Chapter 731: Russel's plan

3rd Branch McClain House:

"What still there is no news of him," Head Martin said with a sneer.

In front of him, his son is standing.

Both of them are discussing Elder Lowell and his new student.

"Father, I heard a lot of dissatisfied voices in the main house.

I guess an Elder's student won't have a good time if he comes to the Main House," He said in a cold tone.

"Good" "Good"

"But son, it's not as easy as you think.

Elder Lowell won't let his students stay in the Main House all the time.

That kid is also part of the Federation."

"So I guess he would be under the wings of the Elder all the time," He said with a hint of jealousy.

Then he thought of something before his expression became serious.

"Son, you know the main reason.

Why did everyone fight for the main house quota," he asked.

Clay furrowed his eyebrows before answering, "I heard something."

Head Martin nodded his head.

Then he said, "You have to reach the General Stage before 20.

If you accomplish that, then your future will change."

"Even the Elder Lowell have to give respect then," He added.

Hearing that Clay tightly clenched his fist.

He heard some rumors during his past few days staying in the main house.

Especially the children of the main house family.

Some of them are early commander stage warriors.

They talked about reaching the General Stage sooner.

Martin saw through his son's thoughts.

He let out a small chuckle before saying, "Looks you have heard something.

But if you break through to reach the commander stage.

Then I'll clear your doubts."

Hearing that Clay loosened his fist.

Meanwhile,

Elder Claire, Elder Ollie, and Elder Christie are having a similar discussion.

But they are talking more about family business.

Elder Lowell's news is part of their conversation.

"Elder Lowell's student information has swept away the inner post.

Major forces are talking about it."

"We know nothing about that kid except his name and age.

Some of my connections are asking about it.

I don't know what to say?" He said in a displeased tone.

Follow new episodes on the "N0vel1st.c0m".

Hearing that Elder Claire's eyes flickered.

"The Main House hasn't said anything.

So it's useless for us to discuss.

But I think there will be a response in a few days.”

“At least, they have to give a face to Elder Lowell,” She commented.

“That’s right, I can’t wait to see what kind of talent is he?” Christie committed.

Everyone was waiting for the Main House decision.

Once the Main House confirms the date of the meeting.

Then there will be a banquet.

...

From MC’s perspective:

After talking with Jonathan, I came back to my room.

This time my head filled with new information again.

I didn’t expect to hear something about the top-list competition.

I guess there are a lot of things happening inside the inner post.

And it’s difficult to understand everything in one or two days.

But at least in my current state, I can’t participate in any competition.

Then pushing down these thoughts in my mind.

I went to shower.

Then I slept early.

The following day,

After doing my morning routine, I came to the essence chamber to replenish the dark purple essence.

After cultivating it, I switched to other 2 methods a few hours later.

Time passed,

After completing it, I entered the illusion chamber.

I want to grasp the benefits of the illusion chamber as soon as possible.

The illusion is so powerful that it can make you relive those important moments.

After selecting the basic mode, my mind draws into illusion quickly.

When I opened my eyes.

I found myself in a familiar environment.

The rain forest where the Class-6 and Class-7 Monster live.

This time I'm more relaxed.

I know in a few moments.

The Class-6 Scorpion will come.

Boom!

A terrible sound resonated.

The forest trees are destroyed.

The ground beneath my feet is shaking constantly.

I took the black sword from my ring.

“Sword Divide”

The next second, I instinctively charged the black sword with the purple essence.

The benefits of puppet training chambers are showing now.

In the blink of an eye, the black sword flickered with a purple glint.

When a giant red-black head appears above the giant tree.

Boom!

I discharged the purple beam targeting the monster’s head.

The purple beam splits through the air and hits the monster's head.

Pfff!

The scorpion monster's head splits.

A green color liquid gushes from its head.

The scorpion monster fell to the ground.

In a few breaths, the vitality slipped away.

Gasp!

I sucked a cold breath of air.

I know it's an illusion.

But still, the fighting style was effective.

There was no nonsense and no wastage of essence.

Even the attack was decisive and precise.

All of it made me want to kill the monster in one hit.

Before I know it, the illusion changes.

This time I found myself in the barren land with a little bit of vegetation.

But this terrain.

I won't forget it.

"It's the favorite place of the worm monster," I said in my heart.

Crack!

The next second, the ground splits, and several cracks appear.

Boom!

A yellowish 100 ft worm monster appears above the surface.

Seeing that body is trying to come out.

"Sword Divide"

I tried a similar tactic.

The black sword charged with the dark purple essence.

Boom!

I raised my sword.

Then I discharged the purple beam.

The powerful beam tore through the air in a straight line and hit the monster's mouth.

The next second, the monster remained unscathed.

Seeing that, I furrowed.

"No, it's an illusion, I can't display the power of the Peak Stage Super Elite," I said in my heart.

Looks like I have misunderstood something earlier.

I can train my combat effectiveness in this illusion.

My skills remain the same except for the cultivation base.

I have major improvements in my sword divide technique since the monster zone training back at the academy.

After figuring it out, I started targeting the monster's mouth again.

Boom!

One after another purple beam hits the monster's tiny head and mouth.

In the blink of an eye, the huge body of the monster fell to the ground.

Before I knew it.

I felt mentally exhausted.

Crack!

The next second, the crack appeared on the scene.

Then it slowly disappears before the illusion chamber appears.

I touched my forehead.

The heaviness was high.

“Looks like I can’t use the basic mode continuously,” I muttered to myself.

After walking out, I entered the essence chamber to run the wooden scripture.

...

Delta City,

Russel Conner was in his room.

But his current mood was bad.

“Head Lowell is not a castle,” A strange glint flashed in his eyes.

The family asked him to withdraw from the team.

But for that, he first needs to meet Head Lowell in person.

He can’t walk away just like that.

Lowell is working for the federation.

That's why he is in the delta city.

If he leaves Delta City without completing a formal procedure.

It would be like hitting the face of the federation.

Next time, no one from the Conner Family can join the Hunting Team of the federation.

Russel thought it through.

He won't leave without meeting Head Lowell.

Thinking about the pale-skinned Zack.

He sneered inside.

He wanted to fight earlier.

But right now, it's even harder to meet Head Lowell.

There is no time for other plans.

"When I got back.

I should put my energy into getting the quota for the 20th time."

“The real world is in Tier-4 cities.

I’m not going to waste my time living in inner post cities,” Russel said to himself.

Ever since he broke through the General Stage.

He heard some of the family secrets.

He didn’t expect some of the family elders to have graduated from one of the universities in Tier-4 City.

But it happened a couple of years ago.

When he broke through the General Stage.

He went to the weakest university to accept inheritance at that time.

But unfortunately.

The inheritance was level 1.

But it took him 7 years to complete the inheritance level 1.

His talent was bad when it came to the inheritance power.

The university won’t allow weak students to stay forever in Tier-4 cities.

Those who were bad were sent back to the inner post.

In return, the university will give many tasks to weak students per year.

As long as someone finishes it they can get a quota to come back and use university resources to improve their strength.

He is now a Black Mark Warrior.

He is just waiting for the task.

"I hope they release the next task.

My future depends on it," Russel's eyes flickered.

When he was young.

He came to know other secrets.

That General Warrior below 20 can be directly admitted as a university student.

But he knew there weren't many students like that.

Even in his own family, there is only one person with this qualification.

All over the inner post, such people can be counted in numbers.

That's why many of them use the quota.

But Head Lowell's student made him suspicious now.

Chapter 732: Part 1: Trial (Federation)

From MC's perspective:

Lowell Castle,

I continued my daily practice by using the four training chambers.

With each passing day, I'm correcting my mistakes and gaining huge battle experience.

A few days later,

After breakfast, the teacher summoned me to his study room.

While walking towards the study room, I guessed more or less about the situation.

"I think it's about the federation trial," I said in my heart.

Earlier, I thought that McClain House would come first.

But it looks like there are people opposite to Teacher Lowell.

When I reached the study room.

Creak!

The door opened automatically.

Seeing that I walked inside.

Teacher Lowell is sitting behind his desk.

He is calm and composed.

Seeing that I sighed inwardly.

If he is confident, then I don't have to be afraid.

Lowell McClain raised his head to observe Zack.

His eyes scan Zack from top to bottom.

He knew Zack had been training hard these past few days.

The four training chambers are specially installed to train his hunter teams.

But he feels Zack is going to reap many benefits from it.

Seeing that change of Zack.

He thought that the transformation was already taking place.

There was no more uncertainty in Zack's eyes.

His eyes flash with appreciation before saying, "Today is the trial day.

The Federation is looking forward to your performance.

If you are ready, we can leave now."

Hearing that I nodded my head in understanding.

When it comes to tests, I can't wait to know what they are prepared for me.

"I'm ready, teacher," I replied.

Then both of us stepped outside of the castle.

Jonathan will be here and taking care of the castle.

Follow new episodes on the "N0vel1st.c0m".

Before I knew it, the teacher grabbed my shoulder.

In the blink of an eye, we reached the unauthorized area of the delta city.

Tud!

"Here is the teleportation array.

We can directly go to the HQ," Lowell said in a calm tone.

A hint of expectation appeared in my eyes.

There are not many people here.

Except for the guards protecting the place.

The teleportation facility looks similar to the one back in the academy.

But it looks more efficient.

When we both stood on the platform.

Lowell activated the key.

The next second, the platform lit up with the light before we disappeared from the spot.

Swoosh!

When I opened my eyes.

I saw we were standing in a different place.

“This is our headquarters,” Lowell said.

Hearing that I collected my thoughts before stepping out.

I saw many high-rise buildings.

But the most attractive was the one standing in the middle.

Lowell observed Zack’s gaze.

He said, “Yes, that is our HQ.

The rest of the buildings are training areas for our members.”

“Let’s go,” He added.

Hearing that I started following from behind.

“This place is an unauthorized area as well.

But it’s heavily guarded,” I said in my heart.

The Warriors here are wearing the black uniform.

But all of them are powerful.

I couldn’t even sense their cultivation level except feeling pressure from them.

When we completely walked out of this place.

Teacher Lowell again grabbed my shoulder before flying out in the mir air.

Swoosh!

The speed was so fast that I saw the huge tower in the middle getting near.

In the blink of an eye, we got closer to the place.

Then the teacher landed on the ground right at the entrance.

“Let’s enter the office, the other core members are waiting,” Lowell said.

Then I followed him to enter the building.

The atmosphere is different inside the tower.

There are many people wearing tuxedos.

There are also warriors with black uniforms.

“The people wearing tuxedos are office workers.

Those wearing uniforms are members of the federation,” Lowell said while understanding Zack’s doubts.”

Then he led me to the lift.

When we entered inside.

I saw him pressing the 25th-floor button.

Then I noticed there are 150 floors in this tower.

It didn’t go unnoticed under Lowell’s eyes.

Lowell chuckled before saying, “Are you wondering why there are many floors?”

“Yes,” I replied.

I’m not surprised by his questions.

He must be watching my expression.

“Some of the floors are training floors.

While others are treasure rooms which contain artifacts, elixirs, and other important items.”

“If you are strong you can also get accommodation here,” Lowell said.

Hearing that my eyes flickered.

No wonder the HQ tower was the tallest among all the buildings.

You can live and train here.

“It’s similar to a lower castle,” I said in my heart.

The lift came to a stop at the 25th floor.

When the door opened.

Lowell stepped outside.

Then I followed him.

There is a glass door in front of us.

Seeing that I looked towards the teacher.

“The entire 25th floor is our meeting room.

Only the core members and their successors are allowed here,” Lowell said before pressing his right palm on the glass screen.

[Identity verified]

A voice sounded neither male nor female.

Creak!

The glass door opened.

“Don’t be nervous and remain silent,” Lowell warned.

Hearing that I nodded my head.

Then we both walked inside.

Inside the meeting room,

99 members are present.

50 seats on both the right and left sides.

There is a huge holographic projection running in the middle of the room.

Not only the core members, but other important people associated with the Federation are present inside.

Lowell’s eyes turned cold.

“Who allowed others to come, “He said in his heart.

The only core members are Silver Mark Warrior.

But others are Black Mark Warriors.

They have influence because of their background.

After entering, both of us stopped.

I see male and female members similar to teachers sitting in this room.

The atmosphere is strangely quiet.

I felt a piercing gaze from many at the same time.

All of them wanted to probe my body.

But there is nothing in my body.

Except for the ancient blood it can't be probed by others.

I held my nerves and looked at the silver ring.

The teacher told me that no General Stage and below can pry into my details.

Now I can confirm that people sitting here are above the General Stage.

But I don't know their strength exactly.

Chapter 733: Part 2: Trial (Federation)

From MC's perspective:

Suddenly, the image shown on the projection attracted my attention.

When I looked carefully.

It's a data profile about me.

But the information in that profile is wrong except my name and age.

"Enough!"

"I guess all of you are done with your probing.

There is no need to wait.

We can start the trial," Lowell said with anger.

Hearing that everyone stopped their probing.

"Ha...Ha...Ha...."

"As expected of you.

Your student might have a low base.

But his foundation is solid," One of the members commented.

"Yes, purple lightning is a domineering one.

No wonder, you are willing to pick someone from the outer post," A female member said with a chuckle.

But her voice was smoothing without any hostility.

"His bone age is under 17.

Which is passable," A cold female voice sounded.

One after another everyone started making comments.

Hearing that I clenched my fist.

It feels like everyone is rating some commercial product.

But there is doubt in my heart.

No one found out about my cultivation method and rune in my mind.

How is this possible?

I felt probing all over my body.

It's impossible to hide the skeletons' changes.

On the other hand, Lowell was shocked in his heart.

"I never expected them to probe my student in front of me," He said in my heart.

He was also worried about Zack.

But when he heard everyone's comments.

He mistook that the probing was simple and not that deep.

If it was deep, Zack's cultivation method would have been exposed.

Follow new episodes on the "N0vel1st.c0m".

But both don't know that the mysterious spirit hidden inside the ancient blood of Zack's body awakened after a long time.

The inheritance spirit completely shielded Zack's secrets from everyone's eyes.

Then it fell asleep again.

A few seconds later,

An old man appeared in the room without alerting anyone.

He is the Gold Mark Warrior, Head of the Federation.

"Quiet," He said.

The next second, everyone quieted down.

A hint of fear and respect appeared in everyone's eyes.

There is a single layer between the Silver Mark Warrior and Gold Mark Warrior.

It's not easy to break through.

Each inheritance is different and the level of comprehension and talent required is also different.

That's why there are few Silver Mark Warriors in the whole federation.

But the Black Mark Warriors are quite in numbers.

As long as they accept basic-level inheritance, they can become Black Mark Warriors.

Lowell became respectful as well.

He saw that the Federation Head was observing Zack.

Earlier, he thought only major core members would come.

But to his surprise, even the people from the miscellaneous department were present there.

He realized his decision had caused huge effects.

Even the Head himself showed his presence.

Among the core members present here, there is also Lord Keen who went against him.

He thinks the current situation has something to do with him.

On the other hand, I was shocked to the core.

Someone powerful is probing my body.

This time probing was so intense that a cold sweat bead appeared on my forehead.

“What a pure lightning essence.

It was enough for you to fight across ranks,” the old man commented.

“Bone age is good.

We don’t lack lightning resources here.

If you do well, you can get those resources.

”

“Zack Lockwood, you have passed my initial test.”

“But we have yet to see your combat skills and techniques.

So Lowell you can take your student to the Phantom Tower,” The old man said.

Hearing that Lowell replied, “Yes, Head.”

After saying that he grabbed Zack’s hand before walking outside.

When both of them were gone, the projection of the old man didn't disappear.

"You know why they call me fierce Ben," the old man said before his gaze scanning everyone.

The Black Mark Warriors shuddered in fear.

The old man grinned before adding, "It's because I kill without thinking about the consequences.

Especially when some forces cross their bottom line."

The Black Mark Warriors swallowed saliva in fear.

They know the Head in talking about them.

The 25th floor is reserved for core members.

No Black Mark Warriors are allowed here.

However, they overstepped their boundaries to participate in the meeting.

"I know most of the non-core members gathered here to collect intel for your force.

But I will remind you if anyone dares to harm that kid."

"The consequences will be severe," He said.

Hearing that the Black Mark Warriors sighed inwardly.

99 people are here except the dean.

But only a quarter of them are core members.

At the same time, Keen calmed down his restless heart.

He did allow his access to be used by some of his friends.

Similarly, other core members did the same as well.

Then how come 75 people dared to enter here?

It's because everyone is the culprit except Lowell.

That's why the Head with the warning.

Otherwise, he would have punished him.

After the final warning came, he decided not to target the kid.

He thinks that other core members would do the same as well.

No one wants to get on the bad side of the Head.

But it's different when it comes to the other 22 forces.

On the other hand, the federation head sighed in his heart.

He recently added a few more core members to the federation.

But he didn't expect them to act like this.

If he wants to be punished, then he has to punish everyone.

Then he shook his head before looking at the projection.

Meanwhile,

"Teacher, why are there so many people?" I asked if I should stand inside the lift.

"Sigh!"

"I didn't expect them to cross the line.

Most of them are not even core members.

But I guess other core members have a part in this," Lowell said.

He found some new faces in the meeting as well.

They have similar strengths to him.

"Maybe the situation at the Tier-4 boundary is serious.

Otherwise, there is no need for new core members," He said in his heart.

On the other hand, I sighed in relief.

“Maybe that’s why the rune was not exposed,” I said in my heart.

Chapter 734: Part 1: Unrivaled

From MC’s perspective:

Army Federation HQ:

After walking out of the tower, the teacher led me towards another unauthorized area.

When we got here.

I saw another teleportation platform.

This one is even more guarded.

I guess the place of the test is where it leads.

Lowell saw the curiosity in Zack’s eyes.

But he can’t talk about the content.

Especially after knowing that Head Ben is going to watch as well.

“It will lead to another sub-space.

Where the Phantom Tower is located,” Lowell said.

Hearing that my thoughts become clear.

The guards didn't stop us after seeing the teacher.

Everyone recognized him.

After arriving at the platform, he did a similar action.

Swoosh!

The next second, we disappeared from the spot.

When I opened my eyes.

I found myself in a different place.

And there was a huge black tower shrouded in shadows that appeared in front of me.

The tower is nothing like the residential area.

It's the actual place of the test.

"You can enter inside," Lowell said in a serious tone.

He knows hereafter Zack's performance will be under the eyes of everyone.

I didn't have to properly look at the tower.

So I hurriedly approached the door.

Creak!

The door opened automatically.

After entering inside, I found myself in the room.

At the same time, the projection on the 25th floor showed the inside scene.

I took my black sword and started looking around.

Follow new episodes on the "N0vel1st.c0m".

Swoosh!

The next second, something appeared in the form of shadows.

The shadowy figure gives the presence of the Early Super Elite Stage.

Seeing that a look of understanding dawned on me.

Cut!

I swung my sword to attack.

It was a normal attack without any technique.

But when the blade touches the shadowy figure.

It bounced back.

The impact force made me step back a little.

“It’s not your average Early Super Elite Warrior,” I said to myself.

The next second, the shadowy figure started rushing towards me.

Seeing that I held the sword in my left hand.

At the same time, I raised my right hand to point my finger at the rushing opponent.

“Lightning Finger Technique”

A purple ball formed at the tip of my forefinger.

The next second, I released a purple beam towards the shadowy figure.

Boom!

The purple beam went straight before hitting the shadowy figure right in the chest.

Bang!

An explosion occurs.

The purple beam left a hole right in the chest.

The next second, the shadowy figure disappears into thin air.

Seeing that, I wasn’t surprised.

I just used the 1st stage of the lightning finger technique.

It can easily take care of Early Stage Super Elite Warriors.

25th floor:

“Look at that.

The technique is not at a beginner level.

He is well into the next stage,” Head Ben commented.

He wants to see more techniques.

In that way, he can judge the talent of Zack Lockwood.

Some of the faces of Black Mark Warriors turned dark.

They can see a glimpse of the talent with this technique alone.

And everyone saw a black sword in Zack’s hand.

This further shows Zack uses the Sword Technique as well.

This is something that these people don’t want to see.

But it can’t be helped.

The Head had made his intention.

They can't target the kid unless someone from their force or family takes the job.

Among the Silver Mark warriors, Keen was more disturbed.

After seeing the one-shot kill.

Now he thinks that he made the right decision not to poke his nose anymore.

Tower 2nd floor:

Back in the tower, I disappeared from the spot.

I appeared on the 2nd floor.

If I'm right, the next stage would be Mid Stage Super Elite.

Swoosh!

Right after, a tall shadowy figure appeared.

This time there is a sword weapon in its hand.

Which is also materialized from shadow.

Seeing that my eyes flickered.

The figure is giving the coercion Mid-Stage Super Elite.

My mouth curved into an arc.

“Sword Divide”

I wasted no time in charging up the sword blade with the purple essence.

In the blink of an eye, the black blade flickered with a purple glint.

When the shadowy figure took a step to charge against me.

Boom!

I discharged a sword beam targeting the shadowy figure’s chest.

This time a more powerful purple sword beam tore through the air and landed a blow to the shadowy figure.

Bang!

An explosion occurs.

When the smoke is gone.

The result becomes clear.

The upper body of the shadowy figure was gone.

The purple sword beam destroyed the upper part of the body.

The next moment, the sword beam disappears into thin air.

25th floor:

“Good!”

“Another lightning technique above the beginner stage.

It’s even better than the Finger Technique,” Head Ben muttered to himself.

It becomes clear that Zack is aware of his performance being watched and judged.

So he is taking out everything from his arsenal.

At this moment, Head Ben started to appreciate the eyes of Lowell McClain.

In his opinion, Zack can contend against the Super Elite Warriors of the inner post.

The faces of the Black Mark Warriors turned even more ugly.

Right now it’s become clear to everyone that Zack Lockwood is not an ordinary warrior.

Two techniques practiced well above the beginner stage.

It’s considered as good compared to hundreds of thousands of Super Elite Warriors living in the inner post.

On the other hand,

Lowell McCain smiled seeing the green light lit up in the 2nd clear.

Which means the 2nd floor was clear.

He knows as long as Zack remains undefeated in the same base.

No one can judge his qualifications.

Even more so Zack is someone from the outer post.

Which is better compared to the people who have grown up here.

He thinks that the Federation issue is almost solved.

Next, he has to talk to the McClain Main House to set up a similar trial.

So that Zack can get approval from 2 forces.

Which will add more strength to the profile.

Ultimately, he wants Zack to enter one of those universities.

That's why all this preparation is needed.

Chapter 735: Part 2: Unrivaled

From MC's perspective:

Tower 3rd floor,

Swoosh!

I appeared on the next floor.

A shadowy figure with Peak Stage Super Elite in front of me.

The figure is holding a saber in its right hand.

Seeing that I decided to defend this time by using another lightning technique.

I want others to know that I'm talented enough to get this position.

Though I'm from the outer post.

I can still fight against most of the geniuses at a similar stage.

Boom!

The shadowy figure starts charging towards me.

It raised the saber in front.

Its edges give me a sharp feeling.

When the figure was a few steps away from me.

"Lightning Wheel"

I released the defense technique.

A thunderous purple wheel formed around me, the next moment.

The wheel is filled with destructive lightning power.

At the same time, a red flame arc shot at me.

The shadowy figure holds the saber burning with the red flame.

It's continuously taking shots at me.

Seeing that I started rushing out to collide as well.

Boom!

When the flame arc hits the lightning wheel.

A small explosion occurs.

But it failed to completely detonate the lightning wheel.

One by one the flame arcs hit the purple wheel.

But the elemental energy of the flame arc was not enough to destroy the defense.

By this time, I arrived before the shadowy figure.

For the first time, the shadowy figure showed intention to retreat.

Seeing that I increased my speed to make a collision.

Bang!

Follow new episodes on the "N0vel1st.c0m".

When we both collided.

A loud explosion occurs.

A deafening sound reverberated throughout the floor.

The aftermath shockwave shakes the floor.

When the dust settles down.

The shadowy figure appeared.

But one of its legs and arms are missing.

The left side of the chest was destroyed.

Where the heart was located.

But I don't know how it works for the shadowy figure.

But the shadowy figure starts to disintegrate the next second.

Seeing that I sighed inwardly.

With that, I have cleared a similar stage.

From the next level, I have to go all out.

25th floor:

“Another formidable technique.”

“It’s above the beginner stage as well,” Head Ben’s eyes flickered.

Now he is impressed.

He is beginning to think about the motives of Lowell McClain.

The Head is beginning to think that Zack Lockwood has a chance to enter one of the big academies under 20 as well.

As long as Zack can increase the cultivation base.

There is a genuine good chance to enter those places ahead of time.

The Black Mark Warriors inside the room are having gloomy expressions.

Some of them are already taking notes.

This information will be valuable for their organization.

The Core members are also reevaluating their decision.

Not only does Lowell have a successor, but they also have their successor.

They are geniuses from various families and clans.

Many times stronger than Zack.

As their cultivation base is already Commander Stage and General Stage.

At this stage, a comparison can't be made.

Meanwhile,

Lowell McClain sighed in relief as well.

He thinks that no one will cause trouble including the Head Ben.

Tower 4th floor:

Swoosh!

I appeared on the next floor.

The shadowy figure appeared again.

A pressure of SS-Elite Early Stage appeared.

In the next second, the shadowy figure moved fast.

In the blink of an eye, the figure appeared before me.

“Lightning Wheel”

I released the defensive technique.

The purple lightning wheel formed again.

Before I could think further.

I got hit by a sudden windstorm.

Boom!

An explosion occurs.

The lightning wheel took the brunt of the attack.

It offsets the power of the wind element.

Tud!

But its impact force has sent me a few steps backward.

“Strong!” My eyes flickered.

Why does it feel like a Peak Stage but not an early stage?

The appearance of the sudden wind attack caught me off guard.

Swoosh!

Before the smoke could recede the shadowy figure charged at me again.

The speed was so fast that it appeared before in the blink of an eye.

“Lightning Phantom Technique”

I finally used the movement technique in this trial.

A purple arc covered both of my legs.

Before another attack could reach me.

I disappeared from the spot.

Swoosh!

The shadow figure released the wind attack.

But it hits the empty spot.

When I widened the gap between us.

I pointed my finger to release the 3rd stage of the Lightning Finger Technique.

Boom!

One after another, a thick purple beam hits the shadowy figure.

The figure tried to move away by using the wind element.

But still, the attack manages to hit the body.

In the 3rd Stage, continuous lightning attacks have slowed down the movement of the Shadowy figure.

Seeing that I continued to target the opponent.

A few seconds later,

The Early SS-Elite Stage Shadowy figure finally disintegrates.

The next second, a green light lit up the room.

25th floor!

Everyone is silently watching the protection.

At this time, everyone is convinced that Zack is a talented young lightning warrior.

He can eliminate most of the rivals in the same stage.

But the ability to fight across ranks is more important.

Especially the warriors involved in hunting teams face High-Class monsters most of the time.

So the current display of Zack's strength made everyone serious.

"I was right!"

"Indeed, this kid can enter the university if he gets a chance," Head Ben's eyes flash with a mysterious glint.

There are countless geniuses in the inner post.

But not all of them can fight across the ranks.

The destructive power of the lightning gives an added advantage to Zack.

He also noticed that the power of the lightning finger was better than before.

Any average Early Stage SS- Elite Warrior can be killed by that attack.

"Ho..Ho..!"

"If he participates in the top list ranking battle, it will be more interesting," Head Ben said to himself.

The top list ranking battle for the Super Elite Stage and SS-Elite Stage is most of the time conducted internally.

But no one pays attention to the Super Elite Stage.

Most of the newcomers are SS-Elite Stage Warriors who start their journey.

Chapter 736: Part 1: Get noticed

From MC's perspective:

Tower 5th floor,

I appeared on the next floor.

And the pressure of Mid-Stage SS Elite Warrior appeared.

When I raised my head, I saw the shadowy figure was more dense than before.

A look of apprehension appeared in my eyes.

The previous shadowy figure was like Peak Stage.

Now the Mid-level SS-Elite Shadowy figure gives me coercion nothing less than that of Dean Rebecca and Carlos Kent.

A sudden realization dawned on me.

Don't tell me the phantom shadow figures have the strength to fight across the ranks.

Now I wonder if it was made to go all out on the previous floor.

Swoosh!

Before I could think further.

The shadow figure in front of me disappeared.

Boom!

The next second, I found my chest being hammered by a powerful fist.

The powerful hit sent my body backward before I stabilized the movement.

I had the impulse to use the blood element method techniques.

Then I suppressed the urge in my heart.

If I expose now, it will only lead to suspicion.

Next time, those Black and Silver Mark Warriors might probe my body deeper.

I don't have any choice but to use the lightning techniques alone.

Boom!

The shadowy figure rushed out to attack again.

Seeing that I released the lightning defensive technique.

"Lightning Wheel"

A thunderous purple wheel formed around me in the blink of an eye.

At this time, a huge fish slammed my body again.

It collides with the lightning wheel.

Bang!

An explosion occurs.

The purple lightning wheel around me collapsed.

But I remained unscathed.

Follow new episodes on the "N0vel1st.c0m".

The power was enough to block the first attack.

Tud!

The next second, I took a giant leap backward to make up the gap.

Then I raised my head to observe the state of the shadow figure.

The shadow figure looks alright.

It appears as though it was used for a warm-up.

Because it hasn't used any elemental attack so far.

Looks like even if I use all the cards.

It won't be enough to clear this floor unless I resort to the blood and soul techniques.

A quick gleam flashes in my eyes.

The next second, I said, "I want to quit."

Hearing my voice, some mysterious energy sent me outside.

When I appeared outside.

I was already in front of Teacher Lowell.

Lowell's eyes flickered.

He knew the 5th floor was difficult for Zack.

Because those shadow phantoms are not easy to defeat.

"You have done well."

"You have already shown the ability to fight across ranks.

Which was more than enough to secure your position."

"Let's go back now," Lowell said.

25th floor:

Head Ben sighed.

But he understood the reason.

At the current stage, it's too demanding for Zack to clear the 5th floor.

But the current record is not bad either.

If he breakthroughs there is a high chance of clearing other floors.

No one spoke among the Black and Silver Mark Warriors.

Zack's performance was already scary.

If he had cleared the 5th floor.

These people would have been truly terrified.

On the other hand, we came back to the HQ tower and went straight to the 25th floor.

After arriving at the place, I was met with a lot of fierce gaze.

Head Ben looked at Lowell before pausing his gaze on Zack.

"Okay kid, you have passed the test."

"You have talent and skills.

Which shows you have good prospects.

But you are lacking combat experience."

“You are taking time to think.

It might hurt you badly in a do-or-die situation,” He commented.

Hearing that Lowell also agreed within his heart.

It’s not something new for Zack.

People who come from outer posts face this challenge as well.

Because the Class Monsters here are powerful and intellectual.

Most of them have one or two deadly abilities with them.

To fight them, you need a sharp mind.

On the other hand, I nodded my head before saying, “I’ll do my best.”

“Ha...Ha...Ha...”

“Good, you have proved your worth with your performance.”

“Next try to get a position in the Super Elite Top list ranking.

Which is going to be held here next month.”

“Then you can break through to join the hunting team,” Head Ben advised with a smile.

For some reason, today he became more talkative than usual.

It might be because of Zack's background.

He doesn't belong to any forces.

As long as the federation invests in him, they can get benefits in the future.

A quick gleam flashed in Ben's eyes.

"Lowell, you too.

You did a good job."

"Now you can take him back to your place," After saying that he disappeared from the spot.

"Phew!"

The people sitting inside the room heaved a huge sigh of relief.

I too felt a huge weight lifted off from my shoulder.

I don't know why but getting stared at by the Gold Mark Warrior was a scary feeling.

"We can leave right now," Lowell said before sweeping his gaze across everyone.

Before he spotted the gloomy expression of several Silver Mark Warriors.

Today's incident was inseparable from them.

On the other hand, I quietly followed the teacher to his face.

Seeing the disappearing back of these two.

Some of the Black Mark Warriors showed envy and hatred.

The core member successor position comes with a lot of benefits.

So some of them are unwilling for someone from the outer post to get the benefits.

But no matter what they won't dare to do it here.

The Federation Head made it clear.

His words are rules.

People who break it will suffer consequences.

Not only them but the forces behind them also would have to suffer the same fate.

In the entire innermost region, the number of Gold Mark Warriors can be counted in fingers.

So no one is going to target inside the territory of the Federation which includes all four cities.

On the other hand, Keen showed a disappointed expression before it became normal.

His successor was someone from the influential forces and talented as well.

So he decided to let his successor participate in the top list ranking.

Not the internal one but the Commander Rank Competition.

Chapter 737: Part 2: Get noticed

From MC's perspective:

We used the teleportation platform to leave the HQ.

Soon, we returned to Delta City.

By that time, the trial result had made the headlines and already started spreading like wildfire.

When we walked out of the Delta City platform.

The people who guard the place already started looking at me with curious gaze.

"Don't be surprised.

Those Black Mark Warriors must have spread the news," Lowell said in a cold tone.

Hearing that, I don't know whether it's bad news or good news.

A few minutes later,

We returned to Lowell Castle.

But the Teacher seems to be in a bad mood.

"You can go and take a rest.

I'll summon you later, "After saying that Lowell went to his study room.

Shortly after,

Jonathan arrived.

His face carried an unbelievable expression.

"I know you are strong.

But your performance exceeded my expectations," Jonathan commented honestly.

He knew that people in the HQ were not at mercy.

They must have made it difficult.

But still, Zack made it out with flying colors.

On the other hand, I frowned and a gloomy look appeared in my eyes.

"What happened?" Jonathan asked.

Hearing that I started to tell what happened at the HQ.

A few minutes later,

"Shameless b@stards," Jonathan gritted his teeth.

“It’s impossible for Black Mark Warrior to appear in the meeting room.

Unless someone gave them approval.”

“The other core members have approved them to enter.

I guess they wanted to see a joke.”

“In return, they have received a face slap,” Jonathan saw through everything.

He knew people in this region spent more time calculating others than spending time on Cultivation.

On the other hand, I seemed to realize the same as well.

I’m already in the spotlight.

It won’t be long before I encounter the means of these people.

Follow new episodes on the "N0vel1st.c0m".

“Don’t worry Zack.

They won’t do it here.

Since the Federation Head has warned them.

No one dares to cross his bottom line,” Jonathan said with great confidence.

“But things will change if you go to cities under other influences,” Jonathan warned.

He knew other forces wouldn't hesitate to target Zack.

Because Zack has no background.

The Federation Head has made it clear.

But still, the attitude of McClain House is unclear yet.

So hostile forces won't remain silent.

They want to kill Zack before he fully grows up.

Then we talked about a few other things before I returned to my room.

A wave of tiredness washed over me.

I was on edge the whole time since I left the place.

Now I can finally relax.

Then I lay on my bed to sleep.

Meanwhile,

Lowell McClain is taking notes of the aftermath.

He wants to know how much information has spread.

He is accessing some sites which are only available to powerful people like him.

[New Genius: Zack Lockwood]

[Age: 15 1/2 or 16]

[Talent: Top Grade]

[Element: Purple Lightning]

[Cultivation: Peak Stage Super Elite]

[Techniques: Sword Styles]

[Position: Core Member Successor]

[Native: Outerpost 1012]

Lowell is looking at the blue screen in front of him.

It's one of the respectable sites that usually predicts the strength of talented warriors across the inner post region.

The Intel published here is considered as an original.

So many forces use this information to compare with their Intel.

But now he thinks even the people behind this site underestimated Zack's talent.

According to him, the talent of Zack is Superior grade.

Otherwise, it's impossible to cultivate 3 powerful cultivation techniques.

He felt glad that Zack didn't use his strange body techniques.

Otherwise,

it would have caused a storm.

Dual practitioners are rare.

The majority of the warriors have time to cultivate either body or essence.

But in Zack's case, it's slightly different.

Zack's real talent is too shocking.

So he thinks that the inner post is still not enough for Zack.

He believes Zack should join those universities.

When he accepted Zack as a student, he thought Zack had the potential and strength to enter the inner post.

But after witnessing Zack's 3 dazzling runes sometime ago.

He changed his decision.

Whether it's a McClain House or Federation they can only be used as a stepping stone for Zack.

"Sigh!"

Then he let out a long sigh.

But for the time being, he thinks both forces can be reliable backers for Zack.

Once he gets a respectable place on the top list.

He might have a chance to get the quota.

When recalling quota, a quick gleam flashes in Lowell's eyes.

People without next-level inheritance or not having enough talent can only rot here.

But Zack has a chance to enter that place.

Because Zack is still under 17.

Suddenly, he thought of something.

"If that kid could polish his combat style, he can attract even more attention," He said to himself.

Then he set his gaze on the screen.

The current recorded information on the site is still eye-catching.

His clan or federation enemies might target Zack in the future.

But it can't be avoided.

He decided to look for some life-saving items.

Meanwhile,

The McClain Main House got the information as well.

It quickly alarmed everyone including the Gold Mark Supreme Elder of the Main House.

Everyone thought the new kid was a country bumpkin.

It might take a long time to get used to the inner post.

But the profile information said otherwise.

Which is comparable to the Main House Young Generation.

So the Main House high-ranking people once again forced a reevaluation of their decision.

Before they were still undecided.

Now the intel information comes from a prominent site.

They are also aware that the Federation has conducted a Trial.

So the information must have come from there.

A very quickly high-level meeting was convened.

3rd Branch Family,

Elder Claire, Elder Ollie, and Elder Christie are left dumbfounded by the news.

Earlier, they had similar opinions as the Main House.

Even more prejudice against the outer post region.

For a second, they thought the talent was better than their young master Clay.

Now they have left with mixed emotions.

Chapter 738: Part 1: An outside guest?

The 3rd McClain House:

“It’s impossible,” Clay shouted out loud, looking at the message he received from one of his connections.

He just came back from the Main House to take a few days off.

But he didn’t expect to meet with such uncomfortable news.

For a second he felt unbelievable then he began to read the information again.

A few seconds later,

His expression turned solemn.

He is an SSS-Elite Warrior.

He is not afraid of anybody.

But the information sent by his connection was rather incredible.

It's said that Zack Lockwood is Peak Stage Super Elite Warrior.

Has the ability to fight across ranks.

This means Elder Lowell's students are talented and have a solid foundation.

Without a good foundation and fighting ability, it's difficult to fight across ranks.

"He can fight against the SS-Elite now.

Once he breakthroughs, don't tell me he can fight against SSS-Elite Warrior," He said in his heart.

Which is what concerns him.

Earlier he looked down upon Zack Lockwood after knowing existence.

But he has realized now.

Why Elder Lowell preferred Zack over him.

The lack of a cultivation base can be solved by consuming special treasures.

So he thinks Zack can catch up to him in no time.

“No, I’m better than him.

He is still a country bumpkin.

Once he comes here, I can teach him a lesson,” Clay convinced himself in his heart.

Because he is an SSS-Elite Warrior.

He doesn’t think that a random person from the outer post can solve him.

Meanwhile,

McClain Main House Meeting is going on.

From 1st to 6th House Heads and elders are present as well.

The topic of discussion is about Zack Lockwood.

Follow new episodes on the "N0vel1st.c0m".

The Family has Silver Mark Warriors.

But among them, Lowell McClain was influential and powerful.

Having a background in both Federation and McClain House.

Lowell McClain can be considered as one of the influential figures in the whole inner post.

Let alone the McClain Main House.

No one wants to offend a person with such a background.

Everyone is aware that Lowell has a core-level identity in the Federation.

It's also one of the respectful positions.

At this time, everyone was seated at a round table.

More than 20 people were inside the room.

Including the Supreme Elder in the middle who is Gold Mark Warrior.

But he is very old.

Even older than the Federation Head Ben.

The Supreme Elder was a bald-headed person wearing white and golden clothes.

He raised his head and looked at the Head of Main House who was sitting right next to him.

The Main Head is wearing white and red clothes.

His appearance matches more or less with the Supreme Elder.

Indicating that he is a descendant.

“What do you guys think?” the old man opened his mouth.

His voice sounded low but it felt like thunder in everyone’s ears.

The Main Head appears to be 40 years old.

His name is Kane McClain.

Hearing the words of the Supreme Elder.

His eyes flash with a glint.

“Supreme Elder, I think Elder Lowell’s request is excessive.”

“Why should we allow an outsider to enter our family?”

He said without any emotion on his face.

Gasp!

Hearing that a small gasp sounded inside the room.

Even the 3rd Head Martin was dumbfounded.

Because the Main Head Kane was very supportive of Lowell.

What has changed now?

Not only him but, the other 4 Heads are bewildered as well.

Taking this opportunity, 3rd Head Martin decided to strike the iron while it was hot.

"I agree with the 1st Family Head.

Elder Lowell has picked an outsider as his student.

Which is already not good.

Now he wants his students to consume family resources and train.

Which is unfair," Martin said in a solemn tone.

Hearing Martin's supportive words.

Others sneered.

Everyone knows that Martin is showing his displeasure.

The Supreme Elder's old eyes swept across everyone.

The Main and 3rd Heads choose to stand opposite Lowell.

He sighed inwardly before asking, "What about others?"

The 2nd Family Head said, "I think we should respect and understand Elder Lowell.

He is one of the major contributors of the family."

“He has saved a family from countless trials.

If we act ungrateful now, then next time you should seek help from others,” The 2nd Family Head added.

His words are an undesirable fact but he is targeting the 1st Head and 3rd Head.

Hearing that face of the 1st Family Head turned ugly.

Because he was the one who asked for help from Lowell during the family crisis.

Now the 2nd family head’s reminder is an act of humiliating him.

Then he snorted.

Suddenly, the 4th, 5th, and 6th Family Heads found that the gaze of the Supreme Elder was on them.

They don’t have a choice other than to speak.

If they choose to speak, either they have to support or oppose Elder Lowell.

At this time, the 4th Family Head has decided to support the 2nd Head.

“Elder, I think we should not forget the support of Elder Lowell over the years.

Besides, he could have selected someone from the federation or other forces as his student.”

“But he chose not to.

Which can be considered as a good result," He said.

Hearing that 2nd Elder revealed a smile on his face.

He doesn't know what will be the result of the meeting.

But he can seek help from Elder Lowell.

The eyes of the 1st family head turned cold.

He can see that those 2 don't want to offend Elder Lowell.

The 3rd Head Martin's expression changes drastically.

He is speaking out without consulting the elder back in the 3rd branch house.

If they choose not to support him, then his position will be challenged.

But he is betting his hopes on the 1st family Head.

His son is also training in the Main House.

So he wants to make things easier for his son.

The Supreme Elder then looks at the last 2 Family Heads.

Then shook his head.

The Last 2 Families are weak.

He doesn't want to make their lives difficult.

"Alright, let that kid enter the Main House.

But give him a treatment of outside guests.

Since he is going to have 2 identities."

"There is no need to involve him in family matters," the Supreme elder said.

Chapter 739: Part 2: An outside guest?

From MC's perspective:

Lowell Castle:

I woke up late in the evening.

Feeling the fatigue was gone.

I decided to train myself hard.

After changing into training clothes, I went to the basement.

Then I picked the essence chamber to recover the purple essence.

I'm glad that there was no lack of lightning resources here.

After entering inside, I picked the basic mode.

Shortly after, the room was filled with white energy.

The world's energy quickly covered the room.

Sitting down cross-legged, I closed my eyes and started running the celestial scripture.

Right after, the lightning rune in my consciousness starts to flicker.

Slowly, I felt the presence of purple energy around me.

Then I started to absorb them into my body.

Then I started to guide the energy according to the lightning method.

I felt a domineering energy flow through my body.

But my meridians are quite used to it.

After circulation, the refined purple essence settles down in the dantian.

Seeing that I repeated the process.

A few hours later,

I fully recovered the purple essence and decided to switch to the blood element method.

A quick gleam flashes in my eyes.

If I had used the blood technique in the trial, then I would have cleared the 5th and 6th floors.

The power of my red bones even gives me heart palpitations.

But so far I haven't had opportunities to test it out.

After pushing down these thoughts, I started practicing the blood element method.

Meanwhile,

Lowell McClain receives news from the Main House.

They are going to hold an introductory meeting tomorrow.

After getting the news, he felt mixed emotions.

He knew the family members were disappointed in him.

Follow new episodes on the "NOvel1st.c0m".

But it can't be helped.

The world is not as easy as they think.

He has personally gone to the Tier-4 boundary many times.

To face those challenges, you need genius-level warriors.

Compared to Zack, the family has no one.

Which is why he didn't pick any of the young generation.

When it comes to federation.

He doesn't want to choose outside forces.

It's paramount to invite a tiger to the mountain.

The other forces have always been eyeing for the core member position.

So he did not feel good about ulterior motives.

Only Zack can satisfy his condition.

Time passes,

An hour before dinner.

I returned to my room.

After practicing all the 3 cultivation methods, I felt an increase in strength.

Then I went to take a shower.

20 minutes later,

After changing clothes, I left the room to have dinner.

When I reached the main hall.

I saw that the Teacher and Jonathan were already there.

I took the empty seat after greeting them.

Lowell observed Zack.

Seeing that Zack didn't forget to train.

He felt satisfied.

Then he said, "Zack, you have seen with your own eyes.

How was the atmosphere of the HQ?

These people dared to play their schemes in front of the Federation Head."

"Imagine, what can they do in the dark?" He said.

A hint of apprehension appeared in my eyes.

I can fight across ranks.

But that doesn't mean I'm invisible.

The first time, I saw the Black Mark Warriors and Silver Mark Warriors.

And eventually the Federation Head.

All of them are shrouded in mystery.

It's a kind of unknown pressure affecting your mind.

Jonathan saw the reaction of Zack.

He then turned toward Lowell and asked.

"Master, do you think they will send their men to our delta city?" He asked.

He never thought his own Master was thinking seriously about this.

Which means the problem is not as simple as he imagined.

Lowell saw through Zack's thoughts as well.

"I'm just saying don't underestimate the threat.

Today I was even surprised.

But fortunately, the Federation Head made it clear," He said.

Hearing that I raised my head and said, "Don't worry, teacher.

I'll never go out until I get sufficient strength."

Though I'm a little bit unwilling in my heart.

I understood the danger.

It's not like the Academy backed them.

Back there are only 2 hostile forces.

Only one of them was after my life.

But here there are many forces.

So I can't take any chances.

After having dinner silently, I returned to my room.

But shortly after, I received a call from the teacher.

When I went to the study room.

I saw his serious-looking face.

"Something is up," I said in my heart.

Lowell collected his thoughts before looking at Zack.

"There is one more piece of good news.

McClain House is going to hold an introduction ceremony for you," He said.

Hearing that my eyes flickered.

It must be the effect of the Trial Tower Result.

Lowell saw through Zack's thoughts.

He let out a chuckle and said, "You have already guessed it.

The Trial Tower results have changed the opinion of family elders."

"You are recognized by the Federation.

It's normal for a family to recognize you.

But there is a slight change.

You will be an outside guest of the family."

"Which means you can get resources.

But you have to earn it.

No one will provide you," Lowell said in a normal tone.

He can see that the Supreme Elder is dissatisfied as well.

On the other hand, I remained silent.

To be honest, I like the federation.

My uncle was a small-time officer in the outer post.

So I got a favorable opinion of the federation despite the internal politics.

“Do you have anything to ask?” Lowell asked.

Hearing that I nodded my head and asked, “Teacher, was it necessary to join the McClain House?”

“I think that federation identity is enough for me,” I added.

Hearing that Lowell was stunned.

For a second he thought he didn’t take Zack’s choice in his plan.

He is just making plans for him without asking him.

He then let out a bitter laugh.

“That’s right, why do I have to accept the family’s answer?”

“They are clearly showing dissatisfaction.

In order not to offend me, they must have agreed to give an outside guest post,” He said.

He finally agrees with Zack’s decision.

He wanted McClain House as a backer for Zack.

But not as a hostile place.

Chapter 740: Swift movements

From MC's perspective:

Study room,

Finally, Lowell has decided not to force Zack.

The relationship with McClain Main House may not be good for Zack.

"Alright, Zack you can stick with one identity.

From the beginning, you have been connected with the Federation because of your uncle."

"So there is no need for another backer," Lowell said.

Hearing that I sighed inwardly.

Now, I can focus on increasing my strength.

"What's your plan next?" Lowell asked.

"I'm going to participate in the Super Elite Ranking List Competition," I replied.

Lowell nodded before saying, "The internal competition is rather easy.

It's unlike other competitions.

Here, you have to achieve the maximum number of wins against your opponent."

“For example, the previous number 1 holder achieved an 85-15 ratio in 100 duels,” He added.

The next second, a realization struck my mind.

It’s not like other competitions where you have to go through the qualifying stages.

Here I have to achieve a maximum win to defeat ratio.

“Teacher, when can I participate?” I asked.

“If you are ready, I can submit your name.

I’m sure the organizers will arrange the quick data.”

“Apart from your other 99 warriors have similar chances.

They are participating in the competition as well.

It will take a few days to select the warriors.”

“Until then you can train yourself hard,” Lowell said in a calm tone.

Then we spoke for a few minutes before returning to my room.

The following day,

I woke up early.

After completing the morning train, I went down to the basement to train.

This time I entered the illusion chamber.

In those illusions, I can control my thoughts and actions.

So I can have a better battle experience.

After entering the illusion chamber, I selected the basic mode.

Then I sat cross-legged on the ground.

The next second, a white mist was released from the platform.

Before I knew it.

I fell into an illusion.

Follow new episodes on the "N0vel1st.c0m".

When I opened my eyes.

I found myself in the middle of a barren area.

Not long after, I heard some movements.

After activating the perception, the shape of the monster became clear in my mind.

Swoosh!

The next second, I started moving towards the place.

After a few seconds, I stood in front of the Class-5 Red Black Scorpion.

The Class-5 Monsters are tasteless.

But it's still a challenge if I want to end the monsters in one move.

The Scorpion monster starts to charge towards me.

Its poison stinger can pose a threat to me.

I chose to forget I was in an illusion and started to treat it like a real-life situation.

The next second, I picked the black sword.

“Lightning Phantom Technique”

I released the movement technique.

A purple arc covered both of my legs.

The next second, I disappeared before the monster could hit me.

Stab!

I appeared right above the monster's head.

Then I thrust the Sword blade directly into the monster's head.

Pfff!

A black sword easily pierced through the head and went deep inside.

A yellow color liquid gushes out from the head before the monster's lifeless body drops dead on the ground.

A hint of satisfaction appeared in my eyes.

That previous movement was swift.

I recalled the Federation Head's advice in my mind.

He wanted me to make a quick decision before acting.

I was taking too much time before each attack.

So his advice was valuable.

Then I walked past the monster's corpse.

There is no need to pick the monster core.

It's just an illusion.

A few minutes later,

I came across a Class-5 Brown Dotted Snake Monster.

Seeing that I started observing the monster movement's through perception.

Hiss!

The Snake monster let out a loud hiss after finding the prey.

The next second, it started to move in a zigzag manner towards the prey.

On the other hand, I gripped the black sword in my hand and started to charge the black sword with purple lightning essence.

In the blink of an eye, a powerful purple essence was absorbed by the blade and it started to flicker with the purple glint.

Hiss!

At this moment, the snake monster met with a sense of crisis.

The purple light gives it a sense of danger.

On the other hand, I wasted no time after seeing the monster's reaction.

I disappeared from the spot by using the lightning phantom technique.

In a few steps, I reached the monster.

The next second, I swung my sword.

Cut!

When the blade touched the monster's skin.

It cuts through the monster's flesh like a tofu.

Tud!

The next second, the decapitated head of the snake monster starts rolling over the ground.

I'm unrivaled in the same stage.

The Class-5 Monster is similar to the Super Elite Stags.

But the body of the monster is stronger.

Yet still I was able to cut the monster's head.

As the time passed, I started to look for the other monsters.

But I came across very few Class-6 monsters.

So I have fought against the Class-5 Monsters to improve my skills.

An hour later,

The illusion came to an end.

The scene in front of me cracked before my thoughts returned to reality.

“It’s worth the time,” I said in my heart.

But it’s a pity, in that illusion there are not many Class-6 Monsters.

Otherwise, the experience could have been better.

Then I stood up from the platform and walked outside.

Next, I decided to use the Gravity Chamber.

But before that, I have to take a short rest.

Then I found the chair to sit down on.

Out of curiosity, I started to read the latest news.

The news above me has already spread.

I want to see whether there is any new news this morning.

When I refreshed the news feed and searched for my name.

A new article appeared on the news feed.

Right after, my expression turned weird.
