

## **BloodLine 651**

Chapter 651 Part 2: Win count 5:5

From MC's perspective:

Red Moon Tower:

Back in the duel arena,

As time passed, both the earth element warriors tired out each other. Their earth element skills are not inferior to each other.

Now the duel almost decided on the last man standing. As the time went on, both of them seemed to be exhausted. Just as we thought our warrior was going to win.

The opponent attacked him using the red glow. The red glow doubled the opponent's power. Then the boulder hit him hard. The power sent our earth elemental warrior flying before crashing onto the ground.

"Is this a sneak attack?" Vina Potkins asked.

"He was careless," I replied.

Then the win count was 2:1

There is something to learn from the duel.

Time flies,

The elite duel came to an end in the evening. The last few duels have stretched for a few hours. Otherwise, the duel would have come to an end at noon.

The win count was 5:5

Both the academies won the 5 duels each. The result was better than the whitewash.

Then I saw Teresa York coming to us.

"Tomorrow, the duels for Super Elite will be held at the same time. So see you tomorrow," After saying that she walked away from the place.

I saw Sallie Mills and Ella Downs look at me before walking away.

"If I meet them tomorrow, it won't be easy," I said in my heart. I don't want to hurt them. But if they harbor ill intentions nothing can be done.

A few minutes later,

We started walking back to the guest tower. The elite warriors' faces are full of smiles. As they have managed to equal the win count.

"Tomorrow won't be that easy," Carlos Kent said.

Hearing that the faces of Super Elite Warriors changed.

Even the Elite Warriors stopped smiling. They know that tomorrow's duel is more important.

Vina Potkins, Seamus Dave, and others perked up other ears to listen.

Carlos Kent saw through their thoughts.

He said, "I guess you have seen that red glow coming from their body. It's the power of their inheritance."

"Except few, most of their elite warriors are just getting started on their inheritance. That's why it was easy for our elite warriors to win."

"But tomorrow that won't be the case. Each of their Super Elite Warriors has some experience. If you guys want to win, then you should use your full strength against them."

"The red glow doubles their strength. Don't give them any chance to use that tomorrow," Carlos Kent added.

Hearing that everyone nodded their head in understanding.

Soon, we reached the guest tower. After entering inside, everyone went to their room. Tomorrow's duel has already started to weigh in on everyone's mind.

Creak!

After entering the room, I quickly went to take a bath.

20 minutes later,

I changed into comfortable clothes and then sat on the sofa to read the online news.

Surprisingly, I saw unread messages from the dean. She must have seen the duel.

When I opened it to read it. A quick glint flashes in my eyes.

[Don't give the opponent any chance to use the red glow.]

Carlos Kent told the same thing to everyone as well.

A hint of apprehension appeared in my eyes.

"Is the red glow that powerful?" I said in my heart.

Don't tell me it can overwhelm my blood energy. A hint of doubt appeared in my heart. The next second, I shook my head in denial.

The blood energy can easily suppress other energies. I believe it can suppress the red glow as well.

Then I pushed down these thoughts before I started reading online articles.

A few hours later,

I received a call from Vina. As everyone is getting ready for dinner. Then I stopped reading the online articles and started to change the dress again.

After getting ready, I walked up to the door to leave.

Beep!

Suddenly, my communication watch lit up with the notification. Seeing that I paused my movements.

"Who is sending me a message at this time?" I said in my heart. Because the dean has already contacted me.

Then I looked at my communication watch. Seeing that the message was from Jonathan. A hint of surprise flashes in my eyes.

Earlier, I thought about contacting him. But he texted me at the right time. Then I opened the message to read it.

[Get back to the academy as soon as possible]

My expression changes drastically.

"What happened?" I asked myself. I thought about asking for help from him. Instead, he wants me to go back.

Then I tried to contact him. However, the connection was not established.

"He must be coming back," I said in my heart. But my instinct tells me something bad is going to happen.

Because I haven't seen Jonathan reacting in this way. He is the person who taught lessons to both the Supreme elders of the Giant Tower Academy and the Eclipse Academy.

No one is here to pose a threat to him. Suddenly, a bad premonition rose in my heart. If the threat is not from the inside, then what if from the outside?

lightsNovel.com "What to do?"

"Should I go back?" I clenched my fist.

If I return to the academy, it would cause unnecessary controversy. On top of it, it would damage the Academy's name.

After pushing down these thoughts, I opened the door to walk out.

Creak!

Then I started walking downstairs. When I reached the lobby. I saw everyone was waiting for me. Seeing that I walked up to them.

"What took you so long?" Carlos Kent asked.

Hearing that I saw people around me. It's not an appropriate place to talk.

Carlos saw through his thoughts.

He asked, "What happened?"

"I want to talk to you alone. It's important," I replied.

Hearing that Carlos nodded his head before he grabbed my shoulder.

Swish!

The next second, we disappeared from the spot. Then we appeared outside. We landed on the ground.

Carlos Kent asked, "What happened?"

Then I started explaining Jonathan's message to him. Hearing that Carlos's expression changes drastically. He didn't expect to receive such grave news.

Chapter 652 Dominating Red Glow

From MC's perspective:

Red Moon Tower,

Carlos Kent felt troubled. It's not good for Zack to return to the academy at this moment. For a moment, there was silence.

Seeing that I don't know what to do? If Carlos didn't give me a reason, it's difficult to go back.

"What are your thoughts?" Carlos asked back.

"Sigh"

I let out a sigh before saying, "I don't know what to do?"

Carlos replied, "I think the duel will end tomorrow. Then we can return together by tomorrow evening."

Hearing that I sighed inwardly. I guess I can wait until tomorrow evening. I hope nothing bad will happen tomorrow.

Just as I turned around to leave. Carlos Kent brought a wooden box outside.

"Here, take this wooden box. It has a healing pill. I hope you won't have to use it tomorrow," Carlos said.

After receiving the wooden box, I returned to the guest tower.

The next morning,

I woke up earlier. After completing the morning, I decided to cultivate the blood element method. My dantian was filled with the purple essence and healing essence.

I can freely concentrate on the blood element method now.

I sat down cross-legged on the ground. Then I took the Class-6 Monster Core from the storage ring. I held it in my hand and started to run the blood element method.

When I started to run the blood element method. The blood rune in my consciousness started to flicker. Right after, I slowly started to absorb the monster's energy into my body.

I guided the energy according to the blood element method. During circulation, the blood light starts to appear above the bloodstream.

The red light starts to convert the monster's energies into mysterious white energies. Then the white energies began to drill into my bones.

Right after, I felt heart-wrenching pain. Inside my body, the red color starts to spread to the remaining part of my skull.

Seeing that I continued to endure the pain.

Time flies,

I opened my eyes three hours later. The monster core in my hands crumbles into pieces.

Then I mobilized the blood energy in my bones. Right after, I felt a surge in strength. Seeing that, my mouth curves into an arc.

Looks like I can defeat anyone with body strength.

I stood up from the spot. Then I saw the black filth covering my skin.

Then I went to the bath to take a shower.

20 minutes later,

I changed into an academy uniform. After getting ready, I stepped out of the room. When I walked to the lobby.

I saw everyone gathered around. This time the faces of Super Elite Warriors are solemn. Whereas the Elite Warriors are relaxed.

Then I saw Carlos Kent looking at me. The next moment, I couldn't help but recall Jonathan's message.

After nodding at him, I walked up to the others.

A few minutes later,

Carlos Kent said, "Let's go, there is no tomorrow." He is hinting that Teresa York won't come today.

Then everyone stood up from their seats. We then walked out of the guest tower to go to the dining hall.

On the way, we came across many warriors who were going about their business. I found many of their gazes are pitiful. Especially when they are looking at Super Elite Warriors.

lightsNovel ?om "Why are they looking at us like that?" Vina Potkins said.

A small smile appeared on my face.

"They are quite confident about their warriors," I said to her.

Then only Vina Potkins realized what this was all about.

The next moment, a hint of anger appeared on her face.

"I'll try my best to defeat the opponent," She uttered, gritting her teeth.

I shook my head before continuing to follow everyone. While walking, I also noticed the expressions of others.

Seamus Dave and a few others seem to be right. But the Earth elemental warriors are quite nervous.

I sighed inwardly. I hope they won't show their weakness.

Soon, we reached the dining hall. Inside the dining hall, the situation was even worse. We found many mocking gazes on us.

"They think that their warriors can win," I said in my head. If it was 1 vs 10, I could easily win the duel for us. Since it's a team, I don't know about others.

Ignoring their gazes, we received the food one by one before everyone sat down to eat the food.

As usual, Vina and I sat opposite each other. Carlos Kent sat beside me.

Without minding others' gazes, we began to eat.

Meanwhile,

In the dean's office, Dean Lily is speaking to Teresa York.

"So what can we expect today?" Lily asked.

Teresa who is standing in front of her recalled the recent intel information.

"Apart from Zack Lockwood, I don't think others would cause trouble to our warriors," Teresa replied.

"He has a lightning element. It will be a new experience for our warriors as well," Dean Lily added.

She didn't have great expectations from the elite duels. But today is different. The Super Elite duel will show the real strength of the Academy.

If everything goes right, then the same student will participate in the year-end conference.

So she is quite looking forward to it.

Time flies,

Once again everyone starts to assemble right before the duel. When everyone gathered. We walked out of the guest tower.

Then I saw Carlos Kent advising others.

Suddenly, Vina asked, "What do you think about today's duel?"

Hearing that I decided to tell the truth.

"I think we will be able to see more of their inheritance," After saying that I looked at her expression.

Vina seems to react better. There was no fear on her face.

Soon we reached the arena. As we walked into the ground, we saw people coming into the spectator area.

The elite warrior stood behind us. We super elite warriors stepped forward and waited for the opposite team to arrive.

Not long after, Teresa York appeared together with the team.

My eyes flickered. As I saw Sallie Mills and Ella Downs.

"I guess today I'll get an answer from them," I said in my heart.

Shortly after, a referee arrived. When it was time for the duel, the lot was drawn again.

8 vs 9

When the number was shown. An earth elemental warrior from outside walked onto the stage.

Coincidentally, a brute warrior from their side walked forward. He seems to be an earth elemental warrior as well.

There is going to be no elemental advantage.

When the referee gave the signal.

Both of them shot each other using boulders.

Swish!

The boulders shot at fast speed.

Boom!

Some of them collided with each other and caused deafening noise. Dust rose instantly covered the ground.

Boom!

But we can hear the attack is happening again.

A few minutes later,

The dust settled down. Both of their figures came into view.

The next second, a gloomy glint flashes in my eyes. Because the warrior on our side is sweating. But the opponent is beaming with energy.

"What did I miss?" I muttered to myself.

Vina heard the mumbling and she immediately asked, "What happened?"

I shook my head before saying, "It's too early to say. Let's continue to observe the duel more."

Hearing that Vina turned her attention towards the duel.

I have vaguely guessed something in my mind. But I want to see it more.

The earth element warrior on our side rushed out to attack physically. He raised his fist to punch.

The opponent let out a laugh. Like he was expecting this. Not only him, his team member's faces are full of smiles.

When both of them collided against each other. I saw a familiar scene. The red glow from the opponent's first sent our warrior back flying like a broken kite.

Smash!

Then he smashed to the edge of the fighting platform.

Seeing that expression of everyone changes drastically.

"Red glow again," Vina uttered in a surprise.

I sighed inwardly. This will blow everyone's confidence.

The next second, we saw something which ignited everyone's anger.

The opponent released the multiple boulders. But the boulders are covered with a red glow. Seeing that everyone has guessed what the result is going to be.

The earth elemental warrior from our side tried to get up. But he was bombarded by the red glow boulders one after another.

Argh!

A heart-wrenching scream sounded before his body was thrown out of the fighting stage. The warrior was completely bloodied.

The referee declared the Red Moon Tower warrior as the winner.

Cheer!

A roaring cheer sounded from the spectator area. The red moon tower warrior grinned before walking out of the stage.

Seeing that Carlos instantly appeared beside him and fed him healing potions.

"Is this necessary?" I asked Teresa York.

Hearing that Teresa York turned towards me.

"It can't be helped. Our inheritance's power is powerful. You guys have to defend it properly," She said with a smile.

Hearing that my mouth twitches. Everyone glaring at her in anger.

Chapter 653 Duel against Sallie Mills

From MC's perspective:

Red Moon Tower,

Everyone's expression on our side turned ugly. I wasn't surprised by the result. But the duel came to an end too quickly.

The referee began to draw the next slot.

9 vs 7

The next everyone's gaze turned towards me. Seeing that I sighed inwardly before walking up to the stage.

"I know it's an easy win," Vina said.

Seamus Dave and others also looked at me. Carlos Kent is carrying a bright smile on his face. Seeing that I shook my head. He knows my combat prowess better than anyone.

The opponent was surprisingly, Sallie Mills. I didn't expect to meet her this soon.

But anyway, I'm not going to lose this fight.

After arriving at the fighting stage, I looked at her. Ella Downs cheered her up before she turned towards me.

A hint of hatred flashes in her eyes. Seeing that I couldn't help but frown.

"Don't underestimate her. She might be an early-stage Super Elite Warrior. But her inheritance can help to fight across ranks"

Teresa York's voice reached my ears. But I sneered inside. I want to test the power of the infamous inheritance.

When the referee gave the signal.

Sallie released a water ball straight at me. It might appear to be a simple attack. But I can feel that it's not an ordinary water ball.

Swish!

The next second, I brought the black sword outside to block.

Boom!

The water ball explodes right after coming into contact with the blade.

The water splashes all over me. The next second, I felt the burning all over my skin.

"This?" Everyone exclaimed in surprise.

A hint of surprise flashes in my eyes. The next second, I ran the blood element method to alleviate the pain.

"Ha..Ha...Ha..," Sallie Mills let out a small laugh after gaining a small victory.

The next second, she released multiple water balls. But this time there is a change. The water ball is shining with a red glow.

Gasp!

A small exclamation sounded again.

In that instant, I activated my perceptual ability. The next moment, everything becomes clear. I can see the red energy covering the water ball.

This red energy is the power of their inheritance. It's going to double the water ball attack.

When the water ball got closer towards me.

"Lightning phantom"

I released the lightning movement technique to evade. In a blink of an eye, the purple lightning covered both of my legs.

Swish!

I began to evade the water ball one after another. The water ball then hits the empty ground. Right after, a scorching sound can be heard.

If it fell on the human skin, it would create a hole.

In a blink of an eye, I evaded all those attacks.

When she was ready to release the next attack.

Swish!

I rushed out in a zigzag manner. Anyone from outside can see a purple line moving in a zigzag manner.

Sallie was startled for a second. Zack's speed was faster than she had expected. The next second, she released the defensive technique.

A water wall formed in front of her. The water wall was covered with red energy as well.

Seeing that red moon tower warrior's thought it's unbreakable.

A hint of appreciation flashes in Teresa's eyes. She didn't expect Sallie to use red energy continuously. Which shows she went further in the inheritance.

While the Red Moon Tower Warriors are enthusiastic.

The faces of Viper Academy showed concern.

At the fighting stage, I raised my fist to punch. At the same time, I covered my fist with purple lightning power. For Viper Academy, this scene was too familiar.

After seeing the red glow, I didn't use the blood energy. Because I want to test it out.

When the punch hits the water mirror.

Boom!

A loud sound reverberated throughout the area.

Crack!

In a blink of an eye, several cracks appeared on the mirror.

Seeing that a hint of disbelief appeared on Sallie's face.

Gasp!

Not only her, a loud exclamation sounded outside. Especially from the spectator's area..

Seeing the crack, I smirked. This is the destructive power of lightning. It can withstand the power of the red glow. Which gives me satisfaction.

Boom!

The next second, I started to attack the water ball using my both fist covered with purple lightning.

One after another, a deafening sound reverberated throughout the area.

Meanwhile,

Teresa York's face changed. She has underestimated the power of lightning. The purple lightning is clearly dominating the red energy.

If not for the red glow, she would have already been eliminated. She doesn't know whether Sallie can use the energy continuously.

If the energy comes to an end, then it will be her defeat.

Not only her, even Ella Downs starts to reevaluate the power of lightning. A hint of regret flashes in her eyes.

She should have done her homework on Zack's strength.

Dean office,

Dean Lily smith is smiling. Zack Lockwood didn't disappoint her.

"This kid is interesting," She muttered to herself. She can see that red energy is doing nothing to the lightning power.

So everyone can see the result of the duel.

A few minutes later,

Sallie Mills is starting to give up. The essence in her body is depleting at a faster rate.

Looking at Zack, she is shocked to the core. Because Zack is showing no sign of exhaustion. He is attacking non-stop.

But she doesn't know that Zack is using his ability, not the lightning technique.

When her water essence dried out completely. The water wall collapses. The next second, a purple lightning fist hits her chest.

Boom!

The next second, her body flew backwards like a broken kite before smashing into the ground.

Seeing that the red moon tower warriors' expression became serious. They had expected a white wash.

But now Zack has shown his strength. Which made them dignified.

The referee then declared Zack Lockwood as the winner.

Right after, Ella Downs went to check on her. Sallie seems to have fainted.

The referee then started to draw the next lot.

Seeing that I walked to Carlos Kent.

"Can I leave?" I asked.

Hearing that Carlos Kent's eyes gleamed with a twinkle.

The next second, he shook his head.

"Is it urgent?"

"Why can't you call him?" Carlos asked back. This was the first time he had heard something like this from Jonathan.

lightsNovel.com That person was calm when dealing with the Supreme Elder. But all of a sudden he is asking for Zack's return.

Carlos is having a bad feeling about this.

"Okay, you can go back. I'll ask the pilot to take you back to the academy," Carlos Kent said. He has decided to let Zack return to the academy.

Hearing this I sighed inwardly. Yesterday, he told me to stay until the evening. But he changed his mind now.

Shaking my head, I started to walk away from the academy.

On the other hand, a small commotion happened seeing me walking away. Even the duel was paused for a moment..

Seeing that Carlos gave a signal to continue. The duel continued again.

Teresa York was confused. Technically, Zack didn't have to participate in the next duel. Because one participant can fight one duel.

So Zack can do whatever he wants. But right now, seeing him leaving like that. She wants to know what happened.

Not only her, Vina Potkins, Seamus Dave everyone was confused. Seeing that duel was going on. No one dared to ask anything.

Ella Downs gritted her teeth in anger. She had long since wanted to fight against Zack Lockwood. But now the opportunity is gone. Sallie lost her duel as well.

Her heart filled with regret. But it can't be helped right now.

Dean office,

Dean Lily furrowed her eyebrows. Zack's duel was officially over. He can return to his room. But his actions seem disrespectful right now. It's not good to walk away during the event.

A hint of displeasure flashes in her eyes. She decides to talk to Rebecca later.

But she didn't know that Rebecca was shocked as well.

Viper Academy:

Dean office,

Rebecca is looking at the screen with confusion.

"What is he doing right now?" Rebecca asked herself.

She knows that Zack is responsible. He won't leave the event half away. Especially since the Super Elite duel is just beginning.

She then decides to contact Zack.

When the call was connected.

She asked, "Zack, what are you doing?"

On the other hand, I wasn't surprised by her call.

"Dean, I'm coming back to the academy," I replied.

"What?" I heard her surprise fill her voice the next second.

"Dean, I'll tell you after coming back to the academy," I replied.

I don't have time to reply to the call.

Hearing that Rebecca felt something wrong.

Then she said, "Alright."

On the other hand, after ending the call. I rushed out towards the transport area.

Soon, I reached the place and saw the pilot was already waiting for me.

Looks like Carlos has already told him. After walking up to him, I said, "I want to return to the academy. I have got permission from the dean."

Chapter 654 Bryson Koch

Eclipse Academy:

The Supreme Elder is getting updates from the dean. Including the events happening in the Red Moon Tower.

Sipping tea in his garden, he is thinking about Zack Lockwood.

"It's not easy to touch that kid," He said in his heart. Unlike the Giant Tower Academy, he didn't have any grudge against Zack Lockwood.

Instead, he hated the Viper Academy. Especially since he had a long-standing rivalry between the old supreme elder and himself.

But now things have escalated because of that powerhouse. And that person was connected to Zack Lockwood.

A quick gleam flashes in his eyes. Before he could think further, his sci-fi watch lit up with the notification.

Seeing that he casually looked at it. When he saw the contact name. He lost his composure. The tea spilled from his cup because of the sudden movement.

Ignoring the pain, he attended the call.

"My lord!" He said.

"I'll be there in a few minutes to get ready."

A deep majestic voice sounded from the other end.

The next second, the call ended. But he broke out in a cold sweat.

Cameron's face is full of disbelief. It took him a few seconds to realize the reality.

"Ha...Ha...Ha...," the next second, he burst out with a happy laugh.

"Unbelievable!"

\*It's unbelievable," he said to himself. The person was none other than a powerhouse from the main branch. He has already entered the inner post.

Now he is coming to their academy. The gloominess faded from his face. Now he looks bright and happy.

He knows what's going to happen next. He had invited the lord to investigate the Viper Academy. He thinks his intel must have rattled them.

The force behind the Viper Academy and the main branch doesn't get along with each other. Which is happening here in the outer post as well.

So the lord might use this opportunity to attack the Viper Academy. A cunning glint flashes in his eyes.

Suddenly, the image of Jonathan's warning flashes before his eyes. His expression immediately condensed.

"I don't think he is here. Even if he is in the Viper Academy, the lord can take care of him."

"He doesn't think that the powerhouse sent by the main academy is going to be weak," He muttered to himself.

The next second, he summons the Dean Edgar. He has to greet the great lord properly with others. If he gets on lord's bad side, that won't end well for him.

Meanwhile,

A few minutes ago,

A middle-aged man passes through the barrier to enter the outer post 1012. There is a golden card in his hand which gives him access.

In the blink of an eye, he successfully appears inside the outer post 1012. Breathing low-quality air, he gave a cold snort in his heart.

He really can't stand the atmosphere here. Especially for his level, which he intentionally suppressed before coming here.

His name is Bryson Koch. One of the elders from the main branch. He appears to be middle-aged in his forties. He has black hair and eyes. His skin tone is fair. He is standing in mid-air at 6 feet tall.

He is wearing a uniform of the main branch of the Eclipse Academy. Which is white and has golden designs on all over the edges. There is also an academy golden badge on the left side of the chest.

Bryson furrowed his eyebrows. This was his 1st time visiting this outer post. Like any other outer post, this place is barren as well.

"Let's not waste time here. After investigation, I should be going," He said in his heart. Then he contacted the elders of the local branch and informed them about his arrival.

Then he raised his left hand and tapped a few screens on the left bracelet. The location of the local Eclipse Academy was displayed.

After confirming that, he started to move in that direction. He is taking a few steps in the air but in reality, he is crossing multiple miles just like that.

On the way, he is thinking about the investigation that he is going to do. Some time ago, the local elder requested help citing that someone from the inner post attacked him and that his existence might pose a threat to their local Eclipse Academy.

Initially, no one paid any attention to it. But later, someone ran the background check and realized that person might be related to the Viper Academy.

The Viper Academy is also a major academy. But in the inner post, it's running under a different name. Unlike their Eclipse Academy.

The Viper Academy has a single main backer. Which is the Army Federation. So the elders back in the main branch thought someone from the federation was testing their limits here.

That's why they have sent him here to investigate. Since it's a powerhouse from the inner post. He has to tread carefully. Because those who can move in the outer post freely are not without a powerful background.

Not any force can get access to enter the outer post. So he thought about inquiring about the local elder first before dwelling on this matter.

A couple of minutes later,

Bryson reached the local Eclipse Academy. Looking at the similar white towering building. His mouth curves into an arc. But he also saw the lack of infrastructure here.

Except for some similarities, it's not comparable to the main academy.

Instead of landing on the ground, he is still standing in the air well above the clouds. Not anyone from the ground can see him unless he wants to.

Then he notices 2 people are coming towards him. One is old and the other one is a middle-aged man. No need to guess. He has figured out that the old man is the local elder.

Cameron's back is drenching in sweat. He has never seen the powerhouse from the inner post before except as the protector of the Viper Academy.

And this person is his superior as well. So he has to act more respectfully.

"My lord, I'm Cameron."

"Thanks for coming, my lord," Cameron said. No need to ask for identity. Because he recognized the white and golden uniform.

Bryson coldly looked at them from top to bottom. He instantly realized that he could kill these ants with a snap of his fingers.

"Take me to your place," He said in a cold tone.

Dean Edgar shuddered. He is feeling the great unknown pressure from this person. It's many times greater than the Supreme Elder.

If it continues, he might collapse on the spot.

Then both of them started guiding the main branch elder towards the mansion.

In a blink of an eye, they arrived at the mansion.

Bryson looked around before fixing his gaze on the old man before asking, "This is your place."

"Yes, my lord. This is my home," Cameron replied in a humble tone.

Hearing that Bryson decided to inquire. Before that, he looked at a middle-aged man. Dean Edgar understood the meaning and without waiting for them to speak he left the place.

When his presence completely disappeared. Bryson appeared in front of a chair and sat on it. Seeing that Cameron thought something flashed before his eyes.

He then turned around and saw the elder was already sitting on his chair and making tea. This all happened within a second.

When the realization hit him. An unknown fear gripped his heart. So the main branch people are this powerful. He didn't know what he had invited to this place.

Suppressing the fear in his heart, he slowly walked towards him.

Seeing that the elder is focusing on making tea, he doesn't speak.

Bryson ignored him and prepared the cup of tea. When it was ready, he started sipping tea. From beginning to end, he didn't even look at Cameron.

When the tea enters his mouth. He felt the taste was disgusting.

Splash!

The next second, he spat it out.

"What the f@ck is it?" He cursed out.

Cameron felt a thunderclap ring in his ears. He didn't expect to see this scene. He broke out in a cold sweat.

"My lord," Cameron asked.

"What kind of disgusting drink is this?" Bryson asked.

"That tea leaves were the most expensive in this region," He said in his heart. But he didn't dare to say it outside. If he says anything wrongly, it might offend the main branch leader.

"Forget it," Bryson uttered.

Then he thought about the investigation before turning towards him.

"I want to know what happened exactly. So tell me without hiding anything," Bryson asked.

Hearing that Cameron's heart shuddered. Then he started explaining it.

A few minutes later,

Bryson frowned. According to Cameron, he didn't even catch the appearance of the attacker. So it's too early to say that the attacker was from the inner post.

More importantly, the Viper Academy is keeping silent on this matter.

After gaining some clarity, he stood up from his chair.

He then looked at the local elder before saying, "Alright, let's go to the Viper Academy."

"I want to see whether anyone is behind that academy," He added.

Chapter 655 Jonathan's poison trick

From MC's perspective:

A few hours before Bryson Koch's arrival.

Jonathan has entered the outer post-1012. His eyes are calm without any waves. Ever since his master revealed the news to him. He has been keeping an eye on Eclipse Academy's movements.

There are spies on both sides as well. So it's not difficult for him to gather the news ahead of their main branch elder.

"Bryson Koch," His eyes flickered with a cold glint. This time the Eclipse Academy's main branch has sent an important person to investigate.

Presumably, the supreme elder of the Eclipse Academy in this region was behind this matter. He had warned this person before.

But it's a pity, Cameron is not smart. He doesn't know the forces standing inside the inner post. They won't go to such lengths to save a mere commander-ranking warrior.

This time he had decided to kill Cameron. But when it comes to Bryson. He has other plans. Master is permitted to act freely. But he won't do it as a last resort.

He doesn't want to cause unnecessary headaches to the master. If Bryson was smart, he would value his life more than the investigation.

Jonathan is going to execute his move. He then turned towards the Viper Academy's direction. He knew young master Zack Lockwood's condition now.

Either he is in the academy or he must be on his way towards the academy. Everything depends on the timing. He doesn't want any variables to appear in the Red Moon Tower.

After gaining some clarity, he started moving in the direction of the Viper Academy.

A few hours later,

He reached the Viper Academy silently. He didn't inform the dean of anyone else before moving towards the late Supreme Elder's mansion.

He flew over the academy. In the blink of an eye, he reached the mission. Looking at the clean mansion, a strange glint flashes in his eyes.

Someone has been taking care of the mansion. Suddenly, the image of Dean Rebecca comes to his mind.

"This woman is smart. Even if someone comes secretly, they won't enter this place casually," He said in his heart.

There is a formation placed here. And the mansion looks clean. It gives the feeling that someone is living here.

But it's a pity that the former supreme elder was greedy for life. Fortunately, the successor is not bad. Maybe she can the academy in the future.

After pushing down these thoughts, he slowly landed in front of the mansion. He takes out a green pill from the storage ring and swallows it directly.

Then he takes out a few bottles from his storage ring. This time the pills are black. He crushed those pills one by one.

An invisible gas mixed with the world's energy here. The invisible gas is dense and it won't disappear for a day. Bryson Koch would be poisoned if he hails.

Whereas the Supreme Elder Cameron would be dead. If I come into contact with the poison.

This was the punishment he had prepared for Bryson Koch for his interference here. Hereafter, the main branch of their would-be alert and won't make stupid decisions anymore.

As long as the master reveals his name, they won't even dare to do it in their dreams. But the master has other plans. He wants to develop Zack slowly and make him appear before his family as he chooses.

Anyway, he will stay until the end of the year. And then he is going to bring young Master Zack to Master's side. After pushing down these thoughts.

He disappeared from the spot and stood above the rooftop of the office building.

Meanwhile,

The black aircraft is speeding through the clouds. In the aircraft, apart from me. There is a staff and a pilot.

They didn't ask me any questions and started moving towards the Academy. But it would take some time to reach the academy.

Beep!

Suddenly, my communication watch lit up with the notification.

Seeing the contact name, a hint of relief flashes in my eyes. The person is none other than Jonathan.

Then I opened the message to read the encrypted message. After reading the message, my expression changed drastically.

For a moment, I remained still. Small sweat beads appeared on my forehead. I didn't expect the supreme elder of the Eclipse Academy to be vicious.

He had asked for help from the main branch. And the person who is coming might not be weaker than Jonathan.

I don't know what's going to happen. But he told me that he would explain further things later.

Meanwhile,

The student exchange duel is going great. They didn't feel the absence of Zack Lockwood.

It's just Ella Downs was greatly disappointed. She had expected to fight against Zack. But the duel pattern had affected her plan.

She also noticed that Zack was strong. Even if she wants to fight, it's difficult to overcome the lightning element.

Time flies,

Bryson Koch and Cameron reached the Viper Academy.

Looking at the magnificent buildings, Bryson sneered in his heart. He then turned towards Cameron and asked, "Is that Supreme elder of this academy alive?"

Cameron thought of the dying old man. When he came here last time. He was deterred by the powerful formation.

He was sure that the dying old man was recuperating inside the mansion.

"The old man must be recovering from his injuries," Cameron said from the side.

Hearing that Bryson furrowed his eyebrows. If someone from the inner post is connected to the Academy, then this person must be aware of it.

Bryson decided to interrogate the Supreme Elder of this academy.

Then both of them flew towards the mansion. When they slowly approached. Cameron suddenly said, "There is a powerful formation here."

Hearing that Bryson's gaze fell on the low-level formation. It can only block the commander-level powerhouse. He immediately destroyed the formation points within seconds.

Then both of them landed in front of the mansion.

Beside him, Cameron's face was full of smiles. He is grinning ear to ear. He is finally going to say goodbye to the old man.

Chapter 656 Cameron's death

From MC's perspective:

Viper Academy:

Jonathan was observing everything from the shadows. He is watching everything with a smile on his face.

Bryson Koch and Cameron landed on the ground. The formation posed no threat to them.

"Harumph, call him out," Bryson said with a snort. He doesn't want to waste time here. He is already sick of little world energy here.

"Yes, my lord," Cameron uttered with joy. The next second, he stormed into the mansion. But what both don't know is that an invisible poison seeped into their body within a few seconds.

Boom!

The mansion's door broke into pieces. When he appeared inside. He found no breath of a dying old man.

Cameron furrowed his eyebrows in confusion. Then he realized there must be another formation here.

So he started checking the mansion.

As time passed, Bryson began to feel uneasy. He doesn't know what's causing the sudden discomfort. But he feels something is not right.

"What's happening?" Bryson muttered to himself.

He thought it was a mood swing. But as the second passes, the irritation becomes real.

"Trash!"

"Why are you taking so long?' Bryson shouted in anger all of a sudden. But still the sense of uneasiness is getting stronger.

In the mansion, Cameron felt thunderclap ring in his ears.

The next second, he broke out in a cold sweat. And his whole body started trembling in fear.

He knows he is taking too much time. Because he found no presence of a dying old man here. The mansion is empty without anyone's presence.

He started to think the supreme elder of this academy went out to treat his injury. Otherwise, it doesn't explain the sudden absence.

If other academies learnt of this they might take evil actions against the Viper Academy.

"What bad taming?" He cursed under his breath.

The next second, his body starts trembling again. This is not out of fear. But it's happening because of poisoning.

"What's happening with me?" Cameron asked himself.

Then he looked at his body. He found his hands and feet turning purple.

"What?" He cried out in surprise. He wants to escape from this place right away. But before he could think further.

He found his consciousness slipping away.

Tud!

The next second, his body collapsed onto the ground.

On the other hand, Bryson Koch finally realizes something is wrong with the body. The uneasiness felt not because of his mood swing. But outside influence.

When he internally checks his body. He saw a black color thread pass through his internal organs.

At first he didn't think much about it. But as he checked further, the black threads covered all of the organs and bones.

Seeing that his expression changes drastically.

"No!"

"This is poison," He uttered in horror. He never expected there was something in this region that could affect his body.

The next second, he hurriedly takes out medicines to swallow. As the medicine enters his body, he sees the healing energy is not affecting the black thread at all.

Seeing that his expression turned pale with fright.

"No, this is not ordinary poison," He uttered in a panic stricken voice. The medicine product is from the inner post.

Such a medicine product can cure all types of the sickness in the inner post including all types of poison.

"I have to go back"

"Otherwise, the poison will endanger my life," Bryson said to himself.

Swish!

The next second, he disappeared from the spot and started moving towards the inner post without turning back.

"Ha...Ha...Ha....," Jonathan let out a small laughter.

Everything went smoothly. He had thought about killing him. But later he changed his mind.

This treatment was enough to handle Bryson Koch. There is no need for killing. The next second, he set his gaze on Cameron who was unconscious inside the mansion.

Cameron's vitality is slipping away because of the poison. He will die in a few seconds.

Seeing that Jonathan stepped forward. In a blink of an eye, he arrived before the mansion.

Then he entered inside. He then saw the work of the poison. The poison inside Cameron's body is melting Cameron's body. Before he knew it the corpse turned into a small puddle.

Seeing that Jonathan acted. The puddle disappeared in a blink of an eye. There was no trace of Cameron whatsoever.

On the other hand, Dean Rebecca doesn't know what happened here.

A few hours later,

The black aircraft enters the academy space. In a blink of an eye, the aircraft lands on the ground.

Creak!

I walked out after opening the door. After thanking the pilot and staff, I walked towards the office building.

When I got closer to the building. I found some that grabbed my shoulder. Before I knew it, I appeared above the clouds.

When I turned around, I saw Jonathan's face.

A hint of relief flashes in my eyes. I was worried all this time.

"What happened to them?" I asked.

Jonathan revealed a smile on his face before replying, "The inner post powerhouse ran behind his tails.

"He went back?" I asked out of surprise.

Then Jonathan began to explain the whole thing.

A few minutes later,

My whole body got relaxed.

"If I knew it, it was this simple. I would have stayed back," I said in a calm tone.

Jonathan shook his head before saying, "Young master, you are underestimating the inner post powerhouse."

"I came earlier. Which is why I was able to poison him. If not he could have destroyed this place with his power," He added.

Hearing that a look of understanding dawned on me.

"Alright, what's your next plan?" I asked.

Hearing that Jonathan recalled master's instruction. He wanted Zack to return with him after the end of year end conference.

"Just enjoy your stay here for the time being," Jonathan said with some meaning.

"What do you mean?" I asked.

Jonathan thought it's better to inform Zack.

"After the year end conference, I'm taking you with me to the inner post. Your true journey as a warrior starts from there," Jonathan replied.

A hint of surprise flashes in my eyes. This is not the first time I'm hearing this. Jonathan hinted to me before.

But I never expected the information to be true.

Sigh!

A long sigh escaped from my mouth.

But the next second, a hint of expectation rose in my heart. I'm tired of not having lightning resources here.

If there were abundant resources there, I would have broken through multiple levels. So I'm looking forward to it.

A hint of appreciation flashes in Jonathan's eyes. He thought Zack would be reluctant.

"I'm going to stay until the end of the year. So don't worry about the threats. You can practice peacefully."

"In meantime, I'm going to check the stability of the barriers," Jonathan said.

Hearing that I became more assured. There won't be any attack on the academy during the year end conference.

Then I thought about the dean, Rebecca. Should I tell or not?

"What about the dean?" I asked.

Jonathan thought for a moment before nodding his head.

"You can tell her. It won't affect anything," Jonathan replied.

Then we landed on the ground. Jonathan disappeared from the spot. Seeing that I started walking towards the office building.

Soon, I reached the office building. When I arrived in front of the dean cabin.

Creak!

The door opened automatically.

Seeing that I walked into the room. Dean Rebecca is looking at me with solemn expression.

Seeing that my eyes flickered. She doesn't even know what happened to the Supreme Elder's mansion.

"Zack, you are here."

"Now, you can tell me. What happened?" Rebecca asked.

Hearing that I took a deep breath before starting to explain.

At first, Rebecca's expression was calm. But when she started to listen. Her expression changes drastically.

A few minutes later,

She broke out with a cold sweat.

Swish!

The next second, she disappears from the spot and starts moving towards the mansion.

When she got closer to the mansion. She saw the formation was gone. A hint of fear appeared in her eyes.

Someone has silently appeared in the academy and she doesn't even know about this. She thought about landing on the ground.

Then she sucked a cold breath of air.

She recalled Zack's words. There was a poison lingering in the air. If she goes down below, the poison might kill her.

When she thought about Cameron's death. She sighed inwardly. At least, one of the Supreme elders threatening the Academy was gone.

Hereafter, no one will pose a threat to the Viper Academy.

Sigh!

She let out a sigh before returning to the cabin.

A couple of seconds later,

She appears back in the office.

Seeing that Zack was here. A hint of complicated emotions flashes in her eyes. Earlier, she wondered why the Supreme Elder agreed to enroll Zack in the academy.

Now when she thinks back. That decision was the best. If not, the academy would have faced much more danger.

Thankfully, everything was fine now.

"What's your plan next?" She asked.

"Hmm, I'm going to try for a breakthrough. I hope the dean will help me to get some treasure pills," I answered.

Chapter 657 Witnessing rare scene

From MC's perspective:

The next day,

The Viper Academy team returns from the Red Moon Tower. They were given a warm welcome. But most of the warriors here didn't know that a representative had come a day earlier.

In the room,

I woke up late. It's almost 10 AM. Then I got up from the bed to complete the morning routine.

After doing everything, I sat on the sofa to decide on today's plan. There was something on my mind since last night.

My master wants me to enter the inner city for some reason. Jonathan also hinted to me from time to time, that I have huge work ahead. But I believe for everything you need strength to do that.

My master wouldn't have accepted me, if not for my talent and lightning element. So I should improve my strength not only in base but also in techniques and combat experiences.

If my guess is right, the students in the inner post must be stronger than me. They must be brought up with a lot of rich resources and advanced techniques.

I should be no less than them. After gaining some clarity, I decided to enter the monster zone.

After changing clothes to the academy uniform, I left the room and walked out of the dormitory.

Students are coming and going. After seeing me, they started their work of gossip.

Ignoring them, I started walking towards the teleportation tower.

On the way, I checked the unread messages. It was from Ernest and Laverne. I understood what this was about. They don't know about my return. So I texted them back.

When I arrived at the teleportation tower, I avoided interacting with others and went straight towards the circular platform.

Swish!

After selecting the server, I disappeared from the spot. When I opened my eyes. I found myself standing inside the forest.

The ground was wet and slippery. This time I have selected a moderately risky monster zone. In this monster zone, there are Class 6 and Class 7 Monsters. Class 7 is the ceiling here.

What's more notable is that there is only one type of monster in the majority here. Which are worm monsters.

I have more experience against worm-type monsters. The only risk here is Class-7 ones. But it can't be avoided. To improve, I must take risks.

Fortunately, I didn't lose much of the lightning essence in the duel against Sallie Mills. After removing the unnecessary thoughts. I started going through the dense green vegetation.

Usually, in a worm monster's inhabitant's place. It's hard to find a green cover. Most of their monster zones are barren land.

But here there is enough green vegetation to take cover.

Tremor!

Suddenly, the ground beneath me starts to shake. The next moment, I activated my perception to look around.

There is only one reason for the tremor. The worm monster is on the move. As the tremor got stronger, I realized a monster was not coming towards me.

A hint of surprise flashes in my eyes. It doesn't happen usually. So I became curious. Then I started to follow the tremor movements.

Not long after, the tremor came to an end after crossing some distance. I thought that monster had found me.

So I looked for the green cover around me. Instead, I spotted a bedrock large enough to cover me.

Seeing that I moved towards the place to hide behind it.

On the other hand, the ground began to crack after a few seconds.

A yellow-colored worm monster appears above the surface. The monster is 30ft large in size. When its full body appeared above the surface. The small movement of the monster is causing large tremors.

My eyes flickered when I saw what was happening. The monsters act on instinct. Only high-level monsters have some intelligence to think.

Seems like this Class-6 Monster has better intelligence compared to usual Class-6 Monsters.

The monster starts moving forward with its huge body. Seeing that I became more intrigued.

Since the monster has intelligence. There is some purpose for its actions. When the monster's back disappeared.

I started following the trail caused by its movements.

As time passes, I'm going deep into the monster zone. Where the Class-7 Monsters are usually spotted.

A hint of apprehension appeared in my eyes.

"What's this Class-6 Monster doing?" I asked myself.

Class-7 Monsters won't allow weak monsters to stay near them. Even though they are from the same family.

Meanwhile,

Not far away from here, the corpse of a Class-7 Worm Monster can be seen on the ground. A large quantity of yellow liquid is gushing out from his body.

From its appearance, it can be said that the monster died a couple of hours ago.

When the Class-6 Monster appears near the corpse. It started to eat the monster with its razor-sharp teeth.

The monster's eyes flickered with intelligence. It quickly wants to before other monsters get here.

On the other hand, I followed the tracks. Soon the tracks come to an end. When I raise my head to look ahead.

I saw the back of a Class-6 Monster.

"It's doing something," I said to myself. When I tried to look through my perception. I stood in disbelief.

I saw the Class-6 monster was busy eating the corpse of the Class-7 Monster. I heard from Jonathan before that a similar thing happened back in that hybrid monster zone.

At that time, I was a beginner in warrior training. I didn't understand it completely back then. Now, I began to realize that monsters want to evolve.

Some monsters break naturally based on their bloodline power. But other monsters grow by devouring others.

This worm monster is doing the second one. I just don't know whether it's a natural process or a man-made one.

I came here to hunt the monster. But this scene surprised me. Should I disturb it or not? For a second, I decided to watch the whole process.

It's rare to witness such a scene.

As the time passes, the Class-6 monster continues to devour. It won't be long before it completes the devouring.

2 hours later,

The Class-6 Monster successfully devoured the monster. The monster looks bloated now.

It's going to be difficult to return to the underground. Seeing that I have decided to return to find other monsters.

Tremor!

Suddenly, a tremor jolted me awake. This time the power of the tremor is stronger than the previous one.

"Class-7 Monster," My expression changes drastically.

Boom!

A deafening sound reverberated throughout the area.

A huge worm monster, 50ft long appeared above the surface.

Seeing that I immediately recognised its Class-7 Monster. Then I saw the monster moving in the direction of the Class-6 Monster.

"It's going to attack the Class-6 Monster," I said to myself.

Should I help it? Anyway, it doesn't make any difference. Then I brought the black sword forward.

Then I started to charge the sword with the purple essence. In the blink of an eye, the black sword flickered with the purple light.

"Sword Divide"

I discharged the lightning beam toward the monster. In the blink of an eye, the lightning beam shot at the monster.

When the purple lightning beam hits the moving Class-7 Monster.

Boom!

A terrible noise sounded again. The aftermath swept away the surroundings causing the smoke to rise from the ground.

The monster let out a weird scream. Which shows that the monster was hurt badly.

When the smoke disappeared. I saw the targeted spot was completely scorched.

The next second, I saw the monster looking towards me.

Instead of going to the Class-6 Monster. The monster starts coming towards me. Seeing that my mouth curved into an arc. It was an expected reaction.

A quick gleam flashes in my eyes. The monster was hurt badly. But still, it's moving like nothing happened.

Then I raised my sword forward and started to charge with lightning essence. This time I plan to target the monster's eyes.

The sword blade flickered with purple light again. When the monster was a few meters away from me.

It released the lightning attack the next second.

The purple beam went straight towards the monster's left eye. The Class-7 Monster reacted fast. But it couldn't able to move the body in time.

The purple beam hits the eye directly.

Boom!

A deafening noise sounded again.

The lightning power instantly destroys the left eye. The next second, the worm monster let out a weird scream.

Seeing that a hint of relief flashes in my eyes.

The Class-7 Monster was enraged. It forgot the Class-6 Monster lying on the ground nearby.

Instead, it's started charging towards the puny prey.

Seeing that distance was getting narrower. I decided to lead the monster away from the resting Class-6 Monster.

"Lightning Phantom Technique"

I released the movement technique. The next second, purple lightning covered my legs. I exploded with great speed.

In the blink of an eye, I started moving away from the monster in a zigzag manner.

Behind, the Class-7 Monster is following at full speed.

Chapter 658 Bryson Koch's condition

From MC's perspective:

Monster Zone,

Fighting against Class-7 Monster is similar to fighting against SS-Elite Warrior. Victory can't be guaranteed. But I can escape with my life.

But here the Class-7 Monster is a bit more tyrannical than SS-Elite Warriors. After running for a while, I found the purple essence was decreasing rapidly.

If I waste any more time, the trip here would be wasted. Suddenly, I stopped using the lightning phantom technique and turned toward the Class-7 Monster.

On the other hand, the monster is few towards me. Looking at its reaction, I knew it couldn't wait to crush me to death.

Swish!

The next second, I started charging towards the monster. At the same time, I ran the blood element method.

Blood energies from the bones started to appear. Feeling that I concentrated all that energy on my fist.

Powerful energy reached my forearm and gathered around my right fist. By that time, I was one step away from the monster's body.

Any wrong move can cause this monster to crush my body. So I observed the monster's movements using perception.

Seeing that there was no big movement. I raised my fist to punch.

When the fist comes in contact with the yellow wet skin. The invisible blood energy scorches the yellow color.

Boom!

The next second, an explosion occurs. A small crack appeared in the monster's skin. Except that the monster remains unscathed.

Seeing that a hint of apprehension appeared in my eyes.

"Is it a peak stage one?" I asked myself.

Then I saw a massive shadow before me.

"Lightning Phantom Technique," I released the movement technique.

The purple lightning covered my legs. I exploded with great speed to escape from the spot.

Boom!

The next second, a huge tremor occurs as the monster's body collides with the ground. Using this opportunity, I used the lightning movement to walk away from the place.

On the way, my expression worsens. I thought I could fight against it. But against a peak, one is still a no-go. I shook my head in disappointment before rushing towards the same old spot.

Half an hour later,

I successfully got rid of the monster's tail. I didn't feel the tremor signs anymore. After finding someplace to sit down, I checked my dantian.

The purple essence has become lower. Maybe I can fight against one or two Class-6 monsters, that's all.

...

Eclipse Academy:

Dean Edgar was sitting in his office with a dejected expression. It's been more than a day. But still, there is no sign of the Supreme Elder and the lord from the inner post.

Both of them have disappeared into thin air. Yesterday, he thought there must be some important mission. So he had kept quiet.

Based on his recent talks with the Supreme Elder Cameron. Both of them have gone to deal with some stuff related to the Viper Academy. He knew the Supreme Elder was extremely dissatisfied with the Viper Academy.

If something happened in that Viper Academy, he should have received some news by now. But nothing that sort of has happened. According to the spies, the Viper Academy seems to be operating smoothly.

There is no problem whatsoever. More than that the Viper Academy is in a better mood because of their result against the Red Moon Tower in the student exchange meet.

He furrowed his eyebrows in displeasure thinking about it.

"I should ask the Viper Academy dean directly," He muttered to himself.

The next second, he made a call to the dean Rebecca.

On the other hand, Dean Rebecca was perplexed. Then she recalled her conversation with Zack.

A quick gleam flashes in her eyes before she attends the call.

Dean Edgar casually inquired about the Supreme Elder Cameron. But Dean Rebecca replied by saying Viper Academy didn't receive any guests yesterday.

Dean Edgar's complexion changes. So he quickly ended the call right after that.

"No, I feel something wrong," Edgar said in his heart.

He heard the relaxed voice of Dean Rebecca. Which tells there was no problem in the Viper Academy. But he feels uneasy. There is no other way to check whether the Supreme Elder is alive or not.

Then he convinced himself by recalling the presence of the lord from the inner post. There is no opponent for that lord in this region.

In the end, he calmed down his heart by saying that. But he didn't know the lord himself was suffering.

...

Eclipse Academy (Inner Post)

Bryson Koch is admitted inside the white color building. The people who are roaming inside the building are wearing the white color dress.

But each of their fluctuations is no less than that of Bryson Koch.

Bryson, who is lying in his bed, is in critical condition right now. If anyone looks at his inner organs right now, they can see his inner organs are wrapped up with black color threads.

The black color thread keeps getting multiplied as time passes. The thread won't disappear until the inner organs lose their vitality completely.

His outer appearance was ugly. As if though someone is mummified. He was able to keep his vitality because of his strength.

After coming back to the inner post, he was able to be admitted to this healing palace in time.

Cough!

A black blood drop spilled from his mouth.

At this time, Bryson who is experiencing excruciating pain is hearing footsteps in the room.

Creak!

The door opened.

Several healers wearing white dresses walked into the room. Amongst them, there are 3 old men with decades of experience.

Looking at the mummified state of Bryson.

One of the old men asked, "Have you identified the source behind those black threads?"

The old man right next to him nodded his head by saying, "I have searched the latest journals regarding forbidden poison."

Hearing that the other 2 expressions turned solemn.

The old man added further by saying, "It's likely the result of Forbidden poison named Colorless Threads."

"But the name might be deceiving. Because the poison has no color. Only after getting into the human system. The black threads start to appear."

Gasp!

Hearing that everyone in the room sucked a cold breath of air.

"So evil," The old man uttered in a cold tone.

"But I can tell whoever it is that person didn't want Bryson to die. Although it's a forbidden poison, it is an extremely tortuous method. And it takes time to kill the target," The old man on the left side commented.

Hearing that the other 2 nodded their heads.

But Bryson Koch was even more aggrieved in his heart. He heard the whole conversation. Now he realized that person from the Viper Academy wanted to teach him a lesson.

Sigh!

The old man in the middle let out a sigh before saying, "It's not easy to treat this poison. We have to burn a lot of resources to make a cure."

"What's that person saying?" He asked.

The old man on the left shook his head before saying, "He was pissed off. He is threatening me to save his young elder."

"We can't offend the Eclipse Academy. Otherwise, we have to forget about a few resource channels," Elder on the right side added.

"Alright, we should save him now," The old man in the middle said.

Then he walked up to Bryson and placed his old hands on his chest. The next second, milky energies started to enter Bryson's body.

Bryson felt warmth all of a sudden. The white milky energy then comes in contact with those black threads.

The next second, something happens. The black thread began to weaken to some extent. The dark color got dimmed. Even the threads surrounding it get loosened.

It was just one part of the organs. But numerous threads are wrapping around single organs.

As the time passed, the threads loosened one by one. The old man was extremely focused. Small sweat beads already started appearing on his forehead.

The other 2 old men remained silent. But they can see the data on the big monitor screen. Everyone in the room can see that Bryson Koch is slowly getting back his vitality.

Half an hour later,

The old man finished his part. The old man on the right side takes his turn to heal. It will take 3 of them to fully weaken those black threads.

"The current treatment will stabilize him for the next 2 days. We should come up with a cure in the meantime."

"Otherwise, irreversible damage would occur to his foundation," The old man in the middle added.

"Don't worry, brother. My students are working on a list of healing herbs. They will come up with the list soon," The old healer on the left side said.

On the other hand, Bryson Koch let go of his worry. It was not a dead end as he imagined. Right now, he can see some light ahead. After getting cured, he will take a few month's leave.

He doesn't want to take on a similar task again. Who knows the next time? He won't be this lucky.

A half an hour later,

The old man on the left side stepped forward to take his turn.

Chapter 659 Going back to hometown

From MC's perspective:

A few hours later,

I returned to the academy completely exhausted. After entering my room, I lay down on my bed.

Earlier, I thought about increasing the battle experience by fighting against Class-7 Monster. But I didn't expect to witness such a weird scene.

The Class-6 Worm Monster intends to evolve by consuming the body of the Class-7 Worm Monster. I don't know what happened to that weird monster.

A quick gleam flashes in my eyes. Fortunately, I was able to kill 2 Class-6 Monsters in the end. The trip wasn't wasted.

The following day,

I met with Ernest and Laverne. They seemed to be busy with preparation for the year-end conference.

Both of them are talented Super Elite Warriors. If they want they can defeat the warriors from other factions to raise their popularity. But they are unwilling to do it.

Not long after having breakfast with them. I came across Jonathan who appeared and I don't know when.

"Are you interested in going back to Red City?" Jonathan asked.

Hearing that a hint of surprise flashes in my eyes.

"My hometown?" I asked back.

Jonathan nodded his head before saying, "I'm going there to check the space barrier. If you come with me, you can meet your family and friends."

I nodded my head in understanding. Then I sent a message to Dean Rebecca about my departure. I didn't tell her the truth. Rather, I simply told Jonathan to take me out for practice.

A few minutes later,

We flew across Viper City and moved towards the boundary. The speed of Jonathan is fast. His right hand is on my shoulder.

If I used my flight ability, it would take a few days to reach the boundary.

The boundary is the place that separates the region of Tier-6 cities and Tier-7 and other cities.

Soon, we reached the place. The place where the boundary is is under the control of authorities. No civilians are allowed here.

There is a thick space barrier separating the place. Seeing that Jonathan brought some a token outside and activated it.

A mysterious energy covered both of us. The next second, we passed through the barrier like nothing.

When we appeared in the region of Tier-7 and Tier-8 cities. I instantly felt the lack of world energy.

"The world's energy is poor here," I unconsciously muttered.

"Ha...Ha...Ha...", Jonathan let out a small laugh before saying, "If you enter the inner post, you will find the world energy in those academies is even poorer."

My eyes flickered. I thought the world energy in the academy was rich. But the inner post is a big place. Naturally, that is blessed with superior world energy.

"Let's go," Jonathan said before moving toward my hometown.

A hint of expectation flashes in my eyes. I want to meet Uncle James and Granny Park. Not to forget Elder Thornton and all those people in the Hansen Academy.

2 years ago, I was a mere Trainee Warrior. But I have quickly reached the level of Super Elite. Even the Elite warrior is a powerhouse in this region.

I remember my trip to one of those Tier-7 Cities. Elite Warriors are everywhere there.

Time flies,

In the afternoon, I already saw the familiar terrain. Where the long railroad connects to other cities.

Those times, I had to use the local train to visit the monster zones. Now the times have changed. In that academy, I can enter the dangerous monster zones. Whenever I want.

Time flies,

Soon, we reached the Red City. Looking at the city down below. I feel nostalgic. Now that I'm looking at the city after a long time.

I realized the city was smaller. Not even 1/3rd of the Viper City. Maybe my base was low at that time. So I felt the city itself was large.

Swish!

Then we flew towards the Hansen building. In a blink of an eye, we reached the place.

The next second, my expression changes.

"This?" I raised my eyebrows in confusion. There is no sign of the Hansen Building. Instead, there is some other structure.

And the building doesn't seem to be an academy building. It seemed to be some kind of a shop. I remember the old building was new and built in a U-shaped structure.

"Let's go down below to check," Jonathan said. His expression is not good-looking as well. From his experience, he can tell that something has happened.

We landed on the ground. At this time, people are going about their business here. But no one has noticed our presence.

Then we walked to the building and saw the huge board.

[City Lord Luton's Pill Shop]

Seeing that my eyes turned cold. I'm already feeling bad about this.

Jonathan went forward to strike the conversation. There is an old man inside working as a shopkeeper.

Seeing that I remained here.

The old man noticed a customer was coming. So he quickly went to great lengths.

"Old man, are you the shopkeeper here?" Jonathan asked.

The old man was startled. He felt an invisible pressure from the customer. His expression was dignified. There are not many powerful people here.

Except the City Lord of this city. He can't recall anyone else. So he dare not disrespect.

"Guest, I'm new here. Because the shop was built just 3 months ago," The old man replied in a calm tone.

"What happened to the former building?" Jonathan asked before turning towards Jonathan.

"Former building?" The old man followed his gaze and saw a young man standing not far away from her.

Looking at the young man, he felt the face was familiar. But he didn't dare to waste the guest's time.

"Guest, the former building was an academy. But the chairman of that academy offended our new city lord."

"So the city's new lord at that time destroyed the academy. Even the students and elders were killed during the battle."

"The late Chairman Thornton fought against City Guards until last breath. But he succumbed to the injuries inflicted by our city lord," The old man said with a sigh.

As an old citizen of the Red City, he has fond memories of the Hansen Academy. It's a pity that I encountered bad luck.

At the same time, I heard everything because of my level. A murderous hint flashes in my eyes.

For a second, I released the coercion of the Super Elite. The first wave hit the pill shop.

Boom!

The pill shop building hit hard. The structure collapsed right away. Jonathan was quick enough to save the old man.

But fortunately, there was no one else in the room. The old man fainted because of shock.

"Young Master, don't lose your mind. The coercion will kill the residents here," Jonathan said while pressing his hands on Zack's shoulder.

The coercion was powerful enough to cause the tremor. In a few seconds, everyone in the city felt the coercion.

Even the city lord Luton was alarmed.

"Who is it?" Luton broke out in a cold sweat. He was a middle-aged man in his forties. He is a mere Special Trainee. For a second, he felt impending danger.

Not only him, the most of the red city was alarmed. When the power disappeared. Everyone thought it was an earthquake.

"Who is bold enough to attack the Academy?" I asked myself. I'm sure everyone was aware of my records.

Everyone in the city knew I had entered the Tier-6 City Academy. So a City Lord can't take action.

Unless he has a strong backer behind him.

Jonathan saw through Zack's thoughts. He too felt incredible.

By this time, the destruction of the pill shop had attracted the neighbors' attention. Everyone gathered to see the site.

"Let's go to the City Lord's Mansion," I said to Jonathan. I want to confront the City lord and extract information from him.

Jonathan handed the old man to others. Before we started moving towards the City Lord Mansion.

The Mansion was located in the middle of the city. We got there in the blink of an eye and landed on the ground.

The City guards who are guarding the mansion are terrified. They have never seen someone fly over the city.

We ignored the City Guard and started walking towards the mansion. When we walked into the hall.

I saw a middle-aged man sitting down in his seat. He is interacting with a few people. Upon sensing our arrival, everyone's attention turned towards us.

"Who is Luton here?" I asked.

The middle-aged man was startled. Suddenly, a bad premonition hit his heart. The manager down below was stunned.

"How dare you name our lord?" He said it out angrily.

Boom!

The next second, I released the coercion towards him.

Pfff!

Before he could think further. The manager turned into a bloodmist.

Seeing that Jonathan sighed inwardly. He knows Zack is going to kill everyone behind the Hansen's academy destruction.

Suddenly, he thought of something and his expression changed drastically. He hopes nothing bad happens to Zack's family.

Chapter 660 Sad news

From MC's perspective:

Red City- City Lord Mansion,

The City Lord Luton was terrified. The manager was blasted into pieces. There is nothing left of the manager's body parts.

The others who were near the manager collapsed onto the ground. The aftermath has hit them very hard.

Few of them have already coughing up blood. At this moment, none of them dare to raise their head. Only the City Lord can save their life.

What's more dangerous is that the visitor in front of him only used coercion. When he felt the piercing gaze. His entire back was drenched in a cold sweat.

"Lord?" He said. His voice was shaky. He stood up from the seat and walked down below. As a City Lord, he has more knowledge than local people.

The visitors are at least elite-rank warriors.

On the other hand, I controlled my emotions. I don't want to shoot him down before collecting the information.

"Why did you destroy the Hansen academy?"

"Not only that, you have killed Chairman Thornton, teachers, staff, and students."

"What's the reason behind this?" I asked.

Jonathan felt a hint of icy chill in Zack's voice. He doesn't want to interfere. It will only affect the state of the mind.

"Hansen Academy?" Luton uttered in surprise. Then he recalled the events that happened 3 months ago. A lot of destruction and slaughter of those people part of Hansen comes to his mind.

The people who collapsed on the ground are terrified as well. One of them was able to recognize Zack's face.

Looking at the familiar silhouette who was celebrated as a local hero is standing in front of him. He knew the headmaster was going to die.

Back then many people wondered where the courage of the City Lord came from. Everyone knew the student named Zack Lockwood had entered one of the academies in Tier-6 cities.

Not only him, but others were able to slowly recall. The City Lord Luton was unable to connect the dots. His mind was broken because of fear.

"Lord, it was not me. I was forced by someone," City Lord Luton said in a trembling tone. Fear of death has occupied his heart.

Hearing that I asked, "Who?"

I knew a mere City Lord wouldn't have such guts.

Jonathan's eyes gleamed with a twinkle. He wants to be known as a wall. Because the old monsters of the Giant Tower and Eclipse Academy were taken down as well.

"So who is causing this trouble?" Jonathan said in his heart.

The City Lord Luton resigned to his fate. He simply revealed the truth by saying, "Parazam Hunter League."

Hearing that my expression changes drastically. Jonathan's face becomes dignified.

Both of us looked at each other in solemn gaze.

Before I could ask further, Jonathan flashes and appears before the City Lord. He began to do a soul search.

Scream!

A terrifying scream resounded in the hall.

Those who have collapsed on the ground are shivering in fear. Who doesn't know about the Parazam Hunter League? It is paradise for the Civilian and Rogue Warriors.

Especially for those warriors without any background.

On the other hand, I saw Jonathan's operation and didn't disturb him. I know after hearing that name Jonathan has become serious as well.

A few minutes later,

Pfff!

The City Lord and the rest of them are turned to blood mist. Jonathan didn't feel anything from beginning to end.

Things have come this far. No secrets can be allowed to leak.

Swish!

In the blink of an eye, we appeared in mid-air. Then we started moving towards the White Snow City.

On the way, Jonathan couldn't help but say, "The destruction of the Hansen Academy was not simple. It might be a calculated one."

Hearing that a deep chill flashes in my eyes.

"Parazam Hunter League is different from the academy system. They have their power. Like the Academy, there is a Hunter League in the inner post as well."

"Which also controls important resources in all outer posts. From time to time, rare and important resources appear in some outer posts. Those were quickly plundered by the Parazam Hunter League"

"They were then sent to the main branch. So we need to investigate who is behind this act," Jonathan said.

But my mind is something else.

"Jonathan, what about my family?" I asked.

Jonathan's eyes flickered before saying, "They are safe. Because your uncle is a member of the Army Federation. The inner post also has a Federation."

"So the local league won't dare to touch your family. It's just a pity, the Hansen Academy had you as a baker."

"But your backing is not enough to shake a branch which is the Parazam Hunter League."

"And forget about the big tree that operates in the Inner post," Jonathan added.

At the same time, he noticed the expression of Zack. He also lied about the family. He didn't want to cause any psychological burden.

But the issue has come to this. So he thought it was time for Zack to know the difference in strength.

On the other hand, various thoughts flash in my mind. I was careless. I should have maintained contact with the Hansen Academy.

They must have felt helpless during their struggle.

"Sigh"

Jonathan signed. He decided to reveal a few truths as well.

"The City Lord and his troops were not alone in destroying the Hansen Academy," Jonathan said.

Hearing that I turned towards him.

Jonathan looked into my eyes and said, "From the City Lord's memory, I saw the remnants of Crimson Hall. They took part as well."

"Crimson Hall?" I gritted my teeth in anger.

I should have eliminated the roots. I didn't expect them to have the guts to do this act. In the end, they took the advantage.

"Don't worry, we will find their whereabouts. In that way, you can vent your anger," Jonathan said.

Hearing that I nodded my head. As Jonathan said, I don't have the power to shake the branch or tree. But I can weed out the grasses on the ground.

"Crimson Hall!"

"Are Ella Downs and Sallie Mills's family part of the remnants?" I asked in my heart.

If they have a part in this act, then I don't mind killing them as well.

Soon, we reached the white snow city. The city was not even half the size of Red City.

In a blink of an eye, I appeared above my home. I felt the pressure of living.

"You go and meet them," Jonathan said.

"What about you?" I asked.

"I'm going to investigate some places. I'll come back later. You can spend time with your uncle" Jonathan said before disappearing from the spot.

What he didn't tell was he had already got the whereabouts of a few remnants from City Lord's memory. Because he had shady dealings with them.

If he had told Zack, he would have followed him.

On the other hand, I landed on the ground and started walking towards the door.

Knock!

After arriving, I knocked on the door. I heard footsteps nearing the door.

Creak!

When the door was opened. I saw a person standing in front of me.

"Uncle James," I said.

James was stunned in disbelief before his old eyes recognized Zack's face.

"Zack you are back," James said in a trembling tone.

"It's been a whole year," James added.

Sigh!

I let out a sigh before saying, "Uncle, there is a big boundary separating the place. Normal communications are hard to establish. And it's difficult to leave the academy as well."

James nodded his head in understanding before greeting him inside.

Walking into the living room, I felt nostalgic. Then suddenly, I started walking towards Granny Park's room.

James' expression is dignified. A hint of worry appeared in his eyes.

When I walked into the room. I saw the room was empty. There is no sign of Granny Park.

A bad premonition hits my heart.

"Where is Granny Park?" I asked Uncle James.

Looking at his sad expression, I feel something bad.

"Zack, you have to control your emotions."

"Ms. Park died a few months ago," James said in a sad tone.

Hearing that my heart was in turmoil.

"How?" I asked.

I knew she was old and weak. But I always thought she had at least a decade to live.

"She died because of sickness. The healer said her heart was weak. A few days after getting treatment, she died in her bed," James said.

Hearing that I don't know how to react. I still remember her fond memories. The memories of the orphanage flooded my mind.

Unknowingly, tears began to stream down. in my face.

James felt sad as well. His eyes become wet.

Meanwhile,

Jonathan is moving towards the nearest big city. Where one of the remnant's family is staying. After destroying the Hansen Academy, people looted the resources there.

The family living there is one of them.

One hour later,

He reached the city. The City is similar to the Red City in size. He looked down on the city from above.

In the blink of an eye, he reached the ground and disguised himself as a local.
