Chapter 661 Willow City

Willow City:

In the rich area of this city, a newly built mansion was located. The remnants of the Crimson Hall are living here.

After the incident at Hanson Academy, they got resources to build their places.

Inside the mansion, the patriarch of the family is discussing with others about future development.

"Patriarch, I think we should slow down our development," One of the elders raised the point.

Hearing that old man patriarch furrowed his eyebrows. He is an old man in his sixties. When Crimson Hall was in its heyday. Their family is considered to be one of the largest families in the Tier 7 city.

They used to be stronger than other medium-sized families. Now they have been reduced to small families in the Tier-8 City.

The old man was unwilling to live like this. Not only him but there are other remnant families as well. He had already discussed joining hands with others.

"Patriarch?" The elder called out.

The patriarch snorted coldly.

"Elder, you are too old to handle the family matters. You should retire from your position," At this moment, a middle-aged man walked into the room and said with a smile on his face.

The middle-aged man is the son of the old patriarch. He plays a key part in the family development of the city.

"My son is the right elder. You can leave this place," The old man said in a kind tone.

Hearing that elder who raised the point earlier left the place with a bitter smile.

"Coward," The middle-aged man sneered.

"Father, these people have lost their spine. Now they don't face any hardships," The middle-aged man said.

"Sigh"

"Ronald, my son. You did good by bribing the local City Lord. Otherwise, we wouldn't have this place to build a mansion," The old man said with a smile.

Hearing that the middle-aged man named Ronald got excited.

"Father, I just got permission from the City Lord to hire a few warriors for our family," He said with a smile.

Hearing the faces of other elders changes drastically. They had a similar mentality to the elder who left a few moments ago.

But this reaction didn't go unnoticed under the Patriarch's eyes.

Even Ronald saw the displeasure in many of their faces. His heart boils in anger. He is going to be the next family head.

In his opinion, these people should flatter him. Instead, they are showing disappointment on their faces.

Suddenly, one of the elders said, "Patriarch, it's not been a year over. Since the Hansen Academy was destroyed."

"What if...?" The elder stopped the sentence midway.

"What do you mean?" The old man asked with a hint of anger in his eyes. He wanted to forget about the incident.

But these people keep reminding him. Ronald's face is distorted as well.

The elder sighed before saying, "The Hansen Academy's famous student is still alive."

"What if he comes back? If he knows our location, then it would be troublesome," he added.

"Ha...Ha...Ha...", the old man laughed until a teardrop fell from his eyes.

"You are talking about that kid who got into the Tier-6 academy," The old man said.

Then he thought of something before saying, "We don't have to worry about him. Because there is someone who is going to cover the sky for us."

"Besides, the attack on the Hansen academy was not planned or started by us. It's the Parazam Hunger League member's plan."

"You don't know the strength of this hunter league. As far as I know, they are not just a local adventure league, they are big forces."

"Even those academies in the Tier-6 cities have to take a step back. The Hanson Academy student was nowhere near those big forces," The old man patriarch said in a solemn tone.

Hearing that everyone's faces turned bright. No one thought about this before. Finally, the elder realized the patriarch had backing.

"Harumph," Ronald gave a cold snort.

"Do you think my father had no plans?"

"The esteemed guest has assured us. No one from the Tier-6 academy will bother us," Ronald said with assurance.

Hearing that elders became assured. Now they have let go of their worry. After the end of the discussion, Ronald walked out of the mansion.

There was a big smile on his face. He was happy that the patriarch had agreed to his proposal.

Then he decided to celebrate this success. He decided to eat at the famous inn. But he doesn't know that someone else has spotted him.

When he was ready to go with others. Jonathan appeared out of nowhere, grabbed his shoulders, and disappeared from the spot.

Ronald was terrified. His face has lost blood. Before he knew it, Jonathan had dragged him out of the city.

Tud!

Jonathan put his body on the ground. Ronald stood up in disbelief. When he looked around. He saw this place was not in the city.

"Where is this?" He said in a horrified voice.

Suddenly, someone appeared before him.

The person is none other than Jonathan. Seeing that Ronald almost peed himself. Except for the esteemed guest, he saw no one who could fly in the air.

Jonathan looked at his terrified face before asking, "Are you Ronald?"

Ronald was stunned for a second before nodding his head. He doesn't know the identity of the warrior in front of him.

"Good"

"I'm from the Parazam Hunter League," Jonathan said.

Hearing that terrified Ronald was shocked before joy returned to his face. For a second he thought he was a goner.

"Sh!t"

"He was from the same place as the esteemed guest," Ronald said in his heart.

The next second, he thought of something.

"Maybe the esteemed guest has sent this person," He said in his heart.

"Lord, who are you?" Ronald asked.

Jonathan saw through his thoughts.

He said, "I'm from the audit department of the Parazam Hunter League. I heard your family is using the name of our organization to develop."

Jonathan was dumbfounded.

"Imposter? He uttered in surprise.

Then he realized something was wrong. The next second, his expression changes drastically.

"Lord, we don't know anything about the imposter. But the identity of the imposter is real. He is a member of the Parazam Hunter League," Ronald said in a serious tone.

At this time, his entire back was drenched in sweat. The powerhouse in front of him was real. He is facing invisible pressure from him.

Jonathan snorted before releasing a small part of the pressure.

Ronald collapsed onto the ground. The pressure is breaking his body. Blood escaped from his mouth.

Ronald felt the breath of death. Any wrong word from now on will cost his life.

Jonathan removed the pressure before asking, "Tell me the identity of the impostor. Do you have any pictures of him?"

Hearing that a trace of clarity returned to his eyes. Then he slowly raised his sci-fi watch to show the image.

"His name was Henrick," Ronald said.

Jonathan set his gaze on the image. In that image, a blonde-haired person is shaking hands with someone.

Jonathan noticed the dress. The person in the image is wearing a dress which is worn by the elite members.

Elite members are part of the inner circle. Those people usually have business in the Tier-6 cities. What do the inner circle members have anything to do with Crimson Hall?

He is missing the connections. Ronald was on the verge of a mental health breakdown.

Jonathan thought for a moment before releasing the full coercion.

Pfff!

The next second, Ronald turned into a blood mist.

Jonathan looked at him before disappearing from the spot. He brought Zack here to meet his family.

But he never expected to uncover such a plot. He didn't expect the Parazam Hunter League to poke its nose into the master's business.

As far as he knows, the person must be from an influential family. It's not easy for a family to become part of an inner circle.

"Is this act of a certain young master of a family or part of a bigger scheme?" Jonathan said in his heart.

He is moving back to the white snow city. First, he is going to bring Zack to the willow city. Then let him annihilate the remnant's family.

Then he is going to uncover the truth behind Parazam Hunter League's involvement. He hopes it's not connected to the main branch, the inner post.

Meanwhile,

The death of Ronald alarmed the family. The old patriarch couldn't believe his eyes. The soul card of his son was broken.

It happens in case of death. So the old man was in disbelief.

"Who killed my son?" He asked in a trembling tone.

A few minutes ago, he agreed to his proposal. So what happened now? He knew his son was going to celebrate his success.

Is there someone who wants to block the rise of their family? The old man thought it must be the case.

The city lord is not only favorable to their family. But also to some other families in the city. So the old man decided to meet the City Lord.

Chapter 662 Truth about parents

From MC's perspective:

After grieving the demise of Granny Park, I entered my former room to take a bath.

20 minutes later,

I changed to my old comfort clothes. But they didn't fit my size. Then I decided to wear it for some time.

Lying down on the bed, I couldn't help but recall my mistakes. After destroying the Crimson Hall, I was so eager to join the Academy that I almost forgot about the remnants.

To be honest, I put most of my trust in Jonathan. I believed in him. But in the end, even he didn't expect the counterattack from the remnants.

"Who is behind all of this?" I said in my heart. Hanson Academy was gone. It's impossible to turn back the clock. At least, I can kill the people who are responsible for this incident.

The next morning,

After completing the morning routine, I went to take a bath.

Later, I changed to new comfort clothes. I don't want to practice here because of the lack of world energy.

After getting ready, I went downstairs and arrived in the living room. Uncle James was here making tea.

"You are here," James said in a normal tone. Then he asked him to sit down. James was aware of Zack's mental state.

Zack's mind was in turmoil not only because of Ms. Park's sudden death. It is also because of Hansen's destruction. He didn't have a brief chat about this yesterday.

Now he wants to have a conversation with Zack about everything including a decade-old buried secret in his heart.

"Zack, I was not in the city when Hansen's destruction happened," James said.

Hearing that I clenched my fist.

This scene didn't go unnoticed under James' eyes. He sighed inwardly. He knows the news must have hit hard.

"You must understand you can't control everything around you. Someone dared to touch Hansen. Which means they are not afraid of you or your academy."

"So you have to be careful in the future," James said.

"Don't worry, Uncle James. I know my limit. It's just that I was careless. I thought no one was there to pose a threat to Hanson Academy," I replied to him.

After saying that I let out a sigh. To be honest, today I feel a lot better than yesterday. Now, I have some clarity in mind.

James saw Zack's reaction. Seeing that he was doing fine, he decided to reveal an important truth.

"Zack, I want to tell you something more important," James asked.

Hearing that I nodded my head at him.

"It's about your parents. You have always wanted to hear about your parents right? Now I'm going to tell you some truth," James said.

But his words fell like a thunderclap in my ears. I grew up in an orphanage. So this topic was nothing new to me.

But Uncle James said before that my parents are normal adventurers. They have died in a monster horde attack.

"So what is he going to reveal?" I said in my heart.

"When I was working in that old border town. I have cross-checked your parent's identity. I found out it was fake background information," James said.

"It's impossible to forge such information. It can be only done by big influences," He added.

Hearing that I don't know how to react for a moment.

Then I asked, "What else?"

James then started to speak about the meteor fall incident that happened at Maple City. At that spot, he found Zack as an infant baby.

A few minutes later,

"I also know some classified information. But I can't leak that information to you."

"I believe your teacher will brief you at the right time," James said.

He was no stranger to classified information such as outer posts and inner posts. After spending so many years in the Army Federation. He came to know about a few things. He knows that a huge war is going on.

The region is divided into outer post and inner post because of that war.

Which is why he had accepted when that mysterious person came to accept Zack as his student.

On the other hand, I felt my mind loaded with information. I stood up and started walking to the exit.

At this moment, I need a fresh breath of air.

After walking out of the home, I looked around before appearing in mid-air. Then I started moving towards the small hilltop.

Soon, I reached the hilltop and landed on the ground.

From this place, I raised my head to look down at the small city below. I feel relaxed while appreciating the view.

Then I sat on the bedrock before recalling the conversation. Uncle James seemed different. Earlier, I thought he was ignorant and didn't know much about the inner post.

But now that I look back. I realized he was not ignorant but he was not allowed to spill the information.

When it comes to my parents. I don't know how to react. According to Uncle James, my parents are not ordinary people. Then how come they die from the monster horde?

If they are from certain forces, then the monster horde should have been nothing to them. I guess he was wrong about this one.

Shaking my head, I pushed down these thoughts.

Swish!

When I was pondering, I felt someone appear behind my back.

The person is none other than Jonathan.

"You have found a nice place to enjoy the city view," Jonathan said.

Hearing that I revealed a small smile on my face.

Jonathan saw Zack in a better mood.

He said, "I found the culprit behind the Hansen attack."

I looked at him and asked, "Which academy is it?"

Jonathan shook his head before saying, "It's a big fish. The power of the fish is enough to cause a headache to master.

Hearing that my expression changes drastically. Before I could ask further.

Jonathan said, "An elite warrior named Henrick gave the order to the City Lord. Not only that, he also supported the remnants to attack Hansen."

"Henrick," I etched the name in my heart.

"He is from the Adventure Union. On top of it, his family is part of the inner circle. I have yet to find their connection to the Crimson Hall," Jonathan said.

Seeing Zack's worrying expression, he further added, "Don't worry, I think the person named Henrick had acted independently. I guess it has nothing to do with the Adventure Union."

Hearing that a hint of relief flashes in my eyes.

"Now, let's go to the willow city. You can take care of the remaining family," Jonathan said.

Then we both started moving towards Willow City.

Soon, we reached the willow city. When we arrived above the newly built mansion. I saw the place was crowded with people.

"I killed the young master of this family to extract information," Jonathan said.

Hearing that I nodded my head.

"You can kill the old patriarch. That guy was the main reason behind the attack. He brainwashed other family elders to support his goals," Jonathan said.

Swish!

In the blink of an eye, I landed on the ground.

The people who were on the ground were surprised by my appearance.

The next second, I released a small coercion on them.

Pfff!

The pressure brought everyone to their knees. One by one the warriors collapsed onto the ground.

Some strong warriors spilled blood as their internal organs were injured. Others fainted on the spot.

The next second, I walked into the building. Upon seeing my arrival, the family members tried to block me.

Pfff!

But everyone turned to blood mist. Then I inquired about the place of the patriarch from one of the servants.

The next second, I rushed towards the place. The room was located deep inside the building.

When I got here. I heard people's conversations.

Boom!

The next second, my coercion blasted away the room walls.

The aftermath has hit the elders inside.

Argh!

One after another they let out agonizing screams.

"Who is it?" The next second, I heard a deep voice.

Hearing that my eyes flickered. This must be the voice of an old patriarch.

I slowly walked into the room. Then I saw elders lying on the ground except one.

That person is the old patriarch seated in the main chair.

"Who are you excellency?" The old man asked.

He saw that coercion alone disabled everyone.

But when he saw the face. He felt it was a familiar voice. Then the image of Zack Lockwood comes to his mind.

It was at that time when the late headmaster shared the image and information with everyone.

But now looking at the person in front of him.

A look of understanding dawned on him.

"So you are back," He said in a trembling tone. His whole body started to shake.

Yesterday, his son died. Now the whole family is going to accompany him.

On the other hand, I looked at the old man's terrified expression. There is no need to extract information. I decided to kill everyone.

Pfff!

The next second, the old man's body exploded into pieces. In the blink of an eye, all the elders were dead as well from my coercion.

Chapter 663 Coming back to the academy

From MC's perspective:

After killing everyone, I felt more relieved. I should have done this before. Then shaking my head, I walked out of the mansion.

Outside, the condition was even worse. There are mutilated bodies everywhere. Then I saw Jonathan standing leisurely under the tree.

"Let's go and meet the City Lord. Except the women, children, and elderly. Everyone is dead," Jonathan said.

Hearing that my eyes flickered with complex emotions.

Jonathan saw through his thoughts.

"We will ask the City Lord to provide them with the shelter," Jonathan added.

Hearing that I nodded my head at him.

Swish!

Then we rose from the ground and in a blink of an eye, we came to the huge mansion. When we got there.

The patrol guards are not allowed to enter inside. But we ignored everyone and went directly inside.

After witnessing our flight ability, the guards are petrified. When we walked into the hall. We saw the City Lord was already waiting for us.

"Two, esteemed Lords. Thank you for coming to our city," The City Lord said.

There is no one else besides him.

"You know us?" Jonathan asked.

The City Lord broke out in a cold sweat before replying, "I received the death news of Red Stone City's City Lord some time ago."

"Now the next heir of the former crimson hall's family is dead. So I guessed 2 Lords might be coming here."

An appreciative look flashes in Jonathan's eyes.

He didn't expect this City Lord to be this attentive.

"Well, don't worry. We won't do anything to you. But you have to take care of Crimson Hall's elders, women, and children," Jonathan said.

Hearing that, the City Lord shuddered. His bad premonition came true. When he first heard about Ronald's death. He knew former Crimson Hall members' family would meet their death soon.

But he didn't expect the situation to come true.

Then he fiercely nodded his head.

"Alright, we can leave. I don't want to waste time here," I said to Jonathan.

Then we both left the place.

Flying in the mid-air.

Jonathan asked, "It would take some time to investigate Henrick. What do you want to do now?"

My eyes flickered.

I replied, "I want to go back to the academy."

Jonathan was surprised. He thought Zack would spend more time with his family. Then thinking about Hansen's destruction.

He understood the reason.

Soon, we reached the white snow city. Jonathan stayed back. I entered the house to bid goodbye to Uncle James.

"Are you leaving?" James asked. He thought Zack would stay here for some time.

"Yes, uncle. I decided to go back," I replied. I knew it must be hard for him. But I have to wipe out the remaining remnants.

"Okay, but don't forget about your parents' identity. If you have time, you should look for their background," James stressed.

He remembered It was reported in the Army Federation that many descendants from influential forces had entered many outposts to train.

At that time he thought the information was fake. But only after coming across Zack's parents' background check. He understood the truth.

On the other hand, I shook my head in denial. I still don't believe his words. But for his sake, I nodded my head at him.

Then I went back to my room to pay for things.

A few minutes later,

I appeared outside after bidding goodbye to Uncle James.

Meanwhile,

Beyond the boundary, there is one of the luxurious Tier-6 cities. This city is different from other Academy's Tier-6 cities.

Here the main force is the Parazam Hunter League. There are other small and big merchant organizations operating in this city.

Apart from this, there are families connected to these organizations established in this city.

Among them, the Palmer Family is one of the major families connected to the Parazam Hunter League.

People from this family are working for the Parazam Hunter League. The head of the family is part of the inner circle.

At this time, the head of the family is visiting the Parazam Hunter League's office. But before he could enter the office.

He saw his son rushing towards him. Looking at his son's worried expression. He paused his movement.

"Henrick, what are you doing here?" He asked.

"Father, I heard someone wiped out former Crimson Hall members," Henrick said in a solemn tone.

He is aware of Hansen's destruction. He was the one who ordered it. But before doing that he had to make sure that no trouble would follow.

Palmer furrowed his eyebrows. He recalled the events that happened 3 months ago. At that time, his son had collected various treasures from some source.

But the source demanded the removal of his enemies instead of money. To prove himself, his son readily agreed to it.

Now, seeing that his son is having trouble. Palmer has guessed his son has missed something in that plan.

"You told me there is no backer for that small organization. So what happened now?" He asked.

"This?" Henrick hesitated. Looking around, he saw people roaming around here. Any strong warrior can easily listen to their conversation.

Palmer saw through his son's thoughts. He then decided to return home with his son.

10 minutes later,

In his study room, he asked his son again.

Henrick answered, "The Hansen Academy was small. But one of their students has managed to get into Viper Academy."

The next second, Palmer's expression becomes dignified. He is not thinking about the student. But about the Viper Academy.

The Viper Academy is known for protecting its students. On top of it, the Viper Academy has a strong backer behind them.

"Army Federation," He said in his heart.

His expression turned ugly. The atmosphere becomes solemn for a moment.

A small sweat bead appeared on his forehead.

"Father, what happened?" Henrick asked.

Palmer's thoughts returned to reality.

He looked at his son and said, "Don't worry, that student may not know you. He must have heard about the destruction of the academy."

"He won't be able to find you," Palmer said with a smile.

Hearing that Henrick felt relaxed. But they don't know both have heavily miscalculated.

When Henrick left the room. Palmer frowned.

Even though he assured his son. He doesn't want to make the slightest mistake.

He then ordered his subordinate to come.

A few minutes later,

A Super Elite Rank Warrior walked into the room.

"Family Head," He greeted Palmer.

Palmer looked at him before saying, "I want you to collect details about a student named Zack Lockwood studying in the Viper Academy."

Hearing that Super Elite Warrior nodded his head before leaving the room.

Time flies,

Jonathan and I returned to the Tier-6 region a few hours later. Soon, we reached the Viper Academy.

After landing in front of the dormitory, I started walking towards my room. On the other hand, Jonathan left to continue the investigation.

The next day,

I woke up earlier. After doing the morning routine, I entered the training room to cultivate.

After arriving in the middle of the platform, I sat down cross-legged. Then I took the Class-6 Monster Core from my storage ring and held it in my hand.

Then I started to run the blood element method. The next moment, the bloody rune in my mind starts to flicker.

Slowly, I started to absorb the monster's energies from the monster's core. When the energy entered my body.

A red light appears above the bloodstream.

Then the red light starts to convert the monster's core energies into mysterious white energies.

The next moment, the white energy starts drilling into my bones. A heart-wrenching pain quickly followed.

Right now, all of my bones are dyed red. I don't know what the next operation of the blood element method is.

Slowly, I saw the process. When the skull was completely dyed red. I saw the process was continued again. Like a 2nd layer. I feel more blood energy from the 2nd layer.

Seeing that a hint of surprise flashes in my eyes. If my guess is right, then I can draw more formidable energy from bones.

Then I continued to repeat the process,

3 hours later,

The monster core in my hands crumbled into pieces. Then I opened my eyes to check myself.

I saw black filth covering my skin. Then I stood up from the platform and walked out of the training room.

Then I went to take a bath.

20 minutes later,

I changed to an academy uniform. After getting ready, I walked out of the dormitory room. Then I started walking towards the dining hall.

On the way, I couldn't help but think of yesterday's event. I thought the trip to my hometown would be fruitful.

But instead, it wounded my heart.

"Elder Thornton, students, teachers, and staff," I said in my heart.

I paused my movement before removing the distracting thoughts from my mind. I have to wait for Jonathan to complete his investigation.

Then I resumed walking towards the dining hall. When I arrived at the dining hall, I saw Laverne and Ernest. Seeing them made me feel better.

Chapter 664 Palmer Family's end

From MC's perspective:

Dining Hall,

"What's your goal?" Ernest asked.

We were eating in the corner of the dining hall. There are not many people around us. So I looked at Ernest and asked back, "What do you mean by that?"

Suddenly, Laverne thought of something before saying, "He is thinking about plans. He wants to become an elder in the academy."

Hearing that a look of understanding dawned on me. At the same time, my eyes flash with complex emotions.

I looked at two of them before saying, "I'm going to enter the inner post."

Hearing that both of them were not surprised. At this point, both were clear that Zack had a special background.

"Inner post uh?" Laverne said with a sigh.

"I don't know much about it. But as far as I know, the inner post is different from our region. That place is many times dangerous."

"Since you have a backing. You can develop smoothly," Ernest said.

Hearing that I don't know whether to laugh or cry. I recalled the words of Jonathan. From those words, I'm certain that there is extensive training awaiting me.

We then continued to talk about a few other things before finishing the plate.

After having breakfast, we got separated.

I decided to visit the monster zone as usual.

A few days later,

The subordinate sent by the Palmer family arrives in Viper City. He then found a famous inn to settle in. Then he starts to gather information about Zack Lockwood.

What he didn't expect was the popularity of Zack Lockwood. Which is no less than that of Elite members of the Parazam Hunter League.

After going a few more rounds to gather intel. He came to his room at night. But his expression was dreadful.

Sitting down, he couldn't help but fear the date of the Palmer Family. Especially the future of young master Henrick.

From the gathered intel. He came to a good understanding about the student named Zack Lockwood.

"He is not only popular. But has the backing of the dean and the faction head," He said in his heart.

Not long ago, the Viper Academy did well in the student exchange meet. Zack Lockwood was representative of the academy.

What a big honor! He became thoughtful. He doesn't know whether the Palmer Family can afford to offend this person.

From the Palmer Family Head's task. He can see that the family head wants to decide after knowing about Zack Lockwood.

He hoped that the family head would give in. The person and the people behind him are too strong for the Palmer Family.

The next day, he left Viper City and rushed his way back towards the home.

Steel City:

After a few days of rushing back, the subordinate entered the Palmer Family's household. But before he could meet the family head.

He came across Henrick Palmer.

On the other hand, Henrick Palmer quickly recognized the person. But he didn't know about the task. So he ignored him.

The Sub-ordinate heaved a sigh of relief before rushing towards the study room.

Coincidentally, Palmer was in the study room when he noticed the arrival of his subordinate.

Then he allowed him to enter inside.

Palmer saw the facial expression of the Sub-ordinate. Seeing that he frowned.

"What happened?" He asked.

The Sub-ordinate showed hesitation before starting to tell him about the intel he had gathered.

A few minutes later,

Palmer's expression turned ugly as well. He didn't expect anybody to have such a background.

If he had known this earlier, he would have stopped his son from associating with Crimson Hall's remnants.

But his son's greed surpassed the rational thoughts.

"Not good," Palmer said to himself. If that warrior named Zack Lockwood wants to take revenge, then their Palmer Family would be over.

The only force that could deter the Viper Academy is the Parazam Hunter League. He intends to seek help from them. He stood up from the seat to leave.

Boom!

The next second, someone broke into the study room.

"Who are you?" The subordinate asked. Before he could attack.

Pfff!

His head burst into pieces like a watermelon. Blood splattered in different directions. Some of them splashed over Palmer's face.

Seeing Palmer's face filled with horror.

The attacker was none other than Jonathan. After killing the subordinate, he turned towards Palmer.

"Your son should have stayed away from unwanted troubles," Jonathan said.

Hearing that Palmer felt a thunderclap ring in his head.

"You are," He pointed his trembling hands at him. No need to guess. He realized the person had something to do with Zack Lockwood.

His son was staying at home. Thinking about his son's condition right now. His face lost all blood.

"You are right," Jonathan saw through his thoughts.

"Your son is dead," He added.

Hearing that Palmer lost his control. He burst out in anger. Before he could attack. He met with the same fate as his subordinate.

Jonathan left the room and walked out of the mansion swiftly. There is also one dead body lying in a corner of the mansion. It's the corpse of Henrick.

Unlike others, he didn't know how he died until the end.

A few minutes later,

Jonathan left the city. But he didn't leave right away. Instead, he found a random place to stay. He wants to know the aftermath of the incident.

After leaving Zack, he came to this city right away. Then he learned about the Palmer Family. As he had expected, the descendant of the Palmer Family had a casual relationship with the Crimson Hall's remnants.

It's not connected to the upper echelon of the Parazam Hunter League. But still, he wants to see whether anyone is going to jump out.

A few hours later,

The death of the Palmer Family Head and his son detonated the city. Everyone knows that the Palmer Family is part of the inner circle of the Parazam Hunter League.

However, the killer didn't destroy the Palmer Family completely. But this act is tantamount to scratching the back of a tiger.

The other small and medium-sized forces are waiting to see the response of the Parazam Hunter League.

Meanwhile,

In the middle of the steel city, there is a huge towering building.

The outer post-1012 manager of the Parazam Hunter League was disturbed by this sudden news. His post is equal to any dean of the Academy.

He has the authority to dispatch people and resources.

When he walked out of his room. He was greeted by the elders. Seeing them, he wasn't surprised.

Instead, he asked, "Who did it?"

The Parazam Hunter League has its intelligence department. So he was expecting them to answer.

But all the elders looked at each other before shaking their heads.

Seeing that manager frowned. It's not a secret that the Palmer Family is under their organization. So the killer must have been aware of the relationship.

Despite that, such a thing took place. The manager thought of something before saying, "See, whether the Palmer Family has offended anyone. Especially the Palmer Family Head and his son."

Hearing that the elders left the place. Since there was no intel, there was nothing to discuss.

Shortly after, many people sprung into action. The Palmer Family members, servants, and guards are interrogated by Hunter League People.

A few hours later,

A comprehensive intel was placed in front of the manager. After reading it, he raised his eyebrows in confusion.

There was no connection found when tracing Palmer Family Head and his son. But when the intel team followed the traces of Subordinate.

It was found that he was last checked in the Viper City. Viper City is under the Viper Academy.

The Hunter League has spies in all cities. The purpose of the subordinate there was not confirmed yet.

The manager realized there was a missing link.

If they find out what the Palmer Family's subordinate was doing there. Maybe they can find the missing link.

He doesn't want to ask Viper Academy before having all the information. Then he instructed the intel team to collect missing information.

A few hours later,

Jonathan again secretly entered the city to observe. He quickly found out that the Parazam Hunter League was looking for a killer.

But they have no information whatsoever. After seeing that there were no loose ends, he left the city.

At the same time, there are many spies active in Viper City. They are investigating the Palmer Family's subordinates.

That person had visited the city with purpose. They are looking at whether he had met with anyone before leaving the city.

The next day,

Jonathan met with Zack when he walked out of the dining hall.

"Is there any news?" I asked with a hint of expectation in my eyes.

Jonathan nodded before starting to explain.

A few minutes later,

I relaxed my eyebrows. But I revealed a bitter smile on my face.

"For getting treasure that guy had colluded with those remnants," I said in a cold tone.

The reason was unacceptable. But if Jonathan says so, then there must be truth to it.

"The Hunter League members are investigating in full swing. You should stay in the academy," Jonathan said.

Hearing that I nodded my head at him.

Chapter 665 Manager Shaw's visit

From MC's perspective:

After getting information from Jonathan, I returned to my room.

On the other hand, Jonathan has other thoughts. For the time being, there is no chance for the Parazam Hunter League to find the reason.

But if they want to dig deeper, they might find the involvement of the Crimson Hall's remnants with the late Henrick Palmer.

Jonathan frowned. There is always a method to stop them. But he doesn't want to spoil the current atmosphere of this Academy.

Zack is not going to stay here forever. Until the year-end conference, he wants this academy to be peaceful.

Then he left the academy and decided to stay in Viper City.

...

Steel City:

A few days passed,

Everything is going normal outside. But not inside the Steel City. The Palmer Family and his son have brought sleepless nights to other families operating under the Hunter League.

Manager Shaw tried to calm everyone. But those families wanted an answer. If this incident is left unsolved.

Their enemies might take advantage of this weakness.

Inside the Hunter League building, Manager Shaw avoided meeting everyone. Especially the elders associated with the families.

If someone comes up with a solution, he would be glad to hear it. On the other hand, everyone urges him to find the culprit.

A hint of gloominess flashes in his eyes.

It's not that he is neglecting the issue. But no concrete intel has been found so far.

Beep!

Suddenly, a notification sound broke his thoughts.

He then saw someone asking to see him.

Seeing that he allowed the person to enter inside.

Then he saw one of the inner circle elders walk in.

Seeing that he frowned.

"What happened?"

"I have told you guys to wait?" Shaw said, looking at them.

The elder revealed a bitter smile before saying, "Manager, this is something important. We saw a suspicious person in front of the Palmer Family."

Hearing that Shaw eases his eyebrows before letting the elder speak.

The elder sighed in relief. He thought the manager wouldn't be willing to listen.

Then he said, "Manager, the suspicious person had contacted Henrick Palmer a few months back."

"We thought it wasn't an issue. But this person came here to ask for help. Someone powerful has eliminated their organization's family not long ago."

A quick gleam flashes in Shaw's eyes. At least this information is better than nothing.

Seeing that the manager is interested. The elder continued to speak.

10 minutes later,

"That's it," Shaw muttered to himself. If the information shared by the elder seems to be true.

Then the death of the Palmer Family's Head and son is connected to the Viper Academy. The Palmer Family's Sub-ordinate had also last visited Viper City before his death.

"Okay, you have done a good job," Shaw said.

The elder nodded before leaving the spot.

"Viper Academy uh?" Shaw muttered to himself.

He knows that everything might be connected to the student named Zack Lockwood. Those families were perhaps eliminated by him.

But he doesn't think that same person has carried out the assassination. The Palmer Family Head was found dead in the study room.

No one has seen any outsiders entering the room. So he doesn't think Zack Lockwood has done it.

But he thinks Viper Academy or Viper City is connected to the death. If he can find out the purpose of that Subordinate's visit to Viper City.

Then the truth will be revealed.

Not long after, the spies working in the Viper City can collect small intel.

Knowing that Manager Shaw's mood became bright. When he learned about Intel.

"Ha...Ha...Ha...," He let out a laugh.

"A small-town kid has inflicted damage to their hunter league. Though it's an act of revenge. But where is the face given to their Hunter League," He gritted his teeth in anger.

He doesn't like this feeling at all. Finally, he decided to visit the Viper Academy tomorrow and ask for an explanation.

Normally, there is no relation between the academies and the Hunter League. Both are working on different paths.

But this time it's unprecedented. The Viper Academy is not an ordinary academy. He knows it's a part of a big force like them.

So he has to visit in person to show respect. Otherwise, if people found out the Hunter League was interfering in the academy. It might bring further damage to their reputation.

This news was only known to a few elders. Because there is still a missing dot. As he guessed before, the warrior named Zack Lockwood was not involved in the assassination.

According to intel, that kid was in the academy during the time of the assassination. So someone must have done it on his behalf.

Apart from the academies, no other forces have the guts to hit their Hunter League. So he thinks someone from the Viper Academy has moved.

It must be either the Special Faction Head or people trained by the academy.

...

Viper Academy:

The following day,

Everything is happening as usual. Rebecca appears in her office and starts to look at the morning reports.

"Hmm," She raised her eyebrows as she noticed something strange.

"The Giant Tower, Eclipse Academy, and Red Moon Tower have completed their preparation for the year-end conference."

"The internal competition is now taking place in the White Palace. But there was no movement in the Silver Clouds Academy," She said to herself.

The information was collected by the spies. They reported that no major event is taking place in the Silver Clouds Academy.

She furrowed her eyebrows. Each academy has some kind of backing. They have an Army Federation.

Similarly, the Silver Clouds have made some connections with the major families in the inner post.

So she didn't take them lightly.

"There must be some reason," She said in her heart.

Suddenly,

She received a footage clip where she saw the Aircraft of the Hunter League nearing the academy space.

"What is going on?" She uttered in surprise.

She then allowed them to enter inside.

The Academy and the Hunter League won't mix. So looking at the aircraft, she is having a bad feeling about this situation.

Then she continued to look at the video. The aircraft then slowly landed on the ground.

But the next second, her expression changes drastically.

"What is he doing here?" She asked herself.

Swish!

She disappeared from the spot.

Outside,

Manager Shaw is looking at the surroundings after landing.

Swish!

In the next second, multiple figures appeared. They are the faction heads of the different halls.

Shaw's eyes flickered. His gaze swept across everyone including Carlos Kent. When his gaze fell on Carlos his eyes paused for a moment.

Before coming here he had done his work. So he knows who Carlos Kent is. Zack Lockwood is a member of the Special Faction. Carlos Kent is the Special Faction Head.

Swish!

Then Rebecca appeared.

Looking at Shaw. She felt some kind of conspiracy brewing.

"Manager Shaw, what made you come here?" She asked.

Not only she, but others are looking at this with confused expressions as well.

A cold glint flashes in Shaw's eyes before it disappears.

"Dean Rebecca, it's nice to meet you. But I'm here to discuss something serious. I hope we can discuss it inside," He said in a solemn tone.

Rebecca knitted her eyebrows further.

She then nodded her head.

"Good, I want this person to join as well," He pointed his fingers at Carlos Kent.

Rebecca was surprised. She looked at Carlos with a confused expression.

"Me?" Carlos Kent asked back.

"Yes, you are," Shaw insisted.

Others left the space. Dean Rebecca and Carlos went to the office building together with Shaw.

When they entered Dean Rebecca's cabin.

The atmosphere is a bit cold.

She can see that the manager is here with no good intentions. Carlos also smelled some kind of trouble.

No one deals with the Hunter League. Especially him. So he was surprised by this manager's words earlier.

After sitting down, the manager Shaw went straight to the point.

"Someone killed one of our inner circle members and his son," He said.

Hearing that expression of Rebecca and Carlos becomes dignified. They know about the inner circle members. They are like core members of any organization.

So what is it to do with their academy?

Manager Shaw saw through their thoughts. He frowned as well. Because he was suspicious about these 2 people.

But their reaction made him confused. Because they are not faking it. Before Rebecca could ask.

He added further, "When we started to trace back the details. We found it connected to a student named Zack Lockwood studying in this Academy."

"F@ck," Carlos cursed out loud. Then he quickly controlled his expression. He thought where was this going?

But he didn't expect his visit to be related to Zack Lockwood. Should he feel pity for this manager?

Carlos looked at the manager with a strange gaze.

Even Rebecca was stunned as well. Then a hint of anger appeared in her eyes. This time Zack had done something again without her knowledge.

She hates his method. But it can't be helped. The person behind him can take care of the Supreme elder. Forget about herself.

Then she looks at the manager with complex emotions in her eyes.

Chapter 666 Manager Shaw's attack

From MC's perspective:

Dorm,

When I was resting in the dorm room. I got an urgent call from the dean. Seeing that I didn't ignore it. I got up from my seat and started walking towards the office building.

Soon, I arrived in front of her cabin.

Creak!

The door opened automatically. Seeing that I walked into the room. When I turned around, I saw Dean Rebecca, Carlos Kent, and one unfamiliar face.

"Dean, why did you call me?" I asked.

Manager Shaw's eyes flickered. He has also done background information on this young man. This young man's name is Zack Lockwood.

He is a special element warrior. There seems to be some backing from the Army Federation. He wasn't surprised by knowing that.

All the forces tried to recruit genius warriors into their camp. Especially the special element warriors are given much more importance.

After pushing down these thoughts, he asked, "Are you Zack Lockwood?"

Hearing that I turned towards the unfamiliar person and nodded at him. I doubt the visit is related to him.

"Then you must be familiar with the Crimson Hall," He asked. His eyes stared at Zack looking for any fluctuations.

"Who is he?" My heart is in turmoil. My tiff with Crimson Hall is an open secret. There is no point in hiding it.

"I know they are my former rivals," I replied.

Manager Shaw grinned.

Dean Rebecca became tense. She thought it was going to be normal in conversation. But she feels this is going somewhere else.

Even Carlos started to feel uncomfortable.

"Recently, some remnants of Crimson Hall were found dead. Including some local City Lords. Starting from the Red Stone City," Manager Shaw said in a cold tone.

Hearing his words after one another. I was shocked to the core. This guy has researched me. But who is he?

Dean Rebecca's expression changed. She knows that Red Stone City is Zack's hometown.

Carlos' face is dignified. "He is looking for trouble," He said in his heart.

"Manager Shaw, this is not your Parazam Hunter League's Place," Dean Rebecca said out loud.

She found that Zack had no clue. So she specifically stressed this point.

"Parazam Hunter League. So that's how it is?" I said in my heart.

"Jonathan was looking for remaining remnants. I don't know where he is right now?" I said in my heart.

Manager Shaw's face turned ugly. He stood up from his seat and said, "One of our inner circle members was assassinated. We found that the incident is connected to you."

He is glaring at Zack Lockwood. A hint of coercion was released from his body. It was so fast that even for Dean and Carlos it took some seconds to react.

On the other hand, my pupils shrink. This coercion was so powerful. The next second, it sent my body backward like a broken. Kite.

Boom!

I smashed into the wall and landed on the ground.

Pfff!

Blood spilled from my mouth. At the same time, my senses are screaming at me in pain. The internal organs are hurting as well.

"You dare!" Rebecca exploded at full speed and attacked Manager Shaw.

Carlos Kent is filled with anger. He used his full strength to strike. Both of them know the person behind Zack.

That person has the strength to eliminate the Supreme Elder. They don't want to offend such a person.

Manager Shaw's face is ugly. He tried to escape. But found that the attack from both sides got closer.

Boom!

A deafening sound reverberated throughout the area.

A massive hole appeared in the office building.

Manager Shaw flew outside. His clothes are torn apart. A trace of blood leaked from his mouth.

He managed to get away. But still, the 2 attacks slightly injured him.

Swish!

In a blink of an eye, he appeared at the transport area. Where the aircraft is parked.

Dean Rebecca and Carlos Kent followed suit.

Hearing the commotion. Other special faction heads appeared outside as well.

Manager Shaw's face was distorted. He doesn't want to confront them because of the Supreme Elder.

The Viper Academy's Supreme Elder could kill him.

So he immediately turned towards the Dean and said, "I apologize. I made a mistake. But it's a fact that the death of our member is connected to him."

"I have evidence. If your supreme elder wants, I can show it to him."

"If not wait for a few days, I'll show even more concrete evidence," He added.

Dean Rebecca and Carlos Kent stopped. It's not that they believed his words. Rather there was no Supreme Elder in this academy.

If this guy insists on meeting the Supreme Elder, it would be troublesome.

Dean Rebecca and Carlos Kent looked at each other. They know the problem can't be solved by them. Hunter League is not their cup of tea. The academy can't handle it.

Only the person behind Zack can do something about it.

Suddenly, Zack's condition flashes in her mind.

"Leave this place," Rebecca said before disappearing from the spot.

Manager Shaw sighed inwardly. He thought the Supreme Elder had instructed them to let it go.

His mouth curved into an arc. "Harumph, this is the power of Hunter League," He said in his heart.

Then without turning back, he entered inside the aircraft.

Shortly after,

The Aircraft rose from the ground and left the academy space.

Carlos Kent doesn't know how to react. It was his job to protect Zack. The person behind Zack ordered him to protect Zack's life.

Now he doesn't know what to do. Then he left the place to see Zack.

Other Special Faction Heads are confused as well. Only the dean can answer their questions.

Swish!

In the blink of an eye, everyone disappeared from the spot and went to the dean's room.

Dean room:

On the other hand, I felt my conscious drowning. But the pain is unbearable.

Swish!

The next second, I found someone standing before me. I vaguely spotted the silhouette. The person is none other than Dean Rebecca.

She picked up my body and took it somewhere. If I'm right, the place is going to be an infirmary.

Chapter 667 Great escape

From MC's perspective:

Infirmary room,

The old healer was sitting behind his desk. Apart from a few patients, there are not many people today. So he is getting a rare time of relaxation.

Swish!

Suddenly, he saw the dean of the academy in front of him. His pupil shrinks when he recognizes the bloodied person.

"What happened?" He asked. He recognized Zack. As far as he knows he has never seen Zack in this state except one time when a monster riot took place.

"Treat him," Dean Rebecca said before entering the adjacent treatment room. She placed Zack's body on top of the bed.

As far as she knows there is no serious injury-threatening foundation. But the old healer can tell better.

The old healer appeared quickly. He immediately began to treat Zack Lockwood. He saw the internal organs ruptured. It can be treated.

Then he checks the dantian. Which is the foundation for any warrior. The old man carefully began to observe the dantian.

Even a small crack can lead to foundation damage.

Rebecca is watching silently. She couldn't believe so many things had happened in the blink of an eye.

If she had known the Manager Shaw had come with intent to attack. She wouldn't have permitted them to enter.

Swish!

The next moment, another person walked in. He is the Special Faction Head Carlos Kent.

When he saw the old healer treating Zack. He eases down his eyebrows. If not treatable, the old healer would have recommended them to some other places.

"Do you have the means to contact that person?" Rebecca asked.

Carlos understands the meaning behind the person.

"I can text him. But we don't know his location," he replied.

Rebecca knitted her eyebrows. If that person is not in their region, which means he is currently in the inner post.

"How to notify him?" She said in her heart. Then she thought of something. She then turned towards Zack.

She thinks Zack has a way to contact him. As soon as he woke up from his sleep, he asked for help.

"Let's wait for him to wake up," Rebecca said.

Carlos nodded his head.

In the meantime, the old healer has checked the dantian. There is nothing wrong with the Dantian. It's completely fine.

But he couldn't stop the trembling of his hands. Because he found something strong. He saw Zack's skeleton structure is red.

At first, he thought of some infection. But when he began to observe the bones. He found out the whole bones were red.

"Weird body method," He said in his heart.

Last time, when he treated Zack. He found that Zack was a healer apart from the warrior. Now this weird energy from the bones confirms that Zack is practicing body methods.

"This kid is hiding a lot of secrets," The old healer said in his heart.

But he isn't interested in uncovering the secrets. From the dean's conversation just now. He confirms that Zack has an unusual background.

On top of it, he has promised to do it last time as well. He won't reveal the secret to others.

"How is he?" Rebecca's voice reached his ears.

"He is fine. Apart from internal organ damage nothing serious. But he has to spend a few days here," The old healer said.

"Alright," Rebecca said. Her eyes flash with complex emotions. She was not careful. Just one mistake made Zack bedridden.

She decided not to let anyone meet Zack from next time onwards.

"Dean, it's not your fault," Carlos said.

"I know. But you have to convince others," She replied.

She doesn't want to meet other faction heads right? She decides to retreat for a few days. She will retain it when Zack regains consciousness.

She then disappeared from the spot. Carlos Kent was left speechless. He knows the dean doesn't want to deal with them.

After taking one glance at Zack, he left the spot.

On the other hand, I have been hearing everything. It's just I couldn't open my eyes. My body is in extremely weak condition right now.

But I'm glad that they brought me here. The old healer has injected a powerful healing essence into my body.

Especially to the injured organs. I'm feeling warm energy in my internal organs. Thinking about it will take a few days to recover. I sighed inwardly.

It's just I didn't expect the manager of the Hunter League would attack me. Which shows the Hunter League didn't put the Viper Academy in their eyes.

I was protected by Dean and Carlos Kent. Still, I was put into this state. Fortunately, the Hunter league Manager didn't intend to attack me in real life.

He just wants to teach me a lesson. So he released a small coercion towards me. If he wanted to kill me, I would have ended up dead right now.

Suddenly, a cold chill went down my back. Then I removed the negative thoughts before starting to think about my recovery.

If I regain some strength, I'll try to use the healing energy to speed up the recovery.

Meanwhile,

The Manager Shaw is in a bad mood. The aircraft is returning to the Steel City at high speed.

But thinking about his actions. He cursed at himself. He hated half-hearted actions. He should have used full coercion to destroy Zack Lockwood.

Now he left him with a small injury. He didn't feel satisfied. On top of that, he failed to get a confession from him.

"Wait for me. I will prepare the evidence," He said in his heart. He made up his mind to confront the Supreme Elder of the academy.

Then he will ask the Supreme Elder to hand over Zack to their Hunter League. Where he can be judged for killing inner circle members.

Evidence is there. So he is not afraid of the Viper Academy and the Supreme Elder. Even if they tried to use the backing of the Army Federation. It won't work.

In front of their evidence, they would remain quiet.

Time flies,

After returning to the Steel City, he instructed his men to look for Crimson Hall Remnants. He knows Zack is from Small Academy. That academy was destroyed by the remnants.

Chapter 668 Old healer's words

From MC's perspective:

A few days later,

My complexion returned to normal. I regained my strength as well. Fortunately, there was no damage to the foundation. The small coercion gave me a scare at that time.

But the next second, I thought about Manager Shaw's fate. His death has already been decided.

A few minutes later,

When I was observing my condition.

The old healer walked in.

"Looks like you are good to go now," He said with a smile.

"Yes, elder. And thanks for the treatment," I replied to him. If not for him, things could have gone worse.

The old healer shook his head before saying, "It's not only because of me. But your healing essence also played a role in your fast recovery."

Hearing that, I wasn't surprised. Because when I first regained control, I started practicing wood scripture.

Because of that, recovery time has shortened.

"And one more thing. I observed you are practicing a wild method. Which makes your skeleton red."

"I can tell it's a bone method. But I don't know if it's good or bad," He said looking at Zack's eyes.

"Bone method," My heart was in turmoil. I didn't expect my injury would lead to the exposure of the secret.

He must have seen it during the treatment. This old man knows my 2 secrets. One is a healing element and the other one is a blood method.

My eyes flickered. "Why is he calling the bone method?" I said in my heart.

The old healer saw through his thoughts.

He said, "I know what you are thinking. But don't worry I won't tell anyone."

Hearing that I sighed inwardly. Since it's exposed. Nothing can be done right now.

Then I asked, "Elder, what do you mean by bone method?"

"It's a kind of body method. But it's more focused on bone. When I think of red energy. I can tell it's also focused on blood."

"It's a weird method. I haven't seen it before. But if not for the bone method. Your bones would have been crushed from the coercion," He said.

Hearing that I understood his thoughts. The blood method has an unknown origin. But it has saved my life many times even now.

After the old healer left the room, I decided to leave.

But before that one more person walked into the room.

"Looks like I have come at the right time," A voice reached my ears.

The person is none other than Carlos Kent.

"You have a lot of explaining to do," He said.

Hearing that I revealed a bitter smile on my face. Then I nodded at him.

We then went to the office building. When we arrived at the dean's office. The door opened automatically.

Seeing that both walked in. When I turned toward the dean's side. I saw her looking at me with a scrutinizing gaze.

I know she won't let me go without knowing everything. When I turned toward Carlos Kent.

He saw me with the same gaze as well.

Shaking my head, I sat opposite her.

Before they could speak. I started explaining to them.

10 minutes later,

Rebecca's expression eases down a little.

"So they have not only destroyed your former academy but also killed everyone," Rebecca asked.

Hearing that I nodded my head at her.

"It's a good kill," Carlos Kent said. He was surprised by such a backstory.

He added further, "But Manager Shaw was pretending. He didn't tell us about their fault."

Hearing that Rebecca's mood turned bad as well.

On the other hand, I was confused by their reaction.

Rebecca saw through Zack's thoughts.

She said, "The Hunter League Manager is bad. After getting away from here. He released a statement accusing us."

"Statement?" I said.

Then she explained further. Then I realized that guy was asking for a beating. He mentioned my name as a killer.

"He is also creating momentum. So that we can hand you over to him," Rebecca said.

"Not only that. He is asking for help from other academies. We don't know about their reactions yet."

"Only the person behind you can solve this problem," Carlos Kent said in a solemn tone.

"Yes, Zack. Ask him to come as soon as possible," Rebecca added.

Hearing that I furrowed my eyebrows. I know that Jonathan is here not in the inner post. He must be looking for other remnants.

If my guess is right, he will return after hearing the news. Manager Shaw is going to face death soon.

Meanwhile,

Jonathan is indeed investigating beyond the boundary. During the investigation, he didn't look at the messages.

The means of communication beyond the boundary is weak. If he wants to know, he has to do some work on it.

Jonathan didn't worry about Zack at all. But soon he got to learn from the local Hunter League branch.

He was following the remnants. But he didn't expect to hear the shocking news. A murderous intent flashes in his eyes.

He gave up the investigation and left the spot right away.

On the other hand, Manager Shaw has collected enough evidence. He is also leaving the Steel City to confront the Viper Academy.

He had tried to convince other academies to help. But strangely those academies rejected his request.

The Giant Tower Academy especially refused to listen to him. At first, the Giant Tower Academy was excited by his visit. But then they learned about the Viper Academy and Zack Lockwood.

Their attitude changed drastically. Their supreme elder doesn't want to offend the Viper Academy anymore.

The same thing happened with the Eclipse Academy. They have just lost their Supreme Elder. They don't want to cause further problems.

At that time Manager Shaw thought they had been coerced by the Army Federation. Only the Federation has the power to shut them up.

When it comes to other academies. They have naturally rejected the proposal as well. They don't have bad relations with Viper Academy.

Especially after knowing that Hunter League has lost one member. It's not like heavy damage that has been inflicted on their foundation.

So they don't want to offend Viper Academy for this reason.

Chapter 669 Hunter League's small force

From MC's perspective:

I left the dean's room after the meeting. I promised her that I would ask Jonathan to solve the problem.

Currently, the academy is acting without the Supreme Elder. So her worries are genuine. I didn't even expect the Hunter League to fight this.

Maybe Manager Shaw wants to keep his position. Which needs the support of inner circle members.

My mouth curves into an arc. His efforts are bound to be wasted. Then I walked out of the office building and decided to enter the Gravity Chamber to train.

Meanwhile,

Manager Shaw is using a big airship this time. Apart from him, there are a few SS-Rank Warriors. This time they are going to press the Viper Academy.

If Viper Academy doesn't hand over the little brat Zack, he is going to confront their Supreme Elder.

Manager Shaw's eyes flickered. Unlike others, he thinks that their Supreme Elder knows about their prestige.

Their Hunter League is just a branch here. As long as there is support from the main force, the Viper Academy can be flattened.

But things won't go to such length. He knows that they have just one inner circle member. This main branch won't make it difficult for the Viper Academy.

As they are also supported by the federation. It's just that families staying in the steel city are restless. They want accountability.

So he had to capture Zack Lockwood by any means possible. Lots of thoughts flash in his mind as his airship is moving towards the Viper Academy.

Red Moon Tower:

"Viper Academy hits the iron plate this time," Dean Lily Smith uttered in a solemn tone.

Teresa York is standing before her. She was the one who brought intel to her.

Dean Lily saw through Teresa's reaction and asked, "What's bothering you?"

Teresa's thoughts returned to reality. She looked at Dean before asking, "Dean, you mean the Viper Academy can't escape the disaster?"

Dean Lily Smith sighed before replying, "I'm guessing they are relying on the Federation's support. And that kid Zack is going to enter the inner post in the future."

"So it's too much that Local Hunter League is troubling the Viper Academy for this reason," She added.

Teresa doesn't know what to say. But she knows that Viper Academy still has a Supreme elder. He will take care of it.

Similar things are happening in other academies. Though they declined the offer of the Hunter League. They are still paying attention to the developments.

Time flies,

A few hours later,

A massive airship crosses the Viper City and they start moving towards the Academy nonstop.

The information quickly reaches the ears of Dean Rebecca.

"They are here," She uttered in a cold tone in her office. She didn't expect Manager Shaw to bring a small force.

This is a sign of hitting their face. She is racking her brain to come up with the solution.

She and Carlos Kent can stop this force. But the Hunter League has a similar existence to the Supreme Elder.

If Manager Shaw manages to invite him, then it would be trouble. She hopes the person behind Zack will return soon.

In the meantime, they can only do their best. The next second, she quickly gave a few administrative orders and disappeared from the spot.

Short after,

Carlos Kent appeared outside. He is standing in mid-air at the entrance of the academy. There is an invisible formation covering the Academy.

It's not like anyone can enter the academy. Last time, Rebecca gave permission. But this time the airship won't be getting in.

Carlos Kent's expression was dignified. Like Rebecca, he too didn't expect the abacus of Manager Shaw.

Last time, he had attacked Zack Lockwood. And this time, he even came with the force.

A bitter smile appeared on his face. He knows they are on the back foot because there is no Supreme Elder in the academy.

Swish!

Rebecca appeared next to him.

"I hope he doesn't bring the Supreme existence behind him," Rebecca said.

Carlos Kent furrowed his eyebrows before saying, "Dean, I don't think he can influence Hunter League's Supreme Elder."

"He is making all of this fuss because of one inner circle member. In return, he wants to capture a Special element warrior."

"Forget about Zack, even in normal circumstances it's impossible for us to act according to his bidding."

"Where is the academy's face and the federation's face in this," He added.

Rebecca found his words reasonable. So she became relaxed. She not only instructed Carlos but also others. They will appear soon.

"Where is Zack?" She asked. She forgot to remind Zack about this situation.

"He is practicing in the Gravity Chamber," Carlos said.

"It's best for him not to come out. Otherwise, they will do some trick to attack him again," She said in a solemn tone.

A few minutes later,

A big airship came into view. Seeing that expression of Jonathan and Rebecca changes drastically.

"I feel many SS-Rank Warrior auras in the airship," Carlos said.

Rebecca's eyes stared at the airship. She is looking for any aura above SSS-Rank Warrior. In the blink of an eye, her eyes and eyebrows ease down a little bit.

"Ha....Ha...Ha...."

The next second, a huge laughter sounded.

A few figures flew out of the airship.

Manager Shaw is standing in mid-air. Behind him, there are a few inner circle elders. There are 8 of them. All of them are releasing SS-Rank aura.

This is not their full force. There are still few staying back in the city. Not even in the big academy there aren't many SS-Rank Warriors that can be found.

Before they could enter the academy. They saw that the formation was blocking their path.

Manager Shaw spotted the formation. His face turned ugly. He then saw Dean Rebecca and Carlos Kent standing ahead.

He said, "Dean Rebecca, what is this?"

"This is how you welcome your guest," Manager Shaw said with a sneer.

Rebecca's eyes turned cold.

Swish!

Another Special Faction Head appeared behind her. Their expression also becomes dignified.

"Manager Shaw, are you here to attack our academy," Rebecca asked.

Manager Shaw's eyes flash a little before it becomes normal. He knows the Supreme elder might be watching.

Chapter 670 Manager Shaw's demand

From MC's perspective:

Viper Academy:

Manager Shaw thought about something before asking, "We are here to seek justice. Hand over Zack Lockwood to us. If not we will go back and ask our Head manager to come."

His voice reaches everyone's ears. The head manager in his mouth is none other than the Supreme Elder.

Like Rebecca had guessed earlier. Manager Shaw has a backup plan to call their Supreme Elder.

A hint of apprehension appeared in her eyes. She can't allow them to enter inside. Otherwise, the fight will break out.

On the other hand, if she insists on her stand. Then the manager Shaw might visit again with their Supreme Elder.

Carlos' expression turned ugly as well. Apart from Jonathan, no one can save the academy. Even Jonathan himself wasn't aware that things had developed to this extent.

Other Special Faction Heads are in confusion and fear. They don't know what happened. But from another party, they can see that Zack Lockwood has offended someone big.

And Dean Rebecca is standing up for him. Suddenly, they have mixed emotions in their heart. The Hunter League has come up with a small force.

If things get worse, then the academy might face danger.

Manager Shaw that Dean Rebecca was not answering at all. He then shifted his gaze towards the barrier.

He thinks as long as their Supreme Elder looks at their evidence. He would agree to dispel Zack from the academy. Then he can bring him back to the street city for punishment.

But for this to happen. He had to enter inside first.

"Dean Rebecca, I'm asking you again. Open the formation. We can discuss this with your Supreme Elder. He will change his mind then," He said straightforwardly.

Behind him, the SS-Rank Members are ready to enter anytime.

Dean Rebecca and Carlos Kent know it's impossible to do so. They remained silent. By that time a small crowd had formed. The students roaming around saw something happening at the entrance.

Both parties looked at each other. But Rebecca was firm in her stand. Carlos Kent's palms are sweating. He is not afraid to clean up this small force.

But there is a real strong man behind them. No one has seen the Head Manager. But his name was as popular as the Supreme Elders of the 6 academies.

So both of them are afraid. The faces of other Special Faction Heads are bad.

"Good"

"Good"

"Since you guys are unwilling. I'll go back and ask our Head manager to come," Manager Shaw said in a cold tone.

Then he gave a provocative look at Dean Rebecca before walking back to the airship. The other members followed him back.

In the blink of an eye, the airship turned around and disappeared.

"Let's go back and continue your work," She said before disappearing from the spot.

"Phew" Carlos Kent breathed a sigh of relief.

Then he left the place as well. He knows other faction heads will confront him.

Soon, the rumors started to spread all over the academy. Especially those students who have witnessed the scene started to spread the news.

Shortly after, the social media site was flooded with posts. Everyone was worried about their safety.

Unknowingly, the name of Zack Lockwood was mentioned and he became a target.

After that people started to dig in. And eventually, they came to know that Hunter League Wants Zack Lockwood. Everything was happening because of him.

2 hours later,

Gravity Chamber:

After practicing, I walked out of the chamber. Then I went to the washroom to clean my face. After doing that, I started walking towards the dorm.

On the way, I came across the warriors. But they are looking at me strangely. I found a hint of hate in their eyes. It was a different gaze from before.

But I shook my head before walking away. Not long after, I came across other warriors. They are showing the same hate as well.

Suddenly, a realization struck my mind.

"Something must have happened," I said in my heart. After figuring it out, I decided to ask someone later.

Meanwhile,

Ernest and Laverne also got the news. So do others who are familiar with Zack Lockwood. They didn't expect Zack Lockwood to face such a danger.

After hearing the news Laverne and Ernest wanted to meet Zack. So they went to check the gravity chamber.

A few minutes later,

I returned to my dorm room and walked into the bath to take a shower.

20 minutes later,

I changed into comfortable clothes. The Gravity power has tempered my body again. I didn't expect to return to peak after that scary injury.

Now I understand the role of the healing element. It's a blessing. I have a feeling that it will play a major role in the future.

Then I sat on the sofa before thinking about those warriors.

Beep!

Suddenly, my sci-fi watch lit up to sign the notification.

Seeing that it was a call from Ernest. My eyes flickered.

"Zack Lockwood, what happened? Did you offend the Hunter League People?" Ernest's voice reached my ears.

"Hunter League?" I said in my heart.

What happened? Did he visit the academy again? Lots of thoughts appeared in my mind.

Then I controlled my heart before I asked, "Ernest, did something happen?"

Hearing that Ernest briefed me on everything.

After ending the call, my eyes turned cold.

"Alright, he ruined my name. No wonder everyone is looking at me with hate," I said to myself.

"Head Manager uh? If that person decides to visit, then things will become truly dangerous," I muttered to myself.

If things need to go back to normal, then Jonathan has to come. Otherwise, not only me, but even the academy will face an open threat.

If that head manager finds out there was no Supreme Elder in the academy, then no one can save me.

A quick gleam flashes in my eyes. I won't wait for my death. If Jonathan fails to come back, then I will have no choice other than to hide somewhere.

I'm already pissed off by those Crimson Hall remnants. Now the Hunter League is giving me a headache.
