Chapter 681 Red Moon Tower's win

From MC's perspective:

Goodwill City-stadium,

Both of the elite warrior tried to test each other. But both of them seems to be strong. Not less than each other.

Seeing the red hot flame of the Red Moon Tower Warrior. My eyes flickered. The red energy alone is domineering. But this guy's fire element is different than normal fire.

It's not going to be easy to suppress with the normal element. I don't know how my purple lighting would act against the Red Moon Tower Warrior.

The other hand, the Giant Tower Warrior is not simple either. He didn't reveal his element. If it was metal element, then his power is going to be destructive as well.

Not only me, others are glued in as well.

The Red Elder of the Giant Tower Academy was silent. But he spotted the black spot on the golden cover. Which shows the power of Red Moon Method.

"He have to fight smartly," He said in his heart. None of the warriors here are simple. The usual fighting style won't help anyone to win the duel.

The same thing was seen by the dean of the Red Moon Tower. Dean Lily Smith was not overconfident about her student. But anyone can see that the elemental advantage is there.

As long as her student fight normally he will easily with his elemental advantage.

Seeing the prowess of the 2 students. The expressions of rest of the elite warrior changes. They are judging themselves. Because the 2 warriors have revealed that they have practise inheritance method.

So no average warrior can defeat them.

On the Silver Clouds side, the dean Cooper's expression was ugly. There is no change in the Red Moon Tower and Giant Tower student's strength.

Their team was not different from the last time.

The dean cooper thought they can only target the bottom academies.

On the platform,

The Burly Giant Tower Warrior was able to guess the strength of the opponent. The next second, his skin is turning into silver color.

This is one of the common defense technique practised by the Giant Tower Warriors. But the combination of inheritance power doubles the strength.

Seeing the changes, the crowd exclaimed in a surprise.

The next second, he exploded with a great speed and then started charging towards the opponent. This time his movement speed was fast. Double than before.

The Red Moon Tower Warrior's eyes flickered. He has guessed the silver color skin is the result of metallic element. Which makes the opponent even more powerful.

This time he has covered both of his palms with fire element. When both of their image shown on the screen.

He looks lot more thinner compared it to average warrior. When compared it to burly warrior coming towards him. He seems to be weaker.

But no one underestimates him. When both of them collided against each other.

Boom!

The deafening sound reverberated through out the area.

The Red Moon Tower Warrior retreated several steps backward before stabilizing himself. He is looking at both of his palm in surprise.

He is feeling numb.

On the other hand, the Giant Tower Warrior is observing his condition as well. The black spot was thicker than before.

Anymore strengthening will weaken the golden cover. Without the protection of the golden cover. The Giant Tower Warrior will have to rely on his metallic element.

As the time passed, both the warriors collided again one after another. But each time, there was no clear winner.

The power of the Red flame seems more destructive. But the golem cover defense is working well.

10 minutes later,

A change happens. The Goldel cover breaks. The protective cover around the Giant Tower Warrior disappears.

Gasp!

Seeing that crowd exclaimed in a surprise. Everyone was waiting for this moment.

The Red Moon Tower Warrior smiled wickedly before proceeding to attack. He has been cleverly saving the essence for this moment.

If the essence runs out, it will be over. Compared it to him, the Giant Tower Warrior is losing essence rapidly.

Now the golden protection was gone. He is going to use the essence more.

In a blink of an eye, the Red Moon Tower Warrior got closer to him and then raised his fist to punch.

As his flame covered fist hits the opponent's body. The metallic skin failed to block the attack. The targeted spot turned pitch black like an hidden injury.

Argh!

The Giant Tower Warrior let out a muffled grunt before retreating backward. Now the Red Moon Tower Warrior is showing horror of his flame.

The Giant Tower Warrior stabilized his movement quickly.

Next, the confrontation happens again. The Giant Tower is getting more and more black spots on his body. And each time he is letting out a grunt.

At one point, the giant tower warrior gives in. Anymore injuries in his body would damage the foundation.

Fortunately, the red moon tower warrior didn't target one particular part. Otherwise, his injuries would have been serious.

The referee declared the warrior. The next second, the barrier brought down. An healing team arrived quickly to take away the Giant Tower Warrior.

People with discerning eyes can see that those injuries are not normal. If not treated quickly, it might cause problem to the foundation.

Cheer!

On the other hand, the crowds are letting out a roaring cheer. For them the duel was amazing. If not for the announcement on the screen, they wouldn't have believed that it was the duel between the Elite Warriors.

The methods and fighting style shown by them can't be seen anywhere. Those rogue warriors who are traveling alone in their path can't hold a candle against the warrior properly trained by the academy.

Any of their attacks can easily kill average elite warriors.

Among them, Jonathan was present. But he yawned. In his opinion, the duel was boring. Both the warriors have used same attack again and again.

In the end, one of them ran out of oil. And then the winner was decided.

For him, it's a waste of time.

Chapter 682 Plan to humiliate

From MC's perspective:

Goodwill City-Stadium,

Jonathan then looks at the block. In his opinion, not that many warriors can caught his attention.

Even Zack was selected by master because of the lightning element. Zack has become Super Elite Warrior by living in this outer post is not an easy thing.

If he had born in the inner post, he could have reached the SSS-Elite by now. Compared it to those average warriors in the inner post. Even the genius warrior born here are pale in comparison.

Block:

Dean Lily Smith reveals smile on her face. The win was expected. But the resilience of the Giant Tower Warrior. Even after getting so much hits, he had tried his utmost to remain on the platform.

Like she has predicted the better element won the duel.

The red elder sighed. Looking at the Giant Tower Warrior, he showed appreciative look. At least, the Giant Tower warrior put forth a brave fight. The defeat was not that embarrassing.

5 minutes later,

Next match up was announced on the screen.

The 2nd duel was between the Silver Clouds Academy and the Viper Academy.

When the name was shown on the screen. A small commotion happens. Everyone is looking towards the Viper Academy.

"It's our tune," Ernest said from the side. Dean Rebecca looks towards the elite warrior on our side and said some encouraging words.

But the elite warrior was slightly nervous. He is from the gale faction. He fought well back in our academy.

So everyone is quite optimistic about him.

On the other hand, the Silver Clouds Academy are quite confident.

Dean Cooper is giving advise as well. But his advise is more like how to defeat the opponent shamefully.

The Supreme Elder McCarthy said some encouraging words as well. Hearing that Silver Clouds' Elite Warrior became more enthusiastic.

Looking towards the Viper Academy's side. His eyes become even more cold. Seeing that Dean Cooper and the Supreme Elder showed appreciation.

Their Elite Warrior have understood the assignment.

Rest of the people have understood the meaning. They are looking forward to the show.

Maria Frazier's expression changes drastically when she saw the intention of the Silver Clouds people. They are deliberately going to target the Viper Academy.

Everyone has seen it. But no one is going to speak against them. Because they have Supreme Elder's presence here.

Then both the warrior left the place.

Teresa York is looking at Viper Academy side. Don't know what she is thinking. Ella Downs and Sallie Mills remained silent as well.

They felt grateful that they have chosen the Red Moon Tower. No outsiders can bully the Red Moon Tower.

The Supreme Elder Marlene didn't say anything. She is the Supreme Elder of the White Palace. If Viper Academy have problem, they can always invite the dying old man.

But she doesn't think that he would be able to come.

Meanwhile,

The Red elder broke out in cold sweat. The scenes of Tower City's destruction clearly vivid in his mind. Their former head master's corpse was found on the ground.

It was unrecognizable at that time. Even their protective formation had failed to protect their Supreme Elder. He was injured badly. Whoever attacked them was taught them a lesson.

Otherwise, their Supreme Elder would have died back then.

But now looking at the Silver Clouds people. He couldn't help but curse at them. They are asking for dying.

The Dean Edgar was even more speechless. He thought that brains of Silver Clouds are stopped working.

They may not be leaving the place in one piece.

Outside,

Jonathan is observing everything. He revealed a smile on his face. As he has expected some one from the six academies is causing the problem.

But he didn't acted at this time. He is going to wait for sometime. If the Supreme elder takes action, he will move then.

On the platform,

The Viper Academy warrior walked up to the stage. The Silver Clouds Warrior stood opposite him.

He revealed a wild grin on his face. Before coming here, the dean Cooper has instructed him to thrash the opponent.

If he did well, he might get reward from the dean Cooper.

Who knows the Supreme Elder might reward him as well. As thoughts flash through his mind. His eyes turned cold.

The Viper Academy warrior kept his nerves. He knows this duel is different. The warrior that he is going to face is many times stronger than the Academy warrior.

When the barrier enveloped the platform. The referee gave the signal.

The next second, the Viper Academy Warrior disappeared from the spot by using his movement technique.

The Silver Clouds warrior carried indifferent smile on his face. He saw the opponent is rushing towards him. He let it happen.

Cheer!

The crowd let out a roaring cheer. They are eager to see what's going to happen next.

When the Viper Academy Warrior got near the opponent. He raised his hand to attack. The next second, several wind blades released from his hands.

Swish!

The wind blades reaches the opponent in a blink of an eye.

The Silver Clouds Academy Warrior remained in the same position. He let the wind blade to hit him directly.

Boom!

A deafening sound reverberated through out the area.

The barrier immediately blocked the aftermath.

But the Silver Clouds Warrior didn't suffer anything. Those wind blades didn't hurt him at all.

When they hit his body. He used his own wind element to counter attack them. But it was fast no one noticed it clearly.

Except the academy people and other strong warrior. For rest of them, he had done nothing.

When the dust settled down.

Everything became more visible. Seeing that Silver Clouds Warrior was fine.

Gasp!

The crowd exclaimed in a disbelief. They don't know what happened.

The Viper Academy Warrior's expression turned solemn. He finally realizes something. The opponent's element was wind element as well. It's not going to be easy to win.

The Silver Clouds Warrior grinned from ear to ear. Next, instead of attacking. He wants the opponent to attack him again.

Chapter 683 Crossing the line

From MC's perspective:

Goodwill City-Stadium,

On the duel platform, the Viper Academy bombarded the opponent with more wind blades. The wind blades are sharper and stronger than before.

It seemed like the Viper Academy warrior didn't keep his hand. When the attack hits the opponent.

Boom!

One deafening noise after another sounded. Until the last wind blade hits the opponent.

Aftermath hits the barrier as well. But nothing happened. When the smoke settled down.

The Silver Clouds Warrior's image became visible. He remained unscathed like the previous time.

Gasp!

The crowd exclaimed in a surprise. This time the Silver Clouds Warrior didn't suffer as well. Everyone realized that there was no suspense in this duel.

The Silver Clouds Warrior is stronger than the Viper Academy. But people with discerning eyes can see that the Silver Clouds Warrior is taking time.

If he wanted to, he could have won the duel in the first move. But he has been on the defensive mode from the beginning.

Inside the block, the faces of the Silver Clouds Academy people are full of smiles. Dean Cooper is looking towards the side of the Viper Academy from time to time.

"He is not going to leave like that," Ernest muttered from the side.

Everyone can see that the Viper Academy's Elite Warrior won't end well.

A quick gleam flashes in my eyes. Should I tell Jonathan? A question appeared in my heart. Then I decided to see the duel further.

Dean Rebecca is angry in her heart. It's now clear to everyone that Silver Clouds Academy people are targeting them.

On the duel platform,

The Viper Academy Warrior retreated backward. He confirmed something in his heart. The opponent can take his second attack directly.

Which shows that the opponent is stronger. A thought of retreating flashes in his mind.

The Silver Clouds Warrior's face became serious. He saw through the opponent's thoughts.

Swish!

He disappeared from the spot. In a blink of an eye, he got closer to the opponent. From outside everyone saw that a breezing wind went forward.

Before the Viper Academy Warrior could block. A terrible crisis hit him. When he wants to step back. A powerful windstorm hit his body.

Boom!

The next second, his body flew backwards like a broken kite before his body smashed into the barrier.

Opposite to him, a whirlwind stopped.

The next second, the wind disappeared. The figure of the Silver Clouds Warrior appeared.

He saw the body of the Viper Academy Warrior crash on the ground. The opponent's clothes are riddled with holes.

Bloody injuries can be seen on his body.

Gasp!

A loud exclamation sounded outside. The wind attack was so fast that most of them only saw the whirlwind moving fast.

But within seconds the opponent's bloody body was on the ground.

Quiet!

The next second, the place becomes quiet. Now everyone can tell that the situation was not normal.

If the Silver Clouds Warrior is this strong, then why is he taking so much time.

Then everyone saw a change in the situation on the platform. The Viper Academy Warrior coughed up blood.

Wiping out the blood, he is trying to get up. But the opponent didn't give him that chance. He released the technique again.

A whirlwind formed again within seconds.

Seeing that the Viper Academy Warrior's pupil shrinks. He tried to escape by releasing the movement technique.

But before he could move. Under the gazes of many people. A powerful whirlwind hits his body again.

Boom!

The terrible noise sounded again.

Quiet!

But this time there was no cheer. The audiences were silent. They can see some kind of enmity here. The Silver Clouds Warrior is purposely beating down the opponent.

The organizer on the ground who was acting as one of the referees is looking at the Viper Academy Warrior.

As long as he accepts defeat, he can save him. More than these people. He is scared for his life. If you react late, then it would be troublesome.

He doesn't want any of their Supreme Elders to come after his life.

Meanwhile,

The atmosphere inside the block became tense. All it needs to spark is to cause conflict. But the Viper Academy doesn't have a Supreme Elder with them.

So the Silver Clouds Academy is clearly winning the situation.

Dean Rebecca is clenching her fist.

On the other hand, the faces of Viper Academy Warrior are not good looking as well. This might hit their confidence.

"Shameless people," Laverne uttered. She has been silent the whole time. Even she opened her mouth.

Suddenly, I found a piercing gaze on me. When I followed the gaze. I saw the dean Rebecca is looking at me.

After meeting my gaze, she types something in her watch.

On the platform, the beating of the Viper Academy Warrior continues to take place.

Beep!

When I received the message. I opened it to read it immediately.

After reading the message, a look of understanding dawned on me. She wants Jonathan to take action. Because the duel was being watched by many people.

Including the people back in the academy.

Then I showed no hesitation before sending a message to Jonathan.

Outside,

Everyone is quiet. People are witnessing the horrible scene. The Viper Academy Warrior's face was full of blood.

But at the last moment, he gathered energy to shout out loud and admitted defeat.

Cheer!

Hearing the audiences who were silent a few minutes ago let out a roaring cheer.

The referee brought down the barrier quickly before giving the injured a healing potion.

At the same time, Jonathan also receives the message. But he doesn't need to take action. The duel was over already.

The medical team quickly arrived to take him away.

The Silver Clouds Warrior was disappointed. But anyway, he has completed the task. He will be rewarded by the dean.

Then he left the platform and walked towards the block.

The referee wiped out his forehead. He thought something bad was going to happen. Fortunately, the duel was over and no conflict occurred.

The audiences recovered again.

Chapter 684 McCarthy's turn to get humiliated

From MC's perspective:

Goodwill City-Stadium,

The tense atmosphere inside the block didn't reduce.

But a hint of relief flashes in Rebecca's eyes. She was thinking that a fight may break out. Thankfully, the duel was over.

She knows that this is not the end. The Silver Clouds Academy might target them again. That's why she had sent a message to Zack. So that person behind him can help in time.

On the other hand, the Red Elder's back was drenched in cold sweat. He was worried about the Silver Clouds Academy's scheme against the Viper Academy.

Imagine, if that powerhouse appears, he might target everyone. He is cursing at the dean and Supreme Elder of the Silver Clouds Academy in his mind.

He hopes that these b@stard won't drag everyone to pit.

Similar thoughts are appearing in the mind of Dean Edgar. He thinks that Silver Clouds Academy didn't have an intelligence unit.

If any Academy has a proper intelligence unit, they can see that the Viper Academy is not normal. They have a mysterious backing.

Now he thinks that the fate of Silver Clouds Academy has already been sealed.

Other academy's are silently watching the fun. This situation is normal in the year end conference.

Usually, this small fight happens between the Supreme Elders of all the academies. But this time the situation is different.

At this time, the Silver Clouds Warrior made an entrance.

"Ha...Ha...Ha..., you did well."

"I'll give you the best reward after returning to the academy," Dean Cooper said with a laugh.

The Supreme Elder McCarthy didn't speak. But he nodded his head at the student. Which is already great for him.

Seeing the faces of the rest of the academy became weird. This time everyone thought that Silver Clouds Academy was crossing the bottom line.

Before everyone could discuss. The next matchup was announced. It's the duel between the White Palace Warrior and the Eclipse Academy.

Seeing that everyone became interested once again.

Because it's the duel between the top 2 academies.

A female warrior from the White Palace stood up. She has a veil covering her face. But everyone can see that she is confident in her walk.

At the same time, a warrior stood up from the Eclipse Academy. Dean Edgar warned the student by saying don't act like the Silver Clouds Academy.

The Male warrior was not dumb. The White Palace got the Supreme Elder here. He will not offend them.

On the other hand, the Viper Academy people got a sigh of relaxation. It was not their turn. Everyone thought they would suffer the same fate as their team mates.

But fortunately, the match up was different this time.

Behind them, I'm texting Jonathan. I don't want a similar thing to happen again. Because I can't ask Jonathan to break the barrier to save someone.

It would be too eye-catching. If Jonathan teaches the lesson to the Silver Clouds Supreme Elder. It would be good.

I also spotted the dean Rebecca looking at me from time to time. Then I sent her the message as well.

Ernest and Laverne were shocked. They saw the name of dean on the communication watch from the corner of their eyes.

Both of them are shocked to the core. Who is the dean Rebecca? No one can meet her normally. But here they saw something different.

They knew Zack can speak to Dean Rebecca whenever he wants. But they didn't expect Zack to text at this moment.

Outside,

Jonathan closed the message before standing up from the seat. After exiting the place, he started moving towards the block.

In a blink of an eye, he appeared above the rooftop of the block. No one has a clue that someone is entering the place.

Even the Supreme Elders failed to notice his presence.

On the other hand, the White Palace Warrior and the Eclipse Academy Warrior arrived at the duel platform on the ground.

The Supreme Elder McCarthy who is happily watching the duel. Suddenly, he receives the mental note.

[COME TO THE ROOFTOP OF THE BLOCK]

Hearing that his expression changes drastically. "Who?" He said in his heart. Then he looked around.

Apart from Marlene, he didn't see any other Supreme Elder. Then his gaze fell on the Viper Academy side.

"Did the dying old man come?" He said in his heart. He thinks it might be the case. Everyone must have seen the previous thrashing of the Viper Academy Student.

It might be the reason for the Viper Academy Supreme Elder's turn.

"Even if you are here, I'm not afraid," McCarthy muttered in his heart.

Then he stood up from his seat and started walking towards the exit.

On the Viper Academy side, I raised my eyebrows in surprise. "He is leaving," I said in my heart. It must be the work of Jonathan.

Even the dean Rebecca was surprised.

Rest of the people are confused. The Supreme Elder Marlene frowned. She thinks there is no reason for McCarthy to leave.

Especially she noticed his facial expression. Which seems to be serious as well. She was always on the guard. She thinks that McCarthy was up to something.

He has already targeted the Viper Academy. Who is going to be his next target? After some thought, she gave up. She thinks that because of her presence.

There is less likelihood of getting targeted by him.

At the same time, McCarthy walked out of the building.

Swish!

He took a step forward. The next second, he appeared on top of the building. When I arrived at the top. He saw no one there.

"Where is that dying old man?" He said to himself.

The next second, a sense of crisis hit his body. Before he could think of the future.

Plop!

Someone slapped his face. The slapping sound was so loud. That he got stunned for a moment.

McCarthy's eyes reddened in anger. One side of his face was swollen. Not only that he felt a sense of dizziness.

When he got clarity, he realized someone attacked him.

"Who?" He shouted out loud and started looking around. But no one was here.

Chapter 685 Part 1: White Smoke vs Brown layer

From MC's perspective:

Goodwill City-Stadium,

McCarthy wasn't able to find who attacked him. All of a sudden the other side of the face was slapped by someone again.

Plop!

After getting the hit, he retreated a few steps backward. Now both sides of his cheeks are swollen. This time there was no anger on his face.

Instead, both of his eyes showed fear. He felt something in his mouth before taking out the broken teeth. Seeing that he shuddered in fear.

"Who are you excellency?" McCarthy asked.

This time he realized someone was there. But the person is not willing to show his presence.

Jonathan was deeply hidden in the surroundings. He thought that the lesson was enough. If something happens to McCarthy, people will cancel the event.

He doesn't want that to happen.

[Don't target the Viper Academy anymore. I'll monitor your actions.]

A mental note reached McCarthy's mind. Hearing that he felt goosebumps all over his body.

"Viper Acade...", He started stuttering. His guess was right. The person was related to the Viper Academy. But he is not the dying old man.

He knows about the dying old man's strength. At this stage, the dying old man was not his opponent. That's why he confidently targeted the Viper Academy.

But it seems like his plan was wrong. There is some other powerhouse behind the Viper Academy. Adding the existence of the dying old man then the Viper Academy has 2 Supreme Elders.

His back was drenched in cold sweat. Looking around, he started asking for forgiveness. Unintentionally, he has brought damage to the Silver Clouds Academy.

Fortunately, it was not too late. The person's mental note was a sign of warning. He can't target the Viper Academy anymore.

Then he said, "Your excellency, me and my academy won't interfere in Viper Academy's affairs anymore,"

He made it clear. In this way, no misunderstanding would happen.

Then he touches his swollen face before making some decision.

On the duel platform,

The duel has started. Both the opponents are looking at each other.

The Eclipse Academy warrior was not eager to start. He has heard of the White Palace before. Though their records are not great. But their warriors are not someone to be underestimated.

The warriors that came this time were especially strong.

The female warrior of the White Palace released her weapon.

Swish!

The next second, a sharp blue short dagger appeared in her right hand.

In the next second, the temperature inside the platform rapidly decreases. Everyone can see the appearance of white color fog.

Block:

Everyone recognizes the infamous white fog. It was appearing because of the White Palace's inheritance. Unlike the Red Moon Tower, the White Palace requires a weapon to practice its inheritance method.

Dean Linda showed a smile on her face. Usually, people expect the Super Elite Warriors to showcase the power of inheritance.

But this time, the elite warriors of each academy are showing their inheritance power. And their White Palace is not behind in this regard.

The Supreme Elder Marlene eases her eyebrows. She was thinking about the reason behind McCarthy's disappearance. But the scene in front of her pleased her.

As long as such talented students exist, their White Palace will continue to flourish.

On the other hand, Dean Edgar was not surprised. Though their Eclipse Academy is not known for having exclusive inheritance methods.

But the Eclipse Academy has its own merits. The Academy is standing as one of the top 6 academies because of the countless contributions made by many clans and families.

In their inventory, they have many special techniques which cannot be found in other academies.

On the platform,

The Eclipse Academy warrior released the special technique. His skin changes color into deep brown. In a blink of an eye his whole complexion changes.

Seeing that everyone thought he was an Earth element warrior. They are right but that's not the whole situation.

The next moment, the Eclipse Academy Warrior releases small-sized boulders and shoots towards the opponent.

Seeing the female warrior's face turned solemn. She started to evade the boulders one by one.

Boom!

Those boulders went past her and hit the empty platform. One after another the noise reverberated throughout the area.

At the same time, some other changes are happening inside the platform. No one notices the white smoke covering the platform.

While evading the attacks the White Palace warrior slowly releases her inheritance power.

As the time passed, the white smoke quickly covered the platform. No normal eyes can see through the white smoke.

The Eclipse Academy Warrior's face turned grave. He realizes that it's not ordinary smoke. It's some kind of attack.

He noticed it earlier. But he didn't pay enough attention to it. Now he realizes that white smoke can affect his body.

Then he ran the special technique again. The brown skin becomes even more dark. If someone looks closely they can see that the white smoke was unable to penetrate the skin. It was firmly blocked by the brown skin like a protective layer.

Block:

The deans of the academy are surprised. They can see clearly what's happening inside the platform. The White Palace's white smoke inheritance is not affecting the opponent.

Dean Linda frowned before squirting her eyes. She then saw the work of brown skin.

"Special Technique," She uttered.

Her words fell in the ears of everyone. The dean of another academy nodded their heads.

Dean Edgar is carrying a small smile on his face. Unlike other academies, they have various special techniques. Some of the techniques can play counter against their inheritance.

Like in this particular duel, the White Palace's inheritance smoke won't be able to defeat the opponent.

On the Viper Academy side, I'm paying close attention to the duel. It has become the best learning experience. Apart from the Red Moon Tower and Giant Tower inheritance.

I'm seeing the White Palace's inheritance for the first time. Also, the Eclipse Academy warrior is showing some interesting techniques.

Ernest beside me is quite knowledgeable. He is explaining a few things to me.

Chapter 686 Part 2: White Smoke vs Brown layer

From MC's perspective:

Block:

While everyone is interestingly watching the duel. McCarthy made the appearance. But he is wearing a full face mask to hide his swollen cheeks.

After seeing him everyone was surprised. Especially the Supreme Elder Marlene, who was worried about his disappearance earlier.

Now seeing him coming back. She feels something is wrong for sure. But she can't pinpoint what's exactly gone wrong.

Supreme Elder McCarthy slowly walked to the Silver Cloud side and sat on his seat quietly. Dean Cooper was surprised. He doesn't know why the Supreme Elder is wearing a mask.

He thinks it might be related to his scheme. So he didn't ask. Then he set his gaze on the Viper Academy. They have just started targeting Viper Academy.

He thinks their name might come in the next match-up.

On the duel platform,

Both the warriors are confronting each other. But they are not engaging in close combat. The Eclipse Academy warrior is wary of the short blue dagger.

On the other hand, the White Palace Warrior is trying hard to influence the opponent through white smoke. But the opponent's special technique is working fine.

One of them has to come up with a solution to break the ice.

Finally, the female warrior doesn't want to waste the essence anymore. She quickly rushed out to attack with her dagger.

Seeing that the eclipse academy warrior released several rocks to block her. However, the opponent was fast because of the environment inside the platform.

The platform has become like an ice floor. Which made it easier for her to evade all those techniques in time. The Eclipse Academy warrior notices this situation.

Swish!

The next second, he releases a different technique. The platform surrounding him is covered with small boulders on all sides. Which will hinder her fast movement now.

The White Palace Warrior pauses her movement before leaping. She has already gotten closer. Because of the leap, she was one step away from the opponent.

Seeing that the opponent is trying to release another technique. She uses her dagger to cut his brown skin. The brown skin is protecting him from the white smoke.

If it's gone, then it will become easier for her to win the duel.

The Eclipse Academy Warrior was caught off guard. The opponent's flexibility and smart thinking surprised him. Before he could release another earth technique.

Cut!

A small cut was made by the female warrior. The dagger blade easily cuts through the skin surface. Anyone can see a small red line appear on his forearm.

But this was enough for the white smoke to enter.

Tap!

The Female warrior retreated a few steps backward.

Quiet!

The audience has been silent for some time. As they can only see a few clear scenes. The whole platform was covered in the white smoke.

But this was not the problem for Elite Warriors and above. They know that an interesting confrontation is happening between the 2 warriors.

Jonathan was also among them. He is also appreciating the white smoke and the special techniques. In his opinion, this level of technique can be only brought by people from inner posts.

"Such a special method, no wonder these academies can sustain for so long as a top 6 academy," Jonathan said in his heart.

Before he had thought that the year-end conference was a waste of time. He still believes it. But looking at these inheritance powers and special techniques.

He thinks it will be a learning experience for Zack Lockwood. If he comes to the inner post, he won't be shocked by sudden exposure to even more powerful techniques.

On the platform,

The Eclipse Academy Warrior's expression turned grave. He is feeling dizzy. His body movements have become sloppy as time passes.

Seeing that the White Palace Warrior sighed in relief. She was waiting exactly for this movement. As the opponent's movements got slower. It won't be long before he gets paralyzed.

The opponent is experiencing the power of white smoke for the first time. Only those warriors who have experienced it know how to get out in time.

But the Eclipse Warrior doesn't have a clue. The brown power protecting his body starts to disappear. Because of this, the effect of the white smoke increases.

In the blink of an eye, the Eclipse Academy loses his balance before collapsing on the ground. The white smoke is like slow poison. In the end, the opponent loses completely.

The referee declared the White Palace warrior as a winner.

The next moment, she absorbs the white smoke back into her body.

Slowly, the white smoke disappears. On the other hand, the barrier is beginning to come down. By the time the barrier comes down. The white smoke was completely absorbed by her.

For the Eclipse Academy Warrior, it would take some time to regain consciousness.

Cheer!

The audience gave thunderous applause after hearing the winner's name. Earlier, everyone was confused because of the white smoke.

But now that they have seen with their own eyes how the white smoke disappeared into her body.

Block:

Dean Linda showed a bright smile on her face. She was worried earlier. But the elite warrior of their academy was smart enough to understand the situation.

Supreme Elder Marlene was pleased as well.

Dean Edgar sighed in his heart. The Elite Warrior on their side is still a newbie when it comes to dealing with the inheritance power.

He knows that the short dagger was part of the inheritance power. Ordinary weapons won't be able to cut through the brown skin.

He believes that in further matchups students will learn and won't repeat the mistake.

On the Viper Academy side,

Ernest has won the bet. He said that the White Palace girl would win earlier. And the result indeed came out as he had predicted earlier.

"All other academies have some means. Only we are different," Ernest said.

"How?" I asked back.

Laverne perked up her ears as well.

"Others got inheritance or special techniques which can be practiced by anyone talented in their academy."

"But some of our important techniques can be only used by particular element users," Ernest answered in a calm voice.

Chapter 687 Change of plans

From MC's perspective:

The duel opened the eyes of many warriors in the audience. Most of them are not related to the Big 6 academies. Either they are under small organizations, institutions, and clans, or else some of them are rogues.

But for both types of warriors. The duel was unforgettable.

Inside the block,

The White Palace Academy gained more face. From now on the warriors from other academies won't dare to look down upon them.

Earlier they were afraid of the Supreme Elder Marlene. Now they have realized that the White Palace Warriors are not soft powers either.

On the site of the Silver Clouds Academy, Dean Cooper doesn't like where things are going. They have planned to attract everyone's attention by targeting weaker sides.

But the Supreme Elder McCarthy hasn't spoken yet. So he can't make comments against others without his nod.

Time passed in the blink of an eye,

The 10th duel came to an end close to dawn. Then the audience began to leave the stadium. There are 50 more duels to go.

After 5 days, the top 30 will be known. From then duels for the top 15 will be conducted. Later, the duels for the top 6 will be held.

The organizers expected to conduct more duels today. Initially, they thought about conducting 20 duels per day.

But something else happened in the end. They were able to conduct 10 duels. The people from the 6 academies are not surprised. They have brought together talented warriors with them.

So each duel has become more interesting. There is something to learn for others. The academy people didn't complain. They left with their students.

20 minutes later,

The Viper Academy team came back to their White Mansion. But everyone's faces were dull. This was just the 1st day of the tournament. They got one loss.

Fortunately, after the first defeat. The Viper Academy's name didn't come in the next matchups. It was a pure coincidence. But tomorrow won't be the same.

There is a chance for them to have more duels tomorrow.

Dean Rebecca was lost in some other thoughts. After everyone went to their room. She contacted Zack. She asked him to arrive before the dinner. She has something to ask.

On the other hand, I went to take a bath after ending the call. More than her I wanted to know what happened.

20 minutes later,

I changed into casual clothes. Then I contacted Jonathan to see him. Jonathan, who was monitoring the movements of the 2 Supreme Elders, returned to the white mansion.

When Jonathan appeared in my room. He casually sat on the chair.

Seeing that I sat opposite him and asked, "What happened to the Supreme Elder of the Silver Clouds Academy?"

Hearing that Jonathan was not surprised. He reiterated what happened at the scene.

A few minutes later,

I sighed inwardly. As expected Jonathan has shut the mouth of the Supreme Elder.

Suddenly, I thought of something.

"Are there any people from the Hunter League who have come?" I asked.

Jonathan shook his head before saying, "There is no threat here. You can practice peacefully. "

I revealed a bitter smile on my face. I'm conscious of not wasting the lightning essence unnecessarily. But I don't know what I'm going to do as the duel proceeds further.

Jonathan saw through Zack's worries. He has checked the terrain surrounding this place. There is no place where the lightning can be seen. It's not even the rainy season yet.

"Young master, Zack. I know that year-end competition is important for you. But don't worry, the Viper Academy won't face any problems in the future. "

"You can let go of this unnecessary burden and be practical. No lightning resource can be found in this place," Jonathan said bitterly.

"I know," I replied without showing much expression on my face.

Then after speaking for a few more minutes. Jonathan disappeared from the spot. It looked like he had found his accommodation.

After pushing down these thoughts, I began to do other work.

Meanwhile,

The Silver Clouds Academy arrived at their place as well. Dean Cooper is waiting to speak to the Supreme Elder. When everyone was gone. He opened the topic.

He is looking at the Supreme Elder McCarthy who was sitting on the sofa. What is weird is that he is still wearing the full mask on his face.

"Supreme elder, what happened?"

*We had planned to target the Viper Academy earlier. But you remained silent after that," he asked.

Supreme Elder McCarthy's eyes flickered. Before replying to him, he spread his mental power to see anyone around.

Especially he doesn't want the old woman Marlene to know about his embarrassing incident. He doesn't intend to reveal it to others.

The next second, he turned towards Cooper and replied, "We are not going to target the Viper Academy anymore. "

His words fell like a thunderclap in Cooper's ears. He remained stunned on the spot. It took him a few seconds to accept the reality.

He is looking at the Supreme Elder with a strange gaze. "What about all those bullshit discussions?" He said in his heart. Before coming here they have spent more time in discussion.

At that time the Supreme Elder was motivated and confident enough to face other Supreme Elders. But he changed his stance all of a sudden.

Then he thought of a scene earlier where the Supreme Elder walked out of the block for some time. His behavior changed after his return.

"Did he face any trouble?" Cooper said in his heart.

"Sigh"

McCarthy let out a sigh. He doesn't want the dean of the academy to misunderstand him.

"I met someone from the federation. The official came on behalf of the Viper Academy," He said. Though he doesn't know the identity of the person who slapped him.

But he believes only the federation behind the Viper Academy has such a powerhouse.

"Federation officials," Cooper said, shocked to the core. Then a realization occurred to him. The federation is a strong backer of the Viper Academy. They can't offend them.

Chapter 688 The 2nd day

From MC's perspective:

Goodwill City,

Dean Cooper calmed down his heart after knowing the shocking truth. He looked at the Supreme Elder with a complicated expression.

Now they can't do anything for them. They have to rely on their warriors. McCarthy stood up before going to his room.

He didn't tell him about the embarrassing incident.

Meanwhile,

The White Palace Supreme Elder was pondering the same thing. She had expected something to happen. Because the Silver Clouds Academy came intending to target others.

But all of a sudden the Supreme Elder McCarthy became silent.

"What happened to him?"

"It's strange," Marlene said in her heart. She thinks McCarthy is planning something big.

Meanwhile,

The result of the 1st day of the duel began to spread rapidly. The local residents who didn't get tickets watched from their homes.

Everyone saw how the Elite Warriors of the 6 big academies are different compared to their local warriors. Any one of them can defeat their local Super Elite Warriors.

Because of that everyone is looking forward to the Super Elite duels. Which would be more powerful?

Meanwhile,

In the Steel City, someone is not happy. The person is none other than Manager Shaw. He had heard before that there were contradictions between the academies.

But he was disappointed when he received the news. "The 1s day of the duel went smoothly," His face became distorted.

"Looks like the information is false," He said in his heart.

There are no tensions between the academies. Then he instructed his men to share other news without any delay.

Manager Shaw wanted to visit Goodwill City. But the situation of the Head Manager was not clear yet. Which made him stay in the Steel City.

The following day,

The 6 academy people gathered in the same block. They are seated in their respective places.

Strangely the atmosphere was calm without any tension. But from time to time deans of other academies are looking at the Supreme Elder McCarthy who was wearing a full face mask.

McCarthy sighed inwardly. He was expecting this reaction. He thought his cheeks would recover. But the red palm print is still visible on his cheeks.

He won't remove the mask until they disappear.

Dean Cooper's face becomes unsightly. The Supreme Elder spoke to him about the federation. But he failed to explain the reason behind the mask.

Shortly after, the organizers arrived. They have released the match-up. The 1st duel is between the Viper Academy and the Red Moon Tower.

Seeing that everyone turned towards the Viper Academy side.

An Elite Warrior stood up from the seat. He received advice from Dean Rebecca before leaving. Dean Rebecca's expression was rather calm.

Yesterday, she learned of what happened to Supreme Elder McCarthy from Zack's mouth.

Only after that, she was able to sleep at night peacefully. No one is going to target them hereafter.

On the side of Red Moon Tower, a female warrior stood up from her seat. She received advice from Dean Lily Smith as well. Lily Smith didn't have any ill intentions towards the Viper Academy.

She wanted her students to win.

On the platform,

One of the organizers came to the platform. He is going to be the referee.

The seats are filled with the people on the stand. No one missed to come. Just like yesterday, everyone is looking forward to the 2nd day of the duel.

There are also spies from many small and medium-sized forces. They are hoping to see some dramas. Jonathan was among the crowd as well.

When the 2 warriors came to the platform one after another.

Cheer!

The audience let out a cheer.

The barrier began to cover the platform. When it is completely covered. The referee gave the green signal for the duel.

The red moon tower warrior immediately acted. She swiftly rushed out to attack. Her speed was so fast that she reached the opponent in a blink of an eye.

Everyone saw another breeding wind inside the platform.

The Viper Academy Warrior is from the Flame faction. He has domineering flame techniques.

Seeing that the opponent is coming towards him. He released the flame technique. The next second, an orange flame covered the whole of his body.

When the Red Moon Tower Warrior came to attack. He raised his fist to punch her. His fist was covered with an orange flame.

The red moon tower warrior saw that she used her strength to attack as well. When both of them first collided with each other.

Boom!

A deafening sound reverberated throughout the area.

The red moon tower warrior felt a powerful force pushing her backward. She retreated a few steps backwards because of the impact.

The Viper Academy Warrior took one or two steps backward. He was in better shape compared to the Red Moon Tower Warrior.

In the block, everyone saw the difference. The Viper Academy uses a special flame technique. It's different from those of the Eclipse Academy.

Not anyone can practice.. Even in the flame faction, only suitable warriors are eligible to practice.

"He did well in the selection duels," Ernest said.

Others also appreciate the Viper Academy Warrior. But things are not over yet. The opponent is yet to show her Red Moon Tower Inheritance.

On the platform,

The female warrior realizes that the opponent is strong. So he releases her inheritance power.

Swish!

A green wind blade with a red hue covering the sharp point shot towards the opponent.

The Viper Academy Warrior releases flame balls in response. But when they come into contact with each other.

The green blade easily cuts through the flame balls to reach the target.

Seeing that the face of Viper Academy Warrior changes drastically. He was close to the wind blades. He tries to evade them one by one.

But the wind blades are fast. Some of them manage to land a blow to his body.

Boom!

A terrible noise sounded again. Smoke covers the platform.

The Viper Academy Warrior was forced to retreat backward because of the direct hit.

Chapter 689 Viper Academy's tough situation

From MC's perspective:

Goodwill City-Duel Platform,

The Viper Academy Warrior's body is still covered with the flames. But compared it to before the flames got dimmer. Not everyone can see that he has suffered from injuries.

The blade has left several cuts in his body. But fortunately, he was able to offset intense power. Otherwise, that attack was enough to make him defeated.

When the smoke was settled. Everyone saw the scene. The female retreated backward.

She saw that her attack had worked. The red energy of the Red Moon Inheritance is formidable. It made the ordinary attack more powerful.

Block:

"I guess, we will lose this one as well," I said in my heart.

The Elite Warrior of our academy did practice the special technique. But looks like it was not enough to suppress the Red Moon Energy.

You need the same or more dominant energy. Like the purple lightning. Not only me, looking around. Others are having the same thoughts as well.

No one is optimistic about the Viper Academy. I guess if we are matched against the White Palace. The result won't be different. But the White Palace Academy is also considered to be weak.

As the time passes, both the warriors exchange a few more blows. But the Viper Academy warrior was on the back foot. He is barely able to defend himself.

After a few minutes, he accepted the reality and admitted defeat. With this, the Red Moon Tower was able to win again.

As time passes, other duels are conducted one after another. When the matchup between the Viper Academy and the Silver Clouds was announced.

Everyone is hoping to see some drama. But on the contrary, the Supreme Elder McCarthy didn't even react like others had wanted.

Even the Elite Student of them received a warning not to overdo it against the Viper Academy Warrior. Seeing that everyone was surprised in their heart.

Especially the Supreme Elder Marlene was even more shocked in her heart. "Why was he doing this?" She said in her heart. Even now she thinks that McCarthy hasn't given up his plan.

Even the Red Moon Tower Dean Lily Smith raised her eyebrows in surprise. It was unusual for the Year-end competition to happen peacefully.

Normally, the Supreme Elders of the academy would make some moves in their favor. But this year everything was different.

Many of the Supreme Elders didn't attend the event. What's more weird is that the remaining 2 Supreme Elders are not taking advantage of this scenario.

As time passed, the duel came to an end at the time of dawn as usual. With that, the 2nd day of the duels ended peacefully.

After the end of today's duels, everyone left the duel arena. As usual, the duel results are shared by many. The spies sent back the information to their organization.

The first-day duels have given a clear picture to everyone. Especially to the residents of Goodwill City and to others as well.

Hereafter, some influence would send their descendants to the Red Moon Tower and the White Palace. Because the students from these 2 academies have shown the power of their inheritance to the outside world.

Meanwhile,

Manager Shaw also received the information again. He showed disappointment. The 2nd day of the duel went well. It was better than the 1st day.

The Hunter League have their own intel unit as well. He knows the contradiction between the academies. They won't meet eye to eye on normal days.

But this year-end competition is important for each academy. The right to use many resourceful lands would be decided by the rankings.

Those who manage to win can rapidly develop their academy. And those who end up bottom would have to wait for next year's end competition.

So he was confused by the situation playing out there. What's more bothering him is that no one is targeting the Viper Academy. He knows that Viper Academy and Giant Tower Academy are deadly rivals.

But as per the information, the Giant Tower Academy is staying silent as well. They didn't target the Viper Academy. Even their good ally, the Eclipse Academy didn't cause any problems as well.

"What is the reason?" He asked himself.

Even the Head Manager warned him not to do anything without his permission. But he couldn't stop himself from knowing what was happening at Goodwill City.

...

Inner Post:

At the rock castle of Lowell McClain, several people made the sudden visit. They are people from the McClain House.

There were 6 people in dark blue clothes entering the castle. Ranging from old to middle-aged. The 6 of them are waiting for the owner of the Castle to appear.

Among the 6 members, there are 3 male people. The remaining are females. They appear to be normal people. But they are not.

Before they could do something, the footsteps sounded near them.

"Elders, what are you doing here?"

"This is my private place. No one is allowed here," Lowell said with anger.

He was cleared by the appearance of these people.

"Lowell!"

"How long are you going to spend time here?" A middle-aged man asked.

Hearing that McClain frowned. He more or less guessed the reason behind these people's appearance.

Seeing that McClain was silent. An old woman stepped forward and said, "Alright, we are not here to make your life difficult."

"Have you decided on your selection?" She asked.

"If not there are few talented young ones in our family. You can select one of them," She made the suggestion.

Lowell McClain's expression turned solemn. He was not surprised by the suggestion. But their appearance made him think more.

They don't have to come here. But they did anyway.

"I'm going to wait. No talented young ones have attracted my attention so far," He said without any displeasure.

But the expression of the old women turned unsightly. The middle-aged expresses anger by saying, "You are doing this purposely. If you can select someone from our family. It would help to raise our status in the McClain House."

Chapter 690 Buying Class-4 Monster Cores

Inner Post:

Lowell McClain again denied their suggestion. The 6 of them felt humiliated. They didn't want to stay thereafter. Seeing that McClain relaxed his eyebrows.

But he felt a certain pressure. He hopes that Jonathan will return with Zack soon.

...

Outer Post:

Mansion,

After returning to my room, I changed to comfort clothes. I couldn't help but remove the scenes of today's duel in my mind.

Today went disappointing for the Viper Academy. No one was able to get the 1st win in the Elite Category for our academy.

And the remaining elite warriors whose match up didn't come so far. I'm not optimistic about them either. After removing the unnecessary thoughts in my mind..

I left the room and started walking towards the lobby. I need to breathe some fresh air to cool down my head. After arriving at the lobby, I met with Ernest and Laverne.

There are other groups who are ready to go out for a walk.

Then 3 of us left the mansion and started walking towards the Shopping street.

"The Elite duels are disappointing. I wonder if the Super Elite duels will remain the same," Laverne said with concern.

Her words are true.

"Sigh"

Ernest let out a sigh before saying, "Before coming here, I thought our Elite Warriors are good. They have done well in the selection competition."

"But looking at duels so far. I think our elite warriors' strength is not enough," he added.

We are walking along the street. But not many people came to disturb us. They are afraid of offending us.

"What do you think?" Ernest asked me all of a sudden.

"Me?" I muttered before recalling the past events.

"The Flame Faction Head was not strict enough," I answered.

The late Flame Faction Head Franklin was not serious about teaching the students. He was more concerned with maintaining the reputation of their Flame Faction.

If he had truly paid attention, maybe we could have some strongest elite warriors.

Soon, we got closer to the shopping street. One of the shops caught my attention. It was the shop where adventurers sell their monster core, meats, skins and other items.

Seeing that I dragged two of them to the shop. I'm lacking monster cores. If I get Class-6 more cores, I can practice the blood method.

But I doubt whether they have Class-6 Monster Core or not.

"Are you going to buy something?" Laverne asked.

Hearing that I nodded my head. Then we started looking around the shop. A male shopkeeper saw us looking at the items. So he didn't disturb us.

A hint of disappointment flashes in my eyes. The items placed here for display are not attractive. Most of these items are parts of Class-3 monsters.

Which was enough to tell the level of this shop. But to confirm it, I turned towards the Shopkeeper and asked, "What is the highest level of monster core you got?"

Hearing that the Shopkeeper got stunned. The monster cores are usually bought for special purposes. Such as healing or making pills.

But the shopkeeper was embarrassed for some other reason. He recognised the identity of the people in front of him. The residents of these streets are aware that people from one of the 6 academies are staying in the White Mansion.

So the shopkeeper was still in shock. After feeling the gaze, he replied, "Guest, we got Class-4 Monster cores as highest range."

Hearing that I sighed inwardly. There is a vast difference between the resources found in the academy and the city.

"Why do you need monster cores?" Ernest asked. It's not new for him to see Zack like this. Zack has collected many monster cores during their practice time in the monster zones.

He always thought Zack sells them for higher prices. But now he feels strange.

Ernest's question has attracted Laverne as well.

Seeing that everyone turned towards me. I revealed a smile on my face before saying, "Obviously, the monster cores are needed for making pills. I'm collecting this for a reason. So that our elite warriors don't have to look for monster cores in times of emergency."

Hearing that a look of understanding dawned on the shopkeeper. He knows that Viper Academy is not doing well in the elite category. It's not surprising to know that they are in need of pills.

"Maybe they want to increase their elite warriors' strength," The shopkeeper said in his heart..

Then he quickly went to check the stock. On the other hand, I don't know whether to laugh or cry. I guess I'm the only one who can use monster cores to raise the cultivation.

Others can do it. But they need a monster core with the same elemental power. They also need corresponding techniques to use monster core energy.

Shortly after,

The shopkeeper arrived carrying a silver plate. There is a low grade storage ring in it.

"Guests, we have only 20 Class-4 Monster cores," The Shopkeeper said.

I frowned before asking, "Can I check the quality of monster cores?"

The Shopkeeper nodded his head. Then I picked the storage ring before checking the items by using the mental power.

There are 20 monster cores inside. But the quality of the monster cores are not that great. I can access better than the shopkeeper.

Some of them are old. Most of the monster core energies have dissipated. Only a few of them are good with rich monster core energies.

I selected 10 monster cores like that before taking them out.

The Shopkeeper was surprised. Because all 10 of the monster cores are new ones.

Then I paid the amount before taking them in my storage ring. Ernest and Laverne didn't buy it. There was nothing in this place.

After walking out, we went to other street shops to explore.

We came across people from other academies as well. After nodding at each other, we went our separate ways. There was no conflict whatsoever.

An hour later,

We returned to the mansion. Here, everyone is ready for dinner. Seeing that we joined them as well.
