Chapter 671 Head Manager

From MC's perspective:

After calming down my heart, I didn't go out to meet Dean and others. The current situation can't be solved without the help of Jonathan.

Before I could think further.

Beep!

I received a call from Jonathan. Seeing that a hint of surprise flashes in my eyes. Then my whole body got relaxed all of a sudden.

I attended the call the next second, a deep voice reached my ears.

"Young master Zack, what happened?"

"Are you alright?"

Hearing that familiar voice, my eyebrows ease down a little bit.

"Jonathan, where are you?"

"The Viper Academy and myself are under threat. The Hunter League has found out the truth. They are asking the academy to dispel me. So that they can capture me," After saying that I explained further.

A few minutes later,

"I'm getting closer to Viper City"

"I'll be there within an hour," Jonathan said.

He has been rushing out at full speed. After knowing that there was no danger for the time being. He didn't stop.

One hour later,

Knock!

I heard knocking on the door. Knowing who the visitor might be. I went to open the door.

Creak!

Jonathan walked in. His whole body was tense. Seeing that, I wasn't surprised. He must have heard the news.

Since he was here there was no need to be afraid.

"First, I'll send a message to Dean and Carlos. Then only they can sleep peacefully," I said to Jonathan before starting typing.

Jonathan is thinking about something else. When he was flying over Viper City. He saw that the whole city was in panic.

The Hunter League's action has caused so much disturbance. A chill flashes in his eyes.

After sending the message, I sat opposite him on the sofa.

"Thankfully, you returned in time. Manager Shaw might receive help from their Supreme Elder," I said to him.

Now I'm looking forward to Manager Shaw's end. I didn't tell him everything including the attack on me.

I can't predict Jonathan. If he learns the truth, he might uproot the whole steel city. This might give the teacher a headache.

"Young master, this is my fault. I didn't expect the Hunter League to go to such a length. Because of the death of one of their inner circle members," Jonathan said.

"It's not your fault," I replied with a sigh.

A quick gleam flashes in Jonathan's eyes.

No one would offend other forces just like that. But he finds the manager of the local branch out of the ordinary.

Suddenly, he wonders whether there are any backhands behind this situation. Because the actions of this manager are a bit odd.

On the other hand, I received a reply from Dean and Carlos. Both of them are thankful.

A hint of guilt appeared in my eyes. The current situation was because of me. I was impatient.

I could have dealt with the crimson hall's remnants after getting into the inner post. Now, I will have odd relations with Hunter League in the future.

"Alright, I'll be staying in Viper City. I'll come next morning," Jonathan said before leaving the place.

Looking at his back, I sighed inwardly. Fortunately, he didn't ask to meet the dean. Otherwise, she could have recounted everything.

Then I stretched my arms before going to sleep.

Meanwhile,

Manager Shaw has already arrived at the Steel City. It's just he is waiting for the Head Manager to appear who was in retreat.

But his palms are sweating. The Head Manager can be only disturbed in dire situations.

Right now, the Steel City and their Hunter League are not facing any threat. Instead, he wants to use the Head Manager's hand to inflict damage on the Viper Academy.

When he returned to the Steel City. He saw the mood of the city had changed. The turmoil has calmed down. No one is raising a finger at him.

He knows the reason behind this change. Because the news must have reached everyone's ears. He didn't deliberately hide his actions.

Now all the big tier-6 cities including the remaining big academies must have heard the news as well.

Not only did his actions scare others but it was also work as a deterrent. Hereafter no one would think of them as a soft permission.

The Steel City's change made his decision more firm. Now the inner circle members know the identity of the killer.

They are not raising any more questions. They became even more respectful after seeing his actions.

Now everyone is waiting for the Head Manager to come out.

Time passes,

He keeps staring at the metallic room. This place is located deep in the underground of their Hunter League Tower.

No one can reach the place except him.

Creak!

The door in front of him made a creaking sound.

Hearing that his heart skips a beat for a second. He realized that the Head Manager was coming out.

The next second, the door opened fully.

An old man appears to be in his sixties and walks out. He has a full-grown beard and white hair stretching up to his shoulders.

He was dressed in white and green clothes. His eyes are black. He is 6ft tall in height. His skin tone was pale.

The old man looks like a rich man. But Manager Shaw is under pressure looking at him.

"He has reached Peak Stage," He was shocked to the core. He knows the Head Manager spends most of his time in retreat.

But he didn't know it was a breakthrough retreat. The people who got posted here were mostly warriors with exhausted potential.

But the old man doesn't seem to be like that. Unlike other forces, the Head Manager comes from the inner post. He was not native at all.

That's why he was surprised by the pressure in front of him.

A disdain flashes in the old man's eyes.

"What happened?"

"You seem alright. What's the need for an emergency message," he asked. His eyes stared at the manager like a venomous snake.

Manager Shaw was trembling. He had imagined this scene before. But still, he couldn't stop the inner fear.

Chapter 672 Head Manager's plan

From MC's perspective:

Steel City,

Manager Shaw didn't want to waste any more time. So he started to tell what happened while the Head Manager was in retreat.

The Head Manager began to listen. At first, his expression was calm. But when he heard about the death of the inner circle member. He felt someone slapped on his face.

He is responsible for Hunter League Operations in this 1012 outpost. Whether good or bad, anything happens to the Hunter League. He is going to be responsible for it.

When Manager Shaw finished everything a few minutes later. The Head Manager's eyes turned cold. He looked calm without any emotion.

But there is a storm brewing behind his calmness. Manager Shaw was even more terrified. He was unfamiliar with this feeling.

Because whenever bad things happen. The head manager first ventured his anger on him. But this time he was silent. He doesn't know whether he is going to face punishment or not.

The Head Manager is pondering whether to take action or not. From outside the issue looks simple. But he knows that the death of one inner circle member can make a difference.

If he fails to handle this, things might get bad for him during the evaluation. No one wants a bad remark in their profile. He was already looking for ways to return to the inner post.

This incident might hinder this process. So he is thinking more about taking action. However, the problem of identifying the culprit is not simple.

"A lightning element warrior in?" He said in his heart. Even in the inner post. Those people are rare. There are not any special warriors without any backing.

The Viper Academy is not without any backing. That kid can get recruited by the Federation. He furrowed his eyebrows.

Suddenly, he thought of something. They have the evidence. There is a disadvantage for him. If they fail to cooperate, he can inform the Head Quarters.

If the Federation has any problems, they can discuss them with the headquarters. After figuring it out, he relaxed his eyebrows. When his gaze fell on Shaw.

A hint of disdain flashes in his eyes.

"Waste, don't you know how to control inner circle members," He scolded Shaw. Unlike the academies and families, the Hunter League is different.

It's a business organization. For that organization needs to have a good relationship with all the forces including the Federation. So he hopes the federation won't intervene for an unknown outer post warrior.

Although the warrior is a Special Element Warrior. But still, the identity is clear. There is a difference between the Outer post and the inner post. Even if that kid managed to attract the Federation.

It's going to be a small recruitment. In his opinion, he won't be able to achieve anything.

Manager Shaw doesn't want to show any emotion. So he lowered his head.

Next morning,

"Let's go to the Viper Academy and meet them. If they don't cooperate, I'll inform the Head Quarters," He said to him.

Hearing that Manager Shaw sighed in relief. Now that Head Manager is back. He can now sit back and watch the show.

The image of Dean Rebecca comes to his mind. He also knows their Supreme Elder is dying. If there is any confrontation, they are going to win.

So they can't protect Zack Lockwood.

Shortly after,

3 airships left the star city. The airship in the middle is bigger. It's moving forward while the other 2 small airships are silently following from behind.

The Head Manager is standing on the deck of the middle one. Behind the Manager, Shaw is silently standing.

There are Super Elite and SS-Rank Warriors in those 2 ships. There is no actual war going to happen.

But the Head Manager wants to go with the imposing manner. When they left the information quickly spread to other big forces.

The upper echelons in these forces are when they learned about the Head Manager. The Head Manager is a low-key one. But his strength is not something to be underestimated.

The forces felt something unusual. Including the six big academies. The Hunter League's action this time is overbearing. Other academies didn't feel good about it.

It's just the death of one inner circle member. There is no need for the Head Manager to come out. So the forces are feeling uncomfortable.

Viper Academy,

Dean Rebecca immediately received the intel. But she was not worried this time. Instead, she is looking forward to the miserable condition of those Hunter League People.

Last time, the Supreme Elder of the Eclipse Academy came with the same intent. Now he was nowhere to be seen. Even the activities of the Eclipse Academy became low.

After figuring it out, she sent the message to Zack so that he could inform the person behind them.

Then she started to do her work.

In the dorm room,

A sudden notification sound broke my concentration. I opened my eyes and stopped cultivation. Then I began to read the message.

After reading the content, my mouth curves into an arc. I don't know about the strength of the Hunter League. But I guess Jonathan has a good understanding of it.

Then I forward the message to Jonathan. A quick gleam flashes in my eyes. In my opinion, Jonathan won't kill the Head Manager. The Head Manager is representing the face of the Hunter League.

Which is a force from the Inner Post. So Jonathan will keep his hand. But in my heart, I'm hoping that he would teach some lessons to them. So that they cannot target me in the future.

Meanwhile,

Jonathan, who was getting ready to go to the Viper Academy, got the news from Zack. After reading it, he changed his mind. He doesn't want any big scene to happen.

So he is going to intercept them. He is also aware that he can't kill the Head Manager. But he can make his return.

When Zack enters the inner post. His status will change. Then their headquarters have to think twice before targeting Zack.

Chapter 673 The Head Manager's miserable condition

Viper City:

Jonathan is standing a few miles ahead of Viper City in mid-air. His silhouette is hidden. No one can see unless he shows himself.

Soon,

3 airships came into his view. His eyes stared at the middle one. Where the old man in the white clothes can be seen.

Jonathan saw through his strength.

"Peak Commander Rank," He said in his strength. He had met other Supreme Elders from the academies.

But they are old and dying. Have long since exhausted their potential.

Jonathan saw that the Head Manager is energetic and his powers are stable. He knows something about the Hunter League.

So he strongly thinks that this person is not from this region.

The next second, he flashes and moves towards the airship.

The Head Manager is looking at the nearing city. "The Viper Academy should know by this time," He said in his heart.

He saw a few auras looking at their airship. News must have reached the city. But he doesn't know someone else watching their actions right now.

"Head Manager, I heard this city was in turmoil. After hearing our name many of them chose to vacate this city," Manager Shaw said with a smile.

He was truly happy. At least people are not stupid. They know the fate of offending their Hunter League.

The Head Manager smiled in response. But he didn't say anything. When the airship got closer to the City.

A wave of terror envelops the Head Manager's heart. His expression changes drastically.

"Stop," He shouted out loud. His voice fell like thunder in everyone's ears.

Hearing that the staff stopped the airship from moving. It came to an abrupt halt.

The Head Manager feels the disappearing terror slowly.

Everyone was confused by the Head Manager's decision. The only person closer to him saw that his face was not right.

Manager Shaw was shocked to the core. What happened? He saw a fear in the eyes of the Head Manager.

Was someone powerful hiding in this city? Manager Shaw broke out in a cold sweat. He felt the galloping of a thousand horses in his heart.

It took some seconds to calm his heart.

The Head Manager kept his cool. Before he could think further.

"Come to the east side of the city"

A mental voice reached his mind. Hearing that the Head Manager's back went cold.

He immediately thought of the Viper Academy's Supreme Elder.

"Wasn't he dying?" He said in his heart. That's why he was confident in his plan. If things become worse, then he could only request Headquarters for help.

"Maybe their Supreme Elder doesn't want to see their academy become a laughing stock," He said in his heart.

Then he looked towards Manager Shaw and instructed him to wait.

Swish!

The next second, he disappears from the spot.

Seeing that Manager Shaw's eyes flickered. He thought Viper Academy's Supreme Elder had come out to greet the Head Manager.

On the other hand, the Head Manager flew towards the east side of the city. There is nothing but a barren land.

After arriving at the place, he spread his mental power. He saw no one hiding here. Then he receives another mental note. He lives further away from the city.

Slowly, the City disappears. Now he looked around and spotted no living person other than the vast barren land.

"What's your purpose for the visit?"

Another mental note reached his mind.

Hearing that the Head Manager is convinced. The other person is none other than the Supreme Elder of the Viper Academy.

He won't dare to kill him. So he thought his fear was unnecessary. The next second, his eyes turned cold.

"Senior, don't you know?"

"The dean of your academy should know everything. Your academy student was involved in the assassination of our inner circle member," the Head Manager said.

"No one offends our Hunter League. This time your academy student dared to do this thing. His crime is punishable by torture and death."

"Supreme Elder, you should not endanger your whole academy for one student. I hope you understand the situation," he added.

"If you hand him over to us, then we will return to our city right away," He said in a provocative tone.

The Head Manager looks around. He knows the Supreme Elder is hiding somewhere.

He is proudly standing in mid-air with his hands behind his back.

He was greeted by an invisible punch. When the punch tore through his abdomen. His eyes widened in horror.

Boom!

He wasn't able to scream before his whole body shot towards the ground.

Bang!

When the body hits the ground. A deafening noise reverberated throughout the area. The impact created the deep pit.

The aftermath sweeps away the surrounding area causing the smoke and dust to spread around.

The person responsible for this was none other than Jonathan. He kept his hand. But this punch was enough to bedridden the Head Manager for a couple of months.

When the smoke was gone. The Head Manager's appearance became visible. His bloodied body was lying in a deep pit on the ground.

His white clothes are torn apart. His face was bruised and his eyes were swollen from the bad crash. Hairs are disheveled.

Pfff!

The next second, blood starts gushing up from his mouth. His head was fuzzy but still, there was some trace of clarity.

When he recalled what happened now. He felt death covering his heart. His realm fell back because of the injury. Now he is a stage Commander.

Normally, this shouldn't have happened. But he left right away after the breakthrough. He thought his base was stabilized. Now the reality proves him wrong.

If not treated immediately, his realm will further fall back.

"Do you want to taste my other punch?"

Another mental voice reached him. Hearing this, he was shocked so much that he fainted on the spot.

The last remaining clarity was not enough to handle the shock.

Seeing that Jonathan was satisfied. In his opinion, he won't be able to cause any more waves.

Chapter 674 The Head Manager's change of mind

From MC's perspective:

Viper City:

After injuring the Head Manager, Jonathan didn't wait further. He disappeared from the spot and started moving towards the Viper Academy.

20 minutes later,

Manager Shaw and others who were waiting for the Head Manager to return became anxious.

"What happened?" Shaw said in his heart. He is getting an uneasy feeling all of a sudden. It shouldn't be so long for the Head Manager to kill the dying old man.

Was the Viper Academy's Supreme Elder creating difficulty? He shook his head in denial.

From the Intel, he had collected. He knows that kid Zack has an unusual relationship with the Academy.

Even the dean and the Faction Head are closer to him. Which can't be said the same for other warriors.

At first, he thought the attention was paid due to Zack Lockwood being a Special Element Warrior. Now he thinks something is missing.

Then he immediately tried to contact the Head Manager. There is an active signal. But the Head Manager is not picking up the call.

Which further increases the bad premonition.

The staff and other guards are perplexed by the situation. They are waiting at the entrance of the Viper City. Which was a bit awkward.

Even the residents of the local city became aware that big airships were waiting outside.

Others don't know but they are just waiting for their Head Manager to return.

As time passed, the staff asked Manager Shaw whether to land their airship inside the city.

But Shaw rejected the idea. He knows about the Head Manager's temper. He doesn't want to disobey orders.

A few hours later,

The Head Manager retained some clarity. He was seriously injured. After seeing that there is excessive blood loss.

He put great effort into opening his storage ring. Then he took a few rich healing pills and swallowed them.

Only after the warm energy entered his body. He felt somewhat comfortable. The blood stopped leaking.

He then slowly checked inside. There are damaged veins and organs. It would take a long time to recover.

At this time his heart was empty. There is no anger or joy. He didn't even catch the attack. After experiencing the terror behind the attack.

He understood something.

"That person is not the Supreme Elder. No Supreme Elder can make me feel helpless," He said with a sigh.

He began to recall the meeting in his mind. He started to realize that person was not here to kill him.

Even the attack was simple. There was no intent behind it. It's just he was weak that the simple attack injured him.

"Unknown strength and identity. He is not from this region. It must be the federation's person stationed in the academy," He said to himself.

Apart from that he didn't find any clue. He then let out a sigh before trying to get up. He escaped death. Since the person from federation here.

Then he must have known about the conflict. No wonder the Viper Academy was silent. They have such people stationed here.

Now he can only blame the Intel team. And he didn't think about taking revenge or complaining to the headquarters.

Even after getting a warning, if he complains, then he would suffer for sure.

After standing up, he started moving back to the airship. His realm has fallen back, but that doesn't mean he has no energy.

He still has some energy to return safely. After arriving at the airship, he directly entered his room.

Manager Shaw and others only saw a bright light covering the Head Manager's body. They didn't see his ugly state.

Pfff!

After entering inside, the Head Manager coughed up blood. He quickly swallowed a few more pills to control the injury.

Manager Shaw is anxiously waiting outside. He feels something bad. But he doesn't know what happened.

A few minutes later,

The Head Manager's voice reached him. He wants everyone to return to the Steel City right away.

Hearing that Manager Shaw wanted to question him. But he stopped. Because he felt anger in the Head Manager's words earlier.

Shortly after,

The three airships turned around and started moving back to their city. Seeing that some of the residents in the city let out a cheer.

They don't know what happened. But they are happy to see Hunter League's airships returning.

The guards quickly informed the dean. She was not surprised. Since the person was here. She feels a lot more relaxed.

At the same time, she knows that person has nothing to do with the Academy. He won't be staying here for too long.

She feels additional pressure for a breakthrough. Someone has to break through next. Only she and Carlos are at the SSS-Elite level.

There is no one else that has the potential to reach Commander level.

Dorm room:

Jonathan arrived at my dorm room a few hours earlier. After knowing that he has settled the matter. I sigh in relief.

He advised me to wait when it comes to eliminating the remaining remnants. Before going back, he assured me that he was going to stay in Viper City.

I wasn't surprised by his words. If we take any action, it would be eye-catching. Already the Hunter League has found out my connection to the Crimson Hall remnants.

They can make it a bigger issue.

Red Moon Tower:

Ella Downs and Sallie Mills have learned about the recent situation. They didn't expect Zack to offend the Hunter League organization.

After that student exchange meeting, both of them have been training hard. It's just when it comes to Zack. They have complicated thoughts.

They don't know the reason behind the Hunter League situation. But there is someone in the academy who knows about it.

"Can we ask Elder Teresa?" Ella asked.

Sallie nodded her head. Both of their animosity towards Zack has reduced nowadays.

When they managed to meet Teresa on the way. They got shocking news in return.

"He was chased down by them. Because he was behind the death of a Hunter League member," Teresa York said to them.

The other academies have more or less the same intel. But they don't know why it happened.

Chapter 675 Goodwill City

From MC's perspective:

Days passed in the blink of an eye,

The Hunter League's incident has calmed down. No one is talking about it anymore. Slowly, the academies are preparing for the year-end conference.

The Giant Tower Academy and the Eclipse Academy are not interested in this year's end conference. Both of their academies have gone through important events.

They don't have the energy to pay attention to it. The Eclipse Academy was even more dejected as they didn't have the Supreme Elder.

Others don't know but the Dean of the Eclipse Academy has confirmed that their Supreme Elder Cameron has died.

He was afraid to reveal the news to anyone for the time being.

Weeks went by,

The location for the year-end conference was decided. The event is going to be held at a neutral Tier-6 City.

The Goodwill Tier-6 City is not attached to any force. Which is the perfect place for conducting the event.

The City has become a Tier-6 City because of growing business. There are a lot of merchant shops, pill shops, and weapon shops here.

Even the Hunter League has a small office here.

When the news was published. The residents of the city became happy. Such a major event would attract a lot of visitors.

Restaurants, rental houses, and other businesses will receive good growth. So people are excited about this event.

Slowly, the old arena was being renewed. New seats were added. It won't be long before the arena will be ready.

In the meantime, the 6 big academies have finalized their list and published as well. For the year-end competition, 2 ranks will participate.

Elite and Super Elite talented warriors from 6 big academies will compete. Each academy will send 10 Elite and Super Elite Warriors to the competition.

When the name list began to spread. Some of the names caught people's attention. Each Academy has talented warriors to whom people pay attention.

Among them, the Special Elemental Warriors are getting more attention and fame. Viper Academy's Zack Lockwood name was even more popular because of the Hunter League incident.

Later, the Hunter League gave up their hunt for mysterious reasons. So the name became more eye-catching.

3 days before the start of the year-end conference.

The old arena was completely renovated. Many people from other cities are pouring into the city. Many of the rental houses are booked.

Some rich people are buying houses in the city. A sudden influx of money has brought good vitality to Goodwill City.

Steel City:

While every city is peaceful and looking forward to the major event. Steel City was the complete opposite.

Most of the families residing here are part of the Hunter League. Because the Hunter League failed to catch the criminal. The inner circle members' families are disappointed.

They can't even accuse Manager Shaw. As the order was given by the Head Manager. If they dare to question the Head Manager, which is nothing but seeking death.

So they remained silent. But the dark and gloominess have covered the city.

Inside the Hunter League Tower, Manager Shaw was confused as well. It's been weeks since the Head Manager has locked himself.

He didn't know what was going on. The Viper Academy hadn't made any statement so far. He can ask them.

But he was afraid to do so. He thinks that the Head Manager had met the Supreme Elder of the Viper Academy at that time.

Some kind of transaction might have been done. So he didn't dare to step in again.

In the underground room, the Head Manager is slowly recovering. His realm has fallen but no one knows about it.

After returning, he has been focusing on complete recovery. So that he can get his base pack. He didn't care about Hunter League business.

He had already paid with injury. He doesn't want to pay attention to the Viper Academy.

Viper Academy:

In the dorm room, I'm reading a book about lightning. It has become my new habit in the past few days.

After each realm, the breakthrough is getting difficult. Jonathan also failed to find the lightning resources here. Which slowed down my progress.

In the end, he advised me to wait until the end of the year-end conference. Then removing the thoughts, I focused on reading the book again.

Shortly after,

I received a call from the old man healer. There are many injured students admitted there.

After hearing that I sighed inwardly. The name list was already put up. But some people are not giving up.

When the dean announced the name list for the competition. Some are convinced and others are not. But none of them questioned the dean.

Instead, they want to break through before the start of the competition. I shook my head before leaving the room.

My healing hand has improved compared to earlier days. I can treat more patients now.

A few minutes later, I reached the infirmary.

After entering inside, I came across the old healer who was treating a serious patient.

"What happened?" I asked.

Old header turned around and spotted Zack.

"Sigh, these people have returned from the Class-6 Monster Zone," He said.

Hearing that my eyes flickered.

"Class -6 Monster zone?" I uttered in surprise. I have to stay alert when it comes to dealing with the Class 6 Monsters.

These people are nothing but seeking death.

"Alright, you go to the next room," Old healer said.

Hearing that I left before taking a look at them.

In the next room, there are 2 people with gruesome abdomen injuries. When I looked at them. I realized both of them were unconscious.

I walked up to the warrior with brown hair whose condition was worse.

Then I released the healing technique. My right hand palm turned green. Then I place my palm on his abdomen.

Slowly, green energy entered the patient's abdomen. The recovery starts from damaged organs. The healing energy creates a green thin film over the injury.

Seeing that I continued to pour more healing essence. When the green films covered other organs. I retracted my hand and decided to treat the next patient.

Chapter 676 Gathering at the Goodwill City

From MC's perspective:

Viper Academy,

The next day, the dean asked the selected warriors to gather at the academy entrance. After hearing that I realized we are leaving for the internal competition ahead of the duel day.

After leaving the room, I met with Ernest and Laverne at the entrance of the dorm. Fortunately, they got their place in the Final List.

Then 3 of us started walking towards the academy entrance.

"I didn't expect my name to be on the list," Ernest said. A couple of weeks ago, his thoughts were different. He didn't want to participate then.

But later things changed not only in their academy but in other academies as well. He doesn't think that Giant Tower and Eclipse Academy are going to be as domineering as they used to be.

On their side, things have changed for the better because of Carlos Kent. The Special Faction Head doesn't seem to be scary anymore.

"Well, we got one person missing," Laverne said with a sigh.

Hearing that I thought about Michael. Then I shook my head. I will be leaving after the competition. I should find a suitable time to tell them.

Then no one talked about Michael. It will only spoil the mood. Soon, we reached the entrance where we saw other warriors.

"10 Elite and Super Elite Warriors," I said in my heart. I don't know how it is going to be compared with others.

The Red Moon Tower experience gave me a good understanding of the students in other academies.

I have fought with the Giant Tower students before. This time they are going to send the strongest team.

Then there is Eclipse Academy, Silver Clouds Academy, and the White Palace.

Whenever I hear the name "White Palace". The image of Maria Frazier comes to mind. Even during my last hometown visit.

I didn't inquire about the Frazier Clan. I was so focused on the remnants that I almost forgot about her clan.

Too many things happened during my hometown visit. The Hansen Academy's destruction. Coupled with the death of Elder Thornton and Granny Park was too much to handle at that time.

"Hey, what are you thinking?" Laverne's voice reached my ears.

The next second, my thoughts returned to reality. Then I looked ahead. I saw the dean was already here.

She is looking at me. I nodded my head at her.

"Alright, since everyone is here. We can leave," Dean Rebecca said.

"Let's go," I said to Ernest and Laverne. Then followed the group before us.

For this trip, the academy has arranged an airship for the trip. Looking at the black airship, the students let out a cheer.

Then everyone started to board one by one. For this trip, only the dean is coming with us. Carlos Kent is going to stay back.

As there was no Supreme Elder, his presence was much needed in the academy.

The airship has a huge 2 common rooms and other private cabins. Where everyone can be seated.

Instead of entering the room, a few of us arrived at the deck.

"Young master, don't worry. I'm following you from behind."

Jonathan's words reached my mind. Hearing that I shook my head. Jonathan is still worried that Hunter League might take action.

So he decided not to leave my shadow before reaching the teacher's place. My mood is a bit complicated.

I'm also looking forward to entering the inner post. At the same time, I'm feeling down thinking about leaving my hometown, the Academy, friends, and everything.

Suddenly, Uncle James' words come to mind.

"Deceased Parents uh?" I said in my heart. I don't want to think about their background right now.

I don't know whether Uncle James' words contain the truth or not. It feels absurd. Who comes to the barren outer post from the rich inner post?

The reason itself makes me unbelievable. So for now, I'm going to focus on training under a teacher.

On the other hand, Dean Rebecca was aware that the mysterious person behind Zack would follow. That's why she convinced Carlos to stay behind.

She is sitting inside the private cabin. She has been worried about this since yesterday. Compared to earlier days, she feels good right now.

It's all because of security brought by Zack and the person behind him. She knows even if the Supreme Elder was alive. He won't leave the Academy to participate in the year-end conference.

At that time he was already dying because of old age and hidden injury. Now she feels good about the year-end conference.

There is one more reason behind this feeling. She knows that Giant Tower and the Eclipse Academy won't be able to execute their small calculations.

Both the academies have weakened a lot. They won't be able to show their usual arrogance anymore.

After leaving the Academy space, the airship started moving towards Goodwill City. Similarly, the Red Moon Tower also decides to leave earlier.

There is also White Palace who have decided to come early as well.

Time passed,

The Goodwill City was bustling with new visitors every day. Some of them have picked temporary land outside of the city.

Only people with a strong background can do that. They have managed to build up several tents outside the city.

Various rich families have taken this way so as not to miss the year-end competition. Since many rental houses are booked.

They can't use their influence or force inside the city. If it happens it doesn't matter whether it's an Elite level or Super Elite level family. They are going to suffer.

Apart from the Hunter League, people from the Army Federation have entered the city as well. Usually, members of the federation stay outside of the city.

Most of them are stationed in dangerous areas. Including the forest and barren lands.

So their visit has caused a lot of people to raise their eyebrows. Including the people in the Hunter League.

Surprisingly, Zack's name was famous and his background was heard by many people. So the federation people from the nearest place have come here.

Chapter 677 Meeting Maria Frazier

From MC's perspective:

Goodwill City, the day before the year-end conference.

Everyone has arrived before the start of the year-end conference. Strangely, all the 6 big academies are present.

But none of their Supreme Elders chose to accompany them. Both the Eclipse Academy and Viper Academy didn't have the existence of the Supreme Elder.

But nobody knows the truth. Apart from the academy people, people from other small and big organizations are present in this city.

Including the people from the federation and Hunter League.

Manager Shaw is keeping an eye on the information. He is getting updates from the local branch of the Goodwill City.

Even though the Head Manager never showed his presence after that incident. He still keeps an eye on Zack and the people around him.

He fears that a similar situation might happen again. Don't know who revealed the news.

The remnants of the Crimson Hall are taking refuge under the Steel City. And these people are not entering illegally.

Because some of them got serious money. And they are investing in the Steel City. Even if he wants to drive them away, it's difficult to do it under the current situation.

The Goodwill City has attracted a lot of unknown eyes. Rich merchants and some healing organizations have also entered the city.

Each of the academies has its own newly built mansion. Which is enough for 20 to 30 people to stay.

The mansions are not adjacent to each other. But they are located in different directions from the event place.

At the east of the event arena, a white mansion was located. Which is a walkable distance from the event place.

Dean Rebecca and the students have settled down in their room.

Meanwhile,

Inside one of the rooms, 2 people are seriously discussing something.

One of them was Jonathan and the other one was myself.

"It's hard to believe that the Hunter League didn't retaliate," I said to Jonathan.

When Jonathan handled the matter then. I had thought the Hunter League might come again to cause trouble.

But surprisingly the journey was peaceful from beginning to end. Even after coming here, there was no one to bother us.

Now everyone is busy preparing for the event tomorrow.

Then I saw Jonathan still looking at the outside view through the window.

"Jonathan, what happened?" I asked.

Hearing that Jonathan's thoughts returned to reality.

"I'm just checking whether anyone is near," Jonathan replied.

Hearing that I thought of something serious.

"Are you wondering whether the Supreme Elder of those academies might come here?" I asked.

It was a strange thing. There was no reason for other Supreme elders not to come here.

Jonathan shook his head before saying, "Even if they come, you don't have to worry about anything."

But he was thinking about something else in his mind. Master has asked him to return with Zack as soon as possible.

This message he got yesterday. The encrypted message he received was short. There was no extra information in it.

So he couldn't help but think about what was so urgent about it. Before coming here, he had a conversation with his master.

That his master is going to make Zack his representative. The news was not known to outsiders.

He thinks that the Master's family is behind this. They might be waiting for his answer. He knew that the master's family had asked him to appoint someone.

But the Master is waiting for Zack to appear. These things can't be said to Zack right now. It will only add the extra pressure.

On the other hand, I remained silent. Because I have realized something is troubling Jonathan. But he is not willing to reveal anything.

Shortly after, he left the room.

In the evening time,

I met with Ernest and Laverne. We have decided to go out for a walk. Not only us but others also decided to do the same as well.

When we started to roam around the streets. We came across the warriors from other academies. This time, I spotted warriors wearing a white color dress with a silver cloud badge.

There is no need to ask. I immediately guessed their identity.

"Warriors from the Silver Clouds Academy are here," Ernest said in a solemn tone.

Laverne's expression changes as well.

'No matter where you go. You will find people with arrogant attitudes," I said in my heart.

When we are looking at them. The warriors from the Silver Clouds Academy were also looking at us.

Don't know why? They left after looking at us.

"Strange!" Ernest muttered.

"I thought some conflict might happen," Laverne said from the side.

Looking at the disappearing back, my eyes flickered. Their behavior was not normal. It's like those warriors are deliberately avoiding us or it's safe to say that they are afraid of Viper Academy.

I shook my head before walking away from the place. Then we went to a few shops. After spending some time, we have decided to return.

But on the way back, I came across someone unexpected.

"Maria," I said in a surprising tone.

A beautiful lady with light blue hair is buying something in front of the shop. After hearing the name and voice, she turned around to look at the person.

"Zack!" Maria Frazier's face lit up with joy. She is with her WhitePalaces friends.

"She is my friend from my hometown, Maria Frazier," I introduced her to Ernest and Laverne.

Maria is also introducing her friends to us.

Then suddenly, I spotted something.

"Super Elite Peak Stage," I said in my heart. Maria kept her aura hidden. But I can sense it easily. She became stronger than me right now.

My heart set off storms. Which means her talent was not lower than mine.

Suddenly, images of those blood tests conducted in the Hansen Academy come to mind.

I remember meeting her for the first time there.

Right now, her achievements are not lower than mine.

When the introduction was done. I saw her expression change when she looked at me. A hint of complex emotions flashes in her eyes.

"She knows," I said in my heart. The death and destruction of the Hansen Academy and its people.

I thought no one knew about it.

"Ernest and Laverne, if you guys want you can leave. I would like to talk with her for some time" I said to them.

Hearing that Ernest and Laverne weren't surprised. They politely left the place. Seeing that Maria did the same.

When the friends are gone. I looked at her and said, "Let's find a restaurant."

Soon, we found a luxurious restaurant with private space. After walking inside, we entered the private room.

We sat opposite each other and ordered some food.

Soon, the food was placed. And the person who was serving food left the room.

"I heard you have killed a few of those Crimson Hall people," Maria said.

Hearing that I confirmed my doubts. She was aware of the incident.

"Sigh"

"I didn't expect this could happen at that time," I replied with a sigh.

"From where do you learn it?" I asked. Because the communication was blocked due to a boundary. It's difficult to know the hometown news.

Maria nodded her head in understanding.

"It was my father. When the incident was taking place. He and the old butler have managed to save a few people."

"But Arthur and Ms. Key have died while protecting others. Even Elder Thornton was fighting someone powerful at that time."

"My father didn't try to save them. Because the City Lord was leading the destruction," She added.

Hearing that a murderous intent flashes in my eyes. It's like someone opened the old wound forcibly.

Maria's face changes drastically. Even though she is Peak Stage Super Elite Warrior. At this moment, she feels the danger.

"Calm down"

Jonathan's voice reached my ears. It quickly dispelled the murderous intent.

The next second, my forehead is filled with cold sweat.

Even though Jonathan is roaming outside. He is still keeping an eye on Zack. When he saw Maria Frazier. He knew this would happen.

A little away from this luxurious restaurant.

Jonathan is standing at the top of a certain building. He is enjoying the view.

Realizing the last name of the girl. A quick gleam flashes in his eyes.

"Frazier Clan?" He muttered to himself.

Then he looked at her again to confirm something.

"Super Elite Peak Stage at this age. This girl is not simple. Could it be?" Jonathan said in his heart.

Inside the restaurant,

"Zack, I thought about taking revenge as well. But our academy elder also found that someone from the hunter league was behind the scenes at that time."

"When my father learned about the Hunter League. He had warned me not to offend them," Maria revealed the truth with teary eyes.

Hearing that I remained silent. I knew about his father and old butler. Those guys were cautious even back then.

They are cautious even now.

Nothing can't be done now. The Hansen Academy has gone completely. The person responsible for this incident was killed by Jonathan.

"It's time to move on," I said in my heart.

Chapter 678 2 Supreme Elders

?

From MC's perspective:

Goodwill City,

After having some discussion, we left the restaurant. She started walking towards her place. While I'm striving towards the White Mansion.

Earlier, I thought about breaking the news to her. I wanted to tell her about my plans. I'll be entering the inner post after the year-end conference.

But I don't know why I stopped at the last moment. Maria's dad was not simple. I don't know whether he had told the truth to her.

So I don't want to tell her for the time being. When I go to the inner post. The Viper Academy would formally inform everyone.

Besides, Uncle James, I don't have anyone here. Soon, I reached the place and went directly to my room.

Jonathan who was staying outside found the auras of the Supreme Elders. At first, he didn't notice it. But when he decided to check all the white mansions.

He spotted the unusual auras in the camps of Silver Clouds Academy and White Palace. The aura was well hidden inside the mansion. But Jonathan was clear that they were Supreme Elders.

A quick gleam flashes in Jonathan's eyes. He can more or less guess the attitude of other academies. But he didn't have interaction with the Silver Clouds and White Palace.

"They are up to something?" Jonathan muttered to himself. Otherwise, there was no need for them to act separately.

He is not afraid. Whatever they are planning? He decided to see for himself tomorrow.

Then he left the place.

Meanwhile,

Maria Frazier returned to the White Palace's Mansion. When she entered her room. She doesn't know if someone has noticed her.

The person is none other than the Dean of the White Palace, Linda. The dean appeared at the top of the roof.

She appears to be a middle-aged woman in her forties. She was dressed in white and blue attire. She has black hair and eyes. Her skin tone was fair.

Linda knew about Maria's meeting with Zack Lockwood.

"I hope this girl won't attract the attention of the Hunter League," She muttered to herself.

Because the elder who had investigated the Hansen Academy's destruction had notified the dean.

So she knows about the incident. It's just their academy didn't have the power to offend the Giants like the Hunter League.

Now that Maria has met with Zack Lockwood. She furrowed her eyebrows. Many people knew about Viper Academy's conflict with the Hunter League.

The main reason was Zack Lockwood. She knows that a lot of eyes are staring at him. And his meeting with Maria might attract some trouble.

When she is pondering?

Swish!

An old woman with white hair appeared beside her. Her aura was well hidden. Only people above her can see through her.

Feeling the presence, Linda was startled.

"Supreme Elder, What are you doing here?" She asked.

The Supreme Elder of the White Palace is wearing similar clothes. It's just that she looks extremely old. Her name is Marlene. But people who could call by her name were not alive.

"Are you worrying about that kid?" Marlene asked.

Linda calmed down her heart before revealing her worries.

Marlene was calm and composed. She is well aware of the Frazier Clan. So the dean's worries are unnecessary.

"Don't worry about her. Her background was not simple. The hunter league won't bother her," After saying that she disappeared from the spot.

On the other hand, things happened that the Supreme Elder Marlene said. When the spies of the Hunter League local branch reported the news back to Manager Shaw in the Steel City.

He deleted the information after seeing the last name. Though he is not from the inner post. He heard of some influential names. Which was taught to him when he ascended to the position of the manager.

The names were taught so that the manager wouldn't blindly offend someone important. So the name "Frazier" was not simple.

Meanwhile,

The Silver Clouds Academy's dean and the Supreme Elder are planning something.

Both of them are wearing academy clothes which are pure white. The dean of the Silver Clouds Academy is a middle-aged man in his fifties. But his outward appearance is that of forties.

His name is Cooper. He has black hair and eyes. He is standing 6ft tall in height. Unlike the White Palace.

He is discussing with the Supreme Elder inside the study room. The Supreme Elder is an old man. But he is younger than Supreme Elder Marlene. His name is McCarthy.

"Elder, is it real?"

"That no other Supreme Elder has come to the event?" Cooper asked in an exciting tone.

A greedy glint flashes in McCarthy's eyes. Both of them are not good. They are greedy and opportunistic people.

"Harumph"

"I thought that old monsters from other academies would surely come. But I didn't find the presence of a single so far," McCarthy said with a snort.

The year-end conference has always been a place for fighting for resources. Last time, the Giant Tower Academy ranked at the top. Followed by the Eclipse Academy, the Red Moon Tower, the Silver Clouds, the Viper Academy, and the White Palace at last.

Those who ranked at the top would get the right to manage large amounts of resources in this outer post. While those who get ranked at the bottom would get what remained in the last.

The Silver Clouds Academy suffered last time. McCarthy didn't want a similar thing to happen again.

Before coming here, he has been wondering how to solve this problem. But he didn't expect to witness something like this.

There was no Supreme Elder except him. But what he didn't know was he had failed to find the aura of the Supreme Elder Marlene.

Cooper got excited. He can see some turnaround in the rankings this year.

"Supreme elder, what are you going to do?" He asked.

McCarthy revealed a cold smile on his face before saying, "Of course, we have to target the weaker ones."

"The Giant Tower, The Eclipse, and The Red Moon Tower have strong backgrounds. We can't afford to offend them," he added.

Hearing that he was not surprised. As a dean, he knows about some secret information. Some academies are just branches of the main academy in the inner post.

Offending them would be similar to offending the main branch. It's not like their Silver Clouds Academy doesn't have any connections in the inner post.

It's just their connections are weak compared to well-established academies.

On the other hand, McCarthy is thinking about targeting either Viper Academy or the White Palace. Both these academies are similar to their academy in strength and background.

He knows that the Federation is behind the Viper Academy. But he believes that the Federation won't pay attention to small matters.

As long as he doesn't cross their bottom line, he can somewhat target the Viper Academy. It's the same case with the White Palace.

The following day,

The whole city is getting ready to watch the event. Those who bought tickets have started to go to the stadium.

As the time passed, the spectators' spots slowly filled.

The people from the six academies have also left their mansion.

Meanwhile,

At the Viper Academy side, the dean Rebecca called me again to make sure that Jonathan was there or not.

After assuring her, I joined with others. Along with the dean, we started walking to the stadium.

Soon, we reached the place. There are separate blocks built for the academies. Which is the south block. Except for the south block, all the blocks are covered with the spectator's seating.

Inside the south block, there were seats arranged separately for each academy. When we entered inside.

We saw the name of our academy. Near the Viper Academy stand, there are 25 empty seats. Seeing that Dean Rebecca led everyone to that place.

10 Elite Warriors and 10 Super Elite Warriors began to sit down one by one. Dean Rebecca sat down. There are 2 teaching staff who came here to accompany me as well.

"This block got a nice view. We can see the duel ground clearly," Laverne commented.

"It has a nice view but this place will be filled with hostile people soon," Ernest said.

Laverne immediately thought of Giant Tower Academy. Her expression turned solemn. Not only her but others are worried as well.

At this point, everyone has realized that someone is missing in their team. The person is none other than their Supreme Elder.

Which has caused some panic in their team. But Dean Rebecca assured them by saying the Supreme Elder is protecting their academy.

Hearing that everyone's eyes couldn't help but turn towards me.

Feeling the gazes of everyone. I sighed inwardly. Everyone is thinking that the Supreme Elder has stayed back because of the Hunter League threat.

But they don't know that. The Supreme Elder was already dead. Ernest and Laverne also saw the scene.

Suddenly, the dean snorted coldly. Hearing that everyone quieted down. None of them dared to voice out now.

Chapter 679 Everyone gathered inside the block

From MC's perspective:

Goodwill city-Stadium,

Dean Rebecca saw that everyone's expression returned to normal. Then she eases down her eyebrows. She knows that everyone is suspecting Zack.

But none of them knows the real reason. Their Supreme Elder was no more. She has been keeping the secrets tightly.

If not for Jonathan's elimination of another Supreme Elder from the Eclipse Academy. She wouldn't have dared to come here.

On the other hand, Ernest and Laverne were talking to me. But my mind is on something else. Just now, Jonathan told me that there are 2 Supreme Elders in this city.

After hearing that I sensed trouble. I don't know whether it's good to let the dean know. Then I shook my head in denial. Since Jonathan is here, he will take care of everything.

A few minutes later,

The Giant Tower Academy Team enters the place. This time a red-haired person led the students to their seating area.

The red-haired person is the current Headmaster of the Giant Tower Academy. There is no Supreme Elder in their team.

After seeing his appearance, everyone here was shocked.

"Don't you remember? He is the famous red-haired elder. He came to our academy for a student exchange meeting at that time," Ernest said from the side.

A quick gleam flashes in my eyes. Of course, I remember clearly. At that time, I was just an Elite Stage Warrior.

Not only me but the dean was surprised as well. Looking at her expression, I smiled inwardly. I didn't expect the Giant Tower Academy to fall so badly.

Was the Supreme Elder of their academy hurt so badly? Doubt appeared in my heart.

The red-haired elder also saw the students of the Viper Academy. He saw the dean. After nodding at her, he sat on the seat.

The Giant Tower Academy students also behaved normally. No one caused any problems.

As time passes, the team from the Eclipse Academy has walked in as well. They were even more polite. The dean Edgar smiled at the red elder and dean Rebecca before going to their place.

After the coming of the eclipse team, the atmosphere became so strange. The Eclipse Academy people are said to be more arrogant.

But this time their behavior caused a change in the expression of everyone. Everyone's expressions became weird.

Even the students of the Giant Tower Academy are stunned. Red elder understood the reason. He laughed in his heart.

Dean Edgar remained calm. The Eclipse Academy doesn't have the Supreme Elder. It's an unfavorable situation for them.

But he is not afraid. The Eclipse Academy is not without help. Yet the last person who came to help them was left without any word. He is still not clear about the situation out there.

So he has no choice other than to remain silent.

Shortly after,

The people from the Red Moon Tower came. The leading person was the dean Lily Smith. Along with her, Elder Teresa York also came.

Behind them, there are 20 Red Moon Tower Students. Among them, Sallie Mills and Ella Downs are present as well.

"They are here," I said in my heart. I didn't expect the Red Moon Tower to select them. Then I saw the familiar face of Teresa York.

Dean Lily Smith greeted others before leading her students to their seatings.

Ella Downs and Sallie Mills turned towards the Viper Academy area and spotted Zack among them.

A hint of complicated flashes in their eyes. Earlier, they were not clear. But in the past couple of days, they have known everything. Including the reason why Zack has offended the Hunter League.

Both of them didn't expect that members of their former organization would destroy Zack's academy. For them, the news was shocking as well.

After avoiding the gaze, they came to their place to sit down.

The atmosphere became even more awkward. No one is speaking loudly. What's more surprising is that none of the academies have supreme elders with them.

This was noticed by the deans of all four academies. Dean Rebecca furrowed her eyebrows. She knows the current situation of the Eclipse Academy and the Giant Tower Academy.

But she doesn't understand why the Red Moon Tower came without their Supreme Elder. This was on the minds of Dean Edgar and the Red Elder as well.

But they don't know that Red Moon Tower did it casually. Their last year-end conference went well for them. There is no need for their Supreme Elder to come here.

And these academies here don't dare to offend them as well. It's because their academy is a branch of the main academy in the inner post. Even if they don't get resources here.

They will get annual resources from their main branch. So there is no problem for them. For them, it's a kind of participation here.

10 minutes later,

The White Palace Team walked in. Dean Linda is leading the team. But there is an old woman beside her. She was so old that her appearance immediately attracted attention.

"Supreme Elder!"

The deans of the other 4 academies stood up to greet her. The students behind them were terrified as well. They are looking towards the old woman Marlene with fear and a thrilling gaze.

The Supreme Elder is an existence that not everyone can see and meet. This time the students from other academies got the chance.

Even the dean Lily Smith from the Red Moon Tower showed respect. Like them, the White Palace has its main branch in the inner post as well.

Though their performance was weak last time. No one underestimates the White Palace here. The deans have understood the reason behind the Supreme Elder's presence.

No one can target the White Palace with her presence here.

"Maria Frazier" Sallie spotted someone familiar. Ella Downs saw her as well. Both of their expressions have become ugly.

They knew who Maria Frazier was. During the Odyssey Monster Zone Competition. They have spotted her there as well.

As far as they know she is a classmate of Zack Lockwood. Just as they recognized her. Maria Frazier also saw her as well.

They didn't expect that former friends would meet in this way.

The old woman Marlene nodded at everyone before the White Palace team went to their area.

When they are all seated. They saw all the teams were present except one team. Just as everyone is wondering.

The Silver Clouds team appeared with their dean Cooper and the Supreme Elder McCarthy. Their appearance shocked everyone. This team came with their Supreme Elder as well.

The expression of the dean Rebecca changed slightly. First, the White Palace and now the Silver Clouds Academy. She knows that White Palace doesn't want to get the bottom place this time.

But this Silver Clouds Academy's Supreme Elder's presence makes everyone suspicious. Compared to the White Palace, the Silver Clouds might bring trouble to everyone.

"He...He....He...," McCarthy laughed in his heart.

His eyes swept across everyone. When he saw an old woman named Marlene. His pupil shrinks. Then he retracted his gaze.

"The old hag is here," McCarthy said in his heart.

Yesterday, he didn't see her. After glancing at everyone, he revealed a smile before the Silver Clouds walked into the area.

Dean Cooper's face was full of smiles. He saw there was no supreme elder here except the White Palace's old hag.

But he knows their Supreme Elder can handle her.

After everyone settled down, four middle-aged people walked in. Each of their auras are SSS-Elite Stage. They are the organizers of the year-end conference.

The person standing in the middle has a bald head. He stepped forward and said, "Elders, I guess we can directly start the duels for the elite stage and Super Elite Stage."

"The rankings will be decided by the top 6 places."

Hearing that all the deans have agreed. The two Supreme Elders agreed as well. Supreme Elder McCarthy decides to wait before targeting anyone.

The appearance of the Supreme Elder Marlene spoiled his plan. He didn't know someone was already staring at him. The person is none other than Jonathan.

Jonathan is in the stadium as well. But he is seated among the spectators. From there he can see the block where the academy people are staying.

He is watching the movements of McCarthy. In his opinion, the White Palace won't cause any trouble. He is aware of a similar academy at the inner post as well.

If that person decides to do something, he can always move.

Block,

When the organizer left the place to announce the match. Dean Cooper set his gaze on the Viper Academy. Viper Academy was one of their targets.

Seeing the Viper team without the Supreme Elder. His mouth curves into an arc. Then he saw someone popular. The person is none other than Zack Lockwood.

A good idea comes to his mind.

He then informs the Supreme Elder McCarthy. McCarthy's eyes flickered. He looks at the Viper team before asking, "Dean Rebecca, what happened to the old Supreme."

"I miss him greatly," He added.

Chapter 680 Elite Rank Duels

From MC's perspective:

Goodwill City-Stadium,

"Should I call Jonathan?" I said in my heart. I don't like the gaze of people from the Silver Clouds Academy.

They are even worse. When it compared it to the attitudes of the Giant Tower Academy.

"What to do?" Ernest muttered beside me. But I know he won't dare to do something here. It's going to be a similar verbal confrontation here.

Besides, Jonathan was here. If there is an attack, he won't stay silent.

The Supreme Elder McCarthy's words stunned everyone. They didn't expect him to start his attack. Dean Cooper revealed a wild. He is expecting some show.

Quiet!

The atmosphere quieted down. There is a pin-drop silence. Before the Supreme Elder, the students dare not to say anything.

The faces of Red Elder from the Giant Tower Academy and Dean Edgar from the Eclipse Academy change drastically.

The last thing they wanted to do was to offend the Viper Academy people.

"If that person exists, then the old man won't return in one piece," Red Elder said in his heart. He is hoping that the people of Silver Clouds won't drag them in.

The dean Edgar was scared as well. The worst thing has happened to him. He doesn't know who killed their Supreme Elder Cameron.

But he knows he disappeared after visiting the Viper Academy.

"I shouldn't have come here," Edgar said. Both of these people have cold sweats on their foreheads.

On the other hand, the rest of the academy people turned towards Dean Rebecca who showed no change in expression on her face.

When she saw the Supreme Elder McCarthy earlier. She knew this would happen. So he became ready for this question.

Under the gaze of everyone, she revealed a bright smile before saying, "Supreme elder, it's an honor to meet you. But our Supreme Elder is the oldest among all. So he can't leave our academy at this time."

Hearing that others weren't surprised. Especially the Supreme Elder Marlene of White Palace. She has speculated something like this. She thinks that Viper Academy's dying Supreme won't have the energy to handle all this.

But the real problem for the Viper Academy starts when their Supreme Elder falls for real. Then the Viper Academy would face danger. Their status might be affected.

The Red Moon Tower remained silent as well. For them, it's a normal conversation between the rival academies.

But the Supreme Elder McCarthy sneered. He expected this answer. But it left the Viper Academy without protection. If he wants he can always attack them.

"Harumph," After giving a small snort. He didn't start another topic. The expression of Dean Cooper became ugly. He thought that the Supreme Elder would continue to do something.

Then he felt the gaze of the Supreme Elder. After looking at him, he understood. There is still time available for them. They can start whenever they want.

10 minutes later,

The organizer came up with the matchups. The matchups are arranged automatically. They were displayed on the big screen.

There are 60 Elite Warriors. One warrior would have 2 or more duels to fight. But it can't be helped. The matchups were arranged randomly.

For the 1st duel. The names of the Elite Warrior from the Red Moon Tower and the Giant Tower Academy are shown.

The names are being displayed on the outside big screen as well.

Cheer!

The spectators who are already waiting for the duel to start let out a thunderous cheer. Among them, there are residents, visitors from other big cities, and also people from the federation and Hunter League.

People from other known and unknown organizations have come here.

They may not be here on the official visit. But the year-end conference is something prestigious for them to watch.

Not in energy day life you can get to see the powerhouse. Even in the Tier-6 Cities of these academies, the people living there won't have the opportunity to see the top management of the academy.

But here in this stadium, everyone is present. So people are excited about this competition for many reasons.

Block!

Dean Lily Smith motivated the students to do well.

Hearing that a golden-haired elite warrior stood up from the seat. After greeting the dean and others, he walked to the entrance of the duel platform.

Similarly, the warrior from the Giant Tower Academy stepped out under the gaze of the red elder. The rest of them are watching the duo in interest.

The first duel is between the 2 interesting academies. Both of them have strong backgrounds and have ties with inner posts.

Dean Lily Smith's eyes flickered. She is looking at the red-haired elder. She knows about this person. She was expecting to see their Supreme Elder.

Strangely, he has become the Headmaster and there was no sign of their Supreme Elder. According to their academy, things have changed after they clashed with the Viper Academy.

The same thing can be said for the Eclipse Academy. They are showing a change in attitude after having some contacts with the Viper Academy.

It's not a secret that their Supreme Elder Cameron has a bad relationship with the Viper Academy's Supreme Elder. So mystery lies with the Viper Academy.

Unknowingly, her eyes fell on Zack Lockwood. A quick gleam flashes in her eyes. During their student exchange meeting, Zack had to return to his academy for some reason.

She wasn't able to see through him at that time. Maybe this competition can reveal something.

Teresa York is sitting behind her and is having the same thoughts. There are not many people who can make her interested. Especially after Zack's problem with the Hunter League.

She became more eager. Even the academy has to think twice before offending them. But Zack has done it. Which itself says a lot more about Zack's background.

They are not afraid of the Hunter League. Especially the Hunter League's recent silence speaker more about the situation.

There are a lot of eyes in this room who are scrutinizing Zack Lockwood. Because of the dean Rebecca's presence. No one dared to be rude.

When the participants reached the platform. Then everyone's gaze fell on the big screen.

Outside,

The Red Moon Tower Warrior stood opposite the burly student.

The platform was laid down with hard stones. It's not easy to break down. One of the organizers became the referee. He has the strength of SSS-Elite Rank similar to any of the deans here.

Which itself gives a big face to the top 6 academies. Both the participants became solemn as well. They won't be able to do any trick under the eyes of the SSS-Rank Warrior.

The referee did something. In the next second, an invisible barrier began to cover the duell platform.

Quiet!

Inside the barrier the place became silent. The barrier not only can block attack but also noise. It can stop the warriors from distraction.

When the referee gave the signal.

The Giant Tower Warrior let out a shout before his body began to be covered with golden color film. It's one of the inheritance powers of the Giant Tower Academy.

Only selected core people are eligible to learn the inheritance methods of the Giant Tower Academy. Which shows the position of the burly student in Giant Tower Academy.

The Golden-haired Warrior acted as well. Red flames came from his palms. Which shows that he is a fire elemental warrior. But his fire is not an ordinary one which is more dangerous than mutated fire.

Inside the block,

"This!" The visuals shocked the deans and knowledgeable students. Even the 2 Supreme Elders' eyes flickered.

Only the Dean Lily Smith revealed a small smile on her face. She knows better than anyone else. The red flames not only result from the warrior's element. But also because of their Red Moon inheritance.

Not many male warriors can practice their method. That's why they have more female students. But this golden-haired male elite warrior is rare. Because he showed good compatibility with their inheritance method. The red flame of his was the best proof of this.

The red elder's face turned solemn. He knows the horror of those who practice inheritance methods. Most of the students from different academies here have practiced the inheritance method.

Which sets them apart from other students. The burly student of the Giant Tower is not simple either. The Golden cover shows that he has inheritance power.

On the duel platform,

The Burly student started charging against the warrior.

When both came into contact with each other. The Red Moon Tower Warrior attacked him with the red flame. His right-hand palms are covered with a burning red flame.

As his palm touches the opponent's chest.

Boom!

A deafening noise sounded on the platform.

The opponent's chest was protected by the golden film. But the red palm has left a dark spot in it. After the first attempt, both of them retreated backward.

Cheer!

Looking at this scene on the big screen. The crowd let out a roaring cheer. The first confrontation between them showed that both of them were strong.
