Chapter 721: Registration done

2 days later,

Lowell McCain received a release order from the administration.

He doesn't have to continue to monitor anymore.

A few minutes later,

When the replacement warrior arrived.

He left the post to him.

Then he used the underground teleportation platform to leave.

Swish!

When he appeared.

He was back at the teleportation platform of the delta City.

"Most of the communications were blocked at that time.

I wonder what happened?" Lowell said to himself.

The Boundary Post was something he couldn't deny.

Now that it is over.

He can focus on the rest of the things.

He then walked out of the area and started moving towards the castle.

In a blink of an eye, he reached the castle.

When he entered inside.

He summoned Jonathan to his study room.

Study room:

Looking at Jonathan in front of him.

Lowell nodded his head before saying, "Looks like you have handled it well."

Then he asked," Tell me what happened during my absence."

Hearing that Jonathan began to explain.

He started by explaining the progression of Zack.

Then he told me about a family elders visit.

Finally, he revealed the plight of the hunter teams.

A few minutes later,

Lowell looked calm.

But he is happy in his heart.

Everything went according to plan.

Zack has achieved his task.

The family elders didn't have any choice in the end.

They followed the old route in the end.

When it comes to the hunter teams.

Everything is under his control.

Follow new episodes on the "N0vel1st.c0m".

His enemies didn't cross the limit.

Apart from testing the bottom of the team, there was no serious damage.

"I guess it's time to recommend Zack to the Main House and Federation," Lowell commented.

Hearing that Jonathan wasn't surprised.

He knows that Master was waiting for Zack to reach the Peak Stage.

“You go and make arrangements for the basement training facility.

I guess he must have been bored all this time,” Lowell said.

Jonathan nodded his head before leaving the room.

Lowell then activates the blue disk.

A virtual screen appears.

He didn’t doubt Jonathan’s words.

Because he sensed Zackcs’ cultivation earlier.

Now he decides to formally recommend Zack Lockwood to his family.

Then to the Federation.

In this way, Zack will get 2 backers.

Shortly after, he registered the name.

It sent shockwaves across both the McClain Mouse and the Federation higher-ups.

Everyone in McClain Main House has a waiter for Lowell’s recommendation.

So his response was quickly noticed by others.

A similar thing happened in the federation.

All the core officials expected Lowell to recombine someone from the family or other influences.

In the end, it turned out that the person was his secret disciple.

When the information appeared on the screens of the federation network.

Everyone wanted to know about Zack Lockwood.

Now the core officials are shocked.

In one or two days, the news would spread to other officials.

At the same time, Lord Keen also got the news.

“Who is Zack Lockwood?” He uttered in surprise.

Lowell didn’t hide the background.

It was mentioned that Zack was received as a disciple from one of the outer posts.

Zack’s current age and stage.

As well as the lightning element is mentioned in the background information.

For Zack’s safety, he didn’t mention the other 2 cultivation methods.

Because the current details were enough to surprise many people.

Lord Keen was impressed as well.

“Under 16, Peak Super Elite.

Lightning Element.

Outer post native,” Keen muttered one after another looking at the screen.

The Strength of the Super Elite wasn’t that attractive.

Because everyone can reach that stage quicker in the inner post.

But everyone knows about the outpost.

Especially the top officials know more in detail that the outer post is a barren land.

The resources are scarce there.

Lord Keen noticed that Lowell’s new disciple was Lightning Warrior.

Which is even more unbelievable.

There are no rich lightning resources in the outer post.

“Unless he provides that kid with resources.

Which explains the development better,” Keen muttered to himself.

Sigh!

After a few seconds, he sighed inwardly.

He was worried that some other influence would enter the federation.

But Lowell's disciples pose no threat to anyone.

At least the current situation can be maintained for a long time.

It won't affect their interest.

Zack will get resources.

But it's better than having influences from other forces here.

The share of Zack won't affect others.

Besides, they don't want to offend Lowell as well.

So the Federation officials accepted Lowell's request.

Hereafter, Zack will be treated and trained as a core member of the federation.

As long as he develops in the future, he can get further authority.

But the situation was quite different in the Main House.

The sudden addition of outsiders to the main family descendants' training caused a lot of noise.

There is one main family, 6 official branch families and other unrecognized branches.

There is always competition and internal politics exist in the whole McClain Clan.

This time Lowell's recommendation was accepted by someone.

While some others protested.

But still, the ultimate decision rests in the hands of the Main House.

Lowell was a long-time member of the Main House.

No one can decide who he should recommend.

But still, it internally dissatisfied many.

Sharing the clan resources with the branch family members is acceptable.

However, to allocate a place and resources to the outsider caused many of them to raise their eyebrows.

It's been 3 days but the main competition between the branches is going on.

Once it's finished the next training candidates will be finalized.

But others got eliminated.

So the information was not shared with all clan members.

Except for the Main House and other Branch Elders.

3rd Branch Family:

When the news reached Martin's ears of Martin.

He started smashing the objects in his room.

The oppression coming from his body is already shaking the whole place.

"Zack Lockwood," Martin McClain said in an icy cold tone.

He has gone through the information.

So he knew Zack was Lowell's disciple.

For him, all things are starting to make sense now.

"No wonder he was reluctant before.

Because he already got his disciple," Martin said to himself.

After some time, he calmed down his anger.

Then he sat on his screen and summoned the virtual screen.

He then starts to go through the details of Zack Lockwood.

He wants to know what's so great about that kid.

“Is he better than my son?” He said in his heart with anger.

Meanwhile,

Elder Claire was shocked as well.

“So this is what it is?” She muttered, looking at Zack’s information on the screen.

For them, Lowell has always been unpredictable.

So they had failed to guess his inner thoughts.

But now everything makes sense to them.

Swish!

Shortly after, Elder Ollie and Christie arrived at her place.

Both of them came right after getting the news.

Looking at Claire, Christie asked, “Is he gone mad?”

“He brought an outer post bumpkin here.

Will that kid survive here?”

She meant the whole inner post.

For someone from the outer post, the knowledge of the inner post could be overwhelming.

It might affect their practice.

“I saw the information that the kid is just a Super Elite Warrior.

Anyone from our branch family kids can defeat him easily.”

“Even the kids from the unrecognized branch are better than him,” Ollie said in a solemn tone.

He was dissatisfied with Lowell’s attitude.

But this time he was confused.

“In what way is this kid better than Clay?”

“Is Lowell teasing us?” He asked back.

A quick gleam flashes in Claire’s eyes.

She saw there was no additional information recorded.

It was rare for lightning warriors to appear in the outer post.

But there are hundreds of them in the inner post.

He could have selected any of them.

“Why Zack Lockwood?” She said in her heart.

Because there is nothing extraordinary mentioned in the information.

But she knows Lowell is not a fool.

Unless the cultivation talent of that kid is better than Clay's.

As an old monster, she quickly saw through this.

But this was her assumption.

And the Super Elite Stage is still low for this kid.

If he comes to the Main House.

Then it's hard to say whether that kid can survive.

Because most of the warriors in the McClain House are lightning warriors.

It's correct to say that McClain House is a Lightning Clan.

The more she thinks about it.

The more she feels mysterious.

She noticed the other 2 were looking at her.

"What do you guys think?"

“Lowell is not stupid.

Did you guys see?”

“He has not only recommended the Main House.

But also to the federation.

The Main House can accept that kid.

But what about the federation?”

“I guess there will be some trials awaiting for that kid,” Claire said in a solemn tone.

In just a few minutes, she has connected the dots.

Even the Family Head didn’t have enough patience to analyze.

Christie and Ollie looked at each other.

They almost forget about Lowell.

Can he recommend anyone?

“I’m looking forward to seeing that kid,” Christie said with a laugh.

“Harumph, I bet he is a waste,” Ollie added.

Chapter 722: Four Advanced Training Room

From MC's perspective:

Lowell Castle,

"Teacher wants to meet me," I muttered, looking at the message.

"So he is back," A quick gleam flashes in my eyes.

I have fulfilled the task he has assigned to me.

I'm wondering what will happen next.

Then I stood up and left the room to meet him right away.

Study room,

When I got there.

The door opened automatically.

Seeing that I walked inside.

Teacher Lowell is sitting behind his desk, looking at the blue virtual screen.

"You are here!"

"Good," Lowell said, looking towards Zack.

Then he immediately saw through Zack's details.

As he had guessed before, Jonathan didn't lie to him.

And his vision was right as well.

Zack has accomplished the task.

A small smile appeared on his face before saying, "You are Peak Stage Super Elite both external and internal right now."

"Now you have gained the qualification to live here in the inner post.

It's just that I had brought you here before the schedule.

Which leaves you no choice but to stay inside the castle these days."

Hearing that I understood the meaning behind his words.

Even the Super Elite Stage Strength was not enough to safely move around in the City.

I heard at least you need SS- Elite Strength.

Those with lower strength never leave their home or organization to wander outside.

Seeing that Zack understood.

Lowell gave an appreciative look.

Then he said, "You have passed the first hurdle.

But there are many more to come.”

Hearing that my eyebrows tightened.

I knew the next stage of the task.

If I’m right he is going to add me to the McClain House

It’s kind of an uneasy feeling to join another family.

But here in the inner post, you cannot survive without backing.

Lowell didn’t want to waste more time.

So he added further, “Zack look here, I have formally registered you as my disciple.

Not only are you going to join the McClain Main House as my next generation.”

“You are going to be the core member of the Army Federation as well.”

Even though this is not the first time, he is telling me this reason.

Follow new episodes on the "N0vel1st.c0m".

But still, my heart was in turmoil.

Both forces are medium-sized.

With their backing, my burden in the inner post will be reduced a lot.

“Thank you, teacher,” I said from my heart.

He pulled me out of the well.

Now, I can explore the wider world.

Lowell nodded before saying, “Although I have done the legal work.

But still, it’s not easy to convince people.

Especially the warriors of your generation.”

“When you enter the McClain House.

You will be tested because of your current strength.

It’s going to happen the same with the federation.”

“If my guess is right, there are still people in the federation who might create roadblocks.

But as long as you can convince people with strength.

“They won’t make your life difficult.

So you have to be careful not to fall behind.”

I wrote down all his words in my heart.

I knew it was never going to be easy in the new place.

The same thing happened back in the Viper Academy.

Where the students from the Flame Faction challenged me all day.

Then it took me a lot of winning duels to convince everyone in the academy.

A firm glint flashes in my eyes.

“Teacher, don’t worry.

I will never slack off,” I said to him.

Because there are abundant lightning resources.

Which will support my further progress.

Lowell nodded his head before saying, “There is still time left for the both family and the federation to arrange a meeting.”

“When the date is fixed.

I will take you there.

In the meantime, you can practice here.

There are many hidden places in the castle.

Which includes advanced training facilities and an essence chamber.”

“I have also ordered several treasures for your lightning essence, blood essence, and healing essence.”

Hearing that I felt dumbfounded.

I always wondered why the teacher was living here in this castle.

This place doesn’t have any modern items.

But now I have understood.

The next second, a hint of eagerness appeared in my eyes.

“It’s time to move my muscles,” I said in my heart.

“Teacher, can I use the place now?” I asked.

“Yes, you can.

Jonathan will take you there.

But you will have to meet some new people later,” he added.

“New people?” I asked back.

“Don’t think I have no work in this Delta City,” After saying that he revealed information about his 2 Hunter Team.

A few minutes later,

Both the Teams have their A and B groups.

The B groups are doing less dangerous missions.

While the A groups are doing advanced missions like hunting Class-9 Monster.

On the other hand, my heart was shocked to the core.

“Class-9 Monster?” I said in my heart.

“I remember fleeing in horror because of the Class-8 Monster in the monster zone back then,” My eyes flickered.

The Class-8 and above monsters are above my strength.

Right now, the Class-7 Monsters might pose a threat to me.

“You can leave now.

I’ll inform you when they visit us,” Lowell said with a smile.

Hearing that I nodded my head before leaving the room.

Lowell then fell into contemplating.

He doesn’t know how the team is going to react.

They have arrogance in their bones.

Coming from the powerful forces they might not put Zack into their eyes.

Sigh!

He let out a long sigh.

In the end, Zack has to face everything.

He knew Zack could handle them.

Because Zack had gone living from Tier 8 City to Tier 6 City.

Now he is in Tier-5 City.

Their attitudes won't affect him.

On the other hand, I went straight to find Jonathan.

I don't know about those Teams.

But right now, I'm looking forward to practicing.

Soon, I found Jonathan.

He then led me to the basement.

The Castle was huge.

So when he led me towards the old store room.

A look of understanding dawned on me.

The miscellaneous places always hide the secret.

As I guessed there is a hidden door inside the room.

Creak!

Jonathan opened the stone which leads to the passage below.

Seeing that I followed Jonathan to enter inside.

Tak!

The next second, the lights are lit up.

Seeing that a hint of surprise flashes in my eyes.

These small glowing things are part of modern-day tech.

An old-era building with modern upgrades.

While appreciating that we walked downstairs.

When my foot landed on the ground.

I turned around to access the surroundings.

“Gravity Chamber”

“World Essence Chamber”

“Illusion Chamber”

“Puppet Training Chamber”

Jonathan started to introduce four big room on four sides.

Hearing that a hint of disbelief appeared in my eyes.

The basement structure is completely different from the upper castle architecture.

The floors are laid down with hardened tiles.

Which are modern-day products.

“Each Chamber has an artificial voice to assist.

You don’t have to go through setting up the setting manually.”

“You are already aware of the Gravity and Essence Chamber.

These are advanced.

Even the Basic setting can be hard for you to withstand," Jonathan said.

But a hint of fighting intent rose in my heart.

For the past several days, I have been staying in my room.

Now I can do something I like.

"Puppet Chamber is a different one.

Here the puppets are more humanoid with human-like intelligence.

So you can't defeat them by using simple tricks," Jonathan added.

"Humans like intelligence," I sucked a cold breath of air.

How far is the gap in technology between the inner post and the outer post?

So far I have seen only fancy gadgets in the castle.

But this artificial voice assist and human-like puppet are insane.

All of a sudden I feel goosebumps all over my body.

Jonathan watched Zack's reaction.

Then he said, "These are just common training facilities you can find anywhere.

But the forces have their training facilities and resources."

"You will see more in the future," He added.

Hearing that I nodded my head at him.

I wasn't surprised.

If everyone has the same facilities, then what's the difference between each of them?

"Finally, the illusion facility is new for you."

"As its name implies it can make you fall into an illusion.

The Class-6 Monsters and above have abilities.

As their Class gets higher, their abilities become scary as well."

"Some of the monsters can use illusion abilities.

For example Red Moon Fox and Sky Butterfly.

They can kill enemies without having to meet them in person."

"All it takes is an illusion to

kill them," Jonathan said.

"Red Moon Fox?" Why does the name sound familiar?

“Red Moon Tower,” I blurted out of surprise.

“Looks like you have realized something.

The Red Moon Tower has a connection with the Red Moon Fox.

But you will know in the future,” Jonathan said.

“For now, you should know that monsters here are scary.

It might take more than 2 or 3 Hunting teams to kill one monster here.”

“The death rate is more than 80%.

It’s hard for a single team to survive without any losses.

Unless the team is made up of powerful warriors,” He added.

Hearing that I quickly thought Black and White Raptor Team.

Chapter 723: Illusion Chamber

Delta City:

An hour ago,

The Black Raptor Team has returned before the White Raptor Team.

Reiner has been waiting for Head Lowell to return.

Once Lowell comes back he can ask him about Lord Keen.

He has no more doubt in his heart.

“Lord Keen is causing trouble,” He said in his heart.

More or less he guessed the reason.

He became part of the Black Raptor Team to get approval from Head Lowell.

“If I can get approval, I’ll have another identity as the core member of the federation.”

“Then I don’t have to face those direct blood descendants, “When he said that, a hint of fear appeared in his eyes.

Because of their suppression.

He was forced to seek out opportunities outside.

But it can’t be helped.

Strong rules.

Just as he is accessing his pitiful situation, he receives messages from his team members and Russel Connor.

Seeing the continuous messages one after another.

Reiner was surprised.

He then looked at the message.

A hint of disbelief appeared in his eyes.

“How is it possible?”

“Head Lowell registered his disciple as a core member of the federation.”

“Since when did he have students,” Reiner said with a hint of anger in his voice.

He feels like someone spoiled all of his work so far.

Not only him, but those who had the same intention in the hunting team felt betrayed as well.

If they had known earlier, they wouldn’t have left their forces to come here.

“If he had selected any one of us in the team, then it wouldn’t have been this hurtful.

But he had hidden this matter from everyone,” Reiner said to himself.

Then he opened the next message to read it.

The message from Russell Conner is even more detailed.

A few minutes later,

A hint of surprise flashes in his.

“Even the McClain House didn’t know about this.

Instead of recommending family members, he has chosen his disciple’s name to register in the Main House,” He said with a cracking voice.

This time it was not anger but complete disbelief.

Because it shows that McClain House was not lying.

Follow new episodes on the "N0vel1st.c0m".

How come they allow an outsider to enter their family?

But because of Head Lowell’s contribution to both the Federation and McClain House over the years.

They have chosen to accept it.

“What a lucky b@stard?”

“How good is he to make him do that?” Reiner asked himself.

His anger subsides a little bit.

It was not as strong as before.

Because Head Lowell has chosen an outsider before his family member.

Which shows that a disciple is better than the family members.

A hint of eagerness appeared in his eyes.

He wants to meet the peerless genius.

Shortly after,

He received a summons from his family.

He knew they were going to discuss this.

So he didn't go.

Meanwhile,

Russel Conner was pissed off as well.

But he is not as understanding as Reiner.

He felt that Head Lowell fooled everyone.

From the beginning, he didn't have anyone in his mind to recommend the core member seat.

"Who is that guy?"

"Out of nowhere, a disciple appeared?" Rustled asked himself.

He also saw the information that the disciple was not part of a family but an outsider.

Like Reiner, he also thought a disciple must be a genius.

“If he is General Stage, then I would like to fight him,” He said in his heart.

He has made up his mind to invite Head Lowell’s disciple for a duel.

Both the Federation and McClain House kept other information confidential regarding age and strength.

Otherwise, it will create more controversy.

On the other hand, this little information itself is creating a shockwave across the inner post.

Because a warrior above the General Stage is important.

Not everyone can achieve this step.

So in every force, they have been given an important position.

Especially those who have higher potential are given the right to speak.

That’s why Lowell McClain’s move shocked everyone.

As he holds 2 important identities.

Which even attracts more attention to his disciple.

Especially the enemies of the federation and McClain House are even more happy.

As they found someone to target next.

In their opinion as long as they kill Lowell's disciple.

It could weaken him.

Making his path more difficult to break through.

Sooner or later more detailed information will be spread.

....

From MC's perspective:

Basement facility,

"So do you want to practice?" Jonathan asked.

Hearing that I nodded my head.

Then I turned towards the illusion chamber.

"I want to experience the illusion chamber," I said.

Jonathan's eyes flickered.

"Are you sure?"

"For those who hadn't experienced illusion before.

It might be uncomfortable at first," Jonathan said.

He felt that Jonathan could take them before using the illusion chamber.

Right after seeing Zack's firm gaze, he sighed.

"Alright then, let me explain its function."

"There are various modes.

But you should start with the basics.

Your Super Elite Strength is not enough to use other modes," Jonathan said.

"Then I'll try," After saying that I walked to the illusion chamber.

When I got to the door.

It required my palm print.

Seeing that I placed my palm on the glass door.

Creak!

The next second, the door opened.

A hint of surprise flashes in my eyes.

I felt it was a rather good way to verify the identity.

When I walked inside.

The door behind me closed automatically.

Jonathan decided to wait and watch.

The training chambers are easy to activate.

But he was worried whether Zack's Super Elite Mind could handle the illusion's power.

"Let's see, whether he is good or not."

"If he is good then he has a stable mind.

Then upcoming discrimination won't affect his mind," He said in his heart.

He knows soon the news will reach all other forces in the inner post.

Next, the whole world can't wait to ridicule Zack.

He is becoming nervous thinking about it.

"If he had been born here, then his strength could have reached the General Stage.

Now he has to face everyone's attitude before reaching a peak," He said to himself.

At least, Zack's presence has saved the master.

He knows if not for Zack, he would have been forced to choose others.

That decision could lead to a power struggle.

But thankfully it didn't happen in the end.

Inside the illusion chamber,

I looked around.

But I found no gadgets or monitor screens.

"Welcome, username Zack!"

"Select the mode"

"Basic, Medium, Hard, Extreme."

A voice reached my ears which was neither male nor female.

I realized this was a voice assistant.

Then I replied, "Basic"

A few seconds later,

"Please, sit cross-legged on the platform!"

"The basic mode will start in one minute."

Hearing that I saw there was a small platform in the middle.

Sitting down cross-legged, I looked at the window.

But nothing can be seen.

Seeing that I closed my eyes and waited for the basic function to start.

One minute later,

After a while smoke starts to fill the room.

The smoke is coming from the platform.

In a blink of an eye, it occupied the whole room.

On the other hand, a sweet smell attracted my nostrils.

“What is this smell?” I said in my heart.

Before I could realize.

My consciousness went blank.

A few seconds later,

The darkness disappeared.

I found myself standing inside the forest.

The dark clouds covered the sky.

At the same time, heavy downpours of rain are happening.

Seeing that I felt my back go cold.

I knew I was sitting inside the illusion chamber.

So the environment here is part of an illusion.

Gasp!

I sucked a cold breath of air.

What kind of method is this?

No wonder, Jonathan warned me.

A hint of apprehension appeared in my eyes.

Next, I realized I could use my power here.

It's like a dream.

Then I took out the black sword from the storage ring and held it in my hand.

"It feels real," I said to myself.

Then I started exploring the place.

A few minutes later,

Tremor!

I sensed the ground beneath me shaking.

Why do I feel like I have experienced this before?

As this thought appeared in my mind.

I guessed a plausible answer.

But it's too early to conclude.

Shortly after,

A monster appeared.

The scorpion monster with red and black scales.

Its body is over a hundred meters long.

"Class- 6 Monster!" I sucked a cold breath of air.

The old memories flooded my mind.

This scene was an old reply of memories in my mind.

The illusion is using my memory to give me the hardest trials.

Seeing that monster coming towards me.

I raised my sword to face the monster.

Last time I was weak.

But this time I don't have to flee.

Because my strength is Super Elite.

Which gave me a sigh of relief.

Boom!

The scorpion monster rushed out to attack the prey.

Its huge body is destroying the trees and terrain along the way.

“Sword Divide”

I poured the lighting essence into my sword.

In a blink of an eye, the sword was charged with the lightning power.

The next second, I swung the sword.

A purple light released from the sword.

The light beam cut across the sky before hitting the monster.

Chapter 724: Illusion ends

From MC's perspective:

Lowell Castle,

Jonathan is paying attention to Zack.

Seeing that Zack's face was calm and composed.

"The hardest thing is yet to come," He said to himself.

Inside the illusion,

The lightning beam hits the body of the scorpion.

Boom!

The scorpion scale of the monster burst into pieces and the lightning power starts damaging the flashes.

This is first time for me to see the Class-6 Monster getting hit in the first turn.

Its all because of the Peak Stage Super Elite strength.

The Scorpion monster let out a noise before starts attacking again.

Seeing that I raised my sword to attack again.

“Lightning Phantom Technique”

I performed the lightning technique.

The next second, the dense purple arcs covered both of my legs before starts exploding with a great speed.

Swoosh!

I disappeared from the spot The Scorpion monster’s sharp legs destroyed the place where I’m standing.

Puchak!

When I got closer to the body.

I made a horizontal cut.

The blade easily slice through the scales.

The next second, hot blood starts to gushes out from the monster’s wound.

Seeing that a hint of surprise flashes in my eyes again.

This almost feels real.

When I’m not paying attention.

One of the monster's sharp legs stretched towards me.

The speed was so fast that I barely managed to defend the attack.

The sharp blade like leg hits the blade.

Boom!

The shockwave sent me few steps backward.

After stabilizing the movement, I started moving using phantom movement technique.

In a blink of an eye, I appeared above monster's body.

"Lightning Wheel"

A thunderous purple wheel appears around me.

Follow new episodes on the "N0vel1st.c0m".

The lightning power is so dense that thundering sound can be heard.

The Scorpion Monster felt threat.

It wants to move away his body.

But it was too late.

The wheel explodes right after coming in contact with the monster.

Boom!

The immense lightning power tore through the monster's scales before destroying monster's organs.

The aftermath swept away the area.

Seeing that I leaped backwards before standing on the safe spot.

The smoke covers monster's body.

I can see huge monster body is wailing in pain.

The monster is twisting the body to alleviate the pain.

But I can sense that monster's vitality is slipping away fast.

When the smoke was gone.

The monster state became more clear.

It was not moving anymore.

The half of it's body is cut.

The lightning wheel has caused severe damage.

Only flesh and bones are remained in the injured area.

Seeing that I used the phantom technique to end it's life.

After few blows, the monster lost its life.

Then I felt scene before my eyes breaking.

The next second, the illusion breaks.

I woke up from the dream.

Seeing the familiar environment of the illusion chamber.

"This?" I sucked cold breath of air.

The illusion was almost real.

"Wonderful," I said to myself.

"Basic mode was over.

Do you want to continue?" The voice assianst's words reached my ears.

At the same time, the white smoke starts to recede.

"No," I replied.

I just wanted to test it.

Now that I know I can try later.

After my answer, the white smoke was completely sucked by the platform.

Seeing that I understood that sweet smell was coming from this smoke earlier.

It can make you to fall into the illusion.

Then I stood up and walked out of the illusion chamber.

"How was it?" Jonathan asked.

He saw Zack's complexion was fine.

Hearing that I started explaining about the experience.

But Jonathan's expression turned solemn.

After listening completely, he said, "You have wasted time and resource."

"Waste of time," I asked back in bewilderment.

Jonathan nodded his head before saying, "There are four different modes.

Each of their functions and difficulties are different."

He looked at his face and added, "The basic mode can use your memory to stimulate a real environment.

It will bring out one of your fears into reality."

“So the Class-6 Monster once posed a life threatening danger to you.

Now you are strong you have defeated easily.”

“Since your fist time, I can understand.

But I hope from next time onwards you should not waste time.”

“The illsuon won’t exist for forever.

It will end depending upon your fearful memory.

The illusion might end in one minute or one hour.

But more more than 2 hours.”

“After 2 hours the illusion will end,” Jonathan said.

Hearing that a look of understanding dawned on me.

So I should consider the time in my mind during the duel.

As long as I can kill the monster soon.

The minimum resources will be used.

I can guess that white smoke must be expensive.

When I looked at the watch.

I realized I have spent one hour in the illusion.

In that one hour, I have used only few moves.

Rest of the time, I was observing the monster.

Tck!

“Next time, I should be more careful of time,” I secretly said in my heart.

Jonathan saw Zack was contemplating.

So he waited.

“What you have figured it out?” Jonathan asked.

Hearing that I nodded my head.

“I will keep the timing in my mind,” I replied.

Then I thought of something before asking, “There are four modes.

What about others.”

“Ha...Ha...Ha..., as its name suggests.

It has more advanced function,” He said with a laughter.

“But your current stage is not enough.

Especially your mental mind.

Your mind cannot withstand the burden.”

“So you have to breakthrough before using the medoin mode.

Similarly for the Hard and the Extreme mode,” Jonathan said.

Hearing that my expression turned solemn.

“Do you want to try other facility?” Jonathan asked.

“No, I want to go back to my room,” I answered.

Today, I received too much information.

I need sometime to relax.

“Okay,” Jonathan said.

A few minutes later,

After entering my room, I laid down on my bed.

Then I started to surf the online site.

A virtual screen appears above my watch.

A new articles are appearing on one side of the page.

The other side, videos are streaming.

Most of them are delta city news.

If you want to read news about other city, you have to type the name.

Then I started to go through the headlines.

Most of them are about the different Hunting Team under the Federation.

The 4 City has more than hundred of warriors.

Where Alpha City comes first when it comes to the Strong team.

The next in line was the Beta City.

The Beta City has powerful hunting teams.

But they are few in numbers when it compared it to the Alpha City.

But these 2 City don't have average and weak hunting team.

If any average and weak hunting team comes to do a mission here, they would be annihilated by the monsters inside the boundary.

The death rate is extremely high even for the powerful team.

So the weak team can only be considered as cannon fodder.

So I got intrigued by the headlines.

If I go through these hunting teams.

I might get clear understanding of the people here.

Then I started to go through the articles.

Time passed,

Reiner Star and Russel Conner got summoned by Lowell.

They are going to visit the Lowell Castle with their team.

Reiner was not stupid.

He guessed the purpose behind this summon.

The news has already spread to the team mates as well.

They are even more looking forward to meet Zack.

On the other hand, Russel was same as well.

He had made his mind to fight against Lowell's disciple.

Not only he has this idea, the family behind him instructed to do this as well.

The Conner Family was pissed off even more than the Star Family.

Unlike Reiner, Russel got huge potential.

He has been training under Lowell because of Main Family's instructor.

He was not like Reiner.

Reiner was forced to chose the option.

But Conner family had made the decision unanimously.

So they don't want this chance to slip away.

They wanted to test the strength of Lowell's disciple.

If he was genius and powerful warrior, then the family can only swallow the anger.

Meanwhile,

Lord Keen was not different as well.

He was intrigued by Lowell's decision.

Lowell has been his rival.

All of a sudden, he has accepted a new disciple.

Which made him to think to accept a new disciple as well.

“What’s so good about his disciple?” Keen said in his heart.

I want to see him.

He knows that federation will arrange for a trial.

But it will take a time.

“I can’t wait for that long,” he muttered to himself.

He then thought about Nick.

A good idea comes to his mind.

He decided to use Nick to test the strength of the new disciple.

On the federation side,

the higher ups have started discussing about the trial.

The trial for the core member is an important event.

Where most core official would be present to watch the event.

Some of them thought about making the trials hard.

Chapter 725: Meeting Seniors

From MC's perspective:

Lowell Castle,

After going through many articles and important news.

I came to realize that my current strength is pitifully weak.

Even the teacher has mentioned it before.

I didn't figure it out completely.

Here the inner post is more like a battlefield; everyone disdains warriors below commander rank.

Even the commander rank has to be cautious in the presence of the General Stage.

"I have four stages above me," I muttered to myself.

But I'm not afraid.

Given time and resources, I can break through quickly.

Lightning resources are not scarce here.

After calming down my heart, I started searching for other important news.

A few hours later,

In the evening time, I got summoned by Teacher Lowell.

Seeing that my eyes flash with a glint.

I know I'm going to meet my 2 seniors.

After leaving the room, I headed straight towards the front garden.

When I got there.

I saw apart from the teacher and Jonathan.

12 people are talking and smiling.

"Phew," I took a deep breath before walking towards them.

Lowell smiled upon sensing Zack.

He is aware that this is going to be a real test for Zack.

From here, there will be a series of challenges until he reaches the General Stage.

Jonathan sees Zack but his knitted eyebrows tell that he is worried about something.

Reiner Star and Russel Connect both looked at each other.

A quick gleam can be seen in both of their eyes.

"So he is Head's disciple.

But why can't I see through his strength," Russel said in his heart.

He tried to see through Zack.

But his vision was obscured by something.

A similar thing happened with Reiner and others.

Follow new episodes on the "N0vel1st.c0m".

None of them were able to see through Zack.

"Is there any treasure?" Reiner secretly thought in his heart.

Even though he wasn't able to see Zack's strength.

He didn't feel any pressure either.

Normally a high-level warrior would have some oppressive aura.

But he didn't see anything.

The other team members are surprised as well.

Russel was a warrior above the General Stage.

He was more confused.

He can only look at the Head to find some clue.

“Zack, come here,” Lowell said.

Hearing that I walked to him.

My facial expression was neutral without any waves.

But my heart was beating faster.

“So many powerful warriors in one place.

Any one of them can kill me easily,” I said in my heart.

“Zack, meet your senior.

They are from 2 Hunting Teams under my command.

Everyone here belongs to A group.”

“The B group is currently busy doing missions.

You can meet them later.”

“Here, meet the Captain of the Black Raptor Team, Reiner Star from the prominent Star Family.

Which has shares in the academy groups.”

Hearing that I secretly note down the important information in my heart.

“Hello, Senior Reiner,” I greeted the man in front of me who was looking at me with curious eyes.

“Your full name is Zack Lockwood, right?”

It’s nice to meet you,” Reiner said with a smile without any grudges in his heart.

The Black Raptor team members behind him are shocked.

They know more or less the story about Reiner’s situation.

Their Captain has been fighting for a position.

But now it’s snatched by someone else.

They don’t have a good feeling about this.

Some of them didn’t hide their unkind eyes looking towards Zack Lockwood.

Most of them come from influential families.

So they are not afraid of a little nobody from the outer post.

Lowell is observing everyone’s expression and attitude.

He thinks it will be good tampering for Zack’s mind.

Jonathan was tense as well.

He knows the temper of these Hunting Team Members.

He hopes none of them will cross the line here.

“Next, meet the Captain of the White Raptor Team Russel Conner from the Conner Family, one of the powerful

Bloodline Families,” Lowell said.

“His real strength is above Jonathan.

A bit lower than me.

Similarly, the Strength of Reiner is the General Stage.

But he shows Commander Rank Strength outside,” He said secretly to Zack’s mind.

A hint of pride flashes in Conner’s eyes.

But the teacher’s words fell like thunderclaps in my mind.

“Stronger than Jonathan,” My heart set off storms.

I looked at the burly warrior in front of me.

His pressure is lower than the Teacher’s but stronger than Jonathan’s.

Then I realized the teacher’s words were not false.

This Russel guy was indeed stronger than Jonathan.

“Ha...Ha...Ha..., Head Lowell.

You got a new disciple, the news shocked everyone including my family,” He said with a smile.

But everyone can see that there was a hint of dissatisfaction in his tone.

The Team members behind him are supportive as well.

Everyone gave a malicious look towards Zack.

“Hello, Senior Russel,” I greeted the big person in front of me.

At the same time, I felt threatened by him.

“He is looking at me with a malicious gaze,” I said in my heart.

Looks like I have encountered my first enemy here.

Russel answered, “Good to see you, Zack Lockwood.”

After saying that he turned towards Head Lowell.

“Head Lowell, my family said your disciple is strong.

I would like to fight against him,” Russel said boldly.

Gasp!

A small exclamation sounded among the team members.

The White Raptor Team Members started saying supportive words.

“Head, we want to see the strength of brother Zack.”

“Head, what is brother Zack’s element?”

Everyone started requesting the duel between Russel and Zack.

Reiner and his team are shocked as well.

Reiner’s eyes flickered, “Russel was bold.

Was it him or his family?”

He knows Russel follows the Family’s order blindly.

He wasn’t afraid whether Head Lowell took it personally or not.

His team members behind him are interested in witnessing the duel as well.

But to their surprise, Lowell remained unfazed.

He had expected this to happen.

When he summoned everyone to meet Zack.

“He noticed that Russel is mentioning his family name from time to time.

Which shows that the Conner Family wants to slap my face,” Lowell said in his heart.

“Harumph,” He gave a cold snort.

The sound came with a bit of heavy pressure which instantly made everyone silent.

Russel’s pupil shrinks.

He can tell that Head Lowell was pissed off.

But he is just following his family’s orders.

He didn’t care what happened next.

Because the family has asked him to withdraw from the team after testing Lowell’s disciple.

“I have asked you all to come here to meet Zack.

Not to issue a challenge.

And Zack comes from the outer post.

He needs time to adapt here.”

“You Russel.

I know you are doing this because of family.

But sometimes it's better not to cross the line," Lowell said in a cold tone.

Which made Russel step backward.

Lowell's powerful gaze made his back drench in cold sweat.

"That's all for the introduction.

You guys can leave," Lowell said.

Hearing that many felt disappointed but it can't be helped.

Reiner was the reaction of Russel.

He laughed in his heart.

He knew this would happen.

That's why he removed grudges in his heart.

Then both of them left the place with their hearts.

When everyone was gone.

Three of them left the place alone.

"It was tough," Jonathan said.

He thought Russel was going to make a move for real.

His strength is lower than Russel's.

If Anything happens, it's difficult to protect Zack against him.

"Jonathan, you can relax.

I know the temper of these people better.

Even though they are dissatisfied they can only swallow it."

"They are not stupid enough to offend me," Lowell said.

"Master, from observing Russel's behavior.

I can tell that he is going to drop out from the Hunting team," Jonathan replied.

"I know," Lowell's eyes flicked.

Next, his gaze fell on Zack.

Seeing that Zack was calm and composed.

He gave an appreciative look.

"This kid is good.

He impressed me this time," Lowell said in his heart.

Lowell knows this is the first time for Zack to see so many powerful warriors in one place.

Anyone of them can destroy the outer post easily.

On the other hand, I'm still processing everything.

When my heart calmed down.

I looked at the teacher and replied, "That was an intense meeting."

Lowell smiled before saying, "They are just warriors under my command."

"Just imagine how many warriors like them in Delta City and the rest of the inner post."

Hearing that I felt my knowledge about the world is widening.

This sheer amount of warriors are living in this region.

But I didn't let the weight burden my heart.

"Teacher, I need a lot of resources," I made an honest request.

Hearing that Lowell felt good.

He thought Zack was indeed careful.

"Good, in that case, you have to work hard.

Once you become Peak Stage SSS- Elite you can officially join the Hunting Team.”

“In the meantime, you have plenty of time to improve yourself.

One more thing, the federation may conduct the Trial at any time.”

“Be prepared for that as well,” Lowell said.

“Don’t worry teacher.

I won’t let you down,” I said to him.

Hearing that both Lowell and Jonathan revealed a smile on their face.

Chapter 726: Puppet Training Chamber

From MC’s perspective:

After meeting with the seniors, I returned to my room.

But my mood was not good.

I know that trouble is going to come.

I should be prepared for that.

Right now, I should focus on improving my fighting technique.

Starting from adapting to my new strength.

I changed into training clothes before walking to the underground training facility.

I have already received permission from the teacher and Jonathan.

I can train whenever I want.

Soon, I reached the underground basement.

There are four chambers.

I have decided to practice till late at night.

I turned to the Puppet Training Chamber.

Seeing that my eyes flickered.

I wonder how it is going to be?

"Illusion Chamber has 4 modes.

I guess it's the same for every chamber," I said in my heart.

If my assumption is right, these 4 modes depend on cultivation.

At my current stage which is Super Elite, I can only practice in basic mode.

If I break through to SS-Elite, I can try the medium mode.

After gaining some clarity in thoughts, I walked to the puppet training chamber.

Then I placed my palm on the glass door.

Creak!

The palm print was verified.

The door opened the next second.

Seeing that I walked inside.

The chamber was similar to the illusion chamber.

All the four sides of the walls and the floor were built of Special metals.

I spotted a similar circular platform in the middle of the room.

If my assumption is right, then the puppet is going to appear from here.

Follow new episodes on the "N0vel1st.c0m".

“Username: Zack!”

“Select the modes,” A voice reached my ears.

Hearing that my doubts were cleared.

Each mode was for a different level of cultivation.

Before selecting the modes, I recalled my technique in mind.

1.

Sword Divide: Big wheel (Intermediate)

2.

Lightning Wheel: Big wheel (Intermediate)

3.

Lightning Phantom: Big wheel (Intermediate)

4.

Blood Field Technique: Small wheel (Proficient)

5.

Soul Tower Method: Small wheel (Intermediate)

6.

Soul Needle Art: Small wheel (Intermediate)

7.

Lightning finger technique: Small wheel (Intermediate)

8.

Blood Fist Technique: Small wheel (Intermediate)

9.

Healing Hand: Small Wheel: Small wheel (Beginner)

The nine techniques come to mind.

"I have 4 lightning techniques.

2 Soul technique and 2 blood technique.

1 Healing Hand Technique," I muttered to myself.

Then my perception ability is my backbone.

It has saved my life countless times.

Currently, I don't lack any techniques.

But I have to reach a proficient level in all of my techniques.

Only then can I easily fight across ranks.

Especially here in the inner post.

Most of the talented warriors can fight across the rank.

It's considered a sign of a talented warrior.

I have known problems in defeating higher level warriors back home.

But here, it's going to be challenging.

A firm glint flash in my eyes.

"I choose Basic Mode," After saying that I brought the black sword outside.

"Mode is selected.

Basic level humanoid puppet is going to appear in 1 minute."

The voice reminded me.

Hearing that I tightly held my sword.

I decided not to use techniques and perception ability for the time being.

A one minute later,

A silver humanoid puppet appears above the platform.

The whole body is made up of metal.

There is a blue light in both of the eye sockets.

Which shows that the puppet has a human -like intellect.

Seeing that, a hint of apprehension appeared in my eyes.

This is the first time I'm going to fight against a puppet like this.

Swoosh!

The next second, the puppet exploded with a top speed to punch me.

Seeing that I raised my sword to attack.

In a blink of an eye, the humanoid puppet closes the gap.

When my blade comes in contact with the puppet body.

Clang!

A metallic sound reverberated throughout the area.

But I felt a strong vibration from the sword.

It made me take a few steps backward.

"This?" A hint of disbelief appeared in my eyes.

Because I have used the Peak Stage Super Elite body strength in that strike.

Yet the puppet made me retreat.

A look of understanding dawned on me.

The humanoid puppet's strength is Peak Stage Super Elite as well.

Because of the unique metal.

It can be fought across ranks.

But I haven't given up yet.

I won't use the elemental power unless the puppet forced me to do so.

Clang!

Clang!

Clang!

One after another, a collision sound reverberated inside the room.

In each strike the puppet is pushing me to the edge of the room.

Both my essence and physique have Peak Stage Super Elite Strength.

Yer the humanoid puppet is effortlessly fighting against me.

At the same time, I realized the importance of this training facility.

The humanoid puppet with A.I intellect is fighting like a veteran warrior.

If I continuously spend time here, then I can gain battle experience.

After gaining some clarification, I took the initiative to strike.

Study room:

Lowell is sitting behind his desk.

Jonathan is standing in front of him reporting the latest news.

“Master, the news caused turmoil in the family.”

“No one expected you to take an outsider as your student,” Jonathan said.

Lowell smiled before saying, “I know their plans.

That’s why I didn’t choose a family member or a warrior from other forces.”

“When I was struggling.

I came across Zack Lockwood.

He is a perfect uncut jade.

Now that he has entered the inner post.”

“Here, he can use his talent perfectly,” He added.

Then he started tapping his arm chair with his fingers.

He is thinking about the next course of plan.

He has done the introduction.

Now the news must have reached all the major forces.

So much that it can be expected from tomorrow’s news.

Warriors above the general stage are highly expected.

So each one of their moves garners people’s attention.

They are like celebrities.

Then he thought of something before asking, “Jonathan, what do you think?”

“I guess it’s time to tell Zack.

What’s above the general stage?

Since he is going to enter the federation as a core member.

”

“He needs to know this information.”

Jonathan's eyes flickered.

He said, "Master this information is not secret anymore.

All the major influences have shared the news to important descendants."

"I guess even the Captain of Black Raptor and White Raptor Team knows about this information," He added.

Lowell's expression remained calm before he decided to tell the information to Zack.

"Looks like he is training in the basement," His mouth curved into an arc.

The blue screen in front of him shows the information on the training chambers.

One of them is currently in use right now.

"Hmm," He raised his eyebrows in confusion.

Because the information shows that Zack is still inside the chamber.

But he entered 10 minutes ago.

"At his current strength, it's not that difficult to defeat a basic mode puppet," He said in his heart.

What he expected from Zack was to fight across ranks.

He wants Zack to challenge and win against a Medium level puppet.

Medium level puppet has the strength of SS-Elite.

“Alright, you can leave,” He said to Jonathan.

Hearing that Jonathan left the room.

Meanwhile,

All the 23 organizations have received the intel.

And they have added Zack Lockwood’s information into their database.

They only knew Zack Lowell as Lowell McClain’s personal student.

Lowell McClain is an important person who holds core member positions in both Army Federation and McClain Main House.

Core members and above are considered as decision makers in everyone’s organization.

So Zack Lockwood’s information is considered an important one.

At the same time, they have sent their spies to collect intel about Zack Lockwood.

Except his name no one knows about other information.

Except Star and Conner Family who learnt recently because of Reiner Star and Russel Conner.

They didn’t expect such an important figure to receive student from one of the 1012 outpost.

On the other hand, there are organizations who have

in their mind.

For example, the Hunter League, Giant Tower Academy, Red Moon Tower and the Eclipse Academy.

They are one of the big organizations here.

Soon, they will confirm their information.

Meanwhile,

Inside the training room, I'm getting exhausted slowly.

Not only that as the time passes, the puppet has managed to land me a few hits on my body.

The puppet's moves are proficient.

It's hard to guard against them.

A few minutes later,

Tap!

I leaped backwards before widening the distance.

The next second, I placed the sword back in my ring.

I have decided to use fist from now onwards.

Swoosh!

The puppet exploded with great speed again.

From the beginning to end, the puppet is fighting with full strength.

It was not exhausted like a warrior.

The endless energy of the puppet is putting pressure on me.

When it got close to me.

I raised my fist to punch.

Boom!

When both of our first collided a booming sound reverberated throughout the area.

The shock wave hits the walls on the four sides.

At this time, both of our strengths tied with each other.

Chapter 727: Next Stage of Cultivation

From MC's perspective:

Puppet Training Chamber,

After getting several hits on the body, I decided to quit.

“I give up,” I said in a low tone.

“Basic mode ended,” A.I voice sounded inside the room.

The humanoid puppet returned to its normal stance.

Then it walked to the center of the platform.

The light inside the sockets dimmed.

The puppet looked inactive.

The next second,

a gap opened and the puppet went down below.

Seeing that, a hint of surprise flashes in my eyes.

“What an upgrade in technology?” I sighed to myself.

Back home, I had used a wooden puppet and a silver puppet.

But I had used them as my targets.

Here, the humanoid puppet can fight.

After calming down my heart, I thought about healing myself.

“Essence chamber,” I muttered to myself.

Then I walked out of the room.

I looked around.

The Essence Chamber was a small room right next to the stairs.

I don’t know how it will work.

But I have decided to try it out.

After entering inside, I saw the room was indeed small.

Then I realized not much space was needed for cultivation.

Right after, the A.I voice asked me to select the mode.

I picked the basic mode here as well.

Right after, slightly concentrated world energy gathers inside the room.

I can feel that the world’s essence is much more concentrated here than outside.

Compared to the outside environment, there is not much difference.

“Then what about other modes?”

A hint of curiosity appeared in my eyes.

The next second, I shook my head.

Other modes are set for different stages of Cultivation.

Follow new episodes on the "N0vel1st.c0m".

The higher the stages, the higher the essence requires.

After figuring it out, I sat cross-legged on the ground.

Then I started to run the wooden scripture.

Right after, I felt the abundance of dark essence around me.

Slowly, from the white mist, many dark green spots started surrounding me.

The next second, the dark green spots entered my body one after another.

I felt the process was faster and smoother here.

These green spots then start to settle down inside the dantian after circulation.

In that process, the hidden injuries in my body started healing.

One hour later,

All the injuries are gone.

My mental strength recovered as well.

Then I stood up from the ground.

After ending the basic mode, I stepped out of the room.

Then my eyes set on the Gravity Chamber.

After taking a glance at the room, I decided to return to my room.

But when I got there, Somebody was already waiting for me.

The person is none other than Jonathan.

Jonathan saw Zack's clothes were torn apart.

Then he quickly connected the dots.

"Good.

You have fought the humanoid puppet," Jonathan appreciated.

He thought Zack could understand his circumstances without having a Master to explain everything.

"That was something," I replied.

"But right now, you have to visit the master.

He is waiting for you,” he added.

Hearing that I nodded at him before walking towards the study room.

“Was it about his family?” I said in my heart.

Soon, I reached the study room.

Creak!

The door opened automatically.

Seeing that I walked inside.

Teacher Lowell is sitting behind his desk as usual.

But he is seriously looking at the blue screen.

“Teacher!” I greeted him.

Lowell took his gaze from the blue screen before looking at him.

He saw Zack’s clothes were torn apart.

Which shows that he had a close fight against the puppet.

“Zack, the four chambers are important for your growth.

Until you reach the General Stage, this castle will be your home,” Lowell said in a normal tone.

Hearing that I felt grateful.

The castle reminds me of the old era.

I am quite used to living inside this castle.

Now there are training chambers available for me to practice.

I have no reason to complain.

“Thank you, teacher,” I said.

“It’s nothing.

But I have asked you to come here to reveal some secrets about this world, Lowell said.

“Secrets?” I muttered to myself.

“That’s right you have always wanted to know.

What’s power above the general stage?

And what’s my current level, right?”

Hearing that my heart skips a beat.

Ever since the teacher told me there are people above the general stage.

And they are the backbone behind all the organization's inner posts.

I started searching for information online.

But nothing can be found.

I looked at the teacher and said, "Teacher, I want to know.

I have already seen surprising things.

Hereafter nothing more can surprise me."

"Nothing will surprise you?" Lowell muttered.

Then he chuckled before saying, "Then let me broaden your horizon."

"You have known only 9 stages from Trainee Apprentice to General Stage."

"But above General Stages, there are an additional 9 stages," Lowell finally revealed a big secret.

His words fell like a thunderclap in my ears.

"There are still nine stages," My heart was in turmoil.

For a second, the world was stopped for me.

Don't tell me there are many regions above the inner post.

Otherwise, it doesn't explain the power structure here.

Lowell saw Zack's complexion.

He sighed inwardly.

He knew the information was too early for him.

But as his legally registered student.

There are some secrets that Zack can know in advance.

He thinks that Zack will set his goal higher hereafter.

On the other hand, my heart was still beating faster.

Teacher's words instead of clearing my doubts.

It added more questions to my mind.

What are these nine stages?

How come people will become strong?

A teacher told me that the ancient method can only lead to the General Stage.

A look of understanding dawned on me.

My ancient methods are different.

They are the main source, not the interpreted one.

Then I turned toward the teacher and asked, “Teacher, what are these stages?”

Lowell smiled seeing how quickly Zack digested the information.

“Black Mark Warrior- Inheritance Stage 1”

“Silver Mark Warrior – Inheritance Stage 2’

Gold Mark Warrior – Inheritance Stage 3

“Purple Mark Warrior – Inheritance Stage 4”

“Red Mark Warrior – Inheritance Stage 5”

“Quasi God – Inheritance Stage 6”

“Demi-God – Inheritance Stage 7”

“God –

Inheritance Stage 8”

“Titled God – Inheritance Stage 9”

One after another, Lowell explained the stages.

On the other hand, I stood dumbstruck.

When the teacher said the term “God”

My heart shook again.

The name forced me to remind me of that ancient inheritance in my body.

That said, my physique has to reach an astonishing level so that I can withstand the inheritance.

Similarly, teachers are using the inheritance term as well.

I guess everything has to do with the inheritance.

After finished saying everything, Lowell saw Zack’s face.

Seeing that he was surprised.

Because Zack was unusually calm.

“Zack, what happened?” Lowell asked.

Hearing that my thoughts returned to reality.

I looked at him and asked, “Teacher, are the upcoming stages anything to do with the inheritance?”

“Hmmm,” Lowell was again shocked in his heart.

“Yes, you have guessed it correctly.

Let me explain further.

When you reach the General Stage.

Our physique reaches a limit.”

“For further transformation, we have to accept inheritance,” He added.

Hearing that some of the doubts in my heart cleared immediately.

Especially about the ancient bloodline in my body.

The words said by that thing are indeed true.

After the General Stage, there is no path ahead.

“You need inheritance,” I sighed to myself.

But the next second, a hint of ecstasy appeared in my heart.

I have an inheritance with me.

I don’t have to look for others.

The teacher’s words sound simple.

I don’t think that inheritance is easy to obtain.

Even simple ancient cultivation methods are kept secret here.

Then inheritance must be difficult to obtain.

“Do you have any doubts?” He asked.

Hearing that I nodded my head before asking, “Teacher, how to obtain the inheritance?” This was one of my important questions.

Because the inheritance of mine will come from ancient blood.

Lowell said, “If you want to accept inheritance, you have to join one of the universities.”

Hearing that I was dumbfounded.

“University?” I asked back.

“Ha...Ha...Ha..., I’m not talking about the ones here.

They are in a different league.

”

“First, let me explain to you something.

My current strength is Silver Mark Warrior.

I have accepted level-2 inheritance during my days in the academy.”

“What Silver Mark?” I said in my heart.

“Yes, most of the top warriors in the inner post are Gold Mark Warriors and below.

I’m considered as a second-level powerhouse in the whole inner post”

“That’s why my strength acts as a deterrent.

”

“Like we can’t enter the outer post with our power.

People above Gold Mark Warrior can’t enter the inner post.

Otherwise, the whole 112 inner posts will face danger,” Lowell said.

Hearing that I nodded my head.

“No wonder there was no information about them online.

Otherwise, normal people would be scared sh!t,” I said in my heart.

“When it comes to their living place.

They live in Tier-4 and above cities.

For example, the outer doors of the universities are located in Tier-4 City.

Where warriors from General Stage to Purple Mark and Red Mark Warriors live.”

“I have heard from seniors that the Inner door of the universities is located in Tier 3 Cities.

Where warriors up to Quasi-God and DemiGod live.

Only inner-door students can live there.”

“And when it comes to Tier-2 & Tier-1 Cities.

They are legends.

But I think the last 2 stages of beings live there,” Lowell said.

Chapter 728: Reiner’s opportunity

From MC’s perspective:

Study room,

The information was too huge.

It took me a few minutes to process.

I knew before that there was power above the General Stage.

But I didn’t expect that there would be so many stages.

Even my master’s is at 2nd stage right now.

He is a Silver Mark Warrior.

I don't know what to say.

I'm just a Super Elite.

There are four stages above me to reach the peak.

Then I can think about the inheritance stages.

"Zack, are you alright?" Lowell asked.

"I know this information is too early for you.

But I don't want you to be ignorant.

All the forces in the inner post are aware of this information.

It's just that most of them have been to the outer door and have seen the Tier-4 Cities When it comes to Tier-3 and above.

You need qualification.

Most of the forces here don't know much about adult truth.

We only have basic information.

Which I told you right now.

If you want to know more, you have to enter one of the universities.

So all those talented descendants and younger generations of these forces were taught secretly from a young age.

So they can get qualification for one of the universities in the Tier 4 Cities.

“Can I know about the universities?” I asked back.

Lowell shook his head.

He said, “I think this information is enough for you to aim higher.

When you reach the General Stage.

You will know.

”

“You can go now.

From tomorrow onwards continue your training.

When you reach SS-Elite and above you can join the hunting team,” After saying that he turned towards the blue screen again.

Follow new episodes on the "N0vel1st.c0m".

Hearing that I nodded at him before leaving the room.

My head feels heavy.

I need a good night's sleep to release the stress.

After entering my room, I went to bed.

Laying on the bed, I started to recollect from the beginning.

After digesting the information once again, I changed my goals again.

Earlier, I used to wonder why the teacher wanted a fast breakthrough.

So they could reach the General Stage quickly.

Now I understand the reason.

Here the talented younger generation is preparing to enter the Tier-4 University.

While the rest of the average warriors spend their lives doing missions here for their organization or family.

Only those who have qualifications can aim higher.

When I look back.

I see that even teachers don't have enough information.

Apart from the division of cultivation, he only knows about Tier-4 Cities.

And I'm even more grateful for the teacher.

Without background and resources, it's difficult to achieve breakthroughs and learn these world secrets.

The teacher seems to have hidden something as well.

For example, the monsters.

Do they have similar higher stages?

The next second, I shook my head.

I can learn it in the future.

There is no need for me to burden myself with these thoughts.

Then I closed my eyes and fell asleep.

The next day,

I woke up earlier.

After completing the morning routine.

I went to the basement to cultivate.

"Cultivating inside the essence chamber saves me more time," I muttered to myself.

Soon, I reached the basement.

When the palm verification was done.

I walked inside.

The door behind me closed automatically.

I walked to the platform before sitting cross-legged.

Creak!

At the same time, misty world essence comes out from the platform and starts covering the room.

I closed my eyes and started running the lightning scripture.

The next second, the lightning rune in my mind starts to flicker.

The next second, I started to absorb the purple energy into my body.

Outside the world energy covered my body like mists.

Because of this, the absorption was faster.

Which saves time.

As the purple energies entered my body, I started to guide the energy according to the routes mentioned in the scripture.

After circulation, the refined energy settles down inside my dantian.

Seeing that I continue the process.

Time passed in the blink of an eye,

After cultivating the lightning method for a few hours, I switched to the blood element method.

Then I started cultivating normally without monster cores.

Here the cultivation speed of the blood element is as fast as the lightning one.

So I closed my eyes and started running the blood element method.

The next second, the blood rune in my mind starts to flicker.

Outside, several red spots are entering my body one after another.

The blood energy was warm and gentle.

It lacked the violent power of the monster core.

Then I realized this gentle energy was the original element.

The Class Monsters break through differently.

Because of their nature, the blood energy in their monster core has become violent.

As the blood energy entered my body, I started to guide them according to the blood element method.

As the blood energy starts to flow, the red blood light starts to appear above the blood.

The red light starts to convert the blood energy into mysterious white energy.

The mysterious white energy enters my bones.

The next second, I felt heart-wrenching pain.

I started to endure the pain.

Slowly, the red skeleton becomes even more deeper.

A few hours later,

I switched the cultivation method to wooden scripture.

At the same time, Lowell McClain went to the federation for important reasons.

He needs to go there and verify Zack's information.

He also plans to meet other core members.

Meanwhile,

The person sent by Lord Keen is spying on Lowell Castle.

He is none other than Nick.

He is a rival of the Black Raptor Team.

If Reiner or Russel was here, they would have identified the person.

At this time, Nick was frustrated.

He has been spying on this castle for some time.

But he hadn't seen the rumored student of Lowell McClain.

"Why was no one coming outside?" He asked me.

When it comes to Black Raptor Team and White Raptor Team.

His team members are keeping an eye on them.

So he is not worried about them.

Inside one of the luxurious hotels,

Reiner Star is spending time in his room.

He is not in the mood to do a mission right now.

Now he has to think about his plans.

Earlier, he hoped to get the support of Head Lowell.

Now because of his student everything has changed.

"What's his name again?"

“Zack Lockwood, right?” He asked himself, sitting on the sofa.

Thinking about the meeting, a faint smile appeared on his face.

“He looks younger.

Even younger than the young master of the Star Family,” Reiner said to himself.

When this thought appeared in his mind.

He began to access the recent message.

The family has been asking him to inquire about details about Zack Lockwood.

But he wasn’t able to see through Zack Lockwood’s strength.

“Zack Lockwood looks younger.

Maybe his strength is not the General Stage.

He might be a Commander Rank Warrior,” Reiner said to himself.

He thinks Head Lowell himself a Silver Mark Warrior.

His students must be talented as well.

Beep!

Beep!

Beep!

His communication watch starts ringing all of a sudden.

Hearing that, his thoughts returned to reality.

When he saw the contact name.

His expression changes drastically.

“Inner circle

Elder is calling me,” He stood up immediately.

When he attended the call.

A holographic image appeared above his watch.

“Reiner Star, a young generation from the 2nd branch, greets the elderly,” Reiner said in a low tone.

His back went cold.

He didn’t expect such a person to call him.

It’s rare to see them on normal days.

“Good, where are you right now?” A bald person spoke.

He is wearing the elder robe of the Star Family.

Hearing the deep voice, old memories surfaced in his mind.

At that time, this elder gave punishment to criminals in the family.

They were all brutally killed.

After collecting his thoughts, he answered, "Elder, I'm in Delta City right now.

Waiting for the next mission."

The bald man remained silent before saying, "Family has decided that you should quit Lord Lowell's team.

Before leaving the delta city, try to test the strength of his student."

"If you can get the information, you will receive rich rewards," He added.

Hearing that his breathing becomes faster.

He was in disbelief.

An inner circle elder is giving a mission to him.

He wants to use this chance.

If he can grab this opportunity, he doesn't have to work hard for his future.

“Yes, elder.

I will do it as the family says,” He answered in a calm tone.

“Good,” After saying that the projection disappeared.

Seeing that he signed in relief.

At the same time, a hint of ecstasy appeared in his heart.

He was wondering what to do next.

But he didn’t expect someone from the upper echelon to contact him.

Thinking about Zack Lockwood he sighed inwardly.

“Zack Lockwood, this time I’m going to use you,” He said in his heart.

At first, he was only curious about this young warrior.

As a student of Head Lowell, Zack is going to be a little famous.

Now he is going to make him even more famous by collecting his information.

Chapter 729: Continuous Training

From MC’s perspective:

A few hours later,

After cultivation, I entered the puppet training chamber.

Then I started practicing the sword moves in the basic mode.

The silver humanoid puppet is domineering as always.

It's started pushing me to the edge from the first move.

Time passed in the blink of an eye,

After one hour, I decided to use the lightning moves.

Clang!

After the collision, I leaped backward to make a distance.

The humanoid puppet starts charging against me.

"Sword Divide"

I started charging the black sword with the dark purple essence.

The blade flickered with a dark purple glint in the blink of an eye.

But these few seconds allowed the puppet to get close to me.

When it was one step away from.

Boom!

I discharged dark purple lightning from the sword blade.

A powerful dark purple beam shot at the puppet.

The humanoid puppet felt the immediate threat.

But it's too late to evade.

Bang!

When the beam hits the center of the puppet's chest.

An explosion occurs.

The powerful force made the puppet fall backward.

The aftermath hits the surrounding wall.

But everything returned to normal in a couple of seconds.

No damage has occurred to these walls.

A quick gleam flashes in my eyes.

The training chamber was specially built to withstand different modes of attack.

Not only the basics are made, but even the extreme mode can't damage these walls.

Seeing that I set my gaze on the puppet again.

The puppet stood up as if nothing had happened.

When we confronted each other again.

Follow new episodes on the "N0vel1st.c0m".

I saw a slight drop in the puppet's energy.

Seeing that my eyes lit up.

As long as I can make the puppet's energy zero.

Then I can be considered as a winner.

Then I started using the lightning technique again.

As time passed, I kept using the sword divide move.

I aimed to reach the proficient level sooner.

Meanwhile,

Reiner Star came to Lowell Castle again.

He plans to confirm whether Head Lowell is here or not.

The family elder instructed him to exit the hunting team and carry out the last mission.

He thought about numerous ways.

But the existence of Jonathan may be a roadblock for him.

In the end, he thought of a plan.

After arriving at the entrance, he strides towards the door to open it.

Swoosh!

But before he could do it.

A figure blocked his path.

The person is Jonathan.

"Reiner Star, what are you doing here?" Jonathan asked.

A cold glint flashes in Reiner's eyes.

A blooming smile appeared on his face the next second.

"Mr.

Jonathan, I thought the Head's student might be bored staying inside the castle the whole time."

"So I thought about giving a tour of our delta city," Jonathan said with a smile.

Hearing that Jonathan sneered inside.

How deep is his mind?

He saw through his thoughts.

Previously, he showed an indifferent attitude.

Now he is showing sudden care.

So Jonathan understood something was wrong.

“Mr.

Reiner, the young master is not here.

He was taken to the family, “Jonathan lied to him.

“Family?”

“McClain House!”

Reiner completely believed his words.

Then he recalled that McClain House’s recruitment was over.

So their training might start soon.

“What a bad time,” He cursed under his breath.

The situation is going to force him to stay longer to continue the mission.

“When will he return?” He asked back.

“Don’t know.

If you are interested, you can contact the head directly,” Jonathan replied.

“No, I’ll come back again to visit Zack,” After forcing a smile, Reiner left the place.

“Harumph”

“Looks like the families behind these people have started their tricks,” Jonathan said with a snort before disappearing.

There was one more person in the vicinity who had been waiting for Zack Lockwood to appear.

Nick was frustrated.

He feels it’s impossible to complete the task.

But when he eavesdrops on their conversation.

He broke the rock close to him in a fit of anger.

“So Lowell’s student was not here.

But I have been wasting time,” He cursed under his breath.

Then Nick decided to leave and inform the Head Keen.

Time passed,

When it was dusk, I had exhausted the dark purple essence in my dantian.

Next, I have to restore the essence before fighting the puppet.

When I walked out of the chamber.

The Gravity Room caught my attention.

A hint of trying out appeared in my heart.

The next second, I shook my head.

I’m exhausted.

Any further training might add burden.

So I have to recover before doing anything.

Then I entered the essence chamber to recover.

30 minutes later,

I stepped out of the essence chamber and walked to the Gravity Chamber.

After entering inside, the AI voice asked the same question again.

Then I selected the basic mode.

“The Gravity power is going to appear in one minute.”

The AI voice sounded.

Hearing that, I sat crossed on the ground.

Then I closed my eyes.

I wonder how long I can endure.

One minute later,

A gravity force appeared in the room.

A powerful press hit my body all of a sudden.

Even though I was prepared.

I was still caught off guard.

“This?” A hint of apprehension appeared in my eyes.

Because of this pressure, only the SS-Elite Stage can handle it.

But for me, it's not something to be worried about.

Because of my body strength, I was able to adapt to it.

As the time passed, I noticed other changes.

The flesh and internal organs are under pressure.

Strangely, I didn't feel any discomfort or pain in my skeleton bones.

But other parts are hurting.

It's kind of a weird feeling.

As time passed, I forgot about myself and immersed myself in gravity training.

Outside,

Jonathan can view the situation of the underground training facility through his communication watch.

Seeing that Zack is now inside the gravity chamber for more than one hour.

"Sure, his physique is strong.

Was this natural born or a technique?" He asked himself.

Apart from the lightning element, he hadn't seen Zack using another power.

But he was aware of Zack's strong physique.

At one time, Zack had bought a pill in the auction back in Viper City.

That pill was tasteless to others.

Except for the warriors with body inheritance.

Later, Zack used the pill to raise his strength.

Jonathan's eyes gleamed with a twinkle.

"Maybe we should purchase body training pills for Zack.

With that he can get twice the result under the gravity training," Jonathan thought secretly in his heart.

Time passed,

I returned to my room late at night after gruesome gravity training.

I had thought about selecting the medium mode.

At the last minute, I changed my mind.

I don't want to get injured by the powerful gravity force that only SSS-Elite can withstand.

Laying down on my bed, I started to recall today's training in my mind.

Compared to the Viper Academy, here my progress is rising faster.

A week of training here is equal to one year of study in the academy.

May after reaching the general stage, I can go back.

Meanwhile,

Lowell McClain returned to the castle one hour later.

But his expression was not good-looking.

After entering the study room, he summoned Jonathan.

When Jonathan appeared.

He asked, "Master, what happened?" From the master's gloomy look.

He can tell that there is bad news.

"The core officials are taking this chance to attack me.

Before, none of them dared to target me.

Now I have selected an outpost native as a student."

"Some of them are making fun of it," Lowell said in a cold tone.

Jonathan sighed inwardly.

He replied, "Master, their reaction was expected.

As long as Zack can reach the top.

They can't do anything."

"I know."

"It's just that they have set the difficulty of the trial higher.

You need at least SS-Elite strength to survive," Jonathan told the truth.

He knows that nobody knows about Zack's information except his name.

Unless someone did background checking behind his back.

It's not difficult to get the information from the Viper Academy.

But if it happened, Jonathan would have known.

"Did your men stationed in the Viper Academy say anything?" He asked.

Jonathan looked confused.

Then said, "Master, are you suspecting?

Someone from the outer post sold the news."

Lowell nodded his head.

Jonathan added, "As per recent intel, the Viper Academy looks fine.

I have left formation there.

If someone sneaks in, I will know."

Lowell didn't doubt Jonathan's words.

Then he thought about another force.

"Then I guess it's the work of the Hunter League.

Either someone contacted the Hunter League or it could be the work of the academies here," He added.

Jonathan doesn't know what type of trail.

So he looked at his master and reported about Zack's training.

Hearing that Lowell's eyebrows ease down.

"It's good that he is not wasting time.

He even skipped the food," Lowell said looking at the video playing on the blue screen.

When he saw that Zack spent more than one hour in the basic mode of gravity training.

"His physique is good," He commented.

Chapter 730: New information

From MC's perspective:

The following day,

From morning to the evening, I spent the time in all four training chambers.

When it was late evening.

I decided to take a walk outside.

Jonathan didn't stop me.

As he is aware that I'm going to spend them in a nearby lake.

After stepping outside of the castle, I started walking towards the lake.

Not far away from here, Reiner Star is spying on everything.

He has been here ever since he received orders from the elders.

It's just that he didn't find an opportunity earlier.

Seeing that Zack Lockwood is going to the lake.

A good plan comes to his mind.

He walked out of the bushes.

His movements disturbed the leaves.

“Hmmm,” I raised my eyebrows in surprise.

“Someone is coming,” I said in my heart.

When I turned around, I saw that the person was none other than Reiner Star.

“What is he doing here?” a bad feeling comes to my heart.

These days I have a pretty good understanding about the forces here in the inner post.

Especially the 2 teams under Teacher Lowell were not loyal.

They are working under his command because of interest.

The next second, I activated the perception ability around me.

I have been trying to stop relying on this ability.

But looking at the current situation, I should have used it from the beginning.

“Ha...ha...ha..., brother Zack you are here,” Reiner said with a laugh.

Hearing that I sneered inside.

I can tell that he is lying.

His timing is unusual.

And he is expecting me to believe it.

“Brother Reiner, ts you.

What are you doing in our place at this time?” After saying that I started observing his actions through perception.

Follow new episodes on the "N0vel1st.c0m".

I don't know why?

But my intuition tells me that he is unkind.

He has ulterior motives to come here.

Reiner didn't change his expression.

He answered, "I'm here to enjoy the lake view as well.

Most of the time I'm busy doing the missions.

If I get any free time, I'll come to enjoy the lake view."

“On top of it, it's a private property of Head Lowell.

There will be no outsiders here,” When he added that a quick gleam flashes in his eyes.

The elder ordered him to collect information about Zack.

It can be only achieved through talking.

If he attacks Zack right now, then he is seeking death.

For his family calculations, he will be chased by Head Lowell.

Cold sweats started appearing on my forehead.

He knows about Lowell.

Especially after working in his hunting team.

His calculating schemes are no less than of the inner elder.

On the other hand, I kept smiling.

At the same time, I'm watching his movements through perception.

Slowly, we walked to the lake.

There are stone benches under the shade tree.

So I sat on it.

Seeing that Reiner's eyes lit up.

He sat on the next stone table.

For a few minutes, we both didn't talk.

I know Reiner is here for a purpose.

So I deliberately stayed silent.

10 minutes later,

Reiner opened his mouth to say, "Zack, tell me about yourself."

"These days your name has attracted a lot of attention.

Almost all top forces knew about your existence.

If you walk outside, you can walk sideways in all the inner posts," Reiner said with a smile.

Though it's the start of his plan.

But the words are not lies.

They are facts.

On the other hand, my mouth curved into an arc.

From his words, I sense no hostility from it.

At least, he is not going to attack me.

"Brother, you over praised me," I replied.

Reiner then talked about a few other things.

And everytime he got a positive response from Zack.

Finally, she revealed his claws.

“Zack, what about your strength?”

“Most of the warriors in the family or clan, they travel outside when they reach SSS-Eite stage at least.

”

“Later, they participate in various competitions across inne posts.

Which will give them fame and opportunities.”

“A few of them have appeared in the top list of the inner post,” Reiner asked with a smile.

He is confident that Zack will spill his beans.

On the other hand, I was surprised.

Reiner gave me some new information.

Even the teacher didn't tell me about the top list.

The next second, I furrowed my eyebrows.

If I ask him about the top list.

Then he will know that I'm not from the inner post.

What to do?

A question appeared in my heart.

Reiner saw Zack's reaction.

Fearing that he was exposed, he asked,, "What's wrong?"

"I just asked casually.

Usually, the famous students are from those top lists.

You are the odd one," Reiner added.

Which was one of the reasons everyone believes that Head Lowell has deep calculations.

By accepting an unknown student, he made a fool out of everyone.

On the other hand, I raised my hand to stop him.

"Brother Reiner, let's enjoy the view.

You will know it when the time comes," I said to him.

Reiner's heart turned cold.

He didn't want to cause a scene here and unnecessarily offend Head Lowell.

But at the same time, he doesn't want to miss an opportunity.

A cruel plan comes to his mind.

"Alright brother,

I'm leaving," Reiner said before leaving the place.

Seeing that I was stunned for a moment.

I didn't expect to give up like this.

He was up to something.

Then he gave up.

A look of understanding dawned on me.

"He was asking about my strength," I said in my heart.

I don't know whether he asked casually or if there is any meaning behind it.

When he was completely gone.

I returned to the castle.

The first thing I did was to meet Jonathan.

He was as usual enjoying his time reading books.

Seeing it felt strange.

I know Jonathan was busy.

But these days he seems to be guarding me.

“Jonathan?” I called out.

Hearing that Jonathan placed the books on the table before turning towards Zack.

“How was the lake view?” He asked.

Hearing that my eye gleaned with a twinkle.

“You knew!” I asked back.

Jonathan mysteriously smiled before saying, “I was paying attention to you.

I know that Reiner was with you.”

“He was lucky that he didn’t make any moves against you,” Jonathan said in a cold tone.

Hearing that my heart was in turmoil.

“So there was something wrong with him,” I said in a solemn tone.

Jonathan nodded before saying, "Reiner is unnecessarily lurking near the castle.

He didn't get summoned by the Master nor by me."

"So what was his purpose?"

"He was doing this after the introductory meeting," Jonathan added.

On the other hand, my expression turned worse.

So today's meeting was not a coincidence.

Which means he was waiting for me.

Jonathan thought of something before asking, "Did you guys speak?"

Hearing that I nodded my head before answering, "He was asking about my strength."

"He was wondering why my name was not on the top list."

Jonathan quickly connected the dots.

He understood everything.

He said, "Not everyone knows that you are from the outer post.

Some are waiting for the confirmation"

"The big forces have their intelligence unit.

They will verify the information with one means before registering.”

“When it comes to family and federation.

There was no need for it,” Jonathan said.

At the same time, I thought of something.

I asked, “What about the top list.?”

“I haven’t heard it before.”

Jonathan sighed inwardly.

He looked at Zack and decided to tell.

“You haven’t heard it before.

It’s normal.

Because your identity was unverified earlier.

Now you are part of 2 forces.

You can know about this.”

“Top list is basically a ranking of powerful warriors in each realm.

There is a top list for SSS-Elite Stage, Commander Stage and General Stage.”

“The top list competition is one of the major competitions across all the inner posts.”

“There are other different competitions for Pill Makers, Healers, Refiners, Formation masters.”

“But those professions are rare.

It’s not as attractive as the top list competition.”

Hearing that I sucked a cold breath of air.

As I guessed, it’s a ranking inner post.

There was no such thing back in the inner post.

At that time, every Academy used spies to get intel about the genius warriors.

Here it’s totally different.

“Can I participate?” I asked back.

“Ha...Ha...ha...,” Jonathan let out a small laugh.

“Of course, you can participate.

But your strength has to be SSS-Super Elite.

Because most of the warriors in the list fight across ranks.”

“Those SSS-Elite Warriors in the list can easily fight against Commander stage.

Even some of the geniuses remained unscathed against General Stage,” He added.

Hearing that I was shocked to the core.

Then I thought of something.

There was no news about it online.

“I didn’t see any information about this online,” I asked.

Jonathan nodded knowingly, he replied,”There is a reason for it.

The top list for SSS-Elite is mostly held in private.

If the strength is exposed earlier, they might be targeted.”

“There were records of people dying before,” he added.
