Chapter 641 Invitation from the Red Moon Tower

From MC's perspective:

The tree monster showed its final appearance. The long branch has become like extended arms. The tree monster tried to move by using the roots.

Seeing that my eyes gleamed with a twinkle. This tree monster can move. For a second, I'm startled.

Swish!

All of a sudden, the monster branches shot towards me. Its pointy end can pierce through the monster's body.

When the attack got closer to me. I used the lightning movement technique to evade the attacks one after another.

Boom!

A deafening sound reverberated throughout the area.

Swish!

The monster does not stop at all. Seeing that I rushed out towards the monster in a zig-zag manner.

Anyone from the outside can see that I'm moving like a lightning arc.

In the blink of an eye, I reached closer to the monster.

The tree monster retracted the branches and started to find the enemy. When the monster sees the enemy is closer to its body.

It started attacking by using roots.

Several roots shot upwards targeting the enemy.

Seeing that I raised my fist to punch. In the blink of an eye. A lightning power covered my fist.

When the roots come in contact with the fist. The lightning power tore through the woods. In the blink of an eye, the roots shredded into pieces.

By using the opportunity, I got closer to the monster.

Roar!

The tree monster let out a roar. The roaring sound was so powerful that it started to ring in my ears.

The next second, I started to run the blood element method. The blood energy canceled out the energy which is affecting me.

Seeing that I reached the monster's trunk and started to attack it by using the blood fist.

The blood fist lands a blow to the trunk.

Boom!

A deafening sound reverberated throughout the area.

The blood power easily destroyed the core of the trunk. The huge monster let out an unwilling roar before falling to the ground.

Unfortunately, the monster's core was destroyed along with it.

Tud!

When the monster's body dropped to the ground.

"Phew," I sighed in relief. This monster caught me off guard. I didn't expect the monster to use the roots to move forward and backward.

After controlling my emotions, I looked around. I have yet to collect enough monster cores. So I decided to spend more time here.

20 minutes later,

I came across a boar monster. I immediately killed the monster to cook food. After having food, I started to move again.

Not long after, I came across the cat monster. Finally, I got the chance to collect the monster core.

Roar!

The Class-6 Monster started to roar. Upon seeing me, the monster leaped towards me. A huge giant claw starts raining down on me.

"Lightning wheel"

The next second, I released the lightning attack. A purple thunderous wheel formed around me.

Seeing that the monster wanted to evade. But it was too late. The lightning attack tore through the monster's claws causing severe injury.

"Blood Fist"

By using this opportunity, I leaped forward to attack. The blood energy reached my forearm and gathered around my fist.

The cat monster tries to evade. But my fist lands on his skull.

Pfff!

The force immediately crushed the head of the monster causing instant death.

"Phew!" I sighed in relief.

Then I walked up to the monster to collect the monster core. After collecting the monster's core, I started to dissect the monster's body.

A few minutes later,

I stored the monster's body parts in the container before leaving the place.

Time flies,

After collecting enough monster cores. I left the monster zone.

Swish!

After appearing in the teleportation tower. I noticed the crowd flow as usual. Consider the number of warriors coming and going.

Then I started walking back to my room.

After entering my room. I went to take a bath.

20 minutes later,

I changed into comfortable clothes before lying down on my bed.

The day went as usual. But I couldn't help but think about Uncle James and Granny Park. I think Jonathan would allow me to go back only after the year-end conference.

The following day,

9 A.M

I had breakfast with Ernest and Laverne as usual. Before thinking about what to do next. I got a message from the dean.

Seeing that, I was surprised. Because nothing is going on. I'm just following the daily routine. But still, I decided to see what this is all about.

Soon, I reached the office building. When I got there. I see other faction heads in the buildings. After nodding at them, I arrived before the dean's office.

Creak!

The door opened automatically.

Seeing that I walked inside the room. Dean Rebecca is looking at the screen. I realized something was up.

Then I sat opposite her.

"You are here!"

"Zack, we received an invitation from the Red Moon Tower," She said in a solemn tone.

Hearing that I paused for a second. When I realized the invitation from the Red Moon Tower. I looked at her again.

Rebecca saw through his thoughts.

"Yeah, it's unbelievable. I was surprised too."

"We don't have a good relationship with them. But it looks like some changes are happening in all the academies. The Red Moon Tower seems to mend the ties as well," Rebecca said.

lightsnovel.com Hearing that I don't know what to say for a moment.

"Do you believe them?" I asked back.

It's not long ago the Supreme Elder of the Eclipse Academy tried to infiltrate the Supreme Elder's mansion here.

If something similar happens, then the consequences would be severe. No one knows that the supreme elder of our academy is dead.

If the news leaks out, I can't imagine the next course of things.

Rebecca saw through her thoughts again. She has the same fear. Currently, the academy is functioning without the Supreme elder.

Every day is a struggle for her.

"If we don't go, then they will think something is wrong with us," Rebecca said.

"What about their supreme elder?" I asked back.

"I heard the supreme elder of the Red Moon Tower is an old woman. I don't think she is as bad as the Supreme Elder Cameron," She answered.

Chapter 642 Dean Lily's intention

From MC's perspective:

lightsNovel.com Dean office,

"Dean, what's this invitation about?"

"Is it going to be a student exchange meet?" I asked.

"Yes, it's a student exchange meeting. They have asked us to send 2 teams. Both elite and super elite warriors."

"There is still time left before the year-end conference. They want to conduct an exchange meeting before that," Rebecca said in a solemn tone.

"You will be the representative of the Super Elite team. Apart from you, there will be 9 super elite warriors in your team."

"There is also an elite team made up of 10 warriors who will be accompanying you," Rebecca added further.

Since it's decided. I don't know what to say. Besides, I'm also a little bored here because of the repetitive training schedule.

So I agreed with her plan.

Then I asked, "When are we leaving?"

"2 days later. You can take this time to replenish your lightning essence," Rebecca said.

Hearing that I nodded at her. After speaking for a few more minutes. I left the room.

Red Moon Tower:

Dean Lily Smith receives a confirmation message from Dean Rebecca.

Seeing that her mouth curves into an arc.

"They have agreed. It's surprising," she muttered to herself. But she knows this news will motivate students here.

During the exchange meeting, she can see the difference in strength between the Viper Academy and Red Moon Tower.

She decided to take this opportunity to select students for the year-end conference.

After thinking about it, she summons one of the elders.

Soon, a woman wearing a black and red academy uniform walked into the room. She was none other than Teresa York.

She was the one who represented the Red Moon Tower at Crimson Hall's event. During that event, she had witnessed Zack and recruited Zack's friends to the academy.

Teresa York's expression was calm and serene. When the dean summoned her. She thinks it's going to be about a daily patrol mission.

Dean Lily looked at her before saying, "I have invited the Viper Academy for the student exchange meet. They will be here in 2 days."

"Inform others. Let them be prepared. Also, select the students who are going to fight them," She added.

"Viper Academy?"

"Saw Scaled Viper Academy!"

"Dean, they are our rivals. How come we have a student exchange meeting with them?" Teresa asked out of surprise.

The news came as a bolt out of the blue for her.

Dean Lily saw through her thoughts. Her expression becomes solemn the next second.

"Don't forget the recent incidents. Our outermost is not as safe as before. The space barrier's problem is unheard of before."

"Only if 6 academies join hands together can we solve future threats. For that we have to forget our old grudge," She said in a solemn tone.

Teresa became speechless. She recalls the recent monster zone incident. A few monster zones in the academy were destroyed.

Some other monster zones have become piles of corpses. The monsters habiting there faced a grave extinction.

A look of understanding dawned on her face. She then looked at the dean and replied, "Alright, dean. I'll make the necessary arrangements."

After saying that she left the office. Then she started walking towards her office.

On the way, she couldn't help but think of the Viper Academy. When it comes to the Viper Academy. An image of a person comes to her mind.

The person is none other than Zack Lockwood. From time to time, she gets information about the potential warriors in other academies.

And Zack Lockwood's name comes to the top.

"Will he come?" She asked herself.

She remembers 2 of Zack's friends in the academy.

Ella Downs and Sallie Mills. Both of them have become Super Elite Warriors recently. She also knows that Zack has become a Super Elite Warrior as well.

A quick gleam flashes in her eyes.

If both are included in the team, then there is an opportunity for them to fight against Zack Lockwood.

Soon, she arrived at the office.

Then she sat on her seat. She then taps the digital screen. When the main page opened up, she began to type the message.

She wrote a message about what the dean had said to her.

After typing the message, she sent the message to everyone in the academy.

In a few minutes, everyone in the academy was surprised by the news. Especially the warriors who are preparing for the year-end conference.

On the other hand, Sallie Mills and Ella Downs are in different places at this time. Sallie Mills is currently in the training room.

Where Ella Downs is fighting monsters in the monster zone. Both of them are so focused on their current task.

So they weren't aware of the current news.

A few hours later,

Sallie and Ella returned to their dorm. But they have noticed something is happening in the academy. As everyone is discussing something.

Both of them have entered their dorm room. Ella Downs went to take a bath. After getting changed, she sat on the sofa to relax.

When she opens the social media site to check. She was shocked by several posts. Most of them were uploaded a few hours ago.

"What's happening?" Ella asked herself.

Then she began to read the online posts one by one. At first, she didn't believe it. Then she uses her student ID to look for the information from the administration.

Then she saw the official notice from the academy. After opening it, she began to read it. When she finished reading the message.

She receives a call from Sallie. When she attended the call. A surprise-filled voice reached her ears.

"Have you read the notice?"

"Warriors from the Viper Academy will come here for a student exchange meet"

"Do you think Zack will come?" Sallie asked.

Ella remained silent. They are not eager to meet him. Instead, they don't want to see his face at all.

After the crimson hall's destruction, everything has changed.

"I don't think he will come," She replied.

Meanwhile,

When the message starts spreading around. The news also quickly reaches the other 4 academies. They were all surprised by the news as well.

Chapter 643 Making the name list

Red Moon Tower:

Sallie Mills and Ella Downs have complex emotions in their heart. They don't want to meet Zack Lockwood in this exchange meeting.

Just as they decided not to participate in the meeting. Another notice came out of the blue. When they both heard the news.

They read the information. The shocking news was those who perform well in the coming student exchange meet will be selected for the year-end conference.

This news finally broke their defense. They can't give up the year-end conference. Due to recent fortune encounters, both of them have reached the Super Elite stage quickly.

To carry on the momentum, both of them have to participate in the year-end conference. It can't be avoided.

On the other hand, Teresa York is busy making the name list. When the notice was released. Many of them are eager to fight against the Viper Academy.

The elders are getting headaches. Some of the students are currently outside of the academy. They won't be able to return in time.

She has to make a list of the available students. Suddenly, she thought of Zack Lockwood.

"I guess they are making the list as well," She said in her heart. Everything will be clear tomorrow whether Zack is going to appear or not.

The next day,

Sallie and Ella met each other to talk in the training room.

"What are you going to do? Ella asked right after the meeting.

Sallie replied, "I wasn't able to sleep the whole night. Right now, I think we should participate in the exchange meeting. Only in this way, we can get resources.

Ella let go of her stubbornness for a moment and thought it through.

"I heard he is in the early stages of Super Elite as well. Then we should take this chance to defeat him and get revenge for the destruction of the crimson hall," Ella said to her.

...

From MC's perspective:

When I reached the dining hall. I see a group of warriors from different factions. Including Ernest and Laverne. They are blocking the path.

Rather, I should say they are waiting for me.

"Zack, is it true?" Ernest asked.

Hearing that I looked toward him. I saw Seamus and Vina Potkins as well. A quick gleam flashes in my eyes.

They are here to confirm the news as well.

"Didn't you guys confirm the news?" I asked back. Because the notice was published last night itself.

Everyone should have seen the notice by now.

"We read the notice. But we want to hear from you. You are appointed as the representative," Laverne said from the side.

Hearing that my mouth twitched. Last night, the notice came as a surprise. I didn't expect the dean to reveal my name as well.

"Yeah, it's true. But I don't know how they will select the rest of the members," I answered.

"How can we know? We don't have a faction head," Seamus asked.

Hearing that I furrowed my eyebrows. The condition of the flame faction is worse. I thought the situation of the faction head appointment was sorted out.

"Don't worry, the dean will think of something," I answered.

Hearing that Seamus snorted before leaving with his followers. Only Vina Potkins remained. She then walked up to me and said, "Are you ready for another duel?"

"We can practice before the student exchange meets," She added.

I shook my head before saying, "I don't have time for that. We can duel some other day."

Vina Potkins was disappointed. But she did expect this answer. After looking at anger, she left with her friends as well.

"Everyone is worried. Because they want to go to the Red Moon Tower as well," Laverne said from the side.

"What about you guys?" I asked while we were walking into the hall.

Ernest and Laverne looked at each other. Both of them have already made up their mind.

"We were not coming," Ernest said.

"What?" I paused my movement before looking at them. They both wanted to participate in the year-end conference. So what now?

I asked, "So, do you guys still have plans for the year-end conference?"

Ernest answered, "It's not like what you are thinking. We are going to participate in the year-end conference. It's just that a student exchange meeting is going to be difficult."

"We might not be able to defeat their strong warriors."

Hearing that my eyes flickered.

Of course, I didn't think about it. Each academy is different. Maybe they were right. I know too little about the Red Moon Tower.

Maybe the dean will give the information later.

"Alright, I respect your decision," I said.

Then we received the food before sitting down to eat.

"Everyone is quite enthusiastic about the student exchange meets," Laverne said.

"Earlier, our enemy Giant Tower Academy knocked on our door. But this time we are going to knock on the door of another rival academy," Ernest said.

"There will be a higher number of female warriors in the Red Moon Tower. So you have to be careful. The female warriors in that academy are violent. They undergo a lot of trials to get a bloody experience," Laverne added.

Hearing that an image of 2 people comes to mind. Sallie Mills and Ella Downs. I guess after the destruction of the Crimson Hall, their attitude has changed.

But as far as I know, nothing wrong happened to them or their family. If I'm right, they are still thinking about Crimson Hall. Once I meet them, I should clarify about the Crimson hall.

It all started with them. If they hadn't put my name on the kill list, they wouldn't have met with the destruction.

"What are you thinking?" Ernest asked.

"It's nothing," I shook my head before continuing to eat the food.

20 minutes later,

I walked out of the dining hall with them. Then we parted ways. I started walking to the office building. When I arrived at the dean's office.

Creak!

The door opened automatically.

Then I walked inside. Seeing that the dean is here. I signed inwardly.

"Dean, what about the list of warriors?" I asked.

Rebecca responded with a smile.

"I know what happened. I have instructed the faction heads to select the warriors. When it comes to the Flame faction. I'm going to select suitable warriors," she said.

A hint of relief flashes in my eyes.

"What's your plan for today?" Rebecca asked.

"I have planned to head to the mountain peak," I answered.

With a knowing smile, Rebecca summoned the guardians with a knowing smile on their face.

Swish!

When the male and female guardians appeared after a long time. They looked at Zack with a kind smile.

lightsnovel.com "Zack, look, you want to visit that place again," The male guardian asked.

"Yes, I'm glad that you guys have come," I answered.

Then after some talk, I left with the male and female guardians.

They then started carrying me towards the destination.

A few hours later,

We reached the mountain peak. This time heavy rain is pouring down this place. The sky is covered with black clouds.

A faint smile appeared on my face. Today the cultivation speed will be faster. After appearing on top of the mountain.

They dropped me on the land. Then I started to set up the barrier while drenching in the air.

From time to time, a thunderous sound reverberated throughout the area.

After activating the barrier, I sat on the bedrock. An invisible barrier surrounds the place like a dome.

Then I closed my eyes and started to run the lightning scripture. Right after the lightning rune in my consciousness started to flicker.

Slowly, the purple essence from the surroundings entered my body. Then I started to guide the energy according to the lightning scripture.

After circulation, the refined essence enters my dan tian. Seeing that I continued to repeat the process.

As time passed, the purple essence began to collect in the dantian. When the dantian was half filled. The majestic totem starts to move.

It's started to convert the purple essence into pure essence.

An hour later,

My dantian is filled with the lightning essence.

Seeing that I stopped cultivating and decided to cultivate the wood technique right now.

Then I started to run the wooden scripture. Slowly, I started to absorb the healing essence from the surroundings.

When the healing essence entered my body. I feel refreshed. Then I started to guide the energy according to the wooden scripture.

After circulation, the healing essence entered my dan tian. But the amount was small. Seeing that I continued to repeat the process.

An hour later,

A small quantity of healing essence gathered below the purple essence. Seeing that I have decided to end the cultivation.

Meanwhile,

The faction heads are wrapping up their heads to make the name list. Because many warriors have given their names for the student exchange meet.

So they have to finalize the name among the qualified warriors. Dean Rebecca also looked at the names of the Flame faction. There was no more Franklin. So she had to make the list.

Chapter 644 Starting our journey to the Red Moon Tower

lightsnovel.com ?

From MC's perspective:

The next day,

I woke up early and started doing my morning routine. I have decided to skip body cultivation today. Because the dean wanted us to present in her cabin before 8 in the morning.

Last night, she published the list of students who are going to participate in the student exchange meeting with me.

Surprisingly, a few familiar people have decided to give up this opportunity.

Only Seamus and Vina Potkin's names were confirmed. The rest of the warriors are unknown to me.

After a few minutes, I went to take a shower.

20 minutes later,

I changed to an academy uniform and started to get ready.

After combing my hair and making sure that nothing important was left behind, I left the room.

Walking out of the dorm room. I see many warriors roaming in front of the dormitory. A quick gleam flashes in my eyes.

They have come here to see the team. Shaking my head, I started walking to the office building. When I got there.

I see Seamus Dave and Vina Potkins have arrived before me. They are standing in front of the dean's office.

"So, she is not here yet," I said in my heart. If it was then the door would have opened automatically.

"Zack, you are late," Vina said with a smile.

"I came on time. But you guys came early," I answered in a calm tone.

"I thought we would have another duel. But this student exchange meeting came all of a sudden," Vina said with a sigh.

"It's a pity, Eurice Frye refused the opportunity. Otherwise, all of your former opponents would be here," She said.

"Harumph," Seamus gave a cold snort.

"Oh, yes. I forgot about him," Vina said jokingly.

Not long after, other 7 new warriors arrived at the spot. Earth Element Faction has sent 3 Super Elite Warriors.

All of them are new faces. And their strength seems to be at the peak of the Super Elite Stage.

Then my gaze shifted to the Rain Water and Silver Metal Faction. Each of them has sent 2 warriors. Making up to the number 4.

Only the Special Faction, Flame Faction, and Gale Faction have one member.

"Looks like the team's combination is made by the dean. She has the opportunity to earth element faction for their defense."

"I hope they will prove their worth," Vina said straightforwardly.

Hearing that Earth element faction members were pissed off. They began to talk back to Vina.

Seeing the quarrel, I touched my forehead. I can understand why she is pissed off. She perhaps wanted more Gale Faction Warriors.

But the team was made by the dean.

"Alright, back off. Dean will be here shortly. If you continue to act like this, I'll ask the dean to remove your name from the list," I said in a calm tone.

Quiet!

The atmosphere has become quiet all of a sudden.

Seamus' mouth twitched. Now everyone realizes that I'm the one who is going to represent the team. And I'm also the strongest in this team.

The earth element warriors backed off. But still, they looked at her in a cold gaze. I shook my head. I don't know how this trip is going to be. I hope I don't have to babysit everyone.

Shortly after, the 10 Elite warriors in the name list have come. Including their leader. It's another unfamiliar face. But I have to get familiar with everyone.

Then I started to introduce myself to everyone. When everything was done.

Creak!

The door opened automatically.

"She's here!" I sighed in relief.

Then we walked into the dean's room. Dean Rebecca sitting behind her desk. When everyone is present inside. She once again checked the name list making sure everyone was there.

After doing that she looked at everyone before saying, "You guys are good to go"

Hearing that I thought the guardians would be leading us. But the next second, her words shocked me.

"The Special Faction Head Carlos Kent is going to protect you," She said.

The next second, I felt a lot of gazes on me.

"Dean, if he is coming with us. Then what about the academy," I asked.

Everyone looked confused by the question. But I know the dean knows the meaning behind my words.

"Don't worry about the academy. Just focus on beating those Red Moon Tower girls," She said in a calm tone.

But her answer didn't satisfy me. If in case the Supreme Elder decided to meet the Supreme Elder of our academy. Things will become serious. Not everyone has time, I can ask Jonathan to come and save us.

The academy has to find a solution for itself. After a few minutes of discussion, we left the room. When we got down to the ground.

I saw Carlos Kent waiting for us.

"Carlos...." I stopped calling by his name midway. I realized there were people around me.

"Ahem!"

"Elder, where is the aircraft?" I asked.

Carlos Kent saw through everything. But he didn't mind it.

"The aircraft is parked inside the facility. Let's go," He said.

Then everyone started following him. When we entered the facility, We saw a very big aircraft parked in the middle.

There are also dedicated pilots and staff who were arranged to assist in this trip.

Then one by one we entered the aircraft and sat in our seats. In the blink of an eye, all the 20 members are boarded including the faction head.

Then the staff entered lastly to make sure none was left behind. The pilot then enters the cockpit after getting confirmation from the staff.

Me, Vina, and Seamus are seated in a row. I sat near the window seat. Vina sat next to me in the middle and Seamus seated next to her.

"Wow, this is going to be a memorable trip," Vina said.

Right after, Seamus took some gadgets to cover his ears. He seems uninterested in having any sort of conversation.

Seeing that Vina snorted before closing her eyes to take a nap.

The aircraft starts to fly above the ground. In the blink of an eye, we left the academy's air space.

Chapter 645 Dean Lily's last minute decision

Red Moon Tower:

The dean Lily receives confirmation from the dean of the Viper academy. The students are on their way to Red Moon Tower.

She then summons Teresa York.

When Teresa York appeared. She looked at her and asked, "What is going on?"

"Still, those girls are protesting," She added.

Teresa revealed a bitter smile on her face. Like the Viper Academy, they had released the name list last night.

But there was a small twist. There was no selection duel held. Because many strong warriors just returned last night.

So they have made the list based on previous records.

Unlike the Viper Academy, where there are more competitors. Everyone's improving day by day. So when the list was released.

Some of the girls strongly protested. Everyone wants their name on this list. They are not satisfied by the list made by the academy.

They wanted to duel to sort out everything. But it is difficult to conduct a duel in a short time. Last night, she thought the fuss would be over by this morning.

But the girls are still protesting.

"Teresa?" Dean called out her name.

"Dean, they are not giving up. I have tried to change their mind. But they have all got strong determination to fight against the Viper Academy students."

"Such a phenomenon has never happened before," Teresa answered.

Dean Lily frowned. She is disappointed by the unruly behavior. Especially at the time, when the Viper Academy students are on their way here.

She took a minute to make the decision.

"Alright, let's conduct the selection duel today."

"10 Super Elite and 10 Elite warriors will be selected based on the duels today, " Dean Lily said.

Hearing that Teresa was shocked to the core.

"Dean, how is it possible to conduct the duel today?

"What about the student exchange meet?" Teresa asked. She couldn't wrap her head around this.

"It would take a couple of hours for them to get here. In the meantime, we can complete half the matches."

"Even if they come, we can postpone the student exchange duel to tomorrow," Dean Lily replied. It can't be helped.

The students are not satisfied with the name list. Instead of getting their name tarnished because of their unruly behavior and protest.

She thought it was better to conduct the selection duel today itself.

"Alright, Dean. I'll ask the other elders to get ready as well," Teresa said.

After a few minutes of discussion, she left the room.

...

From MC's perspective:

Meanwhile,

Ella Downs and Sallie Mills receive the next notice half an hour later. When they read the content. Their eyes gleamed with a twinkle.

"We were saved," Ella screamed with joy.

Because their name was not on last night's list. Which both shocked and disappointed them. But when they tried to read the names.

Then they realized the list was made based on the record of the students. Which gave them a sign of relief. Because they broke through recently.

If they were compared to the warriors on the list, they were just elite warriors back then.

"We got this nice opportunity now," Sallie said.

Both of them are in the training room practicing together.

Ella frowned before saying, "Everyone is going to participate. I heard a lot of Peak Stage Super Elite Warriors will be coming as well."

Sallie thought for a moment and said, "If we try hard, we can secure at least 2 places."

After some self-venting, both of them have left the place. Now they have to register the name for the selection duel.

An hour later,

The elders are gathered inside the duel arena. The academy has decided to conduct multiple duels simultaneously.

So 100 Elite and 100 Super Elite Warriors are going to register their name.

Dean Lily has instructed all the elders to take care of this event. Among the Super Elite Warriors, Sallie Mills and Ella Downs are there as well.

After registering their name, they were given numbers. The fixtures were made randomly. 20 platforms were prepared for this event.

If the number was called out, they had to appear in the duel platform.

Teresa York is discussing with other elders.

The registration was over an hour later. Then the numbers were called out randomly. Soon, all the 20 stages were filled.

Most of the warriors are females. When everyone was ready, the duel was officially started.

Dean office:

Dean Lily is looking at the big screen in front of her. The duels were going on. Then she looked at the time.

"They will be here in a few hours," She said to herself.

Meanwhile,

The aircraft is speeding through the air. There was no air traffic on the way. Because of that aircraft are moving at a fast speed.

Seamus and Vina fell asleep. On the other hand, I'm texting Ernest. Both he and Laverne have decided to enter the monster zone.

Ernest is just waiting for Laverne to arrive in the Teleportation tower. In the meantime, he is texting me.

A few minutes later,

Ernest ended the conversation. I have decided to sleep as well.

The aircraft is flying above different terrain. It crossed several cities before getting closer to the Red Moon Tower.

A few hours later,

lightsnovel.com The aircraft enters the area of the Red Moon Tower. The terrain is different. Many rocky hills can be seen from the aircraft.

If the aircraft crashes on any of these peaks, it will be destroyed completely. At this point, everyone is waking up from their nap.

Soon, the aircraft flew over the Glass City. The tier-6 city under the Red Moon Tower. Everyone is looking at the city through the window.

These glass-type towering structures can be seen all over the city. It's difficult to recognize which building is for what from the above.

On the other hand, my eyes are looking for one particular building. Then I saw one of the unique towering buildings. Which is the infamous auction house.

My mouth curves into an arc. If I had the opportunity, I made up my mind to visit this place.

Chapter 646 Arriving to the Red Moon Tower

From MC's perspective:

Soon, the glass city disappeared from view. The aircraft is moving closer to the destination.

An hour later,

Several mountain hills came into view. What's more unique is that above the mountain hills. Many towering buildings can be seen. Those towering buildings are part of the Red Moon Tower.

As the name suggests the buildings are red and gray in color. Which adds beauty to the buildings. In the blink of an eye, the aircraft reaches the main area.

Which means we have officially entered the Academy space of the Red Moon Tower. At this moment, everyone stood up from their seats.

"Wow, this place looks beautiful as per rumor," Vina said with a smile.

Even the less talkative Seamus is also looking at the building through the window.

On the other hand, Teresa York is waiting for them near the landing area. In her mind, she couldn't help but recall the images of Zack Lockwood.

That lightning kid who had surprised everyone during the recruitment. Recently, she has been hearing good news about his improvement.

However, the bad relationship between the academies has widened the gaps. Now she has a chance to see the strength of the Viper Academy.

More importantly, she wants to see the strength of Zack Lockwood. How far has that lightning kid grown? Because the selection competition is taking place. Not many warriors roam in the academy.

So the environment here is serene and calm. Then she noticed a black dot in the sky. And it's getting closer to the academy.

She realized that the black dot was the aircraft of the Viper Academy.

The aircraft reached the landing platform in the blink of an eye and started to descend slowly.

Inside, everyone is eager to go out and look around the academy.

"It would be better. If the duel is tomorrow, I want to take a look around this academy," Vina said to herself.

Hearing that I shook my head before saying, "I doubt that's going to happen."

When the aircraft came to a halt. The staff went forward to open it.

"Alright, students. Don't forget to behave. This academy is still our rival academy," Carlos Kent said all of a sudden.

Hearing that everyone came to a sudden realization. If they are expecting friendly smiles from warriors of this academy, then it would be dumb.

Creak!

The door was opened. Then one by one warriors start to walk out.

When it was my turn. I held my head high before waking out. Once I touched my feet on the ground. I felt a heavy gaze on my back.

Turning around, I saw a familiar face. After a long time, I'm meeting her in person. The person is none other than Teresa York.

While I'm looking at her. She is also observing me.

Then I noticed her strength had gone one step higher.

"SS- Elite Warrior," I said in my heart.

"You know her," I heard Carlos' voice from behind.

"Yes, she was present at the time of my recruitment to the Viper Academy," I replied without turning back.

"No wonder," Carlos uttered.

At this time, everyone is settled down.

Teresa York starts approaching them. She arrives before Zack Lockwood and then turns towards Carlos Kent.

"Welcome to the Red Moon Tower!"

lightsnovel.com "I'm Teresa York. I'm going to assist you in this student exchange meeting," She said.

She knows Carlos Kent. Because he is the famous Special Faction Head. Even rumor says that his strength is closer to the dean Rebecca.

So she wasn't surprised by his presence.

Carlos Kent's eyes flickered. Because he noticed a powerful gaze fell on him before disappearing.

"Is it a warning?" He asked in his heart. Undoubtedly the powerful gaze was from the Supreme Elder of the Red Moon Tower.

He has the strength of the SSS-Elite. Only the Supreme Elder's power can suppress him.

"Can you take us to meet your dean?" Carlos Kent asked.

Hearing that Teresa frowned before saying, "Well, we have a selection duel going on. So the actual exchange duel will be held tomorrow."

"What?" a small commotion occurred. Everyone thought the duel would be held right away. On the other hand, they are hearing different news. The only person who was happy by the news was Vina Potkins.

Carlos Kent's mouth twitched before saying, "Silence."

A small invisible coercion pressures everyone. After that everyone quieted down. A surprise glint flashes in Teresa's eyes. Even she felt slight oppression.

On the other hand, I couldn't help but look around. If there is a chance, I should visit Glass City's auction house. So I'm glad that event was not today.

Maybe I should request Carlos later. He could take me to that city in no time. His speed is faster than the aircraft.

"What's going on?"

"We didn't receive any news regarding this matter," Carlos Kent asked.

Teresa York shook her head before saying, "It's a long story. First, come with me. I'll take you guys to the guest room before explaining everything."

Carlos agreed to her words. Then we started following her. Walking, I could only spot a few people here and there.

I thought as we got closer. We might see more people. But nothing of that sort had happened. The place looks almost empty.

Not only me, but everyone else had the same reaction.

Carlos Kent wants to use his perception. Because of the Supreme Elder's warning before. He didn't want to be rude.

Teresa York saw through everyone's thoughts.

She said, "Everyone has gone to the duel area to watch the selection duel. So you won't find anyone here."

The next moment, a look of understanding dawned on everyone.

Soon, we reached a towering red building.

"This is our guest tower. There are multiple rooms on each floor with all facilities," After saying that she led everyone inside.

The first floor was similar to a hotel. It has a wide spacious area like a lobby. The space is filled with a comfortable sofa table and chairs.

There is also one working staff behind the desk.

"You can tell us here," After saying that Carlos sat on the cushioned chair.

Seeing that I followed him to sit down.

Teresa didn't get offended. She found an empty chair to sit down on as well. Then she began her explanation.

Chapter 647 Getting settled down

From MC's perspective:

Red Moon Tower,

After a few minutes, Teresa York finished explaining everything.

On the other hand, many of us are left speechless. She is saying that their academy has many strong warriors which is why they had trouble selecting the warriors.

Well, there is some truth. This academy has many female warriors. Maybe that could be the reason. I doubt there is a faction here.

I heard before that this Academy has its inheritance left by its predecessors. Any suitable warriors can accept the part of inheritance.

If they want more, then they have to break through continuously and improve their strength. Also, the word Red Moon comes from the infamous inheritance.

Like other academies, the Red Moon Tower is a branch academy. The main branch is located somewhere in the inner post.

After some talk, Teresa York left. She glanced at me before going out. Then we got the keys from the staff before going to our room to rest.

"Hey, I'm going to look around outside. Anyone wants to come with me," Vina asked.

Except few, none showed any interest.

"Ask the help of the staff. Don't wander around alone," Carlos cautioned.

Seamus walked upstairs to the 3rd floor. My room is on the 4th floor.

After arriving there, I inserted the key to enter inside.

Creak!

I walked into the room before closing the door. Then I activated my perceptual ability to check the room. I don't want to miss any details.

After seeing that the room was safe and sound. A hint of relief flashes in my eyes. I bought a pair of uniforms and some casual and comfortable clothes.

Never thought it would come in handy here. Then I went to take a shower.

20 minutes later,

I changed into comfortable clothes before lying down on the bed.

Then I opened the text icon and started sending messages to Jonathan. I'm updating the latest events. Even if there is any danger, Jonathan can find me easily.

Pop!

Then I noticed I got access to a free network here. A hint of curiosity appeared in my eyes.

Seeing that I began to access the network. When it was connected. I got invited to the live streaming of the selection duel.

"This?" I raised my eyebrows in surprise.

Then the image of Ella Downs and Sallie Mills comes to mind. I don't know how far their strength has reached.

How long has it been since I last saw them? Then I began to listen to the live streaming.

A big projection screen appears above the sci-fi watch. The next moment, the live streaming opened.

A huge duel arena appeared on the screen. Then I saw duels happening on 20 different platforms.

"So many people?" I muttered to myself. People are lining up in the queue to fight in the selection duel.

"So she was not exaggerating anything," I muttered to myself. The scene is different from the Viper Academy.

Back in the academy, apart from the participants, no one enters the ground. Here the participants are large in numbers. I wonder whether the selection duel would come to an end today itself.

Meanwhile,

Vina Potkins gathered a few fellow female warriors and went to the staff. When she requested the staff. The staff took a minute time before consulting with Teresa York.

A few minutes later,

A Super elite warrior comes to the help. She is one of the students here. But she didn't go to see the duel arena.

Because of that, she got a rare opportunity to guide the students from the Viper Academy.

Vina and others went with her to look around the academy.

lightsNovel ?om On the other hand, Seamus and others began to take a nap.

Meanwhile,

The students in the arena are waiting for their opportunity. While those who won were waiting for the next round.

Ella Downs and Sallie Mills won their respective duels. As their opponents are early-stage Super Elite. So they didn't have any trouble dealing with them.

But things will become tense as they reach the next rounds one after another. The Peak Stage Super Elite Warriors would reach the next few rounds easily.

So for Sallie and Ella, a real challenge awaits them.

Meanwhile,

Dean Lily is getting updates from Teresa York in front of her.

"So he came with them," she said in a solemn tone.

"Yes, Dean. And his strength seems to be higher than mine," Teresa York replied.

Hearing that a bitter smile appeared on the Dean's face.

"Carlos Kent is stronger than you. The supreme elder told me that he is SSS- Elite Warrior," She said in a helpless tone.

But her words fell like a thunderclap in Teresa's ears.

"What?" She uttered in disbelief.

"SSS-Elite?" She asked herself. She thought he was just older than her. But never expected his strength to be comparable to the dean of the academy.

Dean Lily saw through her thoughts.

"What?"

"Is it hard to believe?"

"If not for the Supreme Elder's words. I wouldn't have believed it either," She said in a solemn tone.

Teresa York manages to calm down the turmoil in her heart. But the news was too shocking.

"Dean, then Viper Academy has an additional SSS-Rank powerhouse. Will it play during the year-end conference?" She asked.

She fears that the Viper Academy might target others.

Dean Lily shook her head before saying, 'I know Rebecca's character. She won't target others. Unless someone targets their academy.'

Hearing that Teresa sighed in relief.

"Sigh"

Dean Lily let out a deep sigh. She intended to find the strength of the young warrior of the Viper Academy. But Carlos Kent's strength hit her hard.

Which is enough to deter their plans. She didn't forget about the Viper Academy's Supreme Elder. Among the Supreme Elders, he was the oldest.

So their Supreme Elder advised them to maintain good relations with the Viper Academy.

After some discussion, Teresa York left the room.

Then the dean began to see the live streaming. Seeing the selection duel is progressing fast. She sighed in relief.

At least the event was happening according to her plan.

Chapter 648 Jonathan learns the truth

From MC's perspective:

Eclipse Academy:

A few hours ago,

The dean Edgar receives the report from the intelligence unit. Seeing the report was about the Viper Academy.

He began to read the information.

After a few minutes, he sighed to himself. He didn't expect the Red Moon Tower to improve relations with the Viper Academy.

After seeing that the selection duel is taking place in the Red Moon Tower. A quick gleam flashes in his eyes. For a student exchange meet, they are conducting the duel like an internal competition.

He then decides to inform the Supreme Elder. The Supreme Elder had asked him to inform him whenever the news about Zack came.

After closing the files, he disappeared from the spot.

In the blink of an eye, he reached the mansion of the Supreme Elder. Then he saw the supreme elder was waiting in the front garden.

lightsNovel.com On the other hand, Cameron noticed Edgar's presence.

"What is it?" He asked.

Right now, he is in a bad mood. He has been waiting for news from the inner post. But there was no information whatsoever.

Edgar was stunned. Then he realized the Supreme elder was in a bad mood.

"Elder, there was news about Zack Lockwood," He replied.

Hearing that Cameron paused his movements before asking him to tell.

A few minutes later,

"What happened to the Red Moon Tower?" Cameron uttered in a low tone.

The Giant Tower and Red Moon Tower have bad relations with the Viper Academy. But the Red Moon Tower's action suggests otherwise.

"Are they blind?" He asked himself.

Then he thought of something. He recalls the power of the mysterious person behind the Viper Academy. Don't tell me he was the reason.

Then he shook his head in denial. The Viper Academy didn't have problems with the Red Moon Tower.

This means the Red Moon Tower is looking forward to improving their relationship.

"Alright, you can leave," He said to Edgar.

Hearing that Edgar nodded his head before disappearing from the spot.

Cameron's eyes flickered. He thought about joining hands together with the Giant Tower Academy. Then pressure the Viper Academy.

But the Red Moon Tower's action is making him gloomier.

Just as he was to get up. His sci-fi watch lit up with the notification.

Seeing that he paused his movements before reading the message.

"What?" A hint of surprise flashes in his eyes. The content of the message shocked him to the core.

"Someone from the inner post is going to come," He uttered in a surprise. He thought he was dreaming. But when he read the message,

He realized the message was real. Someone is going to visit this place soon. He felt the hanging sword above his head disappear.

A relaxed smile appeared on his face.

"Finally, the Viper Academy is going to face the wrath. Even the dying old man won't be able to stop the destruction of the Viper Academy," He said to himself.

The only person who could stop them was that mysterious powerhouse. He hopes that person is not here. Otherwise, he would face certain death.

A hint of fear appeared in his eyes before it disappeared. It's a pity the time of arrival was not mentioned.

...

Meanwhile,

Somewhere in the inner post. Inside the huge castle, Jonathan is standing in front of the master in the study room.

Outside the place was dark. Heavy rain storms can be seen. From time to time, thunder and lightning are occurring.

There was an extreme climate outside. But inside the study room, the place was calm.

"People from the prison have caused so much damage to the numerous outposts. The Outpost 1012 was fortunate to have your presence. If not they would have met with the same fate," Lowell said in a solemn tone.

"Master, I did my duty to protect the young master and his home. But why did you want the young master to enter the inner post this fast?" Jonathan asked.

At first, he thought it was about the prisoner's actions. But from his master's attitude. He can tell that he didn't put those prisoners in his eyes.

So something else is bothering him.

Lowell raised his head to look at him. A hint of appreciation flashes in his eyes.

Then he thought of something before saying, " War is going on. Each force wants to make merit."

"Many of the battles are for the young generation. My family is asking me to appoint someone," He said.

But Jonathan felt lightning strike his mind.

"Master, young master Zack is your student. If you appoint someone, it would be unfair," Jonathan answered in a panic.

Lowell raised his hand to stop him.

Then he said, "That's why I had asked to bring him along with you."

A look of understanding dawned on Jonathan's eyes. He didn't expect such a thing to happen. But one more thing puzzled him.

"Master, young master is just a Super Elite Warrior. There is a long way before he reaches the pinnacle. Then only he can become eligible for accepting the inheritance."

"Without inheritance, it's suicidal to join the battle," Jonathan said in a solemn tone.

A quick gleam flashes in Lowell's eyes.

He said, "It can't be helped. We don't have much time. Bring him when the year-end conference comes to an end."

"If you want you can use the force," He added.

Suddenly, a black crow appeared near the window. It's carrying a letter.

Seeing that Jonathan went to retrieve the letter. Then he puts some food on the plate. The black crow starts to eat it.

"Master," Jonathan brought the letter to Lowell.

Lowell receives it before tearing off the cover. Then he brought the letter outside to read it. The content was written in a secret language. Lowell knows it well.

When he finished reading the message. He looked at Jonathan and said, "You got another job in the outer post 1012."

Hearing that Jonathan was surprised. He just came back from there.

"Eclipse main branch has dispatched someone," Lowell said with a smile.

Jonathan quickly connected the dots. Before he could ask.

Lowell said, "If you want, you can kill that person."

Jonathan nodded his head in understanding before leaving the place.

Chapter 649 Carlos's worry

From MC's perspective:

Red Moon Tower:

The following day,

9 A.M,

After getting ready, I sat on the sofa to read the online news. Not long after, I heard the knocking on the door.

Hearing that I furrowed my eyebrows. Who is visiting this early? I shook my head before standing up. Then I walked up to the door to open it.

Creak!

When I opened the door. I saw Vina Potkins standing outside.

I asked, "What is it?"

Vina smiled before saying, "Everyone is planning to have breakfast together. If you want, you can join us."

Hearing that I nodded my head in understanding.

Then I replied, "Alright, I'll come."

After closing the door, we started walking downstairs. Then u thought of something before asking, "What happened to their selection duel?"

"Sigh"

"Don't ask me. This academy seems to be crazy. The selection duel went on after midnight. Finally, they were able to select 10 Super Elite and Elite Warriors," Vina said with a sigh.

A hint of relief flashes in my eyes. I don't want to spend time boring here. After arriving at the lobby, we met with others.

Even Carlos Kent was there. Just as we were discussing. Teresa York made an appearance. Her appearance immediately attracted everyone's attention.

My eyes flickered. "What's her element?" I said in my heart. Earlier, I thought she was a special element user like me.

But nobody here talks about her special element.

On the other hand, Teresa looked at everyone before her gaze fell on Zack. Then she walks up to Carlos Kent.

Her expression was different than before. She is calm and dignified. Ever since she learned that Carlos is an SSS-Rank Warrior. She has changed her attitude.

"Elder, I have come to take you guys to our dining hall," She said.

Hearing that Carlos Kent who was busy reading online articles turned towards her. Then he looked at the warriors around him and asked, "Has everyone arrived here?"

His eyes quickly scanned the 20 warriors present here. Seeing that everyone was here.

He said, "Let's go."

Right after, everyone started following Carlos and Teresa York to the dining hall.

On the way, we continued our conversation.

"What do you think about their strength?" Vina asked.

"I don't know. We will see it today for sure," I replied.

A complex glint flashes in Vina's eyes.

"I think we are underestimating their strength. Last night, I went to their duel arena and saw a few of their duels," Vina said.

Hearing that my eyes flickered.

"Don't think too much about it. Just focus on your strength," I said to her.

At the same time, I recalled something in my mind.

The Red Moon Tower has its inheritance. It doesn't matter which element it is. Their inheritance can be used by any elemental warrior.

Maybe the truth will be revealed in a few hours.

Soon, we reached the dining hall. The dining hall is similar to the Viper Academy. Where everyone can have food in one common place.

When we walked into the hall. The Red Moon Tower Warriors' eyes fell on us. After seeing us, they started gossiping.

After receiving the food, everyone found an empty seat to sit down. When I sat on the empty seat. Vina Potkins came to sit beside me.

On the other hand, I saw Seamus Dave join others. He seems to have formed a group with other Super Elite Warriors.

Then we began eating the food.

A few seconds later,

Two more people have joined us. When I raised my head. I saw Carlos Kent and Teresa York.

lightsnovel.com They sat opposite us.

"Zack Lockwood, long time no see. Yesterday, I was busy. I didn't have time to talk to you," Teresa York said.

Hearing that I revealed a smile on my face. Why is she striking up a conversation with me?

Teresa thought of something before saying, "Oh, I forgot. Your 2 friends have managed to get a place in the team."

"I think Ella and Sallie are looking forward to meeting you," She added.

Carlos Kent was silently listening to their conversation. He furrowed his eyebrows before asking, "What happened to your supreme elder?"

Hearing that I looked at him in surprise. Even Vina Potkins perked up her ears to listen.

Teresa frowned. She doesn't why is he asking? Thinking about Carlos' strength. She replied, "The Supreme Elder is in her mansion."

"She won't appear unless it's important," She added.

Carlos Kent sneered inside. When did he go to walk outside last night? He felt that terrifying gaze. The Supreme Elder is watching his movements.

He doesn't know whether the Red Moon Tower is scheming like Giant Tower Academy.

Perceiving everyone's gaze before saying, "I thought the Supreme Elder would watch our duels."

Hearing that Teresa eases her eyebrows. For a moment, she thought something serious. When it comes to the student exchange meeting. She doesn't think the Supreme Elder would be free to watch the duel.

20 minutes later,

We walked out of the dining hall.

"The duel will officially start in 2 hours. You guys should arrive at our duel arena before that," After saying that she walked away from the place.

Then we started walking back to the guest tower. On the way, we came across many female warriors. Most of them were missing yesterday.

Soon, we reached the guest tower. After entering inside, I heard from Carlos Kent.

"Zack, come here for a moment."

Hearing that I turned around and walked towards him. Most of them went to their room. While others have decided to wait in the lobby.

Seeing that no one was around.

Carlos Kent said, "I think we should leave right after the duel."

Hearing that I was stunned for a moment. I heard a nervousness in his tone.

"What happened?" I asked back.

"The Supreme Elder of their academy is watching everyone. He is especially keeping an eye on me," Carlos Kent replied.

I suddenly realized the reason for his question to Teresa York. Then I furrowed my eyebrows. Don't tell me the Red Moon Tower is as troublesome as the Giant Tower Academy.

"You should inform that person just in case he can help us when it's an emergency," Carlos said.

"Alright, I'll text him," I replied.

2 hours later,

We walked into the arena. All of us, including Carlos Kent, are standing on the ground.

The Red Moon Tower warriors are yet to come. At the same time, I saw the spectator area getting filled up with the warriors.

The student count of the academy is similar to ours.

Not long after,

Teresa York appeared with her warriors.

Cheer!

The cries erupted in a cheer. The big screen starts to show their images. When I raised my head to look at them.

A hint of apprehension appeared in my eyes.

"They are strong," I said in my heart. Especially the aura released by the Super Elite Warrior is showing some threat.

"Vina is right. I have underestimated them," I said in my heart. Their strength is showing a hint of threat to me. Then what about others?

When I turned around, I looked at others. I saw everyone's expression was ugly. Even Seamus' expression was solemn.

I saw Vina clenching her fist in anger.

On the other hand, Carlos Kent has better knowledge. He instantly saw through everyone. He turned to Zack who was next to him and said, "Each one of them has an aura of inheritance on them."

"Red Moon Tower's inheritance is special. As far as I know, it can increase the combat power of the warriors. You guys have to be careful," he added.

"Inheritance uh?" I muttered to myself.

Earlier, I didn't pay any attention to it. But looks like it's going to play an important role in today's duel. Then I began to observe the team.

Both Super Elite and Elite teams have 5 male and female warriors in their team.

"Hmmm," Suddenly, my gaze fell on the 2 female warriors in the team. Their strength seems to be in the early stages of the Super Elite.

Why do those 2 female warriors look familiar?

When I was observing them. They were also looking at me.

Suddenly, lightning struck my mind. I came to realize.

"These 2 are Ella Downs and Sallie Mills," I muttered to myself. They have grown tall in recent months. They seem to have changed their hair color as well.

Ella Downs and Sallie Mills looked at each other. A hint of ruthlessness flashes in their eyes. Last time, they were weaker than Zack Lockwood.

Now both of their strengths are equal. They want to see who is better in this duel.

On the other hand, Teresa York receives the signal from the Dean to start the duel.

"Alright, let's start the duel. First, the duel for Elite Warriors will be held," Teresa said.

Then the lots are drawn at random. When everyone got their number. The duel officially starts.

For the first duel, the lots were drawn again.

9 vs 2

When the numbers were shown. The 2nd elite warrior from the team walked onto the platform. At the same time, their 9th warrior walked in.

Chapter 650 Part 1: Win count 5:5

From MC's perspective:

Red Moon Tower:

Duel arena,

The referee was one of their elders. When he gave the signal. Both of them started attacking each other.

The elite warrior from our academy is a fire, elemental warrior. He shot a few flame balls towards the opponent.

When I turned towards his opponent. A hint of surprise flashes in my eyes. His opponent simply took out a sword to deflect the attack.

lightsNovel ?om Boom!

One after another, a deafening sound reverberated throughout the area. The Red Moon Tower Warrior easily blocked those attacks.

"This?" I furrowed my eyebrows. Because it doesn't look ordinary.

Then I continued to watch his blade. The elite warrior wasn't satisfied. He again shot many flame balls at the opponent.

Seeing that I squinted my eyes. When the blade comes in contact with the flame ball. I noticed the subtle change.

Right before the contact, the blade edges flickered with the red light. The red light instantly diffused the flame ball. Hereby causing it to scatter.

"What is this?" I said in my heart.

"Did you find out?" Carlos Kent asked beside me.

"Is that red glow?" I asked back.

"Yes, it's the power of the red moon inheritance. Looks like everyone here has that inheritance," Carlos Kent replied.

A look of understanding dawned on me. Then the duel won't end easily.

As time passes, the Flame warriors find out something is wrong. Because the opponent was not using his element at all.

Instead, he was the one who constantly attacked him. But it's a pity, he didn't figure out the secret.

Short after,

The elite warrior took the action. He rushed out to attack the flame warrior. Seeing the change, the flame warrior was satisfied.

He released the flame wall in defense. No one can pass through easily. The powerful flame would burn the opponent. When they come into contact.

Swish!

But the next second, something happens that changes everyone's expression on the ground. The sword blade easily passes through the flame. A figure emerges out of the flame wall. Like nothing had happened.

People with good eyesight can see that there is thin red clothing all over their skin. Which protected him from the burning.

The next second, the flame faction warrior wants to retreat but it is too late. The blade easily injured him. One more step might cause even more injury.

The referee declared the Red Moon Tower Warrior as the winner. Hearing that the flame faction warrior walks out dejectedly.

Cheer!

As the result was shown on the big screen, the crowd erupted in loud cheer. Just like in Viper Academy, everyone is watching the duel live.

Teresa York carries an amusing smile on her face. This is the power of their inheritance. It's impossible for an average elemental power to overcome it.

On the other hand, Carlos Kent started to share the details with others. Not everyone had spotted the red glow.

"So this was the main reason," Vina Potkins said with emotions. Last night, she felt threatened. Now she realizes where the threat comes from.

A few minutes later,

The next lot was drawn. This time it was different members. Both of them have equal strength.

As time passes, the female warrior effectively uses her water element to put pressure on the opponent.

The Rain Water Faction Warrior was not proficient in using the red glow. She was then forced to use her elemental power. Her elemental power was the wind.

But the warrior on our side seems to have a lot of experience. She quickly used the opportunity to catch her off guard.

Then she blasted her off using the water balls. This duel quickly came to an end as well.

"This time their opponent was weak," Vina Potkins said from the side.

"Looks like not everyone is proficient in their inheritance. So there is a chance for her," I replied.

A few seconds later,

The next lot was drawn. It's time for 2 earth-element warriors to fight. I thought the opponent could use red glow.

But he was just like the previous warrior. He wasn't able to use the red glow for a long time. Seeing that a hint of relief flashes in my eyes.

I thought it was going to be a total washout. Fortunately, not everyone is scared.

When the duel is ongoing. I suddenly felt the gaze of 2 people. There are none other than Ella Downs and Sallie Mills.

I furrowed my eyebrows. From time to time, they are looking at me. I don't know why but their gazes seem unkind.

The only thing that could cause hatred was the end of the Crimson Hall. I had explained it clearly back then. I thought the deeds of Crimson Hall would have helped to change their mind.

But it looks like it's not.

On the other hand, Teresa York was not satisfied. She was expecting a total washout. But now she realizes the team brought by Carlos Kent was strong.

It's not wrong to say that they must be the cream on top.

At the same time, Dean Lily Smith is watching the duels in her cabin. She didn't get much expectation from the Elite stage duels. Only the duel between Super Elite Warriors would show the difference between the 2 academies.

Because the Super Elite Warriors have a better understanding of their Red Moon Inheritance. Whereas most of the elite warriors are getting started in their inheritance.

Anyways, the current duels show that elite warriors from both the academy are strong.

Meanwhile,

Dean Rebecca is also watching the duel as well. She got special access from Dean Lily. Through the link, she can watch the live duel.

When the elite warriors used the red glow. A bitter smile appeared on her face. The Red Moon inheritance is fearsome.

That's why the Red Moon Tower manages to stay strong despite being the place filled with most female warriors.

This is also the same with the white palace academy. But the only difference is that the white palace academy's inheritance is suitable for the water elemental warriors.
