

"Sword Divide"

The next second, I discharged the attack. A purple beam is released from the sword and reaches the snake's body in the blink of an eye.

Boom!

The attack hits the snake's body. A terrible sound reverberated throughout the area.

Hiss!

The snake let out a loud hissing sound. The monster then swept its long tail against us.

Seeing that Laverne and Ernest started to attack.

Bang!

The Monster's tail broke through their attacks. The next moment, we retreated a few steps backward in mid-air.

When the dust settles. I saw a huge scar on the monster's body. The monster was injured from the attack.

"Zack!"

"Your lightning is effective against the monster," Laverne said.

"Yes, you lead the attack. We will control the monster's movement," Ernest added.

Hearing that I nodded my head before charging the black sword.

In the blink of an eye, the black sword was charged with the purple essence.

"Sword Divide," I discharged the lightning attack toward the monster.

The purple beam shot towards the monster.

Thunder!

With the thundering sound. The attack reached the monster in a blink of an eye.

Boom!

A terrible sound reverberated throughout the area again.

The lightning beam pierces through the old injury causing the monster to crash on the ground.

Chapter 623 Collecting Class-6 Monster Cores

From MC's perspective:

The Class 6 Snake Monster has suffered a serious injury. Next, Ernest and Laverne give a few blows to end the monster's life.

When the monster was dead. We began to dissect the corpse. After collecting the body parts, we collected the monster core before starting to move.

A quick gleam flashes in Ernest's eyes.

"Zack, your lightning powers are destructive. You injured the monster by using 2 attacks," Ernest said.

Hearing that I revealed a small smile on my face before saying, "It's true that the lightning element is destructive. But I can't afford to waste the purple essence. Because it's difficult to recover the lost essence here."

Hearing that Ernest and Laverne looked at each other before nodding their understanding. They remember hunting together with Zack before.

It would take him multiple attacks to deal with the Class-5 Monster. Now he is easily fighting against the Class-6 Monster.

Now Zack's show of strength gave them more confidence. They can now go to the deeper parts to hunt the monster.

Though the day is bright. Because of the dense vegetation, the light is not reaching the ground. So most of the area was dark.

Which gives a rather strange feeling. While walking, I'm also keeping an eye on the surroundings through perception.

So far there has been no monster activity nearby.

38 minutes later,

I found something moving ahead in my perception. There is another snake monster. But the size and length of the monster are twice as much as the previous monster.

"Wait a second!"

"A snake monster is ahead," I said to them.

"Another snake monster," Ernest muttered.

"Sure, this monster zone is infested with snake lairs," Laverne said in a solemn tone.

Though all of them can fight Class-6 monsters. But when it comes to facing a group of monsters It's hard to eliminate them.

I took the lead and walked in front of them.

Hiss!

The Class-6 Monster also sensed their presence. It lets out a hissing sound. Which is nothing but a warning.

When I got closer. The monster's appearance becomes more clear. The body of the monster is similar to the size of 2 adult warriors.

The next second, I saw the snake monster raising its head to take a look at us. When both our eyes met. The monster lets out another hissing sound.

There was a razor-sharp tooth inside the monster's mouth. A single bite from it can make us deeply injured.

But I'm more interested in testing the monster's defense.

"Are you going to attack?" Ernest asked.

At this point, Ernest and Laverne saw the appearance of the monster.

"Yes, you guys can support me from behind," After saying that I released the movement technique.

"Lightning Phantom"

A purple lightning bolt covered my legs.

Swish!

The next moment, I disappeared from the spot. I got closer to the monster in a flash. The Giant Snake monster was startled.

Before it could turn its head to take a bite at me. I appeared in front of the monster's abdomen. Then I released the lightning defense technique.

"Lightning Wheel"

A dense purple wheel formed around me in a blink of an eye. A small thundering sound can be heard.

The Snake monster felt danger in front of the lightning aura. It wants to move away from the lightning power.

But it's too late. When the lightning wheel was formed. I rushed out to collide with the snake monster.

Bang!

When the purple wheel is filled with lightning power it comes in contact with the monster's body. An explosion occurs.

The deafening sound reverberated throughout the area.

The shock wave swept away the nearby vegetation.

Ernest and Laverne both appeared to be in shock. Even they felt heart palpitations from that lightning attack.

This means that the attack alone is capable of taking down both of their lives.

When the dust was settled. I saw the snake monster rolling over the ground. Blood is gushing out from the injured area.

The flesh was torn off revealing the inner bones.

"Nice, we will take care of rest," Laverne said from the side.

Then I saw her throwing ICE Spikes at the monster. On the other end, Ernest also controls the soil to restrict the movement of the monster.

10 minutes later,

After continuous bombardment of the attack. The monster bled to death. Then Ernest and Laveren start to dissect the monster.

After placing the monster's parts in the storage. We collected the monster core. So far we collected 2 Class-6 Monster cores. We need one more.

Then we resumed our journey and started to look for other monsters.

Time flies,

Within a few hours, we were able to kill 2 more monsters. When it was evening time. We returned to the academy.

Swish!

After appearing in the teleportation tower. We started waking out. After leaving the teleportation tower, I got a Class-6 Monster core from them.

Then we parted ways before going to our dorm.

After arriving at the dorm room, I went to take a bath.

20 minutes later,

I changed into comfortable clothes. And then went to bed to lie down. Today the Monster Zone's trip went well. We didn't return empty-handed.

Then I suddenly thought of something. This morning, Dave Seamus challenged me. I guess the news has reached everyone's ears by now.

Then I began to access the communication watch. When the page was loaded. I saw many new articles. When I started to scroll down the page.

Several articles appeared and I saw the articles about me.

[Dave Seamus is going to fight?]

[Zack Lockwood- A new Super Elite Warrior's arrogance!]

[Dave Seamus vs Zack Lockwood]

[Dave Seamus' lesson to a rookie]

Seeing the headlines of the article. My mouth twitched. Most of the articles were posted by the Flame faction warriors.

Most of the comments ridiculed me for my recklessness. All of them are optimistic about Seamus Dave.

I can't wait to see their reaction next week.

Then I shook my head before scrolling down the page further.

A few minutes later,

I stopped reading the articles and went to sleep.

Chapter 624 Part 1: Fighting Against Seamus

From MC's perspective:

Days passed,

I went to the puppet training room to get familiar with my new strength. The following day, I went to the mountain peak twice to recover the purple essence. In a blink of an eye, the next week comes.

Day of a duel,

9 A.M

The duel was scheduled at noon. Everyone is eager to go to the duel arena.

On the other hand, I arrived at the dining hall. But Ernest and Laverne are nowhere to be seen.

This time I came a bit earlier. Shortly after, both of them arrived.

Ernest and Laverne both have smiles on their faces. They are not worried about today's duel at all. Others don't know but they have witnessed Zack's prowess in the monster zone.

A single lightning attack can injure Super Elite Warriors severely.

After greeting them we walked into the dining hall. At this point, the dining hall is crowded with people. It's rather unusual but considering today is a duel today.

Warriors might want to visit the arena earlier.

After receiving the food plate, we found an empty place to sit down. At the same time, I found many piercing gazes on me.

Most of them are filled with ridicule and contempt. I guess most of the warriors didn't believe I could win.

Ignoring their gazes, I started to eat.

Meanwhile,

Dean Rebecca is looking at the screen. Seeing that Zack's duel was scheduled for noon today. She doesn't know how to react.

Because everyone knows Zack broke through recently. And opposite person Seamus Dave is one of the strongest in the Super Elite ranks.

She furrowed her eyebrows in confusion. She sometimes doesn't know where Zack's confidence comes from.

The next second, she summoned Zack's guardians.

Shortly after, the 2 guardians appeared.

"Dean," Both of them greeted upon seeing the dean.

"What do you guys think about Zack's strength?" Rebecca asked.

The male guardian and female guardian looked at each other. They are also aware of the duel today.

Like the dean, both of them were surprised as well. Because none of them had seen Zack fighting anyone before.

"Ahem!"

"Dean, we don't know. But since he dares to accept the challenge. He must have a trump card with him," The male guardian said.

"I think the same as well," The female guardian added. In her opinion, Zack is not stupid.

Dean Rebecca eases down her eyebrows.

Recalling Zack's past duel. She decides to put her trust in him once again.

On the other hand, Carlos Kent is also looking forward to the duel.

"Harumph"

"The flame faction warriors are acting arrogant without the presence of the Faction Head," Carlos muttered to himself.

When it comes to Zack's strength. He still has some confidence.

Time files,

At noon, many warriors gathered in the duel arena. Except for the Flame and Special faction head, every other faction head came together with their warriors.

In the special faction spectator area,

Ernest and Laverne are seated to watch the duel. As usual, both of their presence was eye-catching. There aren't many warriors in their area.

On the other hand, every other faction's spectator area is filled with the crowd.

Shortly after, Carlos Kent enters the duel arena and he slowly walks to the special faction spectator area.

Gasp!

Carlos's appearance caused an exclamation. Because he was not present before.

Ernest and Laverne were dumbfounded as well.

Carlos simply greeted them by nodding at them before finding a good place to sit down.

Meanwhile,

I'm signing the duel agreement in the office room. The duel is not a life-or-death duel. So any violation would lead to the academy's punishment.

It's just a formality. After signing the agreement, I walked towards the gate. The gate was slightly opened.

But I can hear the cheering crowd from ahead. As I entered the arena, I saw a spectacular view. The spectator area was filled with crowds.

Then I walked up to the dueling platform. On the other hand, there was no sign of Seamus Dave.

Maybe he plans to arrive after me.

"Harumph," I gave a cold snort in my heart.

Boo!

When I walked up to the platform. The cheering sound changed. Instead, a booming sound was heard all of a sudden.

A quick gleam flashes in my eyes.

"This was new," I said in my heart.

This shows no one believes me right now. After a few minutes, Seamus Dave appeared.

His appearance brought huge cheering from the crowd. He was the favorite to win the duel.

A referee appeared as well.

Both of them reached the dueling stage. Seamus Dave walked up to the platform and stood opposite me.

Right after, the referee gave the signal.

Seamus shot the black flame towards me.

Swish!

A black color flame quickly covered the arena in a blink of an eye.

The black hot flame increases the temperature all of a sudden.

Even the referee retreated a few steps backward.

My eyes flickered. The next second, I brought the black sword outside. And I started to charge the sword with the purple essence.

When the scorching hot flame got closer.

"Sword Divide"

I discharged the purple beam towards Seamus.

Thunder!

The lightning beam cuts through the black flame and reaches the target in a blink of an eye.

Seamus, who is continuing the attack, was startled by the purple beam. The next second, he stopped his attack and brought the sword to block the lightning attack.

Bang!

A deafening sound reverberated throughout the area.

Smoke covers the platform again.

"He uses a sword," I raised my eyebrows in surprise. "This is going to be interesting," My mouth curved into an arc.

Swish!

Seamus explodes with great speed to attack with a sword.

Seeing that I brought the sword forward to clash as well.

Clang!

In the blink of an eye, we were clashing using swords. And the metallic sound is reverberated throughout the area.

Cheer!

On the other hand, the audience is letting out a roaring cheer. Earlier, most of them were on the side of Seamus.

But right now, the audience's opinions are changing.

Chapter 625 Part 2: Fighting Against Seamus

From MC's perspective:

Dueling Arena,

Rebecca appeared above the sky. She is looking down at the dueling stage. The duel is going as she expected.

Seamus Dave is a strong warrior. His black flame is extremely dangerous, unlike other normal flames.

At the same time, she also noticed one thing. The lighting element of Zack was not easy. A look of interest flashes in her eyes.

Earlier, she doubted whether Zack could win or not. But now she feels Zack has a chance.

Spectator area,

"The black flame is threatening," Laverne said in a solemn tone.

"How long has it been since someone saw his black flame," Ernest added.

Both of them have been studying in the academy since their early days. So they knew about the black flame.

It's Seamus' mutated flame. Even in the Elite days, he used to win every duel. But when he became Super Elite. He reduced his activity.

Most of the time he was in a retreat. Now seeing the black flame again. They couldn't help but rekindle the old memories in their mind.

Not only them, but the majority of the warriors in the spectator area had similar feelings as well.

They don't realize their conversation was heard by someone. That person is none other than Carlos Kent who is sitting a few rows behind them.

"Black Flame uh?" His mouth curves into arcs. Carlos is here for Zack. Ever since he heard "Young Master" from Jonathan's mouth. His worldview has changed.

He doesn't know the power level of Jonathan. But he thinks that Jonathan belongs to a certain force.

And Zack seems to be an important seed for them. He does not doubt Zack's background.

Zach was born in the outer post. His family has a normal background. So there is no relation between them and the inner post.

But everything changed when Zack showed his lightning ability. Carlos believes that Jonathan must have contacted Zack then.

He underestimated the forces in the inner post. Normally, any warrior with a special element is recommended by the academy to inner post forces.

This was the usual case. In that way, every academy gains favor and resources from the inner post forces.

Carlos Kent's eyes flickered. He had made a mistake before. Now he realizes something. He has ambitions of going to an inner post. It would only happen if he could convince Jonathan.

While he is having his thoughts. The other faction heads also make their judgments.

Dueling stage,

Clang!

Metallic sound continues to reverberate throughout the area.

Both of our blades are colliding with each other. After a few seconds, we retreated backward.

Looking at him, I couldn't help but frown. He doesn't seem to be exhausted.

All of a sudden, a good idea strikes my mind.

The next second, I brought the sword forward to attack.

Swish!

I disappeared from the spot and started charging against him.

Seamus Dave gave a cold snort before dashing forward as well.

When he got closer. I released the lightning technique.

"Lightning Wheel"

A powerful lightning wheel formed in an instant around me. Seamus who brought the sword forward to attack was startled all of a sudden.

But he was too late to evade.

Bang!

When he collided with the lightning wheel. The lightning wheel explodes all of a sudden.

A deafening sound reverberated throughout the area.

Seamus Dave's body was sent back flying. And he crashed onto the dueling stage. When the smoke settles down.

Cheer!

The crowd erupts with a roaring cheer. Seeing that Seamus was hit hard. He decided not to let go of this opportunity.

"Lightning Finger Technique"

A powerful beam released from the finger and shot at Seamus who was trying to get up.

In a flash, the beam reaches Seamus and hits his chest.

Boom!

The lightning beam broke through his defense and caused severe injury. At the same time, his body was pushed toward the edge of the dueling stage.

This all happened within seconds.

Quiet!

The audience has become pin-drop silent. There was no more loud noise.

Pfff!

Seamus Dave coughed up blood. His chest was hit hard. He can feel the cracking sound of the chest bones.

Boom!

Before he could act. Lightning beam after lightning beam hits his body. The lightning power tore through the flesh, exposing the chest bones.

Pfff!

A few seconds later, Seamus Dave looked bloodied. Any more attacks might be life-threatening to Seamus.

Quiet!

The audience was silent. They realized that the duel had reached its end.

Seamus found it hard to regain the clarity. His mind became fuzzy because of the injury.

On the other hand, I saw that Seamus was not in a condition to duel anymore.

So I turned towards the referee. Feeling my gaze, the referee went to Seamus to ask.

Seamus can hear somewhat. But he was extremely unwilling in his heart. Looking at the heavy bleeding, he realized it was not good to continue the duel.

When he accepted defeat. The referee declared Zack as a winner.

Cheer!

The crowd erupted in a roaring cheer. The duel has a surprising result. No one would have expected Zack as a winner before the duel.

Now the winner was right before them.

Soon, Seamus Dave was taken to the infirmary. On the other hand, I walked towards the exit.

The crowd starts to leave one after another.

Ernest and Laverne looked at each other in disbelief.

"That was fast. Don't tell me he was playing earlier," Laverne said with a smile.

"Ha....Ha....Ha...."

"No wonder he was that confident. He got more skilled in lightning techniques," Ernest said with a laugh.

Carlos Kent has the same opinion as well. Zack's lightning techniques are faster and more fierce. Zack didn't give any chance to Seamus for a counterattack.

Swish!

Then he disappeared from the spot. He directly used the flight ability to return.

Ernest and Seamus started to leave.

Meanwhile,

Seamus was admitted to the infirmary. The old healer's expression turned dark when he found the traces of the lightning element.

Days passed in the blink of an eye,

Other big academies are preparing for the year-end conference as well. Their internal competition is also taking place.

Meanwhile,

Jonathan returned to the outer post with few helpers. They are here to reinforce the space barrier. If not solved the weakness in time, the entire outer post may face danger.

When the helpers went in different directions to check the barrier. Jonathan decides to visit Zack Lockwood.

Time flies,

In the Academy, I returned to my dorm room after late training. After entering the room, I quickly went to take a shower.

Several minutes later,

I changed into comfortable clothes and sat on the sofa. Then I began to contemplate. These days the Academy has been quiet. No one is challenging anymore.

Especially after Seamus's defeat. The flame faction has become quiet. They retreat whenever they spot me.

Which also gave me a chance to concentrate on other things. The year-end conference is nearing. I'm going to face warriors from other academies.

When I'm pondering.

Beep!

My communication watch lit up with the notification.

When I saw the message. I stood up from the sofa and walked toward the door to open.

Creak!

The door opened. The next second, I saw Jonathan standing in front of me. It's been several weeks since he left the place.

Looking at him, I greeted him inside.

Jonathan walked into the room before sitting down on the sofa.

Then he started to ask about the recent events. Hearing that I started to tell what happened so far.

15 minutes later,

Jonathan sighed in relief. He thought some might come in place of that prisoner. Fortunately, nothing short of that had happened.

Then he thought of something. He looked at Zack and said, "Master asked me to tell you something?"

Hearing that my expression turned serious.

"What is it?" I asked.

"Since you have become a Super Elite Warrior. You are now qualified to enter the inner post as a seed."

"So are you ready to come with me or not?" Jonathan asked.

Hearing that my eyes flickered. That was fast. Everyone is preparing for the year-end conference. It's too early to leave.

If Dean hears this she would be disappointed for sure.

"I want to participate in the year-end conference. Can I leave after that?" I asked.

Jonathan furrowed his eyebrows. He thought for a moment before nodding his head. He knows that the academy needs resources.

Only after the year-end conference. All 6 big academies can conclude to distribute the resources.

After speaking for a few minutes, he left the dorm room.

The following day,

After getting out of bed, I started to do my morning routine. Jonathan's return has been a wake-up call for me.

I might have to leave the Academy sooner.

Time flies,

After getting ready, I walked out of the dorm room and started heading towards the infirmary room.

A few patients have been admitted with mild injuries. The old healer has been enjoying his leisure time lately.

Chapter 626 Part 1: Eclipse Academy's Supreme Elder

Eclipse Academy:

The Supreme Elder of the Eclipse Academy is reading the report on the recent development in the academy.

His name was Cameron. He appears to be an old man in his sixties with little white hair over his head. When he heard the news from the Giant Tower Academy.

That was a wake-up call. Nobody pays attention to the outer post. The word of the 6 big academies is final in this region.

All of a sudden, 2 unknown powerhouses were found confronting each other in their region. Which certainly sends alarm bells.

Then he walks out of the mansion surrounded by a beautiful garden. He walks to the front lawn where chairs and tables are set up.

After arriving at the place, he leisurely sat on the chair and summoned the Eclipse Academy Dean to come.

Shortly after, a middle-aged man wearing a white and blue mixed uniform appears. He appears to be 6ft tall in height. He has short black hair and eyes. His skin tone was pale.

His name was Edgar. He is the dean of the Eclipse Academy.

When standing in front of the Supreme Elder. He was humble.

"Supreme Elder," He then greeted the elder with a bow.

Cameron didn't look at him. Rather he set up a tea pot and focused on making tea.

Dean Edgar was used to it. So he didn't show any impatience. He politely stood there.

A few minutes later,

When the tea was made. Cameron poured the tea into the cup and then began to take a sip of it.

While enjoying the taste. He asked, "Edgar, is the news true?"

"Or the Giant Tower's supreme elder lost his mind."

Dean Edgar was stunned. It's been several days since the incident happened. "Didn't expect the supreme elder to pay attention to this," He said in his heart.

"Supreme Elder, the news was indeed true. Because the damage done to Tower City was real. Now they are reconstructing it," Edgar answered.

At the same time, he is slightly tense. He suspects that their Supreme elder has found something.

"Alas!"

"Our region was peaceful. Why are unknown people bothering?" Cameron said in a low tone.

Then he thought about something.

"What about the Viper Academy?" He asked. At the same time, a deep chill flashes in his eyes.

The Giant Tower and the Eclipse Academy shared the same interest. Both have hatred against the Saw Scale Viper Academy.

Dean Edgar frowned. There is not much happening in that Viper Academy according to spies.

Then he thought of something.

"Elder, the Viper Academy has a lightning element warrior named Zack Lockwood."

"He is showing promising performance. He had defeated a Senior Super Elite Warrior in his academy."

"If I'm right, he is likely to pose a threat to our students during the year-end conference," Edgar added further.

Cameron, who was sipping tea, paused for a moment.

"Lightning element," a quick gleam flashes in his eyes.

Then he recalled a couple of months ago he heard the news about lightning element warriors.

He might be the same kid. Shaking his head, he said, "That kid might have a background. Special Element Warriors are quickly recruited by big organizations."

"There is no need to offend him."

Hearing that Edgar nodded his head. Because the Special Element Warriors in their academy also have been recruited by the inner post organization.

After speaking for a few minutes, he left the place.

Cameron put the tea cup before sighing. He was expecting some good news. But there was no movement in the Viper Academy.

When he saw Viper Academy's Supreme Elder last time. That old man was not in a good shape. Cameron thought about verifying the news.

If something bad happened to him. Then it's good for their academy. They can now grab the resources of the Viper Academy.

A quick gleam flashes in his eyes. He can understand the difficulty of the spies. Is it impossible for them to know about what the Supreme Elder of another academy is doing?

Finally, Cameron thought about visiting the Viper Academy himself. He can meet the old enemy and at the same time, he wants to know about the 2 unknown powerhouses.

Swish!

He disappeared from the spot and appeared above the sky.

Looking at all those blue towering buildings. Cameron observed the changes. Many warriors are roaming around and going about their business.

Then he thought of something and started moving toward the Viper Academy.

Time flies,

After a few hours of rushing, Cameron reaches the borders of the Viper Academy. He pauses for a moment.

There is a possibility for artifacts to be placed at the border. If there is any intrusion of a warrior above SSS-Rank, it might alert the academy.

He thought for a moment before entering. Anyway, he is going to meet the old enemy. Even if he knows it doesn't matter.

Shortly after,

Saw Scale Viper Academy:

Dean Rebecca received an alert message when she was working in her office. At first, she thought it might be an ordinary message.

But after reading the message. Her expression changes drastically.

"Someone infiltrated into our territory" She uttered in a solemn tone.

"Who could be?" She furrowed her eyebrows.

The direction is coming from the north. Then she immediately thought about the Eclipse Academy.

"Is it possible for them to come here?" She doubted.

Then she remembers the artifact picks up a power level above SSS-Rank.

The next second, she stood up from her seat and left the room. If the person who is coming is an Eclipse Academy's Supreme Elder, then he likely wants to meet their elder.

Rebecca appeared outside in mid-air. She moved hurriedly towards the late Supreme Elder's mansion.

Swish!

In a few seconds, she reaches the place. Though the Supreme Elder is the dean. But the mansion and surrounding area have a formation left.

As long as she activates the formation. She can stop the prying eyes of the Eclipse Academy's Supreme Elder.

In the blink of an eye.

An invisible barrier envelops the whole place. Apart from her, no one can enter inside.

Chapter 627 Part 2: Eclipse Academy's Supreme Elder

From MC's Perspective:

Cameron reaches Viper City. Seeing the magnificent fortified city, he snorted in his heart.

"These people don't have artistic taste," He said to himself. The construction style of the buildings is simple and plain.

Cameron then starts flying across the city. In a blink of an eye, he crossed the city. He then starts moving towards the academy.

30 minutes later,

He entered the space of the Viper Academy. He saw all the four institution buildings. He paused before moving towards the Supreme Elder's mansion.

When he arrived there, He saw no one there. He furrowed his eyebrows as he sensed the presence of the formation.

"The old dog is alive," He said with a bitter smile.

But he never thought the formation was arranged by someone.

For a moment, he stood there in mid-air. He doesn't know whether to inspect or not. If the old dog is alive, then the conflict might break out here.

"Hateful," After saying that he made some decision. He doesn't want to waste his trip. So he decided to meet the Giant Tower Academy's Supreme Elder.

He then also asks him about the 2 unknown powerhouses.

Swish!

He disappeared from the spot. In the blink of an eye, he moved away from the academy space.

When he was completely gone. Dean Rebecca who was in her office cabin sighed in relief.

After activating the formation, she came back to her cabin. If she is present there, the Eclipse Academy's Supreme Elder can spot her.

Fortunately, she was clever. Calming down her racing heart. She thought about that person's visit.

"Why did he come?" She asked herself.

She knows that they didn't have good relations with the Eclipse Academy. It's the same case with the Giant Tower Academy.

When she thought the problem with the Giant Tower Academy was over. Now the Eclipse Academy is making her worry.

What to do? She tapped the desk. The next second, the image of a certain person comes to her mind.

"Zack," She mumbled under her breath. Then she summoned Zack.

Meanwhile,

Puppet Training Room;

A few minutes ago,

Bang!

The Silver puppet explodes when the blood fist comes in contact with the body.

When the dust settles down. I select the next puppet to appear.

A silver puppet appears above the platform. When I decided to use the blood fist again.

Beep!

A sudden message broke my concentration. Seeing that I stopped my movement and started to read the message.

"Dean summoned me!"

I raised my eyebrows in surprise. Then I decided to meet her after getting freshened up.

Several minutes later,

I left the building and started approaching the office building.

Soon, I reached the place and walked up to her cabin.

Creak!

When I arrived at the cabin, The door opened automatically.

I walked inside the room. I saw Dean Rebecca with a serious expression.

"We have a new headache," After saying that Rebecca starts to say what happened.

A few minutes later,

My expression was darkened. I couldn't help but recall the recruitment day. I felt hatred from the representative of the Eclipse Academy as well.

I didn't expect they would come into the picture. But what's more surprising is that their Supreme Elder dared to enter our academy.

But the good thing is that Jonathan was here.

I looked at the dean and assured her by saying, "Don't worry Dean. I'll see what I can do about this?"

After speaking for a few minutes, I left the room and started walking out.

After appearing outside, I called Jonathan to inform him. The call was quickly connected.

When I told him about his incident. Coincidentally, Jonathan was there in Tower City to strengthen the barrier.

After speaking to him, I walked towards my dorm room.

Meanwhile,

Tower City:

Jonathan, who was here with the helper to strengthen the barrier, didn't expect to hear such news.

He thought the outer post would be calm without turmoil. But the Eclipse Academy is making the waves.

"Interesting," He muttered to himself.

Then he shifted his focus back to the space barrier. He made up his mind to deal with the Eclipse Academy's Supreme Elder later.

An hour later,

Jonathan felt the turbulence in the space barrier. It's caused by someone's interference.

Swish!

Jonathan disappears from the spot and starts moving towards the academy.

Not long after, he spotted someone going towards the Giant Tower Academy. Seeing that Jonathan frowned.

"Commander Rank," He muttered to himself. Then he recalls Zack's message.

"Could he be?" He stopped mid-way. Then he decides to follow him secretly.

Cameron is going straight towards the academy. He didn't even realize that someone was following him from behind.

Swish!

In the blink of an eye, he reached the academy.

There are many towering buildings inside the academy. Cameron is slowly moving towards the deep.

Jonathan is also following in a flash.

When Cameron got closer. The Supreme Elder of the Giant Tower Academy felt the presence of the intruder.

Swish!

In the blink of an eye, he appears outside. When he saw Cameron. A hint of surprise flashes in his eyes.

"What are you going to do here?" He asked.

Cameron observed his long-time friend before saying, "I heard your city got attacked by unknown people."

"So I came here to talk to you," He added.

"Alright, let's go inside," The Supreme Elder of the Giant Tower Academy said.

When both entered inside. Jonathan appeared. Looking at both of them, he feels something fishy.

He decides to hear what they are going to talk about.

Cameron and the Supreme Elder both appeared outside of the hidden mansion.

Instead of going inside, Cameron stood there and asked, "Did you see those guys?"

"Or is it a rumor that you spread?"

The Supreme Elder wasn't surprised. He looked at him and answered, "I haven't seen them during their fight because the aftermath was damaging the city."

"Harumph," Cameron gave a cold snort. He was dissatisfied with the answer.

Both don't know that someone else is listening to their conversations.

Chapter 628 Taught a lesson

From MC's perspective:

Giant Tower Academy:

"Are you sure they will not appear again?" Cameron asked.

The Supreme elder revealed a bitter smile on his face. He was scared that day. That's why he had activated the formation to cover the whole academy.

Then he thought of something.

"The headmaster of our academy was found dead when that incident happened," He said.

"Oh, that useless guy," Cameron said. He recalled the annoying face of the Giant Tower Headmaster.

"Now, let's come back to the main topic," Cameron said.

"What are you going to do about the Viper Academy?"

"I didn't find that old guy back there," He added further.

The Supreme Elder frowned. He knows more or less about the Viper Academy's recent activities. They are also preparing for the year-end conference.

Their selection competition was over a few weeks ago.

Then I looked at Cameron and said, "I just ended my retreat recently. I don't know much about the recent events."

Cameron furrowed his eyebrows. He came here to join forces together to handle the Viper Academy.

"Last time, I saw that old guy was severely injured. Unless there is help from the inner post. He can't survive."

"So I suspect something fishy is happening in that academy," Cameron said in a solemn tone.

If not for the formation, he would have entered the mansion to verify.

"Oh, you are right!"

"When you mentioned the inner post. I remembered something."

"The Viper Academy has a lightning seed. Maybe the old guy sought help from the lightning kid's background," The Supreme elder said.

"Lightning kid again," Cameron's face frowned.

Looked at the Supreme Elder and asked, "When did the Giant Tower Academy become so righteous?"

"If I'm right, both of you are do-or-die enemies. Now you forgot to target the lightning seed of the enemy camp," He added in a sarcastic tone.

The Supreme Elder's expression was serious. He said, "If that kid goes to the inner post, he would die for sure."

"But here it's difficult to target that kid. We tried for 2 times. But ultimately the mission failed."

Cameron sneered inside. He knows the Supreme Elder loves his life more than the Academy. Maybe he doesn't want to offend the powerful enemy.

"Alright, I don't want the Viper Academy to get a good place in the year-end conference."

"So we should work together. On top of that, you should come with me to check the Viper Academy again."

"My intuition tells me he is not in good shape. If he is gone, then we can make our plan bigger," Cameron said.

The Supreme Elder's eyes shine with bright light.

"Okay, if the old man was gone for real, then we can divide the Viper Academy into two," The Supreme elder said with a smile.

But they don't know someone is already staring at them from the dark.

"These 2 dogs are too cunning. They want to divide the Viper Academy," Jonathan's eyes turned cold.

He thought it was the right time to make the entrance.

Swish!

He instantly appeared in front of them. Before they could feel his presence.

Rumble!

A massive corrosion was applied on them.

Cameron and the Supreme elder who were talking to each other stunned all of a second.

Smash!

The next moment, both looked at each other with horror-filled eyes. The massive coercion has planted them directly onto the ground.

Pfff!

Both of them felt all the bones in their cracking for a second.

Coughing up blood, both tried to raise their heads. But the coercion was so powerful. That they couldn't move their body an inch.

Cameron was terrified in his heart. There was someone beside them who had been eavesdropping on their conversation.

"Who could be?" He said in his heart. He wasn't able to withstand the coercion. Then what about the person's real strength?

The Supreme Elder was even more horrified. He felt the same way when that incident happened.

"Don't tell me that person was here," He prayed in his heart.

But the next second, both of them heard a stern voice.

"You guys had an interesting conversation. But it's a pity, I like the Viper Academy," Jonathan said.

Cameron and the Supreme Elder are terrified. Now they are really afraid of dying. A few minutes ago, they discussed splitting the Viper Academy's resources.

Now someone is saying that he likes the Viper Academy. Cameron regretted coming here.

Jonathan's eyes flickered. He doesn't want to kill them. Because both the academies are branches. The main one is located in the inner post.

Seeing that both of them are deeply injured. He canceled the coercion.

"Don't target the Viper Academy. If I found out, then both of your heads will be rolling," After saying that Jonathan disappeared from the spot.

Cameron and the Supreme Elder found their bodies returned to normal. They can move their body now.

Cameron immediately took the healing pill and swallowed it in one go.

The Supreme elder did the same.

15 minutes later,

The injuries in their bodies have reduced somewhat. Cameron tried to stand up. When he stood up, he checked the condition of his body.

There are a lot of hidden injuries. It would take a few months to recover. Cameron's expression turned ugly.

He didn't expect to meet this accident here. Whoever appeared in front of them was very strong. He is certainly not someone who belongs to the outer post.

He then glanced at the Supreme Elder who was trying to get up.

"Harumph," He gave a cold snort.

He recalled the words of the Supreme Elder at the end. He had talked about dividing the Viper Academy.

If not for his finishing words, the person wouldn't have got angrier.

Swish!

Without waiting for the Supreme elder to respond. He disappeared from the spot and rushed out towards the exit.

A few minutes later,

The Supreme elder got up and checked his injuries as well. His injuries have worsened.

He thought for a moment before shuddering. The stranger could be hiding here. The next second, he disappeared into the mansion to activate the formation.

But he doesn't know that the Stranger has already arrived in Viper City.

Jonathan then shared the news with Zack Lockwood. He thinks that Zack Lockwood would be flat out to hear this news.

When the connection was established.

"Zack, I fought with their Supreme Elder," He said.

"Is it Eclipse Academy's Supreme Elder?" I asked back.

"I think he is the one," After saying that Jonathan started to speak about their conversation.

A few minutes later,

I sighed inwardly. Fortunately, Jonathan was present there to handle the situation. Otherwise, the 2 Supreme Elders would have found out the truth.

Jonathan ended the call. Then I texted a message to Dean Rebecca.

The following day,

10 A.M,

After having breakfast, I separated from Ernest and Laverne and started heading towards the teleportation tower.

Shortly after,

I walked up to the circular platform and selected the server.

Swish!

I disappeared from the spot and appeared inside the monster zone.

The dense green vegetation and a bright light greeted my face.

Rustle!

The next second, I found that the bushes in front of me were moving. When I activated my perception. I saw the monster's appearance.

A huge boar monster is rushing out towards me.

When the monster appeared before me.

"Lightning Finger Technique"

A purple beam released from my finger and shot at the boar monster.

Pfff!

The beam pierced through the monster's head hereby ending the monster's life.

Tud!

The boar monster dropped dead on the ground. The boar monster is a Class-4 Monster.

I didn't plan on dissecting the monster's body. After collecting the monster core, I left the spot.

Not long after, I came across another monster. This time it was different. The monster has spikes all over its body.

Seeing that my eyes flickered. The monster has a similar height as me. But the strength of the monster is Class 5.

Swish!

When the monster saw me. It shot many spikes towards me. The speed was so fast it reached me in a blink of an eye.

"Lightning Phantom Technique"

The purple lightning covered my legs. In an instant, I retreated several steps backward.

Tud!

The spikes hit the empty ground one after another. On the other hand, the monster showed no movements. It remained in the same spot.

Seeing that I furrowed my eyebrows. This monster was different. It's not showing any murderous intention at all.

Swish!

The next moment, the monster senses something and it disappears into the bushes.

Seeing that I observed something in my perception. An even more dangerous monster is approaching.

Looking at the monster it appears to be a cat-type monster. Seeing that I didn't move from my spot and waited for the monster to appear.

Shortly after,

A black-striped tiger walked out of the bushes. The monster is almost twice the size of mine. When I observed the strength. I felt a slight threatening aura from it.

Chapter 629 Part 1: Monster Riot!

From MC's perspective:

Monster Zone,

The Black Striped Tiger is moved fast. In the blink of an eye, I saw a massive claw before my face.

"Blood Fist"

I raised my fist to counter the attack. In the blink of an eye, the blood power reaches the fist from bones.

When the punch collides with the claw.

Boom!

A deafening sound reverberated throughout the area.

The Class-6 Monster Tiger retreated a few steps backward. But it remained unscathed. Fortunately, the monster is at an early stage.

There is still some chance to defeat the monster.

Roar!

The monster let out a huge roar before leaping towards me.

"A great chance," My eyes flickered. When the monster got closer to me. I released the lightning defensive technique.

"Lightning Wheel"

A purple-colored lightning wheel formed around me. The lightning wheel beaming with dangerous power.

The tiger monster was startled. But it's too late to evade the attack. When the monster collided with a lightning wheel. The next second, the lightning wheel explodes.

Boom!

A deafening sound reverberated throughout the area. Because of the impact. I retreated a few steps backward.

That was the same case with the monster. But when the smoke was gone. I observed the monster.

The lightning-caused deep wounds in the monster's limbs. The next second, something surprising happened again.

The Tiger Monster stood up with great difficulty and ran back into the wilderness again.

Seeing that I stood in the same spot in a daze. "What's happening to these monsters?" I muttered to myself.

Shake!

Then I felt the tremor on the ground. I activated my perception ability to see. The next second, I saw some coming in my direction.

As the seconds pass, I get heart palpitations. A more dangerous aura is approaching this place.

"Could it be a Class-7 Monster?" I said in my heart.

"Lightning Phantom Technique"

A powerful lightning bolt covered my legs. The next moment, I burst out with great speed to move towards the nearest teleportation point.

The Class-7 Monster is dangerous. It can reach me in an instant. I don't want to face such a monster now which is equal to the SSS-Rank Elite Warrior.

Not long after, a tree root appears above the ground by cracking the ground surface. Each tree root is looking for prey to catch.

After seeing that there was nothing on the surface. The tree roots went back to the ground and disappeared in the blink of an eye.

A few minutes later,

I reached the teleportation point and selected the server to return.

Swish!

When I appeared outside. I saw a lot more people with injuries. Like me, they are also coming from the monster zones.

"What happened?" I asked myself.

A warrior who was far away from me heard my mumbling. He turned towards me and started to tell me what happened.

A few minutes later,

A hint of apprehension appeared in my eyes as I left the teleportation tower. "A riot is happening in the monster zone," I muttered to myself.

What caused such a large-scale riot? I see many of them are going towards the infirmary.

Beep!

Just as I thought my communication watch lit up with notification.

When I saw the contact name. It was from the old healer. He must be asking me to come to the infirmary.

When I attended the call. I heard a deep voice.

"Hey, kid. Come to the infirmary as soon as possible. It's an emergency time."

Hearing that I agreed to go there. After ending the call, I wore a mask to cover my face. Then I started heading towards the infirmary.

When I reached the place. I saw the place was crowded with the warriors. The warriors with mild injuries are still waiting outside.

Seeing that my eyes flickered. My healing essence won't be enough to support the treatment today.

After calming down my heart, I walked into the infirmary. After walking through the corridor, I reached the old healer's room.

Just when I got closer. He opened the room to walk out.

"You are here!" The old healer said.

Hearing that I nodded my head at him. Right after he led me towards the treatment room. After arriving at the room, I saw many patients admitted in a single room.

Seeing that old healer checked the patients one by one before asking me to treat some patients.

I walked to the first patient who was a wind elemental warrior. He has a lot of skin injuries. Most of the flesh was torn apart.

Seeing that I looked at him. The patient was unconscious. There is no need to talk to him.

Then I placed my hands on his injuries and started to pour the healing energy. A small green film appeared above the injury.

A few minutes later,

The skin injuries recovered to some extent. Seeing that I continued to treat the remaining injuries.

An hour later,

I walked out of the treatment room and headed to the staff room to recover my healing essence.

The old healer is still treating patients with severe injuries.

Suddenly, I thought of something. I still don't know about the cause of the monster riot. After arriving at the staff room, I opened the door to enter inside.

Walking into the room, I found an empty sofa to sit down on.

Then I began to access the communication watch. After opening the online page, I saw many new articles trending.

All of them are posted by warriors returned from the monster zone.

[Monsters Riot!]

Then I began to read the first article.

A few minutes later,

My expression turned serious. Then I hurriedly called Dean Rebecca but the call was not connected.

According to the article, something is happening at the core of the monster zone.

Suddenly, something struck my mind.

"Don't tell me it has something to do with the space barriers," I muttered to myself.

There is a high possibility for it. But before doing anything about it. First, I have to recover the healing essence.

Eclipse Academy:

After a few hours of flying, Cameron returns to the academy. He didn't inform anyone about his injury, rather he went straight to his mansion.

After arriving at his room, he took a few more expensive liquids and injected them into his body. The healing liquids are more expensive than the potion.

They can be normally found in the Healing Center. But here Cameron has a large quantity of healing liquids.

After injecting the liquid, he lay down on his bed. Then he closed his eyes. But he wasn't able to calm down his heart.

The experience has left him with a deep horror in his mind. How long has it been since he got injured by someone? He can't remember the exact days.

It had happened many decades ago when he was like other struggling warriors. The healing energy is slowly healing the internal injuries. Because of the constant pain, he opened his eyes.

"Viper Academy," He mumbled under his breath. All the 6 big academies here have some or less connection to the inner post organization.

The ranks and strength of the inner post organizations vary. He is friends with the Giant Tower Academy. It's not only because of their Supreme Elder. But it has to do with their organization.

Both the Giant Tower and Eclipse Academy have main branches in the inner post. As far as he knows, the relations of the main branch are good.

That's why he is having good relations with the Giant Tower Academy. So whenever there is an opportunity, both the academies join hands together to reap benefits.

But this time his plans have backfired. Out of nowhere, the Viper Academy has the person from the inner post.

At first, he was not sure. However, the difference in strength made him realize that a person does not belong to this region.

That person's warning was ringing in his ears. Thinking about it, his heart boils in anger. But it can't be helped. If he does something, it might anger that person.

When it comes to the Supreme Elder of the Giant Tower Academy. He was even more annoyed. That person was there all along near the Giant Tower Academy.

But that useless supreme elder had failed to realize this. Now he thinks he might not even want to leave the mansion.

Inside his body, the damaged organs are slowly recovering. Because of that, his pain was alleviated a little.

"It would be better if someone from the main institution visited us," He mumbled under his breath.

If it happens, he doesn't have to be afraid of that person. His eyes shone with the bright light. There is a way to contact someone in the main institution.

But unless it's necessary it's strictly forbidden to disturb the people in the main branch. But now he has a reason to do that.

Someone from the inner post is staying here. And he has connections to the Viper Academy. He thinks the reason was enough to convince the people in the main institution.

When he thought of this plan. His eyebrows got relaxed. Next, he has to wait for the injuries to heal.

Chapter 630 Part 2: Monster Riot!

Jonathan and others are strengthening the barrier. But they also found out at the last moment that the space barriers of many monster zones are weakening.

Which disturbed the stability of the monster zone. Hereby causing a massive riot there. Then Jonathan and others quickly went to each monster zone to strengthen the barrier.

Starting from the more unstable monster zone

On the other hand, the higher-ups of the 6 big academies are terrified. They don't know what's happening. Apart from the Supreme Elder, no one is daring to enter the dangerous monster zone.

Some monster zones have Peak Stage Class-7 Monster. They are capable of fighting against SSS-Rank Warriors. If they get any injury, it would affect the strength of the academy.

So they stayed back in their respective academy. Meanwhile, the Supreme Elder of the Giant Tower Academy and Eclipse Academy seem to guess something.

They believe that it has something to do with the stranger. But they didn't share it with the other academy.

Viper Academy;

Unlike other academies, the Supreme Elder of this academy was no more. Rebecca finds it difficult to keep this matter hidden.

Especially after Supreme Elder Cameron's visit. She became even more worried. Right now, she has entered one of the unstable monster zones.

Tremor!

The whole place is shaking with tremor. The plants and vegetation were destroyed. The monsters on the ground are letting out one roar after another.

Each monster is running for a life trying to find our more stable land.

Rebecca who is standing in the mid air saw the scene. She couldn't help but worry. Not only on the ground, even standing in the mid air she felt the changes.

The space itself is trembling. A hint of apprehension appeared in her eyes. If this situation continues then all the life in this monster zone will die.

She suddenly thought of something.

Zack texted her yesterday regarding the Supreme Elder's situation. He had mentioned that the Supreme Elder's situation was sorted out.

They won't appear back again. She thinks that person behind Zack is still here. If he can help them it would be better.

Swish!

In a blink of an eye, she disappears from the spot.

...

From MC's perspective:

After recovering the healing energy, I resumed the treatment. But there are many warriors with serious injuries. I'm not capable of handling such injuries.

But seeing the dire situation. I'm thinking about improving the healing hand further.

Beep!

When I'm treating the patient. My communication watch lit up with the notification.

Seeing that I stopped healing and attended the call.

"Zack, where are you?"

"Come to my cabin asap!"

Dean Rebecca's voice reached my ears. There was no one else inside the room except the patient and me.

And the patient was unconscious. So I boldly talked to her.

"Dean, what happened?" I asked.

"Come to my cabin. I need your help with something," After saying that Rebecca ended the call.

My expression turned serious. Now I'm starting to think the problem has something to do with the space barrier.

After looking at the patient, I decided to leave. The green film has covered most of the injuries. This would take some time to take effect.

Creak!

After opening the door, I walked outside. I see many warriors crowding outside the treatment room.

When I walked past one of the rooms. I caught a glimpse of how an old healer is treating broken hands.

Then I reached the exit and walked out without turning back.

After that I started heading towards the office building.

Soon I reached the room and walked upstairs. After reaching the dean's cabin.

Creak!

The door opened automatically. Then I walked into her room.

When I saw her expression. She was deeply worried. It was worse than earlier.

"Dean, what happened?" While asking that I sat opposite to her.

Rebecca calmed down her heart before starting telling what was happening inside the monster zone.

A few minutes later,

My expression turned solemn. I was fortunate that I didn't spend more time in the monster zone. I had to leave at that time.

Thinking about it now, I made a wise decision.

"Dean, what do you want me to do now?" I asked back.

"I know that person is still here. Could you contact him to help us?" Dean asked.

Hearing that I nodded at her. I know that Jonathan has been working on this. But the monster zone trouble came out of the blue.

I called Jonathan in front of her.

When the call was connected. I heard Jonathan's voice.

"What happened?" He asked.

A faint smile appeared on my face. He didn't address me as a young master, which is good. Otherwise, the dean would be freaked out.

"Jonathan, the monster zones are unstable here. If this goes on many monster zones will be destroyed," I replied.

"We are working on this one by one. Don't worry everything will turn normal within today," Jonathan said.

Hearing that I sighed in relief and ended the call. Not only me, Dean Rebecca's complexion also return to normal.

After speaking for a few minutes with her. I felt the room and started going back to the infirmary.

Though Jonathan has assured us. But many lives are inevitably going to die. This would have a huge impact on the academy.

Already, the academy is going to fight for the resources in the upcoming year-end conference. This damage would further make the competition even more severe.

Shaking my head, I continued heading towards the infirmary.

Time flies,

Because of the continuous quake in the monster zone. Many of the monsters are killed in this incident.

This unknown incident has caused damage to all the 6 academies. As the time got closer, the tremor stopped, giving relief to thousands of monsters.

But they don't know that someone is working behind the scenes very hard to stabilize the space barriers.

The following day,

Eclipse Academy:

The Supreme Elder Cameron walks out of the mansion and arrives at the front lawn. As usual, he sat on the chair and started making tea.

Shortly after,

The dean Edgar appears in front of him with a report. Without needing to raise his head, Cameron knew what this was all about.

Edgar started to speak.

"Elder, we have lost a total of 14 monster zones with zero life. Everything in there was completely destroyed."

"It's a miracle that the space barrier was stabilized before the monster zone itself was destroyed altogether."

Cameron paused his movement for a second. 14 monster zones? It's a huge blow to the academy.

Edgar was worried as well. He doesn't know what the Supreme Elder is going to do?

Cameron doesn't know what the losses are at the Giant Tower Academy.

"Alright, you can leave. We will do something about it later," Cameron said.

After receiving the order, Edgar left the spot.

Cameron frowned. The Monster Zones returned to normal after some time. He couldn't help but feel it had something to do with that person from the inner post.

He can't even go to the Giant Tower Academy to meet. He may seem alright. But still there are some hidden injuries in the body.

He doesn't want to leave without getting fully healed. After drinking the tea, he stood up from the seat.

Then he went back to the mansion to get some rest.

The Giant Tower Academy:

The Supreme Elder of the Giant Tower Academy is also getting the reports. The scale of the damage was similar to the Eclipse Academy.

But the Supreme Elder was not in the mood to investigate everything. Like Cameron, he still has some hidden injuries. He doesn't want to do anything unless he hears something from Cameron.

Meanwhile,

Viper Academy:

The crowd gathered at the infirmary finally starts to recede. In one of the treatment rooms, I'm healing a female warrior from the glad faction.

Something was stabbed in her abdomen which left a deep injury in it. When I used the healing hand.

A thick green essence poured into her injured area. I don't know how the healing hand will heal the hidden injuries.

As the time passes, the wound begins to heal. After some time, a green field appeared over the wound.

Seeing that a hint of relief flashes in my eyes. Slowly, the wound began to heal. Then I saw that it was already time.

I don't think that old healer would let me go back to the room. When I walked out of the room. I saw the old healer going back to his room.

Seeing that I turned around to leave. But the next second, I heard a voice.

"Do you have to go?"

Hearing that I immediately turned around and saw the old healer is looking at me with a smile on his face.

"I'll come back in the morning," I said.

The old healer thought about it for a moment before agreeing to it.

"Alright, you can go," He said.

Hearing that I sighed in relief. Then I turned around and walked towards the exit.
