Chapter 631 Going to B-Grade Institute

From MC's perspective:

A few days passed,

After getting out of bed, I started to recall today's schedule.

The turmoil of monster zones comes to an end. After Jonathan and his team's efforts, the environment returned to normal.

Even the patients who were severely injured are showing good recovery. But the scare was real. If Jonathan hadn't dealt with the mysterious person.

The consequences would have been severe. After the incident, Jonathan went back to the inner post. He told me that he would come back during the year-end conference.

And I think after the year-end conference, I will leave the academy.

Sigh~

A small sigh escaped from my mouth. Days are passing fast. Then I started to do my morning routine.

9 A.M,

I left the dorm room and walked towards the dining hall. When I reached the place. I saw Ernest and Laverne waiting for me as usual.

We then walked into the dining hall.

"How are you preparing for the year-end conference?" Ernest asked.

"It's going well," I replied.

But Laverne showed a confused expression. Before I could ask, she opened her mouth to say, "I think the event should be postponed to next year."

"What?" Ernest uttered in surprise.

By the time we arrived in front of the counter. After getting the food, we found our usual spot to sit down and eat.

Ernest asked, "Now tell me?"

Laverne nodded at her before saying, "I heard that the other 5 academies have suffered huge damage. They are in urgent need of resources. If the year-end conference was held, then the competition is going to be more severe."

"I almost forgot about it. But without the conference, it's difficult to distribute the resources for next year," Ernest added.

Listening to both of their opinions. I couldn't help but feel sorry for the dean. She is already afraid of certain things. This new information will add to their headache.

Then we continued eating. From time to time, we discussed something.

After having breakfast, we walked out of the dining hall. Then the three of us parted ways. Ernest and Laverne also trained hard individually.

Considering the recent incident, I doubt anyone dares to go to the monster zone anytime soon. There is no news from the administration yet.

Should I go and ask her? I raised my eyebrows. After that incident, I had either spent time alone in training or the infirmary treating patients.

After gaining some clarity, I started walking towards the office building.

Soon, I reached the place and started walking towards her cabin. When I got there.

Creak!

The door opened automatically. Seeing that I walked into the room. When I saw her. She was usually doing some work on the digital screen.

Rebecca saw Zack before closing the page on the screen. She said, "We escaped narrowly from getting bankrupt."

I sat opposite her and asked, "Dean, how are the monster zones right now?"

"Can I go to the place?" I added.

Rebecca's eyes flickered. Right now, the students are in a state of panic. Even the administration stopped giving missions temporarily.

All the students are in the academy and no one wants to go to the monster zone. Unless they get assurance from her.

But as a dean, she was not sure for herself. So looking at Zack right now. She was in a dilemma.

"Zack, I admire your courage. But still, I recommend you to wait for a few weeks," She said.

"What? Weeks!" I uttered in surprise.

Rebecca didn't change her expression. She nodded her head before saying, "I know the person behind you has solved everything. But still, other academies are showing some patience."

"If we allow the entrance, then it would attract attention from the unwanted eyes. And I won't be surprised if the Supreme Elder of the Eclipse Academy comes back to investigate," She said in a solemn tone.

But I wasn't convinced. She is afraid of other academies. But after Jonathan's treatment, I doubt any of them would have ill intention.

"Dean, it's boring to spend an entire week in training. I want to go to the monster zones. Not only for improving my skills. But also for collecting monster cores," I said in a serious tone.

Rebecca showed some pandering expression before thinking of an idea.

"Why don't you go to other institutions of our academy?"

"You are inching for a fight. And I doubt any of them from an A-grade institution would be ready to fight against you."

"But if you go to B, C, and D grade institutions, I guess there will be students ready to challenge you," Rebecca said.

"But I'm a Super Elite Warrior now," I replied. In my opinion, the warriors here are not that challenging. So the warriors in the B-grade institution might be worse than here.

"Ha...Ha...Ha..."

"You are underestimating them," Rebecca said with a laugh.

"I heard you initially had a D grade quota for admission. But you changed your life during the competition. So there are tough warriors out there."

"It's just that they didn't have a chance to enter an A-grade institution like you," She added.

Her words brought me some understanding. I started recalling my early days. D grade quota was a hard-earned reward for Uncle James. Because of turn events, I managed to get into this A-grade institution.

Instead of spending time alone, it's better to take a look. What's happening out there?

"Alright, I'm ready to visit the B-grade institution," I said.

Hearing that Rebecca smiled. This was supposed to happen months ago. But Zack has the time now.

Then she taps the digital screen in front of her and gives some special permission to Zack. So that he can enter and exit the premises of the B-grade institution.

"I gave you access to enter. If you go there, there will be someone to guide you. If you want to fight, then you challenge someone freely," Rebecca said.

Hearing that, I feel good. Not that many had gone to lower institutions. This is going to be some experience.

After leaving her cabin, I walked out of the office building. Now, I'm going to visit the B-grade institution.

I took the face mask from my storage ring and wore it to hide my face. Almost everyone knows me in the academy.

And it won't be different in the B-grade institution. The place is a walkable distance from here. Then I started leaving the premises of the A-grade institution.

Soon, I reached another wide road that led to the B-grade institution. There was no one around me. The road was empty. No one goes from an A-grade institution to a B-grade institution.

I'm the first one. Soon, I reached the gate. Dean Rebecca gave me an access code. After entering the access code, I walked inside.

I can see a similar building from a distance. When I got closer, I saw the movement of the students. Their uniform is different from mine.

And there is a badge on the chest mentioning that they are from the B grade institution.

At first, no one noticed me, but as I walked past several students.

A few of them recognized my uniform.

Gasp!

The next moment, a small commotion occurred.

"Hey, he is from the main institute," Someone pointed his finger at me.

Right after, everyone understood and multiple gazes fell on me. At the same time, the murmur starts.

When I was looking for a way out. Someone appeared before me.

It was an old woman. But her energy levels make me feel that she is one step away from the dean.

"You are here!"

"Come with me," The old woman said.

She is wearing a faction head's uniform. She is over fifty years old and she has some white hair.

Then without minding everyone. I followed her.

When we got away from the crowd. The old woman turned toward me.

"Zack Lockwood!"

"Nice meeting you."

"I'm Amelia Charles. The flame faction head for this institution," She said.

Hearing that I raised my eyebrows in surprise. I thought she was a water element user.

Then I replied, "Good to see you, Elder. But I came here for a fight."

Amelia wasn't surprised. The dean has conveyed everything.

"Don't worry Zack. You will be surprised. If I tell you there are a lot of warriors here who don't believe in your strength."

"Everyone has witnessed your duels before. But still, some warriors don't believe in your strength," She said.

A faint smile appeared on my face.

I looked at her and asked, "Could you introduce me to some?"

Amelia nodded her head before we started flying towards the flame faction. Soon we reached the towering building.

When we walked inside. I saw the setup was everything the same. Even the inside architecture of the building is similar.

There are stairs leading to different faction's common rooms. But for the flame faction, the common room was near the opening room.

When I was paying attention outside. Amelia started summoning strong Super Elite Warriors from her faction.

Shortly after,

A few warriors appeared in front of us. All of them are looking bulk with the heavily built muscles. For a second, I thought they were from an earth element faction.

Amelia looked at them before turning towards me.

I nodded at her.

Chapter 632 Defeating an average warrior

From MC's perspective:

"Faction Head?"

"What is this all about?" one of the heavily built warriors asked.

Then his gaze turned towards me. He is focusing on my uniform.

Faction Head Amelia then started telling her students. At this point, other warriors also arrived.

A few minutes later,

The flame faction warriors of this institution turned towards me. Their expressions turned serious. I think they couldn't believe what they were hearing!

"She is right!"

"I came here for a challenge," I said to them.

Gasp!

The next second, a small exclamation rang out in the place. They couldn't believe that I would come here.

"Call, Thomas."

"He always wanted to fight against Zack Lockwood," A voice came from the crowd.

"Yes, Thomas can fight equally against Zack Lockwood," Another voice came from the crowd.

Right after, everyone started saying Thomas.

The flame faction head Amelia nodded at her before saying, "Alright, ask Thomas to come to the training ground."

After saying that she started to guide me toward her cabin.

In a few minutes, the news about my coming here quickly spread to the whole B-grade institution. My name started to appear in online posts.

Meanwhile,

The news came as a thunder for the warriors in the A-grade institution. They couldn't believe someone from the A-grade institution would go there.

When they learned the warrior was none other than Zack Lockwood. The warriors felt their face was slapped. Especially when they learned Zack had gone for a challenge.

They don't know where to hide their faces. Almost every faction had warriors defeated by Zack Lockwood. Zack had gone there. Which means there was no capable warrior in the A-grade institution.

Shortly after, a strong criticism started to spread against Zack Lockwood.

On the other hand, Thomas who had gone outside for a while returned to the academy. When he learned that such an interesting thing was happening.

He let out a wide laugh before starting to go towards the B-grade institution.

Meanwhile,

Faction Head Amelia started explaining about the strong warriors in this institution. According to her, many warriors are qualified to enter an A-grade institution.

But because of the lack of admission seats. They weren't able to get the chance.

Hearing that I nodded my head at her. Who knows there might be strong warriors studying here.

Shortly after,

Amelia received the news about Thomas' arrival.

"Let's go, Thomas has arrived. He is one of the strongest Super Elite Warriors," She said.

Hearing that I ease down my eyebrows. Finally, I don't have to wait for a long time.

Soon, we reached the training ground. When we got here. I saw it's a medium-sized duel platform. Many warriors have gathered in the place.

Each faction had its fighting platform. This was the fighting platform of the Flame faction.

When I was observing the platform. Amelia asked everyone to be quiet. Then a red-haired person stepped forward.

He looked at me before turning toward the flame faction head.

"Zack, he is Thomas," Amelia said.

I nodded at her before turning towards him and asked, "Are you ready for a fight?"

"Zack Lockwood, I didn't expect to see you here. But don't worry, I won't let you win easily," Thomas said with a smile.

Hearing that I responded with a smile as well. I didn't expect the guy to be this enthusiastic.

Then Amelia asked whether to start the fight or not.

Hearing that I walked to the platform. And Thomas stood opposite to me. This place was different from the duel arena.

Only people from the Flame faction are here. I bet others are itching to watch the duel as well.

Meanwhile,

Dean Rebecca heard the reports as well. She couldn't help but reveal a small smile. She thinks that this news will distract others from the recent incident.

She is also getting requests from other faction heads. They all want to watch the duel as well. But she thinks it's inappropriate to do it.

Otherwise, conflict may break out between the institutions. But if someone manages to duel better than the Warriors training here.

Then it might give her a headache again. The warriors in the B-grade institution might ask for admission.

It can't be helped. She had no choice other than to let it happen.

On the other hand, Ernest and Laverne were also surprised by the news. They didn't expect Zack to come up with such a plan.

Meanwhile,

In the duel arena, we stood opposite each other.

Thomas was eager to duel against me. Amelia stood as a referee.

When she gave the signal. Thomas took out a scythe to attack. The next second, a blazing flame released from her weapon.

One after another the flame ball shot towards me.

But in my eyes, the speed was rather slower compared to A-grade institution warriors.

Swish!

I started to evade the attack one by one. The flame ball hits the empty air and lands on the ground.

Boom!

A deafening sound reverberated throughout the area.

When the smoke was settled. Everyone saw that we were starting at the same place.

Gasp!

A small exclamation sounded inside the room.

Thomas was startled as well. His flame attack was fast enough. But now looking at Zack. He couldn't help but furrow his eyebrows.

Swish!

When he is not paying attention. I started charging towards him. Thomas raised his scythe to attack. When the blade got closer to me.

I sidestepped enough to evade the attack. The next second, a blade pierces through the empty air.

Thomas' pupil shrinks. He wanted to step back a little. But my fist comes raining down on his face.

Smack!

I punched him. The next second, Thomas retreats a few steps backward.

Seeing that I rushed out to attack. One after another, my punch landed on his body. In the blink of an eye, Thomas was pushed back to a defensive position.

"What's with his speed?" Thomas said in his heart.

He realized that Zack was not using the lightning technique at all. A hint of fear appeared in his eyes.

Before he could think further another fist broke through his defense and a massive fist hit his chest.

Pfff!

Coughing up blood. He left the circle of the landing platform.

Right at that moment, Amelia declared me a winner.

Quiet!

There was pin-drop silence in the whole room. No one expected the duel to come to an end this quickly.

Thomas wiped blood from his mouth before standing up. He looked at Zack with a solemn gaze. Not only he, but the other Flame faction warriors are silent as well.

Especially the faction head Amelia was shocked. From beginning to end, Zack didn't use his special element at all.

He won the duel by simply using brute strength. Then something strikes her mind. The flame technique practiced by the warriors here is not that high grade.

Maybe the quality of technique might be the reason for Thomas' defeat.

At the time, Thomas stepped out and his friends started taking him to the infirmary. I didn't use blood energy at all. Otherwise, he would have deep injuries.

This is a small duel to test out their strength. Shaking my head, I turned towards Amelia. Earlier, she bragged about her students.

Now, one of them wasn't able to withstand the brute strength.

Faction Head Amelia saw through Zack's thoughts. The duel was eye-opening for her. Not only to her but to others as well.

She then let out a small cough before turning towards others.

"Is there anyone who wants to fight against Zack Lockwood?" She asked.

Hearing that many lowered their heads. Not many are as daring as Thomas. On the other hand, I waited patiently.

As the time passed, no one stepped forward. I felt bored. So I decided to go back to my room.

"Alright, if anyone is interested. They can inform the elderly. If there is a challenge, I'll come tomorrow," I said to everyone.

Hearing that Amelia thought the decision was good as well. If she had time she could collect the names of the interested people.

Few of them are outside of the academy.

A few minutes later,

I left the B-grade institution's premises and went back to my building. Faction Head Amelia was kind enough to send me off.

When I started walking back. I came across warriors who were going about their business. As I walked past them, many of them recognized my faces.

The next moment, they started to gossip and took pictures of me. Soon, I reached my room. After entering inside, I closed the door and walked back to bed to lie down.

Then I closed my eyes and recalled the duel in my mind. Thomas' flame technique was the average grade. And he wasn't proficient as well.

If this is the standard then other warriors are average as well. Then I decided to wait until tomorrow. Faction Head Amelia might find names.

I guess not only the Flame faction. Other faction warriors might show interest tomorrow.

Chapter 633 20 warriors?

From MC's perspective:

The result of the duel slowly reaches everyone's ears. When the warriors in the A grade heard about it. They weren't surprised.

They thought, If such a strong warrior existed in the B-grade institution then the person would have entered here long ago.

After this incident, many thought that the episode would come to an end.

But people in the B grade area are thinking about something else. Amelia is actively discussing with other faction heads to write the names of listed students.

Though Thomas's defeat was a setback. No one thought Zack could win easily without using the element.

Which made most of the warriors give up. Even for fun, they have decided not to bring up the topic of challenging Zack.

As the faction heads are discussing in their meeting room. Dean Rebecca called them. After knowing what's happening. She decided not to stop it.

One of the main reasons is that she doesn't think the Warriors training there could defeat Zack. As long as they managed to fight equally, the fear itself would attract a lot of attention.

After that she let them continue their work. She is also looking forward to seeing capable warriors. If anyone stands out, she won't mind using them in the year-end competition.

Then Amelia and others shared the news to other warriors officially. Earlier there were words uttered by Zack floating around. Since it was not official. It won't create much of an impact.

But when the official message was sent to warriors. The news starts to spread like wildfire again. The news also reached the C and D-grade institutions.

After learning that such a thing was happening. The warriors in those institutions couldn't hide their jealousy.

They have started to ask their respective faction heads. But one thing is clear: their strength was nowhere near the warriors training in the B-grade institution. Forget about Zack Lockwood who is undefeated in A grade institution.

But as the news starts to make rounds. People's curiosity starts to increase. They want to see who is going to fight against Zack Lockwood.

Flame Faction Common Room:

"Is this news true?" Seamus Dave asked his friend.

Everyone in the room is looking at the same news.

"What is he thinking?"

"He is humiliating everyone here," One of them said.

"That's right!"

"Someone has to teach him some lesson," Another warrior voiced out his opinion.

Seamus' mouth twitched. He recalled this was the exact talk when he first heard about Zack Lockwood.

"What are the number 1 and number 2 warriors in each faction doing?" Seamus asked himself.

In the Super Elite stage, the top warriors are at peak stage for more than one year. Their combat experience is many times higher than Zack Lockwood's.

He thinks only they can teach some lesson to Zack Lockwood.

He ignored his friends' conversations. He shifted his attention to the year-end conference. He believes that those warriors who are away on a mission will return soon.

Then he wants to see the reaction of Zack Lockwood. But it's a pity, no one can stop Zack's momentum right now.

Time flies,

By that time the whole academy including all 4 institutions heard of this news. Amelia received the names of the interested people.

Even the female warriors from the RainWater Faction have given their names. By that time it was night time. 20 Super Elite Warriors have given their names.

Amelia was surprised by the numbers. When she told the numbers to Dean Rebecca. The dean was surprised as well. But it's difficult for Zack Lockwood to fight against all these warriors in one day.

So Rebecca decides to talk to Zack tomorrow.

The next day,

Dorm room,

After getting out of bed, I started doing my morning routine. Later, I entered the training room to cultivate.

I sat down cross-legged on the platform and took the last Class-5 Monster Core from the storage ring. I held it in my palm and started running the blood element method.

The next moment, the blood rune in my consciousness started to flicker. Then I slowly started to absorb the monster's core energies.

When the monster's core energies entered my body. I guided the energy according to the method. As the energy flows through my body.

A blood light appears above the bloodstream. The blood light starts to convert the red energies into mysterious white energies.

The white energies then drilled into my bones. Seeing that I continued to repeat the process. Slowly, the scalp is turning red. When the skull becomes red.

My whole skeleton looks red.

Time passed,

After one hour, the monster core crumbles into pieces. Feeling that I opened my eyes. That was the last core.

If I want another core, I have to enter the monster zone. Shaking my head, I pushed the unnecessary thoughts back off my mind.

After leaving the training room, I went to take a bath.

20 minutes later,

I changed to an academy uniform. When it was breakfast time. I left the dorm room. Soon, I reached the dining hall and met with Ernest and Laverne.

After seeing me, they weren't able to hide their questions.

"Zack, what happened to you?" Laverne asked.

Ernest wasn't able to hide his curiosity as well. He said, "I was surprised by your move. Who would have thought you would go to other institution?"

Hearing that I responded with a smile. Then we slowly walked into the hall. The next moment, we bumped into the crowd.

The dining hall was more crowded than usual. But then I found everyone's gaze was on me. Most of their gazes are filled with curiosity.

"The news was already spread to the whole academy. Now everyone knows about your challenge," Ernest said from the side.

"Are you going to fight anyone today?" Laverne asked.

I shook my head and said, "I haven't asked dean about this today."

After saying that I started walking through the crowd. We reached the food counter and received the food.

Under the gaze of everyone, we started looking for an empty seat. Soon, we found one and sat on it.

"Damn, many of them came here to see you, not for breakfast," Ernest said.

"Can we go with you?" Laverne asked.

Hearing that I replied, "I don't think the dean will allow others."

"On top of that, I don't know if anyone is interested in fighting me today," I added.

Laverne becomes disappointed. Ernest knows something, so he says, "If we tag along, then other faction warriors could complain."

Hearing that Laverne's mood eases down.

Then we started eating the food. The warriors who were near us started to leave one by one. They came here to see me.

After seeing that we are having lunch. They didn't disturb us.

20 minutes later,

We left the dining hall.

"Did Dean say anything about the monster zone?" Ernest asked.

"I think it will take time. Until then we should focus on increasing our strength," I replied.

Then we parted ways. I started walking to the flower garden to call Amelia.

Beep!

All of a sudden my communication watch lit up with the notification.

Seeing that call was from the dean. I attended the call.

"Zack, come to my cabin" Dean's voice reached my ears.

After ending the call, I started heading toward the office building. When I reached the building. I started walking upstairs.

Then I arrived in front of her room.

"Zack, what are you doing here?" A familiar voice reached my ears.

When I turned around, I saw Carlos Kent standing in front of me.

"I heard the latest news. Didn't expect you would be interested in other low-grade institutions," Carlos said.

"I thought about checking out that place as well," I replied.

Creak!

The door in front of me opened.

"Alright, we will talk later. If you want to go to the mountain peak again. You can call me," After saying that Carlos went back to his room.

Seeing that I nodded at him before walking inside.

Dean Rebecca looked at me.

"You are going to be busy today," Rebecca said.

Hearing that my eyes flickered. Then I sat opposite him.

"There are 20 warriors who gave their names to Amelia. Every one of them wants to fight against you," Rebecca said.

"20 warriors," I uttered in surprise.

I thought no one would fight me. A faint smile appeared on my face.

"What are you going to do?" Rebecca asked.

"I don't know. Are there any strong warriors among them," I said.

"I don't want the results to turn out like yesterday," I added.

Dean Rebecca thought for a moment. Then she shared the details with me.

Beep!

When I got the result. I tapped my communication watch to go through the details. The page opened and an image of the warriors with their information appeared on the screen.

One by one, I started to scroll down the page. Almost all warriors from all the factions have given their names. Their information seems to be true as well.

Chapter 634 A dual element warrior!

From MC's perspective:

Dean office,

"Well, I can fight 2 duels a day. Then in 10 days, I can defeat all these 20 people," I said.

Hearing that Rebecca wasn't surprised.

"Then I'll schedule the duel as per your wish. But the duel will be held at noon. In the meantime, you can go to the mountain peaks to recover your lightning essence," She said.

I nodded my head at her. After speaking for a few more minutes, I left the room.

Since the duel is going to be held at noon. I can take a rest in the meantime.

Soon, I reached my room and walked inside. Then I went to bed to simply lie down.

On the other hand, Dean Rebecca shared the schedule details with Amelia. The opponents will be matched at random.

Amelia took care of that responsibility. Soon, the opponents are decided. One from the Earth Faction and another one from the Gale Wind Faction.

The message was sent to those two in the B-grade institution. Not long after, the news again spread like wildfire.

But unfortunately, no one can watch the duel alive. The duel is going to be held on the training grounds of the B-grade institution.

There is no chance for warriors here to watch the duel.

Laverne and Ernest learned about it. But they thought Zack was having fun. When the monster zone is allowed to enter. Zack will return to his usual days.

Time flies,

When it was noon time, I left the room. Then I walked out of the dormitory. But when I raised my head to look around.

I saw many warriors gathered in front of the building.

"Hey, Zack is out."

"Zack won't you allow us to watch the duel"

"Why can't you use the duel arena?"

"Are you not going to challenge warriors here anymore?"

One after another several questions shot at me. Ignoring them, I started walking towards the B institution area.

The warriors tried to follow me. But soon they realized without access no one could follow anymore.

When I got there. I used the access code to enter their premise.

When I appeared on the other end. I saw that Amelia was waiting for me.

"This time you won't be disappointed," Amelia said in a confident tone.

Hearing that a faint smile appeared on my face. Then she guided me towards the training ground of the Earth element faction.

Yesterday, it was the flame faction. Now it's the earth element faction.

When we reached there, I saw many of the Super Elite Warriors waiting for me.

"Can we start directly?" I asked.

Amelia nodded before calling out the opponent's name.

"Mill, where are you?" She asked.

The next moment, a muscular warrior stepped forward.

I raised my eyebrows. I felt no danger from him.

Then I walked to the platform and stood opposite Mill.

Amelia again took the job of referee.

When both of us are ready. She gave the signal.

Rumble!

The next second, the warrior named Mill created boulders in mid-air and shot toward me.

Again the opponent's attack speed was low. I can easily see the boulders. When they got closer to me.

I sidestepped enough to evade the attack. The boulder went past the empty air and hit the ground.

Boom!

One after another, I evaded the boulder. At the same time, I started nearing the opponent.

The earth element user Mill was startled. He is aiming for the target as accurately as possible. But the opponent easily guessed the move at the last minute.

Before he could think further. He saw the enemy was inching closer to him.

"Mud flood"

He changed the attack. The next moment, a flash of mud flood shot towards the enemy.

On the other hand, my eyes flickered. Mud flooding is not an ordinary move. Only warriors with an earth and water element are capable of releasing it.

But I had no time to think.

"Lightning Phantom Technique"

The purple lightning covered my legs like a boot. In the blink of an eye, I evaded the mud flood attack. The attack passes through the empty air and drowns the platform with mud.

At the same time, using the lightning movement technique. I rushed out to attack. In the blink of an eye, I appeared before Mill.

Instead of using the lightning attack technique. I started using the lightning ability. I covered my fist with purple lightning.

The next second, I raised my fist to punch him.

Smash!

Mill was startled. It was too late to escape. As the lightning fist hits his abdomen. His whole body was sent a few steps backward.

Pfff!

Blood escaped from his mouth. Finally, after reaching the edge. He was able to stabilize himself. But the attack was just starting.

He saw the fist was again raining down on his face.

Smash!

I used the purple lightning to hurt his body. The Power of the lightning turned his skin charred. But as a peak-stage Super Elite Warrior. He is enduring the domineering power of lightning.

But he can't maintain it for long. On the other hand, I saw through his thoughts. Then a good idea comes to mind.

I decided to use the blood fist in disguise as a lightning fist attack.

When I retraced my fist to punch again. I used the blood energy from the bones.

Mill looked brushed and tattered with a swollen face.

In the blink of an eye, the blood energy reached my forearm and gathered around my fist.

"Blood Fist"

I fiercely punched him in his abdomen.

Argh!

A muffled grunt escaped from Mill's mouth. This time his muscular body flew backwards like a broken kite before his body was thrown off the platform.

"Zack Lockwood wins!"

Amelia declared me as a winner. Instead of smiling, I looked at Mill. He was better than the opponent yesterday.

I didn't expect to meet a dual-element warrior here. Then I suddenly recalled the conversation with the dean.

So this guy was trying to enter the A-grade institution. If he had done well, he might get a chance.

Amelia was satisfied with the result. Earlier, she was worried that the duel might be one-sided. But the result was better than yesterday.

Zack has won the duel. But Mill made him use the lightning element. She is aware that it was possible because of Mill's dual element.

On the other hand, Mill's friend took him to the infirmary.

"Shall we go to the next faction?" I asked.

Amelia nodded her head before we walked towards the Gale Faction. Meanwhile, the warriors who had gathered to watch the duel were left speechless.

They took their sci-fi watch to post it to the media.

There is not much fun these days. So Zack's duel has attracted the attention of the warriors in the academy.

Meanwhile,

We reached the Gale Faction Area a few minutes later. Amelia met with the faction head of the wind faction. The wind faction head was an old man.

After talking to Amelia. He turned towards me.

"Zack Lockwood, nice meeting you," the Gale faction head said.

Hearing that I greeted him in a response. Then he led us towards their training ground.

When we got there. There are Super Elite Warriors gathered around the fighting platform.

"Phill, come here," The old man said.

Hearing that a slender-looking warrior walked up to the platform.

Seeing that I didn't waste time. I walked to the platform and stood opposite him. Looking at the warrior, I raised my eyebrows.

I don't know whether he is a dual element as well.

Amelia gave the signal again.

"Wind Blade"

Phill launched a piercing wind attack. One after another, wind blades shot towards the enemy.

Sshh!

An air-tearing sound can be heard.

"Lightning Phantom Technique"

The purple boots formed in my legs. In a blink of an eye, I disappeared from the spot. The wind blade hits the empty air.

An air-breaking sound can be heard.

Swish!

In a flash, I evaded one attack after another. But the opponent is continuously releasing the attack at me. He is not giving any break at all.

"Lightning Wheel"

Then I released the lightning defense technique. A purple lightning wheel formed around me in an instant. As the wind blades collide with the lightning wheel.

Boom!

An explosion occurs. A deafening sound reverberated throughout the area.

Phill was caught off guard. He retreated a few steps backward.

Swish!

By using this opportunity, I charged towards him. In a flash, I appeared before him. I used a similar strategy.

I raised my fist to punch the opponent. The fist was covered with purple lightning. At the same time, use the blood energy.

Phill managed to get back on his feet. Then he saw the opponent coming towards him. The next second, he released the wind attack.

A powerful wind swept away the surroundings.

And at the same time, my fist tore through the wind blade. The blood energy easily broke the attack and hit his body.

Chapter 635 Winning against Phill

Duel,

Pfff!

Coughing up blood. Phill got smashed to the ground. By using the opportunity, I rushed out towards him and kicked his abdomen.

Smack!

Phill rolled over the ground before falling off the stage. The duel came to an end quickly.

Quiet!

Everyone quieted down all of a sudden. They didn't expect Zack Lockwood to be this strong.

Even Amelia and the wind faction head were surprised. They saw the purple lightning. But they didn't notice the presence of blood energy.

Combination of brute strength and lightning power has defeated Phill.

"Zack Lockwood is the winner," Amelia said.

But there was no cheer except several sighs echoed in the room.

"What are you guys sighing about?"

"At least, we are better than the flame faction," the old man said. He wants others to cheer up a bit. At least, Phill gave something to watch.

Few people came to pick up Phill. The other hand, I turned around to look at Amelia. I thought 2 duels were enough for a day.

But I didn't expect the duel to end in a few minutes. I still have some time left.

"Elder, are there any warriors interested in fighting today?" I asked.

Amelia saw through Zack's thoughts. She was slightly embarrassed. She too didn't expect the duel to end this quickly.

Then she contacted Metal faction head and found out that there is one warrior ready to fight now.

"Let's go to the Metal Faction," Amelia said.

Hearing that I followed her. The old man then instructed the warriors to leave. He is interested in seeing the duel as well.

Walking, the old man couldn't help but ask, "Who is going to fight from the metal faction?"

"Raymond," She answered.

Old man's eyes flickered. Because he knows the name. Raymond is way better than Phill when it comes to the controlling element.

He thinks as long as warriors found a way to protect their body from the lightning element. The duel won't have one sided end.

Soon, we reached the metal faction. Interestingly, the metal faction head is women. She is a lot younger than Elder Ameila.

"Martha, where is Raymond?" Amelia asked.

"Raymond is waiting in the training ground," After saying that Martha turned towards Zack.

"You are Zack Lockwood!"

"You are doing something which no other warriors from your side would normally do," Martha said.

A faint smile appeared on my face. How should I tell her? I'm doing this out of boredom.

Then we reached the training ground. Whereas usual the metal faction gathered around to watch the duel. Their gazes are filled with surprise and curiosity.

"Are you surprised?"

"Everyone has watched your duel held at the duel arena," Martha said from the side.

"Right now, the duel will be eye opening for them," Amelia .

"Ha..Ha...Ha..., now these brats can know the real difference in strength between the average warriors and talented warriors."

"This would help them to stop daydreaming about getting into the A grade institutions," The old man said in a serious tone.

"Alright, we can start the duel," Amelia said.

Hearing that I started walking to the platform. After walking inside, I stood opposite the warrior named Raymond.

"Metal element uh?" I said in my heart.

Raymond looked confident. He heard of the results a few minutes ago. But he thinks he is better than useless Phill.

Amelia gave the green signal.

Right after, Raymond takes out a long sword. Which looked extremely strong with sharp edges on both sides.

Swish!

The next moment, he strengthened the blade with the metal element. The silver color quickly covers the blade to make it more sharper and beautiful.

On the other hand, I took out my black sword and held it in my hand.

Seeing that Raymond is using a sword. My curiosity peaked. I'm more interested in fighting him right now.

Swish!

The next second, Raymond burst out with a great speed. He didn't use the movement technique at all. But his natural speed was that fast.

Cheer!

Seeing that surrounding warrior erupted in a cheer.

"I don't know who is better with a sword," Martha said.

Amelia added, "Zack still has lightning techniques that he didn't use."

Hearing that Martha and the old man squint their eyes. They knew Zack hadn't used much technique in defeating past 3 opponents.

Meanwhile,

Raymond got closer to me. But I can easily go through my movements without activating the perceptual ability.

I raised my sword to block the attack. When both blades collided.

Clang!

A metallic noise sounded in the place.

Raymond is using his brute force to push me backward. But he wasn't able to push me backward.

When he was surprised. I held the sword in both hands and pushed him back.

lightsnovel.com Tap!

Raymond retreated a few steps backward from the impact. But his eyes filled with surprise.

Before coming here, he had done thorough checking on Zack Lockwood's information. He is someone who recently broke through.

Zack Lockwood is an early stage super elite. But he is fighting equally against Peak stage Super Elite Warrior.

His expression turned serious. He also noticed Zack didn't use the lightning technique at all.

On the other hand, I retracted my sword before raising to attack again. I started charging forward and brought down the sword to cut.

Clang!

A loud metallic noise sounded. One after another collision sound reverberated throughout the whole place.

Expression of Amelia, Martha and the old man changes.

Because they are seeing something interesting. Zack is fighting without using the lightning element.

At the same time, he pushed Raymond to the defensive position.

As the time passed, Raymond thought of changing the plan.

A few minutes later,

Swish!

He suddenly retreated backwards creating a gap between two of them. Then he takes back the sword and decides to fight using the element.

Seeing his action, a trace of disappointment flashes in my eyes. He was better than a metal dummy in the practice room. It's a pity, I could have enjoyed it more.

Now, he is forcing me to end the duel.

Chapter 636 Winning against Raymond

From MC's perspective:

Swish!

Raymond raised his hand. The next second, several long spikes shot towards the opponent. Each of the spikes are long and sharp.

In a blink of an eye, the spikes reached me.

Clang!

I swung the black sword continuously to deflect the spikes.

But reflecting the attack each time. I felt a strong vibration. Which shows the spikes are strong and sharp. If you let it go, it can easily pierce through the human body.

As the time passed, Raymond continued to use the same attack.

A quick gleam flashes in my eyes. The warriors here lack battle experience. Otherwise all four of them won't use the same tactic.

Then I decided to engage in a close battle.

The faction head who was watching the duel realized the mistake. The brats are not using their brain at all.

Meanwhile,

Dean Rebecca who is staring at the screen furrowed eyebrows. All the duels looked the same. Except the warrior and their elements.

Everyone is using the same tactic to fight. She is extremely disappointed. If she picks any of these warriors for the year end conference. Then they would lose for sure.

But she decided to watch. Later she can advise the faction heads to improve their students' strength.

Duel,

Seeing that spikes are showering continuously. I used the lightning technique.

"Lightning Phantom technique."

The next moment, purple lightning boots covered my legs. In a blink of an eye, I started rushing out in a zigzag manner.

Raymond was startled. He is focusing his eyes to find Zack. He has watched the previous duel. He thinks that Zakc will use the lightning punch to end the duel.

Not only he, the faction heads are thinking the same as well.

"Is it going to end soon?" The old man asked.

"Why is everyone repeating the same mistake?" Martha asked.

She did watch the previous duel. But she had thought Raymond was smart. But in the duel he happened to repeat the same mistake again..

On the other hand, I got closer to him. I raised my fist to punch. The purple lightning covered my fist.

Seeing that Raymond smirked.

"I knew it," He said in his heart. Right when Zack appeared before him. He realized a metallic wall before him.

When the metallic ball appeared. The fist directly hits the wall.

Boom!

A deafening sound reverberated throughout the area.

Cheer!

Seeing that warrior erupted in a cheer. They were something different. Raymond successfully blocked the attack.

On the other hand, my mouth curved into an arc. The attack was not a lightning technique. But a simple brute punch covered with the purple lightning.

Swish!

I retreated a few steps backward.

"Lightning wheel"

I released the lightning defensive technique. The next second, a purple wheel formed around me.

A purple wheel is filled with the powerful lightning power.

Raymond was stunned again. The next moment, he tried to reinforce the wall with the silver element.

The atmosphere has become silent again.

Under the surprised filled gaze of everyone. I rushed out toward the metallic wall.

Bang!

As the collision occurred. A deafening sound reverberated throughout the area.

The explosion caused the metallic wall to break into pieces.

Argh!

A muffled grunt left Raymond's mouth. As he took the brunt of the lightning attack, his body flew backwards like a broken kite.

Before falling down off the stage.

Quiet!

Everyone quieted down again. The ending was the same but the finishing move was different.

"Zack Lockwood is the winner," Amelia declared again.

Hearing that I sighed inwardly before walking down the stage. Then I saw Raymond trying to get up from the ground.

He was safe because of the metallic wall. If he hadn't reinforced it, the injuries would have been severe.

"They need training," Martha said with a sigh.

Amelia added, "You are right!"

"I'll go back and instruct my students," The old man said. He too saw the flaws. If the warriors are not trained properly, they should stop dreaming about going to an A grade institution.

On the other hand, I walked to Amelia and decided to leave.

"Are you not going to fight for more time?" Amelia asked.

Hearing that I shook my head before saying, "I don't have enough purple essence."

Amelia nodded her head in understanding. Then we bid goodbye to the faction heads before walking away from the place.

Soon, we reached the exit.

"I'm looking forward to tomorrow's duel," Amelia said after disappearing from the spot.

Then I walked toward the exit and used the access code to leave.

After leaving the place, I rushed out towards the dorm room. Soon, I reached the dorm room. After walking inside, I went to take a bath.

20 minutes later,

I changed to comfort clothes and then I sat down on the sofa. Today's duel went well. But I didn't expect the warriors to be this average.

I started to recall the duels in my mind. All of them are using the same tactic. I don't know how the other warriors are going to fight tomorrow?

Then I looked into my dantian. The purple essence has dropped to the bottom. I made up my mind to go to the mountain peak tomorrow.

A few minutes later,

I lay down in my bed and started to access the online articles.

As I expected, the duel results were published online. Many warriors started to comment on it. Under the comments, I saw many were banishing the opponents.

[Why are they fighting like chickens?]

[They didn't undergo proper training]

[What an amateur duel?]

[Zack Lockwood should stop wasting his time]

Seeing that I furrowed my eyebrows. These comments will continue, if there is no change tomorrow.

Beep!

lightsnovel.com Suddenly, I received a call from Ernest. Seeing the contact name. I attended the call.

"Zack, are you free right now?" Ernest's voice sounded from the other end.

I asked, "What happened?"

"Michael is back. He is creating ruckus in the common room," Ernest said.

"What?"

"He is back," I uttered in a surprise. I thought he was staying with his family.

Chapter 637 Returning to the mountain peak again

From MC's perspective:

After hearing about Michael's return. I told Ernest that I was coming to the common room. Then I have to change clothes again.

10 minutes later,

After getting ready, I walked out of the dorm room.

Soon, I reached the building and walked inside. Warriors are going about their business in the lobby.

But I could hear most of them talking about me. Ignoring them, I started walking upstairs. When I arrived in front of the room.

I showed my I.D.

Creak!

The next second, the door opened.

After walking inside, I quickly walked to the common room. As I got closer, I could hear a loud conversation.

When I reached the room. I saw an interesting scene. Michael is arguing with Ernest and Laverne.

"Zack, you are here," Laverne said in a serious tone.

Hearing that Michael and Ernest turned towards me.

"Hey!"

"Our strongest warrior is here."

"I thought you were busy challenging those weaklings," Michael said in a sarcastic tone.

"Zack!" Ernest called out my name.

Then I walked inside the room.

"Michael, what do you want?" I asked straightforwardly.

Michael's mouth curved into an arc.

"You are as smart as I thought. Unlike these two here," After saying that Michael thought for a moment.

Then he said, "You are challenging everyone else except me. So I would like to fight against you."

A quick gleam flashes in my eyes.

Ernest and Laverne were also shocked. They used to be close friends. So they both know how strong Michael is actually?

A hint of concern appeared in their eyes.

"What?"

"Are you scared?" Michael said in a provocative tone.

I showed no change in expression. Instead, I answered, "Wait until my duels with them to get over. Then I'll fight against you."

"Zack?" Ernest and Laverne both called out my name at the same time.

Ignoring them, I looked at Michael. I feel a little pressure from him. 'Did he take the next step?' I said in my heart.

If it's true then he is half step-SS Rank Warrior.

"Ha...Ha...Ha..., good. Then I'm going to wait for our duel," Michael said with a laugh. Then he left the room without turning back.

"Why did you agree?"

"I felt some changes in him," Ernest said in a solemn tone.

Hearing that I nodded my head at them. A duel against half-step SS Rank Warrior. This is going to be a real deal.

"Don't worry, I won't get hurt," I said to them.

Laverne let out a long sigh before saying, "He is finally gone."

Then we sat on the sofa. I couldn't help but think of Azure City's Blevins Family. I thought it was a done deal. Looks like Jonathan had ignored them.

Ernest and Laverne then started to ask about today's duel. Then I began to tell what happened.

A few minutes later,

"So there are dual element warriors in the B-grade institution," Ernest said.

"I think they have limited access to the monster zones," Laverne said something important.

A look of understanding dawned on me. Maybe this could be possible.

After speaking to them for a few more minutes. I returned to my room.

...

Eclipse Academy:

The Supreme Elder Cameron is slowly recovering. At the same time, he is getting updates from Dean Edgar.

He is especially interested in the news of Zack Lockwood. It's not that difficult for Edgar to collect information.

They have spies in the Viper City as well. Likewise, other academy's spies are in their city.

This time he was resting alone in the front garden.

Dean Edgar came with the information.

"Supreme Elder!" Edgar greeted politely.

He didn't ask but he figured it out somehow that the Supreme Elder was deeply hurt. An unknown fear appeared in his heart.

Apart from other Supreme elders, no one could hurt him. He doesn't know what is going on.

Noticing the presence of Edgar, Cameron slowly opened his eyes.

"What is it?" He asked.

Edgar returned to reality. He answered, "Elder, we got the latest news of Zack Lockwood."

"Oh!" Cameron raised his eyebrows.

"Tell me what happened?" He asked.

Edgar nodded his head before saying, "Zack Lockwood is challenging the warriors in a lower-grade institution."

Cameron furrowed his eyebrows before asking him to explain from the start.

A few minutes later,

Cameron was surprised. 'Isn't it a waste of time?' He said in his heart.

"Or is it a tactic given by someone?" He muttered to himself. The next second, he recalled getting attacked by strong coercion.

He felt a deep pain in his body by recalling it. He thinks that tactic was approved by that person. There must be something in it.

"Edgar, do the same as well. Find capable warriors in our lower-grade institution. If there is someone capable, they can participate in the year-end conference," Cameron said.

Edgar was not surprised. He obeyed his orders. When he left the spot. Cameron's eyes flickered. He is hesitating whether to ask for help from the main branch.

lightsnovel.com Because he has some lingering fear. He doesn't know whether that person has left or not. Then he thought of Giant Tower Academy.

"That b@stard probably won't ask for help. The latest incident has something to do with their academy," He said in his heart.

If he wants he can request help whenever he wants. But the problem is he fears that he will lose his life if he does that.

Such conflicting thoughts affect his mind.

....

White Palace:

Maria Frazier is reading the latest news. While reading she couldn't help but think about Zack Lockwood.

"It's been several months since I last saw him."

"What is he doing right now?" She said in her heart.

After coming to the academy, she closed herself from the outside world news. Then she kept focusing on improving her strength.

She has a great responsibility for developing her clan. For that, she even forgot about her friends. Zack Lockwood was from the same hometown and training center.

But she thinks it won't be long before she gets to meet Zack. Because White Palace is also preparing for the year-end conference.

As long as she gets a place in it, she might be able to meet Zack at the end of the year.

...

The following day,

I woke up in the early morning. After getting out of bed, I started doing my morning routine.

A few minutes later,

I went to take a bath. After getting out of the shower a few minutes later. I changed into an academy uniform.

After getting ready, I texted to Carlos Kent. With his help, I can reach the mountain peak quickly.

10 minutes later,

When I walked out of the dorm. I saw Carlos Kent waiting for me.

"Let's go. We have to return before your afternoon duel," Carlos Kent said with a smile.

The next second, he grabbed my shoulder before appearing in mid-air. Then he started flying towards the mountain peak.

Time flies,

In the dean's office, Dean Rebecca is going through yesterday's reports. When she heard Carlos Kent and Zack Lockwood had gone to the twin mountain peak.

Her eyes flickered. She reviewed yesterday's result. The warriors in the B-grade institution lack training.

She doesn't know why Zack is interested in fighting more duels. At first, she thought he was doing this out of boredom.

But after yesterday, she thinks Zack is interested in having more duels. Now only the Rain Water Faction is left.

She then thought about the monster zone. She is still hesitating whether to allow the warriors to enter the monster zone or not.

An hour later,

We reached the twin mountain peak. Now the place looks different. The destroyed area is replaced with the newly grown vegetation.

Carlos Kent then dropped to the top of the mountain.

After that, he disappeared from the spot. Seeing that I turned around to set up the barrier. I took the artifact and placed it on the ground.

In the next second, an invisible barrier began to cover like a dome shape. When I raised my head to look above.

I see the dark clouds in the sky. But there was no lightning and thunder. I think it will rain in a few minutes.

I found a place to sit down. Then I started to run the lightning scripture. Slowly, I started to absorb the purple essence from the surroundings.

When the energy entered my body. I guided the energy according to the lightning scripture. After circulation, the purple essence enters my dantian space.

Seeing that I continued to repeat the process.

On the other hand, Carlos is investigating the surroundings.

As time passes, the purple essence in my dantian begins to increase.

When the purple essence reached a certain amount. The majestic totem starts to shake. It begins to convert the purple essence into more pure.

A few hours later,

The dantian was filled with purple essence. But there was still some small space left. Seeing that I decided to cultivate the wood scripture.

Time flies,

When a small amount of healing green essence is formed in dantian.

Chapter 638 Strong opponent!

From MC's perspective:

A few hours later,

The purple essence and healing essence have recovered. After that, I stood up from the spot and removed the barrier.

Swish!

"Are you ready?" Carlos Kent appeared next second.

Hearing that I nodded my head. Then he grabbed my shoulder and the next second we appeared in the air.

In a blink of an eye, we left the place and started returning to the Academy.

In the Academy,

Amelia is sitting in her cabin. Now she is in a dilemma. There are 17 more warriors ready to fight. But she doesn't know whom to select.

Everyone is ready to fight. But Zack Lockwood has a limit. After thinking about it, she decided to fix 3 duels today.

A female warrior from the rainwater faction. There is a male warrior from the metal element faction. And third warrior from the Flame faction.

After selecting the name, she sends the list to the dean, Rebecca. Once the dean approves it then she can ask the warriors to present.

A few minutes later, she received the approval. Then she sent a message to the warriors.

A few hours later,

I returned to the academy. By that time it was already noon.

Carlos Kent directly dropped me at the entrance of the B-grade institution before leaving.

A small smile appeared on my face. Carlos Kent has become my helper. I almost forgot that he is the special faction head.

Shaking my head, I walked to the entrance. Then I used the access code to walk inside

Just as I'm walking forward. Amelia appeared before me.

"Zack, you are going to fight 3 duels today," Amelia said to me.

"The first duel is against the RainWater Faction," She added again.

Hearing that I replied, "I'm ready to go."

Then she started leading me towards the new area.

Soon, we reached the rainwater faction. Many female warriors were waiting outside of the building.

Just as she was getting closer. I saw a middle-aged woman in a blue tuxedo walking outside of the building.

She is similar in age to Martha.

The women in blue tuxedos walked towards me.

"Elder Amelia, my student is ready. What about him?" She asked.

"Lily, he is ready. Can we go to the training ground?" Amelia replied.

Hearing that she started leading towards the training ground.

I furrowed my eyebrows. From the beginning to the end, she didn't even look at me.

On the other hand, Amelia saw through his thoughts.

"Lily has a complex background. Her family has ties with the White Palace. She is a loner in the academy," She said in a low tone.

"I can hear that," Lily said without turning back.

On the other hand, I couldn't help but think of an old friend.

"Maria Frazier," I said in my heart. I wonder what she is doing.

Soon we reached their training ground. Then I saw someone was already standing on the dual platform.

"Linda, you can do it," Lily said in a serious tone.

lightsNovel.com Without wasting any more time, I walked to the platform.

After arriving, I stood opposite her. Then I began to observe her. Then I felt a faint coercion from her.

"This?" I raised my eyebrows in surprise.

"Is it a half-step SS elite warrior?"

"No!"

"She is close to a breakthrough," I said in my heart.

"Maybe after this duel. She might break her limit," I muttered to myself.

Then I turned around to take a look at Lily.

"It's interesting. She is planning to use me as a stepping stone," I said in my heart.

On the other hand, Lily was surprised.

"He is sharp," She said.

Amelia easily saw through what was happening to Linda.

"Are you planning to turn your student into a teaching staff?" Amelia asked.

Lily's eyes flickered.

"She is not supposed to rot here," Lily said in a cold tone. Which had strong dissatisfaction with the academy's policies.

"Sigh!"

Amelia let out a sigh.

On the other hand, Linda squinted her eyes. She is confident in defeating Zack Lockwood in front of everyone.

When Amelia gave the signal.

She released her water technique. In the next second, several water drops formed in mid-air.

Swish!

The next second, several water drops shot at the enemy.

On the other hand, I saw the water technique was extremely fast.

I brought the sword outside to block. The water drops forcibly collided with the blade.

Boom!

A deafening sound reverberated throughout the area.

Tap! Tap!

I retreated a few steps backward.

"It's heavy," I muttered to myself.

Seeing that I started swinging the sword again.

Boom! Boom!

One after another a heavy water droplet slammed into the sword blade.

I thought Linda won't be able to continue it forever.

But as time passed, Linda's attacks became only faster.

Boom!

I deflected the 1st attack. But the second water droplet hit my forearm.

Boom!

"Hmmm," I felt a pain. But thanks to my body strength. The skin remained unscathed and the targeted spot became extremely red.

"Lightning Phantom Technique," The next second, I released the lightning movement technique.

The Purple lightning covered legs in a blink of an eye.

Swish

The next second, I disappeared from the spot. In a zigzag manner, I started moving closer to her

Amelia and Lily are both surprised by Zack's move. Both knew Linda was stronger than previous participants. She is especially close to breaking the limit.

But her attack had only managed to leave the red spot on the Zack. Which shows that Zack's physique is stronger than they had expected.

Amelia suddenly realized the power behind Zack's punch in the previous duel. They had assumed it was because of lightning power.

But now she knows it was a combination of both body strength and lightning power.

Lily's eyes flickered. She too saw through this as well. Earlier, she was confident about Linda's strength. Now seeing Zack's body strength her expression turned serious.

Now the duel results can go either way. On top of it, Zack didn't even start to attack.

On the other hand, I reached closer to Linda to strike. When I tried to swing the sword.

A water bubble appeared all of a second.

Swish!

My blade stuck inside the water bubble. When I tried to retract the sword. I felt the sword's size had doubled.

I raised my eyebrows in surprise.

"Lightning Wheel," I released the next attack.

A powerful purple lightning wheel around me.

Boom!

The next second, an explosion occurs. Both the lightning wheel and the water bubble exploded into pieces.

Then I retreated a few steps backward.

Tap!

Linda also stepped backward. But her expression was filled with surprise and shock. The water bubble was her important defensive technique.

Once a body or object gets stuck in it. It's not that easy to escape. But Zack used his lightning technique to cancel it.

At the same time, Lily widened her eyes in surprise.

This time she has witnessed the power of the lightning element. It was completely destructive.

Amelia was shocked as well. Both she and Lily knew about Linda's strength. If Zack was able to defeat her, then he could have fewer rivals in the Super Elite Rank.

On the other hand, I rushed out to attack again. This time I raised my hand to attack. A quick gleam flashes in my eyes.

Her water element is different. It's heavy.

The next second, I used the blood energy from the bones. The blood energy quickly reaches my fist. The next second, a purple arc appeared around my fist.

Linda didn't give up. She used the water bubble again. This time the water bubble was small in size. It's enough to block the first attack.

'Blood Fist'

The first reaches her abdomen. But the water bubble appeared out of nowhere and blocked the attack.

Boom!

A deafening sound reverberated throughout the area.

Tap!

We both retreated a few steps backward from the impact. Using this, I quickly stabilized my moves and decided to use the lightning-finger technique.

Swish!

The next second, a purple beam released from the finger. It was so quick. It reaches her in the blink of an eye.

Linda was startled. She tried to use the water bubble again. But the speed of the lightning beam was faster.

She is too late to evade it.

Boom!

The next second, the lightning attack hits her heavily in the abdomen. The lightning power tore through the flesh and left a deep scar.

When she thought it was over. One after another lightning beams shot towards her.

Boom!

The lightning attack hits the previous spot again causing severe bleeding.

"Linda, it's okay. Forfeit the duel," Lily's voice reached my ears.

But Linda on the other hand tried to stand up.

Seeing that I raised the black sword.

"He is going to use that move," Amelia said in a solemn tone. She knows that sword lightning move is going to be powerful.

Lily showed a concerned expression. Linda has shown her strength. It's time for her to accept the defeat.

Chapter 639 Winning the remaining duels

From MC's perspective:

When Linda tries to get up. I hit her again by using the blood fist.

Pfff!

Her body was thrown off the stage and she smashed onto the ground.

"Linda?" The next second, Lily appeared behind her and began to check her injury.

"Zack Lockwood is the winner," Amelia said.

Hearing that, I didn't feel any joy. Instead, my expression was solemn. She forced me to use both body strength and the lightning element.

But right now, I can judge my strength against the half-step SS Rank warrior. If she had a breakthrough, then I wouldn't have any choice other than to use the soul technique.

Fortunately, things weren't pushed to that state.

Lily takes her back to the infirmary without turning back. Seeing that I didn't get offended.

Then Elder Amelia takes me to the next opponent.

Time flies,

In a few hours, I have defeated the next 2 opponents. The results of the duels were also published. Then I returned to my room.

A week went by,

I have won the remaining duels as well. The monster zone activities are resumed by this time. Therefore, I don't have to fight against the B-grade institution warriors anymore.

The next day,

After having breakfast, I went to the teleportation tower to enter the monsters. It's been more than a week since I visited the monster zone.

But I'm sure that space barriers are not posing any threats anymore.

When I got there. I see more warriors coming and going out of the circular platform. They are going about their business without fearing anything.

Then I walked up to the platform. I haven't informed Ernest and Laverne. Otherwise, they would have tagged along with me.

After reaching the platform. I selected the server where there is no Class-7 Monster above. I can fight across ranks. But I'm not that confident to face a Class-7 Monster.

For me, a Class-6 Monster is enough. Then I selected the server.

Swish!

I disappeared from the spot.

Eclipse Academy:

"Ha...Ha..Ha..., I have completely recovered from the injuries," The Supreme Elder said with a laugh.

His laughter echoed inside the whole mansion.

When he stepped outside of the mansion. He is fine without any injuries. He was all good. He can stand all day long.

In the blink of an eye, he appeared in the front garden and sat on his armchair.

"I thought I would have needed a month or so to recover," He muttered to himself. But the result was not without a cost.

He had to hollow out his fortune to make healing potions.

"Fortunately, the injuries have healed. Otherwise, I would have become the half-dead supreme elder of the Viper Academy," He said with a smile.

He then summons the dean of the academy to visit.

Shortly after,

Edgar arrives at the spot. Seeing that the Supreme Elder was in a good condition. He understood something.

"Elder?" He said.

"Edgar, what happened with the internal duels?" Cameron asked.

Edgar nodded his head before starting the briefing.

A few minutes later,

"Good" "Good," Cameron uttered twice. He was pleased with the result.

lightsNovel.com "I didn't expect a hidden gem in the lower-grade institution. I think the Viper Academy's people do have good brains sometimes," He said with a smile.

Hearing that Edgar revealed a smile as well.

Cameron then thought of something. The image of Zack Lockwood comes to his mind.

The next second, his expression becomes cold.

"What about that kid?"

"Did you hear any latest news?" Cameron asked.

This time Edgar doesn't need to be reminded. He knows who the Supreme elder is talking about.

"Zack Lockwood finished his duels yesterday. From today onwards, he seems to return to his daily routine," Edgar replied.

Cameron furrowed his eyebrows. No matter what he does. The humiliation of getting beaten up still haunts him.

Edgar noticed that the Supreme Elder's complexion changed. He doesn't know why an unknown kid is troubling the Supreme Elder.

"Elder, should I arrange for someone to take care of that kid? Edgar asked.

Cameron raised his head and looked at him.

"If you want the Eclipse Academy to be destroyed, you are free to do so" Cameron answered.

"Elder?" Edgar was terrified for a moment.

Cameron shook his head before saying, "If that kid was easy to kill, why am I wasting time here?"

A look of understanding dawned on Edgar's face. Then Zack Lockwood's background is making the Supreme elder afraid.

When this thought arises. Edgar was truly scared.

"You can go back. And don't do anything stupid," Cameron said.

Then Edgar left the spot. But Cameron is thinking of something sinister.

He stood up from the seat and walked to the mansion. After entering inside, he comes to his study room.

He walks up to the disk and opens up the drawer.

Creak!

A blue metallic disk is there. He gently picked it up and held it in his hand. The disk is not a normal gadget but an ultra-communication device.

It can pass messages across the space barrier. But there is a condition to it. You can send a message once a year.

Each year he reports back the results of the year-end conference and the status of the academy. But right now, he is hesitating a bit.

He wants to use it for personal revenge. Suddenly, he remembers the warning words uttered by that person. If someone brings trouble to a kid, he will surely die.

If he requests help, there is a possibility that he will die. For a nobody, the Eclipse Main branch won't find fault with a powerful organization similar to them.

He understands that. But he can't digest the humiliation. It haunts him every day.

"I think for this one they will forgive me," He convinced himself by saying this.

The next second, he activates the disk.

The disk starts to glow with blue light. A white hooded figure appears as a small projection. But the whole body and face of the figure was covered.

Seeing that white dress, he immediately recognized it. This is also one of the academy uniforms given to certain authorities.

Chapter 640 Cameron's revenge plot

Eclipse Academy:

"What's the report?" A mixed voice came from the figure.

Hearing that Cameron broke out in a cold sweat. It happens every time whenever he does that.

Cameron calmed down his heart before saying, "I'm not here to report but to relay important messages. A suspicious powerhouse attacked me"

After saying that he started to brief what happened.

A few minutes later,

Cameron finished explaining everything. But still, he is extremely nervous.

"You have violated the main branch rules. The necessary punishment will be given."

"Your intel will be passed as well," After uttering that the white figure disappeared. The blue light dimmed and the disk returned to its normal state.

Cameron sighed in relief. But the punishment still bothers him. Shaking his head, he pushed down his thoughts.

lightsNovel.com Right now, what matters to him is revenge. He thinks someone is going to come sooner to investigate.

"Viper Academy old man!"

"I don't think you would continue to hide this time," He said with a wicked smile on his face.

But he hopes whoever is the powerhouse should appear before the year-end conference.

After feeling light in his heart, he returned to his bed.

...

From MC's perspective:

Monster Zone,

Clang!

A metallic sound reverberated through the area.

As my blade collides with the claw of the 3 armed monkeys. The monster leaped backward after just one clash.

Class-6 Early Stage 3 Armed Monkey.

The monster is black and white. It stands similar to a human 6ft tall in height. Though it's different and less powerful than the ape monster.

But the agility of the monster is something else. And the monster is extremely cautious as well. It doesn't blindly charge against the enemy like other monsters usually do.

Roar!

The monster let out a roar before starting circling its place. Seeing that, I got confused. I'm standing a little deep inside the forest.

If the monster wants, it can always use the tree branches to escape from here. But instead of doing this, the monster keeps circling and looking at me.

Seeing that I placed the sword back in my storage ring and decided to leave.

Just as I stepped forward to walk away.

Roar!

One after another roaring sound comes from the forest.

Like lightning, something strikes my mind.

"It's a tribe," I said in my heart.

When I saw the 3 armed monsters looking down at me. I realized it was calling for help.

"Lightning Phantom Technique," I released the movement technique.

A purple lightning power covered my legs in the blink of an eye. The next second, I exploded with great speed to escape from the place.

Roar!

The 3 armed monkeys let out an unwilling roar. After a few seconds, the whole tribe arrives at the place. Then the monkey group starts to chase down the enemy.

There are more than 5 Class-6 Monsters in the tribe.

On the other hand, I didn't stop for a second. I continued to rush out of this place.

20 minutes later,

I found no monsters in my perception. Seeing that I sighed in relief. That was close. It's really dangerous to face the tribe of Class 6 monsters.

The danger is no less than fighting against the Class-7 monster.

After a few minutes, I started walking on a different route.

Not long after, I came across a pond. There are huge trees surrounding the pond. Seeing that I couldn't help but walk forward.

Rustle~

Out of nowhere, a brown tree root appears above the ground.

Seeing that I retreated a few steps backward.

The tree's roots then changed direction and shot towards me.

When the roots got closer to me. I released the lightning defense technique.

"Lightning Wheel"

A purple lightning wheel formed around me. The tree roots collided with the lightning wheel with full force.

Boom!

A deafening sound reverberated throughout the area.

The aftermath swept away the surroundings. But the commotion caused the tree monsters to wake up. I see many more tree roots coming towards me.

To solve it, I have to destroy the core of the tree monster. Before that, I have to find where the tree root is coming from.

Swish!

When the tree roots try to attack me again.

I escaped from the spot and started to rush towards the nearest tree monster. The giant shade tree is huge and tall as well.

Swish!

The next second, I appeared in mid-air and brought the sword outside to attack.

The tree roots changed direction again and started approaching me.

Seeing that I brought the sword forward. Then I started to charge the sword with the purple essence.

In the blink of an eye, the sword blade shone with the purple light.

"Sword Divide"

I released the sword attack. A purple beam shot toward the trunk at full speed. In the blink of an eye, the attack reaches the target and lands a heavy blow to the monster.

Boom!

A deafening sound reverberated throughout the area.

The tree roots stopped for a moment. Seeing that I realized there is only one monster here.

There are no tree roots from other tree monsters. When the smoke was settled. I saw the trunk of the tree was charred black.

Seeing my eyes flickered.

"Is it a peak stage Class-6 Monster?" I said to myself.

The monster remained unscathed. After a few seconds, the tree roots start to move again.

Swish!

This time the speed was faster. The tree roots reached me in the blink of an eye.

"Lightning wheel,"

Seeing that I again released the lightning defensive technique. When the purple wheel appeared. The roots collided with the lightning wheel.

Boom!

The next second, an explosion occurs. I retreated a few steps backward from the impact. The tree roots got destroyed again.

But I know there are roots under the ground. That's why I'm standing in mid-air.

Rumble~

The tree monster starts to shake. The next second, the branches of the tree monster start moving. They began to expand in size.
